NUMBER 23

Ran across this the other day so will pass it along . . . we thought it an interesting passage. "Whatsoever things are true, whatsoever things are honest, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report . . . think on these things." (Philippians 4-8)

IN THE MILL — Plans call for the Homecoming Celebration to be on the week end of June 15 and 16 and at the same time Knox County Country Club will have their golf tournament June 14, 15 and 16.

Things should be popping here at that time.

Jeff Graham and others on the planning committee picked an opportune time for both and should prove a lot of fun for all concerned.

QUITTING BUSINESS—That's what Horace Finley told us last week and the owner of Knox City Department Store verified this.

It is always bad for a business to quit and Knox City Dept. Store will leave a big gap in the middle of our town.

Garrisons Cafe sold to a man named Tucker of Seymour Sunday and, if we understand correctly, he will be here as soon as he sells his drive in there.

M. C. Vincent, cook for Garrison's will be the manager.

MORE CHANGES — Branham Chevrolet started their new building recently and it is really taking shape now. This will add considerably to the business and new building growth of the city.

The convalescent home is nearing completion and if things keep running smoothly, should be ready for occupancy in the near future.

Work on the hospital is well under way and we noticed that the Skiles Bros. Service Station is finally through with their new face-lifting.

It looks swell, fellows.

Was visiting with Herbert Bellinghausen, one of our best farmers, the other night, and he was kinda upset.

Herb said his cotton was up and looking perfect, the rains had come right on time—not a day too early or late—and exactly the right amount.

It was the first time in Herb's life he could remember things looking this fine, and it was definitely the first time in our life that we heard a farmer make the above statement.

Looks great and we are all hoping for the best and keeping our fingers crossed.

Being extremely interested in agriculture we ask farmers all the time about what they plan to do about one thing and then the other to not only learn more ourselves, but to see how one person goes about accomplishing the same chore as his neighbor.

The boll weevil has taken up all the conversation in these parts for the past year or so, and well he might, for not only has weather been just as big a gamble and worry as ever, but last year Mother Nature added the weevil.

A lot or rather most of the farmers we talked to, said the weevil was worse than a drought. How to combat the weevil, though gives at least two points of view. Although most feel that more and better poisoning are the answer, Horace Finley told us that he was of the opinion that more "friendly" insects were the answer.

In other words if all is according to Mother Nature's law, there are just enough weevils to feed the friendly insects and just enough of them to make the crop, or flowers, or what-have-you, grow and prosper to the fullest extent.

Horace gave us a few examples that he has tried and seen tried to prove his point.

The John Smith's have a new addition to the family in the form of a shetland pony—approximately 16 inches high and 20-odd pounds!

Attorney General Waggoner Carr To Speak At Lions Banquet On June 7

Waggoner Carr, Attorney General of Texas and prominent West Texan, is to be the guest of honor and speaker at the annual Ladies Night Banquet of the Knox City Lions Club on Tuesday, June 7.

Carr reached an enviable height in his career for the office of attorney general in the last general election, by receiving a larger vote than the Governor or Lt. Governor.

He served five terms in the House, where he played a leading part in the passage of needed laws relating to law enforcement, prevention of crime and juvenile delinquency, education, sound state fiscal management, promotion of the state's economic growth, and in the investigation of official corruption and private fraud.

Carr is one of only three Texans to have served two consecutive terms as the Speaker of the House of Representatives. (Sam Rayburn is another to have received the honor).

Before going to the Legislature, Carr's practical experience in law enforcement began with one term as County Attorney of Lubbock County, and also as Assistant District Attorney.

As a legislator, Carr wrote the Texas "hot check" law and the small claims court laws. As a committee Chairman Carr won state-wide acclaim for exposure of a bootlegging syndicate in West Texas, which resulted in the indictment and conviction of the liquor dealer.

Carr is 44 years of age, mar-

Baptist Plan Youth-Led Revival

A Youth-Led Revival with a team of six young people from Wayland Baptist College, Plainview, will be conducted by the First Baptist Church this week end, May 3-5.

PHIL LASWELL SCOUT MASTER

Noel Crenshaw, Seymour, District Scout Executive for this area announced last week that Phillip Laswell of Knox City, will be Scout Master for the Knox City Boy Scouts.

Crenshaw and Laswell spoke to youngsters of Scouting age at the schools Wednesday to inform them of Scouting program and to answer any questions.

Knox City's Lions Club is the sponsor of the Boy Scouts.

Meetings will be planned in the very near future and parents are urged to attend all meetings—"we will need all the assistance we can get," Crenshaw said.

All boys between the ages of 11 through 14 are eligible to participate.

Notaries Must File With County Clerk

Secretary of State Crawford Martin announced that all qualified Notaries Public desiring re-appointment for the new term ending June 1, 1965 must re-qualify by the payment of the required fee and the filing of a new oath and bond with the County Clerk of his residence between June 1, 1963 and June 10, 1963.

Martin emphasized that Notaries Public should not send requests for reappointment or for commissions directly to the Secretary of State. The law specifically requires that the County Clerks approve notary bonds.

Any person not now a Notary Public who desires appointment should apply to his County Clerk between now and May 20, 1963. Application during this period will assure prompt attention before the rush procedure of re-appointing present Notaries.

The Secretary of State further pointed out that each person applying for a commission as a Notary Public must be at least 21 years of age and a resident of the county for which he is appointment. The exact name, permanent address of the applicant must be furnished the Co. Clerk.

The required fee of \$4.00 together with notary bond and oath must be filed in the office of the county clerk, between June 1, 1963 and June 10, 1963.

JOE W. DOBY COUNTY AGRICULTURAL AGENT

Twenty 4-H members from Knox County participated in the District Elimination Contest at Midwestern University Saturday, April 27. Those members who were 14 or over were competing for the chance to attend 4-H Roundup at College Station, in June 5-6. If they won first or second then they are eligible to attend.

The following won this honor—Charles Murray, Gilliland, Soil and Water Conservation, Class A, first place; Chip Smith and Bob Moorhouse, Benjamin, Soil and Water Conservation, Class B, second place; Dwight Reeves, Gilliland, Tractor Operator, second; Dorothy Edrington and Susan Keuhler, Rhineland, Safety, second; Bill Roberts, Gerald Wiles, Rennie Chilcoat, Benjamin, Grass Judging, second; Jan Burgess, Gilliland, Favorite Foods, first place.

Seniors who competed but who placed lower than second are as follows: Betty Herring, Rhineland, Public Speaking, third; Jeanette Brazzel, Munday, Share the Fun, fourth; Janice Keuhler, Judy Bruggeman, Rhineland, Vegetable Preparation and Use, third.

Juniors competing and their placings are as follows: Brad and Dean Partridge, Munday, Electric, third; Doris Navratil, Gilliland, Favorite Foods, second; Judy King, Gilliland, Favorite Foods, second; George and Carl Doby, Benjamin, Safety, ninth.

A County-wide meeting will be held Thursday, May 9, at 8 p.m. at the Rhineland school, to explain the wheat referendum. Everyone is cordially invited to attend. Tom Hunter, Area Farm Management Specialist, Jesse Gilpin, A. S. C. S. Office manager, and I will be on the program.

Cotton producers should begin checking their cotton for thrips. These small, yellowish snake-like insects, commonly known as "oat mites" have rasping, sucking mouthparts and can cause considerable damage to cotton. They retard development of the plants by rasping the leaves and sucking the sap. Since the leaf is the manufacturing part of the plant, this causes the stunting.

Streams In Desert Places

Ozelle Stephens

In Christ's last and important instructions to His Disciples before they were to go out as teachers of the Gospel He told them to tarry until the indwelling Spirit was poured out upon them from the Father. He instructed them to wait for the spirit for He said, "But ye shall receive power, after that the Holy Ghost is come upon you: and ye shall be witnesses unto me both in Jerusalem, and in Judaea, and in Samaria, and the uttermost part of the earth." (Act. 1:8).

It is necessary for us to have this power to be able to stand in the trying times and witness for our wonderful Lord. This power that we need is provided for us in the word and it is ours for the taking by faith.

But the Comforter, which is the Holy Ghost, whom the Father will send in my name, He shall teach you all things, and bring all things to your remembrance, whatsoever I have said unto you." (John 14:26; I John 2:27).

REPAIR CARS?

NATURALLY!

We have worked so long on automobiles that we took it for granted that everyone would know that Carr's Repair Shop repaired CARS, but one fellow asked us if we repaired them, or what!

Not only cars, but we would like to repair your irrigation engine the next time it conks out on you. Would be better (cheaper) to have it repaired before it stops, but if you are too busy we will get it back on the farm and working full time pronto!

AUSTIN — If the 58th Legislature's final version of a loan shark law is that which passed the House, folks who do business with the money men still would pay charges up to 500 per cent on the smallest, shortest loans.

Small-small loans—those under \$100 — would be regulated by an amendment to Corpus Shristi Sen. Bruce Reagan's bill which provides that on loans from \$19 to \$35, the lender could collect a flat 10 per cent charge plus a \$3 handling charge for each month of the loan, up to no more than two months.

In addition to this, lenders also could collect \$3.50 per month up to four months on loans between \$35 and \$70, and \$4 per month for up to six months on loans from \$70 to \$100.

The over-\$100 clause sets these rates per year per \$100: \$19 up to \$100; \$16, from \$100 to \$200; \$13 per \$100 between \$200 and \$300. This is scaled to the rate of \$7 per \$100 on loans between \$1,000 and \$1,500.

Rep. Joe Cannon of Mexia called the House-passed bill "a Robin Hood in reverse bill—it robs the poor and gives it to the rich."

A work-out on the measure—which carries 19 Senate amendments and 23 by the House—is expected in a Senate-House conference committee, but it won't take long if Gov. John Connally

and Speaker Byron Tunnell have their way. Both want a loan bill passed this session, and neither wants an extended—or a special — session.

COLLEGE BILLS — Governor Connally, Speaker Tunnell and Lt. Gov. Preston Smith all are anxious to see the Pan American and San Angelo college bills passed. Bills finally were pulled out of the House State Affairs Committee, chaired by reluctant Rep. John Allen of Longview.

Allen threatened to resign over the pressure (committeemen kept him from doing so) because he couldn't see the money in sight to support the 20 colleges already in the state family.

NO TUITION HIKE IN SIGHT

—Dallas Reps. Ben Atwell and Dick Morgan's college tuition increase bills may never come out of the House Tax and Revenue Committee. This, even though Atwell is chairman and Morgan is a member of the committee.

Atwell proposed a doubling of state college tuition, as endorsed by the Commission on Higher Education. Morgan offered a compromise of a 50-per-cent increase.

But word had come "from

ANNOUNCE BIRTH

Mr. and Mrs. Robert Gaines of Dallas announce the birth of a son, Greg Gordon, born April 24. He weighed 6 lbs., 10 ozs. at birth. Maternal grandparents are Mr. and Mrs. J. R. Hitchcock of Knox City and paternal grandparents are Mr. and Mrs. J. R. Gaines of Munday.

CARD OF THANKS

I wish to thank all those who sent flowers and cards while I was in the hospital. And also the Methodist Church for their very much appreciated. Mrs. Merle Tankersley.

above' that there will be no tuition hike this year. That virtually ended it.

NO MONUMENT FOR THE 49th — A Senate resolution to place a monument honoring the 49th Armored Division of the Texas National Guard on the State Capitol grounds was all but killed by the State Affairs Committee, after Alpine Rep. Gene Hendryx called it "a disgrace to every veteran who ever served in every war that Texas ever participated in."

The former Marine said, "The greatest battle this organization ever fought was the battle of the canteen at Fort Polk, Louisiana."

Seguin Rep. John Traeger defended the 49th, but the resolution was defeated by a vote of eight to seven.

However, a spark of life remains, since Rep. Ben Atwell used a device by which the resolution may be called up for another vote.

RAILROAD COMMISSION CHANGE PROPOSED — A plan to take the railroads and trucks away from the Railroad Commission has been proposed by Rep. Henry Grover of Houston, who told the House:

"Recent developments indicate that the Railroad Commission is overworked, and has more to do than it can handle."

Grover inferred that these indications are the slant-hole oil well scandals and the conflict-of-interest resignation of former commissioner William J. Murray, Jr.

Grover introduced HB 1041, to ease some of the workload by removing the commission's authority over the transportation industry, and leaving it with just oil and gas regulatory authority.

The "Texas Commerce Commission," to regulate railroads, bus lines, truck lines, and so forth, would be made up of three \$15,000-a-year commissioners.

Railroad commission was set up in 1891 to regulate the railroads. But authority over oil and gas, since 1917, has caused most of its time and attention to turn in that direction.

CONGRESSIONAL REDISTRICTING — A crowd of witnesses from the late Speaker Sam Rayburn's 4th Congressional district is due to oppose the Congressional redistricting bill which would abolish the old 4th, and relocate it in South Texas.

Sen. Ralph Hall of Rockwall succeeded in delaying Senate committee action on the measure to May 7, so the opponents can come to Austin.

House passed the bill to the Senate, over protests from Rep. Don Hefton of Sherman. Delay on the hearing may put the redistricting proposal, authored by Rep. Rayford Price of Frankston, in jeopardy.

Gov. Connally has said he saw no need for Congressional redistricting this session. He thought it could be handled in 1965.

Meanwhile, U. S. Congressman Ray Roberts, who now represents the old 4th, doesn't seem worried about losing his job. He's

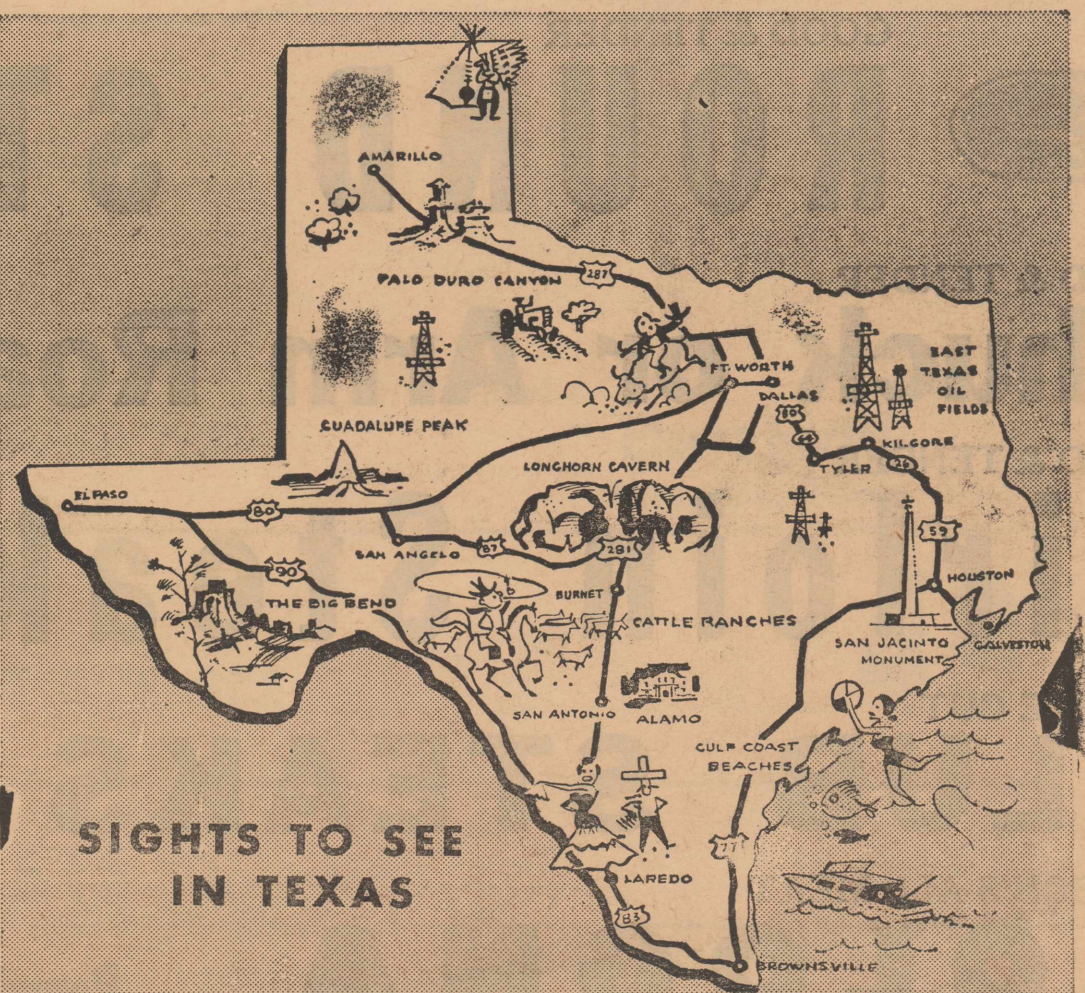

looking for a press liaison man for his Washington office.

DOCTORS BEING CALLED — State draft boards have issued a call for 60 doctors for the Army, Navy and Air Force, according to State Selective Service Director Col. Morris S. Schwartz.

The 60 physicians would be the state's share of a national call for 1,350.

Physicians — either fathers or non-fathers — would be subject to call if they were born on or after Jan. 1, 1935.

There's plenty to see in Texas, wherever you may roam on a holiday jaunt or on a vacation trip. Clockwise from the lower left hand corner, some of the impressive sights to see in Texas are: The Big Bend, some of the most striking scenery in the state; Guadalupe Peak, highest point in Texas at 8,751 feet; the Palo Duro Canyon, camping grounds for Indian tribes in frontier days; East Texas oil fields, biggest of them all; the 570-foot San Jacinto Monument, commemorating decisive battle of Texas history; Gulf Coast Beaches, some of the finest in the world; the Alamo, "Cradle of Texas Liberty," and in the center of the state, Texas Longhorn Cavern, biggest cave in the state and third largest in the world, one of Texas' most spectacular natural wonders. KNOW YOUR INSECT ENEMY

THE BOLL WEEVIL

These long-nosed pests are a multi-million-dollar menace to our nation's cotton crop. Each year, billions of boll weevils chew through an estimated \$300 million worth of cotton.

To maintain their profits, farmers must conduct constant war against the weevils. First step in the battle is to deny this enemy refuge. Boll weevils spend the winter in weedy trash or other protected areas near cotton fields. Fall destruction of stalks and early spring cleanup of fields deprives weevils of a food supply. An effective control effort requires sound crop management. Entomologists recommend several basic cultural practices. Prepare the soil well. Select early-ripening varieties. Make soil tests to determine plant food needs, then fertilize accordingly. Control weeds by frequent shallow cultivation to speed cotton harvest.

In addition to good management, regular insecticide applications are important to beat the weevils. A potent broad-range new weapon, Sevin insecticide, is being used extensively by farmers against weevils and other cotton pests. This new material is a carbamate, chemically different and safer than most chlorinated hydrocarbon and phosphate pesticides previously used.

Growers reported excellent control, even on weevils that had become resistant to older insecticides. Sevin is available both as a dust and in a spray formulation. For profitable cotton production,

many pest control experts recommend early applications as a supplement to the regular insecticide program. Controlling small infestations of weevils early in the season is more economical than fighting mass attacks in late season.

IT'S THE LAW

IN TEXAS

Owner's Policy vs. Mortgage Property

Three out of four families who buy houses in the \$11,000 to \$15,000 price range jeopardize their investment because they do not protect their cash and ownership with commensurate title insurance.

These financial risks result from insufficient knowledge of the difference between an 'owner's policy' and a 'mortgage policy' and lack of information about title insurance.

The main point is that the usual title insurance taken out by the purchaser of a home in the up-to-\$15,000 bracket serves only to protect the bank or lending institution. It is often compulsory for the buyer to purchase this insurance, known as the 'mortgage policy', since some mortgagees insist upon this particular safeguard as one of the loan conditions.

The 'mortgage policy' however never protects the home owner's equity. This is so even after the mortgage is fully paid.

A course remains open for the purchaser who wants to cover himself for the entire price of the home. He should, at the time of application for the required 'mortgage policy', check with his attorney about simultaneously obtaining an 'owner's policy'. The 'owner's policy' in contrast to the 'mortgage policy' protects home buyer as long as he owns the property. In many instances, it also protects an owner even after he sells, if he has a warranted title.

Owners of higher-priced homes usually take out both title policies. Thus, they purchase peace of mind on their substantial equity instead of trying to 'save' a few dollars, a false economy which may later invite trouble.

Title insurance took on greater significance after World War II. It is a requisite today by many banks and lending institutions for those applying for mortgage loans, and is for the lender's protection. A defective title it was shown, may cost the 'owner' not only the price of the home but considerably greater sums if the new owner 'inherits' previously undiscovered liens, back taxes, or defects of title that do not appear on the rec-

ords. The purchaser of the \$11,000-\$15,000 home often withholds taking the 'owner's policy', which protects his equity continually, 'in order to save a few dollars.' An element of risk enters, however, if flaws are subsequently found. The owner without title insurance would not be reimbursed to the extent of the defect. To compound his difficulties, the owner would be burdened with the cost of correcting the title defect and legal costs.

To illustrate the difference in an 'owner's policy' and the 'mortgage policy', the following case was cited: Mr. Smith buys a home for \$15,000. He places \$2,000 down and takes a \$13,000 mortgage loan. Pursuing the course of many home buyers, his only title insurance purchase in a 'mortgage policy' for \$13,000, which the mortgagor demands and which protects only the lending institution. Each year Mr. Smith's equity increases as his mortgage decreases. Nevertheless, knowingly or not, Mr. Smith is not carrying any title insurance which protect Mr.

Smith. If a faulty or fraudulent title should be discovered, or if previously-unknown liens against the property were to be established during the life of the mortgage, or after it was paid, Mr. Smith would have no protection.

Corvair Monza Club Coupe

Who needs muscles?

Do you know how easy it is to take a corner with a Corvair or park one? Turn this newspaper sideways and it will give you a pretty good idea. The wheel handles just about that easily.

The Corvair's engine is in the rear, for not only greater traction, but more balanced weight distribution. And that's what makes the steering so completely effortless.

The engine is air cooled, too. No radiator. No water or antifreeze. No boiling over or freezing up to worry about. It takes the weather and the terrain as it comes.

So think about those trips to the beach this summer, those bright sunny days and balmy moonlit nights.

And besides, looking at it from a very practical point of view, it's Trade 'N' Travel time right now at your Chevrolet dealer's. He's got some beautiful buys.

But you had better hurry before somebody muscles in ahead of you. Spring's here. Summer's coming fast. And with these sporty good-looking Corvairs selling the way they are, he who hesitates will want to kick himself.
