# Baum Asks Voters To Call Collect

Jim Baum, one of the top candidates in the May 6th Congressional election, has announced yet another move to communicate further with voters. Baum announced today that he will accept collect calls from anyone in the District all day Thursday, May 4th.

Baum noted, "I have conducted a door-to-door campaign and now I want every voter who wants to talk to me to call me Thursday. If I'm elected to Congress, I want our voters to know my office will be responsive to their needs. I hope my campaign headquarters telephone rings off the wall Thursday. Baum's telephone number is area code 915 263-1313.

The Baum campaign has been geared toward middle-income families and farmers. "I know the majority of us are fed up with big government and bigger taxes," Baum said. "The only way we're going to get things turned around in Washington is to elect a man who knows the problems of middle-income families." Baum and his wife, Margaret, have four children.

Baum voiced optimism that he would gain a run-off spot despite the fact he is being outspent by two other opponents. "My farm support is solid," Baum pointed out, "and I'm proud of it. The time has come for farmers to get their operations back into the profit column and they have legitimate grievances."

Baum also called attention to a recent news release in the Dallas MORNING NEWS. It stated "if he (Baum) had the money, he would be tougher than the others because he sounds good and talks the language the people out here respond to and he's polished, an Abilene political insider said." "I'm confident," said Baum, "that voters will choose their next Congressman, not on the amount of money he has spent, but rather on the qualifications of each candidate."

Baum kicked off his door-to-door campaign last January and has visited in 86 towns and counties. "There's no doubt about it," Baum declared. "Voters still want to meet the candidates. I've given them that chance. Now I want to talk to citizens and I urge them to call me collect at my campaign headquarters Thursday, May 6."

The Big Spring man estimates he's walked more than a thousand miles since launching his door-to-door effort. Now he says, "I don't want to leave any stone unturned. If there's one person out there who wants to talk to me about my political philosophy, my phone number is area code 915 263-1313."

# Rural Customers To Have Better Service

All rural eight-party customers served by General Telephone Company of the Southwest will have access to our four-party or better telephone service by the end of 1982 and other service improvements are scheduled as a result of a rural action plan inaugurated early in 1978.

General Telephone has budgeted in excess of \$24 million to accomplish this five-year program. The plan is an acceleration of a long-time effort to provide rural customers with the same quality and type of service now available to urban customers. The program is already completed in the company's Arkansas, Oklahoma, and New Mexico areas of operations and in over 64 percent of the company's 295 Texas exchanges.

As new or improved rural telephone facilities become available, the company seeks commission approval to eliminate eight-party service offerings and/or restrict eight-party service to existing eight-party customers.

Other rural service improvement programs under the plan include: Engineering all new and expanded rural facilities for no more than four customers to a line.

Inauguration of new rural forecasting techniques involving marketing and engineering departments which allows the company to have facilities available when and where needed.

Why Should Dolph Briscoe Be Governor for 10 Years? There is no good reason! No other Texas Governor has ever asked for 10 years... Elect a New Governor Endorsing John Hill, the Kilgore News Herald said: "He fought Southwestern Bell all the way to the Supreme Court to stop an unfair rate increase. He appears to have beat the Howard Hughes empire over millions in inheritance taxes. And he cleaned up Duval County." Endorsing John Hill, Fort Worth Star-Telegram said: "In two terms as state attorney general, Hill has shown himself to be energetic, articulate and assertive. He can make firm decisions and work persuasively to see them carried out. As governor, he would be an active, accessible chief executive projecting a strong leadership image." Endorsing John Hill, the Dallas Times-Herald said: "John Hill has been an outstanding attorney general. He has made impressive progress in making the office what he has always said it should be—the people's law office."

# Vaccination Program Launched

Texas cattlemen may now have their heifer calves vaccinated with Strain-19 brucellosis vaccine free of charge.

The vaccination program is voluntary and will be conducted through participating, accredited veterinarians. These veterinarians will be able to obtain the brucellosis vaccine free and will be reimbursed for their services from state and federal funds on completing a vaccination chart.

## Karen Cowart Is Outstanding Student

SNYDER--Karen Cowart of Knox City was named Outstanding Student in Advanced Shortland at the annual Western Texas College Recognition Program held April 18.

Miss Cowart is the daughter of Mr. and Mrs. Gus Cowart.

Other students receiving recognition included Kris W. Love of Haskell who was named an Outstanding Law Enforcement Student.

## USE THE CLASSIFIEDS

Only eligible female calves will be vaccinated and will be identified by an ear tag and tattoo. Female calves of dairy breeds from two through six months of age and beef breeds two through ten months are considered eligible.

All the cattlemen has to do is call his local veterinarian and schedule a time for the vaccinations. Of course, the

calves should be confined. This new vaccination program does not include vaccinating calves at livestock markets.

There are several benefits from the vaccination program, including these:

- 1. Properly immunized heifers will be more resistant to the organism causing brucellosis.
2. Officially vaccinated calves should sell for higher prices if purchased for replacements.
3. The more animals that are vaccinated, the quicker the spread of brucellosis can be controlled, thereby minimizing the threat of quarantine.

To reimburse participating veterinarians, some \$450,000 of state and federal monies has been made available for this vaccination program for fiscal year 1978, and additional funds are expected for the fiscal year beginning September 1. Due to the limited funds, interested producers should contact their veterinarians early.

### The Softness Of Summer

Soft and natural is the look in clothes for summer. Fashions are soft in texture soft in construction and soft in color. The colors are natural—sandstone or fac powder colors—gentle earth hues with the warmth and glow of a sun-struck beach. The new neutrals are worn in a subtle mix of tone against tone—not matching, just blending one into another.

Soft and natural is the way to describe how make-up should look for summer, also soft—not pale, and natural—but in a healthy new way. We leave winter behind and burst into the color of spring.

As you make up for summer think of gardens with rich flower colors melting into each other, and don't be timid. Make the colors in your face more intense. Live up all the soft, neutral colors of your clothes. Build up your cheek color for greater impact. Blend contour blushers in the hollows under your cheekbones or brighter blushers on top of the cheekbones to maximize your features. And remember, when you're working with colors—BLEND, BLEND, BLEND!!!

## TFU Decries Farm Bill Defeat

WACO, TX -- The Texas Farmers Union is adding its disgust and dismay to the defeat of emergency farm legislation at the hands of the Congress and the Administration. TFU President Jay Naman says the demise "forebodes the continuation of economic instability in agriculture and a roller coaster of farm prices... (which are) neither good for farmers nor consumers."

Naman goes on to proclaim the obvious that "farmers are angry at the unresponsiveness of government" and that "their anger will have serious political implications during the elections this year."

While holding nothing back in the condemnation of the Administration's direct attack on the bill and the resounding defeat by the House of Representatives, the state farm leader points optimistically to the lessons gained by farmers and the nominal relief from

the USDA brought on through the protest. He specifically points to farm program changes which are expected to add to additional \$625 million in the feed grains producer's pockets, more liberal terms on grazing set-aside acres and increased incentives for cutbacks in wheat and cotton. He urged farmers to comply with the farm program.

Beyond program changes, Naman says "farmers have learned a great deal during their efforts... who their political friends are and who their farm organization friends are... (and) that they are contributing funds and giving membership support to organizations that are working against them."

The Texas Farmers Union leader added consternation at the misunderstandings about inflation and farm income which the Congressional battle underlined.

Said Naman, "the defeat of the farm bill) will further erode a favorable balance of payments and cause disruptions in agricultural markets around the world. Contrary to the propaganda that the farm bill was inflationary, the fires of inflation are fed by erratic farm prices. When farm prices roller coaster, the persons affecting food costs between the farmer and consumer are free to inflate prices to the consumer without rewarding the producer. A good farm program would have been anti-inflationary."

In its release the Texas Farmers Union reavowed its fight for 100% of parity and urged farmers to become more involved in political and organizational affairs. TFU is, in addition, setting the event of its coming Board of Directors meeting April 22 as its date to launch efforts to "organize farmers in Texas as they have never been organized before."

Naman concluded his statement by saying, "Even though farm people suffered demoralizing defeat in the loss of the farm program, there is a new awareness among farmers of where they are going and how they get there. This is something new, and because of this, farmers and the institutions that serve them will never be the same."

## Sun Tanning Rules Listed

The summer swimming and outdoors season is back again, and with it comes the hazard of sunburn.

The American Medical Association points out that there is virtually no beneficial value to sun-tanning, and there is real possibility of harm. Heavy tanning brings premature wrinkling and aging of the skin, and also can cause skin cancers.

If you insist on tanning despite the doctor's advice, apply a little common sense and care on the first few days in the sun, and you can avoid a severe burn.

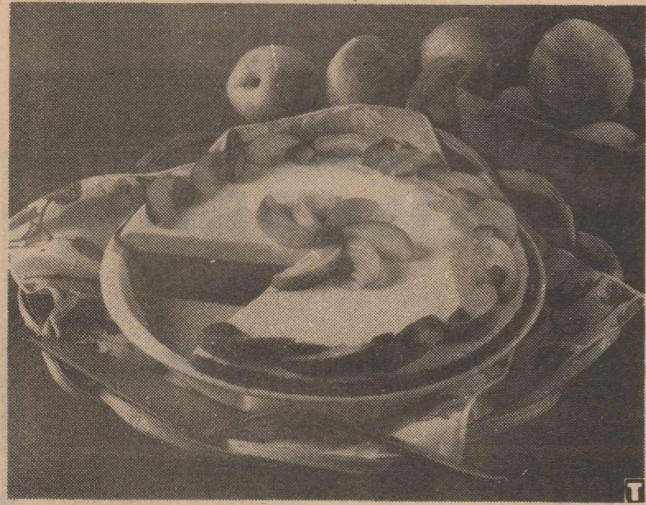

Here are some simple tips for enjoying sunshine and tanning without the painful burns:

- Take it easy the first few days. Tan slowly. Start with 15 minutes the first day and increase the time by 10 minutes each day. The sun is hottest during the middle hours.
- Suntan lotions and creams can screen out some of the burning ultraviolet rays and thus reduce burn. They can't speed up tanning.
- Protect your hair. Too much sun can make it brittle and hard to manage.
- Lubricate the skin with cream or lotion after a day in the sun to help offset the excessive drying effect.
- Protect your eyes with dark glasses or with gauze pads. Follow these precautions and avoid spending most of the holiday suffering from sunburn.

### NEWS OF NUTRITION

#### VITAMIN E—ESSENTIAL TO GOOD HEALTH

Nutrition researchers have established vitamin E as being necessary in the human diet and essential to good health.

Today, as more physicians recommend polyunsaturated fat diets to their health-conscious patients, experts say the need for vitamin E may increase—since vitamin E may protect unsaturated fats from abnormal breakdown within the body.

However, in a recent survey by Response Analysis Corporation, only 16% of those responding knew that the vitamin E requirement may be increased in people whose diets are high in polyunsaturates.

And in a 1975 FDA Consumer Survey, over 20% of those surveyed felt that not all members of their household were getting a well-balanced diet.

Eating foods rich in vitamin E, for example, wheat germ, whole grains, egg yolks, leafy vegetables and certain vegetable oils, will insure you're getting enough vitamin E daily.

Anyone wishing to set up a booth around the square is welcome to do so free of charge.

Highlight of the day will be two bands playing at the same time on the Square that evening. "Manuel y Los Amigos," a mariachi band from San Angelo will perform on the northwest corner of the Square, under the marquee, from 8 to 11 p.m. "Musica Pantojos de Lorraine," a dance band from Lorraine will play on the southwest corner of the Square for a street dance from 7 to 11 p.m. There will be no admission charge for either of the events.

Other activities include a Mexican folk dance group from Abilene in the afternoon. They will perform on the northwest corner of the Square. The time is to be announced later. Doughnuts, ice cream, cokes and lemonade will be available throughout the day from local organizations.

A Mexican movie is scheduled for an afternoon matinee at the Grand Theatre. The name of the movie, time an admission will be announced at a later date.

Everyone is being encouraged to dress in native Mexican clothes that day. The Retail Trade Committee will present two \$25 gift certificates to the most typical dressed male and female. The judging will be held at 9 p.m. on the northwest corner of the Square.

An assembly program is scheduled for 12:30 p.m. at the high school. The program will include entertainment plus some cultural background on the history of Cinco de Mayo, Mexico's independence from France.

Anyone or any organization wishing to participate in some way in the celebration should contact Chamber Executive Vice President - Manager Darrell Woolwine at the Chamber office, 773-2411.

### Tax Return Errors Can Be Corrected

Many of the local merchants plan to remain open late that evening. The time of closing has been left to the individual merchant.

Some other events scheduled include Mrs. Esem Glenn, a sketch artist from Abilene, recorded music, a flower cart, Mexican souvenirs, a potter, and some activities yet to be finalized.

"We hope to make this an annual affair in Stamford," stated Fared Hassen, chairman of the Retail Trade Committee of the Chamber. "Our purpose is to draw as many people into town as possible and to promote Stamford," he added.

The general public is invited to attend any portion of the all day and evening affair.

Discovered an error after filing an income tax return? If so, correct the mistake by filing a Form 1040X, the Internal Revenue Service said today.

The forms are available at local IRS offices or can be obtained by using the handy order blank in the tax package.

Some of the more common tax return errors that can be corrected on a 1040X include failing to report income, forgetting to claim deductions, or mistakes in the amount of credit claimed.

Generally, the 1040X form must be filed within three years from the due date of the original return or two years from the date of the tax payment, whichever is later.
