

JUST TALK

By JAMES HILL

Hope you have enjoyed the pleasant spring weather as much as we have, for it has certainly been fine. Right now, though, I'm worrying about winter in July for we've had summer in February.

Weatherman Horace Finley is certainly trying to please—we must be thinking about running for some sort of office!

VISITOR — Jimmie Branch was a visitor to Knox City last week. Rene and daughter Jennifer remained in Lubbock for Jennifer to attend school. Jimmie reported all was well in the windy city.

OLDEST RESIDENT? — Mrs. H. A. Smith thinks she is the oldest living resident of Knox County, as she came here in 1885. We don't know who has that distinction, as we have heard it was Miss Maud Isbell, who has been in the Knox County Hospital for a long time. If anyone knows when she came here, let us know, and we will set the record straight.

TWO-GUN HARRY Garrison packed up his pistols and went back to Tucumcari, N. M. this week. Harry is a real nice guy and we are looking forward to seeing him again real soon.

For those of you who didn't have the pleasure of meeting Harry, all we can say is that he is exactly opposite from his brother Wes.

Sunday I went to Sunday School with a hole in the back of my coat and a number of persons noticed it and asked me how it happened. Being an editor takes a lot of getting used to, but getting stabbed in the back every day or two is not.

Fortunately, I don't have a drop of blood in me.

ERROR — After the paper came out last week, we discovered that there are 12 new homes in the process of construction in Knox City and not three, but four new businesses! Any way you slice it, Knox City IS a growing and prosperous little community.

Builders tell us there is more construction going on here than anywhere in this area.

We may not agree with City Hall, the School Board, and the County officials on everything, but in the past and even now in the present, we haven't been too far off the right track, for people know a good town when they see one. We DO have a lot to offer here—and despite the fact that we do—we aren't taxed to death either.

It's a kinda eat your cake and have it too situation, I suppose.

Taxes mean nothing unless you are paying them—then they mean a lot. When we first came here to look the town over—we were impressed with the fine school system here and all the other civic improvements under way at that time, but our friend Ed Warren of Post, who came here to help us decide, said, "I'll bet the taxes and valuations are way up there." After Ed checked all the records he was forced to admit that utilities, taxes and living conditions here were head and shoulders above other towns of his acquaintance.

We are happy to report that they still are!

Knox Citians, we have found, are usually for anything that will help the community—we go 100 per cent along with all who have this end in mind.

PUBLIC SCHOOL WEEK is scheduled for March 5 through the 9th and we are looking forward to our tour of the public schools in Knox City. Although we feel certain the visitors disrupt to some degree the regular routine at the schools, we also feel fairly certain that all of the youngsters and their teachers will be glad to take time out to make your trip a memorable one.

If you don't happen to go to school very often, make a date to tour your school system here. Knox City's Lions will have lunch at the school cafeteria Wednesday, March 7 and will visit or tour the schools at that time.

Old Horace isn't cooperating a bit with his weather—we washed our car Monday and at this writing Wednesday night—we still haven't received a good rain. Everybody wash 'em up this week—we need a rain!

Old Issue Of Benjamin Post Reports News And Happenings Of The Day

Mrs. Alie Moorhouse of Benjamin, brought the Herald an old issue (August 16, 1935) of the Benjamin Post and due to the difference in the times in the past 27 years the Herald has reprinted a number of interesting issues and news of the day.

Hot news of the day was the WPA program and mention is made of it twice on the front page, once in a column and the other in a news story.

From the news story one is led to believe that workers were hard to find, even in that day and age when millions were on relief.

Charles A. Bisbee was editor of the Post and in his column (presumably) are a few paragraphs of note:

"Court house construction is now entering the home stretch. The exterior of the building is practically complete and workmen are busy finishing the interior. Daily the structure grows more beautiful."

Regarding relief, the editor made the following comment:

"Because of the recent change in the relief setup in the state in which no more doles or piddling jobs will have a part and all labor will be used on public works projects, it is extremely urgent that counties, municipalities and other political subdivisions get in their applications immediately if they expect to have work to take care of the unemployed this fall."

"Rockefeller gives \$25,000,000 Away" reads today's headlines. That's what you might term private enterprise in competition with the government."

Featured story was headlined "Details of Accident of 1878 Related By Chas. Tackett" and is reprinted below:

Lions Entertained By Rochester's Elementary Band

Knox City's Lions Club held their weekly meeting at the Methodist Fellowship Hall Wednesday and Lion President Gerald Averitt told members that the annual Lions Club Broom Sale would be held here Wednesday, May 9.

He also told members that at the Mid-Winter Conference the Lions Club had made a pledge of 2,600 eyeglasses—one for each member—and that after the contributions were over, the Lions sent in 12,000 pair.

He also reported that Abilene will celebrate their 45th anniversary of the Lions Club there on April 21. Area Lions and their wives may attend. The special occasion will be held at the Rose Field House at Hardin-Simmons University. Tickets must be purchased in advance. Lions International President from Sweden will be the guest speaker for this meeting.

Program was supplied by the Rochester Elementary Band and Band Director W. J. Buchanan was introduced to the club by Hob Smith.

Mr. Buchanan said Rochester had four bands—Fourth grade learners, elementary (fifth and sixth grades), a stage band and the senior band.

The elementary (fifth and sixth grades) were the ones who performed here Wednesday.

Mr. Buchanan invited Knox City to attend Public School Week in Rochester, and said March 6 was High School Day and that a program would be held at the school that night.

Thursday is open house day and grade school day at Rochester.

O'BRIEN TO PLAY BI-DISTRICT TILT

O'Brien won the district basketball pennant Tuesday night in the second playoff game with Rochester, 52-39.

O'Brien will play Megargel at Seymour Tuesday night, for bi-district.

Winners of this game will go to Canyon for regional play.

"For many years there has been speculation as to the circumstances surrounding the death of Sil Sweney whose grave is located west of Benjamin about six miles on the old Benjamin - Guthrie road. Nearby is a water hole known as Dead Man's tank, so-called by reason of the grave there. Because the grave was placed there before the county was settled and antedates the memories of many of the old timers who helped settle the county, the facts as generally known were vague.

This week in a letter to Frank Moorhouse of Benjamin, Mrs. Harper Young of King County, daughter of A. C. Tackett encloses the story of the tragedy that befell young Sweney on a hunting trip here in 1878.

The story is best told by Chas. Tackett as told by Chas. P. Tackett of Girard, her brother.

"Sil Sweney shot himself accidentally on the morning of January 8, 1878. He and his companion were camped at Grapevine Croton Spring, the same be-

Safety Supervisor Speaks To 1946 Study Club

D. L. Cooper of the Wichita Falls Department of Public Safety, spoke to members of the 1946 Study Club Tuesday at the Woman's Club on Traffic Safety.

The speaker said that in 1961, 2,300 people were killed by traffic vehicles, 130,000 were injured and 155 million dollars of property damage was incurred. He said that the American people had killed more persons with motor vehicles since 1900 than had been killed in all the wars the United States had been involved in since 1776.

This brought the audience face to face with the realization that something must be done about the traffic safety problem. He asked the club members if they wanted to be a part of the problem or a part of the solution.

Mr. Cooper offered three rules for safe driving. They are, he prepared, be careful and be courteous. By being prepared, he said the safe driver would have his vehicle in good condition at all times and would know the rules and laws of driving.

To be careful, Mr. Cooper explained, all one had to do was comply with the rules and laws and drive defensively. He explained the latter by suggesting the driver go on the assumption that "all other drivers are crazy."

The last rule of being courteous is the one most ignored by American drivers. He said it was the American way to be polite so as to be socially acceptable in the community. Unfortunately we do not have this same set of rules for drivers of motor vehicles, he said.

"If we were as courteous to one another in an automobile as we are when we meet people in the super market or at church, we would have far fewer accidents," he added.

"When the American people accept set rules of conduct for driving, our problems will be solved," Mr. Cooper said.

He concluded his talk with the old proverb that "wise men learn by other men's mistakes and fools by their own."

Cake and coffee was served to the guests as they arrived by the hostesses, Mmes. Si Mesecher, Leon Burkham, Curtis Hines and Clyde Voss.

Miniature traffic signs were used in the decorations which also included arrangements of dried flowers in colors of gold and brown.

Mrs. Voss introduced the speaker and Mrs. Hines presented him with a gift following his talk.

In a business meeting following the program, Mrs. Jim Bate-man and Mrs. Marvin Jones were elected to membership in the club.

The next meeting of the group will be the Texas Day program March 2, when the Knox City Study Club will be hosts.

Dr. Eiland Memorial Purchase Made

Mrs. D. C. Eiland, Munday, wishes to announce that a Bennett Machine has been purchased from the funds given in memoriam to Dr. D. C. Eiland and is now ready for use in the Knox County Hospital. The machine was personally selected by Dr. David Eiland, son and successor to his father's medical practice, who welcomes a personal inspection of the machine by any one who is interested. It is placed in the emergency room of the hospital.

Dr. Eiland had expressed a desire for this particular equipment when queried by members of the Wesleyan Service Guild of the Munday Methodist Church as to what they could do toward helping the hospital acquire more advanced equipment for the hospital. Upon the death of the doctor last November, friends and patients, learning of this project by the Guild, donated handsomely to the fund. The Bennett Machine cost \$704.97 and was subscribed by \$671.03. The family is holding this balance in reserve for the purchase of another piece of equipment yet to be decided upon.

The Bennett Machine furnishes moist oxygen under positive and negative pressure, which means it will breathe for the patient. It is a compact replacement for the iron lung and is completely portable. The machine also performs artificial respiration.

Mrs. Eiland wishes the people of this area to know how much the family appreciates the response to the memorial. Attempts were made to personally acknowledge each donation, and if any one was neglected it was an oversight. She wishes to take this opportunity to again thank each donor.

Truscott Burglars Are Apprehended

The sheriff's office has reported that the two men who stole the Truscott post office safe Feb. 6, have been captured in Reno, Nevada.

The two men, Thomas Brill and Eugene O'Conner confessed to entering the post office, taking the 350 pound safe a mile west of Truscott and breaking it open and taking \$226.00 in cash and 176 blank money orders.

The two were apprehended Feb. 13, and most of the money orders were recovered, Deputy Kenneth LaMascus reported.

Cub Scout Banquet Held Monday

The Cub Scout Blue and Gold Banquet was held Monday night at the Methodist Church. Fifty-two cub scouts and their parents attended, and 13 boys received Bob Cat Badges.

They were: Joe Mike Turner, Clint Fletcher, Rogers Lankford, Gary Woodward, Danny Speck, Larry McCown, Sammy Tankersley, Tommy Collins, Don Hawkins, David Speck, J. L. Burleson, Terry Clayton, and Johnny Helms.

Badges were presented by Cub Master Kenneth Lankford and the assistant Cub Master Joe B. Turner.

Den Mothers are Mrs. Joe B. Turner, Mrs. Ray Speck, Mrs. Jay Hawkins, and Mrs. Kenneth Lankford.

District Scout Executive Noel Crenshaw presented part of the program.

Tentative date for next pack meeting is March 26.

FHA Officers For Year Elected

The Knox City FHA chapter elected new officers for the next year as follows:

President, Wynette Tankersley; Vice President, Judy Lynn Smith; Secretary, Karen Graham; Treasurer, Martha Kay Waldrip; Reporter, Kay Reeves; and Historian, Carroll Tankersley.

Andy Hudson was nominated the voting delegate for the state FHA meeting.

Sue Bankston and Carroll Tankersley were selected to sing in the Area IV chorus in Stephenville, March 3.

Samantha Graham will give her interpretation of the FHA creed at the March 3 meeting.

Future Teachers Of America Chapter Is Organized Here; Sue Bankston, Pres.

The Knox City High School organized a Future Teachers of America Chapter February 15. Mrs. Robert R. King and seven members of the Haskell F. T. A. came to help the Knox City Chapter organize.

This organization is for students who are planning to be teachers. Some of the purposes of the F. T. A. are:

1. To interest young men and women in teaching as a career.

2. To provide its members with experiences to develop the qualities and aptitudes basis to successful teaching.

3. To impart an understanding of the development and purposes of our public free schools.

4. To assist in gaining an appreciation of the contributions that the public schools have made to our democratic society.

5. To provide information on vocational opportunities in education and the special competencies required.

6. To aid in self evaluations.

7. To supply participation in pre-vocational activities which are both exploratory and developmental in nature.

Charter members of the F. T. A. are: David Denton, Walter Hooker, Doris Marion, Sue Shelton, Joe Tidwell, Ronald Voss, Sue Bankston, Charlie Bateman, Bobby Burnett, Stanley Compton.

Sheriff Reports 3 Burglaries Solved

James Hugh Leggett of Abilene, signed a statement to the entering and burglary of three Knox County businesses.

Leggett is approximately 30 years of age.

He was picked up in Sweetwater after committing a safe job in Big Spring.

Leggett is charged with the burglary of the Key Motor Co., Munday, on or about the third day of April, 1960. He took approximately \$100. out of the safe.

On approximately April 3, 1961, his statement reads that he entered Hogsett Chevrolet Co., in Munday, but failed to get anything.

On Sept. 16, 1961 (approximately) his statement said he entered Roddy's Cafe in Knox City and took about \$50. from a filing cabinet and also that he filled open a cigarette machine and took approximately \$40 in silver and green backs.

ing about two miles north of Cedar Mountain Spring. The Cedar Mountain Spring is about six miles west of Benjamin. Sill Sweney was getting his rifle from their wagon. In getting the gun, the hammer caught in the bedding and he was killed instantly. Sill Sweney's partner went at once to my father's buffalo camp at Cedar Mountain Spring. (The camp of A. C. Tackett.) My uncle Perry Tackett, uncle Joe Miller and John Davenport went at once to where Sill Sweney was killed. They brought him back to my father's camp. My two uncles and John Davenport made a coffin using two bacon boxes. They buried him about one-half miles southwest of Cedar Spring. Sill Sweney was 22 years old."

"A. C. Tackett, now deceased, was the first sheriff of Baylor County and was elected to the position in 1879 the year Baylor was organized. The Tackett family moved to Knox County March 7, 1881 and settled on Cedar Mountain. On the 15th day of September of the same year the family moved about three miles west of this location to the old smelter. Speaking of the old times, Chas P. Tackett says, 'Times were good, plenty of money, lots of wild game.'

"After moving to Knox County, A. C. Tackett was elected the first county surveyor. On the removal to King County later, he was elected county judge. He was an interesting character in the history of Knox County and his experiences as an Indian fighter, buffalo hunter, pioneer settler and early day politician furnish many stories which old timers like to recount.

It was March 15, 1881 the W. W. Weatherly family moved to Cedar Mountain Spring west of Benjamin from Seymour. On the organization of the county in 1886 Mr. Weatherly was elected the first tax assessor, Chas. Tackett tells."

Sharon Harrison And Bobby Long Are Wed

GREATEST PLYMOUTH EVER BUILT

ENGINEER SELECTS PLYMOUTH TO SET 11 PERFORMANCE RECORDS!

RIVERSIDE, CALIF.—Andy Granatelli, famed driver, sportsman, and independent automotive engineer, selected a 1962 Plymouth Fury for his record-setting tests of stock-bodied passenger cars here and at Las Vegas. From standing starts, Granatelli and his Plymouth set 11 records at distances ranging from ¼ mile up to 1½ miles, proving the car's exceptional acceleration for safety. The Plymouth's engine was the optional Golden Commando, specially fitted with superchargers.

What size Chevrolet do you want to save money on?

CHEVROLET IMPALA Room, refinement and riding comfort. Foreground, the Impala Sport Sedan.

CORVAIRE MONZA Sports Car spice without a sports car price. At rear is the Monza Club Coupe.

CHEVY II NOVA The frisky family-sized Chevrolet with a low, low price tag. Above right, Nova Sport Coupe.

Like your driving sporty, with quicksilver steering, flat-as-a-pancake cornering, sure-footed traction? Then a Corvaire Monza's for you.

Or maybe the new-size Chevy II is more to your liking. Built for big families and still slips neatly into small parking places. And, with this, the kind of ingenious engineering (new easy-riding Mono-Plate rear springs, for example) that

won this year's coveted Car Life Magazine Award for Engineering Excellence.

But say you want to go all out—to get the full treatment in space, spirit and splendor. Then there's nothing like a Jet-smooth Chevrolet. Makes paying more pointless.

So size 'em up—then save it up—at your Chevrolet dealer's.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Texas newsmen quizzed seven candidates for governor at a session of Sigma Delta Chi, professional journalism society, and fanned early-season campaign spars.

Gov. Price Daniel took the center position, weathering attacks from nearly all the other candidates, both democratic and republican. All candidates took part except John Connelly and Edwin Walker.

A little fire even developed between the three republican candidates. Harry Diehl of Houston said Jack Cox of Breckenridge was "not a republican — just a conservative candidate."

But two days later, Diehl withdrew from the race, leaving Roy Whittenburg as the only republican primary opponent for Cox.

Don Yarborough and Marshall Formby attacked the Daniel ad-

ministration as "tired" and "lacking vigor." Daniel came back with a recital of his five-year accomplishments in education, industrialization and other fields.

Will Wilson's approach was that Daniel's entry collapsed the Connally bandwagon by splitting Vice Pres. Lyndon Johnson's organization, and that the only way to get an uncontrolled candidate was to elect Wilson.

Candidates got in more punches in answering tough questions posed by nine newsmen. All of Daniel's opponents made the Governor's unprecedented four-term limit, but with four-year terms for governor instead of the present two.

FRIENDLESS INSECT—A big-hatted crowd of ranchers gathered at an Austin hotel to get more facts on the stockman's dream—the elimination of the screw-

worm.

There was no one there to defend the insect.

Ranchers learned from Floridians how that state was swept free of this costly scourge by a dramatic program. Florida ranchers covered the state with sterile male screwworm flies thus wasting the female flies' single mating period. First airplane distribution of flies in South Texas started the day of the Austin meeting.

Texas stockmen are raising \$3,000,000 by voluntary contributions to match an equal amount of Federal money put up by the U. S. Department of Agriculture. The screwworms cost Southwest ranchers an estimated \$40,000,000 a year in losses.

LIVESTOCK RAISERS GET HELPERS—A committee of five legislators held its first meeting after hearing plans of the Southwest Animal Health Research Foundation.

Speaker James A. Turman appointed Representatives Ray Bartram of New Braunfels, Steve Burgess of Nacogdoches, Stanley Boyesen of Yoakum, Glenn Kottmann of San Antonio and Gus Mutschler of Brenham to assist the SWAHRF in planning its attack on the screwworm fly.

HORSE OF ANOTHER COLOR—Stamford oilman Keith Wheatley seemed to get off the track in his campaign for Railroad Commissioner when he told Austin pressman that Texas should be able to cast a vote on the return of horse racing to the state.

Wheatley said he is neither for nor against racing, but believes "tax profits from horse racing could do much to aid the old people and the children of Texas."

Gubernatorial candidates are interested in regulating another kind of race. They think limitations should be set on the number of times a governor can run for re-election.

Marshall Formby based his objections to the present lack of limits on the fact that most state projects are operated by commissions whose members are appointed by the governor on a rotating basis. Formby figures that by the end of a second term, a two-time governor has made every state commission appointment and it's time for him to take a rest.

John Connally seconded the charge of commission domination, and said that by the end of a third term, every one of the more than 800 commissioners have been appointed by a three-time governor. He promised that he would ask the Legislature to limit a governor's tenure to two terms if elected.

MIGRANT STUDY SET UP—State Board of Education appointed R. P. Ward of Edinburg to head a study on the education of children of migrant parents, after Commissioner J. W. Edgar called this "one of the critical problems facing the Texas public school system."

Ward, former president of Pan American College, will develop a guide for teaching these children, who form a large percentage of the enrollment in Rio Grande Valley schools.

TEACHERS' TIME TABULATED—State Board of Examiners for Teacher Education and the Texas Education Agency sent out about 80,000 questionnaires, asking how Texas educators spend their time on curricular, co-curricular and extracurricular activities.

So far, more than 20,000 answers are in. Agency researchers are anxious for the other replies. They want to feed them to computing machines. Purpose is to

get an analysis to help the Texas Legislative Council prepare a full report on teacher certification and the status of education in Texas.

Other facets of a report to be presented to the 58th Legislature in January will include the public view of education; a history of teacher education and certification in Texas; personal characteristics and social and economic data of teachers; a look at the current class of education majors and an analysis of their college course work.

When the "portrait of a Texas teacher" is completed, educators think it will represent the most comprehensive study of public education ever undertaken in this state.

A teachers' pay survey revealed that the West Texas towns of Crane and Kermit pay the highest salaries to new teachers—\$4,900 a year, and that practically all districts with 2,500 or more students pay more than the \$4,014 legal minimum.

GOP PRIMARIES UNDER FIRE—State democratic committee-man Walter Sterling opened another argument in the inter-party battle when he accused republicans of dodging their responsibility by not holding a primary in every precinct in the state.

Sterling and the State Democratic Executive Committee question the legality of a republican primary nominee who has not been voted on by every republican. Executive Director Clyde Johnson said, "The republicans should not be able to avoid legal and financial responsibility in these primary elections."

Republicans counter-charged that democrats failed to hold primaries in 24 counties during the 1960 special election. But Johnson promised the party will "follow the law as usual" and hold primaries in all 254 counties this May.

UNIVERSITY HOUSING Battle—Attorney General Will Wilson has more windmills to tilt at than Don Quixote.

In his "spare time," he's fighting five opponents in the governor's race.

On a current job basis, he's engaged in a battle with the University of Texas' Board of Regents and the three outside attorneys UT hired to defend the school in a housing suit brought by several Negro students.

UT's private attorneys pointed to another regents' case where they noted "with much interest that a distinguished array of counsel headed by former Gov. Dan Moody represented the Board of Regents."

Wilson produced evidence that Governor Moody was the Attorney General of Texas at the time of the suit referred to, and "the distinguished array of counsel" were his assistant attorneys general.

Wilson, as attorney general, also is defending the University and mightily opposing the intrusion of outside help. He filed a brief, citing Supreme Court ruling and legislative authority to prove his contention that only the attorney general can represent the state in appellate courts.

TEXAS CRIME ON UPSWING—Col. Homer Garrison Jr., Director of the Department of Public Safety, stated that major crime in Texas increased 2.2 per cent in 1961 over 1960, with an estimated 203,285 offenses for the year.

Murder and homicide cases increased from 1,080 to 1,088; theft from 108,869 to 117,619; rape from 1,196 to 1,264; and aggravated assault from 12,128 to 12,166.

Garrison said this means that in Texas during 1961, "there was

IT'S THE LAW IN TEXAS

NO WILL? WHO INHERITS PROPERTY?

What will happen if you should die without executing a legal and proper will? Who will inherit your property? Your husband, wife, mother, father, children, your wife's relatives? The best way you can say who will have it is to provide a will which will protect your rightful beneficiaries and dispose of your property in accordance with your wishes.

When a deceased has no will, or dies "intestate" as the law calls it, the property of that person is distributed according to a detailed formula fixed by law. In some cases this may be the way you yourself would divide it—but in many cases it is not.

The provisions of the law concerning the distribution of the property of a person who dies without a will are rather complicated, and all of the possibilities cannot be covered by a general statement.

There are different rules for real estate and for personal property, for community property and for separate property, for home-estate property, and for all of the many possible combinations of surviving relatives. Each situation must be carefully studied to determine the correct distribution of the property.

For example, here is a general idea of how the community property which you and your spouse have accumulated will be divided if you do not make a will prior to your death.

If your husband or wife survives and there are no children, the surviving spouse receives all of the property.

If, in addition, there are surviving children or descendants of deceased children, they would divide one-half of the property, while the surviving spouse would receive the other one-half.

Of course, grandchildren do not share in the estate unless their parent who would inherit is deceased. And when descendants of previously deceased children do inherit, they receive only the portion that the child

a murder every eight hours, a rape every seven hours, an aggravated assault every 43 minutes, a robbery every 10 minutes a theft every four and one-half minutes."

He said it also indicates a 60 per cent increase in major crime in the state since 1955.

would have received, regardless of the number of such descendants.

An add note, perhaps, is that the surviving spouse already owns one-half of the community estate prior to your death, and the law adds nothing to this share where there are children surviving.

When there are only children and their descendants surviving,

they divide the entire community estate between them.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

With the coming of Easter Season the Christian world is turning its thoughts toward spiritual matters. In this special time of meditation on the death and resurrection of our Saviour, let us remember that the Lord's love is so great that He willingly suffered and gave his life to save us. This Salvation includes every thing for the believer.

Most all people have to walk through the shadow of sickness, hatred, depression, tears and heartache. But in trusting Him completely we find that He takes the sting out of the hurts, and gives eternal joy and life. This great joy and power is yours when you cry out to Him with Phamest, "I surrender all to my Blessed Saviour — I surrender all." For Jesus said, "I am come that you might have life, and that you might have it more abundantly."

"AMONG OTHER THINGS..."

By BOB BURNETT, JR.

Forty years ago, Russian communism was in its infancy. Today, it is an ever growing giant which controls more than half the world's people behind the so-called iron curtain. This evil menace, the brain-child of Karl Marx and Frederick Engels is a threat to our culture, our society, and our very lives. Its leaders have openly boasted that our grandchildren will live under communism. With the speed in which communism is growing, and knowing their intentions, we can not take the Reds too seriously.

Today, communism is 90 miles from Miami, Florida; tomorrow it may be in Washington, D.C. William Z. Horter, long-time head of the communist movement in the United States, gave this conception of a communist America:

"Under the dictatorship, all the capitalistic parties—Republican, Democratic, Progressive, Social-

Likewise will be dissolved all other political props under the bourgeois rule, including chambers of commerce, employer's associations, rotary clubs, American Legion, Odd Fellows, Elks, Knights of Columbus, etc."

Thus according to the above statement many of us are eligible for liquidation several times if and when the Reds take over.

Therefore it is imperative that we educate our people to the dangers of communism. Each and every one of us should have at least a basic idea of what it is and how we may best combat it. There should be in every public school in the United States a compulsory course teaching the meaning and danger of communism as well as our system of government.

J. Edgar Hoover's great book, "Masters of Deceit," should be on the required reading lists of all our schools. In this book, the director of the F.B.I. tells how communism started, how it operates and what the average American can do to fight it.

To fight something you must first know what it is.

Our youngest children should be among the first to learn the dangers of communism for these are the ones that many of the communist leaders try to secretly indoctrinate. Perhaps another good thing would be to have older young people and adults organize groups which would make a study of communism to learn how they could best fight it in their own town or city.

By groups, I certainly do not mean organizations of the far right such as the John Birch society or the Minutemen. These organizations are almost as detrimental to our society as the communists themselves. As a matter of fact, Robert Welch, the leader of the John Birchers sounds on occasion like a typical communist.

How can an essay contest, entitled "Why We Should Impeach Earl Warren," stop Nikita Khrushchev? How can calling our greatest leaders "card-carrying communists" be an effective deterrent to the spread of Marxism? Those of us who really love America and who are interested in her maintaining her position of the greatest nation on earth will reject an organization which refuses to make public who its members are, how many it has, and for what it spends that money for.

If you would like to learn more about communism and how you can protect yourself against it, I suggest you read "Masters of Deceit." Many of us will probably have to personally reckon with communism in our own lifetime. We should certainly be prepared.

A votre sante.

PHILCO COLOR TV IS HERE
AN OPEN LETTER ON COLOR TV—

Color T.V. has been around for a good many years—but up to now we have refused to sell it at City Hardware.

This letter is in answer to many of you who have asked "Why?"

In 1946 when we opened for business—we announced we would specialize in Quality, Performance, and Service in our products. Over ten years ago we demonstrated the first T.V. set in Knox City, but refused to sell them until 1952 due to lack of stations, antenna height, and we did not feel that early sets met the standards of quality that we had promised our customers.

When we did enter into T.V. sales, our customers showed their appreciation of our policy of high standards by making us today the only fully equipped service T.V. dealer in Knox City.

When the first Color T.V. sets came on the market, they failed to meet requirements we set for our products, however, we did attend color schools and keep up with progress because we knew that color in the future would meet our standards.

Now we feel that Philco Color has reached that point with a 50 per cent brighter picture tube with a sharper color and crisp black and white (previous color sets did not do this). We believe that color T.V. has matured from an expensive curiosity piece to a fine instrument, worthy of a place in any home.

These are not inexpensive sets. They are highly engineered instruments, designed for the person who wants and can afford the Best—PHILCO!

Uncle Ben from Benjamin says:

DEAR MISTER EDITOR:

I see where one of them column writers says the 16th Amendment that give the Federal Government the right to levy income taxes come to only 31 words. That was in 1913, and in 48 years the laws covering the collection of them taxes now runs to 440,000 words. He claims a good tax lawyer can take them

440,000 words and do a marvelous job for his client.

The great trouble, Mister Editor, is that us pore folks can't afford to hire a tax lawyer. I see, for instance, where the lawyers for a Hollywood movie star is trying to git a \$32,000 refund on his income taxes on account of what he spent taking glamour gals to night clubs. His lawyers is claiming it's part of his business to make these social contacts. And the chances are that he'll git the refund.

I don't care how much refund he gets, but it just goes to show you how complicated them 31 words has got in 48 year. I reckon that fellor got a few hand-squeezes and some Sears & Roebuck kisses from them glamour gals, but if he gets \$32,000 out of the deal, he's doing pritty good. Back in my day, afore we got them 440,000 words, if you took a gal to the county fair, and bought her a red lemonade, the only reward you got was to take her home, set under the shade of a tree and squeeze the lemonade out of her—the gal, not the tree. I doubt if the national debt was more'n \$32,000 at that time.

It seems to me that we got a

nation-wide conspiracy going on in this country to crush the pore man with high-faluting words and complicated red tape. Take, for instance, the liability insurance policy I carry on that old beat up car of mine. I never drive more'n 25 mile a hour on account of knowing what kind of forms I'll have to fill out if I have an accident.

Well, Zeke Grubb's preacher come by the store for a few minutes again Saturday night. Said he couldn't stay long on account of being on his way to perform a wedding ceremony. But he stayed long enough to give the fellers a few tips on matrimony.

He allowed as how wedding rings was now getting so small it took a magnifying glass to see 'em. He claims a preacher has to wear his bifocals at the ceremony to tell

when the ring is put on. They ain't meant to last more'n a few years, he says, on account of folks changing wives and husbands so often. Back in the old days they made 'em thick and heavy because they was meant to last a lifetime. What we need

today, he claims, is a old style wedding ring, a heavy one that keeps the wimmen folks steady and weighted down in the home. He talks mighty brave, Mister Editor, fer a fellor that's got a small house and a big wife.

Yours truly,
Uncle Ben

WHAT? BUILD A PICKUP TRUCK SPECIALLY FOR TEXAS?

YES SIR—THE '62 FORD!

IT STARTED IN TEXAS—when Ford engineers came here to track down exactly what Texans need in a pickup. They drove Texas roads . . . talked to Texas truck owners . . . and produced a truck that fits Texas to a "T." Drive the '62 Ford pickup and you'll agree!

The wheelbase is long—114 easy-riding inches (122 for 8-foot bodies). There's little chance of bumper-scrape on inclines because of the short front overhang—and more ride stability. The ride is smooth. To the long wheelbase, add easy springing—and the ride's as soft as a Texas draw!

The frame is strong. It's built to stand the twisting of high-crowned Texas roads.

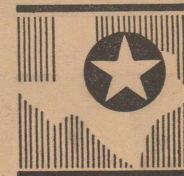

The savings are BIG—and they start right today! You save now on Ford's pickup prices—the lowest of any leading make.* And you save from now on! Save on gas with Ford's modern engines, Six and V-8. Save on oil—go 4,000 miles between oil changes, thanks to Ford's Full-Flow oil filter. Save on tires because Ford's I-beam suspension keeps front tires tracking true. In certified tests against pickups using independent front suspension, Ford front tires lasted up to 83% longer!

Stop in and drive a '62 Ford pickup today. It's built for Texas, built in Texas. Let us show you why Ford's full-time economy only starts with low price!

*Based on comparison of latest available manufacturers' suggested retail prices
