# O'Brien Happenings

By CHARLENE BROTHERS

We had quite a happening in O'Brien Monday. From somewhere came all this oil out of the sky, and at first some of us did not know where it was coming from, later found out an oil well just outside of town was giving free oil to some of us. It got all over several cars and different things around in town. I was driving my father's car and it covered it very well. The company is going to clean all the cars for us. J.O. had just waxed his pickup on Saturday and it came off pretty good with a dry rag. Just shows that waxing still helps some. It even got our new bar-b-que grill. I would not have thought that anything could have traveled like that did, guess with the wind blowing like it was, anything could go anywhere. When this got mixed good with the sand we had a funny looking gold colored car, just think what my white one would have looked like. I do not know how many cars were affected by this, but Carl Shelton was checking Monday night to get in touch with everyone. I think one house on the west side of the highway was hit pretty badly. There was some on the back of our house, up by the school house, not bad enough to fuss about.

I will be glad when they finish with the road in front of the gin office, between the gravel that has been dumped out here and other visitors sometimes we have trouble finding a place to park. The contractor that fixed the sides of the road really helped the gin yard, all the dirt they pulled from the road they scattered around on the yard and filled in several holes for us. All the gravel that is left on the yard will be used also to scatter on the yard, so really we have probably come out better in the long run. Hunting a parking place is nothing compared to the holes we have to run through when it rains. Do you remember what that is? This can really make a white car

# Joanne Strauss Seeks Civil Appeals Post

Joanne Strauss, candidate for judge of the 11th Court of Civil Appeals at Eastland, in announcing the opening of her campaign, outlines her reasons for running.

"Beginning with my early days as an attorney, I have worked and dreamed of being an appellate judge—an impossible dream twenty-two years ago. Today, there is a fighting chance."

"In order to be a good appellate judge, a person must love to spend many hours doing extensive legal research. I do love this type of work—it is my main asset as a lawyer."

"I am proud of the briefs I have written and believe I am ideally suited to act as your appellate judge. I want to be your appellate judge."

A former corporation court judge and federal magistrate, for the past seven and one-half years, Mrs. Strauss emphasizes that the appellate court has an impact on many

JOANNE STRAUSS

lives.

"The legislature writes the law but quite often no one is sure what the statute really means. The trial judge has to interpret its meaning and wait until the appellate courts reach a decision clarifying the law. This applies to numerous everyday legal matters such as, marital problems, juvenile delinquency, workmen's compensation and business ventures of all kinds. Government must be by law and not by man—but man makes and interprets the law."

An attorney for 22 years, Mrs. Strauss is a native of West Texas. She earned her bachelor of science and doctor of jurisprudence degrees from the University of Texas.

Her husband, Henry J. Strauss, is Judge of the 326th District Court. Judge and Mrs. Strauss have two children, both graduates of Cooper High School in Abilene and the University of Texas. The family is Methodist and lives at 860 Amarillo St., Abilene.

 This past week was very busy with several sophomores involved in various activities such as tennis, prose, poetry, spelling, journalism, and track. We did not score many honors but each of us learned to be glad competitors and we all are to give it another try next year.

Hooray! There are only five more Mondays left for school. Not that we're ready for school to be out or anything like that, but we're ready for summer vacation! For some of us that means lounging by the poolside, eating, or reading a book for fun. Then there are some of us who will be working.

### EDITORIAL

by Irene Flores  
 What if your doctor today told you you were suffering from some kind of incurable cancer? What would your reactions be?

The reason I bring the question up is because of the controversial issue of the use of Laetrile for cancer patients.

Laetrile is an "unproven" cancer treatment, known the medical scientists in the United States as a quackery, and it is banned by the Federal government.

Though unproven as a "cancer curing" drug, thousands of Americans go across the border to Tijuana and other places in Mexico each

year. These people are all believers of this drug. They don't care what the law prohibits or what experts say. But can we blame them when they are dying from some incurable cancer?

What can a person do when there is no hope for him? If he is a normal human being he will not give up and will maybe go to extremes to save his own life. Should the government let a cancer patient choose his own treatment without any interference from Federal bureaus or any other governmental agency?

Now I am not saying that people should be able to take dangerous drugs if they want to but they should have the right to decide on their own kind of treatment. Some people have said Laetrile cured them. Why shouldn't the terminally ill patients be given extra hope for life by trying Laetrile?

### Streams In Desert Places

By Ozelle Stephens

"Friendship with God is reserved for those who reverence Him. With them alone he shares the secrets of his promises." (Psalms 25:14).

Friendship with God? How do we have Friendship with a Holy God? We have the answer in our Scripture. "It is reserved for those who reverence Him." David prayed, "My eyes are ever looking to the Lord for help, for He alone can rescue me. Come Lord, and show me your mercy, for I am helpless, overwhelmed, in deep distress; my problems go from bad to worse. Oh save me from them all. See my sorrows; feel my pain, forgive my sins." vs. 15-17.

He kept nothing back from God, he poured out his soul to Him, he called upon God for help in his helplessness. He knew God saw his sorrow, felt his pain, he shared it all with God and asked for forgiveness; yes that is the secret of getting the answers and having God's Friendship. Just lay it all on the altar, even yourself and He will take care of all. He gave His life for you. He loves you more than words can ever tell.

"Remember, non who have faith in God will ever be disgraced for trusting Him." vs. 3.

## Who put Johnstown back in touch with the world in 23 hours?

We did... General Telephone.

At least, that was the beginning. And, within a week, our operations were virtually back to normal.

But what a job it was! We had to get cable from Texas and compressors from Colorado...

And we brought in 550 skilled repair people from General Telephone companies,

and had them working night and day until the emergency was over.

We realize how important it is to keep you in touch with your world. So we do all we can to create the most reliable phone service the world has ever seen.

We spend hundreds of millions of dollars every year, making sure that when you pick up your phone...

It works. **We keep you talking.**

### Reddy's Energy Saving Tips

- ★ Opening your Refrigerator Door as few times as possible keeps Heated Air from getting inside. **So Saves Energy.**
- ★ Condenser Coils in Refrigerators, like in Air Conditioners, tend to collect Dust and Dirt (especially in Carpeted Kitchens), when they are Dirty, they use more Energy, so your Refrigerator Coils Should Be Cleaned Once a Year.
- ★ Choose a Refrigerator / Freezer based on the real Capacity needs of your family. A Refrigerator or Freezer Operates at Peak Efficiency when Filled to Capacity **but not overfilled.**
- ★ Insulation Gaskets sometimes Leak and Cost Much Wasted Energy. Check your Refrigerator Gaskets for Wear and Replace if Necessary.
