

Last week we received a letter from a reader in Guthrie commenting on a recent column we wrote where we expressed the opinion that a town without a bank and newspaper wasn't very much of a town.

Unfortunately the letter was unsigned or we would have printed it. It wasn't a poison pen letter, however, and the reader listed a number of things they were short on in Guthrie including a bank, newspaper, picture show, super market, etc., but was long on good citizens.

Let Knox City be the first to offer you the things you are short on-and we always have room for "good citizens."

Speaking of good citizens the 430 who paid their poll taxes will be the ones to decide all the issues coming before the voters this year.

We hope the majority of the minority group get things decided right for the majority of the people.

At this writing the school board was not approached with all the petitions calling for an election but were in hopes if the people wanted an election it | could be held at the time of the school trustee election, April 6. The petitions have to be in hand 30 days before election, of

HIS is the Center of the Southwest.

The Center of the Southwest is our service area.

It is called the Center of the Southwest because it is in the very heart of one of the Nation's fastest growing regions.

For many months we have been engaged in an extensive expansion program throughout our service area, enlarging both generating capacity and distribution facilities.

It is a far-sighted, long-range program based on one simple fact. We are convinced that the Center of the Southwest faces GROWTH UNLIMITED.

Current conditions confirm the belief. Population is increasing, more businesses are moving in, new industry is coming our way, natural resources are being developed, bank deposits, spendable income and business construction all are on the way up.

That is why we are investing millions to meet the present growth of the Center of the Southwest, and to be prepared for its continued development in the months and years
