Mini Mall Celebrating Fourth Anniversary

Knox City's Mini Mall opened its doors four years ago on a July 4th weekend and business has been 'booming' ever since, according to owners Dossie Egenbacher and Romain Stubbs, sisters, whose brother Bobby Day of Lubbock came up with the idea and promoted and developed the new concept of housing several shops under one large roof.

Five businesses now operate in the Mini Mall including The Lady Bug Shoppe owned by Mrs. Egenbacher; The Art Stall, owned by Mrs. Stubbs, who has the American Handicrafts franchise; The Frame Shop owned by her husband Jack; The Styling Stall, open Tuesday through Fridays with operators Shirley and Paula Hudgens and Mary Elliston; and Shea's Place,

operated by the Stubbs' younger daughter, Shea.

The Lady Bug Shoppe has expanded considerably since the opening four years ago and now occupies about one-half of the large building. Several popular lines of misses clothing, from jeans to formals, are offered along with infant and children's clothing, costume jewelry, hosiery, purses, sunglasses,

cosmetics, and some items for men. All types of sportswear and casual wear are available as well as dresses and lingerie.

Mrs. Stubbs and her husband Jack, who custom design and make any type frame, have a wide selection of art supplies, macrame, and hobby crafts. They also sponsor classes in oils, toile painting, decoupage, and macrame at various times during the year, and at almost any time of the year, some type of class is underway at The Art Stall. The Art Stall and Frame Shop have doubled in size since they opened.

This weekend, the Mini Mall, in observance of its fourth anniversary, is inviting everyone to come in and take advantage of fantastic savings. Also, everyone is invited to register for door prizes. A drawing will be held Saturday afternoon at 4:00 o'clock.

The Lady Bug Shoppe is having an anniversary sale this weekend and specials will be noted in the ad in this week's News.

Little League Says 'Thanks'

As another Little League season ends, officers of the organization say 'Thank You' to area citizens and businesses who helped make this one of the best years ever.

The infield was seeded with grass, new fencing was put up around the dugouts and backstop, and baselines were tilled by parents early in the year. Bleachers and the concession stand were also painted.

Team members covered the town one evening in their annual fund drive and express appreciation to everyone who gave during the drive.

Jimmy Tankersley was the guest auctioneer for the Father-Son Cake auction which brought in over \$300 for the group.

Merchants who have donated ice all season for the concession stand were Allsup's, KMA, M System and the Dairy Mart.

Umpires (unpaid but appreciated) were Hershell Tankersley, Ramon Garcia, Steve McIlhane, Junior Gonzales, Jimmy Rogers and Jerry Lowrey.

Merchants who donated the bright new shirts for the teams were Terra Resources, Penman Butane-O'Brien, Tri State Chemical, Arnold Insurance, Pumpers Supply and Equipment; KMA, George Hodges, Danny Reece, Bill Reynolds, Counts Insurance, Lowrey's, Janie's Barber Shop, Clonts Hardware, Citizens State Bank, Smith Butane, Mat Verhalen Homes, Margaret's Home Grocery, Skiles Exxon, J.C. Eaton, Bobby's Oil Field Service, Marion Mobil, Dairy Mart, 'M' System, and Allsup's.

All Star players were announced Thursday evening, June 22. The eleven and twelve-year-olds will play their first game against Seymour at Crowell, Monday July 17, at 5:00 p.m.

All-Stars are Chris Whitaker and Nathan Staggs from the Dodger team; Joe Paul Flores, Ricky Rojas, and Andy Ramos of the Cardinals; Troy Pratt, Ronnie Reece, Dwayne Watkins, and Chad Whitley, Red Sox; and from the Tigers, Kevin Eaton, Wayne Hutchinson, and George Rocha.

KNOX CITY LITTLE LEAGUE RED SOX team members were in first place when this photo was made. The Tigers still had two make-up games to play to decide first and second places. Pictured from left, Coach Billy Bob Reynolds, Chad Whitley, Troy Pratt, Dwayne Watkins. Second row from left, Phil Sarabia, Ronnie Reece, J. Emerson, Richard Saxton, Robbie Large. Third row, left to right, Jerry Gutierrez, Michael Morris, Stacy James, and Mike Reece. Not pictured are Jenny Vasquez and Manager Bobby Vasquez.

New Home Insulation Standards Made Effective By FmHA

(KNOX CITY, TX)—New insulation standards for housing in rural areas financed by the Farmers Home Administration (FmHA) will be put into effect, County Supervisor Joe T. Boone announced today.

Implementation of the standards, first scheduled for March 15, had been held up during federal court consideration of suit by the National Association of Home Builders challenging the new code. After FmHA prepared additional environmental material and further hearing on the case was held, U.S. District Judge George L. Hart Jr., dissolved a preliminary injunction, while certain aspects of the lawsuit remain to be resolved, the new insulation standards can now be implemented.

The new thermal standards are designed to provide for heavier insulation and other measures to make FmHA financed housing less costly to heat or cool, and to conserve energy. They will apply to newly-built homes and apartments financed by FmHA,

and, insofar as is economically feasible, to existing housing purchased or repaired with FmHA loans. Better weatherizing through more effective insulation, storm doors and windows and other techniques will help families to reduce high fuel and energy expenses that jeopardize their ability to afford adequate housing.

Details of the standards, which vary by climatic zones, are available from the FmHA county office at 1101 East Main street in Knox City.

Housing loans administered by FmHA, a U.S. Department of Agriculture agency, serve all rural areas including towns of up to 10,000, and designated towns of 10,000 to 20,000 that are not in Standard Metropolitan Statistical (SMSA) areas and have a shortage of mortgage for families of low and moderate income. FmHA will finance approximately 25 homes and one apartment for Knox County during fiscal year 1978.

Residents Urged To Use Caution With Fireworks

City officials are hopeful that residents will exercise extreme caution in shooting fireworks over the July 4th holiday.

State Fire Marshal Ernest Emerson expects a record number of fireworks-related accidents this Independence holiday, predicting almost 200 persons would be injured in fireworks accidents this year, plus about 2,000 fires caused by fireworks.

"Unfortunately, some of these injuries could be fatal," he said. "Many may result in impairment or loss of vision, loss of limbs and severe burns; all too often to innocent bystanders."

Emerson said there is no such thing as 'safe' fireworks. "Only when everyone knows this fact and takes it seriously will there be an end to Independence Day tragedies from these items."

City officials also urge parents to carefully supervise their children in this activity. Also they warn of the danger of fire with the dry, dead grass everywhere.

Courthouse To Close July 3 And 4

Judge Homer T. Melton is reminding the public that the Knox County Courthouse in Benjamin will be closed both Monday and Tuesday, July 3 and 4, in observance of the Fourth of July holiday.

Melton stated that it was decided to observe both days in order that county employees may enjoy a long weekend.

Business will resume as usual on Wednesday, July 5, at 8:00 a.m.

MAY IS GONE BUT HYPERTENSION IS NOT!

Back in May, a great deal was said and done about calling peoples attention to hypertension. There were articles, screenings, posters, talks and many other special activities to make the public aware of the high blood pressure problem. It's all very traditional for May.

But, here it is July and while all the "hoopla" is gone, hypertension is still here. The important purpose of this ad is to remind you that high blood pressure is a year round problem and that if you have it, you must keep on taking your medication.

By CHARLENE BROTHERS

If anyone has a cure for a headache, please call me. I have had a headache since Saturday night, that will not leave regardless of what I take. That could be part of the problem. I may have mixed so many pain killers that they will not work. I am about to the place that I will take anything. I'm sure this is a sinus headache, the doctor has not really decided just what to call them, so we say they are caused from sinuses, which is probably about as correct as anything else. This hot weather is not helping any, either, and I'm afraid it is going to get worse before it gets any better. We need a good rain and it would help everything and everyone.

HERE AND THERE

Mrs. A.A. Cox is in the hospital at Seymour (when this was written). She is reported to be doing pretty good. I know she would appreciate a card or a visit from all of us.

Peggy Gutierrez is in Clovis, New Mexico, visiting with her sister and family, Mr. and Mrs. Clint Harrison and Misti. Peggy is the daughter of Mr. and Mrs. Humberto Gutierrez.

Attending the wedding of Denese Lancaster in Springtown were her granddaddy, Marvin Manning, also Mrs. Charlene Brothers, Mrs. Pearce Manning, Cody and Christie and Mrs. Cindy Brothers of Knox City. Denese is the daughter of Mr. and Mrs. Derwin Lancaster, former residents of O'Brien and Knox City.

Mr. and Mrs. Ranzy Herring visited during the weekend in Junction with their son and family, Mr. and Mrs. Aderle Herring, Ken and Alan. While they were there they all attended a musical at a town close to San Antonio, where Aderle, Ken and their band played. (I forgot the name of the town, also did not know how to spell it.) Doris's mother and father from Rule, Mr. and Mrs. C.B. Spray-

berry, also visited with the two families.

Mr. and Mrs. Sam Johnston visited in Lubbock recently with their children, Mr. and Mrs. James Duncan, Becky and Carla; Mr. and Mrs. Jim Johnston, Jamie and Wendi and Mr. and Mrs. Don Johnston, Kerrie, Kenda and Rance.

If you travel this coming weekend be very careful, as there will probably be lots of folks with the same idea. Some of the people will have a long weekend, since the 4th

is on Tuesday, and then some will not have but one day and therefore will be in a big rush. We want all of you to be back the next week to read the newspaper, so have a good time and a safe journey to wherever you are going. As hot as it has been all I would like to do is stay in the house with the air conditioner, which is probably what I will do. I'm saving my time off for the last of next month when I hope we can take a two week trip to some cooler part of the country, maybe it will be cooler.

Plans Complete For Quarter Horse Show

The Texas Cowboy Reunion Quarter Horse Show has a slightly new look this year, according to Charles W. Stenholm, who has served as chairman for the past 12 years. This will be the 39th annual show. Three of the coveted Texas Cowboy Reunion saddles will again be awarded to the winners in each of the three shows and exactly 100 trophies will be given in the three shows. Two of the shows will be held on Saturday this year, completing the three shows in two days.

Activities begin Friday morning, June 30, with the Open Youth Show, with three age divisions competing. Trophies will be given to the first three places in each event as well as to the Champions of each age group and the saddle to the over-all winner. A new class, Western

Horsemanship, has been added to this year's show. Judge for the Open Youth Show will be Dale Burnett of Sweetwater, who is well known in horse circles in this area.

The official American Quarter Horse Halter Classes will show beginning at 7:00 a.m., followed by the Registered Youth Halter Classes. The Registered Youth Classes will have one age division of 18 years and under.

The show will include both Junior and Senior Cutting and following this the AQHA and the Registered Youth Performance Classes will show alternately. These also include the Western Pleasure, Reining, Barrel Racing, Pole Bending, and Western Horsemanship in the Youth Show. Tommy Buckner of Dalhart, who has judged extensively, will judge both of the Saturday shows.

Cattle Raisers Prexy Seeks Tax Limitations

FORT WORTH, TEXAS, JUNE 23, 1978—A Constitutional limitation on state and local taxes similar to California's Proposition 13 has been called for by the president to the Texas and Southwestern Cattle Raisers Association, John Armstrong of Kingsville, Texas, representing one of the larger groups of land-owners in Texas.

In a letter to Governor Dolph Briscoe, Armstrong said, "I would like to request that you give serious thought to calling a special session of the Legislature to consider a constitutional limitation on state and local taxes. This

would provide the people of our state with the power of initiative and referendum. In this way, the people of Texas will have the same mechanism to influence a state government on this issue as the people of California."

Armstrong referred to the landslide vote for Proposition 13 in California which has caught the attention of public officials and private citizens all over the nation. "We must strike while the sentiment is strong to limit taxation, thus slowing down the overdevelopment of bureaucracy. In six or eight more months, this enthusiasm and concern may well have cooled. Meaningful tax limitations put on by the Legislature depend on the backing of an aroused citizenry." Armstrong added that the upward trend of property taxes must be stemmed.

The Texas Constitution provides for regular sessions of the Legislature only in odd numbered years from January to June. Unless called into a special session by the governor, the Legislature will not meet until January, 1979.

Born August 28, 1895, in Throckmorton County, she was the daughter of the late Mr. and Mrs. J.P. Stout. She married Denzil Condon December 14, 1924, in Throckmorton. Mrs. Condon was a retired telephone operator.

Forever has a different meaning for different people, but all of us accept forever as "a long time." This is especially true in terms of wasted energy -- once it's gone, it's gone forever. West Texas Utilities Company urges everyone to use all forms of energy as wisely and efficiently as possible. Make sure your home is properly insulated and weatherized; turn off unnecessary lights and appliances; and keep a careful check on the thermostat setting.

Just remember, wasted energy is lost forever -- and forever is a long time.

L.W. Graham was in Temple recently where he visited with his daughter-in-law, Mrs. Clyde Graham.

From Temple, Mr. Graham met his son, and family, Mr. and Mrs. Dale Graham, and visited them in Pasadena. He reported that they also did some fishing at Lake Livingston.

Following his Pasadena visit, Mr. Graham visited another son, Doyle, and his wife in Austin and then went to Waco to visit his granddaughter and her family, Mr. and Mrs. David Anderson and children.

Locals' Kin Wins In WF Tourney

John Slaughter of Abilene, son of former Knox City residents Mr. and Mrs. David Slaughter and grandson of Mr. and Mrs. Olvis Hamm of Knox City, finished third in the championship flight of the 22nd Texas-Oklahoma Junior golf Tournament in Wichita Falls last week.

Winner of the coveted championship title was Donnie Kelly, a Belton high school student, who scrambled his way to a 78 on the last day of competition to become the winner.

Mark Brooks of Fort Worth, the pre-tournament favorite and a golfer who missed qualifying for the U.S. Open by just four shots, whittled away six strokes in route to a final-day 73, and fought Kelly head to head on the back nine before giving way and finishing second, two shots behind the champ. Kelly owned a six-shot lead over Slaughter and seven over Brooks to start the Friday round, but it became evident early the Fort Worth challenger was ready to charge.

In the last-day chase Slaughter shot a 78 as did fourth place finisher Bobby Knox of Brownfield.

Total scores for the top three in the championship flight were Kelly, 293; Brooks, and Slaughter, 299.

Forrest Perdue of Georgetown, son of Mr. and Mrs. David Neil Perdue and grandson of Mr. and Mrs. Neil Perdue, won consolation in the Presidential flight.

RETURN HOME

Mrs. Bertha Trimmer, accompanied by her daughter, Mrs. C.A. Reeves, have returned from a six-day vacation where they visited friends and relatives in Lubbock, Hale Center, Littlefield, Midland, Mineral Wells, Weatherford, and Dallas.

Controlling Animal Damage

Sometimes as you look across a yard, you will notice ridges that are underground tunnels. These tunnels are created by very small animals called moles. Many people confuse these signs with those belonging to gophers. To distinguish between them, gophers do not create ridges, but mounds. They do this by continually moving the dirt collecting in the tunnel to a central location and then depositing it above ground. The mole just pushes the dirt up into the ceiling of this tunnel as he travels along, thus creating the ridges.

Moles are insect eaters and are most active on damp cloudy days in spring and fall. If moles destroy plants, it is not caused by their direct feeding, but by dislodging the plant roots as the animal tunnels through the soil in search of earthworms, and insects. Moles are very small, have a snout like nose, and have very short silky fur. They have keen smell, touch, and hearing, even though they are blind.

Controlling these animals takes time and patience. One method of control is by the use of traps, which can be found in hardware and garden supply stores. Directions on setting the traps are furnished by the manufacturer. Additional information on where to place the trap can be obtained by contacting the Wildlife Damage Control office. Another method of control is to reduce the food supply. Under these circumstances, you rid the insects on which the moles feed with insecticide. This eventually rids the garden area of the moles.

are trying to protect an area while controlling the moles, sheet metal or hardware cloth should be placed below ground to prevent tunneling. The sheet metal of hardware cloth should begin at ground surface and go to a depth of 12 inches and then bend outward at a 90° angle for an additional 10 inches.

For more information, contact Deena Pattillo, Wildlife Damage Control Specialist, 304 Federal Building, Wichita Falls, Texas, 76701, phone number (817) 767-4981.

Tech Officials Are Testing Gin Trash

LUBBOCK - By grinding, treating and cubing low-quality roughages, such as cotton gin trash, a livestock producer can significantly increase their feeding value.

Dr. C. Reed Richardson, professor of animal science at Texas Tech University, recently completed an experiment using cubed, chemically-treated cotton gin trash as a feed.

Cubed gin trash was fed to one group of growing-finishing lambs, with a control group eating loose, untreated gin trash. The lambs eating the cubed trash ate significantly more of it than did those eating the loose trash. The lambs on the cubed feed also gained more per day than did those eating the uncubed gin trash.

Low-quality roughages, such as gin trash or sorghum stubble, have been fed to livestock for a number of years, Richardson said, to provide extra, low-cost energy, particularly for young livestock and breeding stock.

The full feeding value of these roughages has not been realized, however, by feeding them loose or allowing livestock to graze them, he said.

Cubing and treating these roughages significantly increase the feeding value and make the roughages more appetizing to livestock, Richardson said. Without grinding and cubing, he said, livestock will not readily eat the stems present in the roughage, although stems contain valuable nutrition.

Cubing also eliminates the storage problems of loose material.

"For instance, 15 bales of straw can be reduced in size by about two-thirds," Richardson said.

Truscott Students On Tech List

LUBBOCK - Two Truscott students were among more than 4,000 students at Texas Tech University who qualified for the deans' honor rolls in the six colleges during the spring semester.

They were Jacquelyn L. Brown, food and nutrition major; and Cynthia J. Myers, accounting major.

To qualify for a dean's honor roll a student must have a grade point average of 3.0 or more on a 4.0 scale and must have taken as many as 12 semester hours of work.

Texas Tech University has an enrollment of more than 22,000 students in six colleges: Agricultural Sciences, Arts and Sciences, Business Administration, Education, Engineering and Home Economics. There also are a Graduate School and a School of Law.

LOGAN VISITORS

Visiting in the Neal Logan home Sunday were their son and his family, Mr. and Mrs. Lanny Logan, Ethan and Christian of Lubbock and Suzanne's parents, Mr. and Mrs. George Gatewood of Chillicothe.

Judy Hunter Receives Degree

LUBBOCK - Judith A. Hunter of Route 1, Knox City, was one of more than 2,000 students who received degrees in commencement exercises at the conclusion of the spring semester this year at Texas Tech University. Miss Hunter received her degree in music education.

FROM IRVING

Visiting in the Don Railsback home over the weekend were their children, Donna, Brent, and Bruce, all of Irving.

Streams In Desert Places

By Ozelle Stephens

"Ye have not chosen me, but I have chosen you, that you shall go and bring forth fruit, and that your fruit remains that whatsoever you shall ask of the Father in my Name, he may give it to you." (John 15-16).

When you were saved or born again, God chose you to be his special instrument to go to preach or teach the Word to all the world - to everyone you live close to. This has an every day meaning to every Christian who has by the mercies of God presented your bodies as a living sacrifice, holy acceptable unto God, which is your reasonable service. You become God's Ambassador to tell your family, your friends, and your neighbors about the Word of God. God would not ask you to do something you could not do. There are many ways to be an ambassador for Christ. Ask God to show you how to use his Word for his glory and to bring honor to his holy name.

He will give you strength to help bring many to Christ right where you live. He has you there for his purpose to help those around you. Surrender your all unto God and let him love others through you.

MAKING FAMILY LIFE MORE FUN

TAKING TIME FOR THOSE YOU LOVE

Do you make the most of your warm weather fun with your family members? Here are some tips to help you create and save precious family-fun moments.

- Schedule a regular, weekly "family time" activity—a time of togetherness that the family can depend on.

- Plan a family reunion. Reestablishing family ties can be a warm, meaningful experience and a great summertime activity.

A FAMILY REUNION is a delightful activity.

- Cherish happy memories longer by keeping a loaded camera on hand. Mount all your pictures in a family album.

- Use a cassette recorder on "family occasions," and label each tape with the date, occasion and participants.

- Record your roots on a diagrammed family tree. Trace each family member's relationship, name and date of birth.

- Add a few lines to a family journal each day.

For additional family-time ideas, a free brochure, "Because Your Family Matters," is available from local participating McDonald's® restaurants from June 19 to July 16, or by writing the American Family Society, Box 9873, Washington, D.C. 20015.

More People Expected On Highways July 4

Major C.W. Bell, Regional Commander of the Texas Department of Public Safety, said, "Traffic speeds are up and more people are expected to be on Texas Highways this Fourth of July holiday."

Operation Motorcade for the Fourth of July will be in effect beginning at 6:00 p.m. Friday, June 30, and ending at 11:59 p.m. on Tuesday, July 4. All deaths resulting from traffic accidents will be reported to the Austin Department of Public Safety Headquarters immediately through the various Texas Law Enforcement agencies.

Texas DPS To Conduct Road Checks

The Texas Department of Public Safety Region 5, covering 60 counties in the Northwest part of the State, plans to conduct a series of extensive road checks in certain selected areas. The primary purpose of these road checks is to enhance enforcement of laws relating to speed and overweight violations.

Summer vacation periods brings added traffic to the Texas highways. It is the purpose of the Department to regulate vehicle traffic during these summer months to save lives and reduce road damage.

This extensive traffic enforcement will begin early next week and continue through the summer months as long as the program proves to be effective.

PERDUE GUESTS

Recent visitors in the Neil Perdue home were their grandson, Forrest Perdue of Georgetown, and his Cousin, Brad Stebbins of Austin.

The boys were in Wichita Falls last week for the Texas-Oklahoma Junior Golf Tournament in which 400 boys entered the competition.

Mrs. Perdue reported that Forrest won consolation in the Presidential Flight for the age 16 group.

Major Bell urges each and every driver to do his part this holiday period, by not drinking and driving. "Let's all slow down and practice defensive driving to stay alive," he said.

The Texas Department of Public Safety will be on full alert on all highways in the area to control traffic, lower speeds and get the drinking driver from behind the wheel. It is anticipated that with all uniformed troopers on conspicuous patrol, that traffic violations will be greatly deterred throughout this Fourth of July holiday.

Major Bell urges each and every driver to do his part this holiday period, by not drinking and driving. "Let's all slow down and practice defensive driving to stay alive," he said.

FROM PADUCAH

Susan Jones of Paducah visited Wednesday night in the home of Mr. and Mrs. Buddy Angle and Stacy.

Susan, who is Miss Vernon Regional Junior College, will compete for the title of Miss Texas next week in Fort Worth.

RETURN HOME

Mr. and Mrs. Bert Leaverton of Whiteface, have recently returned home after spending a month with their parents, Mr. and Mrs. John A. Smith of Knox City and Mr. and Mrs. Sam Leaverton of Benjamin.

Feeding Preschoolers

College Station—When feeding the preschooler, follow the basic four food groups—milk, fruit and vegetable, bread, and meat, advises Marilyn Haggard, a foods and nutrition specialist.

There are simple guidelines to follow for each of the four food groups in determining the serving sizes for varying ages of children.

Miss Haggard is with the Texas Agricultural Extension Service, The Texas A&M University System.

MILK GROUP

Two to three cups of milk are recommended for the preschool child, the specialist says.

Put extra milk into the child's diet by serving foods containing milk such as hot or cold cereals, custards and puddings, ice cream and cottage cheese.

These are acceptable substitutes for milk; however, it takes varying amounts of these foods to equal an eight-ounce serving of milk, she continues.

For instance, a one-inch cube of cheddar cheese or one cup of ice cream equal only one-half cup of milk.

Small chunks or cubes of cheddar cheese stored in the refrigerator make excellent snacks for children.

FRUIT & VEGETABLE GROUP

Determine the serving size for fruits and vegetables by the age of the child, the specialist says.

Serve one tablespoon of fruits or vegetables for each year of age.

That way, it's easy to remember three tablespoons for a 3-year-old and four tablespoons for a 4-year-old. The four-tablespoon, or one-fourth cup, serving for the 4-year-old is about half the average serving size for the adult.

Serve strips of raw carrots or bell pepper rings which are easily handled by small hands. However, children may not like strong flavored vegetables such as cabbage and cauliflower if they are raw, she points out.

For snack, serve fruits, fruit juices, and crisp vegetables.

BREAD GROUP

An average serving of the bread group for preschoolers is a half slice of bread, a half cup of ready-to-eat cereal, or one-to two-thirds cup of cereal, grits, macaroni, noodles, rice, or spaghetti.

Serve bread lightly toasted so the child can chew it easily, Miss Haggard suggests.

Serve finger sandwiches that are easy for the child to handle and fill them with peanut butter, meat spread or soft cheese that will not fall out of the sandwich while the child is trying to eat.

Try serving fresh fruit, raisins or brown sugar on hot or cold cereals for an extra

treat and nutrition for the child.

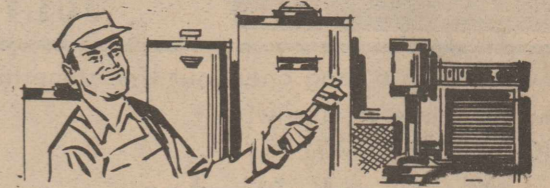

MEAT GROUP

Children need two servings of meat each day, the specialist reports.

A serving is one-fourth to one-half cup of meat, one-half to one cup dry beans or peas, or two to four tablespoons of peanut butter.

Preschoolers at the younger ages of two and three prefer tender juicy meats. Serve these in child-size portions with the skin and bones removed and the meat cut up or broken into small pieces. Most children like well-cooked roast, ground beef dishes, chicken, meat loaf, fish and hot dogs.

Children have a keener sense of taste and smell and may sometimes reject highly spiced meat dishes, she said.
