JUST TALK

By JAMES HILL

SELF-SATISFIED — When we do something that seems practically impossible from most people's views, we feel self-important and self-satisfied. Well, we have felt that way for the past week, even if we don't or won't tomorrow!

What all this means is that we have quit smoking again. The last time we quit was in 1953 to 1955, and why we ever started again is still surprising.

Although it has been a week since we've driven another nail in the coffin, as well as we can remember, it's the first two years that's the hardest!

With another flare-up with ulcers, the nurses at the Knox County Hospital asked us if it was one of our editorials that had given us the stomach ache! Without a doubt, it was...

Knox County Medical Association will have their county-wide drive to immunize each and every person in Knox County for polio. This will be on Sunday, Sept. 16, and will be held at both elementary school buildings in Munday and Knox City.

The Sabin Oral Polio Vaccine has been administered to over 300 million persons without one single bad reaction.

Doctors and health department personnel in the state are anxious to get each and every person in the state immunized.

A fact not too well known is that of all polio cases in the United States, Texas has over half of them!

Incredible—but a fact.

The doctors and druggists of the county are asking the support of all civic clubs and the cooperation of all its citizens. Both county newspapers will also make every endeavor to inform the public of the necessity of taking the immunization serum.

DID YOU KNOW that Saturday, September 1st is the first day of dove season? Well it is.

12 Noon each day will be the time to start hunting the elusive little rascals and time to quit is at sunset—not sundown!

And, of course, you can hunt each and every day during the season.

Oil up old Betsy and get set for the revolution.

YOUTH CENTER — Two disgruntled high school girls were in the office Monday complaining that there are forces under way now to close the Youth Center. They also expressed a sincere desire to have the place left open and alone and announced that there will be a back to school dance Friday at 8 p.m. at the Center.

Late Tuesday night some of the other youngsters came in to express an opinion and one of them had a "Letter to the Editor."

"Jimmy please write something to explain our interests," we were asked. This came before they asked what our particular views on the issue might be.

A most handsome way to compliment a 40-year-old!

We are for the kids! In Knox City there is very little to do and whatever there is to do, kids are going to do it—despite what you or I want to do about it.

The Youth Center could be closed, granted, but where would the ones who want to dance, go? At the gin yard? or some country lane? Sure, if they can't dance at home or at the youth center.

Our youngsters haven't been encouraged to dance, date, or anything else, but there is no doubt in our minds that the day will come when they want to do all the things you and I did years ago. If you are against kids dancing, then don't let yours dance.

We feel it far better to have the kids cut a rug at your home, mine, or a good chaperoned meeting place, than some clandestine affair on a lonely road.

Heck, they may even get snake bit!

NEW BUSINESS — The attractive and modern new building above is the new home of Webb's Department Store—a new business for Knox City. Grand Opening of the new business is scheduled for 9 a.m. Friday, and Johnny Webb said he and his personnel are looking forward to meeting and serving the people of this area.

Knox City Scrimmages Paducah Here Tonight; Player Statistics Compiled

Knox City football fans will have their first opportunity to watch the Greyhounds in competition at 6 p.m. today (Thursday) when the KC team meets the Paducah Dragons in a pre-season scrimmage game on the Greyhound field.

The team started work out August 20 under the direction of Coaches Ted Darland, Curtis Hines, and Jim Bateman. Jim Anderson has also assisted the coaches.

The team has worked out twice daily since then, holding several intersquad scrimmages.

Thirty-two boys are suited out, the coaches report. They are:

Amos Barton Of O'Donnell Dies

Amos Barton, 37, of O'Donnell, died suddenly at his home Monday. Funeral services were held at 3 p.m. Tuesday at O'Donnell and burial was in Tahoka.

Bond Election Boxes

Voting places for the bond election to be held Sept. 8, will be in Knox City at the following places: Box 9A at the City Hall with Otis Harbert, election judge and Box 9 at the American Legion Hall with Fuller Shannon as election judge.

FORMER RESIDENT DIES
Hugh Dutton of Amherst, former Knox City resident, died Monday morning in Amherst following major surgery. Burial arrangements had not been made at press time.

HERE FOR WEEKEND
Mrs. Sarah Lees of Haskell spent the week end with Lou Denton.

Mrs. Paul Siecke, Former Resident, Speaks To Lions

Program at Lions Club Wednesday was supplied by Joe Reeder. He introduced his sister, Mrs. Margaret Siecke of Denmark who is here for a short vacation after returning her nephew, Joe Reeder III home from a two month's vacation in Denmark.

Mrs. Siecke's husband, Paul, is associated with Gulf Oil Corp., and is head of the new construction work being done by the company in Europe for the past two years.

Mrs. Siecke told the audience of her experiences in Denmark for the past year, and gave a comprehensive report on Danes and their way of life.

One of the most unique aspects of the country she said was the fact that it was small—about the size of Vermont and New Hampshire with a population of four and one-half million people. One fourth of the population live in Copenhagen, she said.

Denmark is one of the oldest kingdoms in the world and its government is a constitutional monarchy, with restricted powers. The king and queen, she said, are supposedly very democratic. Their governing body is parliament and is elected by popular vote. In Denmark a person must be 23 years of age to vote.

In describing the country, Mrs. Siecke said it was very picturesque, and everything was so peaceful and serene that it gave a person a good feeling. "Also, everything is very neat," she said.

Housing shortages are prevalent in Denmark, just as it is in most of this country she said, and she and her husband were extremely fortunate in renting a house to themselves. Most of the people live in apartments. Their home is very colorful, having been built approximately 130 years ago. Their landlord's castle is over 400 years old, she said and consists of over 70 rooms.

Agriculture is one of the chief assets of the country and farms average around 60 acres per family, with a 125-acre farm being very large. Most of the farmers seem well to do and all use all known conservation practices, she said, in order to get all they can from their soil.

Average temperature is 70 degrees with a low of 32 in the winter. To mar an otherwise peaceful climate, there are high winds—but being used to them after living in Texas, they didn't bother us too much," she laughed.

Major agricultural crops are wheat, beets, potatoes, oats, barley, rye and mustard. Denmark is also noted for the best bacon, ham, butter, eggs and cheese in the world.

"Beef is about average, but pork is the best in the world," she said. Chief manufacturing commodities are electrical equipment and bicycles. Over half the population moves on bicycles, Mrs. Siecke said. One reason for the

(Continued On Back Page)

Doctors Urge Everyone To Be Immunized Here

A community-wide effort to wipe out polio in Knox County will be launched by the local Medical Association on Sunday, Sept. 16 it was announced last week by Dr. T. P. Frizzell.

Dr. Frizzell urged all citizens between the ages of six weeks and 100 years to turn out at immunization stations on Sept. 16 to receive their first dose of the new Sabin oral polio vaccine.

"While there has been a dramatic decline in the number of cases of paralytic polio," Dr. Frizzell said, "the disease is not yet defeated.

In the United States, there were more than 1500 cases of polio in 1961. More than 800 of these suffered either death or some sort of paralysis from the disease.

"The Sabin vaccine may be the final answer to the fight against this dreaded disease. The vaccine is easy to administer—no injection; it provides rapid action—in about one week, and it helps break the chain of transmission by stimulating intestinal resistance to future infection.

"Recent licensing of the Type III vaccine," he added, "means that the possibility of wiping out polio as a threat to our children or to their parents is closer than ever before. We have the tools. Now it's up to the community to use them."

Polio is caused by any one of the three types of virus. The government last year licensed an oral vaccine against Types I and II and recently granted a license for distribution of oral vaccine against Type III. All three of the oral vaccines were developed by Dr. Albert B. Sabin of the University of Cincinnati School of Medicine.

Dr. Frizzell said that the local Medical Society has purchased 10,000 doses of each of the three types of Sabin vaccine from Pfizer Laboratories, division of Chas. Pfizer & Co. Inc. He added that the vaccine will be distributed free of charge, but a contribution of at least 25 cents per person will be solicited.

If there is any money remaining after paying the actual cost of the vaccine, it will be donated to the Knox County Hospital to purchase needed equipment.

The vaccine will be administered at two immunization centers in the county—at the elementary school buildings in Knox City and Munday.

The vaccine can be administered to infants by dropper, spoon or paper cup. Older children and adults can drink a mixture of vaccine and distilled water or

Rev. Fortenberry Dies In Corpus Christi Hospital

Funeral services for the Reverend Richard Hayden Fortenberry, who died August 12, in Parkview hospital in Corpus Christi, were held at 2 p.m. August 14, at the South Bluff Methodist Church.

Rev. Fortenberry was born and raised in Knox County and was active in the Methodist Church here for years.

He had been pastor of the Corpus Christi Riviera Methodist Church and the church at Skidmore and Berclair. He moved to Talpa in December to become pastor of the Methodist Church there.

Survivors are his wife; two daughters, Mrs. Jack Ray of Hurst, Mrs. John F. Pinsor of Corpus Christi; one son, Richard H. Jr., of Austin; one sister, Mrs. Willie Weaver of Munday, and seven grandchildren.

O'BRIEN IMMUNIZATION TO BE HELD AT SCHOOL SEPT 16

The O'Brien School district will hold the Polio immunization drive at the High School auditorium Sunday, Sept. 16, from 2 to 5 p.m.

eat a cube of sugar on which the vaccine has been dropped. The vaccines have been distributed in other countries to more than 100,000,000 persons.

Grimsley Services Held In Haskell

Funeral services for W. S. Grimsley 67, who died last Friday in Lubbock were held in the Haskell Baptist Church with Rev. Temple Lewis of Lockney, former Weinert pastor, officiating. Burial was in Weinert Cemetery.

Grimsley had lived in Weinert for 25 years before moving to Abernathy in 1954.

Survivors are his wife, five sons; W. H. and Robert of Lubbock, Larry and Gerald of Abernathy and James of Knox City; one daughter, Mrs. Clois Thomas of Haskell; his mother, Mrs. Alice Stephenson of Fort Worth, a half sister, Mrs. Rosa Calaway of Fort Worth, a half brother, James Stephenson of Fort Worth and 15 grandchildren.

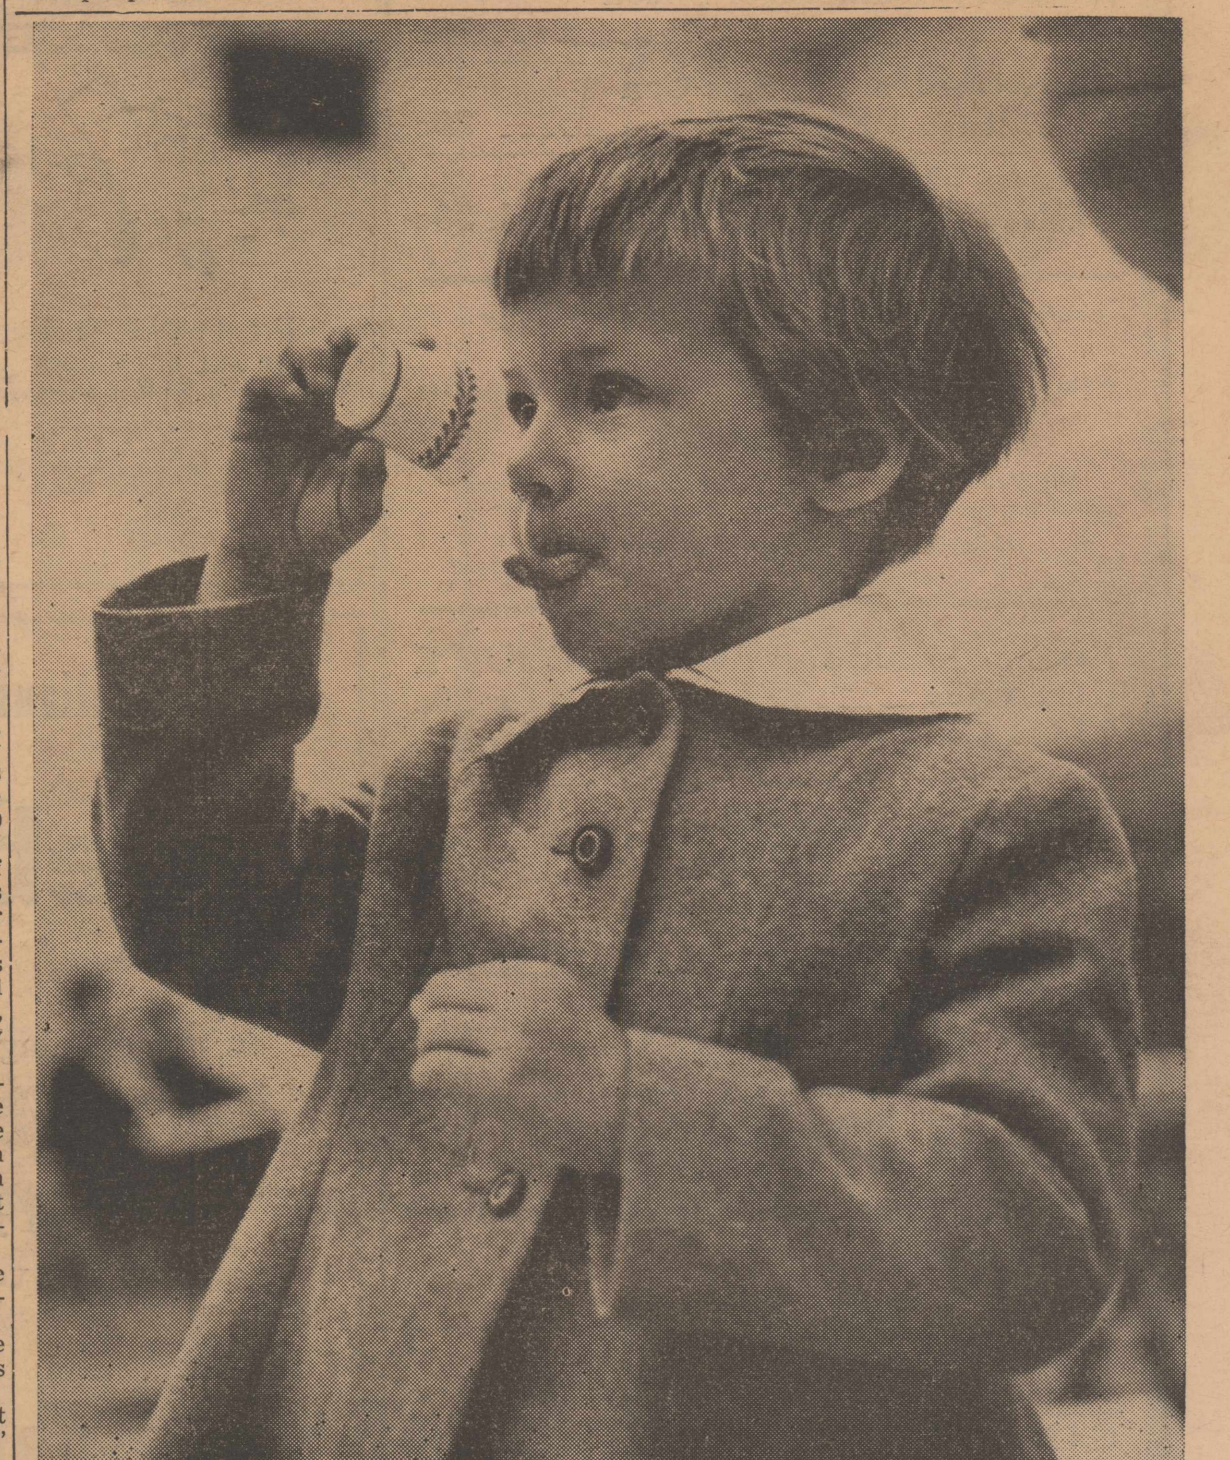

Studio-Bookstore To Open Here

Mr. and Mrs. Philip Colehour have just completed a trip to the Pacific Northwest, including the World's Fair, the Canadian Rockies, and other points of interest.

They plan to open a studio and book shop in their home here. The studio, under direction of Mr. Colehour, will be devoted to the performing arts; ballet, speech, theater work.

He will take a limited number of Latin and French pupils if time permits and a schedule can be worked out.

IN DALLAS
Mr. and Mrs. Charles Reese, Susan, Mary and Debbie spent Sunday in Dallas.

EASY SHOT! — This little girl licks her lips to no avail—the Sabin oral polio vaccine that she just swallowed is odorless and tasteless, but it may protect her against polio for years to come. The vaccine is administered infants via a dropper, to young children in a spoon or paper cup, and to older children and adults absorbed in a sugar cube. Knox County Medical Association is sponsoring the oral polio vaccine immunization drive here on Sunday, Sept. 16.

Mrs. Siecke

(Continued From Front Page)

Each of automobiles is the fact that tax on cars are equal to the cost of the car. "If you paid \$1,000 for a car, the tax would be \$1,000," she explained.

Fishing is also a major industry, she pointed out.

"As for education, I'm sure you will all be interested to know that there is no illiteracy in all of Denmark, and there are no slums," she said.

Mrs. Siecke pointed out that not all Danes were college trained, but that all children between 7 and 14 had to go to school, and that everyone, with the barest possible education, could read and write.

As for religion, the country is almost entirely Lutheran.

In summation, Mrs. Siecke said she had rather live in America than anywhere else in the world, but that since they were living in Europe, she was extremely happy that the country was Denmark.

ATTENDS REUNION

Mr. and Mrs. John Smith attended a Roach family reunion in the home of her sister, Mrs. Dicie Gainer in Lampasas last week end.

All of the Roach children attended. They were: Lewis Roach of Waco, E. T. Roach of Levelland, Mrs. H. D. Hill of Abilene, Mrs. John Smith of Knox City and Mrs. Dicie Gainer of Lampasas.

stone around entire perimeter of building.

Cut out all stone joints to a minimum depth of one-half inch and tuck-point using integral waterproofing in mortar colored to match stone.

Cut out existing caulking compound around entire perimeter of all exterior window, aluminum spandrels and doors and recaulk with "Thiokol."

Around entire perimeter of building clean out joint between sidewalk and building and pour thin grout and top with two inches of "Paraplastic."

Apply two coats of Silicone waterproofing over all exterior masonry.

Install new 20 year bond tar and gravel roof as follows: Spud off existing gravel, cut out any existing blisters, and replace any damaged insulation over metal deck, mop four plies of tarred felt, pour topping and apply gravel, all per manufacturer's specifications and bonding company's requirements.

Remove all plaster from interior face of north and east exterior walls of entire building and remove all other loose and damaged plaster in remainder of building. Install metal expansion joint at each corner plater to match existing using Portland cement scratch coats at all exterior walls.

Patch all other cracks in plaster in remainder of building to match existing.

Replace all weatherstripping and install new weatherstripping at all exterior doors.

Repaint entire building interior and exterior.

This, plus a few miscellaneous odds and ends is the work set out by the architects for the refurbishing of the courthouse, and which they deem essential.

Mechanical and electrical deficiencies such as replacing all steam traps at cast iron radiators and installing new burners in heating boiler, etc., will cost ap-

\$42,940 Is Paid Monthly To Social Security Claimants In Knox County

Old-age, survivors, and disability insurance benefits are becoming increasingly important as a community resource according to Erton F. Tate, District Manager of the Wichita Falls office of the Social Security Administration.

\$42,940 is paid monthly in social security benefits in Knox County, to 802 persons. This is an increase of about 24 per cent over last year's figures. While the benefits are intended primarily for the beneficiaries' economic security, they help business in the community generally. Most of the money is spent immediately for food, clothing, and other necessities.

At the present time, social security benefits are being paid at a rate of over one billion dollars a month. "There are several reasons for the increase," said Tate. "There are more aged people; benefits are now payable at age

62; and less social security credit is needed to meet the eligibility requirements for benefits."

The average old-age benefit nationally for December, 1961, was \$74.04, for a retired worker. In the State of Texas, the average benefit was \$68.23.

The table below shows the number and amount of each type of benefit being paid in Knox County as of 1-1-62, the date of the latest available tabulation:

Beneficiary Group, Number of Beneficiaries, Total of Payments:	
Retired Worker	426 \$27,600
Disabled Worker	18 1,318
Wife or Husband	180 5,853
Widow or Widower	69 3,711
Mother & Children	109 4,458

Attend Keny Funeral

Those from out of town attending the S. P. Keny services last week were: Mr. and Mrs. L. L. Davis and Mr. and Mrs. Lloyd Leslie Davis of Ruidoso, N. M., C. Bohanan, John Ed Smith of Lubbock, Mr. and Mrs. Lenord C. Waggoner of Dallas;

Mr. and Mrs. Paul Orsborn, Mrs. Mary Click, Mrs. Bessie Reidenbough, Miss Johnnie Warren, and Mrs. Johnnie Cox of Merkel, Mr. and Mrs. Dan Smith, Mr. and Mrs. J. A. Hudspeth, Mrs. Ira Grinstead and Luther Hester of Rochester, Mr. and Mrs. Chester Bowden, Mrs. Bess Smith, Mr. and Mrs. Bud Nelson of Munday, Mrs. Nig London and Mrs. Harrell Keeter of Throckmorton, Mrs. Guy London and Sharon of Elbert, and Marilyn Mercer of Wichita Falls.

IN DALLAS

Mrs. C. J. Reese spent several days at Medical Arts Hospital in Dallas for a medical checkup.

KC Ladies Visit New Kent County Home

Mmes. J. C. McGee, Joe Roy Smith, C. C. Hoge and Bobby Simpson of Levelland were in Jayton last week making a tour of the new Kent County Home for the Aged.

The home has been open for three weeks and contains 22 bedrooms, lobby, kitchen, dining and game room, administrator's office, nurse's office, rest rooms and baths.

The laundry room is separate from the main building.

The appointments are stainless steel and it is fireproof one story brick and concrete block construction.

proximately \$8,000.00.

Total expense of remodeling of courthouse will be approximately \$54,000.00.

LETTER TO THE EDITOR:

Dear Sir:

It has come to my attention that certain parties within the community have been circulating a petition to abolish dancing at the local youth center. I believe that if they were successful in this venture, it would be very detrimental to the community and the citizens within.

I believe the parties circulating the petition have failed to examine the situation thoroughly and have acted on impulse rather than reason.

Every time I have attended the youth center, it was competently chaperoned by adults. Furthermore, I fail to see how anyone can find a sound Theological basis for an opinion such as this.

Finally, I am certain that the parents of Knox City's young people would much rather have their children dancing at the Youth Center and having good, clean, fun, than perhaps carousing around the streets and highways or parked on some country lane.

Respectfully submitted,
BOB BURNETT, JR.

HERE FROM BRONTE

Brenda Johns of Bronte spent several days with Mary Ann Reese last week.

HERE FROM LUBBOCK

Jane Smith of Lubbock spent last week end with her parents, Mr. and Mrs. John Smith.

JEANNE LINDA COLSON AND LARRY WHITE WED IN BAPTIST CHURCH

Jeanne Linda Colson, daughter of Mr. and Mrs. W. C. Colson, and Larry White, son of Mr. and Mrs. Truman White, exchanged wedding vows Saturday at 8:00 p.m. in the Knox City Baptist Church.

The Reverend Murrell Johns of Bronte, former pastor, officiated at the double ring rites.

Wedding music was presented by Samantha Graham.

The bride, given in marriage by her father, wore a gown of hand clipped chantilly lace over tulle and taffeta. The moulded bodice was fashioned with long sleeves, and featured a sobrina neckline, accented with iridescent and seed pearls. Lace panels and rows of tulle ruffles enhanced the bouffant skirt. Her fingertip veil of silk illusion was attached to a pearl studded crown.

She carried a white bible topped with a white orchid surrounded with feathered carnations.

She wore a single strand of pearls, a gift of the bridegroom.

Bridal attendants were Jane Smith, maid of honor and bridesmaids were Donna Gayle Fitzgerald, Judy Smith, Lou Denton, and Virginia White, sister of the bridegroom. They wore emerald

RETURNS HOME

Doris Donaldson has returned home from a vacation to San Antonio, San Marcos, Corpus Christi and visiting Six Flags over Texas. She also visited relatives at Cisco and Abilene.

School Board Approves Budget; Faculty And Other Information Listed --

At the budget hearing on Tuesday, August 21, the board set the budget at \$220,508 for the school year 1962-1963. Current operation expenditures are \$185,387 with the largest item being for instruction with a total of \$137,579. Other budget expenses are as follows:

Administration \$18,271, Health Services \$2,925, Pupil Transportation \$6,138, Operation of Plant \$16,606, Maintenance of Plant, \$1,000, Fixed Charges \$2,000, and Outgoing Transfers \$868.

The total for Debt Service is \$33,008 which goes to pay the principal and interest on bonded indebtedness which at the present time is \$425,600. \$2,113 is budgeted to Capital Outlay for the expenses of new buildings, fixtures, or furniture.

Of the overall current operation expenses of \$185,387, \$18,565 is for the operation of McGee Ward School and the cost of sending colored high school students to Munday. This leaves a total of \$166,822 for operation of the white schools.

The School District has an assessed valuation of \$6,004,857 and the tax rate was set \$1.80 per hundred dollars valuation with forty-eight cents for Debt Service and \$1.32 for current operation expenses.

Supt. of Schools Erwin Youngblood announced the faculty for the coming year. They are:

Mrs. Louise Kemletz, first grade; Mrs. Frances King, first grade; Hazel Long, second; Mrs. Gerenia Spear, second; Mrs. Mary Vaughn, third; Mrs. Nancy Crawford, third; Mrs. Jewell Lea, fourth; and Mrs. Patricia Friz-

QUARTERBACK CLUB TO MEET ON TUESDAYS
The Quarterback Club will hold their weekly meetings on Tuesdays at 8 pm. at the field house this year.

'63 Wheat Program Is Outlined

Wheat growers in Knox County should be sure to vote in the national wheat referendum to be held today, August 30, Olie Il-seng, chairman, agricultural stabilization and conservation committee, urged this week. At least two-thirds of the producers voting in the referendum must approve the marketing quotas if they are to become effective for the 1963 wheat crop.

Under existing law, the national wheat allotment for 1963 is 5 million acres, the legal minimum. If voters approve marketing quotas, producers who stay within their acreage allotments may market all the wheat they produce without penalty.

Under quotas, also, growers who stay within their allotments will be eligible for price supports at a national average of not less than \$1.82 per bushel on the entire production. Growers who exceed their allotments will not be eligible for price support and will be subject to marketing quota penalties if they have more than 15 acres of wheat for harvest. However, growers will be able to plant up to 15 acres of wheat without penalty, Mr. Il-seng pointed out.

Growers who sign applications for exemption under the feed wheat provision permitting 30 acres or less to be used exclusively for feed on the farm will not be subject to marketing quota penalties.

The penalty rate on excess wheat will be 45 per cent of the parity price of wheat as of May 1, 1963. Excess bushels on which the penalty will be determined will be the normal production of the acres in excess of the allotment.

If marketing quotas aren't approved, marketing quotas and penalties will not be in effect for the 1963 wheat crop. However, acreage allotments will remain in effect and will be used to determine eligibility for price support at the 50 per cent of parity rate required by law if quotas are disapproved. According to Mr. Il-seng, the national average price support for wheat based on the 50 per cent of parity rate would be about \$1.21 per bushel.

Streams in Desert Places
Ozelle Stephens

"The Joy of the Lord is your strength." (Nehemiah 8:10).

Joy is one of God's wonderful gifts that abides within you. At times it may seem that joy is a feeling that comes to you as a result of outside experiences.

But when you seek joy in this outer world only, you find that it makes you sad and unhappy. Laughter helps you to express your feelings of joy, but you laugh sometimes at the mistakes of others. Gods joy within you become a mighty power for good in your being. You do not have to laugh or shout to express it. You express it by feeling its uplift within. You can let this joy fill every moment of your day, and there will be no room for unhappy feelings. Paul said,

"Forgetting the past, I press forward . . ." Spend your time rejoicing in God's joys and the troubles of your past cannot abide in you. When you realize that God's joy is within you every moment, you can overcome the world of fear and sorrow. His joy is ever springing up within your being. With it you shall draw water from the wells of salvation. (Isa. 12:3).

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Very few cars and trucks in Texas are taxed through the ad valorem tax program.

Some counties, cities and school districts tax them, but close to 80 per cent of the vehicles go untaxed. So the Texas Commission on State and Local Tax Policy proposes that something be done about it.

An Amendment to the constitution is their recommendation. They suggest an amendment exempting motor vehicles from the property tax, but allowing the Legislature to tax them.

Plan is to have the Legislature set up a procedure by which a state board would determine the value of all makes and models of motor vehicles. Then the county tax assessor-collector would collect a tax at the rate of \$1.50 per \$100 of market value when license tags are purchased.

Under this "suggestion," 40 per cent of the \$52,000,000 annual take would be divided among the school districts of the counties. Balance would go to the cities in accordance with their populations. County's share would be that portion represented by population outside cities.

Counties and cities would be required to spend the money only on road and street work.

Before the commission decides whether to recommend this procedure to the Legislature, a public hearing will be held sometime this fall.

SOCIALIZED INDUSTRY — A study committee on the Cost of Government is exploring the possibility of using convict labor to produce more of the products used by the prison system.

State spends about \$3,000,000 a year for merchandise such as soap, paint, tobacco, tires, mattresses and furniture for the prisons.

In the past, organized labor and business groups have been able to keep the state from using convict labor in competition with paid labor. But the farmers have not been so successful. Prison farms produce much cotton and other products.

SAFETY DRIVES — Two more safety drives were launched by Gov. Price Daniel.

He proclaimed September as Home Safety Month, asking Texans to "live, think and drive safely" throughout September.

Also outlined was a campaign to prevent some of the 30 traffic deaths the Department of Public Safety predicts will occur over the Labor Day Weekend.

Highway Department got into the act, too, due to the U. S.

Army's planned maneuvers and convoy crossing-areas along state highways.

CARLA'S FORCE — Texas Water Commission engineers have calculated the kinetic energy released by Hurricane Carla. They figure the energy exerted over a 24-hour period is equal to 8,700 20-megaton nuclear devices.

In other words, it amounted to a 20-megaton atomic bomb exploded every 10 seconds for 24 hours.

State engineers agreed that man can do nothing about the wind involved in such great force — But, they felt that man can protect the land from tidal waters.

Galveston County engineers proposed that the island city's seawall be raised by the sales tax, which took effect a year ago September 1, may have another think coming.

Budget requests of state agencies predict another huge increase in public school and college costs in the two-year period starting September 1, 1963. Laws already on the books will divert about \$55,000,000 a year more from the State Treasury to the public schools, without any new legislative action.

College and university administrators, expecting a new flood of high school graduates, say they need \$40,000,000 a year more to take care of them. This includes \$10,000,000 a year for the state's second largest university when it joins the state system in 1963.

So budget-makers are thinking in terms of another tax law of some kind. Only a fast upturn in business conditions, bringing new cash into the treasury from existing taxes, can relieve the situation.

Legislators, campaigning this fall, will have a chance to offer voters their suggestions. Some think the exemption on groceries, medicine and low-cost clothing should be taken out of the new sales tax law.

POLIO CASES — Doctors and health workers are pushing polio immunization drives. The 1962 polio epidemic in Texas, now at 176 cases, is small compared to pre-vaccine epidemics, but one case is too many.

Six cases of paralytic polio reported last week were all in West Texas, with one each in Ector, Ochiltree, Potter, Randall, Tarrant and Taylor Counties.

Back to school booster shots were urged by the State Health Department. It said parents should check their children's vaccination records to see that they are protected against diphtheria, pertussis, tetanus, polio, and smallpox.

HOUSE "PILOT" DIES — Read Granberry, the man who piloted legislation through the House of Representatives for 19

Legislatures, is dead.

Granberry became parliamentarian of the House in 1915 at the age of 15. He started as a page, served for two sessions, then was named parliamentarian.

He was also an electrical engineer and professor of engineering at the University of Texas. Granberry left the University in 1953. Three years later he became director of the Texas Legislative Council.

Throughout every session during the past 38 years he sat beside the speaker of the house, advising him on parliamentary procedures.

REDISTRICTING — There have been rumors of lawsuits to come, ever since the U. S. Supreme Court held that the courts can force states to redistrict, for legislative purposes, if their systems are patently discriminatory.

But it took Giles Miller of Dallas to bring the first suit. The Republican sued State Treasurer Jesse James, to prevent him from paying the salaries of state officials who make up an ex-officio legislative redistricting board. That is the body which is supposed to meet and redistrict, if the Legislature fails to do so.

Miller's suit departs from procedures used in 31 other states in that it is aimed at getting state, rather than federal, court action.

He contends that the redistricting law passed by the last Legislature was not fair and that it therefore is unconstitutional.

Dallas County is limited to nine representatives and one senator under a state constitutional provision designed to limit representation of the big counties. It would be entitled to three senators and about 15 representatives if the state was divided evenly.

NEW TARGET DATE — Construction on the 3,027-mile Interstate Highway System in Texas is progressing so rapidly that the completion target date has been moved up a full year to 1971.

Texas Highway Department points out that the state now has completed and opened to traffic 1,090 miles or 36 per cent of the total.

FUDGING FOR BEER — Minors who fudge on their age are the biggest headache to Texas Liquor Control Board agents and the beer industry in Texas.

They "qualify" themselves as beer purchasers by changing birth dates on drivers licenses and raising their ages to 21 on other identification. But the tight liquor control act is unrelenting, say the Liquor Board agents. It punishes both the seller and the buyer when they are detected.

Liquor Control Board agents

reportedly nab most underage beer buyers by watching for unusually large gatherings of the youngsters at taverns and drive-ins where the beverage is sold.

POWER POLITICS — Although the Texas legislature is not scheduled to meet until next January, capital talk is that Sen. Galloway Calhoun of Tyler is in line to be chairman of the powerful State Affairs Committee in the next Senate.

Predictions are contingent on Democratic nominee Preston Smith winning the lieutenant governorship over his Republican opponent, O. W. Bill Hayes.

BATTLE CLOUDS — Legislative battle clouds already are looming on the horizon, anticipating an early combat baptismal for the many new members of both houses.

Hearings before various state agencies and legislative committees are forerunners of pitched battles over the proposed consolidation, under a separate agency, of overlapping services now being rendered by numerous departments.

For example, the Texas Highway Department carries on the tourism effort. State parks board attracts tourists by providing recreational facilities for them. And the Game and Fish Commis-

sion lures visitors to fields and streams. The Highway Department supervises pleasure-boating activities of a million people, while the Game and Fish Commission regulates and taxes shell used as road building material.

At least six agencies lease state oil and gas rights, yet the Railroad Commission deals with oil production.

Suggested as possible solutions — expand and consolidate the Game and Fish Commission and the State Parks Board; or make it all a division of the Highway Department.

FLU SHOTS URGED — Health department has issued a warning to pregnant women and persons over 45 that it's Asian flu time.

Department is urging adults over 45 (particularly senior citizens over 65), pregnant women and persons of any age with heart trouble, lung, kidney or metabolic diseases to make im-

mediate arrangement for flu shots.

Widespread outbreaks of Asian influenza are predicted for the coming winter. A-strain flu occurs every two to three years.

Two doses of influenza vaccine — two months apart, are urged for people not previously immunized. Both should be administered prior to December, starting point of the cyclical onset.

TEACHERS TO LEARN — This fall, 2,300 public school teachers, of physics, mathematics, and foreign languages, will attend classes Saturday mornings, or after their own teaching hours, to learn the latest developments in their subjects.

This is part of a program instituted by the Texas Education Agency to help beef up the states instruction in these subjects.

GRAHAM ELECTRIC

Telephone 658-5281

THROUGHOUT THE CENTER OF THE SOUTHWEST IN CONTROL ROOMS LIKE THIS, THERE'S AN...

INCREASING FLOW OF ELECTRICITY

The demand for electricity in our service area is growing rapidly. The reason is simple — there are more people, more businesses, more industries coming here into the Center of the Southwest.

That is why we are investing millions in new electric generating capacity and in new distribution facilities to keep pace with this area's exciting growth.

But of more significance, this fact explains why we are planning vast additional expenditures in anticipation of even greater growth to come.

Because the Southwest is growing 25% faster than the Nation, we are convinced that our service area — the Center of the Southwest — faces GROWTH UNLIMITED.
