FORGOT — Most folks tease us so much about putting out a weekly newspaper and only having to work one day a week that sometimes they themselves begin to believe it. The Herald staff never forgets, it though.

We are always asking you to send in your personals, weddings, etc., in order that all your friends will know what you and your family are doing.

Usually we mention that we would like to have these stories early. We do, sometimes, take a personal on Wednesday, but a lot of times it is too late to get in the paper.

Please remember this, when waiting till the last minute on stories.

Week before last we received over two columns of real live news, most of it of front page variety, but too late to get it in that paper. Believe we got it in that last week except one story.

The Benjamin Juniors-Seniors had their banquet recently at Hazel's Cafe in Benjamin and after the dinner, they held their Prom at the High School.

JULY IN JANUARY! — Mrs. J. F. Lewis was telling us recently that her husband Jeff, decided that winter was over last year, some time, and decided to clip his horses.

All went well until it started snowing the next day.

Jeff had a small house built for the young horses, so it was no trouble to put them in, but he did have a time getting Electrician Doyle Graham and enough heat lamps to keep his horses from freezing to death.

Since he likes horses as well as we do, we know Mrs. Lewis appreciates the fact that they got the horses warm outside.

Jeff probably would have had them in the house if the heat lamp deal had fallen through.

IN THREES — It hasn't been very long ago that Mrs. Lee Smith, Bess, received a bad injury to her ankle and had it in a cast. A few days after this accident, Lee was driving to town and had a flat on their new car — in some sort of freak accident Lee was unlucky enough to turn the car over on its side yet lucky in that it only put a dent on the driver's side of the roof.

Lee lost control of the vehicle and after it came to rest on a high bank of the ditch, the car just laid over on its side!

The third accident came recently when Lee was cutting a limb off a tree and fell — this time breaking both arms!

DISTINGUISHED GUEST — Attorney Gen. Waggoner Carr will be a guest of the Lions Club June 7 and will be the featured speaker at the Ladies Night Banquet.

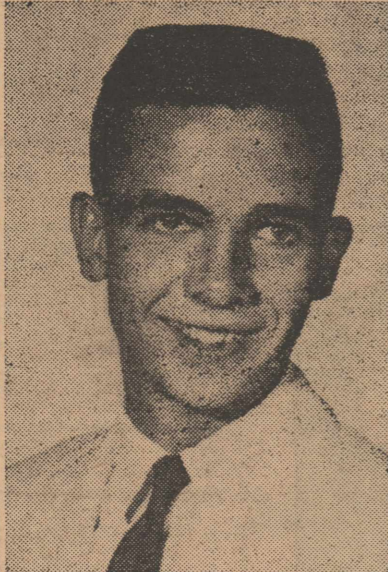

It is a real comfort to us to know that we can get the Attorney General to come to our town and county, even if it is for a friendly visit!

A capacity crowd is expected and tickets for the affair are on sale now by all Lions Club members. Price is \$1.50 per person and the proceeds will be used for Lions Club worthwhile projects.

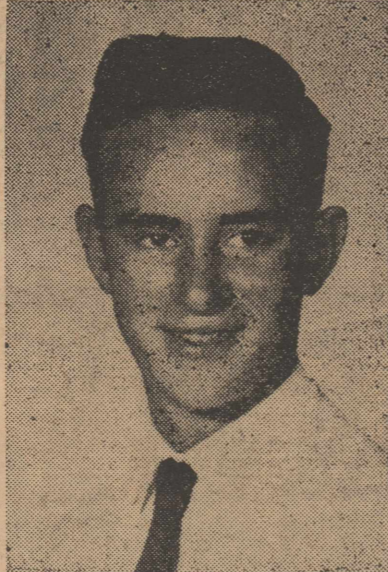

TAKES STAND — America's farmers, wheat men, anyway, had their say at the polls Tuesday and said they wanted to run their business their way. Not being a farmer we have no idea how we would have voted, but we do believe that if someone lends money and support, they always have a say... Like the old saying—the boss may not always be right, but he is always the boss.

STILL ROLLIN' ALONG — O'Brien high school brought the baseball team home with all the honors a team can get from the Lubbock meet and we feel certain the schools that have taken a back seat to the O'Brien kids will be happy to know that school is just about out for another year.

Soil Stewardship Week May 19-26

Jack Idol, chairman of the Wichita Brazos Soil Conservation District has announced that our local district will join other Soil Conservation districts throughout the nation in observing Soil Stewardship Week, May 19-26. Local ministers in the district have been asked to observe this event by delivering Soil Stewardship sermons during the week.

The theme for 1963 is "Eyes to the Future."

As the steward of the soil looks ahead to estimate the breadth and nature of oncoming resource pressures, and how best to cope with them, his task is surely a formidable one. Arrayed against him are the forces of economic might, greed, irresponsibility, ignorance, public apathy, and the chronic peril of short-sighted, impetuous decision. Even without these antagonists, however, the resource-people adjustment ahead would still pose a severe test of the

steward's vision and capability.

Here there can be no reliance on men of faint heart or little faith. These are circumstances calling for unswerving dedication and a full share of the faith of our founding fathers who proclaimed, "In God We Trust," Idol continued.

The earth is the Lord's and it is His will that the earth be nurtured and wisely used by His faithful stewards for the well-being of all His children.

Through his faith in God, the steward finds added strength. He knows that God is worthy of His trust. In the coming test of our dedication, we can and do rely on Him. As His Stewards, we have faith in His inspiration; our confidence is in His guidance, Idol said.

Because Star Buildings are pre-engineered, fabricated and painted at the factory, you'll save time and money on erection costs and maintenance. Insurance rates are low and construction permits the use of glass, tile, masonry or wood in creating an attractive, custom appearance. Clear-span widths up to 130' provide unobstructed, post-free interior floor space. Every building is warranted for 5 long years and can be financed for up to 10 years. KC Tracksters Attend Meet In Abilene Saturday

Coach Curtis Hines and eight Knox City tracksters attended the West Texas Federation Track and Field Meet at Abilene Christian College Saturday.

The sprint relay team set a new school record but placed sixth in the high school division of the meet. The team composed of Eddie Williams, Doug Logsdon, Johnny Montandon and Jimmy Reyes ran a 46 flat.

The mile relay team also set a new school record and placed fifth in the meet. Team members were Reyes, Montandon, Logsdon and Ronnie Worley. They ran a 3:35 flat.

Brack Shaver and Carl Brock

entered the low and high hurdles. Montandon ran the high hurdles. Freddie Smith and Montandon threw the shot put. Smith placed third with a throw of 49' 9 3/4".

Williams and Logsdon entered the 220 yard dash.

This was the final meet of the season. Plans are under way, Coach Hines said, for the track members to enter some summer meets.

The team held an ice cream party at Mansfields Park Tuesday afternoon.

Something new in **FRIGIDAIRE** refrigerators

YOU BET!

Think back over recent developments in flameless electric refrigerators. Freezing compartments have grown steadily larger reducing the refrigerated area. At the same time home freezers have gone into countless homes. Result? Lack of adequate refrigerated food storage space. Well... here's the answer... Frigidaire's new "Mini-Freeze" refrigerator! It's designed strictly for the housewife with a home freezer, for it has 96% refrigerator space and only 4% freezer space for ice cubes and the like. This new innovation can be yours for a small down payment and sensible monthly terms—even less with trade-in. Call West Texas Utilities today—or better still, go by and see the sensational new Frigidaire "Mini-Freeze" refrigerator.

Again we are eating our bread with joy. Therefore with joy shall ye draw water out of the wells of salvation. The Meek shall increase their joy. The servants of the Lord sing for joy of heart. There is a light in the eyes of a Christian that reveals loving kindness, and poyfulness. For joy is the heavenly O K of the inner life of power. It will

make you realize that you have power to meet all of the responsibilities of life. Even though your faith is tested, though it be tried by fire; you know the afflictions are more precious than gold that perisheth. The love of Christ banishes all sorrows and you rejoice with joy unspeakable and full of glory.

Many Texas drivers who carry insurance will need to notify their agents to increase their public liability insurance after August 24.

By the narrowest of margins—a single vote—the House adopted a bill by Rep. Bob Fairchild of Center to raise the bodily injury insurance or security requirements under the driver financial responsibility law from \$5,000 for one person and \$10,000 for two or more to double those amounts.

Estimates are that it will cost the average driver about \$5 a year for the extra coverage. This will enable him to keep his driver's license and car license should he be involved in a collision in which someone is hurt.

It was a hard fought issue in the House. But Fairchild won, 68-67, with the vote of Speaker Byron Tunnell breaking the tie.

In the Senate, passage was by voice vote, with 12 Senators recording themselves as voting no.

Argument for the bill is that it would bring requirements up to a more modern figure. Court judgements in personal injury cases, resulting from auto collisions, often exceed \$5,000.

Argument against it, voiced by Eligio de la Garza of McAllen, was that 35 per cent of the drivers cannot afford to carry liability insurance at present rates. So there will be even more uninsured motorists on the highways after the Fairchild law takes effect.

WIND-UP — Regular session of the 58th Legislature ends Friday. That's three days earlier

than the constitutional requirement. Hundreds of the 1,500 proposed new laws submitted by the 181 legislators were left to die in committees and on the crowded calendars of both houses.

Other hundreds will become law when Gov. John Connally signs them. Rush of business at the session's end is pouring them into his office by the score.

All legislative proposals are important to someone. In a few cases, it is a single person.

One proposal would allow a newspaper editor to practice law. It was killed on the floor. Another would permit the practice of architecture, by a qualified person who failed to apply for a license before the deadline arrived. It died in committee.

But the major issues of the session appear to be fairly well settled.

COURTS — An exception is judicial redistricting.

Rep. Henry Stollenwerck, a Republican from Dallas, vainly tried to move some rural district courts to the cities. This to follow the people who have moved into the population centers.

Stollenwerck presented statistics showing that some courts are handling only 150 cases a year, while others in major cities have towering caseloads even after disposing of five times that many cases a year. Bill was killed in committee.

Rep. Bob Johnson of Dallas persuaded the House to pass a bill under which a judicial redistricting board, made up of the Lieutenant Governor, House

Speaker and Attorney General, would reapportion district courts if the Legislature did not. Bill died in the Senate.

HOUSE MINORITY LEADER — In the waning days of the session, House Republicans ceremoniously announced their 8-member delegation leader, Rep. Horace B. Houston of Dallas.

Houston has some sort of seniority since he previously served a term when he ran as a Democrat.

Speaker Byron Tunnell quipped, "From now on, when you folks have complaints about your bills, you can take your troubles to the House minority leader."

Houston then cast his first vote as G. O. P. leader in favor of extending the Veterans Land Program, while his followers cast votes against it.

MORE JUNIOR COLLEGES — State Board of Education named a committee to study Snyder's

request for a junior college. Appointees were Penrose B. Metcalfe of San Angelo, Herbert O. Willborn of Amarillo, and Paul Mathews of Greenville. Committee will meet on May 31, in San Angelo.

Recently, the board authorized a junior college election for Travis County voters. Claim is that even though the University of Texas is in Travis County, entrance requirements are too stiff for many local youngsters to enroll.

BILLS SIGNED — In recent days Gov. Connally has signed into law bills that make San Angelo and Pan American colleges state-supported, senior colleges; authorize commissioners courts to appropriate monies for historical markers and monuments; provide for annexation by municipalities; authorize a 70-mile speed limit; and allow weekly newspapers to miss two

issues a year and still retain their legality.

Also, change the name of A & M College to Texas A&M University; authorize counties to issue bonds to establish homes for the needy; and provide for emergency succession to state offices in the event of an attack or a disaster.

ROAD RACE — Texas and Oklahoma are running a friendly race to close the gap between Wichita Falls and Oklahoma City.

Texas highway builders are aiming for an early June, 1964, completion date on the Red River Valley Expressway between Wichita Falls and the Red River.

Oklahoma has set the same target for completion of a Southwestern Turnpike project between Oklahoma City and the terminal point of the Texas expressway.

"Only good fly is a dead fly!"

ORTHO has two sprays—a fog spray and an all-purpose spray—that kill flies fast and sure. Without harmful residues.

You know what a hassle fly killing can be. You want a spray that's effective. But you don't want to have to hide your animals in the next county. And you don't want a spray that's so gentle every other fly gets away.

The two fly killers made by ORTHO take care of both problems. Their main ingredient is DIBROM, a remarkable insecticide that kills flies outright—without harmful residues. DIBROM doesn't just knock flies down—it knocks them stone cold dead. Even if they're resistant to other sprays.

And because they contain DIBROM, both these fly killers are registered to spray over and around cattle. You can spray in a barn without taking the cows out, or a poultry house without removing the birds.

So if you use a fog sprayer, try new ORTHO DIBROM Fly Spray. It comes already

mixed—you just pour it from the can. And it kills the flies that a lot of fog sprays miss.

If you want an all-purpose concentrate, for use through a pressure sprayer, or as a dry bait or a wet bait, use ORTHO Fly Killer D. (The D is for DIBROM.) Diluted with water, a quart of Fly Killer D makes up to 40 gallons of ready spray. And costs less than 22 cents a gallon.

Uncle Ben from Benjamin says:

DEAR MISTER EDITOR:

Zeke Grubb's preacher come by the country store Saturday night, reported that things was going pritty good at his church these days. There fer a spell, he said, the money situation was mighty bad and he figgered he'd have to git on the welfare roll if the offerings didn't pick up. He told the fellers he wasn't grumblin', that it was just like Hezekiah Adams said, most of the Church members has been in a bind. Some of 'em has bought new cars, a few has been forced to take fishing trips, and a couple members was even tricked into buying color TV sets.

But, the good Parson announced, him and the deacons has got it all straightened out now. They had a meeting, and decided on a new kind of giving. Seeing as how everybody has gone on the credit card system, the Deacons voted to have some credit cards made up with the Church's name on 'em. Two Sundays ago they give ever member a card and folks couldn't wait till preaching was over to use their credit card.

He said they had a little machine in the back of the Church and they put the credit cards in and when they pull the lever it stamps a piece of paper showing how much they owe. It was wonderful, he said, to see the members line up to git their credit cards punched. Farthermore, he pointed out, nobody that has any respect fer hisself or his reputation wants to lose his credit card and he predicted they wouldn't have no trouble

collecting come the first of the month.

He told the fellers the Deacons was also checking on them bubble gum machines. They seem to think the Church might pick up a little money by putting some of 'em around the walls of the Church, special fer the kids. Taking it all in all, he allowed, with credit cards and bubble gum machines, his little church might git famous fer stabilizing finances in the field of religion.

He also reported that they got them cushions put in the church pews. He said they didn't help the attendance none but them that was attending was setting up straighter and listening better. And, he noted, Big Slim was sleeping much better. In fact, he said, Big Slim give him a good scare last Sunday, . . . thought he was going to have to call the undertaker fer him. He couldn't see him breathing and he figgered he was a goner fer shore. But Big Slim's old lady gouged him in the ribs with her boney elbow and he come around okay in time fer the Benediction.

The good Parson left a little early, said he was working on a sermon fer "adults only," told the fellers he got the idea from seeing crowds they got at the picture show with that gimmick. He said he aimed to give his sermon fer "adults only" a catchy title, like "Adam and Eve Before the Ape."

Yours truly,
Uncle Ben

FHA Plans Cotton Insect Control Prog.

Due to the extensive damage caused by cotton boll weevils in the rolling plains this past year, the Farmers Home Administration has been called upon to finance a large number of farmers for their 1963 crop.

In an attempt to prevent a recurrence of last year's loss, Wilburn A. Satterwhite, FHA supervisor serving Baylor, Throckmorton, and Knox Counties, announced here this week that several FHA borrowers have planted a few rows of cotton extremely early to be used as a trap crop in determining the extent of cotton boll weevil survival in the area.

If overwintering weevils attack the trap crops in sufficient numbers, then all FHA borrowers will apply two early season applications of poison to their regular crop in order to destroy the emerging weevils and thereby prevent the late season build-up which did so much damage to the area cotton crop the past year. This is the control system that has been used by successful farmers in the blacklands area of Texas for a number of years.

and 27th a number of entomologists from the Plant Pest Control Division of the Department of Agriculture, the State Department of Agriculture and the Texas Extension Service will conduct a survey under the direction of Dr. J. C. Gaines, Head Department of Entomology Texas A&M College, for the purpose of determining the survival and investigation rate of overwinter-

ing weevils in the trap crops. L. J. Cappleman, State Director of Farmers Home Administration, has advised that FHA borrowers in some 29 counties in the rolling plains area of the state have cooperated in the trap crop planting program and, if the entomologists find that conditions warrant, then all FHA borrowers will follow the early season control program.

Summer's coming, get going!

If this isn't a great time to get yourself a new Chevrolet—well, we just don't know when is. Why, you'd almost have to be anti-summer not to let one of these four convertibles get to you. Or any of Chevrolet's sedans, wagons, sport coupes and sport sedans, for that matter.

And there are a lot of other buy-now reasons besides the season. Like the care-free feeling you get on

a long vacation trip in a brand-new car. And it's a smart time to trade, what with your Chevrolet dealer all stocked up for a busy summer. Chances are, he has just the model and color you want—be it Chevrolet, Chevy II, Corvair or Corvette—ready to go right now.

So maybe now you're all wound up? Then spring into summer at your Chevrolet dealer's.
