

**YEA, GREYHOUNDS!** — Our boys have battled their way all the way to the bi-district playoffs and we see no reason why they won't be ready to meet Matador (that's who we believe we'll play) in a week or two.

Lorraine was in full attendance at Roby last week as all the football boys from Pee Wee to high school were there to see how the 'Hounds stack up. Hope they went home dumber than they were when they got there!

The last time we went this far and had this good a team was in '59 we believe, and we were extremely proud of the fine boys we had then. Even so, this year's 'Hounds are in our opinion the best—and we have said that several weeks ago, before we won the conference, as a matter of fact. Here are the reasons:

Two years ago the same boys were beaten unmercifully and looked as though we would never have another winning team.

School spirit, and to us this is by far more important than any one single ingredient, was at a low ebb.

Too many fumbles and confusion on the field.

Although we have been unable to witness all the games this season, we have noted a significant improvement in each and every game — more teamwork and better team spirit and coordination—an unbeatable combination.

Naturally we need material and workmanship and this year we have had both in the form of our boys and the coaching experience of Darland-Hines-Bateman.

All WE, and that means the whole community—want Thursday is for you to do your dead level best—just as you have been doing for the past four years that we've known you.

Always put off until tomorrow what you shouldn't do at all.

Another saying or writing we ran across was written by John Ruskin, and here 'tis:

There is hardly anything in the world that some man cannot make a little worse and sell a little cheaper, and the people who consider price only are this man's lawful prey.

This week begins a new series of caricatures drawn by H. H. (Hut) Hutson of Amarillo and will enable you to know your businessmen and their employes a little better. We will try to have at least one such business represented each week until the series is completed.

Hut and his "smiling brush" was responsible for yours truly at the heading of this column.

Although we try to stay off the "soap box" as much as possible, we thought Just Talk and soap were synonymous—so there you are.

AUSTIN Capital city folks already are getting "Inauguration Fever."

Inaugural plans for Governor-elect John B. Connally will be far more elaborate than any held in the past decade." So reports Frank Erwin, secretary of the state Democratic Executive committee, who is in charge of arrangements.

Festivities will begin the evening of Jan. 14 when 5,000 Democrats are expected to pay \$25 a plate for a victory dinner in Austin's Municipal Auditorium.

On the morning of the 15th, there will be an interfaith Prayer Breakfast in the Driskill Hotel.

At noon Governor-elect Connally and Lieutenant Governor-elect Preston Smith will be "sworn in" in a ceremony supervised by the State Senate and House of Representatives.

Inaugural parade, following a ceremony, is expected to be one of the largest ever held in Austin. High school bands from all over the state are accepting Connally's invitation to participate. Many out-of-town floats also will participate. Also taking part will be the U. S. Navy, with a salute to its former secretary, John Connally.

The Capitol and all state buildings on its grounds will be illuminated that evening. All Texans will be invited to greet their new chief executive and other elected state officials and enjoy refreshments and entertainment in the Capitol.

This gala evening event is a brand new innovation.

**TEXTBOOKS SELECTED**—State Board of Education voted to accept the State Textbook Committee's recommendations for new texts in 13 public school courses, and approved its recommendation not to select new economics texts at this time.

In compiling a list of some 65 textbooks for selection by local boards, the 15-member committee studied 188 books submitted by 33 publishers, with the assistance of 517 professional advisors and 400 laymen.

Texas Education Agency experts in 10 fields then reviewed their selections and submitted some 400 suggested corrections, which the publishers agreed to make.

Most of the corrections refer to typographical mistakes and minor factual errors. State Library agreed to keep

a copy of each recommended text so that they will be available to individuals who want to protest acceptance by local school boards.

Board of Education also will send samples to local boards according to enrollment: one set for 500 pupils; 16 sets for 10,001 to 50,000 pupils, etc.

Local boards must appoint the selection committees by Dec. 15.

**RABIES DOWN**—State Department of Public Health reports that the incidence of rabies is decreasing.

For example: the number of rabies cases reported between January 1 and September 30, of 1953 was 1,336. Reports for the same period in 1962, nine years later, totalled 448.

**EIGHT DAYS AGAIN**—Texas Railroad Commission has set an eight-day oil allowable for wells on an nine-day allowable.

Texas Independent Producers and Royalty Owners proposed fractional day orders. A spokesman for the Texas Landowners and Independent Producers Association said his group will ask the Legislature to change the market demand law so the Railroad Commission can set allowables on a basis of Texas' share of national oil reserves.

But Chairman William J. Murray Jr. stated that the commission believes it now has the authority needed "to set allowables as high as the market will take." He added that the commission would go to fractional days, or to a percentage, if such a step is needed.

Murray also said that a plan for tougher new test requirements in the East Texas field is being devised by the commission.

**HOUSE CEREMONY**—Speaker of the House James A. Turman invited newly-elected members of the House of Representatives to take their oath of office in a mass ceremony on Nov. 23.

That's the day votes officially will be canvassed and all non-returning representatives will be removed from the House payroll.

Turman's invitation was issued immediately after Attorney Gen. Will Wilson ruled that Turman will continue to serve until his successor, Rep. James Dee Cole of Greenville, qualifies for his new term.

**BUS, TRUCK SPEEDERS**—Texas truck and bus drivers are worse speeders than passenger car drivers. So reports the Texas Highway Department.

Speed recording tests made by the Department shows truckers are the worst offenders with an average violation record of 78.3 per cent exceeding the legal speed limit.

Department's annual speed survey shows busses came next to truckers in speed limit disregard. Their average was 63.7 miles per hour.

Average speed of passenger cars was 55.4 mph—within the limits of 60 during the daytime and 55 mph at night.

**SAVING LIVES**—Texas' six year traffic safety program has resulted in 300 lives saved. Gov. Daniel and the Texas Traffic Council so summed up the effort at decreasing the rate of fatalities on streets and highways.

Then they passed the torch to Governor-elect Connally, Attorney General-elect Waggoner Carr and their administration.

How to save lives was the subject of a two-hour conference in Austin.

Connally and Carr were present to accept the challenge.

**DRAFT CALL UP**—The State Selective Service director says Texas' December draft quota calls for 235 men.

This is an increase of 82 over November.

Col. Morris Schwartz said the December call is the state's share of a national quota of 6,000 men, all for the Army.

Local boards will send men for pre-induction physical and mental exams.

Schwartz said the December quota will be filled with men who are at least 22 years old on Dec. 1, except for volunteers and these legally termed delinquent under the draft law.

The prayers of the saints are precious in God's sight. His elders and angels have them in golden vials full of sweet odors; they are brought up before the golden throne where God sits and they go up before Him out of the angel's hands. (Rev. 8:3.)

Truly this is speaking of prayers filled with praise and adoration unto our Great and Mighty God. Praise is comely for the upright and he will ever have praises in His mouth. He who offereth praise let us offer our prayers and praise continually unto the Lord our God who is our Redeemer.

**Uncle Ben From Benjamin Has This To Say--**

DEAR MISTER EDITOR:  
The fellers at the country store Saturday night was speaking with their usual wisdom on all subjects. In the years I been attending the sessions they ain't been a time when they was lost fer the answer to any problem nor or in the hereafter. I recollect reading where Daniel Boone claimed that in all his wanderings he was never lost. But even ole Dan'l owned up that they was a couple times when he was bewildered. I can't recollect a time when the fellers at the country store was even bewildered.

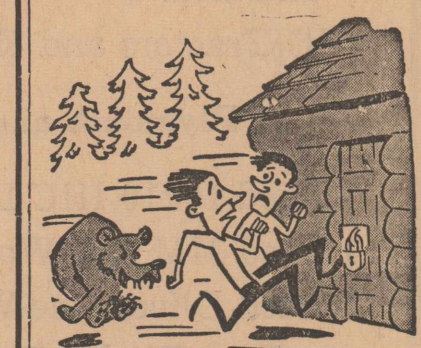

Fer instant, they was talking Saturday night about that Congressman from Georgia still trying to git the President to set a date ever year fer national "Old Folks Day," Ed Doolittle allowed as how it wouldn't work. He claims that the only folks that'll admit they is old would be too old to enjoy the "Day."  
Farthermore, said Ed, he don't think we got a "Day" left in the year taht ain't been already took. They started out naming a "Week" fer so many things they ran out of weeks and got down to a "Day" and anytime now, claims Ed, he's looking fer 'em to start setting aside a "Hour" fer what few items that has been missed with a "Week" or a "Day." All the fellers said they was expecting any time now to git a procleramation from the White Houshe announcing a "New Frontiner Hour." Natural, this "Hour" will be fer Democrats only. The Republicans will have to git their own hour.

And speaking of hours, the fellers Saturday night was discussing this campaign the big city workers has got going to git a four-day week. Zeke Grubb predicted the next move would be fer a four-hour day with two hours off fer lunch, plus a increase in wages and more of them "fringe benefits." Zeke allowed as how he wasn't agin the working man, being a 12-hour-a-day worker hisself, but if they keep going in this direction, claims Zeke, he's going to be the only working man left, just him and the fellers that reports fer their pay onct a week.

Moving over to the international scene—as them Washington column writers calls it—the fellers was a little concerned over us fighting so many brush fire wars so fur from home. And Clem Webster reported he had saw where another one of them small nations was asking fer help agin the Chinese Reds. Clem claims our State Department ought to write 'em back that we just got too many ahead of 'em and that they'll have to wait their turn in line. All the fellers was agreed we're going to have to set up a priority system and decide which countries were oing to fight fer first. Bug Hookum allowed as how they wasn't no doubt which countries our State Department would put first, them countries like India that was gitting the mostest and doing the leastest fer our side.

Yours truly,  
Uncle Ben.
