Reagan blames government for mess

President Ronald Reagan holds the dollar bill he used during his speech in the Oval Office of the White House Thursday night. The president said

the U.S. was in its "worst economic mess since the Great Depression." (AP Laserphoto)

WASHINGTON (AP) - President Reagan, summoning Congress to approve without delay his drastic antigovernment remedy for an economy in crisis, is finding lawmakers willing to cooperate but already promising to change a program they have yet to

Growing government has allowed the economy to veer out of control, Reagan told the nation Thursday night. Now, he insisted, government must "chart a different course" of swift and stern cuts in spending, taxes and regulation.

Declaring the economy is in the "worst ... mess since the Great Depression," the president implored a Congress accustomed to slow deliberation to act now.

"We've stalled the judgment day ... We're out of time," Reagan declared

Related stories, Page 5A

in his first nationally broadcast address from the Oval Office.

The speech avoided specific solutions. Details will be delivered to Congress on Feb. 18, the president promised

Reagan portrayed an economy at the brink of disaster and said: "We have come to a turning point. We're threatened with an economic calamity of tremendous proportions and the old business-as-usual treatment can't save us.'

Warning that "we must not be timid," Reagan said reducing the government's bite on the economy 'can create the incentives which take advantage of the genius of our economic system.

"Our aim is to increase our national wealth so all will have more, not just redistribute what we already have, which is just a sharing a scarcity," he said.

That buoyant view was in sharp contrast to the call for sacrifice that Jimmy Carter delivered four years

But Reagan's policies will not be

painless for millions of Americans who will be affected by the administration's proposed budget cuts. Dozens of social programs - including Social Security, unemployment benefits, Medicaid, farm subsidies, business loans, urban aid, food stamps and child nutrition - would be trimmed to cut up to \$14 billion from the budget this year and \$50 billion in 1982.

"Our spending cuts will not be at the expense of the truly needy," Reagan promised. "We will, however, seek to eliminate benefits to those who are not really qualified."

Reagan said his advisers had prepared a "comprehensive audit" that depicted the rise of inflation, regulation, taxes, spending and economic stagnation since World War II.

"You won't like it, I didn't like it, but we have to face the truth and then go to work to turn things around," he

Japanese steelworkers outproduce Americans by about 25 percent, he said. "This isn't because they are better workers. I'll match the American working man or woman against anyone in the world. But we have to give them the modern tools and equipment that workers in other industrial nations have."

"There are 7 million Americans caught up in the personal indignity and human tragedy of unemploy-ment," he said. "If they stood in a line - allowing three feet for each person the line would reach from the coast of Maine to California."

He produced a dollar bill in one hand and a quarter, dime and penny in the other, explaining that since 1960, inflation has reduced the value of the dollar to 36 cents.

A decade ago, the average family spent 27 percent of its income for a home; today, it takes 42 percent, he said.

Two more buildings going up at Petroleum Center

Two more office buildings in the Petroleum Center Office Complex will push the total amount of construction for that development past \$25 million

Seven Petroleum Center and Eight Petroleum Center will be the newest additions to the complex being developed by the I.D.P. Corpora-

The announcement was made Thursday by a spokesman. These latter two buildings will be located east of One and Two. The complex is bordered by North A Street and Wadley Avenue.

The first two were started in 1979 and were built at a cost of about \$3 million each. With inflation, said the spokesman, the new buildings will cost about \$3.5 million each.

Construction on these last two buildings should start in March. Completion is planned for December, said the spokesman. Both buildings are about 30 percent leased.

Construction on buildings five and six will be delayed until August. Each building is a two-story structure with white exterior and black glass. Interiors have marble walls and marble floors and feature an atrium in the center. Executive suites are located in the circular areas on each side of the buildings. Parking is provided. Landscaping highlights the buildings' exteriors.

Declining demand checks oil prices

NEW YORK (AP) - Declining demand appears to be keeping world oil prices in check despite a sharp jump in fuel costs in the United States. industry sources say.

HAVE I HAD

USE

If the trend continues, American consumers could be in for a breather after watching fuel prices jump about 8 cents a gallon since President Reagan ended federal oil price controls last week.

But the sources say more cold weather — which can boost heating oil demand - or a sharp drop in oil exports from the Middle East could refuel the world oil-price spiral.

Reagan's lifting of price controls pushed the average price of a 42-gallon barrel of domestic crude up \$8, to about \$37. The domestic increase came on top of a jump of 10 percent or \$3 a barrel - since December in the average price of the foreign oil that supplies 40 percent of U.S. petroleum needs.

Although the Reagan administration has contended its decontrol move will boost fuel prices 3 to 5 cents a gallon, industry analysts have said the move could push prices as much as 12 cents higher.

On Thursday, Texaco Inc. raised wholesale and retail heating oil prices 3 cents a gallon nationwide following a wholesale boost of 2 to 3 cents a gallon in some areas Tuesday. The nation's third-largest oil company also raised wholesale gasoline prices 4.5 cents a gallon in parts of the South and Southwest after boosts of 2 to 3 cents a gallon in other regions earlier in the week.

Wholesale prices of gasoline have risen about a dime to 12 cents a gallon, while those for heating oil have risen as much as 16 cents, refiners' tabulations show. Analysts say the increases apparently are being passed on to consumers.

Overseas, however, traders say oil can be bought for less than some exporters' official prices because petroleum demand has fallen so sharply following a better than 150 percent price boost since January 1979.

The International Energy Agency says oil use in the major industrial countries fell 7.5 percent last year, and is expected to drov as much as 2 percent more in 1981.

As a result, a world petroleum glut could develop "sometime in the summer of 1982," leaving prices "floating at a lower level," Saudi Arabian Oil Minister Sheik Ahmed Zaki Yamani said.

Yamani said a world oil glut next year will be "very sizable" if Iran and Iraq end their war and resume shipping the 4 million barrels a day they were exporting before hostilities began last fall. If the two countries maintain their current 1 million barrels-a-day output, however, "the glut will be a small one," he said.

Yamani's country supplies 8 percent of U.S. oil needs and 20 percent of the oil used in the non-Communist world. He said Saudi Arabian oil output would remain at its current 10 million barrels-a-day level for now though petroleum demand "seems to be" soft.

It's 31st anniversary of his 39th birthday.

WASHINGTON (AP) - Ronald Reagan, the oldest man ever to be come president, today is celebrating his 70th birthday - or as he puts it, 'the 31st anniversary of my 39th birthday."

More than 100 people, including such long-time California friends as Jimmy Stewart, are expected at Reagan's birthday party tonight at the White House. The well publicized "surprise party" will be held by four couples who have been hosts for Reagan's birthday parties for the last 20 years.

The birthday also was being marked with a congratulatory visit from congressional leaders today.

Perhaps because his age was a campaign issue last year, Reagan himself has been joking about the subject the past few days.

"I want to thank you for starting out the celebration of my 31st anniversary of my 39th birthday," the president quipped at a prayer breakfast Thursday.

And at a black-tie congressional dinner Wednesday night, Reagan defined middle age as "when you're faced with two temptations and you choose the one that will get you home at nine o'clock.'

Reagan won't receive most of his birthday gifts until tonight's party, but his wife, Nancy, said in advance that she would give him a tree for their ranch in Santa Barabara, Calif.

She said he gave her an olive tree when their daughter Patti was born and that she liked it so much she decided to give him one.

Another gift, from Patti, was already on his desk in the Oval Office Thursday night. The present, a color photograph of Patti embracing her father, is inscribed, "I love you dad."

Michael Deaver, deputy chief of staff and a close personal friend, planned to give Reagan a plaque for his desk proclaiming, "The Buckaroo Stops Here," a take-off on the Harry Truman motto favored by Jimmy Carter.

Nancy Reynolds, a 15-year friend of the Reagans, got the idea for her gift from the Bible that belonged to the president's mother. In it, Nellie Reagan had written: "A thought for the day: You can be too big for God to use but you can't be too small."

WASHINGTON (AP) - While the economy shows signs of staggering under the weight of persistently high interest rates, the nation's unemployment rate remained surprisingly stable in January.

The Labor Department reported today that last month's jobless rate stood at 7.4 percent overall, the same as in December, and "little different" from the level that has prevailed since May.

About 7.8 million Americans were out of work in January, the department said. In contrast, 97.7 million people were employed last month, an increase of more than 400,000.

"The gloom and doom predictions have been with us for a while, but so far they haven't materialized," said Sar Levitan, a labor economist.

January's stability is all the more impressive because the number of people entering the workforce increased by 475,000 last month, the first sizable increase since July. Most of this gain occurred among women, whose participation in the labor force now stands at an all-time high of nearly 52 percent.

In contrast, however, employment among adult men and teenagers was virtually unchanged in January and

still was 150,000 and 500,000, respectively, below the levels of one year ago

Industry employment, which had suffered heavily during last spring's recession, rose by nearly 400,000 in January and over the last three months has advanced at a monthly average of about 250,000. "Between December and January, large employment reductions usually occur," the Labor Department noted.

The factory work week average was up 0.3 of an hour over the month. continuing a steady rise that began last July as the economy started its climb out of the spring recession.

In addition, average weekly earnings, after seasonal adjustment, rose 1.4 percent from December, a larger than usual increase that reflects the 25-cent increase in the minimum wage to \$3.35 an hour.

The department reported these unemployment rates in January among key sectors of the economy: -Adult men fell from 6.2 percent to

6 percent.

-Adult women declined 0.1 percent to 6.7 percent.

-Teenagers increased 1.2 percent to 19 percent.

New eruption builds dome

VANCOUVER, Wash. (AP) -Mount St. Helens is erupting again, but so far the eruption has been limited to molten rock oozing from the mountain's bowels up into the crater and hardening in a growing lava dome, scientists say.

"It seems to be a repeat of the December activity," said Bob Norris, spokesman for the University of Washington geophysics center, referring to a similar eruptive phase the week after Christmas. "It appears the main part of this eruption will be dome growth."

Molten rock came to the surface Thursday amid clouds of steam that filled the crater and rose nearly two miles above the southwest Washington mountain.

Scientists had predicted an eruption after a flurry of small earthquakes Wednesday and Thursday.

Norris said small volcanic earthquakes were being detected only about once an hour early today. The quakes were apparently caused by molten rock pushing through the mountain, he said.

The type of molten material seemed to contain less gas than in December, Norris said, indicating less pressure within the volcano and the likelihood of a "quieter eguption."

INSIDE TODAY -

Mount St. Helens continues to vent steam skyward late Thursday afternoon. (AP Laserphoto)

Leftists protest Tehran

BEIRUT, Lebanon (AP) - Up to 10,000 leftists demonstrating opposition to Iran's clergy-dominated government battled with Islamic fundamentalists in the streets of Tehran today and sources in the Iranian capital reported 30 people injured, some by gunfire.

Iranian police contacted by telephone from Beirut said there were "many" casualties, some suffering bullet wounds. One Tehran newspaper said 30 were injured in the fight that lasted more than three hours. "Those who have been shot are now

hospitalized," one officer said.

A policeman said one person was reported killed, but he was unable to confirm the report.

A Tehran hospital reported treating eight people for injures and a hospital spokesman said one policeman was wounded by gunfire.

Police said between 7,000 and 10,000 members and supporters of the Marxist Fedayeen e Khalq organization gathered at Freedom Square on the western edge of Tehran in defiance of a government ban on demonstrations

The leftists were confronted by sup-porters of the "Hezbollahi," or "God's Party," according to a spokesman for the Revolutionary Guards contacted by telephone from Beirut.

Hezbollahi is an organization of followers of hard-line Islamic clergy who support revolutionary leader Ayatollah Ruhollah Khomeini.

Tehran Radio reported that members of the Fedayeen organization staged a march "creating tension" in defiance of a ban on demonstrations issued Thursday.

.26 cl A journalist on the newspaper Nizan, in a telephone conversation with The Associated Press in Nicosia, said about 30 persons were slightly injured.

Tehran Radio had little to say about the demonstration except that members of the Fedayeen organization had ignored a government ban on demonstrations.

made by two Texas citrus companies. The boycott began Thursday with the ceremonial pouring out of Texsun and Big Tex juice. TFWU spokesman Jesus Moya said the union will picket "all the stores that carry the juices until we are able to clean them off

Fog to disipate; Skies to be fair

The morning fog the Permian Basin has been getting lately should be disipating soon as temperatures become warmer and skies turn fair, according to the National Weather Service at Midland Regional Airport.

Tonight's low should be a mild one in the mid-30s. This morning's low was 36 degrees - twice as warm as the record low for the date of 18 degrees set in 1979. Southerly winds at 10-15 mph should bring the warm breezes back for a while.

This weekend should begin with sunny skies and a high Saturday expected to be in the low 60s. Northerly winds will return at a slight 10-15 mph.

Thursday's high reached 51 degrees in a slow progression back to the spring-like weather of last week. The record high for Feb. 5 was set in 1951 at 78 degrees.

Plans OKd for OC's gym-recreation center

ODESSA - The state's Coordinating Board for Colleges and Universities has approved plans for construction of Odessa College's new Community Recreation Center/Gymnasium, according to Dr. Philip Speegle, OC president.

OC trustees had authorized building the \$5 million facility at a meeting in September, but the college needed approval from the Coordinating Board before the gym/recreation center could be built.

The facility is to be built on the site where W.T. Barrett Stadium, Ector County Public Schools' football stadium, now stands. It will be built after the public schools' new football complex is completed and the old stadium torn down.

The public schools own the old stadium, which is located on property owned by Odessa College. The college leases the land on which the stadium is located to the public schools on an annual basis for a token \$1-per-year

Surviving Beatles

to cut new record LONDON (AP) - The three surviving members of the Beatles are plan-

ning to record together again, the Sun newspaper reported Friday. In a dispatch from New York, a late edition of the newspaper said the

three - Paul McCartney, George Harrison and Ringo Starr - will make a record in tribute to John Lennon, who was shot down outside his New York City apartment Dec. 8.

The Beatles split up in 1971. The paper said the reunion was

being organized by the group's longtime producer, George Martin. It said Martin hoped to record an album featuring the three musicians at his \$2.4 million studio on the Caribbean island of Montserrat.

McCartney is already on the island making a new record for his own group, Wings.

No spokesman at EMI, the Beatles' long-time record company, was immediately available for comment.

OC officials hope to proceed with a needs analysis involving physical education instructors, coaches, community recreation program planners and administrators in determining what facilities the new structure will actually house.

Then OC administrators plan to have the architectural firm of Peters and Fields, which already has been employed, to make final architectural plans for the facility.

The college plans to sell \$4 million in self-liquidating revenue bonds to finance construction of the building. The bonds will be repaid with general use fees paid by Odessa College students.

The additonal \$1 million to pay for the facility will be generated through interest earned on money from student fees and from interest on the bond funds.

The recreation center/gymnasium would be built on the west side of the campus. Tentative plans call for construction of the building to begin in 1982. Target date for completion is 1984.

The structure will house instructional programs in physical education, athletics and community recreation classes, which range from gymnastics and tennis classes for children to exercise classes for men and women. Tentative plans also call for the facility to include an outdoor track, tennis courts and a parking

which were sketchy by press time. 1300 S. Colorado, remained hospitalized at Midland Memorial Hospital today following an early morning traffic accident Thursday, just south of Interstate 20 on the Rankin Highway. His vehicle and one operated by Donald Ray Watters, Route 4, Mid-

Soot buildup in the chimney of a Mrs. Austine Crosby.

"I look at it as a very courageous act by a woman who knew she was going to die," said Sgt. James Gay. "I've never seen or heard of anything quite like it. A shred of a telephone bill found in Mrs. Tucker's clothing bore the last name of one of three men arrested in the slayings of the Sylacauga couple, he said Thursday. The scrap was found among several slips of paper in Mrs. Tucker's clothing during an examination of her body.

arrests of three suspects in the case, a detective says.

The Tuckers were killed last month by close-range shotgun blasts at the end of an abandoned mining road in the western section of Birmingham.

Woman hides clue

to slayer in clothes

BIRMINGHAM, Ala. (AP) - Just before Myra Tucker and her

husband Terry were slain, she hid in her clothing a clue that led to the

They had left their two children with relatives to make the 45-mile trip from Sylacauga to Birmingham for a night on the town.

The two apparently were zbducted from a nightclub parking lot and taken to the kidnapper's apartment, with Tucker in the trunk of the car, Gay said.

Mrs. Tucker was raped and apparently picked up the pieces of paper before being taken back to the car for the trip to the deserted mining road, the sergeant said.

The piece of paper led police to Jerry Godbolt, 21, who was picked up after the weekend slayings and gave officers a statement leading to murder charges against him, Carnel Jackson, 17, and Wayne Agee, 19, Gay said.

Others said liable for contamination

BUFFALO, N.Y. (AP) - The Department of Defense, in response to a state report on the contamination of upstate New York sites by radioactive waste from World War II projects, says others share the blame, the Buffalo Courier-Express said today.

The newspaper, in a copyright story, quoted George Marienthal, deputy assistant defense secretary, as saving his department would not be singled out for liability.

"Will there be a report on the industrial connection (with the toxic contamination), or on the state connec-' tion or on the local government connection?" Marienthal said.

His comments were, the first by a

department official since the release of the report last week.

The department will have a more complete response in about 10 days, Marienthal said.

He said the Defense Department saw no immediate reason to honor a recommendation that it reopen its 1978 investigation into materials the Army may have dumped into the Love Canal, a waste-burial pit that caused an environmental disaster years later when buried chemicals began oozing into a residential neigh-

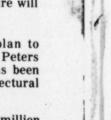

borhood. Marienthal said there was no evidence to back up witnesses' accounts of watching Army personnel throw metal drums into the canal in the 1940s and 1950s.

DEATHS

Lorena Williams

Mrs. Hermann D. (Lorena) Williams, 78, of 2304 Princeton Ave., a retired music teacher and a charter member of the Midland Music Teachers Association, died early Wednesday in a Midland hospital.

Services were to be at 10 a.m. today in the Newnie W. Ellis Funeral Home chapel with the Rev. Steve Edwards, pastor of The First Christian Church, officiating. Burial will be in Elmwood Memorial Park of Abilene.

Mrs. Williams was born Dec. 19, 1902, in Callahan County, where she spent her early life. She was graduated from Abilene Christian College and from a conservatory of music in Tennessee.

She returned to Abilene and married Hermann D. Williams in 1928. Mr. and Mrs. Williams lived in a number of places before going to Big Spring in the late 1930s and to Midland in 1945.

Mrs. Williams retired from teaching music in the spring of 1980.

She was active in music circles in Midland and was an active member of The First Christian Church.

Survivors include her husband; a brother, Hobson Sites of Abilene, and several nieces and nephews.

Eva F. Taylor

ANDREWS - Services for Eva Florence Taylor, 87, of Andrews were to be at 2 p.m. today at Fryberger Mortuary in Great Bend, Kan., with burial in Springdale Cemetery in Chase, Kan.

She died Tuesday in an Andrews bospital after a lengthy illness. Born April 25, 1893, in Madison

County, Ark., she was married to Henry Taylor Sept. 4, 1910, in Tahlequah, Okla. She was a member of First Christian Church.

Survivors include three daughters,

lips Petroleum Co. in 1980. He was a veteran of World War II. Survivors include his wife; two sisters, Lessie Herbst of Galveston and Eunice Scott of San Antonio; and a grandson

Rosie Butler

Rosie Butler, 72, of 508 S. Jackson St., died Tuesday evening in a Mid-land hospital after a lengthy illness. Services will be at 2 p.m. Monday in Lee Street Church of Christ with L.H. Alexander officiating. Burial will be in Fairview Cemetery directed by Newnie W. Ellis Funeral Home.

She was born March 11, 1908, in Unadilla, Ga., and was reared in Dooly County, Ga. Mrs. Butler moved to Midland in 1939. She was married to Ernest Butler on Oct. 12, 1940, in Midland

Survivors include her husband; a son, Clifford Butler of Midland; two daughters, Mazie Pleasant of Midland and Roxie Ann Lewis of Houston; five brothers, George Fitzgerald of Winter Park, Fla., Mack Fitzgerald, Walter Lee and Eddie Charles Fitzgerald, all of Philadelphia, Pa., and Willie B. Fitzgerald of Sharon Hill, Pa.; seven sisters, Fannie Mae Martin of Philadelphia, Lizzie Lou Vaunado of Detroit, Mich., Mamie Thornhill of Hartford, Conn., Geraldine Howard of Mastic, N.Y., Pearlie Mae Morriss of Midland, Betty Jean McGilbra of Kermit and Ida B. Mitchell; seven grandchildren; eight. great-grandchildren and two greatgreat-grandchilren.

Robert Overby

STANTON - Robert Dee Overby, 40, of Big Spring and formerly of Stanton, died Wednesday evening in a Big Spring hospital after a lengthy illness

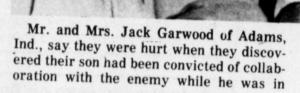

Services will be 2 p.m. Saturday at the First Baptist Church in Stanton with the Rev. Charles Mitchell of Coleman officiating. Burial will be in Cuthbert Cemetery in Snyder under the direction of Gilbreath Funeral Home in Stanton.

Born Sept. 24, 1940, in Stanton, Overby was married to Ester Lynn Watson Feb. 26, 1975, in Stanton. He had worked as a gin employee. Survivors include three sons, Ran-

dall R. Overby, Wallace B. Overby and Albert D. Overby, all of Big Spring; his wife; a stepson, Wiley Nadwell; a stepdaughter, Debbie Nadwell; three brothers, Carroll L. Overby of Cotton Dale, Ala., Jerry D. Overby of Gainesville and Kenneth R. Overby of Odessa; four sisters, Mrs. B.D. Burton of Imperial, Mrs. Rosco Thomas of Stanton, Mrs. James. Wigglesworth of Grandview and Mrs. Jesse Williams of Odessa.

He was preceeded in death by his

Garwood facing life imprisonment

Vietnam. The elder Garwood said his son didn't expect complete exoneration but

CAMP LEJEUNE, N.C. (AP) - Marine Pfc. Robert Garwood, who said last summer that "an American prison is better than a Vietnamese one" today faces the possibility of life imprisonment for collaborating with the enemy during his years in a prisoner of war camp. His lawyers will be trying to whittle down the

sentence.

Garwood, 34, blinked back tears but otherwise was

See related story, Page 4B

composed as the verdict was read Thursday afternoon. He was found innocent on a charge of maltreatment, but guilty on a lesser charge of assaulting a fellow American prisoner.

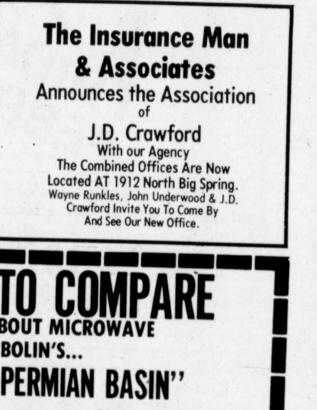

The Indiana native, whose attorneys had tried to establish mental illness, made no comment as he was led away.

The Marine was a 19-year-old jeep driver when he was captured near Da Nang in 1965. He returned to the United States in 1979 - unable to tie his shoes or speak English without a heavy accent - after slipping a note to a Finnish businessman in Hanoi. His was the first case of collaboration by a Vietnam POW to go to a jury.

A five-man panel of Vietnam veterans spent two days deliberating before finding Garwood guilty of collaboration during two of the 14 years he was in captivity.

Collaboration carries a maximum sentence of life imprisonment. The assault charge, which involved the striking of a fellow POW, carries a maximum six months

In the military judicial system, sentence is determined in further court hearings, and defense lawyers said they would discuss today the possibility of didn't expect conviction either. (AP Laser- bringing more witnesses to appear for Garwood. The jury remains on call to decide the sentence.

> Officials of the Pioneer Corp., an Amarillo-Based oil and gas company, discuss prospects for the Permian Basin at the recent Wildcat Committee reception in the Petroleum Club of Midland honor-

SECTION C

Culver, executive vice president and director; K. B. Watson, chairman of the board and president, and Edward S. Morris, vice chairman. (Staff Photo by Brian Hendershot)

Pioneer reports record performance

K. B. Watson, chairman of the board and president of Amarillobased Pioneer Corp. said in Midland that strong performances in exploring for and producing oil and gas, in producing and selling natural gas liquids, and in supply contract drilling services led Pioneer to record annual earnings in 1980.

ing the company's officials. From left are C. D.

Watson, other officials and directors of the company were guests of honor Monday at a reception hosted by the Midland Wildcat Committee in the Petroleum Club of Midland.

Following a Pioneer board of directors meeting held prior to the reception, Watson said the diversified energy resources corporation had net income of \$90.6 million the past year, an increase of 38 percent from 1979. He said earnings per share for 1980 were \$2.44, up 36.3 percent from \$1.79 in 1979, adjusted for the Dec. 30 twofor-one stock split. The chairman said Pioneer's revenues for 1980 increased 24.5 percent to

\$912 million from 1979's \$732.5 million.

He said for the fourth quarter of 1980, Pioneer earned \$24 million on revenues of \$232.1 million. Net income increased 40.8 percent and revenues were up 15.9 percent from the same 1979 Quarter.

Watson also reported the company declared a quarterly dividend of 22 cents per share, a 10 percent increase from the previous quarter after adjusting for rhe stock split. The dividend is payable March 4 to stockholders of record Feb. 19. During the last 15 months, the directors have increased the dividend by more than 80 percent in four stages.

Watson estimated thsat Pioneer's capital expenditures in 1981 will amount to more than \$200 million, of which \$100 million is projected for oil

mitted.

The chairman also reported that a gas processing plant will be added this year to the eight Pioneer currently operates, and orders have been placed by Shar Drilling Co., a subsidiary, for six more rigs to be delivered in 1981.

Joining Watson as an honored guest at the reception were: Edward S. Morris, vice chairman; C. D. Culver, executive vice president and director; J. J. Heitz, senior vice president, and T. A. Priolo, vice president, all of Amarillo.

R. E. Throckmorton Jr., president of Sharp Drilling, and Harvey Herd, Pioneer Corp. director, both of Midland also were among those honored. Other directors of the company who

were on hand were Laurence R. Jones Jr., Kansas City, Mo.; Maurice E.

Prospectors, new field wells reported in Basin counties

The Los Angeles Times

SALISBURY, Zimbabwe - A dozen American banks, with the Bank of America in the lead, are exploring investment possibilities in the recently independent and prosperous blackruled state of Zimbabwe.

European bankers also sense a favorable investment climate here after watching the performance of Prime Minister Robert Mugabe. Even though Mugabe is an avowed Marxist, his policies are pragmatic.

This is the evident trend after nine months of Mugabe's government. Foreign banks do not appear to be overly concerned about the political stability of the country, even though there are sharpening differences between Mugabe and his old guerrilla ally, Joshua Nkomo, whose party holds a minority position in the coali-

tion government. The country's difficulties, some hankers think, have been exaggerated, particularly accounts of banditry and unrest in the countryside, which is attributed mainly to idle guerrillas loyal to either Mugabe or Nkomo. Diplomats from Communist and Western embassies agree with the bankers.

It finaled for a calculated absolute open flow potential of 3.86 million cubic feet of dry gas per day, through perforations from 4,150 to 4,882 feet. The pay was acidized with 7,000 gallons

> Location is 2,073 feet from south and 1,867 feet from east lines of section 123, block 11, H&GN survey. Total depth is 5,240 feet, 5½-inch pipe is set on bottom and hole is

plugged back to 4,908 feet. MARTIN COMPLETION

A new well, completed for a daily pumping potential of 90 barrels of oil and 78 barrels of water, has been added to the Breedlove, East (Spraberry) field of Martin County, six miles south of Patricia.

It is Saxon Oil Co. of Midland No. 2 Knox.

The potential was on perforations at 7,852-8,343 feet after 8,500 gallons of acid and 186,000 gallons of fracture solution.

Gravity of the oil is 39 degrees and the gas-oil ratio is 811-1.

Total depth is 9,450 feet, 41/2-inch casing is set on bottom and hole is plugged back to 9,410 feet.

Wellsite is 1,675 feet from north and 2,652 feet from west lines of league 253, Ward County School Land survey.

Banks exploring investments

America to buy a controlling interest in Rhobank, Zimbabwe's only local bank. The Bank of America is negotiating to buy out the 61 percent share that Nedbank of South Africa has in Rhobank. Nedbank appears to be ready to sell out, believing that the Mugabe government's mistrust of white-ruled South Africa will mean eventually that much of South Afircan private investment in Zimbabwe will have to be withdrawn.

The anti-South African attitude of the Mugabe government is already evident in the purchase of a controlling interest in the country's newspaper chain, the Argus Papers, which had been South African-owned.

'No paper controlled by racist South Africans can be expected to present a balanced picture here," Information Minister Nathan Shamuyarira said in announcing the purchase. "We will continue to take any measures that will assert the interest of Zimbabwean society in its totality.

Except for the Argus deal, howev-

er, the hostility exhibited bythe Mu-

gabe government toward neighboring

FRB says fuel prices would be lower

NEW YORK (AP) - The prices Americans pay for gasoline or heating oil would be 20 to 30 cents per gallon lower were it not for the lifting of federal price controls, according to a study by the Federal Reserve Bank of New York.

But the study, published in today's issue of the bank's "Quarterly Review," argued that the benefits of higher prices caused by the shift in energy policy include reduced imports, a savings of about 6 percent in oil use due to conservation and probably increased domestic oil output.

"Crude oil price controls en-couraged too high a level of petroleum consumption, discouraged domestic energy production and increased oil imports," the study said, adding, "our dependence on imported petroleum leaves the country vulnerable to the threat of economic disruption." The United States imports nearly 40

percent of its oil.

Major refiners, meanwhile, continued the series of fuel-price increases that followed President Reagan's 'Jan. 28 decision to drop petroleum price controls eight months ahead of schedule.

Among those announcing increases in wholesale fuel prices of as much as 4 cents a gallon were Shell Oil Co., Union Oil Co. of California and Tosco Corp. The increases could be felt soon by consumers.

prices for gasoline, heating oil and diesel fuel by a penny to 6 cents a gallon since Reagan's move was announced.

While some refiners have attributed the increases directly to the lifting of the controls, others have said previous oil-price boosts - including a 10 percent jump in foreign oil prices since mid-December - sparked the moves.

ny, said in a prepared statement the Reagan decision "had little or no impact" on its latest moves, and attributed the actions instead to the "increasing cost of imported crude." Shell said its wholesale gasoline

prices rose 1 cent to 4 cents a gallon, depending on region, while wholesale prices for diesel fuel and heating oil increased 3 cents a gallon in most areas. No. 15 Union raised wholesale prices of gasoline, heating oil and diesel fuel 2 cents a gallon in several areas, while Tosco, a large West Coast refiner, increased wholesale gasoline and diesel fuel prices 3 cents a gallon.

The lifting of oil-price controls began in June 1979 and was to have ended Sept. 30, but the authors of the Federal Reserve study - economists Paul Bennett, Harold Cole and Steven Dym - said Reagan's action last week did "not substantially change our conclusions" on the effects of decontrol.

BORDEN FIELD TRY

Aminoil U.S.A. Inc., operating from Midland, announced location for a northwest stepout to the one-well Wicker (Strawn) field of Borden County, four miles southeast of Gail. Scheduled as No. 2 Chilton, it is 700 feet from north and 2,150 feet from east lines of section 11, block 30, T-4-N. T&P survey. Contract depth is 9,000 feet.

KING SITE

Tom R. Minihan of Midland No. 2 Gibson is to be drilled as a north offset to one of the three wells in the Probable (Canyon) field of King County, 12 miles north of Guthrie.

The 6,500-foot operation is 1,667 feet from south and 467 feet from east lines of section 1, D&W survey.

CROCKETT TESTS

Warren American Oil Co., Midland, announced location for a 2,800-foot San Andres project in Crockett County, 14 miles southeast of Big Lake. It will be drilled 1½ miles east of a

south extension area to the Farm (San Andres oil and gas) field. If successful, the well will be assigned to that field.

Scheduled as No. 2 University of Texas, it is 330 feet from north and west lines of section 4, block 46, University Lands survey.

R. C. Bennett Co. of Midland No. 1 Mitchell "B" is to be drilled as an east offset to a 2% mile southwest extension area to the Ozona (Canyon gas) field of Crockett County, 28 miles southwest of Ozona.

The 7,500-foot project is 3,288 feet from north and 753 feet from west lines of section 11, block NNN, W. Fowler survey.

FISHER LOCATION

Crown Exploration Co. of Abilene announced location for a 4,800-foot Canyon project in the Royston (Canyon and Swastika) field of Fisher County, four miles west of Hamlin. It is No. 1 Pelman, 2,173 feet from north and 1,100 feet from west linres of section 201, BBB&C survey.

WARD DRILLSITE

The four-well Wickett, North field of Ward County gained a new project with the staking of Gulf Oil Corp. No. 1125 Hutchins Stock Association.

The 9,600-foot test is 3/4 mile southeast of the closest well and 660 feet from north and east lines of section 3, block F. G&MMB&A survey.

IRION COMPLETION

The CAL (Canyon) field of Irion County gained a new well, its ninth, with completion of Fortune Production Co. of San Angelo No. 2 Baker "B," nine miles southwest of Mert-

zon. The well finaled for a daily flowing potential of 109.9 barrels of 40.7-gravity oil and 11.5 barrels of water, with a gas-oil ratio of 1,795-1.

This view appears to be behind a persistent effort by the Bank of

Oil decontrol not gentle or gradual as some expected

By CHET CURRIER **AP Business Writer**

NEW YORK (AP) — The full decontrol of oil prices so far hasn't quite been the gentle, gradual experi-ence some of the experts claimed it would be.

Within a week after President Reagan ordered it, all the major oil companies have posted big price increases. The largest, Exxon, has raised its wholesale prices twice, for a total of eight cents a gallon, in that time.

The barrage of price-increase announcements from around the industry has been so steady that it's become a sort of daily newspaper feature, like the comics or the stock tables.

It certainly hasn't followed the script outlined by the Reagan administration, which said prices might go up three to five cents, or by economists at one large bank, who declared just a few days ago:

"With inventories bulging and consumer conser-vation efforts expected to intensify, the oil producers may be reluctant to pass quickly on to the public the full price effects of oil decontrol."

Some reluctance.

Now, nobody ever claimed that decontrol of oil prices would rank with, say, a pay raise or a tax refund as a pleasant experience for consumers.

The public voted for the president, Jimmy Carter, who started the decontrol process in 1979. And they voted for another, Reagan, who campaigned on the promise to speed up the decontrol timetable, and kept the promise.

The oil companies have said that price increases would have come no matter what Reagan did. And after all, they point out, his order merely moved up an event that was already scheduled to take place later this year.

Decontrol was of course supposed to have its good effects as well as its painful ones. It was supposed to spur the search for energy at home, and indeed, domestic oil and gas exploration was reported at record levels in 1980.

It was supposed to encourage conservation, and all the evidence suggests that it has done that as well.

And it was supposed to reduce American reliance on foreign oil. According to the estimate of three economists at the Federal Reserve Bank of New York, the decontrol process started a year and a half ago will reduce oil imports 1 million barrels a day by the end of 1981.

Unfortunately, none of that does much right now to offset the squeeze on people's pocketbooks. Decontrol is described as a matter of facing up to

the facts. For years, it is argued - and it is hard to dispute - that the American government's policy was to shield the people from those facts.

If it was a fact that our oil import bills were skyrocketing, the government pumped money into the economy to lessen the impact on consumers. This resulted in big budget deficits and inflation, however. The pill could be sugar-coated, but it still had to be swallowed.

Now, the argument goes, the sugar-coating is being removed so that the free market can operate.

The situation bears a close resemblance to the deregulation now taking place in businesses such as the airline industry. As an airline industry consultant remarked recently, this can be a tough adjustment for executives used to operating in a regulated world. It is, he said, "like sending a domesticated animal back into the woods." For American energy consumers, back-to-nature economics is beginning with some harsh news about how much it really costs to drive cars and heat homes in an unregulated world.

Critique says firefighters did best to save club

FORT WORTH, Texas (AP) — A department critique says firefighters did all they could to save the historic River Crest Country Club, destroyed in a four-alarm fire Jan. 16.

The report, issued Monday, said that even with a full fourth alarm complement of firefighters and equipment on hand from the outset, the third floor would have been gutted and the second floor would have sustained heavy damage.

Charges filed on man for photos of minor girls

EULESS, Texas (AP) - A felony charge has been filed against an unemployed laborer who told police he snapped Polaroid pictures of semi-nude girls, all under 10 years old, after luring them into his apartment.

The charge, "sexual performance, child," was filed in connection with pictures taken of a 7-year-old Euless girl, although police said they confiscated color pictures of four girls.

George Washington Sardella, 52, remained in Tarrant County Jail in lieu of \$7,500 bond Tuesday.

If convicted, he could receive up to 10 years in prison and a \$5,000 fine.

astray. She's in a better original cemetery, yel- diptheria in his childlowed clippings and the hood.

memories of local oldtimers to determine who was buried in the Calico Graveyard, when and where. So far, they are certain

of the whereabouts and identities of only 49 of the 160 corpses beneath the piles of rocks marking each grave. The rocks were there from the bedent?

graves. "I don't think we can even hope to pinpoint an average of one a year

searchers a surprise.

Actually, research showed, Bruce died of old age. He was the Wallin family dog, buried in the cemetery by his bereaved owners more than half a century ago. Then there's the grave of Tom Kate and Tom Kate Jr. Father and son killed in a mining acci-

who used up their spare lives sometime around the turn of the century.

plan to evict anyone - or anything - from the Calico Graveyard, Heegel

assured. "We think we've got (the victims of) one hanging, three knife fights and three gunfights," Heegel said. Most buried in Calico died natural deaths pneumonia, childbirth, old age.

Some of the weathered more colorful,

But the rangers don't not-so-natural deaths, though.

"Wes Wescott, hung in his youth," explains a marker believed to date back some 130 years. "twas a sad mistake when found the truth."

A marker dated 1882 serves as a grim warning to the greedy: "Blackie Scroggins - claimjumpers take note." The rangers say a corpse does indeed rot beneath the faded marker, but

no evidence of a Blackie Scroggins. They may never know who is actually buried there, Hee-

gel said. Heegel said the missing or ruined markers will be replaced by wooden replicas of the originals, and a gate now discourages people from racing dirt bikes and dunebuggies up the hillside.

prit was a Boy Scout leader and his chilly troop, authorities say).

In the long run, though, Calico may not be as interesting as the mischievous rangers hinted it was with the bogus headstones some 30 years

"Skeptics. We're dealing with the public stan-dard thing," Heegel said. "People believe what they want to. You tell them the truth and they call you a liar.

"But tell them a lie and they love it."
