Dove season will close Tues day, Oct. 30, and the next day Wednesday, Oct. 31, the season will officially open for geese and brant. The season will close on these Jan. 13.

In reading all of the leading Guns and Hunting magazines, we have noticed that most of the editorial matter in the books is confined to keeping the shooter informed that our government is trying to take away our rights to bear arms. In the Constitution it clearly states that no law will ever be enacted to destroy this right, yet many states including our own, are constantly trying to revamp this clear-cut and precise

Dear Editor:

I have just read Lewis Barlow's letter of Oct. 11, 1962, concerning the deplorable situation of our public school bands. Although I do not know Mr. Barlow, I'd like to say that I agree with him 100 per cent.

The bands of all of our schools have long been neglected, not only by our school system, but in the newspaper mentioning the fine performance a band has given? Of course, there will be a half page or more devoted to a

Demonstrating new 63 Chevrolet truck features the hard way!

When we came to a river we got wet. This river bed was paved with rocks the size of melons. What a test for new light- and heavy-duty suspension

Conventional light-duty units have coilspring independent front suspension—easier on truck, load and driver.

Users of new conventional medium- and heavy-duty units who have to operate in close quarters are going to like the narrower front ends (up to 7 inches).

New engines, suspensions, frames and narrower front ends show their stuff on Mexico's tough Baja Run!

With months of proving-ground tests under their belts, why did new Chevrolet trucks take on the rugged Baja (bah'hah) Peninsula? This is the toughest line of trucks Chevrolet has ever built. Sending them over the most

punishing terrain in North America (a road totally unlike the fine highways on the Mexican mainland) was double proof of this fact. Frames, engines, suspension systems were subjected to stresses far greater than trucks normally encounter. You can be sure that trucks that can handle this kind of beating can handle any kind of work.

Quality trucks always cost less
