VOLUME 58

KNOX CITY, KNOX COUNTY, TEXAS, THURSDAY, JULY 25, 1963

TEN CENTS PER COPY

NUMBER 35

The other day four or five of us with different business backgrounds and interests were kidding each other on how easy the other's way of making a living seemed to us.

One of the group, a farmer, received a lot of joshing, naturally, but during an honest moment, we discovered that even that type of "two months work a year" isn't all peaches and cream.

We learned at an early age, after working at four varied trades and professions plus several years in a drug store that there just ain't, pardon the expression, no easy job.

Back in '36 we worked a minimum of 70 hours a week for \$5.—before withholding tax, naturally.

Typical workday Saturday, we went to work at 7 a.m.—had an hour off for a ten cent hamburger and another hour off for another one at supper and if we were on the ball and lucky, we got off work at 1 a.m.

At the time we always wondered why folks couldn't get their ten or fifteen cent allowances spent before midnight.

Today, thank goodness, we are learning that we CAN get things done in less time and have more free time to spend at things other than a living, that is as a whole, anyway.

We honestly believe that a drug store and a grocery store is the best place in which to really learn people, their likes, dislikes and idiosyncrasies. No doubt folks would be a lot easier to please, friendlier, and have a whole of a lot more tolerance, if they worked as a soda jerk, grocery clerk, and in the case of a girl, a waitress, for a few weeks.

QUOTE QUOTE — Below is a quote from Charlie Didway's "Thursday to Thursday" column in the Post Dispatch, which he quoted from some other paper and concerns a reader's responses about what he wants to see in his newspaper.

- 1) My name.
- 2) A front page article showing how crooked the city government is most of the time.
- 3) My wife's name.
- 4) A feature article showing 25 ways on how to cheat on income tax forms.
- 5) My kids' names.
- 6) A local news item about the affairs my neighbor is having.
- 7) A classified offering a new home for sale for \$4,000.
- 8) More news about lawbreakers.
- 9) Less news about lawbreakers. I was picked up last night and I should not have to pay a fine.
- 10) An editorial condemning high school teachers for being too liberal with "F's."
- 11) A wedding picture of the groom instead of the bride when he is more handsome than she is pretty.
- 12) A sports picture of me when I bowled 183.
- 13) More advertisements in items that the merchants are giving away.
- 14) A front page picture of my neighbor being hauled out of the bar by his wife.
- 15) A front page spread about the deadbeat who lives across the street from me who just had his car repossessed.
- 16) Forget the last one. I just got word from the finance company that they're coming after my car.
- 17) More letters to the editor naming the crooks we have in town.
- 18) A full page of local news, a page of national news, several pages of sports and comics, one page on divorcees and 3 pages on all the domestic trouble we are having in town.
- 19) Less stuff about how cute everybody else's kids are. My kids are better looking than those you rave about.
- 20) A complete biographical sketch about the "most important citizen in town," and be sure you spell my name right.

BREAKS ANKLE

Cleveland Hutchinson broke his ankle Monday and is home recuperating.

Uncle Ben from Benjamin says:

DEAR MISTER EDITOR:

I see by the papers where a feller in North Carolina sent the State Tax office a check for \$3, said he didn't owe no tax, but just "wanted to help out." They had to send the check back on account of they ain't got no legal machinery for the State accepting cash gifts.

The federal Government long ago pulled the stopper out of that jug and ever onct in a while I see where some feller has left his insurance money to Uncle Sam. Anybody that wants to "help out" in these matters ought to be encouraged, and I think ever State should have some sort of law to accommodate such a generous soul. Maybe they ought to have two laws, one fer accepting his money and another fer having his head examined.

And I see where a professor of chemistry in one of them big colleges is claiming that the worm in the apple is a "better source of vitamins" than the apple. Maybe it's the worm a day in the apple that has been keeping the doctor away all these years. I tell you, Mister Editor, life is getting complicated. Per-sonal, I may come down to the end of days a little short on vitamins but I aim to keep on eating the apple and dodging the worm.

Well, I note where the post offices all over the nation has final had to destroy around 580,000,000 of them old 3-cent post cards. The post office folks knowed a year ago the post cards was going up to 4 cent, and the law was passed back in September, 4 months afore it went into effect in January. But they still had hundreds of millions of them 3-centers on hand. I reckon this is what you would call our usual careful Government planning.

I bring this item up at the country store Saturday night and Zeke Grubb said fer me not to git alarmed over the matter, that this was due to our standard stockpiling procedure. Zeke Allowed as how the Social Security folks, fer instant, has probable got enough printed cards already in storage to take care of our population till 10 year beyond eternity. He figgers if they would change the form real sud-

den, it would take 16 battleships from now till next January hauling 'em out to sea and dumping 'em.

Ed Doolittle took sides with Zeke, claimed we couldn't git no place without good, standard stockpiling procedures. Furthermore, Ed pointed out, big firms like General Motors is careless that way, don't stockpile except fer the next year, but our Government stockpiles fer the next generation. On account of the next generation is going to have to pay the bill, Ed claims the Government is following a sound phiscal policy in these matters.

Yours truly,

Uncle Ben

Karen Graham And Ronald Voss Wed

Karen Lynn Graham, daughter of Mr. and Mrs. Doyle Graham, and Ronald Voss, son of Mr. and Mrs. Clyde Voss, were married in the Knox City Methodist Church Saturday, July 20, at 10 a.m.

Rev. Jarrell Sharp, pastor, performed the double ring ceremony. Preceding the ceremony, Samantha Graham presented traditional wedding music.

The bride was given in marriage by her father. She wore a ballerina length white gown fashioned of slipper satin, nylon tulle and chantilly lace designed with a sabrina neckline. Sequins and seed pearls decorated the bodice and front panel of the skirt.

Her fingertip veil was attached to a crown of sequins and pearls.

Karen Graham Is Honored With Party In Waldrip Home

A gift party Saturday afternoon in the home of Mrs. Lloyd Waldrip was a compliment to Karen Graham, bride-elect of Ronald Voss.

Mrs. Waldrip presented guests to the honoree, her mother, Mrs. Doyle Graham, Mrs. Clyde Voss, mother of the future bridegroom and the couple's grandmothers, Mrs. L. W. Graham and Mrs. D. H. Henry.

Mrs. Jerry Benson of Seymour registered guests. Virginia White directed them to the dining area where Samantha Graham and Martha Kay Waldrip served from a table covered with a white cloth over blue and centered with a blue and white floral arrangement.

Carroll Tankersley played piano selections during the party hours.

Displaying gifts were Mrs. Joe Tidwell, Mrs. Udrice Lea, Mrs. H. G. Bankston, Linda Reed, and Andrea Hudson.

Hostesses were mothers of members of the 1963 graduating class of Knox City High School.

The couple was married Saturday, July 20, in the Knox City Methodist Church.

CARD OF THANKS
I would like to express my sincere appreciation to all of you who visited me, for all the lovely cards and flowers, and the donations while I was in Hendrix Hospital in Abilene.
Mrs. D. B. Cummings

CARD OF THANKS
We would like to express our sincere thanks to everyone for the food, flowers and other expressions of sympathy in our hour of need.
Your expressions will long be remembered and our wish and prayer is that God will send His richest blessings to all of you.
Mrs. Ross West and Families

THANKS
We would like to take this opportunity to thank each and everyone of you for the many kindnesses you have shown us during the past three years. As we leave August first for the Lord's work in Mt. Hood, Oregon, it will be with sadness at leaving such wonderful friends. We have enjoyed working here in Knox City, not only with the members of the Church of Christ but also with our many friends of the community.

Every time we think of Knox City our memories will be happy ones because you have opened your hearts and homes to us. Thank you again, and may God's richest blessings abide and travel with you.
In Christian love,
Mr. and Mrs. Roger A. White

She carried a colonial bouquet of white roses.

Mrs. Richard Goodson of Fort Worth, sister of the bride, was matron of honor. She wore a pale blue voile dress with embroidered bodice and three-quarter sleeves. She carried a nosegay of camellias and small mums.

Jerry Benson of Seymour was best man, and ushers were Richard Goodson and Paul Ware Graham, the bride's brother.

A reception was held in Fellowship Hall of the church following the ceremony. After a wedding trip to Lake Murray, Okla., and Fort Worth, the couple will live in Knox City until September when they will both attend McMurry College.

Both are graduates of Knox City High School and the groom attended McMurry last year.

Karen Graham Is Shower Honoree

Samantha Graham was hostess at her home Monday, July 15, for the senior girls honoring her cousin, Karen Graham, who is now Mrs. Ronald Voss.

She received a beautiful handkerchief to carry at her wedding Saturday, July 20.

The girls also prepared blue and white rice bags which were used at the reception.

Tuesday, July 16, a kitchen shower was held in Mrs. Voss' honor at the home of Mr. and Mrs. Claud Reed with Mrs. Joe Tidwell, Linda Reed and Martha Kay Waldrip as hostesses.

Streams In Desert Places

A Stream of Dynamic Living Life flows to us from the Word of God. We find this promise in Deuteronomy the 30th chapter, "I have set before you life and death . . . therefore choose life, that both thou and thy seed may live . . . love the Lord thy God . . . obey his voice, and cleave unto him; for he is life, and the length of thy days." (Deut. 30: 19-20.)

God is our creator and our recreator. As long as we are in unbroken contact with him the life force is strong within us. If we turn aside to other things, the life flow from God is reduced and we become weak, in energy, health as well as spiritual power. Through the WORD we find the recreative process which restores power and energy. We simply go back to where we left our Lord and love Him, obey His voice, cleave unto Him, and He will truly be "thy life, and the length of thy days." If you want more out of life, simply have more life in you by taking His WORD.

Martha Jo Miller And Jack Idol Jr., Wed July 16

Martha Jo Miller of Hobbs, N. M., and Jack Idol Jr., were wed in a double ring ceremony Tuesday evening, July 16, in the home of the grooms parents.

Rev. Graham Barries performed the ceremony.

The bride is the daughter of Mr. and Mrs. Vonden Marshall of Hobbs, N. M., and the groom is the son of Mr. and Mrs. Jack C. Idol Sr., of Benjamin.

The bride was given in marriage by her father.

The bride wore a street length gown of cotton brocade and carried a bouquet of white carnations.

The groom was attended by his brother, Gordon Bobby Idol.

The couple are students at Abilene Christian College.

Punch and cake was served at the reception following the ceremony.

After a wedding trip to Dallas, the couple will be at home at the League Ranch.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN — Gov. John Connally says Texas is making a lot of progress on civil rights with-out demonstrations and disturbances. He urged Texans to avoid the trouble which is plaguing other states.

Roy Evans, secretary of Texas State AFL-CIO, indicated mass demonstrations are needed in Lower Rio Grande Valley to improve working conditions of Mexican workers. Connally commented such statements are irresponsible and inflammatory.

Gov. Connally also rejected labor's appeal for a special session of the legislature to abolish right-to-work law and enact state minimum wage, saying he saw "no need, emergency or desirability" for such a session.

Evans said labor's traditional role is to try to inflame people against injustice, and he intends to keep on trying to do that.

QUICK CHANGE — From one of the unpaid boss jobs to a \$16,500-a-year assistantship is the story of Dr. J. B. Copeland of San Antonio.

When the Legislature created

the new job of deputy commissioner of the Health Department, Dr. Copeland resigned as chairman of the State Board of Health to accept the job of deputy commissioner. He had been Chairman for the past ten years.

Governor Connally named Dr. N. L. Barker of Paris to replace Dr. Copeland. He re-appointed Dr. Elmer Baum of Austin and named Dr. John M. Smith of San Antonio and I. D. Flores of Floresville, a pharmacist, to the Board of Health.

APPOINTMENTS — Connally made other appointments. Among them:

S. A. Kerr of Huntsville and Dr. Joe A. Nelson of Weatherford, reappointments, and David A. Kimbell, Wichita Falls, to the board of regents of North Texas

Ed Minor of Austin State University, and others throughout the state.

LOANS — Frank Miskell of Austin, who headed up the Texas Legislature's studies on the loan shark problem, will be the administrator of the new law which regulates licensed lenders.

Miskell was chosen by the

State Finance Commission to be the first Regulatory Commissioner. He will assume his new duties on August 23.

DRY AND WET — Texas is spotted with drought and flood points.

Texas Water Commission found that reservoirs declined a little in June. They wound up the month 76 per cent full, so there's room to store more floods when and if they come.

In general, Northeast Texas reservoirs are full, while those in South Texas are shrinking.

ROADS — Highway construction is one thing dry weather helps.

State Highway Engineer DeWitt C. Greer reported that contractors on state-federal projects completed \$24,073,319 worth of work during June.

But there's plenty yet to do. They hold contracts which total \$382,872,803 and another \$25,000,000 worth of contracts will be issued this week.

DO FENCE THEM IN — Texas Highway Department has endorsed the idea of building "median rails" on busy urban expressways.

Rails—heavy-duty fences which keep traffic from careening into opposite lanes—have been or will be installed on expressways around Houston, Fort Worth and Austin.

Also under development by highway engineers is a woven-wire mesh fence—similar to the backyard chain-link jobs—to reduce headlight glare and prevent pedestrians from crossing freeways.

OIL HOLDS UP—Despite recommendations by several major oil buying firms that Texas production be cut in August, the Railroad Commission held the line.

Production will continue at the July rate of 28.5 per cent of capability of the wells. Independents praised the action.

HIGHER EDUCATION — Texas Committee on Education Beyond the High School has selected one of its members as paid executive director.

He is Dr. A. B. Martin, president of Amarillo Junior College. He will coordinate all staff work for the big study.

Committee has one year to finish its study and report to the Governor and Legislature.

SADLER ACTIVE — Land Commissioner Jerry Sadler continues to be much in the news. Sadler disagreed with Gov.

Connally and Atty Gen. Waggoner Carr on seriousness of a state-federal dispute on reclaimed lands in the tidelands; swapped hot wires with ex-Sen. Bob Baker after he accused him of impeding Padre Island Seashore project; and insisted that Carr get Supreme Court concurrence on Carr's ruling that a new law reorganizing the School Land Board is valid.

POLLUTION QUESTION — Texas Water Pollution Control Board granted a permit to discharge thousands of gallons of "treated effluent" into the waters of Copano and Aransas Bays in connection with plans for a big new resort motel and marina at Lamar Townsite, Aransas County.

Objections voiced at public

hearings led to the Commissions action in instructing backers of the project — American Liberty Oil Co. — to expand the point of discharge 500 feet farther out into the bay area.

STATE SCHOOL — Dr. James Turman, director of the Texas Youth Council, defended his council's action in either firing—or retiring—Superintendent O. F. Perry of Gatesville State School.

Perry and his supporters claim too much interference from Austin, too little discipline of boys. Youth Council denies this, contends policy differences caused the dismissal.

M. B. Kendrick was named to replace Perry.

has been spent
recently for industrial
construction in our
service area.

Even today, \$28,000,000 is a lot of money. But a survey shows that this vast amount has been spent recently for construction of new industrial plants in our service area, and for expansion of existing ones.

The figure is evidence of two things. One is that our service area is becoming more and more industrialized. The other is that when we say "The Center of the Southwest" is one of the Nation's fastest growing regions, we have the facts to back it up.

The industrial figure is one fact. The commercial and civic improvement figures are others. Day by day we become more than ever convinced that this region faces growth unlimited.

... more proof that
the Center of the Southwest
is one of the Nation's
fastest growing regions.

FARM and RANCH Notes

JOE W. DOBY
COUNTY AGRICULTURAL AGENT

The brucellosis testing crews report they are making good progress in their first week of work in Knox County. Five men are doing the bleeding full time with another man working three days a week. They are each working in a small area of the county. When that area is finished, they will then move on to another.

Entomologists tell us we may be in for lots of damage from the sorghum midge this year on late planted maize. The midge is a tiny orange colored fly. The adult female lays her eggs on the seed husks. The eggs hatch into a tiny larvae and this is the stage that does the damage.

The maggots hatch, eat their way into the developing seed. The seed head will have a blasted appearance with little or no grain depending upon the degree of infestation.

The midge population builds up on early planted maize, Johnson grass, Sorghum Alum and related plants. The early maize usually gets by without damage, but the late plantings usually suffer the most damage.

The only way to control this insect with chemicals is to spray the field when 90 per cent of the heads have emerged. The adults will then be killed when they lay eggs. If a person waits until damage is evident, then it is too late.

The following chemicals and rates of application are recommended, each is equally effective: (1) Endrin (1.6 lb.-gal.) 1 1/4 pints per acre. Do not apply within 35 days of harvest. (2) Texaphene (6 lbs.-gal.) 1 1/3 to one-half gallon per acre. Apply only once. Do not ensile crop or graze animals being finished for slaughter. (3) Serrin (80 per cent wettable powder) 1 1/4 to 2 1/2 lbs. per acre. Serrin may be applied to forage sorghums without limitations. Allow 21 days between last application and harvest.

I would like to report on the use of the plastic mulch demonstrations on the Herb Partridge and James Smith farm this summer. The soil on Herb's is deep sand. The plastic mulch was applied by machine, the edges covered and seed planted, all in one operation. Forty-eight inch beds were made and the plastic applied on these. Two rows were planted on each bed. Herb planted Wescan and Imperial 45 cantaloupes, and Polaris cucumbers.

James Smith's farm is east of Munday on a heavier soil. James

planted Imperial 45 cucumbers. The first conclusion drawn was that herbicide would have to be applied in the middles as they can not be cultivated due to the plastic. The plastic must be applied early and the growth must cover the plastic before the weather becomes very hot. Otherwise, the plastic absorbs too much heat. The beds need to be irrigated before the plastic is applied, as it is difficult to do later.

The plastic did stop Johnson grass, however. It pushed the plastic up; but if there were no holes for it to grow through, it finally died.

Vegetables grown on plastic will be ten days to two weeks earlier, and this is the big selling point. The high cost of the plastic makes it essential that the grower apply all agronomic practices that will enable him to produce a quality product. Plastic mulching does have

a place in vegetable production in this area if the growers will use it as another tool in the production of quality vegetables.

Beef Cattle Short Course is July 29-31 at Texas A&M College. This is always an outstanding program and is worth any cattleman's time to attend.

The Internal Revenue Service tells me many farmers believe that if they sell their farm, tractor or any other capital asset, they do not owe any tax of they re-invest the proceeds in like property. This is not true in the case of voluntary sales. The only benefit the farmer would gain from a voluntary sale of this farm even if he bought a new farm with the proceeds, is a possible capital gain. Get the tax facts before engaging in any transaction.

THANKS

FRIENDS ---

I have enjoyed the five years I have lived in K C and would like to take this means of thanking the people of this area for their splendid acceptance.

Have sold my interest to Charles Lankford and I know that if he receives one-half the help from the people that I've received, his business will be an outstanding success.

Thanks, again, for everything.

Jack Arledge

GENERAL TELEPHONE TOWNS ON THE MOVE

Frost Initiative Secures new Industry

A population of less than one thousand proved no handicap to Frost, Texas, when its aggressive citizens set out to secure new industry.

Today, Frost Manufacturing Co. of Texas, makers of women's fashions, is a thriving industry employing 40 people and with an expansion program planned for the near future. It is another reason we say big things

are happening in General Telephone towns

These towns are on the move. Community improvements are under way, local resources are being developed, new businesses, new industries are coming in. If your town seeks additional information about expansion perhaps we can help. Just write our Community Development Department, Box 1001, San Angelo, Texas.
