City Council awash in draw problems

By LANA CUNNINGHAM Staff Writer

It was a no-win situation Tuesday

for the Midland City Council. In looking at a proposal to study the area's rising water table and flowing water problems in Midland Draw, the council ran into a brick wall with the various bricks being:

-Some county residents who didn't want the consulting hydrology firm of Ed Reed and Associates, Inc., to do

Other county residents who felt the study was a waste of time and the City Council should proceed with so-

-A lack of support from the Midland County Commissioners who were to agree during their Monday meeting to pay part of the study's cost. In-stead, no action was taken.

AFTER AN HOUR-LONG debate on the study between the council and county residents, the city panel voted to pursue the study on a joint basis with the county. But to assure that the county will participate in the cost, a special joint session of the city and county elected officials will be held at 9 a.m. Thursday in City Hall Council

Joe Reed with the hydrology firm

outlined reasons for the proposed \$53,174 study and its focus.

The two problems facing city and county residents, he said, are a water table that is rising throughout the city and outside the city limits and water flowing in Midland Draw, "which is not normal.'

A task force set up through the **Human Relations Council to review** the problems — and which includes City Councilman Tom Sloan and County Commissioner Charlie Welch - agreed to the six-month proposal of

Two water table maps would be prepared, said Reed. One would be a detailed map in the vicinity of the landfill and sewer plant area, including elevation points on the draw.

This map would be incorporated into a regional water table map that would cover the area, demonstrating abnormal water levels, he said.

Another part of the study calls for sampling the water quality of ground water and surface water to determine various chemicals in the water and if county residents' drinking water is being contaminated.

A FOURTH PART of the study would evaluate seepage from sewage lagoons, or ponds, on a preliminary basis, to see how much of the liquid is flowing into the draw and its effects.

Monthly reports would be presented to the City Council and County Com-missioners during the study, Reed

Sloan asked that Reed break down the study into what part would deal directly within city limits and what part with strictly the county. Cost of the study would be divided accord-

ingly.

Benefits of the study "would be multi-faceted," Reed said. "There's a controversy over waste water in the draw. I feel it's a combination of seepage from the lagoons and rising ground water. We can determine some feel for seepage and for the discharge of ground water. I feel the two are inter-connected.'

But when Reed added that the county took no action on the plan during its meeting the previous day, Sloan re-marked, "I thought Charlie Welch said the county would agree to pay for at least the evaluation of seepage from the lagoons.'

The hydrologist mentioned that basements within the city are becoming flooded by ground water. This water is pumped into the draw or the sanitary sewer line, and it all winds up in the southeast part of the county

Citizens darken firm's glowing plans for cable part-time basis. Federal Communica-

By LANA CUNNINGHAM Staff Writer

Tall City TV Cable Corp. predicted a glowing future for cable television service in Midland that would start within two years. But some Midland prefer better service on what they

Representatives of the Times-Mirror Corp., which owns Tall City TV Cable, appeared Tuesday at the Midland City Council session in City Hall to outline plans for the future and hear comments from residents about the service.

Tom Mixon, local manager, said the name would be changed to Times-Mirror Corp. of Midland and by March it would add CNN, a 24-hour news channel.

Also planned is the addition of Channel 17, an independent "superstation" based in Atlanta, Ga., on a the Midland cable system to only one independent, Mixon explained, and Tall City already has the Fort Worth A shopping channel should be com-

tions Commission regulations limit

THE BIGGEST PROJECT that will be undertaken in a few months and should be completed within two years is a "major rebuilding of the entire system that will allow 52 channels."

Buyers would have a choice of what Mixon called "optional programming." Consumers would buy a \$150 to \$200 converter and then pay for the programming package they prefer, e explained.

Mayor G. Thane Akins asked Mixon about telephone access, referring to numerous complaints that customers can get only a busy signal.

Mixon claimed two more telephone

lines have been installed. Billing has been the source of the biggest problem and a new computer system will change it to a 30-day cycle billing. This should reduce phone pressures which have been occurring at the first of the month.

But the news didn't please some Midlanders.

R.C. Banks, who said he lives on the west side of Midland, suggested "they take care of what they have. The reception where I live is quite poor. It may take three or four days to get some action on the problem," he complained.

Akins explained to the complainants that Tall City's franchise with the city isn't exclusive. "Anyone else who wants to come in may come

El Salvador involvement studied

WASHINGTON (AP) — A House committee is looking into the prospect of growing U.S. involvement in El Salvador as the Reagan administration considers sending more military equipment and advisers to the embattled Central American republic.

WalgreensCoupon

Walgreens

Rep. Clarence D. Long, D-Md., who will chair the House inquiry beginning today, has voiced skepticism about any U.S. moves to provide large-scale military assistance to El Salvador's beleaguered junta.

Among those called to testify before the House Appropriations subcommittee on foreign operations were Robert White, the Carter administration's last ambassador to El Salvador, and Robert Bushnell, the State Department's top official on Latin

The Pentagon said Tuesday that proposals to send additional U.S. military training teams to El Salvador are under "active consideration." Pentagon officials said there are eight permanent U.S. advisers in El Salvador and 19 U.S. Army specialists. One published report said the

administration is considering a total of 50 advisers to help train Salvadoran forces From President Reagan on down, however, administration officials emphasized there are no plans for any Americans to participate in field ex-

ercises or combat and there is no

prospect of a Vietnam-type involve-"I know there is great concern over that," Reagan told reporters at an impromptu news conference. "I think it's part of a Vietnam syndrome. But we have no intention of that kind of

involvement." At the same time, however, Reagan said: "We are in support of the government there and against those who are attempting a violent overthrow." The administration also is weighing whether to provide El Salvador with military equipment, including communications gear and possibly some coastal patrol boats and relatively

ground units, officials said. The Washington Post said today those supplies would be worth \$25 million to \$30 million.

simple planes to support Salvadoran

In an interview Tuesday, Long said he wanted to approach the El Salvador issue with an open mind, but "I have serious doubts about whether we ought to be going in there with a lot of weaponry He cited increasingly tough Reagan

administration statements asserting

that El Salvador is a victim of "indirect armed aggression" by Cuba and the Soviet bloc. "I want to find out whether this is a that he was worried the strong U.S. stance in Central America might deflect public attention from more serious threats farther from home, such as in the Persian Gulf area.

The Maryland Democrat said he believes the Salvadoran regime's progress on land reform has been 'very unsatisfactory.'

On Tuesday, Reagan served notice that his response to the "very interesting" overtures of Soviet President Leonid I Brezhnev could hinge upon the Kremlin's role in arming El Salvador insurgents.

In his first public comment following Brezhnev's call Monday for a summit and new arms talks, Reagan declared that the Soviet alliance with Central American revolutionaries 'would be one of the things that should be straightened out" before any such meetings are set.

First Savings announces president's resignation

The board of directors of First Savings and Loan Association of Midland has announced the resignation of Paul L. Davis Jr., president and managing officer, effective March 11.

At that time, according to Tom Brown, chairman of the board, James A. Gallagher of Albuquerque, N.M., is expected to be elected president, succeeding Davis.

Davis has been with First Savings and Loan since 1958 and has served as president and managing officer since July, 1980. He leaves the company to enter private business, but will remain a member of its board

Gallagher comes to First Savings from American Savings and Loan Association of Albuquerque, where he was executive vice president and chief operating officer. He also was president of Territorial Mortgage Company of America, Inc., a subsidiary of American Savings and

Gallagher is a certified public accountant and was with Ernst and Ernst in Albuquerque prior to joining American Savings and Loan in 1975. By R. GREGORY NOKES **Associated Press Writer**

WASHINGTON (AP) - Soviet leaders are going to have to back their good words with good deeds if they want to sit down with President Reagan at a summit meeting, administration officials say.

For starters, that means helping stop the smuggling of arms to guerril-las fighting the U.S.-backed government in El Salvador

The tension in El Salvador and Soviet President Leonid I. Breznhev's summit suggestion have given Reagan his first opportunity to re-establish linkage as a basic tenet of superpower relations. That policy, honed by former President Nixon, amounts to sort of a good-conduct test before negotiations are held with the Soviets on arms restraints or other outstand-

ing problems. The first test may be El Salvador, where the administration savs leftist

guerrillas are being supplied with arms by Soviet-bloc countries.

"I would think that this would be one of the things that should be straightened out — their participation in that kind of activity," Reagan told reporters Tuesday. "So far, at least publicly, they have been denying that they are involved in that, but I think the evidence that we have and we have made public and that we have told our allies about makes it evident that they are involved.'

Officials said privately that while the administration does not want to dismiss the Brezhnev proposal out of hand, the time isn't right.

"I don't see it in the cards in the near future," said one highly placed State Department official. "Soviet behavior is going to have a significant influence on our reaction to Soviet proposals on various issues in the

U.S.-Soviet relationship. Another State Department official, however, said privately that Brezh-

nev's proposal is clearly "a gesture," and a positive one that he urged be taken seriously. Referring to U.S.-So-viet relations, he said, "We have to manage that relationship.

Reagan said he wanted to talk it over with U.S. allies. Sources said the subject is sure to be raised when Reagan meets Thursday at the White House with British Prime Minister Margaret Thatcher.

Mrs. Thatcher, who arrives in Washington this evening, will be the first leader of a European ally to visit Reagan in the White House.

Referring to possible new arms limitation talks, Reagan said, "You can't just sit down at a table and just negotiate that unless you take into account - in consideration at that table - all the other things that are

Since taking office, Reagan, Secretary of State Alexander M. Haig Jr. and other officials have denounced the Soviets for their actions around

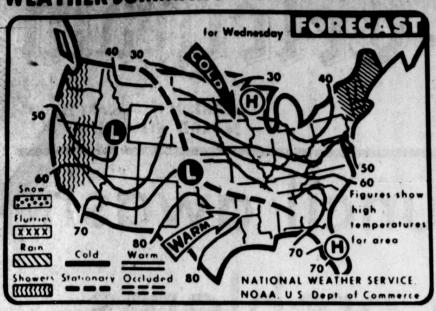

the world - including El Salvador. Angola and Afghanistan - and especially for what they say is Soviet support of terrorism.

But a Soviet Embassy official here, Valentin Kamenev, said he thinks linkage "is a pretext not to work directly on various important issues facing" the two countries.

Even if relations are bad, he contended, a summit meeting is needed.

"If we want to improve relations -and our relations are not good at the present time — then we have to use all the opportunities," Kamenev, the embassy press counselor, said in an interview Tuesday with CBS.

Kamenev also said Soviet leaders are willing to renegotiate the SALT II nuclear arms control treaty that Reagan has rejected, the first time a Soviet official has explicitly said the agreement struck by the Carter administration could be changed.

Food down, gasoline up

WASHINGTON (AP) - Declining food prices at grocery stores last month helped ease the nation's inflation rate, but consumers still faced sharply rising gasoline and home heating costs, the government report-

sumer prices on the whole rose 0.7 percent in January, after four straight monthly increases of at least 1 percent. January's jump translates into a 9.1 percent annual inflation

ported that in January:

cent, the first monthly drop since early last year. Meats, poultry, fishand eggs together declined 2.4 percent, ending a steady upward trend evident over the previous six

cost consumers 0.9 percent more last

cent, the largest monthly increase since the first quarter of 1980.

vanced 12.4 percent, marking the first time since World War I that inflation topped 10 percent for two full years.

mance provided some relief to Americans, most economists expect prices to accelerate faster in the coming months due to increased pressures on energy and food prices.

INDEED, Murray L. Weidenbaum, chairman of President Reagan's Council of Economic Advisers, said today that January's eased inflation rate, "although welcome, provides little basis for optimism with regard to the underlying rate of inflation."

"A slight decline in food prices was counterbalanced by a sharp rise in energy costs, particularly gasoline," he said, adding in a written state-

"Food is an especially volatile comonent of the price index, and cannot be counted on to offset further likely increases in energy costs, as U.S. oil prices rise to market levels."

With January's reading 11.7 percent above a year ago, the United States is still in a double-digit inflationary environment," Weidenbaum

While most private economists predict this year's increase will about equal last year's 12.4 percent rise, the Reagan administration foresees an

11.1 percent rise for the year.

Even with last month's price slowdown, an average workers's weekly theck decreased 0.1 percent after sting for inflation and deducting for federal taxes and Social Security

where the draw and sewage treatment plant are located.

AFTER LISTENING to an outline of the study, county resident Pat Anderson told the council he was opposed to the firm of Ed Reed conduct-

ing the study.
"I think the council should bring in an outsider first. Maybe they could solve the problems quicker. These people (Reed's hydrology firm) have been handling the problem for a long period of time and they're not solving it. I'm not the only one who has this opinion," he charged.

County residents, he claimed, aren't interested in problems within the city, such as the rising ground water in Wadley-Barron Park. "We're only interested in contamination; we feel a holding pond is leaking very badly," Anderson added.
Ponds, or lagoons, in the county

hold primary treated effluent for 25 days for an oxidation process to occur. Then the water is used for irrigating alfalfa fields.

Anderson also reasoned that rising ground water has nothing to do with water flowing in the draw. "Midland Draw is dry on the north side of Interstate 20," he said.

Lynn Durham Jr., who explained he represented some concerned Midland citizens who preferred to remain

anonymous, asked the council if seepage from the holding ponds was contributing to the rising ground water table.

REED REPLIED that "water can't move uphill. Water from the lagoons (in south Midland County) aren't causing the water table to rise in the

north part of the city."

Listing his clients' concerns, Durham cited "when ground waters are being polluted, health of people are being jeapardized, water table is being adversely affected by drainage ponds...it's a disgraceful example of a waste of a scarce resource. Why not treat the water to be used for agriculture purposes?'

Sloan replied that the primary treated effluent from the sewage treatment plant is being used to irrigate agriculture. "And it's not being dumped deliberately into the draw."

Durham began a counter argument. "Shouldn't you proceed with coming up with a solution? I believe all the facts are in evidence."

"Could you state those facts?" interrupted Mayor G. Thane Akins.
"I don't have them at my finger-

tips," Durham replied.
"I don't either, and that's why
we're having this study. This is a big
project," Akins said of the study. 'The problem is not something we can cure overnight. If we (City Council) could, we'd do it. It's going to take

estimates, and get on the waiting list for the money, he said.

a lot more data, to my understanding. We go with what the professionals tell us to do. There's no solutions that are obvious to us.'

Durham questioned him if the council was "just throwing a study at the problem or are we following through with a solution."

SLOAN INTERJECTED that "whoever you're talking with is misled. We need this study to find out what to do. And if your people would make themselves known and pitch in and help. we would appreciate it more than their standing in the background and criticizing."

Marion Jones, who said he lives near Midland Draw, claimed the draw is being polluted again "and it's raw sewage. Soon we'll have contaminated water."

John Lowe, director of public utilities, admitted one of the ponds overflowed "sometime between 9:30 a.m. Saturday and 9: 30 a.m. Sunday." The only reason he could find, said Lowe, was an excessive amount of weeds that stopped up a siphon. That spill, which involved treated effluent, was reported Monday to the Texas Water Resources representative in Pecos.

Pat Anderson claimed the council had all the facts and didn't need the study. "What more do you want? Ground water will be pure. Water coming out of the reservoir will be total pollution. When I see polluted

water and I see a sewer plant right down from it, I see it as black and white. Ground water would be fresh. It wouldn't stink and it wouldn't have no algae" as does the water in Midland Draw.

The mayor countered that he had seen streams "miles from any sewer plant and it had algae, and algae

ANDERSON TURNED to Councilman Sloan and said nothing was get-ting accomplished on the problem "because you and Charlie (Welch) are haggling all the time.'

Charging that Welch "comes up with trumped up facts," Sloan suggested, amid stares of the other council members, "Maybe Charlie should keep his damned mouth shut. Maybe we should let Charlie solve the problem. We'll be glad to turn it all over to

Akins added that the council 'doesn't intend to sit around and do nothing.'

In answer to charges that Reed's hydrology firm is being paid by the council to come up with reports favorable to the city, Joe Reed said the city's part of his firm's budget is "less than 1 percent of our total year's income.

The Thursday special city-county meeting should determine if the county will pay its share of the study's

Closed-door session held to discuss Monahans Draw

Midland County commissioners conferred with county-retained lawyer Ted Kerr, County Attorney Robert Rendall and Midland city-county chief sanitarian Jewel Smith in a closed-door executive session for about two hours Wednesday afternoon.

Commissioners apparently discussed pending litigation against the city of Odessa in the on-going dispute over use of Monahans Draw and on condemnation proceedings on right-of-way land for the proposed Loop 250 as a northern route connecting Midland to Odessa. Commissioners are considering legal action against Odessa, which

has a Texas Department of Water Resources permit to dump second-ary-treated effluent from its sewage treatment plant into the draw, which winds eastwardly into Midland County and which merges with the controversial Midland Draw in far east Midland County. Apparently, effluent and possiblyground water have caused Mona-

hans Draw to overflow at times and to wash out county roads, flood cotton and ranch land, and allegedly to contaminate water wells along the draw. The contaminants supposedly are sewage effluent and chemicals from the Odessa petro-chemical complexes along the draw. Commissioners, however, did not publicly discuss any action which they might take against the city of Odessa. However, the commissioners

earlier indicated that they might sue Odessa for damages incurred by Midland County and suggested that private citizens might sue for damages to their water or land. Monahans Draw has been deemed a public water ways and a navigable

stream. Odessa legally can dump its cleaned-up effluent into the draw.

strip of land on the south side of Interstate 20 east of FM 1369. T.C. Funerals of slain Atlanta Tubb pointed out there are no water or sewer services there and providing children being monitored phone system and one from Communications Corporation of America

ATLANTA (AP) - Two more black children, boys aged 10 and 14, have been reported missing in Atlanta, police said today. There was no word, however, on whether their cases had been assigned to the task force investigating 18 deaths and two disappear-

Police identified the boys as Dempster D. Williams, 10, of southwest Atlanta, and Termal Heard, 14, of northwest Atlanta, both last seen on Tuesday.

Police sources could not confirm reports that the cases had been assigned to the task force. Meanwhile, authorities investigat-

ing the cases of the murdered or missing children say they have been monitoring the funerals of the victims and the weekly volunteer searches of neighborhoods in hopes of turning up a suspect.

DeKalb County Public Safety Director Dick Hand said Tuesday night that that people attending the funerals and the searches for clues in city neighborhoods have been watched by police because "more than likely the suspect in these cases has been at these locations."

He did not say if the surveillance efforts turned up any leads that might help solve the 18 slayings and two disappearances. In other developments Tuesday:

-An Atlanta City Council committee approved an ordinance banning children 15 and under from selling merchandise on streets, in public areas or at shopping centers. The measure is another effort to keep unattended children off the streets, particularly since a number of the 20 victims were considered budding entrepreneurs.

Forecast fair, warm

Judging from the weather, it's almost garden planting, grass watering, bud-bursting springtime. Only the calendar doesn't agree. The forecast, issued by the National

Weather Service at Midland Regional Airport, is calling for fair skies tonight with warm temperatures continuing. Skies will turn partly cloudy on Thursday. The mercury will drop into the

lower 40s tonight, but is expected to climb into the lower 80s on Thurs-

Winds should blow out of the southwest at 10-15 mph.

No precipitation was recorded during the last 24 hours, leaving the month's total at a trace and the total so far for 1981 at .56.

Tuesday's high temperature was 75, failing to reach the record 84-degree reading for that date set in 1956. This morning's low of 40 was nowhere near as chilly as the 11-degree record for this date set in 1960.

-Public Safety Commissioner Lee Brown announced that 18 arrests have been made under the city's fourmonth-old curfew for children under 15. Brown said arrests have been made only in those cases where no other method could get a child off the

-A 14-year-old black boy missing since last Thursday was found safe in suburban Decatur. Police said Mario Kirk was turned over to juvenile authorities after he was spotted by a police officer.

-The Martin Luther King Jr. Center for Social Change announced plans for a "moratorium on murder" rally and march Sunday to show concern over the cases.

-U.S. Sen. Strom Thurmond, R-S.C., called on the Justice Department to provide direct financial aid to the city for its investigation of the child cases. Thurmond, chairman of the Senate Judiciary Committee, said in a letter to Attorney General William French Smith that the Atlanta case is "a social disaster for all America." Hand and the DeKalb County police

became involved in the child cases earlier this month when the body of 11-year-old Patrick Baltazar was found behind an office complex in the suburban county. Hand said Tuesday he would not

discount the theory that the killer or killers dumped Baltazar's body in his county because of his comments critical of the Atlanta police investigation of the slayings. The comments were published shortly before Baltazar's body was discovered. A Marietta psychologist also lent

support to that theory Tuesday. Dr. Tom Greco, in an interview with the Atlanta Constitution, said the killer or killer apparently is taking more risks now because outfoxing the police and the system "take on sort of a chal-'Publicity sometimes helps feed

the ego of the person or persons involved," he said.

Ted K. Mitchell

BRADY - Services for Ted Kyle Mitchell, 31, of Fort Worth, son of Orville S. Mitchell of Midland, were to be at 2:30 p.m. today in Colonial Funeral Home chapel here with the Rev. Bob Parsons of First United Methodist Church officiating.

Burial was to be in Resthaven Cemetery here.

He died Monday from injuries sustained in a car accident.

Mitchell was born Dec. 9, 1949, in Brady and had lived in the Dallas-Fort Worth area since 1953. He was a graduate of Garland High School and a member of the Methodist Church. He was a carpenter and a member of the Naval Reserve.

Other survivors include his mother and stepfather, a brother and his grandfather.

Eugene Jones

SAN ANGELO - Services for Eugene Jones, 80, of San Angelo, brother of Marjorie Smith of Midland, will be at 10 a.m. Saturday in Wesley United Methodist Church with the Rev. R.W. Johnson, pastor, officiating.

Burial will be in Fairmount Cemetery directed by Starks Funeral

Jones died Tuesday in a San Angelo hospital.

Jones was born Oct. 15, 1900, in Gonzales and had been a resident of San Angelo since 1937. He was married to Arlivia Green in September 1962. He was a member of the Methodist Church and Concho Lodge No. 57, Knights of Pythias.

Other survivors include his wife. two sons, three stepsons, a daughter, four stepdaughters, two brothers, three sisters and three grandchil-

Lorena Helmers

RANKIN - Lorena Helmers, 64, of Rankin died Monday in a Rankin

hospital. Services were to be at 2 p.m. today in the First Baptist Church in Rankin with burial in Rankin Cemetery under the direction of Richard W. Box Funeral Home in McCamey.

Mrs. Helmers was born March 23, 1916, in Dimmitt. She was married to Edwin Helmers Nov. 29, 1939, in Mertzon. She was a member of First Baptist Church of Mertzon. She moved in 1950 from Sherwood to Ran-

Survivors include her husband; four sons, Luke Allen Helmers of Rankin, Perry Dan Helmers of Bar-stow, Calif., J.B. Helmers of Abilene and Harvey Lynn Helmers of San Angelo; a sister, Violet Wilds of Sherwood: four brothers, Lem Cotton of Prescott, Ariz., Si Cotton of Carrizo Springs, Carroll Bullard of Camp Verde, Ariz., and Jack Bullard of Fort Stockton; five grandchildren and four great-grandchildren.

Juanita Barber

ABILENE - Services for Juanita V. Barber, 60, of Clyde and formerly of Midland, were to be at 9:30 a.m. today at the First Baptist Church in Clyde directed by the Elliott-Hamil Funeral Home in Abilene.

Midland services were to be at 4 p.m. today at the Newnie W. Ellis Funeral Home. Burial will be in Resthaven Memorial Park.

Mrs. Barber died in an Abilene hospital Sunday morning.

Pallbearers were to be John D. Wilson, Hollis Glastic, Bob Sebree, James Bailey, W.T. Cowan, Hoyt Burris, Bill Measures and George

Honorary pallbearers were to be Pat Frantz and Carl Frantz.

Memorials should be made to the Tape Ministry at First Baptist Church of Clyde.

Harriet Chappell

Services for Harriett Chappell, 85, of 1221 E. Parker St., will be at 3 p.m. Thursday at the Lighthouse Church of God in Christ with the Rev. Curtis Byrd of San Antonio officiating.

Another service will be at 3 p.m. Friday at Church of God in Christ in Breckenridge. Burial will be in a Breckenridge cemetery.

Mrs. Chappell died Sunday at her

Mrs. Chappell was born Jan. 26 1896, in Bellville. She moved to Midland in 1964. She was a member and a missionary of the Lighthouse Church, of God in Christ.

Survivors include two brothers, Johnnie McCree of Mdland and Chester McCree of Fort Worth.

Pallbearers will be Robert Byrd. Charles Byrd, Earnest Byrd and Floyd Clemons, Jack Jackson and Tommy Johnson.

H.O. Allen

Services for H.O. Allen, 82, 1306 N. A St., were to be at 11 a.m. today in Newnie W. Ellis Funeral Home chapel with Paul Walker, a Church of Christ minister from Odessa, officiat-

Burial was to be in Resthaven Memorial Park. He died Saturday.

Pallbearers were to be P.W. Russell, Jack Russell, Art Oestman, Mearl Van Stavern, Tim Chase and Herb Bloomer.

Honorary pallbearers were to be Harold Taylor, Alfred Baze, Richard Baze, Willis Baze, Tommy Lewis and A.B. Taylor.

'Chip' Williams

H.R. "Chip" Williams, 26, of 2001 W. New Jersey Ave., died Sunday morning from injuries suffered in an acci-

Services will be Wednesday at 3 p.m. in the First Apostolic Church with Lowell Cessna officiating. Burial will be in Fairview Cemetery directed by Newnie W. Ellis Funeral Home.

Pallbearers were to be Max Cessna. Tim Grimes, Tommy Lancaster and Roger Baker, all of Midland, and John Harvey Jr. and Greg Harvey, both of Andrews.

Clarence Cardwell

TROY, Ala. - Clarence E. Cardwell, 94, of Troy, Ala., father of Clarence E. Cardwell Jr. of Midland, died Sunday in a Troy hospital after a lengthy illness.

Services were to be at 11 a.m. today in the McGee-Dillard Funeral Home chapel in Troy with burial in Union

Hill Methodist Cemetery.
Other survivors include four daughter, six grandchildren and two greatgrandchildren.

Frank Goode

Services for Frank Goode, 72, of 501 S. Weatherford St., were to be at 2 p.m. today in the Newnie W. Ellis Funeral Home chapel. Burial was to be at Resthaven Memorial Park.

Goode died early this morning at his home after an illness of several

Pallbearers were to be Lee Thomas, Lee Bethel, Milton Kidwell, Doyle Thomas, Rip Kirdwell and C.E.

Mary Cutbirth

Services for Mary Virginia Cut-birth, 84, of Midland will be at 1 p.m. Wednesday in the Newnie W. Ellis Funeral Home chapel. Burial will be at Resthaven Memorial Park with the Rev. Curtis Hollis, pastor of Temple Baptist Church, officiating. She died Monday night in an Odessa

New committee to discuss options for Midland library

Midland lawyer John Hyde has been appointed by Midland County Judge Bill Ahders to head up a "blueribbon" ad hoc committee to advise the Midland County Commissioners' Court on what to do about expanding or building a new county-supported library and means to build a new courthouse annex.

Each of the four commissioners appointed two members to the committee, which will hold its first meeting at 7 p.m. Tuesday in The First National Room of The First National Bank of Midland.

For several years, the commissioners apparently have been in an apparent quandry on how to provide more space for the more than 150,000volume downtown Midland County Public Library.

Similarly, the commissioners have been indecisive on what to do about providing more room for county functions. Both the five-story — jail included — courthouse and the twostory Courthouse Annex a block north of the courthouse are full; officials are cramped for space, and the Midland County Tax Appraisal District is looking for a permanent home - to be provided by the county - for its proposed 25-member appraisal staff.

Virgil Jones Jr., the city of Midland's tax assessor-collector, has been named the district's chief appraiser at \$40,000-a-year salary. Members of the Commissioners'

Court's blue-ribbon committee are: -Chairman: John Hyde, lawyer Appointed by County Judge Bill Ahders.

-Precinct 1 members: Tom Reynolds, landman-investor; and Gregory Wright, insurance representative and son of Commissioner Durward Wright. Appointed by Wright.

-Precinct 2 members: Reagan Legg, lawyer and a Midland College trustee, and Roy Graham, Greenwood farmer-cotton producer. Appointed by Commissioner Charlie

-Precinct 3 members: Clark Moreland, rancher and former county commissioner; and Fred Nelms, who serves on several committees in the community and who is in the construction business.

-Precinct 4 members: Charles Priddy, developer, and Bill Heck, a geologist and a former county com-

The commissioners have considered building a new annex on or about Baird Street and between Illinois and Texas avenues and two blocks east of the courthouse. Commissioners have considered selling the present annex building at 218 W. Illinois Ave., which the county purchased from Superior Oil Co. in 1964 for \$125,000. Commissioners reportedly are expecting at least \$1 million in cash or a trade-off with a building contractor. The proposed annex would house district and county tax functions, in addition to functions already being carried out in the old annex.

And commissioners reportedly are considering constructing a new downtown library. The present library, built in the mid-1950s, is at 301 W. Missouri Ave.

El Salvador and Vietnam have similarities

WASHINGTON (AP) — By early Vietnam War standards, the Reagan administration's use of American military advisers in El Salvador is minuscule and appears an unlikely forerunner of wider U.S involve-

There are nonetheless some striking similarities to the dispatching of a small number of American military specialists to help stave off guerrillas seeking to overthrow the existing re-

cer's approach.

gravated robbery.

attorney

student Karen Rickey.

bond and is expected to

face a grand jury some-

time this week.

"We have no intention of that kind of involvement," President Reagan said Tuesday when asked if there were parallels with Vietnam.

The words had a familiar sound. In May 1962, Robert McNamara, defense secretary in the Johnson administration, said in Saigon: "There is no plan for introducing American combat forces in South Vietnam."

Earlier that year, asked about reports that U.S. military advisers were returning fire with Viet Cong troops,

McNamara replied:

"I think our mission in Vietnam is very clear. We are there at the request of the South Vietnamese government to provide training.... There has been some sporadic fire aimed at United States personnel, and in some minor instances they've had to return

Initially, there were fewer than 1,-000 U.S. troops in Vietnam as advisers during the late 1950s and early 1960s. The number later grew to nearly 500,-

000, most in direct combat with North Vietnamese and Viet Cong forces.

Pentagon officials, who asked not to be identified, said Tuesday 19 Army specialists have been in El Salvador for weeks, helping the country's weakly organized and poorly trained 16,000-man Army.

Most are training pilots of six U.S. helicopters supplied to the El Salvador government. Some also are helping plan military operations.

Pope John Paul II is reflected in a shimmering pool today as he prays before the A-bomb cenotaph at Hiroshima, Japan. (AP

Call for disarmament delivered at Hiroshima

By SAMUEL KOO

Associated Press Writer NAGASAKI, Japan (AP) - Pope John Paul II today visited the Japanese cities where the first atomic bombs snuffed out 270,000 lives 35 years ago and called on government leaders everywhere to join him in working untiringly for disarmament and the banishing of all nuclear weap-

"War is the work of man," the 60-year-old pontiff told 12,000 people standing in the snow at Hiroshima's Peace Memorial Park: "War is destruction of human life. War is

"I appeal to the whole world on behalf of life, on behalf of hamanity, on behalf of the future. He appealed to chiefs of state and

government leaders to take "a solemn decision, now, that war will means of resolving differences."

"Let us promise our fellow human beings that we will work untiringly for disarmament and the banishing of all nuclear weapons," he said. "In the face of the manmade calamity that every war is, one must affirm and reaffirm, again and again, that the waging of war is not inevitable or unchangeable."

Vatican sources said the pope considered it the most important speech of his 12-day visit to the Far East.

John Paul spoke from a podium beside the simple stone structure built around the perpetual flame that honors the victims of the first U.S. atomic attack that on Aug. 6, 1945,

hurled the world into the nuclear

Underscoring his desire to be heard throughout the world, the pontiff spoke in nine languages, reading sections in English, Russian, French, Chinese, German, Spanish, Portuguese, Japanese and his native Polish. Chinese was added at the last

While the pope was speaking an American tourist, Tim Blake of Los Angeles, began shouting "Remember Pearl Harbor" from the edge of the crowd.

Blake, a 46-year-old insurance executive, said later that his father was killed in the Japanese attack on Hawaii that brought the United States into World War II.

"I support the pope," said Blake. "I want peace. But I thought I should give this thing a bit of historical per-

The pope and those in the front of the audience could not hear the

Hundreds of other Americans, most of them from the U.S. Marines' nearby Iwakuni base, also were in the

John Paul laid a wreath on the memorial and toured the Peace Memorial Museum in the park, which displays pictures of bomb victims, radiation victims and the destruction caused by bomb.

The museum director, Akihiro Takahashi, told the pope of his own experiences as a 14-year-old bomb victim and showed him his hands covered with radiation scars.

## lidden Christians' still in hiding

By TERRY A. ANDERSON Associated Press Writer

NAGASAKI, Japan (AP) - Pope John Paul II is being greeted by descendants of Japanese who kept the Roman Catholic religion alive and unchanged during 250 years of persecution. But thousands of others known as "hidden Christians" are ignoring the pontiff's visit.

Their religion became so distorted during the centuries they worshiped in secret that the Vatican does not recognize them as Catholics. They refuse to change so they can return to the Roman faith.

There are 7,000 to 9,000 known hidden Christians in and around this city Jesuit missionaries founded in southern Japan. Others estimated to number between several hundred and several thousand refuse to identify themselves.

"They have changed until they have completely another religion," said the Rev. Diego Yuuki, who runs the Museum of the 26 Martyrs in Nagasaki and has studied the hidden Christians for 20 years.

'Some things from Buddhism and Shintoism have crept in, like ancestor worship. Some places don't even practice baptism any more. It's polytheism." Yuuki said all the known hidden Christians were invited to meet the pope during his visit to Nagasaki tonight and Thursday, but only a few hundred accepted.

"The rest say they are not interested," he reported. "They say, 'We are the real Christians.' They want nothing to do with the pope."

St. Francis Xavier and a party of Jesuit missionaries brought Christianity to Japan in 1549, landing on the island of Ikitsuki, near Nagasaki. It is now populated by "hidden" Christians who have revealed themselves but remain apart from the Catholic Church.

The Jesuits converted 300,000 to 600,000 Japanese to Catholicism before the Tokugawa Shogunate closed the country to the outside world in the 1620s and banned Christianity. Thousands were killed, including 26 who were martyred on a hill near Nagasaki.

For the next 250 years, Christians worshiped in secret while publicly attending Buddhist temples. Rewards were offered for the names of secret Christians. Each year families in the Nagasaki area were called before their local feudal lords, made to declare they were not Christians and required to stamp on crosses and medals of saints.

In 1856, the government was forced to reopen the country to the West. Christian missionaries, again most of them Jesuits, were allowed to return. But only to administer to resident foreigners.

In 1865, while a Jesuit priest was praying in a newly rebuilt church in Nagasaki, a few Japanese

timidly entered. The Rev. Jose Vara of the staff of the martyrs' museum tells what happened:

They asked him, 'What is that image?' He told them it was a statue of Our Lady. They said, 'Where is your family?' He said he was unmarried. They asked, 'Do you obey the pope?' He said yes. Then they said they were Christians.

Those were the only criteria they knew. They had seen a few Protestant missionaries but knew they weren't Catholics so they stayed hidden."

Some 20,000 Christians emerged from hiding in the next few years. But the Meiji emperor was no more sympathetic than the shoguns had been. Thousands

were jailed. Many died. Thousands were moved from Nagasaki to rural internment camps. It wasn't until European governments threatened not to recognize Japan's embassies that the emperor relented.

"Many still refused to come out," Yuuki said.
"They still feared new persecutions. I don't know how many are still hiding, though I know of two or three villages. Maybe several hundred people."

Of the thousands who revealed themselves in the 1860s, few rejoined the Catholic Church. "We've had no success with conversions," said

Yuuki. "It's the same as converting a Buddhist. The religions are completely different.

## Parishioners feel 'sold out'

HAMTRAMCK, Mich. (AP) — Parishioners who read in a weekly bulletin that church leaders had agreed to sell their 61-year-old Catholic church so it can be replaced with a parking lot say they feel they've been sold out.

Immaculate Conception Church in Hamtramck is one of several hundred buildings, including at least two Catholic churches, that face the wrecking ball as Detroit and Hamtramck acquire property for a new Cadillac assembly plant planned by General Motors

Corp.
"They're traitors," parishioner Ann Locklear said of Cardinal John Dearden and other Archdiocese of Detroit officials who agreed to the sale.

They've sold us out to the city and General Motors for 30 pieces of silver."

A weekly church bulletin said Sunday that Dearden signed an agreement with Detroit on Feb. 16 for the sale of Immaculate Conception and the second church, St. John the Evangelist.

"It makes me sick," said one unidentified church member. "I've been a member here for 55 years and now they tell me to get...out. We bent our backs to pay for this beautiful church. And now what do we have - nothing."

## **Storage Stalls**

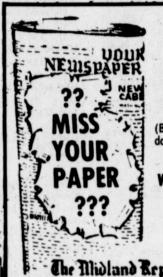

**ABC Mini Warehouse** 3107 W. Industrial All stalls 20' deep Any width starting with 10' Fence enclosure

682-9763

Rev. Patrick Halfpenny, archdiocese director of communications, would not disclose sale prices. But the Detroit Legal News reported that \$1.3 million would be paid for Immaculate Conception and \$120,-000 for St. John.

Halfpenny said Dearden, spiritual leader of 1.2 million Roman Catholics in southeastern Michigan, would have no comment.

"It was a very complicated situation," Halfpenny said Tuesday. "What is the side of justice: To preserve a historic structure or to recognize that the project (the GM plant) represents jobs for several hundred people? Unemployment is a significant problem in this community. I can tell you that the cardinal met with the pastors of the churches involved. It wasn't an easy decision."

## Your horoscope

By JEANE DIXON

Wednesday, Feb 25, 1961

YOUR BIRTHDAY TODAY: Jim Backus—
the voice of "Mr. Hagoo"— was born on this
day, as was the great Enrico Caruso. Partnerships of all types achieve special successes in the
year ahead. Friendships grow stronger and
romance becomes much more meaningful. Expect employment conditions to lead you in some
exciting new directions! At first you want to
resist a major change, but you gradually come to
recognize the wisdom and necessity of this move.
The outlook for business is excellent. Do what
you can to bring your leadership qualities to the
attention of higher-ups. There is always room at
the top for someone with your ability.

ARIES (March 21-April 19): Your relations with your co-workers show dramatic improve-ment. Much can be accomplished by teamwork. If packing for a trip, check hotel rates in ad-vance. High costs could cause a change in plan.

TAURUS (April 20-May 20): You and your loved ones reach a better understanding on certain fundamental issues. Be as honest as possible about your expectations. Make a list before going shopping. Romance is in the air.

GEMINI (May 21-June 20): Others may do things that you do not understand today. Confusion could slow down business progress. Stand back and try to see the whole picture. Certain couples need to review their budgets.

CANCER (June 21-July 22): Do not allow others to run your life for you. Devote more time to planning for the future. Financial problems ease. Refuse to be rushed into making a snap

LEO (July 23-Aug. 22): To avoid embarrass-ment, doublecheck your facts before making sweeping statements. Older person needs your love. Give it freely. Children may feel they have

been ignored. Encourage greater harmony within the family circle.

VIRGO (Aug. 23-Sept. 22): Be more patient than usual with mate or partner's whims. Take the lead in making long-range plans. Singles are in for an exciting evening. Discretion is absolutely essential now.

LIBRA (Sept. 23-Oct. 22): Stay away from peo-ple who have superficial values. Hard work will pay off in gratifying ways. You may be asked to act as a go-between. To do so could cause you some heartache.

SCORPIO (Oct. 23-Nov. 21): Give yourself the time and room you need to launch a new project. Take the initiative, if you must, to clear the air with loved one. Greater honesty will result in greater happiness.

SAGITTARIUS (Nov. 22-Dec. 21): Call on your reserves of patience, tact when handling ticklish problems. Creative thinking can help boost profits. Domestic activities enjoy favorable influences. New decorating idea has a certain amount of merit.

CAPRICORN (Dec. 22-Jan. 19): Stranger will bring you some interesting news about a mutual friend. You gain the attention of individuals who are influential in a special social circle. Be or your best behavior.

AQUARIUS (Jan. 20-Feb. 18): Invitation to join an important civic or community group will be a big ego booster. Push ahead with vigor now and you can put some long-range plans into action. Mate offers valuable assistance.

PISCES (Feb. 19-March 20): Events connected with career or business will help you defeat the competition. Do what you can to firm up important agreements and alliances. Maintain a good balance between work and play.

SOUTH

4 AKQ1098

O QJ3

♦KJ4 The bidding:

South West North East 2 Pass Pass Pass 4 + Pass Pass Pass

Opening lead: King of ♡. Which came first, the chicken or the egg? There is no real answer to that question, but there is a logical

reason for deciding which suit to tackle first on this West's overcall relieved North of the responsibility of responding to his partner's opening bid. But when South jumped at his next turn, North felt that his ace, queen

and trump honor, even though it was a singleton, merited a raise to game. West attacked with the king of hearts, followed by the queen. Declarer ruffed and drew trumps in four rounds, discarding two hearts and a club from dummy. He could see six tricks in trumps and four in diamonds

looked no further. East captured the queen of diamonds with the king and returned a heart. Declarer ruffed, took his three diamond tricks and then tried to set up a club trick. West won

if the finesse succeeded. He

the ace and took the last trick with a high heart. Down

Declarer was in too much of a hurry to go after the diamonds. Since there was a danger that the defenders could cash heart tricks once declarer's trumps were exhausted, South's efforts should have been directed toward keeping West off lead.

West had to have either the king of diamonds or ace of clubs, or both, for his overcall. Since the king of diamonds could never be an entry, declarer should go after clubs first to eliminate the dangerous entry. After drawing trumps

declarer should lead the king of clubs. West wins and returns a heart, forcing declarer's last trump. Now South can take the diamond finesse without worrying whether it wins or loses. If West has the king, the finesse will succeed and declarer will make the rest of the tricks. If East has the king, the finesse will lose but it does declarer no harm-East can have no more hearts, so he must return either a diamond or a club, and declarer controls both of

those suits.

Ike Lovelady, Inc., of Midland will drill two 7,500-foot wildcats in Sutton County, and Regal Develop-ment, Inc., of Eldorado spotted a 3,500-foot wildcat in the same county.

Lovelady No. 3 West will be drilled 20 miles southeast of Sonora in the Interstate (Cnyon and Hargey gas) area.

The site is one location south of a dual Ellenburger discovery and Canyon producer in the field and 2,820 feet from the most northerly north line and 1,902 feet from the west line of section 5, block V26, E. B. Titus survey.

Ground elevation is 2,232 feet.

Lovelady No. 4 West will be drilled to 7,500 feet one location southeast of the dual Ellenburger and Canyon well and 1,385 feet from the most northerly north line and 3,502 feet from the west line of section 5, block, V26, E. B. Titus survey.

Regal Development No. 1 Curt Schweining is to be drilled as a 3,500-foot wildcat in Sutton County, 25 miles east of Sonora.

Drillsite is 660 feet from south and 1,901.5 feet from west lines of section 54, block A, GWT&P survey,

It is 1% miles southwest of the lone well in the Schweining Ranch (upper Strawn gas) field.

Lenoir M. Josey, Inc., of Houston announced loca-tion for a 3,900-foot wildcat six miles northeast of Eden in Concho County. The prospector is No. 1 Stansberry, 1,157 feet from

south and 968 feet from west lines of P. McGregor survey No. 104, abstract 1104. It is four miles south of the Janor (Caddo gas) field and 7/8 mile northeast of a 3,204-foot dry hole.

TOM GREEN EXPLORER

American Trading & Production Co. of Midland No. 1 Runion Rust is to be dug as a 7,000-foot wildcat in Tom Green County, 10 miles north of San Angelo.

The location is 9,400 feet from south and 1,700 feet from west lines of San Saba County School Land

survey No. 965. Ground elevation is 2,003 feet. The drillsite is 21/4 miles southeast of a 6,412-foot failure and four miles south of the depleted Red Creek (Caddo oil) pool.

S. K. Barry of San Antonio will drill No. 1 McCord 'B" as a 5,200-foot wildcat in Runnels County, eight miles north of Talpa.

Location is 660 feet from south and west lines of B. F. Adams survey No. 321. Ground elevation is 1,974

ANDREWS DRILLSITES

Jack Huff No. 3 Arco-Universty is to be drilled as an east offset to one of the seven wells in the Block 11 (Fusselman) field of Andrews County, 16 miles southwest of Andrews.

The site is 660 feet from south and 1,980 feet from east lines of section 11, block 11, University Lands

Hole is contracged to 8,500 feet.

William N. Beach of Midland staed No. 1-16 University as a 3/4-mile southeast stepout to Queen oil production in the McFarland, East (Queen and 4,700 oil) field of Andrews County, 131/2 miles northeast of

The location is 660 feet from north and 1,980 feet from west lines of section 16, block 5, University Lands survey.

Contract depth is 4,900 feet.

who had been overcharged.

to the government.

get what's left of the money returned

Bloom told the subcommittee the

action was not "casual philanthro-

py," but an equitable and efficient

way of returning the money to people

"I certainly was not trying to be a Robin Hood," Bloom said. "They

(low-income heating oil customers)

are simply a part of the heating oil

In his testimony Monday before the

House Government Operations sub-

committee on environment, energy

and natural resources, Bloom said he

was more concerned about the Rea-

gan administration's effort to trim

the budget of his former office from

Bloom said the budget cut would

end any effort to recover some \$7.5

billion in alleged oil company over-

charges through legal actions still

Bloom said oil companies, con-

cerned that they might be hit by

enormous court judgments against

them, have been eager to reach out-

of-court settlements. The oil compan-

ies have been willing to pay 60 cents

ington that department officials had

not received a copy of the ruling and

would have no comment until they

The act mandates that the PSC

require utilities to conduct surveys of

energy-savings measures, Johnson said. He said the required surveys

duplicate samplings by the PSC and

The Energy Department gave the Mississippi PSC a \$91,000 grant this

year for research work required by

the act. That is being performed by a

Two of the areas covered by the

required sampling are a housing in-

sulation survey and a survey on

whether customers would be recep-

tive to variations in the cost of power depending on the time of day.

"The electric company already

does the insulation surveys for noth-

ing," Johnson said. He said the uti-

lites are forced by the act to conduct

additional surveys which cost about \$90 dollars each of which they can

Judge strikes down law

drilled 5/8 mile southeast of Cherry Canyon oil production and the same distance northwest of Delaware oil production in the Scott multipay field of Ward County, 4.4 miles southeast of Barstow.

Scheduled to 6,500 feet, the location is 660 feet from northwest and 330 feet from northeast lines of section 32, block 3, H&TC survey.

TOM GREEN RE-ENTRY

Hanson Corp. of Midland will re-enter and clean out to 4,700 feet, the old total depth, the former H. B. Poff of Fort Wortyh No. 1 Mrs. Elenaor Halfmann, wildcat dry hole in Tom Green County, 41/2 miles

It will be operated by Hanson as No. 2 Halfmann. Abandoned in July 1954, it is 1,980 feet from south and west lines of section 153, block 11, SPRR sur-

on the dollar or more to have com-

plaints against them dropped, saving

both the oil companies and the gov-

ernment the cost of years of court

But the pressure to reach such a

settlement disappears if the oil com-

panies can assume that budget-cut-

ting will wipe out the government

office responsible for prosecuting the

companies - unnamed by Bloom, but

described as "among the largest" -

already have reneged on "hand-

shake" settlements that would have

forced them to pay millions of dollars

to customers they have overcharged

During the three years Bloom

served as special counsel, he reached

settlements with oil companies that

He left office with the Carter ad-

ministration, leaving behind pending

cases totalling \$7.5 billion in alleged

overcharges by Exxon, Gulf, Arco,

Shell, Mobil, Texaco, Conoco and

Not all that would be recovered in

out-of-court setflements, Bloom said.

But he estimated the cases would

yield at least \$2 billion for over-

charged consumers if they were pur-

sued by the Reagan administration.

"It could be substantially higher,"
Bloom said. "But I would be very
surprised if it were not at least that

Bloom said it would be virtually

impossible for either the Justice De-

partment or private lawyers to pur-

sue the cases if the Office of the

Rep. Toby Moffett, D-Conn., the subcommittee's chairman, said En-

ergy Secretary James Edwards

would be invited to appear before the subcommittee to testify on the budget

## Dorchester schedules deep wildcat in Midland County

Dorchester Exploration, Inc., operating from Midland, announced location for an 11,750-foot wildcat 13 miles southeast of Midland in Midland County.

The prospector is No. 1-22 Bradford. 990 feet from north and west lines of section 22, block 38, T-3-S, T&P survey and 11/2 miles south of the nine-well Bradford Ranch (Atoka) field which produces at 11,211 feet.

PECOS EXPLORER George H. Mitchell of Kermit No. 7 Sidlo is to be drilled as a 6,100-foot

> **ENERGY** OIL & GAS

wildcat in Pecos County and as a project in the Dameron (San Andres) field.

Location is 3,308 feet from the most southerly north line and 467 feet from the most westerly west line of section 18, block 3, H&TC survey and one mile north of Imperial.

It is one location southeast of the dual Glorieta gas and San Andres oil discovery in the Dameron field.

PECOS RE-ENTRY

PDC Gas Co. of Midland will reenter for tests as a wildcat the former Hillin Production Co. No. 1 Bowman-State, depleted Permian oil discovery two miles south of Imperial in Pecos County. Hole will be drilled out to 2,340

feet.

The hole originally was drilled to 2,336 feet by Bruce Grammer and others. It was taken over by Hillin and completed in 1970 through perforations from 2,303 to 2,315 feet.

Location is 100 feet from southeast and 467 feet from southwest lines of section 8, block 3, H&TC survey.

STERLING WILDCAT The Desana Corp. of Midland will

dig No. 1 Leslie as a 9,000-foot Fusselman oil wildcat in Sterling County, 91/2 miles northwest of Sterling City.

The project, 11/2 miles northeast of Cisco gas production in the Credo, East multipay field, is to be dug 1,980 feet from south and west lines of section 128, block 2, H&TC survey.

ANDREWS PROJECT

Eastland oil Co. of Midlnd will reenter the depleted discovery well of the Three Bar (San Andres oil) pool of Andrews County and attempt to recomplete it to reopen the field.

Rhe project, No. 1 Pan American-

University, is 20 miles southwest of Andrews and 2,210 feet from south Andrews and 2,210 feet from south and east lines of section 5, block 11, DRILLING REPORT University Lands survey.

The discovery originally was completed in August 1960 through perforations from 4,384 to 4,414 feet. It became depleted in 1961.

The new tests will be made at drilled out depth of 4,420 feet.

TOM GREEN TESTER E. L. Smith III of Dallas announced

location for a 5,300-foot wildcat in Tom Green County, 12 miles east of Christoval. It is No. 1 Grace Herring, 1,796 feet

from south and 467 feet from west lines of section 13, block A, AB&M survey and 1,000 feet south of Harkey 4600-foot production in the Madora, East field.

SCHLEICHER AREA

E. L. Smith III of Dallas also will drill No. 1 Grace O'Harrow as a 5,700foot wildcat in Schleicher County, 13 miles northeast of Eldorado.

The drillsite is 1,980 feet from south and 1,320 feet from east lines of section 56, block I, GH&SA survey and 11/4 miles south of the O'Harrow (Canyon oil) pool.

Fortune Production Co. of San Angelo has taken over operations at the former Transcontinental Oil Corp. No. 1-16 University, a Schleicher County project one location southeast of the University 54 (Canyon gas) field, 19 miles northwest of Eldora-The new opertor will test the project

as an 8,300-foot wildcat. Location is 790 feet from north and

662 feet from east lines of section 16. block 54, University Lands survey. Ground elevation is 1,547 feet.

FISHER EXPLORERS Fairchild Petroleum Corp. of Mid-

land No. 1 Charles T. Harvey is to be drilled as a 4,050-foot wildcat six miles northeast of Sweetwater in Fisher County. The prospector was staked 990 feet

from north and 660 feet from east lines of sction 17, block 21, T&P sur-

It is 1% miles east of depleted pro-

duction in the Sweetwater (Canyon)

Fairchild Petroleum also will reentr and cleanout to 4,100 feet in a 5,370-foot wildcat failure eight miles north of Sweetwater in Fisher Coun-

The project, the former British American Oil Corp. No. 1 Merchant, will be operated by Fairchild as No. 1 Merchant.

It is 660 feet from south and east lines of section 6, block 21, T&P survey. Th hole was abandoned in September 1957.

CROCKETT WILDCATS

Delta Drilling Co. of Midland announced locations for seven wildcats

in Crockett County.
No. 2 Bean "C" will be drilled to 10,000 feet in an attempt to reopen lower Canyon gas production in the Ozona, Southwest field, 15 miles southwest of Ozona.

Location is 660 feet from north and west lines of section 22, block M, GC&SF survey. Ground elevation is 2,494 feet.

Delta Drilling No. 4-26 Vada Bean is a 7,200-foot project two miles northeast of the Ozona, Southwest (Strawn) field and 13 miles southwest Location is 1,320 feet from south

GC&SF survey. Ground elevation is 2,504 feet. The operator spotted No. 3-26 Vada Vean, also scheduled to 7,200 feet, 1%

miles southeast of Strawn production

and east lines of section 26, block M,

in the Ozona, Southwest field 13 miles southwest of Ozona. The site is 1,520 feet from south and

1,310 feet from west lines of section 26, block M, GC&SF survey.

Delta Drilling No. 2 Henderson "A" will be drilled as a 7,400-foot wildcat 1% miles southeast of the Ozona, Southwest (Strawn) field, 16 miles

southwest of Ozona. Location is 1,495 feet from north and 1,285 feet from east lines of section 20, block M, GC&SF survey. Ground elevation is 2,460 feet.

The operator's No. 2 Bean "B" is to be drilled as a 7,200-foot wildcat 12 miles southwest of Ozona and 2½ miles southeast of the Ozona, Southwest (Strawn) field.

Location is 1,322 feet from north and 1,571 feet from east lines of section 33, block M, GC&SF survey. Ground elevation is 2,312 feet.

Delta Drilling spotted No. 2-26 Roy Henderson as a 7,200-foot wildcat 300 feet northwest of a 7,135-foot dry hole and 11 miles southwest of Ozona. The drillsite is 1,320 feet from north

and west lines of section 26, block ST, HE&WT survey. Ground elevation is 2,511 feet.

Delta Drilling staked No. 2 -94 Friend as a 7,200-foot wildcat 1/2 mile northeast of 8,340-foot Ellenburger production in the Ozona, East field, 1½ miles east of Ozona.

Drillsite is 1,053 feet from south and 1,412 feet from east lines of section 94, block GH, GC&SF survey. Ground elevation is 2,432 feet.

## Lease deal announced in Brewster belt region

HOUSTON - Gerald F. Rome, vice president in charge of the Producing Department - West for Texas U.S.A., recently announced that Texaco has acquired approximately 180,000 acres of leases on the Ouachita-Marathon thurst belt in Brewster Countu.

The thrust belt is a geological formation extending from Oklahoma through central texas into Brewster Count just north of Big Bend National park which borders on Mexico.

The recently opened three-well McKay Creek (Caballos oil) field in Terrell County, part of which adjoins Brewster County to the east, indicates that oil and gas are associated with this thrust belt.

. Texaco will participate in three wildcat wells to be drilled in this prespective area later this year. Texaco also has lease interests in

approximately 270,000 acres in the West Texas overthrust are, which is a continuation of the overthrust byelt extending from Canada through the Wester U.S. and into Mexico. Significat oil and gas discoveries

have been made on large structures similarly associated with thrust faulting in the western overthrust belt in Wyoming and Utah.

Texaco curretnly is drilling its first wildcat well in the West Texas overthrust in Hudspeth County and plans two additional wildcats later this year.

BORDEN COUNTY
Robert Landreth No. 1 Daugherty;

## Stock market gains

NEW YORK (AP) - The stock market recorded its second straight gain Tuesday, apparently drawing some further support from declining interest rates.

But some individual issues came under selling pressure as a result of earnings disappointments. The Dow Jones average of

30 industrials, up 9.14 on Monday, added another .87 to 946.10. The daily tally on the New York Stock Exchange showed about three gainers

for every two stocks that lost ground. The biggest loser in the session was Jim Walter Corp. off 5% at 26 as of the 4 p.m. close in New York.

The company, a diversi-fied housing, building materials and mining concern based in Tampa, Fla., said it expected to show a small

loss for the quarter ended Feb. 28. The news surprised analysts following the company, who generally had been projecting only a moderate earnings decline for the quarter. The Value Line Investment Survey, for example, had estimated earnings of 70 cents a share, against \$1 in the comparable quarter

a year ago. On the plus side, GK Technologies climbed 4% to 48%. The company's directors approved a \$50-a-share take-over bid by Penn Central

Oil issues, which have fared poorly in the early weeks of 1981 after a runaway rise last year, continued to slump in Tuesday's trading. Standard Oil of California was down 2¼ at 87%; Conoco lost 1% to 56%; Mobil 1¼ to 68¼, and Getty Oil 2¾

One exception to the downtrend was Superior Oil, up

Ralston Purina topped the active list, off 1/2 at 10%. Blocks of 650,000 and 350,000 shares traded at 10%.

Big Board volume stepped up a bit to 43.96 million shares from 39.59 million Monday.

The NYSE's composite index edged up .07 to 72.91. Standard & Poor's index of 400 industrials slipped .01 to 144.60, but S&P's 500-stock compositelindex moved up .04 to 127.39.

At the American Stock Exchange, the market value index rose 1.26 to 333.25. The NAS-DAQ composite index for the mver-thecounter market closed at 193.94, up .88.

## Housing market funnel plugged like an old sink

By JOHN CUNNIFF **AP Business Analyst** 

NEW YORK (AP) — If Americans can't put a roof over their heads there may be little point in devising grand plans for improving productivity, reducing inflation or otherwise seeking to tame the savage

But there are problems in roofing America. It takes lots of money to build and buy houses, and the so-called thrift industry pipeline that funneled money to the housing market is plugged up like an

The reason is inflation and high interest rates, and it works like this:

-With the cost of living outpacing wage increases, many people are unable to save as much as they once

—What money they do save often goes to large commercial banks that can offer high-interest certificates rather than small, local savings institutions, such as savings and loan associations or mutual

-Commercial banks aren't as dedicated to making mortgages as are thrift institutions. Seeking a greater return for their dollar, they invest in more profitable and less regulated ventures than hous-

Thrift institutions have been sinking deep into the hole, one reason being that they hold on their books old home mortgage loans on which they collect only 7 percent or even less. They lose money on

—Traditional home mortgage lenders are resolved not to be caught in such a bind again. They are wary of granting long-term fixed-term mortgages. Instead, they want flexibility, which generally means they seek to give mortgages whose terms vary with

changing conditions. -Such mortgages now exist, but after 50 years of expecting and getting the traditional mortgage, some young homebuyers are reluctant to test the new mortgages. Some critics say they are wise to

-The argument of the critics is that flexibile rates mean either of two things: that the monthly payments might rise beyond the earning power of the homeowner; that, as an alternative, the homebuyer would need more years than he or she has remaining to retire the mortgage.

—The critics of the critics concede the new mort-

gages aren't as desirable as the old ones. But, they argue, we must be realistic. If you want a house, this

is the only way you or your family will get it.

There are other elements also. The typical singlefamily house now requires as much down as the median-income family earns before taxes in an entire year. That's hard to come up with when inflation exceeds wage increases, when taxes are rising, and when saved money erodes in value.

Moreover, housing really doesn't have top priority, as you might think it would. No matter that some 40 million people will reach age 30, or homebuying age, in this decade. The goal of those who would rebuild America is to channel funds into manufacturing

plant and equipment, and in that way reduce inflation by lowering the cost of making goods.

Somehow, though, it would seem the housing situation has to be worked out before that can happen. The situation isn't being ignored, as the many innovations in housing design and financing attest. tions in housing design and financing attest.

But progress comes slowly on all fronts; In slowing ices and bringing down interest rates, in rebuilding savings accounts, in obtaining regulatory approval for new-style mortgages, and in gaining acceptance for them.

It takes time, but time is relentless. All those babies born in the boom of the late 1950s and early 1960s, and who are relied upon to get the economy moving, are getting older by the second. They want

## IRS, Michigan gearing up to put halt to tax rebels

FLINT, Mich. (AP) — A scheme by about 3,500 auto workers to cut the amount of taxes withheld from their paychecks could result in more being taken out, tax authorities say.

And officials of the Internal Revenue Service, who call the tax revolt one of the nation's largest, warn that participants could face criminal prosecution or civil penalties if they persist in such dodges as claiming up to 99 dependents. The auto workers apparently believe that if they

claim enough deductions for dependents, no taxes will be withheld and they won't owe the government anything, authorities say.

But the state has joined the IRS in combatting

attempts to overstate deductions. "We're on top of that thing," Sydney Goodman, Michigan revenue commissioner, said Monday.

However, he said the anti-tax movement "seems to be snowballing."
Goodman said the state combats overstating of

exemptions by requiring employers to notify it of workers claiming more than nine exemptions. If it appears the worker is overstating, the state gives him a chance to correct it. If the worker does not, the state tells the employer to allow no deductions, which results in the maximum amount of taxes withheld, he said.

"We have a little teeth," Goodman said. "It's worked in the past. We've nipped it in the bud."

The IRS has notified more than 1,000 workers that their forms contain false information, Walter Dunnigan, an IRS spokesman said, adding that many workers already have corrected their exemption

Jean Harris trial reporters work in 'Media Zoo'

By EILEEN PUTMAN **Associated Press Writer** 

WHITE PLAINS, N.Y. (AP) - All the drawing cards are here: sex, money, power, death and scandal. And draw they do, bringing in several

hundred reporters, some as famous as the subjects they write about. "She brings out the best cliches in everybody," Duncan Spencer, a Washington Star reporter, said of the woman at the center of it all, Jean

The 57-year-old former girls' school headmistress with the classy clothes and society background, who is charged with the murder of Scarsdale Diet developer Dr. Herman Tarnower, is the center of what reporters call a media "zoo."

When the reporters who were to become the Harris trial regulars assembled in October for pre-trial hearings, among them were Shana Alex-ander, former "60 Minutes" commentator; Diana Trilling, the writer and critic, and Lally Weymouth, free-lancer and daughter of Washington Post publisher Katharine Graham. All three were said to be writing books about the case.

The press corps toniness was established almost immediately when Mrs.

Trilling and Ms. Alexander greeted each other with hugs and kisses.
"I saw you in the Times crossword

puzzle last week," Mrs. Trilling said. "You were No. 5 across."

No stranger to crosswords herself, Mrs. Trilling acknowledged Mrs. Alexander's reminder that she was once "No. 23 down" in another puz-

But the trial quickly lost its glam-our in the tedious waiting during the many conferences the attorneys conducted behind closed doors. Even Mrs. Harris' occasional off-the-cuff remarks to a courtroom artist not to sketch her wrinkles so deep lost their appeal as juicy tidbits to be included in reporters' stories.

Reporters worked out of a drafty, makeshift press room in the court-house lobby, where the heat was turned off at 6 p.m. each day. "Free the White Plains press corps.

The length of this trial is cruel and inhuman punishment," read a postcard sent in January to trial Judge Russell Leggett by a pining girlfriend of one of the out-of-town reporters.

Patrick Henry's "Give me liberty or give me death" was stamped on the front of the card.

But the tedium ended abruptly Jan. 27 when the frail blond defendant

stepped into the witness box in a mauve Chanel-style suit and pearls.
For eight days, she captivated the
courtroom with a tale of depression,
failed suicide, Tarnower's casual sexual liaisons and her scorn of the other woman in Tarnower's life, Lynne

Tryforos. "I thought she denigrated Hi," Mrs. Harris testified, using the nickname for the millionaire diet developer. Pencils busily recorded the defendant's accompanying look of dis-

When Assistant District Attorney George Bolen read Mrs. Harris' last Jetter to Tarnower, in which she called her rival a "thieving slut" and a "psychotic whore," reporters could not get to the telephones fast enough

with the news. But trial testimony ended in an anticlimax of several pathologists' analyses of Tarnower's palm tissue. Mrs. Harris, used to seeing the two

dreds of reporters who appeared on row." the scene last week when the case went to the jury.

She found herself riding up a court-

house escalator with cameras, micro-

"How do you feel, Mrs. Harris?" they all screamed, at which the dazed defendant replied only, "Fine, thank

Reporters didn't necessarily enjoy the chase.

"I resent it — the crush, the hordes, the chase, the quarry, the prey. I think it's kind of demeaning for everybody, for the defendant and the press," said Joyce Dopkeen, a New York Times photographer.

"She's a person, a human being. I have very mixed feelings about it, although I recognize it's our job. By our numbers, we make it more of a

story." As the wait for the verdict stretched on, the numbers of reporters grew and the press room floor was obscured by newspapers, discarded copy, battery packs and half-eaten sandwiches. A sign was finally postdozen reporters who covered the trial ed: "Please clean up your area. What regularly, seemed stunned at the hun-

Reporters were kicked off the 10th floor where the jury worked, and burly sheriff's deputies unaccusphones and notebooks thrust in her tomed to the confusion threatened to "kick heads."
