Age no barrier—even the fugitive 'got the message'

TYLER, Texas (AP) - A 63-year-old Tyler man has demonstrated that

age is no barrier when it comes to rounding up outlaws.

T.J. Mayo, who lives alone with his invalid wife, was credited with Wednesday's capture of an armed robbery suspect who had eluded state and local police officers, even after wrecking a car.

Mayo, toting a .22-caliber rifle, rousted the fugitive from his hiding place under Mayo's house while dozens of officers were searching for the man several blocks away.

Pointing the rifle at the man, Mayo called to his wife to contact police and minutes later, a manhunt that began 30 miles away in Kilgore had

Arrested and charged with the armed robbery of George's Jewelry in Kilgore was Alvin Ray Meneefee, 25, of Tyler. He was arraigned by Kilgore Justice of the Peace Nick Dennis, who set bond at \$50,000, and

Kilgore police chief Johnny Bradley said 88 assorted unmounted diamonds ranging in size from five points to a full carat were recovered from a crawl space beneath Mayo's home shortly after Meneefee was captured. He also lauded Mayo's efforts

'What Mr. Mayo did - taking that old rifle and going out looking for the suspect — took courage. Most poeple would have stayed inside and not gotten involved. Mr. Mayo did one swell piece of work and Tyler can

Mayo said he had no idea "what the fuss was about" until he saw a Texas Highway Patrol car near his house and asked the officer inside what was happening. "He told me they were looking for a robbery suspect just up the street

...and he was believed (to be) in the area," Mayo said.

Mayo said he went in the house, sat down and thought about where a man might hide near his home, then went out to see if he was right.

"I got this rifle and cleaned it, then I loaded it and went outside. I walked around the side of the house and stooped down to look underneath. Sure enough, there he was," Mayo said.

Mayo said he ran to the front of his house "to get behind the fellow" and "fired the rifle once into the ground to make sure it would work." Mayo then dropped to the ground and shoved the rifle tip beneath the house.

'I told him not to move and ordered him to back out from underneath the house slowly. He said he couldn't because he was hurt — shot and dying, he said. I told him if he didn't do what I said he'd be shot worse than he'd ever been.

"He got the message," Mayo said. "If he had tried something, I would have shot him because I was determined to give him over to the law,"

Need for cuts has not eased

WASHINGTON (AP) - The Reagan administration, with assurances of support for its economic program from the Federal Reserve Board, says an easing in the inflation rate during January is only temporary

and does not undercut the need for deep budget and tax cuts.

The Labor Department reported Wednesday that consumer prices rose only 0.7 percent in January after four straight monthly jumps of at least 1 percent. Last month's increase translates into a 9.1 percent annual rate, compared with a 12.4 percent rise in 1980.

Rare declines in grocery food and home prices helped offset new bursts in energy costs. The cost of food in restaurants also was up.

The Reagan administration, in its latest pitch for rapid passage of the president's economic program, quickly labeled the improving inflation picture

Murray Weidenbaum, chairman of the White House Council of Economic Advisers, said January's report, "although welcome, provides little basis for optimism with regard to the underlying rate of inflation."

Reagan's budget director, David A. Stockman, said the report "indicates that we're still in a dangerous double-digit inflation environment in this country" and underscores the need for the "deep budget cuts" the administration is proposing. Most economists expect inflation to exceed 12 percent in 1981, making it

the third straight year of double-digit price rises. Energy prices should spiral higher, due to OPEC actions and Reagan's removal of price controls on domestic oil. Food prices, too, will pick up, economists say.

Meanwhile, the Federal Reserve moved Wednesday to further restrict the nation's money growth, and its chairman, Paul Volcker, warned that Congress would only worsen inflation if it whittled away at Reagan's pro-

Council may favor competition

Broad theme colors operators' fight

By LANA CUNNINGHAM Staff Writer

Competition vs. monopoly was the underlying theme of a debate Tuesday before the Midland City Council on the proposition for a second fixed base operator at Midland Air Park. The council leaned in favor of compe

Al McGuire already had received a favorable recommendation from the Airport Board, an advisory commission to the City Council. He was ready to proceed with plans to construct two enclosed T-hangars and a self-service gas pump at Air Park. All he needed was a thumbs-up from the council.

But the managers of Basin Flying Service showed up with their attorney, Russell Neisig, to oppose the

McGuire decided to get his feet in the business after receiving a letter from Basin Flying Service that rental for storing his aircraft in one of the firm's hangars was being hiked.

"I got a letter in October saying it would cost me \$250 for a hangar I could build and rent," he said, then charged that Basin is trying to "recoup some costs not directly associat-

ed with building hangars. Basin owns everything out there (Air Park) except the tail ends (of the runways)."

HIS ESTIMATED COST for renting the two hangars hovers around \$180 a month "while Basin says theirs is \$250," according to McGuire.

Mayor G. Thane Akins interjected that what the City Council had been hoping for were open hangars in which space could be rented for less than \$100 a month.

McGuire replied that he tried that route, but estimates on the open hangars have been too high. The only feasible idea for open hangars would involve constructing them of drill pipe and tubing that has been painted. These aren't as attractive as the other hangars. But to some people, they may be beautiful for \$50 a month," he acknowledged.

Councilman Carroll Thomas questioned the need for McGuire's 20 hangar spaces over the 60 that are being put up by Basin Flying Service. Ed Vogler, chairman of the Airport Board, answered. "We're short of hangar space now. By all projections, air traffic out there is increasing." Afterward, Vogler explained Air Park has hangars for about 100 planes. Another 35 planes are parked

Col. Wilson Banks, director of aviation for the city, pointed out the location granted to McGuire for the hangars is a choice spot, although it doesn't follow the master plan. He added that the city has not been intentionally unfair to Basin in that the sole fixed base operator was trying to follow the master plan in locating its

ON THE OTHER HAND, he tressed the council "can't grant a nonopoly out there. We can't protect ne individual."

This is one regulation the Federal Aviation Administration has emphasized for airports receiving federal funds for maintenance of runways and facilities, he added.

Neisig fought the charge that Basin was wanting a monopoly on the business at Air Park. "But we do want equitable treatment," he said.

The attorney pointed to work done by Basin at Air Park in upgrading the facility, but which has been paid for out of the operator's pocket - not the city's. Those improvements include

paving a dirt road, painting the beacon tower and hiring a security ser-

Basin asked the council to: -Delay a decision until Basin's hangars are completed and see if there is a demand for more hangar

-Move McGuire's hangars from its suggested location to be in line with the master plan.

-Keep McGuire's hangars off a ramp area.

Basin also charged that McGuire's location would obstruct their view of the runways.

J.L. Davis with Basin Flying Service said approval of McGuire's request would "look like someone's getting preferential treatment. The way it's been handled is unfair. They're (McGuire) capitalizing on what we've

IF MCGUIRE INSTALLS a selfservice gas pump, then the customers would use Basin's bathroom facilities, he charged. McGuire replied that he was building a bathroom and

cities and counties in orderly

- PBRPC's Ernie Crawford

Budget cuts could hurt PBRPC

By PATRICK DEAREN

If put into law, the proposed Reagan administration federal budget cuts could adversely affect programs directed by the Permian Basin Regional Planning Commission, executive director Ernest Crawford told members of the Downtown Lions Club at a Wednesday luncheon.

The Comprehensive Employment and Training Act Manpower Program, "the largest program we are involved in," would suffer a 20 percent funding cut in the 17-county area serviced by the PBRPC, Crawford told the group. Of the \$4.5 million. CETA funds received by the commission, \$900,000 is directed toward pub lic services, an area in which the Reagan administration has proposed

elimination of jobs. Additionally, noted the Odessa resident, another PBRPC program, the Health Systems, Agency, would be

phased out entirely by 1983, although exact details have not been released. But that one will have a hard time getting through Congress," Crawford

The Health Systems Agency surveys health facilities in the local region to aid in eliminating duplication of services. "One of our concerns is to (ensure) that necessity is shown," he said. "If we didn't have necessity (indicated), there would be private hospitals coming into our area," which he feels would lessen the over-

all degree of health service. "There has to be some sort of rein in these types of facilities," he said.

Crawford, who has served as executive director of the PBRPC since 1971, also noted that the proposed budget cuts would adversely affect the HUD 70l Program, although "this is no big program for us."

He indicated that additional information regarding budget cuts and their effect on PBRPC-directed programs would be forthcoming in a few

In his 20-minute address, Crawford outlined the various responsibilities and aims of the commission. "Our main function is to assist cities and counties in orderly growth," he ex-

Serving some 350,000 persons in the local region, the PBRPC is a voluntary association operated by cities, counties and local districts. It is involved with such operations as water and sewer work, recreation plans, mass transportation, housing funding, treatment of alcoholism and prevention of drug abuse.

"We are charged by the state and federal government with reviewing all federal applications, to make sure there is no duplication of services," Crawford said.

Many of these reviews, he ex-

Texas area forecasts

A 24-year-old rural Midland man was being held in the city jail this morning after allegedly damaging two squad cars and a private pickup truck during a scuffle with police last

Officers said they were called to the Joker's Lounge, 3704 W. Wall, about 10:30 p.m. Wednesday and arrested the man for being intoxicated.

The man, whose name is being withheld pending the filing of formal charges, was handcuffed and placed in a squad car. As an officer walked around the vehicle to get in the driver's side, police said the man managed to kick the car into gear and it hit another patrol car parked near-

The first squad car then proceeded to strike a parked pickup truck before

Two Atlanta black children found unharmed

ATLANTA (AP) - Two black children have been found safe - one at a friend's house, the other in a gymnasium - after they were reported missing in this city where 18 youngsters have been found slain, police

Both boys - 14-year-old Termal Heard and 10-year-old Dempster D. Williams — were back with their families Wednesday night, police said.

Heard, reported missing early Wednesday, was found in suburban East Point "over at a friend's house," police spokesman Roger Harris said. Williams, whose disappearance was reported Tuesday, was found at a gym on the city's southwest side. Neither case had been added to the

official police list of 20 children — 18 dead and two missing — who are assigned to a special 35-member po-

lice task force. When a child is reported missing, the missing persons division of the police bureau conducts an initial investigation and turns a case over to the task force only if the child is not a runaway and fits the profile of the otherwissing and dead children.

officers were able to stop it and subdue the man, who allegedly tried to kick one officer and kick out the windows of the squad car. He was treated for facial injuries at Midland Memorial Hospital and released to

police custody. He faces charges of felony criminal mischief, simple assault, public intoxication and disorderly conduct. Total damage to the three vehicles was estimated at \$1,000.

A Midland man fell victim to what police termed a "pigeon drop"

Police, Fire Roundup

scheme after being flagged down by a man on the parking lot of Furr's Cafeteria at Cuthbert and Midkiff streets about 3:30 p.m. Wednesday.

The victim told officers he gave the man a ride to Midland Park Mall, where a second man approached and plans were made to play cards.

When the suspects demanded to see some cash from the victim, he withdrew \$8,000 from the bank. After one of the suspects handled the money, it was placed in the glove compartment of the victim's pickup truck and the suspects departed. The victim later opened the glove box and the package of "money" turned out to be paper.

Some 155 yards of carpeting in a house under construction at 2901 Fredna had white paint poured on it, causing \$1,970 worth of damage, police were told.

And Mrs. J. Washington of 1407 Chestnut said someone broke into her house between 9 a.m and 3 p.m. Wednesday. Missing were a \$400 television set, a digital clock and an

eight-track tape player. City fireman spent a half-hour on the scene of a blaze at 709 N. Loraine shortly before 6 p.m. Wednesday and reported fire damage to a bedroom and carpet in the residence, whose owner was not listed. The brick veneer house also sustained heavy

smoke damage A shorted exhaust fan motor caused a fire scare at Trinity School shortly cefore 2 p.m. Wednesday. Firemen disconnected the fan and no damage to the building was reported.

Sweetheart' pleads guilty to wire fraud

POCATELLO, Idaho (AP) — A 34-year-old woman known to federal authorities as "the Sweetheart of Sigma Chi" has pleaded guilty to wire fraud and impersonating a federal employee.

Nancy J. Cain, 34, entered the plea in federal court Wednesday to the charges in a Feb. 18 federal indictment in Philadelphia.

The charges stemmed from a bizarre scheme in which a woman persuaded a University of Pennsylvania Sigma Chi chapter president to spend thousands of dollars helping her avoid ficticious pursu-

William T. Bringham, a lawyer and former FBI agent now national executive director of Sigma Chi, said there have been reports over the past 10 years of similar incidents involving the University of Michigan, the University of California at Berkeley, Ohio

State University and the University of Pittsburgh.

The indictment said Robert Mazurkiewicz, president of Penn's Sigma Chi chapter, spent over \$4,000 from May 7 to June 7, 1980, traveling around the country with the woman "in an attempt to avoid the people Cain falsely claimed were chasing her."

Mrs. Cain orginally telephoned the 22-year-old Reading, Penn., senior, saying she was investigating threatening messages sent on Sigma Chi stationery, and later told him the government was unable to protect her from a man threatening her, the indict-

It said a private detective found Mazurkiewicz in Santa Clara, Calif., where he was trying to pick up money his family had wired him after he had depleted other funds.

Mrs. Cain disappeared, but was picked up by FBI agents Jan. 20 after she tried "to pull a similar deal" on the Sigma Chi chater at the University of Idaho, the indictment said.

U.S. District Judge Marion Callister ordered a pre-sentencing investigation, and Mrs. Cain was taken back to the Bannock County Jail. A psychiatric examination previously ordered by the court is scheduled for March 19, sentencing for April 20.

Callister said he would drop the wire fraud count at

the time of sentencing if her plea does not change, a move based on an agreement between the government and her attorney. Maximum sentence for impersonating a federal officer is three years in prison and a \$1,000 fine.

Forecast cooler

Cloudy skies brought a hint of rain to Midlanders Thursday, but the weather forecast issued by the National Weather Service at Midland Regional Airport didn't mention any precipitation.

It did call for mostly cloudy skies through tonight with partly cloudy skies and cooler temperatures in store for Friday. Low temperature tonight should drop into the low

40s while the high on Friday should climb only to near 70. Winds tonight and Friday will blow southwesterly

to westerly at 10-15 mph.

Wednesday's high was 77 degrees. The record for that date was 83, set in 1950. Low this morning was a nearly balmy 55, much warmer than the record 14-degree mark set on this date in 1934.

'Gag rule' on Reagan economic plan

WASHINGTON (AP) - The administration has imposed a "gag rule" aimed at preventing Congress from obtaining complete information on President Reagan's economic program, says a document prepared for House Democrats.

Defenders say the rules under fire are no more than an extension of policies used by previous administrations to coordinate agency contacts

with Congress. In a report titled "Reagan's Congressional Squeeze Play," the Demo-cratic Study Group, a legislative research office for House Democrats, says information the administration has released on the president's package of federal spending and tax cuts is 'vague, incomplete, confusing, lacking in detail and includes questionable economic premises and project-

ions. Administration officials have said the president will submit a detailed revision of the 1982 federal budget

But the study group document says that despite a "pledge to work closely with Congress, the administration's primary emphasis to date has been on a public relations and programmedmail campaign designed to pressure members of Congress to agree to the package even before March 10."

According to the document, congressional efforts to obtain more complete information on the president's program "have been frustrated by what amounts to an administration-imposed gag rule on the program and agency experts who know the most about the effects of the cuts."

"In two of the departments most heavily hit by Reagan budget cuts, written orders have been issued prohibiting officials from providing information or otherwise responding to congressional requests unless authorized by administration political appointees," the document said.

The study group document cited the departments of Labor and Health and Human Services.

A department spokesman confirmed that Richard Schweiker, secretary of health and human services, has instructed his subordinates to get

advance clearance for meetings or contacts with members of Congress.

The spokesman, who asked to remain anonymous, said the order merely continues a precedent set by Schweiker's two Democratic predecessors. Both Patricia Roberts Harris and Joseph Califano Jr. issued similar directives to their chief deputies. Schweiker merely intended to pre-

vent confusion and establish orderly procedures, the spokesman said. 'They want things to go through the assistant secretary for legislation and they want things to be coordinated."

A House Republican aide said Reagan was only "applying the same kind of organizational restrictions as his predecessors.'

Te study goup said efforts to obtain information from other departments "also have been frustrated," leading the group to conclude that information restrictions "have been imposed throughout the government."

Administration officials had no immediate response to the document. In addition, the document said, the administration is pressuring congressional committees "to compress their legislative timetables and commit

themselves" to action "before knowing the details or in some instances even the broad outlines of the administration proposals.

Here are some of the "inadequacies" cited by the Democratic

Politicians may miss out on big bucks if new bill is passed

By LAURA RICHARDSON **Associated Press Writer**

AUSTIN, Texas (AP) — Politicians might miss out on some big bucks if a bill restricting cash donations is passed, but a former Brilab defendant assures legislators it's no real loss.

'Usually when someone wants to give you a sizeable contribution in cash, and he doesn't want to give you a check, there's a reason for it. And it's money you don't need," Randall "Buck" Wood told the House Elections Committee late Tuesday night. Wood testified in favor of two bills restricting cash donations, one with a limit of \$50, the other \$100. The

Wood, House Speaker Bill Clayton and Austin attorney Donald Ray, were indicted June 12 on charges of extortion, bribery, racketeering, and fraud in connection with a scheme to get Clayton to influence the award of an insurance contract.

measures were referred to a subcommittee.

After a lenghty trial in Houston, the trio was acquitted.

Referring to his legal troubles, Wood told the sometimes skeptical committee the bills would be good for politicians as well as the public.

"This bill is protection for you," he said. "I've had some recent experience with cash contributions, and if we'd had this limit the situation wouldn't have developed.'

Wood, a former lobbyist for Common Cause, a campaign reform group, said the measures "in-crease the public's feeling that these are traceable Horn, R-Denton.

transactions, in case something comes up."

These bills clear up one point: When is a contribution 'accepted'? When the bills are laid on your desk? When you put them in a credenza - I mean no disrespect to the Speaker," said Rep. Ed Emmett, R-Kingwood, whose proposal sets the limit at \$50. Clayton accepted \$5,000 in cash from L.G. Moore, a

Harris County labor leader, while an FBI informant secretly recorded the deal. Clayton later said he believed the money was a campaign contribution and had intended to return

"The speaker supports either of these bills and feels they would get rid of the problems that came up in his last situation," said Rep. Debra Danburg, D-Houston, sponsor the bill limiting cash donations

Several members of the committee objected to the bills, saying they would complicate campaign record-keeping but do nothing to curb election law

violations. "I'm really disturbed by this," said Rep. Frank Gaston, R-Dallas. "It's like a lock on the door, it only keeps out the honest people. If someone wants to get around it, they will.

"It's the crooks we're trying to get at, and there's no way to enforce this," he said.

Ms. Danburg said she felt voters had little confidence in politicians, and the bills answered a "call for accountability.'

"I think the public can see we're not doing them any real good (with these bills)," said Rep. Jim

Bandit adds new twist to list of strange armed robberies

(AP) - Texas has had the "friendly rapist," the "jogging bandit," the "traveling rapist" and the "over the hill gang."

Now clothing stores across the Lone Star state are being robbed by a man dubbed the "pants bandit." He got his nickname

because he forces everyone in the store to go to the back of the establishment where he robs employees, customers and the cash registers and then forces the employees and customers to undress to their underwear. He then takes the clothing with him and drops it near the door.

The "pants bandit" has been blamed for rie, Waco, Richardson, more than 50 robberies of clothing stores in Houston, and the Dallas-Fort canville, Irving and Worth area, according to North Richland Hills.

The man, described as in his late teens or early 20s, wears sunglasses, occasionally wears a wig or a fake moustache and

with only women employees for his rob-

No one has been harmed during most of the robberies, officers say, but a 16-year-old girl was raped during a Houston robbery about two months ago and he raped a 14-year-old girl during his latest robbery at Waco last Saturday.

Representatives from numerous police agencies met in this Dallas suburb Tuesday to compare notes on the "Pants Bandit.' Attending the meeting

were officers representing police departments from Dallas, Fort Worth, Arlington, Grand Prai-Garland, Addison, Farmers Branch, Dun-Also attending were Texas Rangers and Dal-

las County deputies. Sergeant Harold Rice of the Dallas Police robbery detail says the man

stores where only women 8:30 p.m.," Rice added. work and uses a chrome automatic pistol.

"He makes them strip down to their panties and bra and then carries their clothes to the front door where he drops them," Rice said.

have any clothes on, not many of them have gone out to see how he gets away," Rice said. He said that he has been seen driving a small, blue foreign car. But on two occasions when witnesses were able to obtain a license number it turned out he license had been stolen from another automobile.

The man only gets between \$250 to \$300 in each robbery, but Rice says he is very active.

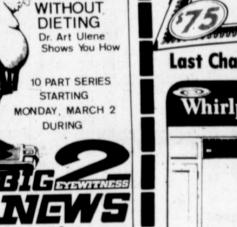

"When he hits, he hits three or four places. He may scatter them from one end of the county to the other. The last time he hit us (the Dallas area), he got Irving at

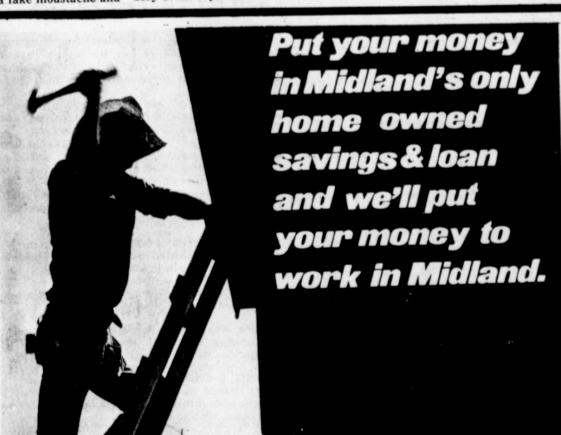

ADDISON, Texas picks clothing stores always picks clothing 6:30 p.m. and Dallas at Police at Addison came close to catching him last Thursday, Rice

> Officers said he had struck clothing stores in nearby Garland and Richardson that afternoon "Since the people don't and Addison police staked out his most likely target.

Stock market gains

NEW YORK (AP) — A surge of buying just before the close helped the stock market recover from a midday selloff to post its third straight gain Wednesday. Chemical, oil and a smattering of other blue-chip issues led the late rally.

The Dow Jones average of 30 industrials, off more than 10 points at 2 p.m., sported an 8.30 gain at 954.40 by the close. Since the start of the week the average has risen 18.31 points.

New York Stock Exchange volume reached 45.71 million shares, up from 43.96 million Tuesday.

Among the chemical stocks, which have been a standout group lately, Union Carbide rose 11/8 to 601/4 as of the 4 p.m. close in New York; Du Pont was up 1% at 48%, and Dow Chemical picked up 21/8 to 37%. Dow was recommended this week in Standard & Poor's "The Outlook."

International Business Machines climbed 2 to 641/8 and General Motors 1% to 501/4, both in active trading.

Oils among the volume leaders included Standard Oil of Indiana, up % at 661/2; Phillips Petroleum, up 11/2 at

46%, and Mobil, up % at 69.
The day's best single performer was Texas International, up 81/2 at 40 on turnover of just under 1 million shares. On Tuesday the company reported on a well in St. Bernard Parish, La., which it described as having "the potential for a major oil and gas discovery.

For all the averages' wide swings, the daily tally on the NYSE showed gainers just barely outnumbering losers at the close. The exchange's composite index rose .55 to

Standard & Poor's index of 400 industrials gained 1.43 to 146.03, and S&P's 500-stock composite index was up 1.13 at 128.52. On the American Stock

Exchange, the market value index added .66 to 333.91. The NAS-DAQ composite index for the over-the-counter market closed at 193.99,

TODAY'S ANSWER

Democrats take South Texas senate seat

By SUSAN STOLER **Associated Press Writer**

HARLINGEN, Texas (AP) - In the end, it was a battle of the political heavyweights in a South Texas state senate race and the Democrats walked off the

"We needed to bring in our big guns," Democrat Hector Uribe, a Brownsville state representative, said this week in assessing his victory over Republican Ricardo Hinojosa of McAllen. "As it turned out,

their big guns were shooting blanks."

Both sides enlisted outside support with the Republicans sending out letters from President Reagan and the Democrats shuttling in Lt. Gov. Bill Hobby and a host of state legislators to campaign.

On election night, it was never close.

Uribe, a 35-year-old lawyer and two-term House member, pulled ahead early and accepted Hinojosa's concession an hour after polls closed.

Unofficial complete returns showed Uribe with 35,542 votes to Hinojosa's 22,453.

The bi

Brooks, Cameron, Hidalgo and Jim Wells counties are in the district. Uribe will fill the two years remaining in term left

vacant when Raul Longoria resigned in January to become a state district judge. The seat has been unoccupied since the current legislative session Despite the traditional Democratic control of the Lower Rio Grande Valley, Republicans claimed a

good chance to win because special elections sometimes yield strange results. They pointed to John Tower's special election win to become the state's first Republican U.S. senator since Reconstruction.

"They turned out the Democratic vote," Hinojosa said in assessing his defeat. "We're at the point where the Democrats are taking us seriously in

South Texas. We need to try to educate the voters about the importance of voting for a candidate and not the party.

The 31-year-old Harvard-trained lawyer said he will resume his private practice and continue as Hidalgo County GOP chairman. "I'll be back trying to build the party in South

Texas. Obviously we have a way to go," he said. The Republicans had raised funds statewide for the contest. Hinojosa hired an Austin advertising firm and ran broadcast spots with Vice President George Bush's endorsement in a heavy media blitz. Uribe said he saw in the results a resentment of Gov. Bill Clements' early attempts to help Hinojo-

Clements endorsed Hinojosa over another Repub lican in a Feb. 10 election. Hinojosa led the sevenman field with 9,073 votes to Uribe's 7,052. Uribe barely made the runoff by 20 votes over Mission businessman Joe Summers, the other Republican.

After a lengthy recount, Clements scheduled the runoff a week after the official canvass. The timing allowed only a day of absentee voting in one county. Democrats said a Saturday election would have allowed more working people to participate. "The people resented the manipulation of the

election and the partisan campaign practices," The new senator said he would go to Austin this

Jury selected to decide who gets \$500,000 cache

WACO, Texas (AP) - A federal court jury must decide if two young Alice men, the State of Texas or the Internal Revenue Service will profit from almost \$500,000 reportedly found buried on a South Texas farm four years ago. Percy Garcia, 20, and James Dean Bridges, 19,

claim they found \$481,816 buried on a farm near Alice and therefore they should be allowed to keep it. The State of Texas claims the money as abandoned

property, McLennan County contends it should get the cash it claims is lost or stolen property and the IRS argues it is entitled to \$300,000 in taxes. A six-member jury was selected Tuesday and is

scheduled to begin trying to sort out the conflicting The money has been collected \$155,939 in interest

since it was confiscated in January of 1977, bringing the total up for grabs to \$637,765.

Garcia and Bridges were stopped in Waco for a Police, who said the pair acted suspicious during

questioning, searched the car and found the Garcia and Bridges said after they found the money buried on a farm near Alice owned by

Bridge's step-father, they took a bus to Dallas and went on a spending spree.

When stopped in Waco, the pair was driving a new Ford Thunderbird which they said they persuaded a man in Dallas to buy with their cash.

Officials confiscated the money and, after questioning the pair, released them to the custody of their parents. Authorities speculated at the time the money may have been part of a drug deal that was never consumated.

Aviation interests oppose cutting funds to airports

Senate aviation subcommittee to deprive the nation's busiest commercial airports of construction money from a special federal fund has drawn opposition from major aviation interests.

Spokesmen for groups representing the nation's major airlines and airports went before the panel Tuesday and Wednesday to criticize that provision in a bill to reauthorize the spending of money from the Airport and Airway Development Program.

The program, begun in 1970, uses receipts from the 5 percent federal tax on airline tickets to finance such projects as construction of airport terminals and runways, installation of navigational aids and operation of some Federal Aviation Administration

The program's trust fund has accumulated some \$3.7 billion, but no grants have been made since the law that authorized spending expired last Sept. 30 without a replacement.

The bill would authorize spending \$825 million this year and \$600 million in the 1982 fiscal year for airport improvements.

While all who testified at subcommittee hearings agreed on the need to renew the program, most argued against a provision in the re-authorization bill that would bar the nation's 69 biggest airports from receiving benefits.

Hugh Kelleher of Helena, Mont., president of the American Association of Airport Executives, said travelers at those airports would be deprived of

WASHINGTON (AP) - A move by leaders of the benefits for which they have already paid.

The sponsors of the Senate bill, subcommittee chairwoman Nancy L. Kassenbaum, R-Kan., and ranking Democratic member Howard Cannon of Nevada appeared most dismayed to have lost support for partial "defederalization" from the Air Transport Association.

Paul R. Ignatius, president of the airline trade group, said his organization reversed its earlier backing because of "changed circumstances" in the past year, including serious financial reverses the industry has suffered because of soaring fuel costs and a reduction in passenger growth.

Ignatius said the air carriers also were concerned about an amendment by Mrs. Kassebaum that would permit operators of the big airports to collect a 'head tax'' from departing passengers to help make up some of the loss of federal aid.

He said the development program has worked well for a decade and should not be replaced by a complicated arrangement that raises numerous po-

tential problems. The Aircraft Owners and Pilots Association, representing private aviators, was virtually alone in supporting defederalization, saying the large airports already have sufficient revenue sources to pay

Spokesmen for airline pilots and the airport equipment industry said money spent from the fund should be used primarily for safety-related

Miporn defendant convicted

who viewed four sex films in the second of 16 prison and a \$20,000 fine. scheduled pornography trials rejected defense arguments that the government was trying to be a self-appointed censor and convicted a California man of shipping obscene movies across state lines.

The conviction of Walter "Frenchy" Bagnell, 55, was the first stemming from the federal government's 2½-year Miporn — standing for Miami pornography — investigation. A total of 44 persons were charged in the investigation.

Bagnell, of Los Angeles, was convicted Wednesday on two counts each of shipping obscene films across state lines and of using a common carrier - a jetliner - for interstate transportation of obscene

material for sale or profit. U.S. District Judge Eugene P. Spellman did not set a date for sentencing. Bagnell, who remained free on

MIAMI (AP) — A jury of six men and six women a \$25,000 surety bond, could face up to 20 years in

Defense lawyer Roger Diamond told the court he would appeal.

Four films were shown in open court during the trial. The jurors decided they all fell below local standards of decency established in late 1977, the time at which the events detailed in the criminal charges occurred.

Bagnell was the producer of two of the films, which featured homosexual acts. The jurors also decided the other two movies, which featured heterosexual scenes, met the legal test for obscenity.

Group fights arts budget cut

A bipartisan congresa wine and cheese party, is mobilizing to fight President Reagan's proposed cuts in federal

funds for the arts. Rep. Fred Richmond, D-N.Y., was elected chairman of the 130member Congressional Arts Caucus on Wednesdenouncing the budget cuts as "disgraceful" in testimony before a House subcommittee.

The organizational meeting of the caucus was held in the House Agriculture Committee room, which is more accustomed to debates over beef imports and price supports for sugar than discussions of ballet troupes and symphony orchestras.

Spectators drank Calion cheese and crackers as the caucus voted to publish a monthly newsletter that will keep tabs on arts legislation. Richmond said the main purpose of the organization is to exchange informa-

The caucus includes 21

WASHINGTON (AP) Republicans, and one of spending instead of just them, Rep. James Jefsional group, launched at fords of Vermont, was the endowment's current elected vice chairman.

In his testimony before the subcommittee on postsecondary education, Richmond said Reagan's proposal to cut B. Johnson with an anthe budget for the Nanual budget of \$7.5 miltional Endowment for lion. It experienced its the Arts by 50 percent would reduce federal day a few hours after spending on the arts to 35 dent Richard M. Nixon. cents per capita.

> "It is disgraceful that a country so rich in its natural resources should resources so shabbily," he testified.

> Reagan has asked Congress to slash the endowment's budget by \$85 million requested by former President Carter.

> Unlike most cuts pro-

slowing its growth, since

budget is \$152 million. The endowment was created in 1966 in the Democratic administration of President Lyndon nual budget of \$7.5 milmost dramatic growth under Republican Presi-

Reagan administration budget director David Stockman argues that grants by the endowment promote "the treat its artists and art notion that the federal government should be the financial patron of first resort.'

The administration maintains that reducing million from the \$173 the grants will spur private support of the arts.

Witnesses at Tuesday's hearing said federposed by the administra- al grants provide only a fornia wine and nibbled tion, this would reduce small fraction of the sup-

The attempt will be made at No. 2 Weldon & Ida

Sue Johnson "A," a 7,800-foot project. Location is 467 feet from north and 1,700 feet from east lines of section 51, block 5, H&GN survey. Ground elevation is 2,123 feet.

ANDREWS LOCATIONS

ARCO Oil & Gas Co. staked three projects in the four-well Emma (Grayburg) field of Andrews County, 15 miles south of Andrews.

Each is contracted to 4,500 feet. No. 84 Emma Cowden is one location northwest of production and 1,175 feet from north and 1,090 feet from east lines of section 3, block 44, T-2-N,

ARCO No. 93 Emma Cowden is one location west of production and 2,500 feet from north and 600 feet from east lines of section 3, block 44, T-2-N, T&P

The operator staked No. 94 Emma Cowden 1/4 mile southwest of production and 2,500 feet from noth and 1,750 feet from east lines of section 3, block 44, T-2-N, T&P survey.

GARZA DRILLSITES

Rocker A Well Service of Post spotted two projects in the six-well A.F.G. (Clea Fork) area of Garza County, 10 miles north of Post.

Contract depths are 3,600 feet. No. 4 FNB/Dallas is to be drilled 660 feet from north and 1,980 feet from east lines of section 2, block

3, K. Aycock survey.

Rocker A No. 2 Guthrie "A" was spotted one loation north of production and 660 eet from south and east lines of section 112, TW&NG survey.

CULBERSON TESTS

Texaco Inc. staked locations for three projects in the Ford West (4100 oil) fied of Culberson County, six miles northwest of Orla.

Each of the projects is contracted to 4,100 feet. No. 2 Culberson Fee "Y" will be drilled 868 feet from north and 2,607 feet from east lines of section 27, block 58, T-1, T&P survey.

Texaco No. 6 Culberson Fee "V" was spotted 2,220 feet fromnorth and 467 feet from east lines of section 21, block 58, T-1, T&P survey.

Texaco spotted No. 7 Culberson Fee "V" 2,220 feet fromnorth and 2,095 feet from east lines of section 21, block 58, T-1, T&P survey.

MITCHELL PROJECTS

The three-well Maude (Clear Fork) field of Mitchell County gained locations for four projects, all by Max Walden Production Co. of Post. Each test will be drilled to 3,300 feet, three miles southwest of Westbrook

No. 2 Barber "D" is 467 feet from south and 1,780.4 feet from east lines of section 7, block 28, T-1-S, T&P

No. 1 Barber "D" was spotted 467 feet from south and east lines of section 7, block 28, T-1-S, T&P sur-

No. 1 Barber "E" was staked 2,194.5 feet from

south and 467 feet from west lines of section 13, block 29, T-1-S, T&P survey.

Max Walden Production No. 2 Barber "E" will be drilled 2,194.5 feet from south and 1,667. lllllll8 feet from west lines of section 13, block 29, T-1-S, T&P

LOVING LOCATION

Union Texas Petroleum Corp. of Midland No. 1-8 Red Bluff has been staked in the Damsite (Wolfcamp gas) field of Loving County, 10 miles southwest of

It is 1,120 feet fromnorth and 1,320 feet from west lines of section 8, block 56, T-1, T&P survey. Contrat depth is 12,800 feet.

PECOS FIELD TESTS

Lewis B. Burleson, Inc., of Midland staked two projects in the Leon Valley (O'Brien) field of Pecos County, six miles southwest of Fort Stockton. They are scheduled to drill to 2,800 feet.

No. 1 University "A" is 467 feet from south and east lines of section 17, block 28, University Lands

No. 2 University "B" has been staked 467 feet from south and 1,310 feet from west lines of section 8, block 28, University Lands survey.

Walsh and Watts, Inc., of Wichita Falls No. 2 Millikin is to be drilled as a south offset to production in the five-well Leppart (Palo Pinto) field of Coke County, 1/2 mile east of Bronte.

Location for the 4,700-foot operation is 2,550 feet from south and 867 feet from east lines of section 427, block 1-A, H&TC survey.

TOME GREEN SITES

Indian Wells Oil Co. of Ozona staked two projects in the two-well Wayne-Harris (Canyon) field of Tom Green County, 20 miles northwest of Mertzon.

No. 1-69 Harris is 5/8 mile northeast of production and 660 feet from south and 1,980 feet from east lines of section 69, block 6, H&TC survey.

Indian Wells No. 1-73 Harris will be drilled 31/2 miles northwest of production and 660 feet from north and west lines of section 73, block 6, H&TC

Wichita-Albany discovery completes in Pecos County

Lario Oil & Gas Co. of Midland No. 2 State-Breen has been completed as a pumping Wichita-Albany discovery in Pecos County, 91/2 miles southwest of Imperial.

The operator reported a 24-hour potential of 39.2-gravity oil and 40 barrels of water, with a gas-oil ratio

Completion was through perfora tions from 4,808 to 4,870 feet after 3,300 gallons of acid.

Total depth is 5,399 feet, 7-inch casing is set at 4,932.45 feet and hole is plugged back to 4,894 feet.

The Wichita-Albany was topped at 4,000 feet on ground elevation of 2,486 Other tops include the Yates, 1,430

feet; Grayburg, 2,117 feet; Glorieta, feet; Clear Fork, 3,090 feet; Wolfcamp detrital, 4,900 feet, and Simpson 4,948 feet.

Wellsite is 1,980 feet from northeast and 800 feet from southeast lines of section 52, block 10, H&GN survey.

SCHLEICHER REOPENER Strawn production has been reo-

pened in the Fort McKavitt field of Schleicher County, 30 miles northeast of Eldorado.

The discovery is Luling Oil & Gas Co., Inc., of San Antonio No. 1 J. F. Webster "C."

The operator reported a calculated absolute open flow potential of 200,000 cubic feet of gas per day, through perforations from 4,325 to 4,335 feet. The pay was acidized with 2,000 gal-

Wellsite is 660 feet from north and east lines of section 4, block 8, TW&NG survey.

MENARD REOPENER

Fred G. Brown, Inc., of Midland No. 1 M. H. Callan has been completed to reopen the F&H, East (Cook oil) field of Menard County, 17 miles west of Menard.

The operator reported a 24-hour pumping potential of 14 barrels of 19-gravity oil and 12 barrels of water, through perforations from 2,038 to 2,042 feet, after 250 gallons of mud

Total depth is 2,700 feet, 41/2-inch casing is set at 2,137 feet and dhole is plugged back to 2,100 feet.

Location is 3,000 feet from north and 1,200 feet from west lines of J. T. Callan survey No. 80 and a southeast twin to the depleted original disco-

YOAKUM COUNTY .

Blanks Energy Corp. of Midland No. 2 Pharr has been completed in the Henard (San Andres) field of Yoakum County, three miles north of Plains.

The well, one location north of production, finaled for a daily pumping potential of 12 barrels of 32-gravity oil and 68 barrels of water, through perforations from 5,255 to 5,310 feet after a 5,100-gallon acid treatment.

The producer, drilled as a wildcat, is bottomed at 5,391 feet, 41/2-inch pipe is set and total depth and plugged back depth is 5,352 feet.

Wellsite is 1,980 feet from south and 660 feet from west lines of section 310, block D. John H. Gibson survey.

MIDLAND WELLS

The Midwest (Spraberry-Dean) field of Midland County gained a new well, its second, with completion of Ralph E. Williamson of Midland No. 1 **Butler Heirs.** The well, 1% miles southeast of the

pool's other producer and one mile south of Midland, finaled for a 24-hour pumping potential of 57 barrels of 41-gravity oil and 10 barrels of water. through perforations from 8,713 to 9,453 feet. The pay was acidized with 6,000 gallons and fractured with 100,-000 gallons. Total depth is 9,850 feet and 41/2-inch

casing is set on bottom.

Location is 3,188 feet from south and 1,020 feet from east lines of section 5, block 39, T-2-S, T&P survey.

The Bradford Ranch (Atoke) field of Midland County ginaed its ninth well with completion of Texaco Inc. No. 1 Zula B. Wiley "B.

Extending the field 1/2 mile west, it finaled for a 24-hour flowing potential of 304 barrels of 45.7-gravity oil, no water, with a gas-oil ratio of 2,952-1. Completion was through an 8/64inch choke and perforations from 11,-

380 to 11,398 feet after 4,000 gallons of

Total depth is 12,300 feet. Location is 933 feet from south and east lines of section 20, block 39, T-3-S, T&P survey.

Mercury Production Co. of Fort

acid.

Worth completed the third and fourth wells in the Jackie Grimm (Gardner) field of Nolan County, three miles east of Hylton. No. 1 Frank Antilley "B" was fin-

aled for a 24-hour pumping potential of 30 barrels of 42-gravity oil and five barrels of water, through perforations from 5,240 to 5,268 feet after 5,000 gallons of acid and 15,000 gallons of fracture solution. Wellsite is 2,300 feet from north and

200 feet from west lines of section 175, block 64, H&TC survey and one location northwest of other production.

Mercury Production No. 1 Virginia Dale Moore, one location southwest of other production finaled for a 24-hour pumping p9otential of 17.5 barrels of 42-gravity oil and 32.5 barrels of water, through perforations from 5,-

295 to 5,312 feet. The pay was fractured with 22,000 gallons.

Location is 1,505 feet from south and 467 feet from east lines of section 179, block 64, H&TC survey.

NOLAN OILERS

Mobil Producing Texas & New Mexico, Inc., of Midland No. 1 B. B. Bridgford has been completed as the second well in the White Flat, Northwest (Ellenburger) field of Nolan County, 22 miles south of Swee-

Operator reported a daily flowing potential of 125 barrels of 46.4-gravity oil and three barrels of water, with a gas-oil ratio of 700-1.

Completion was through a 24/64inch choke and perforations from 7,-030 to 7,114 feet after a 3,000-gallon acid treatment.

Total depth is 7,304 feet, 51/2-inch casing is set at 7,299 feet and hole is plugged back to 7,200 feet. The well, one location east of the only other producer in the field, is 873

lines of section 40, block 1-A, H&TC ANDREWS PRODUCER

feet from north and 530 feet from west

ARCO Oil & Gas Co. of Midland No. 92 Emma Cowden is a new well in the Emma (Grayburg) field of Andrews County, 15 miles south of Andrews.

Operator reported a 24-hour flowing potential of 125 barrels of 32.1-gravity oil and 51 barrels of water, with gasoil ratio of 832-1.

Completion was through a 1/4-inch choke and perforations from 4,103 to 4,186 feet after 3,000 gallons of acid and 44,000 gallons of fracture solu-

Location is 1,180 feet from north and 660 feet from east lines of section 3, block 44, T-2-N, T&P survey.

Double Drilling Co. of Dallas No. 1 Higginbotham, drilled as a wildcat, has been compelted and assigned to

the Rawlings (Gardner lime 5100) field of Coke County, 41/2 miles north of Bronte.

The fifth well in the field, it is 1% miles east of the closest other well producing from the same pay.

On 24-hour potential test, the new well pumped 80 barrels of 40-gravity oil and 40 barrels of water, through perforations from 4,248 to 5,273 feet. The pay was acidized with 500 gal-

Total depth is 5,400 feet and 41/2-inch casing is set at plugged back depth of 5.393 feet. Location is 990 feet from north and

660 feet from east lines of section 395, block 1-A, H&TC survey.

HOCKLEY COMPLETION

HMH Operators of Midland No. 2 Tullis "A" has been completed as the seventh well in the Anton (lower Clear Fork) field of Hockley County, 1/2 mile west of Anton.

On 24-hour potential test it pumped 45 barrels of 30-gravity oil and 18 barrels of water, through perfora-tions from 6,528 to 6,561 feet after 3,000 gallons of acid.

The well, one location northwest of other production, is 1,650 feet from south and 990 feet from west lines of section 112, block A, R. M. Thompson survey, abstract 36.

RK Petroleum Corp. of Midland No. 5 Anchor has been complted in the Spraberry Trend Area field of Martin County, 10 miles north of Lenorah.

The operator reported a 24-hour pumping potential of 45 barrels of 42.7-gravity oil and two barrels of water, with a gas-oil ratio of 1,230-1. The pay was fractured with 100,000 gallons.

Total depth is 9,470 feet. The project was drilled as a wildcat.

Wellsite is one location southeast of Spraberry production and 7,775 feet from north and 4,620 feet from west lines of sectidon 252, Ward County School Land survey.

rate structures that award big electric users by charging declining rates rates go down.

Reagan drive given unexpected help

The law did not order state utility commissions to put the innovative rates into effect, but it did require them to consider the changes in public hearings at which consumer groups and federal officials were given the right to argue for the new

greed with the law, utility commissions in most states are well along in the lengthy hearing process. However, Mississippi officials chose to challenge the law as an unconstitutional infringement on states' rights. In a ruling disclosed Monday, U.S. District Judge Harold

Cox of Jackson agreed and struck the While the ruling is only that of a single judge, officials at the Energy Department said it could become the law of the land unless the Reagan administration decides to appeal.

Officials at the Justice Department

said no decision on an appeal has been

made, but government sources, who

asked not to be identified, said the

Reagan administration is giving seri-

ous consideration to letting Cox's decision stand. 'This is a convenient way of getting rid of one of the major portions of

President Carter's energy policy,"

said one source. Utility companies had complained that the law would tie them up in endless hearings and add substantial costs by imposing new auditing re-

sions were required to consider in-

clude prohibiting mass metering at apartment houses, examining whether higher fuel costs should be passed through automatically on homeowners' bills and forbidding utilities from charging ratepayers for promotional and political advertis-DOE attorney James Sabalos said

regardless of what the new adminis-

tration may want to do with Carter's

energy program, the Mississippi rul-

ing, if allowed to stand, could impose serious restrictions on other federal efforts to regulate state actions. "Down the road, the Reagan administration may want to undertake some regulatory action and this case could cause them problems," Sabalos

NEW YORK (AP) - Bantam Books has grossed about \$4.5 million from "The Complete Scarsdale Medical Diet" since author Dr. Herman Tarnower died, but publishers say his death and the trial of his lover Jean Harris aren't the only reasons for the book's success.

'There's no question but that the notoriety surrounding Dr. Tarnower's death has brought the book and diet to world attention," said Stuart Applebaum, publicity director for Bantam. He added that sales were "extraordinarily high" before Tarnower's

all of this interest is directly or indirectly attributable to the murder trial." Mrs. Harris was convicted of murder in Tar-
