

Candidates Mother Dies In Goree

Mrs. Dora Price Bowles, 84, Goree resident, died at home Wednesday of last week. Funeral services were held Thursday in the First Baptist Church in Goree with Rev. Benny Hagan, pastor, officiating, with burial in Goree Cemetery.

Mrs. Bowles was born Dec. 21, 1879, in Navarro County, Texas. Her parents, Mr. and Mrs. T. M. (Red) Price moved to Knox County in 1902, where Mr. Price was a farmer and the owner and operator of cotton gins. Mrs. Bowles married Mr. C. C. Tolson in 1904. To them was born one son, J. P. (Buster) Tolson. C. C. Tolson died in 1911 and Mrs. Bowles married Mr. D. A. Bowles of Barmont in 1921. He died in 1954.

Mrs. Bowles was an active member of the Baptist Church, having joined in 1895.

She is survived by one son, Buster Tolson of Benjamin, three grand children, and nine great-grandchildren; a brother, Tom Price of Munday; two sisters, Mrs. A. H. Golden of Seymour and Mrs. Sunset Boone of Lubbock.

Dunbar Student Wins Top Place In Scholastic Meet

Peggy Boozer won Division I rating in the state Interscholastic League meet held in Prairie View A&M College last Saturday.

A Division I has a rating of superior, or is equivalent to a score of 95 to 100. She now holds two state awards in music.

Other places won in the state meet were second in senior spelling, Gloria Beck and Dorothy Moore; and fourth in senior declamation, by Robert Bradley.

Jack Hightower Issues Statement To The Voters

Jack Hightower of Vernon has announced his platform on issues of importance to come before the next legislature of Texas.

Hightower, former Texas representative, is a candidate for Texas Senate post now held by retiring Senator George Mofett.

Hightower's statement is as follows:

"Strong public education is important to all the people of Texas. As your Senator, I will work to safeguard and improve education for all our people, from grade school through graduate school. The God-given talents and abilities of our young people must be developed to answer the challenge of new industry in Texas.

"We all know that congressional reapportionment is long over-due. As your senator, I will work in the legislature to re-district in a fair and just manner.

"As senator of this district, I will work for a solution to the problems of statewide water conservation and development.

"Some adjustments must be made in the sales tax. I believe that it can be handled more fairly than it has been in the past.

"From my experience in the legislature, I am well aware that our problems grow more difficult each year. If you elect me your Senator, I will serve with diligence and fidelity to provide for the honest needs of our own district and the cause of good government.

"In more than eleven years of public service, I have found that the people of our district recognize honest effort. As your senator, I will be mindful of your confidence, and I will do my very best to merit the support of all the people in this district."

ANOTHER FIRST FOR KNOX CITY—Is admired by the above students and was won by the Knox City Band at Vernon last Saturday. The trophy is the Sweepstakes award for the best Class B Band. From left to right, admiring the coveted prize, are Ronnie White, Martha Kay Waldrip, Jinx Reeder and James Hopkins, band members.

Knox City High Wins Sweepstakes Award At Vernon

Knox City Greyhound Band won the coveted sweepstakes award for Class B schools at League meet in Vernon Saturday, which was the first time the school has won this honor.

The 50-piece band played at 8 a.m., ranking first in con-

cert and sight reading. A first place rating in the marching contest last fall counted toward the sweepstakes title.

Band Director Norman Arnett, completing his first year

with the Knox City schools, said he was very proud of the band for their accomplishment.

There were 38 bands, and 2,390 students competing in the contests Friday and Saturday.

Pastureland Needs To Be Grazed SCS Explains

Rangeland and pastureland should be grazed so that vigor and high production in plants are maintained.

A good cover of grass will be left on rangeland and pastures that are not overgrazed. Cover or a good turf is important to control erosion and to help conserve rainfall.

Plant food for growth of grass is made in the leaf of the grass. This is why production of grass declines on overgrazed grassland. Continued overgrazing will starve grass to death.

Proper use of rangeland and pastureland is achieved by keeping livestock in balance with the forage produced. A rule of thumb index to proper use on rangeland is an average stubble height of one and one-half inches for short grasses, and 4 to 7 inches of stubble height on mid and tall grasses at the end of the grazing season. Grazing on bermudagrass should be managed to leave a 5 inch stubble height during the growing season.

Spring and fall deferment is also needed on bermudagrass pastures. Pastures should be allowed to grow from 4 to 6 weeks to early booting stage each spring before grazing begins.

A fall deferment of from 3 to 4 weeks is needed at end of growing season to allow for maintenance of plant vigor.

Other conservation practices are needed on most rangeland and pastureland, but proper range use determine the success of other practices that might be carried out.

Sams Admitted To State Bar

Bill Sams, official court reporter of the 50th Judicial District, was notified by H. P. Stinley, secretary to the Board of Law Examiners, Monday night, that he had passed the state bar exam.

Sams will take the oath of office Monday.

The Herald will carry a complete account of the "Bill Sams Story" in next week's Herald.

Knox Countians Receive Large Amount From SS

More than 950 resident of Knox County are now receiving a monthly social security check according to figures released by Erton F. Tate, Wichita Falls, social security district manager.

Mr. Tate's report listed the number of Knox County beneficiaries as 984 at the end of 1963, an increase of 108 over the corresponding figure at the beginning of 1963. The dollar benefit amounts total more than \$657,768.00 yearly.

Retired workers are the largest single group of social security beneficiaries in the County. There are 528 in this group and their old-age insurance benefits total \$34,986.00 monthly. The following table shows the number and amount of the other monthly benefits paid in Knox County, as of December 31, 1963.

Retired Worker, 528, \$34,986.00; wife or husband, 207, \$6,937.00; widow or widower, 93, \$5,256.00; mothers and children, 127, \$5,351.00; disabled workers and dependents, 40, \$2,559.00. Total beneficiaries, 995; total amount of payments were \$55,089.00.

In releasing the figures, Mr. Tate pointed out that the social security benefits are important to the community as well as to the people who receive them. "It is a fact," he said, "that almost every dollar of social security benefits coming into the county is spent each month in local businesses for food clothing, shelter, and other essentials. In this way, the benefits have a stabilizing effect on the local economy."

Tate forecast that the number of social security beneficiaries will continue to increase in the future, but at a much slower rate than in the past ten years. He said that, nationally, the social security benefit rolls increased from about 5 million people in 1954 to more than 19 million at the end of 1963. This rapid growth in the beneficiary population resulted from major amendments to the Social Security Act from 1950 to 1961. He cited several amendments which extended social security coverage to self-employed business and professional men, farmers and agricultural workers, and other groups. As a result, several million people whose work was brought under social security are now receiving benefits. One change—lowering the age at which older people can get benefits from 65 to 62—accounts for 1.8 million out of the 19 million people now entitled to benefits. The amendments also introduced a new protection under social security—disability benefits—and 1.5 million disabled workers and their dependents now receive benefits under the disability provisions of the law.

Francis J. Stevens is the Field Representative who serves Knox City on a regularly scheduled basis.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Texans will have ample opportunity to give their views on how the state should be divided into 23 congressional districts of equal population.

A seven-member study group of Texas Legislative Council (research arm of the Legislature) plans to begin extensive hearings over the state soon after the May 2, primaries.

Congressmen and party officers already have been invited to make suggestions as to how districts should be drawn with approximately 416,000 population each.

U. S. Supreme Court has supported a Houston federal court ruling that the districts must be formed to provide "equal representation for equal numbers of people" as nearly as possible. The Houston court on April 1 agreed that the Legislature should have a chance to do the job in regular session of 1965.

Sen. George Moffett of Chillicothe, senior member of the Legislature in point of service, heads the study com. which will conduct the hearings. Other members are Sen. Abraham Kazen Jr., of Laredo and Reps. Paul Floyd of Houston, Tommy Shannon of Fort Worth, Wayne Gibbens of Breckenridge and Richard C. Slack of Pecos and

G. F. Mutscher of Brenham. Gov. John Connally praised Atty. Gen. Waggoner Carr for his representation of the state during the redistricting case. He said work of Carr and his assistants made it possible for the state to "hold our 1964 congressional elections without the requirement of a special session for at-large (statewide congressional) races."

COURT REFORMS — U. S. Supreme Court Justice Tom Clark came to Austin for the Texas Conference on Judicial Selection, Tenure and Administration, sponsored by the State Bar of Texas.

Two hundred and fifty persons judges and laymen talked about how to improve the Texas judicial system.

Court organization and administration, and judicial selection, tenure, retirement, discipline and removal were discussed.

Lawyers and judges from a dozen other states where court reforms have been enacted participated.

AGING — Governor Connally revealed that 1,400 of the 3,500 senile patients in state mental hospitals have been moved to private nursing homes in the last year.

He told his Committee on Aging that this is one method being used to better the lot of older, ill persons. Many have been sent to mental hospitals because there was no place for them to go. But under the new Federal-state program of paying nursing home costs of the ailing aged those not really mentally ill can be taken out of the state hospitals.

He urged the committee, headed by Sen. Walter Richter of Gonzales, to find further ways of bettering the lot of older Texans.

HIGHER EDUCATION—Tex-

as Commission on higher Education allocated \$13,980,000 in appropriations to meet student enrollment increases in the 20 state-supported senior colleges for the coming school year.

At the same time, the Commission took a step toward higher standards in the state colleges when it moved to abolish state financial support for "questionable" to "frill" college courses, including:

1. Courses not counted toward graduation requirements;
2. Tour or travel courses;
3. Certain "work experience" courses;
4. Dramatic and forensic activities not in regularly organized classes;
5. Courses devoted exclusively to learning operation of one or two simple business machines;
6. Social or self-improvement courses;
7. Remedial courses on the high school level not carrying college credit;
8. Orientation courses aimed at counseling or guidance of freshmen students.

Commission approved recommendations to strengthen graduate and research programs in the North Texas area and authorized new third and fourth-year courses for Angelo State College, in San Angelo.

COURTS SPEAK — Fifty-third District Judge Herman Jones granted the first injunction sought by the state to enforce the new small loan act.

Action was against E. L. Parker, operator of an Austin liquor store, whom Regulatory Loan Commissioner Frank Miskell alleged was lending money at rates in excess of 10 per cent without obtaining the required state license.

State Supreme Court knocked out a state law granting a landowner, whose property is surrounded by another's right of way across the neighbors land. Its decision, overturning lower courts, denied Baylor Co. rancher Wilmer Cleghorn authority to a road through the W. T. Waggoner ranch.

An El Paso army sergeant convinced the Supreme Court it should hear arguments on April 22 in his suit for Texas voting rights. Many servicemen have complained about state regulations which permit them to vote only in the county where they resided on entering service.

Texas Court of Criminal Appeals rejected the third appeal of Billie Sol Estes from an eight-year prison sentence for swindling. However, the court made technical corrections in its earlier opinion which enables Estes to file another motion for re-hearing.

Court of Criminal Appeals ordered a new trial for a Bandera County man convicted of sheep theft. He was sentenced to life imprisonment for the theft of one sheep after the jury learned he had two prior convictions for passing bad checks.

Court rule that state's attorneys had failed to prove the man's guilt, since the sheep-theft charge was filed by one rancher but testimony centered around "suspicious activities" of the convicted man in the pasture of another rancher who had not filed charges.

WATER — Oil operators in the New and Old Batson and Sour Lake Fields of Hardin County were given a warning by Texas Railroad Com. to dispose of their salt water "in satisfactory manner." However, the commission decided not to issue an order banning the use of open disposal pits.

THE JIM LANGDON FAMILY—Jim Langdon, Railroad Commissioner seeking re-election, poses here with his family on the University of Texas campus, where he graduated in 1940. Jim, Jr., 18, right is now a student there. Others in the family, left to right, are: Joe, 16; Jerry, 12; Judge Langdon; John 14; Mrs. Langdon, and Julie, 9.

ity asked for the hearing on the ground that oilfield salt water was polluting streams from which Beaumont and its industries get water.

VETERANS LAND SALE SET — Twenty-two forfeited veterans land tracts in seven counties will be offered for sale on May 12, Land Commissioner Jerry Sadler has announced.

Bids on the tracts in Guadalupe, Hidalgo, Maverick, Uvalde, Wilson, Zavala and Culberson Counties must be received at Sadler's office by 10 a.m. on date of sale.

OIL ALLOWABLE SET — Texas Railroad Commission set May oil production allowable at 2,800,000 barrels daily for prorated wells, based on production at 28.5 per cent of potential. That's an increase from the 29 per cent formula of the last three months and 2,900,000 barrels daily for April.

Figure still is the highest for May in the last five years.

Mrs. Ottis Cash Study Club Leader For April Program

Mrs. Ottis Cash was leader for the April 16 program of the 1946 Study Club meeting at the Woman's Club House.

The program was presented by girls from Knox City High School. Martha Kay Waldrip introduced Ila Kay Hutshinson, who gave a short history and purpose of the Knox City Unit of the Future Teachers of America.

Since the organization of the unit the group has won several awards of merit in District No. 7.

Glenda Cox, a junior student, is serving as secretary of the district at the present time. Mrs. Cash presented a vocal sextet composed of Belle Burnett, Kay Reeves, Paula Myers, Jan Sutton, Glenda Cox, Linda Reed and accompanied by Mrs. Kenneth Myers, who sang two numbers.

City homemaking teacher presented her freshmen sewing class who gave a fashion show wearing their spring dresses.

Mrs. George Davis presided at the business session. She announced the final meeting of the year would be a luncheon at noon on May 9, at the Club House.

Officers to serve for the next two years will be installed at this date.

Hostesses for the Thursday meeting were Mmes. L. N. Bridges, O. A. Green and E. Hob Smith.

RETURNS HOME

Mrs. Lula Hammons has returned home after four weeks spent with her son Mr. and Mrs. Doyle Hammons and family in Mobile, Ala. While there she visited the Bellingarth Gardens in Mobile, and visited her granddaughter, Janice Patterson in Leesville, Ala.

Jet-smooth Luxury Chevrolet makes roads feel as smooth as the maps they're printed on

Run your finger over a map and find yourself a place to go. That's a preview of how it feels to get there in a Chevrolet.

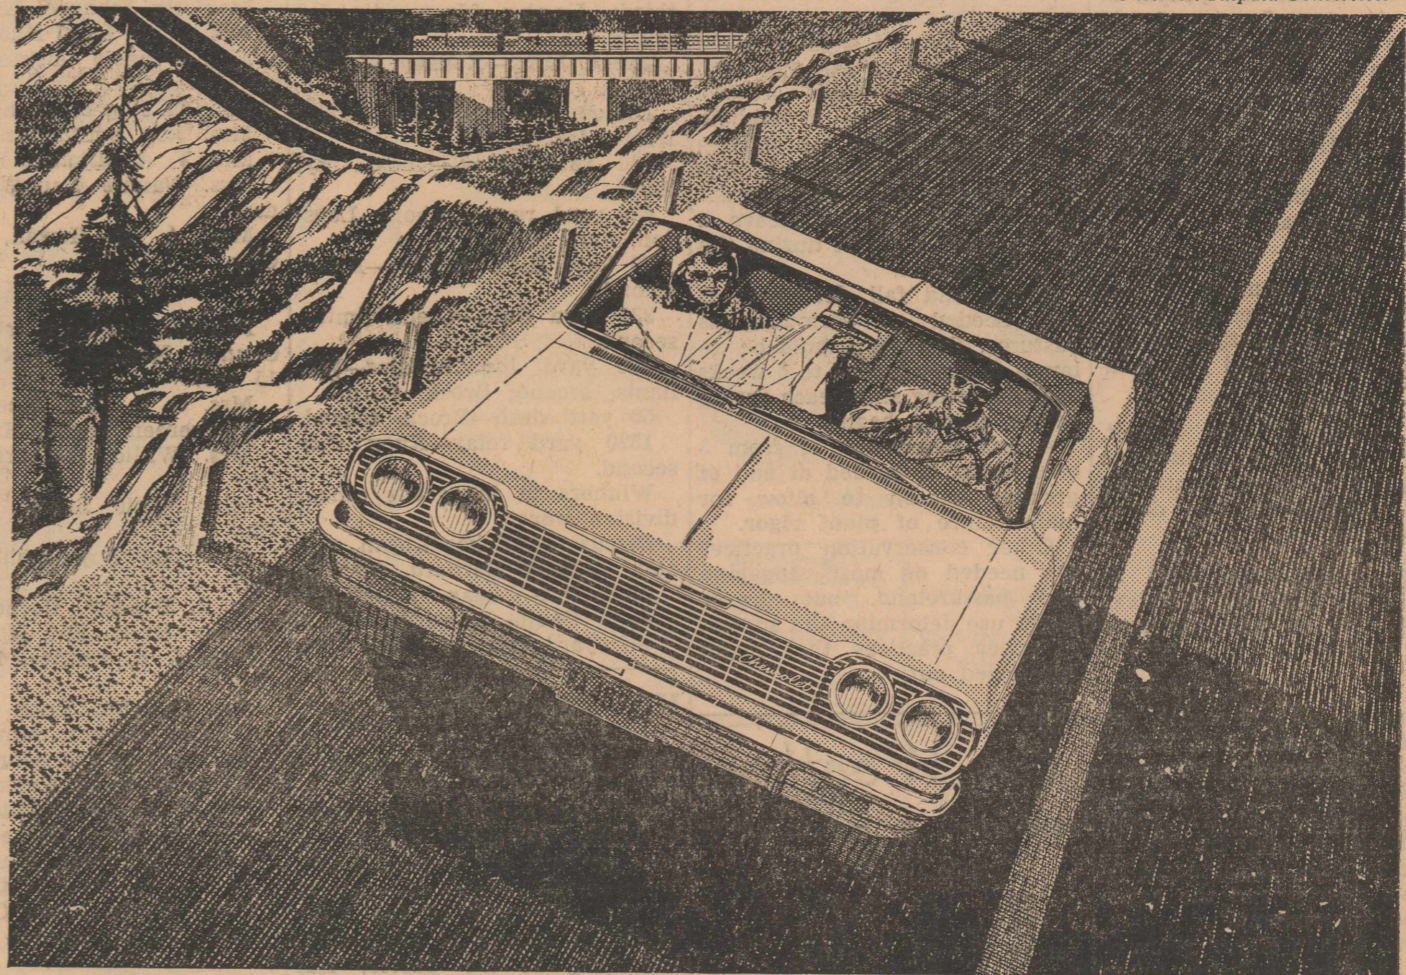

We've put what we think is the best suspension system in its class under this great highway performer. A big husky coil spring at each wheel and double-action shock absorbers to soak up bumps. Over 700 sound deadeners throughout the chassis and that spacious Body by Fisher to blot out noise from road and wind.

There's a lot of other Jet-smooth luxury, too. FOR THE GREAT HIGHWAY PERFORMERS

Wide seats with foam-cushioning front and rear. Luxurious wall-to-wall deep-twist carpeting (this year it comes with even the lowest priced Biscaynes). A choice of seven great engines, all precision-balanced for smoother running, with four smooth-shifting transmissions to match. Everything that makes Chevrolet the great highway performer it is.

So get out those road maps. And wherever you go, get off to a good start—during Trade 'N' Travel Time at your Chevrolet dealer's.

PATTERNS FOR PROGRESS

WTU is proud to be a part of your community

PAYROLLS

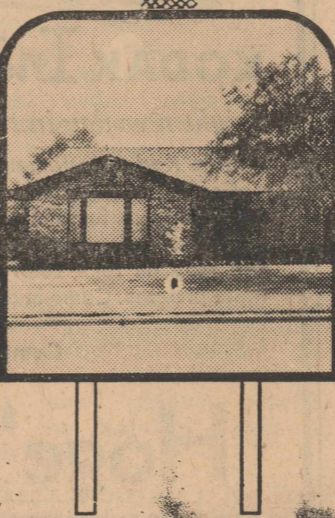

. . . sparkplug for economic growth

Payrolls pay off when new manufacturing industry begins operation in a town. Memphis, population 3500, is a good example. Pictured above is the Hall Plant, a unit of Burlington Industries, famous textile manufacturers. It brought a payroll to this Texas Panhandle town for more than 100 employees, mostly women, and has become an important addition to the local economy.

National studies show that payrolls, which come from 100 basic new jobs in a community, add 100 more homes such as the total electric Gold Medallion home pictured left . . . increase retail sales by \$331,000 annually . . . create three new retail establishments . . . bring 359 new people including 91 school children . . . and add 97 more car registrations

This is another PATTERN FOR PROGRESS.

American industry is on the move . . . expanding, relocating, and establishing new product facilities all over the Nation. Here is another opportunity for communities to seek new manufacturing payrolls. WTU suggests that every community give serious consideration to this opportunity, since payrolls are, as we have seen, a sparkplug for economic development and growth.

Two FHA Members To Attend State Meeting In Austin

Two members of the Knox City Future Homemakers of America chapter of Knox City High School, will attend the State meeting of the Texas Association, Future Homemakers of America, in Austin April 30-May 2, according to Martha Kay Waldrip, president of the chapter.

The two-day meeting of representatives of over 1300 FHA chapters throughout the state will include the awarding of state degrees of achievement to outstanding members of the organization and honorary memberships to adults.

Members of the Knox City chapter attending the convention are: Glenda Cox, incoming president and Kay Reeves, incoming vice president. Glenda has been selected by chapter members as voting delegate to the state meeting.

Carolyn Crownover is alternate if either of the above girls are unable to attend.

CARD OF THANKS

God has blessed us richly with something money can't buy, Friends! Our hearts are filled with gratitude to Him and all of you. Your deeds of love and sympathy during the time of our deep sorrow will never be forgotten.

I want to thank the doctors and nurses of the Hospital in Wichita Falls and at Knox City. "Thank You" for the cards, letters, visits, those who sat up at night, the food, prepared and served, kind words, floral offerings, and especially your prayers.

May His love and mercy ever shine up on each of you is my prayer.

Mrs. Garland Swaner, Brothers, Sisters, and Families.

IT'S THE LAW IN TEXAS

LAW IS ADAPTABLE
We are all familiar with the fact that there have been a multitude of changes in the past few years which have altered the course of industry and science—in fact, the course of human history. Naturally, these changes also have called for changes or modifications in the law of the land.

Fortunately the original makers of law knew they couldn't possibly foresee all that the future held, so they provided methods of changing the law. In this way, if a law became outdated it could be modified or even scrapped. A body of inflexible laws could be worse than no law at all.

Some persons feel the law is too rigid even with the changes permitted. However, most will agree that the entire body of law should not be changed overnight or without some thought. For instance, when you make a will you want to be certain that its terms will be carried out after you are gone. When you buy a house you certainly don't want your ownership upset overnight by an abrupt, ill-conceived change in the law.

An example of adaptability concerns a familiar object, the airplane. Years ago, a farmer in one state believed his property rights continue straight up—to outer space. Then came the airplane. It flew through what he considered his property.

The law had to adapt to the airplane and specify just how high was "up" when it came to property rights. Conceivably, if the farmer owned the air, he and other property owners could charge a toll and air travel could become fantastically expensive.

In this case, not only were existing laws modified, but an entire body of new law was set down to cover air travel, etc. The overall process took much time and research. In fact, the changes are still being made in this area.

The advent of the atomic age has created a new set of laws. Modern maritime navigational methods have called for changes in the admiralty laws to mention only another area where the flexibility of the law has been at work.

With all these changes, new laws, etc., it is little wonder that the attorney's office is jammed with law books, periodicals and special materials. However, if it were not for the flexibility of the law, the world as we know it might not exist.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

New Legislation Provides For Cotton Provisions

Upland cotton farmers will be able to choose between three acreage allotment programs under the new legislation enacted on April 11, O. E. Moore, chairman, Agricultural Stabilization and Conservation County Committee, said today.

The choice will be between: A.—Growing cotton under the old program—keeping within the "effective" allotment the farm last fall plus any reapportioned acreage, and thus qualifying for a price support loan at the basic level of 30 cents a pound, Middling 1-inch cotton at average location; or

B.—Reducing cotton acreage and keeping within a smaller "domestic allotment," thus qualifying for the regular price support loan and an additional price support payment of 3.5 cents a pound on the normal yield of the cotton acreage determined for the farm. For the farms with an effective allotment of more than 15 acres, the extra support payment will also depend on the producer's not exceeding the farm's feed grain base. The farm's domestic allotment except that for small farms the domestic allotment is the smaller of the effective allotment or 15 acres.

C.—Planting cotton within the farm's 1964 effective cotton allotment plus up to 5 per cent as "export market acreage" provide an application is filed by June 1, 1964, and bond furnished within 15 days after such filing. In this case, all the cotton except the part credited to the export acreage would be eligible for the basic support of 30 cents. payments, however, would not be eligible to growers planting an export market acreage.

The Chairman pointed out the new program supplements, rather than supersedes, the cotton program which has been in operation in prior years. Marketing quotas will be in effect for the 1964 cotton crop, as approved by growers voting in a referendum last December, and any "excess" cotton will be subject to marketing quota penalties, as in former years.

One major difference for 1964 is that the grower may, if he wishes, plant a one-third smaller acreage of cotton and meet other conditions of the program and in return be eligible for a 3.5 cent price support payment in addition to the regular price support loan at the 30-cent rate.

The acreage not planted to cotton because the grower planted within the smaller "domestic allotment" may be planted to other crops (with the feed

Foshees' Attend Seymour Reunion

Mr. and Mrs. J. J. Foshee were in Seymour last Sunday to attend the Parris reunion in the Seymour Park.

The late Mr. and Mrs. J. G. Parris came to Knox County in 1902 from Birdtown, Tenn. All the children were in attendance with the exception of two boys, Bill and Bryan Parris of Grandfield who had sickness in their family.

Present were Mrs. Sallie Pierce of Fort Worth, George and Poesy Parris of Grandfield, Okla., and Mrs. Mary Lou Foshee, of Knox City.

There were 110 in all from Dallas, Fort Worth, Arlington, Bridgeport, Chico, Abilene, Lubbock, Stamford, Vernon, Seymour, El Paso, Stillwater, Oklahoma, Grandfield, Okla., Benjamin, Munday, Tahoka, and Knox City.

MRS. BERT MARSHALL

Recent visitors of Mrs. Ozell Kilgore and Gaylon were Mrs. Foster Kelley and Richard of Wichita Falls and Mrs. Woody Roberts and Jan Robin of Goeree.

Mr. and Mrs. Jerod Barnett and son Brett of Baytown spent the week end in the home of Mr. and Mrs. Pete Barnett and grandmother Mrs. Della Barnett and other relatives and friends.

Mr. and Mrs. Estell Pierce and daughter Mary and Nina attended a family reunion in the Seymour Park recently.

Mr. and Mrs. J. W. Herndon from Oklahoma visited with friends and spent a few days at their home here recently.

Mrs. Lillie Ryder is spending a few days with her daughter, Mrs. Edwin Jones and family in Fort Worth. Mrs. Jones underwent surgery there recently.

Week end guests of Mrs. Willie Redwine were her daughter Mrs. R. C. Giles and granddaughter Dorothy Giles of Ft. Worth.

Mrs. Anna Mae Redwine visited her brother J. L. Stubbs and Mrs. Stubbs from Fort Worth and a sister Mrs. L. R. grain limitation mentioned under point "B" above), thus providing an additional source of income.

The other major difference is that a grower may produce some cotton to sell at the world price if he files an application by the June 1, 1964 deadline and furnish a bond assuring that the cotton from the export acreage will be exported without Government subsidy.

Mr. Moore said that notices will soon be mailed to growers containing information on the new program provisions as they apply to the individual farm. If the grower wants to plant an export market acreage, he will need to file an application at his ASCS office by June 1, '64 and furnish the bond within 15 days after such filing.

Growers will decide which allotment they wish to use and plant on the basis of that allotment. If the acreage is determined in excess of the chosen allotment, the producer will have a period during which he can adjust the acreage. After the planted acreage is verified and found to be within the domestic allotment, the eligible producer will then file an application for the additional price support payment.

ANNOUNCING

An Unusual Piano Offer

A massed piano festival was sponsored in Vernon by the Vernon Musicians Club. The Norsworthy Music Center furnished the pianos for this wonderful concert in which 300 pupils, musicians and teachers participated. The 12 pianos used are all quality instruments. There are no 'seconds' in the bunch and are recommended by teachers and musicians here in Vernon as good pianos.

These pianos are all NEW and have not been used other than in this festival. Because of this, and the fact that we do not normally carry this large stock of pianos, they can be purchased at a big savings. In 39 years of continuous service the Norsworthy Music Center has never offered pianos at such BARGAIN PRICES and SUBSTANTIAL SAVINGS to our customers. The styles and finishes are in Mahogany, Walnut, Early American Maple, and French Provincial in Fruitwood.

Call Us At Once If You Are Interested In Knowing The Details Of This Unusual Offer, as the sale will last only until these 12 pianos are sold.

If you have no need for a piano, you may pass this information on to a relative or a friend in any town or state, who will appreciate it.

Natural Born Tinkerer . . .

Farm Boy's Favorite Toy—1935 Tractor

Off with a roar. To start the 1935 tractor, Rollin and his 13-year-old brother, Roy, wind a length of rope around the belt pulley and yank. Though not recommended, the method works.

HUTCHINS, TEX. — Like many youngsters, 15-year-old Rollin Heifrin is a natural born tinkerer. Give him a shiny new set of wrenches, and chances are you'll find him a little while later trying them out on his favorite "toy"—a farm tractor, vintage 1935.

In 1962 he found it parked in the weeds on some land he had rented for grazing the Heifrin family's three horses. Spade lugs for the tractor's big iron wheels were found in a nearby shed. He put them on and spent a month reconditioning the 29-year-old rig with the help of local garage mechanic, Billie Schultz.

Even his mother pitched in to help him find odd parts such as square bolts.

"With the new coat of paint I just gave it, the old Allis-Chalmers looks pretty good," said Rollin. "It runs good, too, except that the transmission must be worn because it seems to 'hang' in third gear."

In Milwaukee, Wis., the manufacturer dug out an old operator's manual and parts book from its archives to make it easier for him to work on the tractor.

Rollin has a unique way of starting the engine. Instead of using the hand crank to turn it over, he winds a 10-foot length of rope around the belt pulley and then pulls hard and fast to fire the engine. Though highly unconventional, the method works.

With the old tractor, Rollin and his 13-year-old brother, Roy, farm 97 acres of rented land. Earnings from crops of oats, wheat and hay, and from the sheep and cattle they graze are put aside for their education.

Born in Weatherford, Tex., Rollin's interests in farming dates back to a dairy farm his father, Roy, operated near

Hutchins. Since moving to rural Hutchins, the youngster is extremely active in 4-H Club work.

He was chosen one of the top three boys in Dallas County, which has about 2,500 4-H members.

His father now manages the grain elevator at Lancaster. Rollin has an older sister, Kathlene, 17.

Darrell Brown, assistant (Dallas) county agricultural agent, says of Rollin: "Chances are that he will go to the top in almost anything he makes up his mind to do."

His vocational agriculture instructor at Wilmer-Hutchins high school believes he is one of the best students he has had in 21 years of teaching.

Besides being able to maintain the antique Allis-Chalmers tractor in top shape, Rollin is also a good driver. He took first place in the Dallas county tractor driving contest in 1963, and went on to place second in the 19-county district meet. He ranked 10th in the state contest and was the youngest entrant.

Rollin takes special pride in a limerick he wrote for an English class:

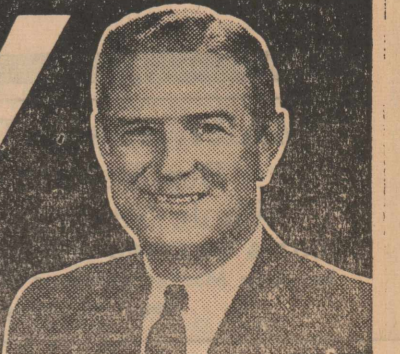

I love my tractor with all my heart,
I hope that we will never part.
The engine it misses,
It fires and hisses
I just hope that next time it will start!

Only 29 years old and still going strong. Discussing fine points of the antique tractor are Rollin Heifrin and Darrell Brown, assistant (Dallas) county agent and 4-H counselor. Resurrected from a weed patch, the Allis-Chalmers model is used in Rollin's farm operation.
