

Lions Dist. Gov. Speaks To Club

James P. McCracken, 2E-1 District Governor of Lions International was guest and featured speaker of the local Lions Club Wednesday noon.

McCracken, president of the bank in his home town of Cisco, was introduced to the club by Lion President Jim Ross.

Mr. McCracken began his talk by telling the club of the recent international convention in Toronto, Canada, and expressed a desire that a Texan would be elected president of Lions International in 1968 when the next convention is held at the Lions Club birthplace, Dallas, Texas. This year will also mark Lions 50th anniversary.

McCracken said a delegate voiced the opinion that he had rather be president of Lions International than President of the United States.

He said this was "kinda hard for me to understand," but he said he felt that if the club continued to make the same progress in the next 47 years it has in the past 47, it is entirely possible this expression could be possible.

Highlight of the convention he said was when the 94 countries representing Lions International, assembled in the auditorium and displayed their respective flags.

McCracken said it was common practice for all delegates to rise and pay honor to a flag as it is presented from bordering countries — like the U. S. delegates arose and saluted the flags of Canada and Mexico.

When the US Flag was shown though, every delegate arose to pay tribute. . . . "Like a lot of you here, I have paid tribute to our flag from a foxhole in the South Pacific, from airplanes and ships to saying the pledge of allegiance each week here at home, and I have never been as proud and the flag has never meant so much to me as it did on this occasion," he said.

After the war he said the Philippines contacted Lions International to try and start a club in Japan. Since the US and Japan were on unsteady footing it was postponed. In time they were recognized and today there are more clubs in Japan than in Texas, the Lions birthplace, and more and more are being founded each year.

Japan boasts more clubs than any other country, he said.

Typical Lions are when Baptists can rub elbows with a Mohammed and Democrats can speak kindly to Republicans, he said.

He said he had revised his views on CARE and asked all Lions to donate \$1. a year per member for this cause or to give individually, to help feed the hungry overseas. He said the \$1. was mostly for transportation as the food was mostly surplus, and depending on the locality, would feed one person anywhere from one to six weeks.

In Asia he said the Lions Club distributed the CARE packages there.

The District Gov. next reported on Kerrville, the Lions Crippled Childrens Camp and also a place for Adult Blind Trainees Program. To date there have been over 400 persons to graduate from the school and a number have completed their educations to get their masters and Phd degrees, he said.

The blind program at Kerrville has only been in existence for the past few years, and has proved so successful it has been in a constant expansion program.

To conclude his talk Mr. McCracken said there were two and three-quarter billion people in the world and if it were broken down into a single village of one thousand people, statistically it would look like this:

There would be 60 Americans, 940 non-Americans; with 697 being non-white; 80 would be card carrying communists, 270 under communist rule; as for the wealth the 60 Americans would have one-half the entire wealth and the 940 non-white would have the other half.

Life expectancy of the 60 Americans would be 70 years of age, while the life expectancy of the other 940 would be 40.

Of the total population there would be .27 of a man who was a Lion . . . "just a fraction of a man dedicated to serve mankind," McCracken said, and "there is unlimited opportunities for Lions to serve humanity and for us to live up to our motto of SERVE."

Glenda Cox Named 'Officer For Sept.'

Glenda Cox was presented the honor of "office of September." Glenda Cox is a very neat and likeable. She is everybody's friend and confidant.

In her Freshman year, she was the President of her class and was Favorite Runner-up. She was a volunteer her Sophomore year, Junior year. Her Junior year, she was in the cast of the One Act Play "Anastasia."

She was Class Favorite her Junior Year. Band Officer her Junior, Senior year. She has been in band all four years.

In the FHA, she has been an active member at all the meetings. She has been a member all four years. She was Third Vice-President her Junior year and is now President.

She has been in FTA her Sophomore, Junior and Senior years. In Basketball, she has been a team member all four years and Tri-Captain her Junior Year.

She has been on the Greyhound Annual Staff all four years. The assistant editor last year and the Editor-in-Chief her Senior year.

These are Glenda Cox's qualifications for being the most outstanding office in FHA.

Elvira Rios was elected by the FHA girls as "Girl of September." Elvira Rios is a Senior. She has been in the Pep Club four years.

Miss Rios has conducted herself in the manner of which has earned everyone's respect.

She has been an FHA member for four years. One of her most outstanding qualifications was her faithful attendance at all FHA meetings. She is also loyal to all FHA activities.

Cotton Sampling Still At Minimum

Weather has held cotton harvest to a minimum for the third week in the Munday Clipping Office territory, according to A. D. Peebles, in charge.

Grades dropped due to damage and getting into the fields too soon. The breakdown for the week ending October 2 is 16 per cent middling light spotted, 41 per cent strict low middling light spotted, 2 per cent low middling light spotted, 6 per cent middling spotted, 30 per cent strict low middling spotted, and 5 per cent low middling spotted.

Staple lengths for the same period were 9 per cent 7/8, 33 per cent 29/32, 41 per cent 15/16, 2 per cent 31/32, and 9 per cent 1 inch and longer.

Micronaire readings for the week were 80 per cent between 3.5 and 4.9 with 7 per cent 3.0 to 3.4 and 13 per cent 5.0 and above.

Market activity showed a little improvement with Light Spotted and Spotted grades bringing 30 to 80 points above the Loan.

Herald Will Play Crowell This Week; But Greyhounds Will Play Henrietta

For some unknown reason the Herald ran an inside page this week stating that we were playing Crowell, when in reality we are playing Henrietta. The Hounds play Crowell here Oct. 30.

The error was discovered late Wednesday after the pages were "killed out" and too late to make the correction and rerun the paper. Knox City Greyhounds will play Henrietta this week and the Herald will play Crowell!

To err is human—to forgive divine . . . we erred a bushel, and hope you will forgive a peck.

Special Election Called By Petition

County Judge L. A. Parker informed The Herald Tuesday a special election would be held Tuesday, Nov. 3, along with the General Election, to see whether Knox County abolishes the office of County Superintendent.

A law was passed in 1961 making it possible for small counties such as Knox to vote the office out of existence. A petition was circulated here at that time but was "lost."

Judge Parker said another petition was given the Commissioners Court last week with 391 qualified voters signatures asking for a special election.

The County School Superintendent now has two schools to see after, Benjamin and Gilliland. The office is supported by state funds.

If abolished, the county superintendent will draw two years, salary on his unexpired term even though the office is closed. This was announced this week by Atty. Gen. Waggoner Carr. Opinion given by Atty Gen. Carr this past week.

The County Judge will be responsible for the superintendent's office and will be required to hire a deputy at county expense to keep the records now being kept at state expense.

Money saved by liquidating the office has not been clarified as to where it will be spent, whether it is given to the counties or whether the state will hire secretaries in Austin to keep records, or to what extent the money will be applied.

A separate ballot will be supplied with the general election ballot at the various voting places throughout the county.

On the ballot will appear: FOR THE ABOLISHMENT of the office of County Superintendent.

AGAINST THE ABOLISHMENT of the office of County Superintendent.

WELLINGTON VISITORS

Mr. and Mrs. Palmer Campsey and two sons of Wellington visited in the homes of Mr. and Mrs. Brook Campsey and Mr. and Mrs. O. M. James over the week end.

Pups Bow To Paducah, 22-14

The Knox City Greypups was defeated by the Paducah Junior High team 22-14 Monday night at Paducah.

Melvin Clay made Knox City's first touchdown, and Amador Gonzales ran for the extra points to tie the score at the end of the first quarter 8-8.

In the second quarter, Paducah made the first score and the try for extra points was good and the score was Paducah 16, Knox City 8.

Later in the second quarter Paducah again scored, but the extra point try was no good and the half ended 22-8.

In the second half Ronald Curd ran 48 yards for a Knox City touchdown but the extra point attempt was no good and the game ended 22-14.

The Greypups will play the Munday Junior High team there Monday Oct. 12, at 6:30 p.m.

Munday Defeats Greyhounds, 12-6 In Spectator Thriller Friday Night

The Knox City Greyhounds fought a losing battle with the Munday Moguls here last Friday night, and were defeated 12-6 in their first District A game.

The Moguls took advantage of a couple of bad breaks for KC and Munday's Halfback Terry Leflar made the first score in the game in the second quarter.

Neither team scored again until early in the fourth quarter, when Brack Shaver ran from the 40 for the Hound's only score in the game.

Later in the last quarter, David Tomlinson took a 29 yard pass from Mogul Quarterback Skip Lane, which put the ball on the Greyhound one.

The Hounds held the line for three plays, when Leflar went wide and crossed the goal line to give the Moguls their winning t.d. Try for extra points was again no good, and the game ended 12-6.

Residents Sister Dies, Monday

Funeral services for Mrs. Mary Guinn Newkirk, 40, who died in the Knox County Hospital Monday at 7 a.m. after a three day illness, were held at 2 p.m. Tuesday in the Munday Church of Christ, with Carl Kitzmiller of Abilene, officiating. Johnny Tate of Wichita Falls assisted.

Burial was in Johnson Memorial Cemetery. Mrs. Newkirk was born in Munday Dec. 2, 1923, and attended Munday schools. She married Thurman Newkirk Jan. 3, 1941, in Weinert. She lived near Munday until 1953 when she moved to Springtown.

Survivors are her husband; six sons, James, with the US Navy, in Phoenix, Ariz., Billy, Don, David, Gene, all of the home, and a three day old son; her mother, Mrs. L. C. Guinn, Sr., of Munday; four brothers, L. C. Jr., and Jerry, both of Knox City, Wilkie of Munday, and Alfred of Wichita Falls; and four sisters, Mrs. Donie Lawford of Seymour, Mrs. Ray Jackson of Goree, Mrs. Donnie Yandell of Graham and Mrs. Patsy Middlebrook of Knox City.

All voted in favor of the motion. Paul Clayton made a motion, seconded by Kenneth Lawson, to pay the month's bills. All voted in favor of the motion.

Alderman Lawson gave a report on his findings for cost of laying water and sewer mains to the Jiffy Burger. No action was taken at that time.

Ottis Cash made a motion, seconded by Paul Clayton, for the chief of police to purchase a fingerprint kit, badge, flashlight attachment, and some other miscellaneous items to use in connection with his office.

All voted in favor of the motion. The council recommended all citizens who have trees and shrubs and trash not ordinarily picked up as garbage and trash to be piled in the alleys and the city notified as to its location for the city truck to pick it up and dispose of it.

This will be a monthly project to beautify the city and will be available on the third Tuesday of each month—beginning Tuesday, October 20th.

When ready for trash to be picked up notify city hall of its location.

Calls will be handled on a first come first served basis, city officials said.

A motion was made by Ottis Cash and seconded by Kenneth Lawson to make Jack Land overseer of "outside" workers.

All voted in favor of the motion. City officials expressed sincere appreciation for the help citizens gave them when the water main broke a few weeks ago.

City Council Has Regular Meeting

Knox City's City Council had their regular meeting Tuesday at the city hall with the following members present: Mayor Buddy Angle and Aldermen Kenneth Lawson, Ottis Cash, O. M. James, and Paul Clayton.

Meeting with the council was George Davis, manager of K Courts to discuss water meters and water pipes with the council. Also meeting with the council was Rev. Jarrell Sharp, pastor of the Methodist Church and Willie Bogle, foreman of the Shelburne Const. Co.

City gave permission for the construction company to block off the road by the church to unload lumber and keep traffic away from a dangerous situation.

Ottis Cash made a motion, seconded by O. M. James to pass ordinance to zone FM road south and west of town according to the state's recommendations.

All voted in favor of the motion. Paul Clayton made a motion, seconded by Kenneth Lawson, to pay the month's bills. All voted in favor of the motion.

KAY'S COLUMN

By KAY REEVES

School has been in session for six weeks now. Doesn't it seem impossible? Already we are getting prepared for Six Weeks Tests. This week may be the end of a lot of running around for quite a few people in our high school (including me!) This is the time of year for all those parental lectures on the usual topic of "You can Do Better If You Try, So I think I Will Help You Try By Grounding You!!"

Do worry, my fellow students, stay home, study like mad for a couple of days, then you can go back to the usual routine.

Parents often wonder why their kids are always so care-

free—I read this little truth, and I'm sure parents would like to know: "The reason kids are so happy is that they don't have kids of their own to worry about."

Last week the spirit of Knox City High was great! There were signs and posters all over the hall and in every room. Everyone was ready to beat Munday. Thursday night we had the bon fire and everyone really seemed ready for that next night. We were ready but the breaks didn't go our way. We beat every way except one — the score board! This week is going to be very busy, but we are going to get in there and get that spirit up where it should be. We are going to beat old Henrietta!!!

The seniors succeeded in making over \$1,000. on the magazine drive. Of course we only receive about 35 or 40 percent of that, but we think that was a good show! We'd like to thank all of you who helped by giving us your subscriptions. Now we have begun sales on sweatshirts with a Greyhound and Knox City Greyhounds on front.

The Juniors have begun their campaign to make money. They are selling fruit cakes.

Jimmy Bert of Knox City and Peggy Grindstaff of Knox City. Visiting Mr. and Mrs. Keith Fry over the week end were his parents and a sister from Oklahoma.

Mr. and Mrs. O. S. Johnston were in Lubbock last Thursday and Friday for Mrs. Johnston to attend a "World Book Planning Meeting."

J. O. Brothers returned to his home Tuesday from Wichita General Hospital after having surgery on his back last week.

The pancake supper sponsored by the O'Brien Firemen netted them \$167. Saturday night. All food for the supper was donated. The Department needs water hose for the truck and this will go to help finance that.

The O'Brien Junior High football team lost their third game of the season Tuesday night when they played Paint Creek here in a conference game. The score was 44-12.

The Bulldogs won their third game of the season Saturday night against Ira. The score was 70-46. They have an open date this week end and will go to Muzzle next week.

I know it seems everytime you turn around someone is there to sell something. Knox City High is trying to eliminate that by having dues. Each year the selling and money making projects will decrease in number. Each class now pays monthly dues. If we as Juniors and Seniors had begun our dues when Freshmen, we would have avoided a great many of our money making projects we have now. So please be patient and remember you are appreciated.

Well goodbye for this week. LET'S BEAT THE BEARCATS!

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — A top finance authority on state government is hopeful that the tax bill written by the 1965 Legislature will be smaller than many advance predictions have indicated.

Jim McGrew, research director for Texas Research League, said \$35,000,000 a year in new revenue ought to cover the bulk of Gov. John Connally's higher education program, teacher pay raises and about 40 per cent of the budget increases sought by state agencies.

McGrew, who addressed Austin's chapter of Sigma Delta Chi, professional journalism fraternity, made these "guess-timates."

—About \$625,000,000 will be available for general revenue spending next biennium, including an \$83,000,000 surplus at the end of the present fiscal period. That's \$153,000,000 above the present level.

—With no new taxes at all, the Legislature could provide up to \$120,000,000 in additional general revenue spending for higher education and maybe \$45,000,000 more for state departments and agencies.

—An added \$60,000,000 plus in revenue (per biennium) would finance the state's \$74,000,000 share of a \$45 a month pay raise for public school teachers as well.

Texas Commissioner on Higher Education recommended \$89,000,000 more for higher education from general revenue. Governor's Committee on Education Beyond the High School recommended an increase of \$165 million. But it suggested doubling tuitions which would reduce the general revenue hike to \$120 million. State Hospitals and Special Schools, the judiciary and other state agencies have put up in for \$112,000,000 more than the current budget. Asked where additional money likely would come from, both

McGrew and his boss, League Director Alvin A. Burger, noted that restoration of the \$2.75 corporation franchise tax rate, removal of exemptions in the present sales tax or raising of the rate would be big revenue producers. They made no recommendation.

JOBS FILED — Larry Temple 28, formerly of Plainview, was named by Gov. Connally as his executive assistant to succeed Howard Rose, who returned to law practice in Midland.

Connally appointed Edward H. Harte, publisher of the Corpus Christi Caller-Times to succeed Vann Kennedy, Corpus Christi radio executive, who resigned from the Texas State Historical Survey Committee.

A-G OPINIONS — Atty. Gen. Waggoner Carr clarified an earlier opinion and held that a county can spend money on transportation surveys for development of county road systems.

In a torrent of other opinions released recently, Carr held that:

County judges are required to call elections for creating mosquito control districts on petition of 200 voters. . . . A veteran discharged at his own request before termination of his enlistment is not eligible for benefits under the Hazlewood (aid to college students) act. . . . Guadalupe County can accept roads and public ways of the Treasure Island subdivision without further dedication. . . . Property optioned for purchase after January 1, should be listed for taxation in optionor's name. . . . State Veterans Land Board may adopt a rule or regulation authorizing veterans' loans to be prepaid at any time, with interest charged only to date of final payment. . . . Galveston County can pay for gasoline in private boats used by the sheriff for official duties. . . . Salary must be paid to persons

serving out the unexpired term of a county school superintendent even though the post has been abolished by vote. . . . Property tax funds can be used for purchase of right-of-way for federal, state and county highways and alter roads. . . . A sheriff has authority to award commutation of time for good conduct to a county jail prisoner. . . . A corporation is entitled to a license from the Texas Liquor Control Board if 51 per cent of its issued stock is owned by persons who have been U. S. citizens and Texas residents for three years and possess other qualifications. . . . Mosquito control tax levies must be part of the 80-cent constitutional limit. . . . Special fuel tax refunds may be made where fuels have been lost by accident.

CONNALLY APPLAUDS REPORT — The Warren Commission's report on the assassination of President Kennedy has received Governor Connally's approval.

Connally, who was seriously wounded by the assassin, stated that reading the report brought back memories he had tried to put aside.

Carr's summation on the assassination followed the Warren report. Several volumes of exhibits, consisting of evidence and information collected by Texas officials, are a part of the state report and will be displayed in the state archives.

Connally told newsmen he supports tighter security measures by state and local police guarding major public officials.

ESTES PROBE — A State Department of Public Safety investigation of Billie Sol Estes will continue "until all ramifications" are cleared, Connally told a press conference.

Sen. Ralph Yarborough has challenged authority of the DPS to look into allegations that he received \$50,000 from Estes, who now faces prison sentences for swindling.

Connally said of the DPS: "It has a clear duty and responsibility with respect to law enforcement. It is not a political organization. It has not been used as such, and will not be used as such if I have anything to do with it."

A Yarborough campaign aide, Fagan Dickson of Austin, issued a release in which he said he has information that Estes has made a statement bearing out an FBI investigation report that there was no \$50,000 gift to Yarborough.

WATER PROJECTS — Representatives of eight East Texas soil conservation districts have been conferring with Texas Water Commission staffers about a proposal for a Southeast Texas Resources Conservation and Development Project.

They are mapping a plan for coordination of all existing water projects in their jurisdictions as well as others being projected, so that recreational, flood control, drainage, levee and soil conservation units will be utilized to the fullest.

Counties involved are Newton, Tyler, Hardin, Polk, Jasper, Jefferson, Orange, Chambers and parts of Liberty and San Jacinto counties.

It is expected that the districts will go next to the State Soil Conservation Board. They hope to present a plan to the U. S. Department of Agriculture, which—if approved—would designate an agency to do the actual designing. Designed agency probably would be the Soil Conservation Service.

Assistance plan, called the Resources, Conservation and Development Act, was passed in 1962. But it just now is getting under way.

Act provides that the U. S. Department of Agriculture pays

for the planning and participating in recreational and other facilities on a local sharing basis.

COKE COUNTY DAM HEARING SET — On October 19, Texas Water Commission will hear arguments on application of the Colorado River Municipal Water District, Big Spring, to relocate a dam in Coke County.

Arguments are set for the same day on whether to delay consideration of the application.

District wants to increase reservoir capacity of the project to 488,760-acre feet. Lower Colorado River Authority has objected to the amended application.

Commissioner set October 26, for hearing the application of Houston Lighting and Power Co. to take 3,600,000-acre feet of water a year from Dickinson Bay for industrial purposes.

GREEN BELT DAM CHANGED — Texas Water Commission approved the request of Green Belt Municipal and Industrial Water Authority to move its proposed dam and reservoir site from the Salt Fork of the Red River upstream to a point about five miles from Childress.

Engineer S. W. Freese said the relocation was necessary because clay materials in the bottom of the Salt Fork location weren't strong enough to bear the proposed dam.

State Sen. Andy Rogers of Childress says that any site is alright with his constituents, just so long as they get water soon. Rogers said, "People in Childress have started hauling bath water, because if they use local water they smell worse after a bath than before."

TRAVEL WRITERS TOUR SET — An expected 30 out-of-state magazine and newspaper travel writers will be treated to activities as varied as horseback riding and Hamlet during the

IT'S THE LAW in Texas

VOLUNTARY RISKS

When does a person act against his will? Hazel Hotcha was in an automobile crash while riding in Fred Fast's car. Hazel met Fred at a club dance. Both had several drinks. Fred bought a bottle of whiskey, and with two other couples piled into Fred's car to go to another party.

As they drove away Fred didn't seem drunk. But when Fred drove faster and faster, Hazel asked him to slow down; in alarm she asked him to stop and let her out. Fred said, "Don't worry, Hazel, all is safe." Soon afterward Fred struck a parked car injuring all his passengers, Hazel badly.

Hazel sued Fred. Since she was riding with Fred as a guest for her own pleasure, she could not recover damages from Fred unless she could show that Fred

Texas Tourist Development Agency's November 4-14 Travel Writers' Tour.

After that, many are expected to visit Saltillo and the Mexican state of Coahuila for two days as guests of Gov. Braulio Fernandez Aguirre.

Horseback riding will be a feature of their stay in McKittrick Canyon, near the proposed national Guadalupe Mountain Park. They will view one act from Hamlet at Odessa's new Globe Theatre.

Tourist Agency officials are hoping the tour will produce as much response as the spring tour of East and South Texas, which resulted in a thick book full of reprints from articles about Tex- as which appeared nationally.

was drunk, and that she did not know it. Otherwise she would have "assumed the risk" of riding with him, and would have no claim to damages.

Hazel did show that she was not in Fred's car willingly, and that, therefore, she had not legally assumed the risk of his speed and drunken driving. A person can be an unwilling occupant, and as such, neither a guest nor a paying passenger.

How does a person show that he is riding against his will? By protesting and doing what he reasonably can do to get out. This Hazel had done.

Nobody expects a person to jump out of a moving car, nor to get out in the middle of the road. So what is reasonable? That depends — on the time, the place, the driver, the choices open to the occupant and other such things.

The rider has no claim if he knows the risks he assumes, and that the driver is drunk.

But sometimes a person takes risks though he knows nothing about them: He may accept a free ride in a car with defects which even the driver knows nothing about. The driver and he may take the same chances. Everyone is expected to know a little bit about some activities, such as common sporting events, which involve a certain element of risk. For example a spectator at a baseball game is expected to be aware of the danger of being hit and to take precautions.

To assume a risk legally, the person has to have a free choice. Thus if the way to a town is over a defective dangerous highway, the driver has no free choice. In one case a driver caused a crash. In it the husband, thrown free of the wreckage,

When Industry votes for your community ... you are the winner

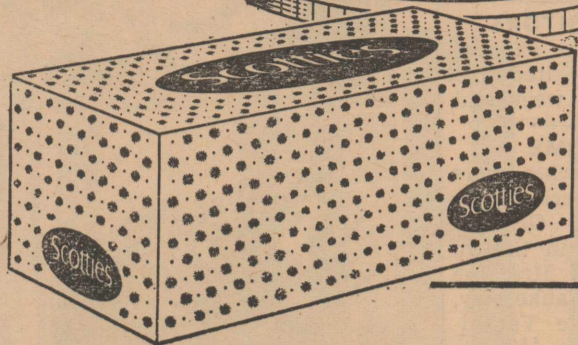

The campaign WTO is conducting to bring new industry to this service area is based upon a platform of economic advantages. That's because profitable operation is the objective of all industry on the move. But when you come right down to it, local enterprise, local activity, local leadership are the deciding factors in winning the race for new industry. That is why when industry votes for your community, your platform is adopted and YOU are the winner.

Public Hunt Sparks Mail Toddlers Most

Fat mail sacks deluging Parks and Wildlife Department headquarters in Austin are carrying a record number of inquiries about the free hunts on wildlife management areas and also about the special archery season on buck deer opening Oct. 1 in 70 counties, according to E. A. Walker, assistant director for wildlife.

Inquiries about the archery season and public hunts are being rapidly processed, said Walker, with pre-prepared literature and in the case of the public hunts with application blanks for the drawings to determine who will receive the 3,460 deer permits for the five state management areas and for the Matador (Panhandle) quail hunt and the squirrel hunts on two East Texas areas.

The public-hunt curious are informed about the deadline for receiving their completed application forms in the department's Austin headquarters. The time and date for the deer hunters is 8 a.m. Oct. 23. Last year 24,901 persons applied for permits. Inquiring archers are sent a pamphlet describing the regulations covering the special shoot.

VISIT PARENTS

Warrant Officer and Mrs. Glenn Beauchamp and family of Wichita Falls visited last week end with his parents, Mr. and Mrs. H. R. Beauchamp and attended the homecoming in O'Brien. Also visiting in the Beauchamp home and attending the Homecoming were Mr and Mrs. Philip Essary and family.

FREE SHOOT DEER QUOTA IS BOOSTED

A small increase in the number of big game permits for public hunts on management areas this fall was announced by J. Weldon Watson, executive director of the Parks and Wildlife Department.

Total for this fall was set at 3,460 compared with 3,047 issued last year. Each permit authorizes the holder to hunt two days. Small game gunners will have a limited opportunity for action through quail hunts on the Matador area near Paducah and squirrel hunts on the Engeling and Angelina area hunts in East Texas.

The other seasons will be on the Kerr area; Black Gap area in Brewster County and Sierra Diablo area in Hudspeth and Culberson Counties, both areas in far West Texas, and the Engeling and Angelina (Cherokee unit) areas.

Deadline for big game hunters to send their applications to the Parks and Wildlife Department, John H. Reagan Building, Austin, is 8 a.m. Oct. 23. Holders of permits will be determined by a public drawing at the Reagan Building headquarters.

Persons interested in the big game hunts should write this headquarters. Formal applications will then be forwarded for them to fill out and return.

Public hunts have been successfully followed as standard procedure under Department supervision to climax experiments in game management techniques, said Watson. The surplus of some species, principally white-tailed and mule deer, of both sexes, are earmarked for har-

cording to Watson, is indicated. Popularity of the hunts, according to the 24,901 persons applying for permits last fall.

Success of the shoots beyond the personal conquests, he said, has been indicated by the fact that the desired harvest last year was set at 1,045 head of deer, and that 2,178 hunters actually killed 968 deer. The combined 1963 hunter success was 44.4 per cent.

In 1963 the largest combined bag of 243 antlerless and 201 antlered deer or a total of 444 mule deer, was taken on the Black Gap Wildlife Management Area in Brewster County which has been authorized practically the same number of permits of 1,402 for this fall.

Here are the details:

Whooping Crane Sighted In Oklahoma

One of the rare whooping cranes was positively identified this morning resting on the Salt Plains National Wildlife Refuge near Cherokee, Oklahoma. Refuge Manager Lyle Stemmerman was able to make positive identification of the bird.

Although Salt Plains National Wildlife Refuge is on the direct migration path to the big birds' preferred wintering grounds, the Aransas National Wildlife Refuge near Austwell, Texas, on the Gulf Coast, the sighting was unusual in that the bird is far ahead of the normal migration timetable. A total of 32 whooping cranes left the refuge in Texas last spring headed for their breeding grounds in northern Canada.

Until the birds return to Aransas this winter, it will not be possible to make an accurate estimate of the success of this year's reproduction.

Under complete and intensive protection by state, federal, and Canadian wildlife authorities, the whooping crane is staging an uphill battle for survival from the all-time low of 17 birds in the 1930's.

SECRET PAY FOR CONGRESS?

Under the Udall Amendment to the recent pay increases to \$30,000.00, future congressional pay raises would be kept secret.

Aside from the questionable amounts involved, such secrecy is not only undemocratic, but unworthy of Congress.

Respectfully, George Corse Jr.
Candidate for Congress (GOP)

it's really off!**

ELECTRIC—Even though you've turned the control to "off", hangover heat lingers in the coils—can result in overcooking, boil-overs, hot tempers.

GAS—Turn the flame off, and the heat's off... immediately! No mess, no hangover heat... one reason, maybe, that 99% of the nation's top chefs cook with gas.
