Whole briskets will be sold for \$25 and the deadline for those orders will be November 8. Please contact Missy Forbes at school, 823-2476, or Linda Vernon, 823-2395 (after 5:00) or any Freshman class student.

cannot be compared fairly with high-income schools, so the rankings were tweaked for economic disadvantage; schools in poor districts (that is, those with the federally subsidized lunch program) would be compared only with other schools in low-income districts, and so on.

The rankings are based on a variety of factors, including student performance on the TAAS reading, writing and math tests for the tenth grade: the school's success at educating two levels of students--proficient and low-proficient--as measured by junior high TAAS tests; the promotion rate of first-time ninth graders to tenth grade; the percentage of low-income students at the school, which determines its economic grouping; and the percenage of students taking advanced-placement tests or SAT/ ACTs (to qualify for five stars, a high school must have at least 15 percent of its students taking AP tests or at least 70 percent of its students taking SAT/ACTs).

One of the most important data children between three and five columns this year is student performance on the state-administered end-of-course algebra test.

Schools are rated based on a comparison with other schools within their socioeconomic groups.

The Silverton Schools received five stars--the highest ranking.

Area schools' rankings include: Happy, one star; Kress, four stars; Patton Springs, five stars; Lockney, three stars; Floydada, one star; Tulia, one star; Clarendon, five stars; Memphis, five stars.

Friendship Quilters **News & Notes**

by Bobbye Bean

Last week we only had six quilters, including a new member Diane Norris. This week Sybil King, Nina Martin, Ann Norris, Joy Stodghill, Mary Burson, Wanda Strange, Nadyne Childress and Bobbye Bean quilted. We finished Sybil's Yellow Rose quilt. We will work on Laverne Stephens' Chicken Scratch Quilt next week.

Joy will put up her Grandmother's Flower Garden. Tempie Francis and her secretary, DeAnna Russell, visited with us at refreshment time and then

waited to see us unroll Sybil's quilt. Diane went to Kansas to see her granddaughter "Trick or Treat."

Laverne went to East Texas.

We miss Ada and Oleta. We hope they are enjoying warm weather in

Get the full name, address, telephone number and any other identifying information of the organization. Find out if your donation will be tax deductible, how your money will be used, and what percentage of funds will go to the actual cause instead of non-charitable funding. Holding Us to Account

Your Touchstone Energy Partner

There's lots of news these days about big corporations and their accountants. Some of them seem to have played fast and loose with their shareholders' money. We believe they should be held accountable. We believe we should be too. All institutions—government, corporations and, yes, cooperatives—who use money no their own should be ready to account for every dollar earned and spent. Always.

As a non-profit cooperative, we're owned by our customers - our members. Members elect their own to our Board of Directors, which decides policy and oversees management. That's business as a democracy. We're not saying every company should be run this way, but Texas cooperatives have been for sixty-plus years and, frankly, it's worked pretty well.

Electric deregulation is supposed to bring Texans cheaper power. It hasn't yet, but let's give it time. For now, Swisher Electric Co-op has decided not to opt in to deregulation. The smart choice is to "wait and see", at least until we're sure it's right for our members. In the meantime, we'll keep doing our job the best we can. If we don't, call us. We always pay attention to the boss. For more information visit our web site or call your local Smart Choice Cooperative.
