## Group Working For 100% Parity

# Munday Man Represents Area At National Wheat Growers Meet

W.R. Moore Jr. of Munday was among the delegates who attended the four-day twenty-eighth annual convention of the National Association of Wheat Growers last week in Wichita, Kansas. Moore also served as vice-chairman of the Public Relations committee.

Winston Wilson, president of Texas Wheat Producers Association, was elected as vice president of the national organization.

Over 600 wheat producers from throughout the commercial wheat producing area of the nation braved winter snow and ice storms in their home areas as well as in the convention city to attend meetings.

During the business session of the national meeting, NAWG re-stated its long-standing belief in and work toward 100 percent parity of income for farmers relative to that of the rest of the economy. In a series of some sixty-two resolutions the group mapped plans and procedures toward achieving such a goal. These call for

higher commodity loan rates, increased target prices, and expanded domestic and export market development programs. These actions would call for Administrative decision by the President and U.S. Dept. of Agriculture, legislative action by the Congress and greater voluntary participation by producers themselves in set-aside programs and especially in strengthened support of their wheat boards and commissions check-off programs for market development efforts.

Among the key speakers was Sir Leslie Price, chairman of the Australian Wheat

## County Livestock Awards Presented

Knox City-O'Brien and area students were honored at the annual Knox County Livestock Awards Banquet Monday night in the school cafeteria at Munday.

Following the invocation and meal, Mrs. Leon Burkham of Knox City was presented an arrangement of dried flowers in appreciation of all her work in keeping the records each year for the livestock shows.

A highlight of the banquet was the presentation of the first annual Knox County Livestock Achievement Award, sponsored by Merle Tackitt of Tackitt Enterprises.

This first year's recipient was Shelton Rhodes, sophomore at Knox City-O'Brien Schools, who was selected by the ag teachers and Future Farmers advisors. Selection was based on total participation in livestock projects which also included attitude, cooperation, and participation with the total program of livestock management.

All phases of cooperation with stock show officials in helping with the show and

helping other students who needed help were a factor.

Shelton, son of Mrs. Florence Rhodes, has been involved in livestock hog projects for two years. His project this year was a barrow on which he spent many hours of tending to and seeing that all of the needs of his project was met, officials said.

Shelton competed with approximately 250 other FFA and 4-H members who were eligible for the achievement award.

In addition to his livestock projects, Shelton also has been active in JV football and track.

Charles Lankford of Knox City served as emcee and presented exhibitors checks for their prize monies as well as from the sale.

Exhibitors receiving checks during Monday night's banquet included Shane Johnston, David Walsh, Stacia Carver, Doug Brown, David Counts, Michael Albus, Melissa Zeissel, Greg Melton, Bob Burkham, Louis Lee Baty, Shannon Ryder, Greg Walling, Mark Oxford, Kevin Herring, Janet Zeissel, Kerrie Johnston, James Baty, Gary Birkenfeld, Dave Partridge, Kristi Boone, Stacy Groves, Gaylynn Burkham, Julia Partridge, Angela Meers, Johnny Reid, Monty McAfee, Cliff Hacker, Omar Choucair, Kyle White, Mike Oliver, Joseph Godsey, Rodney Warren, Stacia Ryder, Kevin White, Angie Partridge, Lorie Rolston, Brenda Albus, Chuck Hutchinson, Allen Baty, Randy Rounton, Jerry Gray, Lynda Brooke Hudson, Russel Hacker, Kristi White, Robert Espinosa, Charlotte Albus, and Jay Rutherford.

## Teams Begin Second Half Of District Play

By Jerry Lowrey

Last week's action closed out the end of the first round district action. Going through the first round undefeated was Crowell who is guaranteed at worst a playoff for the district championship regardless of what happens during the second half. As in the past our district is divided into halves with the first half winner playing the second half winner. The Greyhounds first half record ended at 4-3 with defeats at the hands of Paducah, Crowell, and Aspermont. The 63-56 defeat by

Crowell was the closest game played by anyone in district on the talented Wildcats. The Greyhounds are hoping to put their best games of the season together these next few weeks in trying to win the second half crown and get into a playoff situation with first half winner Crowell. We have our backs to the wall going into these final seven games and must win them all one at a time and regard no one too lightly. Of these three teams that beat us in the first half we play two of these on our home court in second half action--these being Crowell and Aspermont. The big game coming up is Friday night when we travel to Paducah and face the Dragons in a must win situation on their home court.

Tommy Mangis continues to be bothered by an injured back which has limited his playing time in the past few games. Hopefully, it will respond this second half as Tommy's experience and play are missed. We certainly need everybody healthy and a good concentrated effort this last three-and-a-half weeks.

## Broiler Winners Named At Show

In last week's story of the winners in the Knox County Livestock Show, names of the poultry winners were not included.

Broiler winners were Shane Johnston, grand champion; David Walsh, reserve champion; 1st, Shane Johnston; 2 and 10, David Walsh; 3rd Greg Walling; 5 and 9, Kerrie Johnston; 6, Kristi Boone; 7 and 8, Dave Partridge; 11, Daniel Altsides.

## Baker Chosen TET Prexy For Third Term

W.R. Baker, Knox City superintendent, was recently elected to his third consecutive term as State President of Texans for Equitable Taxation. In addition, Douglas Myers of Munday will serve on the TET Board of Directors as representative of a twelve-county region which includes Knox County.

Both men were instrumental in organizing TET in 1975 and have played major roles in the organization's legislative successes.

TET members held their annual business meeting in Austin on January 10. With an eye toward the 1979 session of the Texas Legislature, the group passed resolutions calling for quicker legislative action on school finance issues, mandatory cost estimates on all proposed

bills affecting local taxes, equalized and earlier State funding allotments for public schools, as well as statewide property tax relief.

House Speaker Bill Clayton delivered the keynote address to TET members. He praised TET members for their efforts in developing a school finance law designed to hold the line on property taxes. He said that, of Texas' 1100 school districts, over 300 reduced taxes this year and another 600 held taxes down to 1976 levels. He and TET President, W.R. Baker, reminded those present that school taxes could start to rise again if additional measures aren't adopted in 1979. Clayton concluded his remarks by urging TET members to stay involved in decision-making at the State and local levels.

## Mrs. Waldron Will Not Seek Re-Election

Mrs. Zena Waldron advised the News office this week that she will not seek re-election as County and District Clerk, an office she has held for more than 25 years. In fact, at the end of this term on December 31, 1978, she will have served 25 years and four months.

Mrs. Waldron began her clerical career in the Clerk's office for the late Tommy Glover when she was only 17 years old. She later was employed by the Knox County Abstract Office and had worked for two years for Selective Service on the Draft Board when she was appointed County Clerk September 1, 1953.

The longtime clerk, who

served without ever having to face an opponent, said that she felt, due to health reasons, it would be difficult to fulfill her duties and that she had always vowed not to be a "hanger-on".

She expressed sincere and humble appreciation to her constituents for their faithfulness throughout the years and said she would always remember their making it possible for her to live there and raise her family.

Mrs. Waldron's family includes a son, Jack who lives in Fort Worth, a daughter, Mrs. Barbara Pierce of Benjamin, her twins, Mike Waldron of Albuquerque, New Mexico, and Pat Peery of Wichita Falls, and nine grandchildren.

## CEMETERY MEETING

The cemetery association met Monday night at the Baptist Church for the purpose of electing new officers and setting some new rules. There were several people who braved the weather and sickness to attend the meeting. Mrs. Beatrice Ellis read the minutes of the last meeting, and I'm sure that most of you will not remember when this meeting was. It was in February of 1955. Now no one can say this group calls too many meetings. The minutes were signed by the president and secretary of the association at the time of this meeting, who were Dwight Gothard and Mrs. Lillian Waldrip. At the meeting Bea Ellis was elected president, Mrs. O.S. Johnston and Ike Pierson vice-president and secretary. The new officers are Susan Emerson, president; Charlene Brothers, vice-president; and Bea Ellis secretary-treasurer. The directors are C.H. Underwood, J.O. Brothers, J.M. Emerson, Butch Stephens, and James Manning. Bob Cameron acted as moderator for the meeting. The paying for the plots was discussed and it was voted that the money be paid before the grave is dug. Also the group voted to raise the cost of each plot from the \$15.00 now to \$25.00. It was decided that since everything has gone up this would be more realistic and would help toward the keeping of the grave for the first year. This is to go into effect as of now. The group has discussed several things they would like to get done in the near future, so if you are asked to help with something, be prepared to help a little. One of the things that is needed is to have a map (or whatever you call it) drawn of the cemetery showing where each grave and the name of the person who owns each plot is located. (I think of all the times the GA girls and I have walked over this we could have made two or three of these and did not do anything.)

Mrs. Ellis also gave the date that the rock fence was put around the cemetery and the cost. It was hard to remember that prices were ever this low, the entire cost was \$1104.00 and the year was 1961. The new addition was also purchased the same year. If you have any suggestions as to some good ways to keep the place clean without too much trouble to any one person, as it has been in the past, please contact one of the new officers or directors. We are trying to come up with some way of keeping this looking good without having to go around begging people for money every year. I know this gets old to you and it is hard on the person or persons who are doing it, but sometimes it is the only way you can get enough money. You out of town people that read The Knox County News every week keep this in mind and you can send a check to any of the officers any time of the year. Just send it to O'Brien, Texas, and the person will get it. We still have not grown that much, that everyone does not still know everyone else.

We also have a new service station in O'Brien. Dwight Gothard is changing from Mobil to Texaco. (I have been trying to get him to go Texaco for several years never thinking he would.) He said that Mobil is phasing out of most of their Mobil stations. They will keep some in the larger cities and on the Interstate highways, but might not be called by the name of Mobil anymore. This is to be in several states, not only Texas

So go by and try his new gas you might like it. (Dwight, how about a discount on my first tank of gas for the good word?)

It seems that nearly everyone here in O'Brien is having the flu or something similar and it is hard on you. Some of them have been very sick and having trouble getting over it. Maybe we will get a good rain and it will do away with the bugs and all will get better.

## KC Graduates Are Named To Tech Lists

More than 4,000 students qualified for the deans' honor rolls in the six colleges during the fall semester. Among those from Knox City were John Mark Howell, Sarah E. McGaughey, and Jimmy D. Moore.

From Route 1, Knox City, was Judith A. Hunter; from Vera was Harold K. Beck and from Truscott were Jacquelyn L. Brown and Cynthia J. Myers.

According to Dan Tarpley, Media director of Texas Tech News, state privacy laws prevent officials from releasing hometown stories concerning students unless they receive their permission. Many of the students do not give Texas Tech permission and others often list Lubbock as their permanent mailing address when they are really natives of other cities and towns; thus, making it impossible to notify hometown newspapers of their accomplishments.

To qualify for a deans' honor roll a student must have a grade point average of 3.0 or more on a 4.0 scale and must have taken as many as 12 semester hours of work.

Texas Tech University has an enrollment of more than 22,000 students in six colleges: Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering and Home Economics. Tech also has a Graduate School and a School of Law.

## Knox County Among Top 10 Wheat Producing Counties

AUSTIN--Knox County was among the top 10 wheat producing counties in Texas in 1977, Agriculture Commissioner Reagan V. Brown said today.

With a total harvest of 3,566,800 bushels, Knox County produced 3 per cent of the wheat grown in the state, Brown said.

Of the 116,800 acres planted in wheat, Knox County farmers harvested 111,200 acres, and realized a 32.1-

bushel per acre average yield, he noted.

The state's winter wheat production for 1977 totaled 117,500,000 bushels. This boosted Texas into the No. 6 spot in the nation in total wheat production, Brown commented.

He stated that the low wheat prices which accompanied this near-record production have hurt Texas farmers, particularly in the face of rising production costs.

"However, Texas farmers will receive a substantial share of the \$1.2 billion in federal wheat deficiency payments that will be paid out this year," Brown noted. "This should help ease the serious cash-flow problems our farmers have experienced because of the low grain prices."

Elaine Gulley of Munday was over to see Mrs. Hill.

Mrs. Hollis was a caller at the home. She spent time with her mother Mrs. Chand-

ler as well as others.

Mrs. Williams and two little girls pleased Mrs. Pray by calling on her.

Chester Jones called on a number of his friends at the home.

Mrs. Berryhill enjoyed a visit from the Vic Thomases.

Jim Burleson made a trip to Abilene one day this week. His niece Wysanda drove him.

Mr. and Mrs. Dabney spent a day or so at their home in Rochester visiting with their son, Shooter.

Mrs. Canaday was delighted to see her daughter, Audrey Wallace.

Mr. Waldrip entertained Vic Thomas and Elder Moran.

The birthday party for all those having a birthday in January was conducted by the First Baptist Church of O'Brien. It was a gala affair and consisted of a puppet show to the enjoyment of the whole crowd. Those taking part in the show were Toni Hewitt, Greg Covey, Ava Covey, Angela Reid and Johnathan Godsey. They sang and acted. There was a quartet composed of Kathy Cameron, J.M. Emerson, C.H. Underwood and Donnie Roberts. They sang a few numbers after the birthday song. The crowd then went to the dining room for cake and punch and bingo followed. Altogether it was a lovely party-even our boss said so! Thanks for such live wires in entertainment.

## Lone Star Reports Record

DALLAS TEXAS--During the five-day period of January 9 through January 13, Lone Star Gas Company delivered a record volume of gas averaging more than 2.4 billion cubic feet (Bcf) of gas per day, compared with a normal daily average of some 1.4 Bcf.

Doug Williams, vice president of Lone Star's Transmission Division, noted that the five-day total exceeded 12 Bcf of gas sold, including an all-time 24-hour record on Tuesday, January 10, of nearly 2.7 Bcf. The previous daily high of nearly 2.4 Bcf occurred January 9.

"When the peak-demand situation occurred on our system," Williams explained, "all our physical facilities such as pipelines and compressor stations performed at high efficiency. Our key operating employees were on a continuous standby all week."

Williams pointed out that even on Tuesday when the record volume was being set, curtailment of industrial and electric generation customers was moderate, with electric generation users curtailed 55 to 65 percent to 40 percent for lowest priority industrial customers. During this period these users, whose contract with the utility provides for curtailment during peak-demand periods, used a standby fuel.

## Truscott-Gilliland News

By MILDRED GLASSCOCK

Sunday was such a nice day, after all the colder weather we'd had the week before. We were fortunate not to have the icy roads, but sorry we didn't have, at least, a little snow.

Billie and Elmo Shaw are proud to announce the birth of their first grandchild, a son, born to Jim and Christy Shook, in Wichita General Hospital, January 20. He weighed seven lbs. and seven oz. and has been named Cody Stan. Paternal grandparents are Glen and Lavoyce Shook of Crowell and maternal great-grandmother is Bertha Shaw. I can see that Aunt Tracy will spoil him, as she's already been buying him stuffed toys. Congratulations, Jim and Chris, and bring him to see us soon. Grandma is spending a few days with them.

Guess you notice we don't have much new this week. Did you fail to call yours in? Or was it just too cold last week for folks to go places? Please call me anytime during the week to report your news. I have to have it by Sunday night and we can't continue to have the best news without yours.

Mr. and Mrs. James C. Cumley returned Sunday from a week's business and pleasure trip to Dallas.

Mr. and Mrs. Bill Cranford of Morton visited his cousin, Tommy Tapp, Sunday.

Lucille Hickman visited Ruby Hickman in Crowell Hospital Sunday morning.

We all welcome the Raul Berentz and Donnie Parker families to our community. The Berentz moved from Foard City to the Leon Speer place southwest of town. We'll be happy to see Mary and Junior join our other school kids to catch the bus every morning.

The Parkers moved from Crowell into the "Glidewell" house. Lisa is employed at Frances' Cafe in Crowell. They have a one year old daughter, Misty Don.

Raul and Donnie are employed by Potashnick Construction Co.

Ila Mae Bullion attended a Postmasters Training Session last Wednesday in Lubbock at the Southwestern Electric Co-Op Building.

Mr. and Mrs. Ralph Caram Jr. and family of Wichita Falls, and her mother, Mrs. Steve Reyes, of Knox City,

visited Mr. and Mrs. Harp Caram Sunday.

Idoma Chowning visited in Haskell last Friday.

## Snowden To Run For Congress

JIM SNOWDEN

TYE-Jim Snowden, former mayor of Tye, has officially announced his candidacy for the 17th Congressional District seat being vacated by Omar Burleson. Snowden was elected to five two-year terms as mayor of Tye, a small city near Abilene, and is presently serving on the City Council. Snowden was previously employed as the Base Documentation Manager at Dyess AFB in Abilene but retired from that position November 1 to devote full time to campaigning.

When asked why he was entering the race, Snowden replied, "The prime motivation came from a letter written by Attorney General John Hill, which was placed in a capsule to be opened 100 years from now. In this letter John Hill warned that the people should start protecting themselves from the abuse of mass bureaucracy. I thought at the time that he was exactly right but 100 years too late. I think we must begin now!" A one-time stock farmer, Snowden is also deeply concerned over the fact that the "little man" is invariably ignored in this era of big time politics.

Snowden gained the spotlight in the Big Country area through his service on the 42nd District Court grand jury from late 1976 to early 1977. He initiated the grand jury investigation of the Texas Alcoholic Beverage Commission (TABC) in Abilene for alleged abuse of power

public as well as members of the TABC, and that no one's rights were abused.

The son of a former county judge of Garza County, Snowden was born September 23, 1921, and attended public schools in Tahoka (Lynn County). On November 1, 1942, he enlisted in the Army Air Corps, and was assigned to the pilot cadet program at Texas Tech in Lubbock. Upon graduation he served as a B-17 and B-25 pilot during World War II. He is married to the former Margie Ethridge of Post and has three children. Snowden plans to personal type campaign to include all 33 counties of the 17th Congressional District. His campaign slogan? Lion Patterson returned from Florida with an amusing story of an aggie and a barefooted alligator. This opened Wednesday's meeting and then he made the announcement of All Lions Mid-Winter Conference to be held in Graham on Saturday January 28. All club officers are expected to attend this one day meeting and the Lions wives are encouraged to come and take part in special activities for them.

Lion Merle Tackitt and his wife, Marti, brought some home movies and made explanations of the preparations and judging procedures for showing Arabian horses. Also, it was brought out, the riders costume is a very important part in a horse show. It must be authentic, colorful, and will reflect a large investment of time and money.

### CHECK APPLIANCE LIFE EXPECTANCY

Before replacing a major appliance that needs repair, consider its projected life expectancy--repairs may cost less.

The following list offers the life-span estimations for selected household appliances (the first set of figures is new with the second set being used): Freezer--20 years, 9 years; Refrigerator--15, 7; Gas Range--13, 7; Electric Range--12, 6; Dishwasher--11, 7; Washer--11, 5; Electric Dryer 14, 5.

These figures indicate how long, on the average, households keep appliances.

The data does not show how long a given appliance model will last--it provides a general basis for estimating the service life expectancy of major home appliances.

money. Three signs can indicate inadequate wiring in the home:

--TV picture "wincens" or shrinks in size when an appliance is plugged in

--fuses blow or circuit breakers trip too frequently

--lights flicker and dim when appliances are turned on.

"In addition to causing inconvenience, these signs indicate that appliances are wasting money when they cannot perform their full jobs."

"Too many appliances running on the same circuit can cause a 'voltage drop'."

"With a voltage drop of only 10 percent, a lamp loses 30 percent of its light and heating appliances produce at only 70 percent efficiency."

When remodeling a house, be sure to install adequate wiring for present and future needs.

Many homes over 15 years old need wiring improvements to match today's life style.

Mr. and Mrs. Tim Whitten of Seymour are the proud parents of a baby boy born Saturday, January 21, at 8:56 a.m. in the Knox County Hospital.

The young lad, who has been named Jeremy Shawn, weighed in at six pounds, 11 ounces. He measured 17 inches in length.

Maternal grandparents are Mr. and Mrs. Bobby Loudermilk of Seymour, and Mr. and Mrs. Bits Whitten are paternal grandparents.

Great-grandparents are Mr. and Mrs. G.W. Loudermilk of Wichita Falls, Mr. and Mrs. G.L. Whitten, and Mrs. Pauline Mobley, all of Seymour.

### HELPFUL TIPS FOR YOUR DISHWASHER

- A dishwasher will usually hold a whole day's dishes. It takes as much hot water and energy to wash one dish as it does a full load. Stack your dishes out of sight in your dishwasher and wait until you have a full load to turn it on.
- Use only detergents manufactured specifically for dishwashers. A wetting agent helps prevent water spots on glasses and silverware.
- Clean the filter screen often. A clogged filter can reduce the efficiency of your dishwasher.
- Use the no-heat dry option to automatically turn off the electric heat normally supplied in the drying cycle.

## Two teachers

AUSTIN, Texas (Spl.) — University of Texas students this spring are sitting in classes being taught by UT alumni whose names are honored in their respective professions.

Liz Carpenter, who was press secretary to Mrs. Lyndon B. Johnson when the First Lady was in the White House, is teaching a course on the journalistic essay.

John Canaday, who recently retired as the art critic of the New York Times, is teaching two courses in the Art Department — an art history survey course for non-art majors and a seminar on the principles and practices of art criticism.

# Olney Promotions Announced

Promotions permeating all levels of the corporate structure of Olney Savings Association were announced last week following the regularly scheduled December meeting of the Board of Directors. D.D. McClatchy, president and chief executive officer, in making the announcement, indicated that the following key personnel have been elevated to their new positions effective immediately.

Wade Fikes started his professional career with Olney Savings in September, 1963, as Controller. Within the last 15 years, Fikes has served as both Vice President and Senior Vice President/Lending, and will now serve in his new capacity of Executive Vice President/Operations and Finance.

Employed in March, 1969, Lewis Farmer, a graduate of Olney High School and Texas Tech University, Lubbock, is in charge of lending at Olney Savings. In this capacity, Farmer sets loan policy and supervises all phases of lending. He is also a member of the Loan Committee of Olney Savings.

Max Anderson, a native of Munday, Texas, has been employed by Olney Savings since May 1, 1975, when he joined the Savings Department of Olney Savings. Max is a graduate of Texas Tech, Lubbock, with a BBA in Finance. A much valued asset to the Association, Max has served as Assistant Vice President, Vice President, and will now become Senior Vice President in the Savings and Marketing Department of Olney Savings.

Before coming to Olney Savings, Max gained six years of valuable knowledge in the savings and loan industry through his employment at First Federal Savings and Loan Association in Lubbock.

Employed since September 1976, George Medlen, Assistant Vice President/Installment and Commercial Lending, has been promoted to Vice President/Installment and Commercial Lending. George has trained as a loan officer, since joining Olney Savings, and is now serving Olney, Jacksboro, Graham, and the Breckenridge areas with both mortgage and installment loans. Medlen is a graduate of Olney High School and holds a BBA degree from the University of Texas in Arlington.

Working in the Nocona Branch Office of Olney Savings, James Oldham, Loan

Officer Trainee, has been promoted to Assistant Vice President/Nocona Branch Office. Employed since June, 1976, James, a former resident of Nocona, makes and services loans for the people of the Nocona marketing area, and handles all aspects of a full service branch office.

## OSA WOMEN RANK HIGH IN PROMOTIONS

The women's market continues to expand and change, demanding attention and providing new opportunities to the financial industry from all aspects. For this, and many other reasons, Olney Savings' management is very pleased and proud of the women in its organization and believes them to be an integral part of the support system for the Association.

A 15-year veteran, Bodie Schmidt came to work for Olney Savings in 1962, and served as teller for nine years. She also served over three years as Assistant Secretary/Savings Services, and last year was promoted to Assistant Vice President/Savings Services.

Having been elected Assistant Vice President in January, 1975, Lavelle Davis, an Olney Savings' employee since 1962, has been selected to become Vice President/Mortgage Loan Servicing. In this capacity, Davis will head the Mortgage Loan Servicing Department. She also meets with the Loan Committee on a weekly basis. Since joining the Association in 1962 as secretary to the president, Lavelle has held positions as teller, bookkeeper, and mortgage loan servicing clerk.

Nona Lowe, who has been with Olney Savings since 1963, has been selected to be in charge of a new department at Olney Savings, Human Resources. Mrs. Lowe's expertise in the savings and loan industry can be traced directly to her service to the Association in a number of capacities, including teller, secretary, loan closing officer, savings officer, Assistant Corporate Secretary, and one year's service in the Bridgeport Branch Office. In January, 1977, she was elected Assistant Vice President/Administrative Director.

Sue Jones, employed since 1965, will become Vice President, Customer Service Operations. She is highly qualified for this position in that she has served customers of Olney Savings, beginning as a teller, and advancing through every phase of teller operations, culminating with

her election as Vice President/Customer Service Operations. As head of this department, Sue supervises all tellers for the home office and branches, and coordinates accounting procedures. Sue is a recent graduate of the Dale Carnegie Course in Wichita Falls.

Eva Joy Strealy has been selected to become Assistant Secretary for Olney Savings Association. As Insurance Clerk for the Association, the Insurance Department is one of the busiest departments in the Association. Eva Joy handles all mortgage loan insurance expirations, new policies, and life and disability insurance. Employed since August 1, 1966, she received her 10 year service award in December, 1976.

Laverne Wood, Installment Loan Clerk for Olney Savings, has been elected Assistant Secretary of Olney Savings. Employed since 1968, Laverne has been involved in processing installment loans and working with all phases of the Installment Loan Department. She is a graduate of Olney High School, and before coming to Olney Savings was employed by the Olney Housing Authority for two years.

By TOMMY ANTILLEY

Proper precautions taken against mice and rats should be part of the home winterizing process.

Tiny bits of paper, cloth or oblong droppings are telltale signs that mice or rats are in your home.

By following the three basic practices, the homeowner can get rid of most rat and mouse problems.

First of all, buildings should be rat and mouse proofed if possible. Block all entrances into the house that rodents might use.

The best mouse proof seals are mixtures of steel wool and plaster. Block all entrances around windows and pipes that are larger than a halfinch in diameter.

Traps and poison provide the other two methods of pestproofing your home. Bacon, Hamburger, cheese and peanut butter are good baits for a trap. Mice are best caught when passing between the trap and a wall, so the trigger with a tightly wedged bait should be set towards the wall.

Poison is an efficient exterminator of rodents. However, use of poison may present two problems—retrieving the dead mice from tight places and keeping the poison away from children and pets. Follow directions on labels for safe and effective use at all times.

Remember that rats and mice must have food, water and shelter to live. By elimi-

nating these, most rats and mouse problems can be eliminated. In fact, proper sanitation alone, such as keeping trash, leaves, wood and paper away from the home can eliminate most of your rodent problems.

MRS. DANNY GARY LEWIS  
...the former Patti Renea Lain

## Miss Lain, Danny Lewis Repeat Vows In Saturday Ceremony

Patti Renea Lain and Danny Gary Lewis exchanged marriage vows Saturday afternoon, January 21, at five o'clock in the sanctuary of the First United Methodist Church. The Rev. Bob Cameron, pastor of the First Baptist Church in O'Brien, performed the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Larry Don Lain, and Elaine Lewis and Sterling Lewis are parents of the bridegroom.

Church decorations were two seven-branched candelabra with baskets of white gladioli and greenery.

Wedding music was provided by the bride's aunt, Joan Lain of Munday, soloist, who sang "Close To You", "You Light Up My Life", and "If". Organist was Mrs. Melvin A. Lowrey.

Given in marriage by her father, the bride wore a gown of white velvet with Empire waistline. The bodice featured a lace yoke outlined with appliqued lace flowers and tiny pearls. The skirt of the gown held a wide ruffle flowing into a train with fur encircling the hemline. White fur was also repeated around the collar and cuffs of the long bishop sleeves. Her veil of bridal illusion was held by an Elizabeth I headpiece of lace and pearl flowers, which also adorned the veil. The

gown was designed and made by the bridegroom's mother and the detail work was done by the bride's grandmother. She carried a bouquet of white and red roses with gypsophyllia. In keeping with tradition, she wore her great-grandmother Molly Lain's, gold wedding band on a chain, for something old; her garter was something blue; a white angel and a sixpence for her shoe was borrowed from Sissy Proctor; and her wedding gown and a new penny in her bouquet were something new.

Maid of honor was Pam Pack of Lubbock, cousin of the bride. She wore a formal gown of red velvet with angel sleeves. White velvet ribbon accented the Empire waistline, and she carried a long stemmed white rose.

Bridesmaids, dressed identically to the honor attendant, were Sandra Stubbs and Mrs. Troy Lewis, sister-in-law of the bridegroom.

Payton Tankersley was best man and groomsmen were Lowery Deering of Olney, brother-in-law of the bridegroom, and Troy Lewis, brother of the bridegroom.

Flower girl was Amy Deering, niece of the bridegroom, of Olney. She was dressed in a white velvet gown trimmed in white fur with a red velvet ribbon accenting the waist. Ring bearer was Shane

Lewis, brother of the bridegroom.

The bride's cousin, Molly Grimes of Munday, and Todd Lewis, brother of the bridegroom, lighted candles.

Ushers were Roland Marion and Bobby Vasquez.

Mrs. Lowery Deering of Olney, sister of the bridegroom, registered guests and Andy Shamblin, cousin of the bride, distributed scrolls to all wedding guests from a white top hat.

The mother of the bride wore a formal gown of natural embroidered eyelet and her corsage was a white orchid.

The bridegroom's mother was attired in a formal gown of blue knit which featured a permanently pleated skirt and pleated shawl collar. She also wore a white orchid corsage.

A reception, hosted by the bride's parents, followed in the church fellowship hall. The bride's table was covered with a lace cloth over red satin. The three-tiered red velvet cake held an ornament of hand blown clear crystal of bells and doves in the shape of a heart on the top layer. A crystal tube of roses separated the top and bottom tiers and the cake was decorated with red rosebuds and gypsophyllia. Serving were Mrs. Bobby Vasquez and Mrs. Roland Marion.

A beige Calcutta cloth with brown trim covered the bridegroom's table. Centerpiece was a chocolate cake with brown icing ribbon and wedding bells on top. Appointments were of bone china and silver. Assistants at the bridegroom's table were Mrs. Payton Tankersley and Mrs. Dale Bloxham.

The rehearsal dinner was hosted by the bridegroom's parents at the Dairy Mart. Tables were covered with red cloths. The centerpiece was of red carnations and greenery surrounded by a miniature model of the bridegroom's red Kawasaki Motorcycle. This centerpiece was also used on the bridegroom's table at the reception.

The bride graduated from Knox City-O'Brien High School in 1977 and Lewis graduated from KCHS in 1975.

Following a wedding trip to Wichita Falls, the couple is at home at 1105 South Second.

For travel, the bride wore a natural and blue striped pantsuit with white rose corsage.

### Streams In Desert Places

By Ozelle Stephens

"Paul said, I find I must write, urging you to stoutly defend the truth which God gave us, once for all, to his people to keep without change through the years." (Jude 3).

Coming to the end of the first month of the New Year we look back to see how we have lived. Have we broken our new year resolutions; or have we stoutly defended the truth which God gave us? Have we said by our actions, I am a Christian, I can do just as I like without fear of God's punishment? The fate of such people was written long ago; who turned against Jesus Christ. You remember the children of Israel, God saved a whole nation of people out of the land of Egypt and then killed everyone of them who did not trust and obey him. Also the angels who were pure and holy, but turned to a life of sin. Now God has them chained up in a prison of darkness, waiting for the judgement day.

And don't forget Sodom and Gomorrah and the neighboring towns, all full of lust of every kind—including lust of men for other men. These cities were destroyed by fire and continue to be a warning to us that there is a hell in which sinner are punished. (Jude 5-7).

Let today be a new beginning and stoutly defend the truth which God gave us to keep without change through out the year so at the end we shall have great rewards. He is waiting to reward the faithful ones.

### Shower Honors Bride

A bridal shower honoring Mrs. Jack Coffman, the former Sheila Cobb, was held Thursday evening, January 19, in the home of Mrs. Billy Gene Johnston. Calling hour was from seven to eight-thirty o'clock.

Mrs. Johnston greeted guests and presented them to the honoree; her mother,

Mrs. Bill Holcomb; the bridegroom's mother, Mrs. Herbert Bellinghausen; and the honoree's grandmother, Mrs. L.C. Guinn.

Registering guests in the bride's book was Tammy Greenwood. The registry table was covered with an ecru cloth and held a green rose candle.

A white satin cloth covered the refreshment table and was centered with an arrangement of mums, carnations, and gypsophyllia in autumn colors. Greenery and gypsophyllia surrounded the crystal punch bowl. Ginger Johnston and Sheryll Guinn served refreshments of tea sandwiches, cheese rolls, divinity, apricot tarts, miniature chocolate muffins, coffee and punch. Appointments were of crystal and silver.

Assisting in serving guests and displaying gifts were Simone Cobb, sister of the honoree; and Connie Norton.

Hostesses were Meses. Dean Johnston, Sue Clayton, June Tankersley, and Mary Ann Boone.
