

**UNFORTUNATE** — This was the way the line should have started when we told how Mr. Gothard ran into some tough luck on his fine anniversary.

The line had an error and in rescuing, we goofed. If we embarrassed you in any way, we are sorry for we feel we are embarrassed enough for both of us!

As well as we can recall, Mr. Gothard was mayor of O'Brien when we first came to KC and the next year decided not to place his name on the ballot. O'Brien voted a light 14, as we recall, but it was enough to get the mayor back and one or two aldermen on a write in campaign.

**DON'T FORGET** — TONIGHT has been set aside for the purpose of businessmen and members to get together and talk at the City Cafe. Time is 7:30. The informal gathering should prove interesting.

**WANTED** — Mrs. B. B. Campbell Sr., asked that we pass along this word to you. The Historical Survey Committee is looking for old photographs of Knox City street scenes, businesses, etc. She said the pictures would be greatly appreciated as well as properly cared for.

**EDITORIAL** — We had a difficult time finding a heading for the Facts and Figures story in this issue. At first we called it an editorial, but later changed it to "Facts and Figures." Actually it couldn't be classed as an "editorial" for we didn't tell you anything but "facts" and if there is an error, we couldn't find it.

Supt. Bill Baker of O'Brien is to be commended for the time and effort he spent in helping us get this information.

Education, like money, isn't too important if you have plenty of it—was the bright idea we just came up with.

**NATIONAL FRONT**—A friend confided to us the other day that a national arms manufacturer is over six months behind in their order of pistols. The riots in the south are the reason behind this shortage he was told.

**CONGRATULATIONS** — To our track team for the outstanding performances they have made this year. Knox City has, for many years, been weak in the running department, but this isn't true today!

The new times we were allowed to enter sports when we were in school was usually track, and we naturally are prejudiced in so far as track events are concerned.

Clean living will show up quicker in track than it will in any other sporting event. It is hard to run the mile in 4 1/2 minutes if one trains on beer and cigarettes.

And, of course track is the basic ingredient for a good, fast football program.

We're behind you all the way 'Hounds, keep the track hot!

**LILLY or LILY?** — Easter lily is correct when speaking in the singular and plural is spelled lilies, of all things, Mr. Webster told us. Lilly is spelled thus only for the name of a person, not the name of a flower.

**TEXAS** — THE WINDIEST!—Texas, not Kansas, is the tornado capital of the U. S.

In the last 47 years, Texas has recorded 1,424 tornadoes, followed by Kansas and Oklahoma in that order. Weather Bureau records show that in 1957, Texas' stormiest year, the state averaged one tornado about every 60 hours!

### Historic Mound Near Alto

The home site of a tribe of Caddo Indians who lived about 1000 A.D. near Alto, in Cherokee County, today supports a forest of small trees. This is the site of Texas Forest Service Indian Mound Nursery, located six miles southwest of Alto, along State Highway 21 where it crosses the Neches River.

Only a granite monument atop a 30 feet high, "L" shaped mound testifies to the Indians' having been there. A portion of the mound and surrounding area was excavated in 1940 by the Department of Anthropology of the University of Texas. Although no important artifacts were found, items of pottery, flints and sites of several houses were located. Archaeologists believe the mound was used as a place to worship their sun god. Occasionally, pieces of pottery and flints are unearthed as the area near the mound is cultivated by nursery personnel.

Presence of several constantly flowing springs nearby probably accounts for the Indians' use of the area. Availability of surface water for irrigation was a major factor in selecting the area as a state tree nursery.

To the citizens of nearby Alto goes a large amount of credit for their part in purchase of the 173 acres in 1940.

The nursery produces tree seedlings for reforestation in Texas. Initial production in 1940 was about 10 million seedlings. Maximum capacity is about 21 million seedlings which are sold to Texas landowners at cost.

Trees are to be used for reforestation and windbreak planting; none are sold for ornamentals or for landscaping.

Supplying tree seedlings for reforestation and windbreak planting is but one of the many ways your Texas Forest Service, now celebrating its 50th Anniversary, performs its obligation to Texans.

## FARMERS HOME ADMINISTRATION MAKES 247 LOANS TO INDIVIDUAL TEXANS UNDER NEW ACT

R. L. Cappleman, state director of the Farmers Home Administration, announced that 247 loans to individual families have been made in Texas under the provisions of the Economic Opportunities Act of 1964, which is one of the powerful weapons of the United States Department of Agriculture being used in President Johnson's all-out War On Poverty Program.

These loans were made to individual farmers and rural residents in most sections of Texas. A farm family is a family who is operating a farm they own or lease, and is producing at least a portion of their subsistence from crops or livestock. A rural resident is classified as one living in a town of not more than 2,500 population.

Economic Opportunity Loans to farmers may be made to improve their farming operations; to buy more land, livestock, machinery or equipment; construct needed farm buildings; and to pay annual operating expenses for feed, seed, and fertilizer.

These loans may be obtained by farm and rural families to finance rural-based, but non-agricultural enterprises. Funds may be used to purchase land, construct buildings, buy and install equipment and pay normal operating expenses of a variety of non-agricultural enterprises such as a farm machinery repair shop; TV and radio repair shop; ladders, spraying equipment and tools to be used by painters and carpenters; blacksmith shop; septic tank and sewage disposal system servicing; custom grass setting and land preparation; saw and lawn mower sharpening shop; post and wood cutting equipment; portable sheep and goat shearing equipment; etc.

Economic Opportunity Loans

are for the purpose of helping low-income rural families raise their income level. Rural families who need a small amount of capital to improve their incomes may borrow up to \$2,500 for 15 years at 4 and 1-8 percent interest. These loans are secured by a promissory note by the borrower and a loan agreement scheduled in accordance with his ability to repay.

Families and single individuals with incomes which are too low to cover basic needs, and who, with the assistance of the Farmers Home Administration county supervisor, are successful in developing a plan of operation which will provide a reasonable prospect of increasing their earnings through a small amount of credit from a farming operation or other non-agricultural enterprise, and who are unable to obtain adequate credit on reasonable terms elsewhere, are eligible to receive the loans.

Cappleman also advises that Economic Opportunity Loans may be made to finance processing, marketing purchasing and service type cooperatives which directly benefit low-income families living in rural areas. These loans may be scheduled for repayment over periods up to 30 years at an interest rate of 4 and 1-8 percent. The cooperative must pledge as security for the loan a property lien and pledge of revenue.

Some examples of cooperatives which might receive a loan are those packing, selling and shipping products grown on members' farms; marketing items constructed in home workshops of members, such as handicraft items; processing farm products; providing custom farm work for members; and wholesale buying of essential farm operating items such as machinery, seed, and fertilizer. These loans may be made to established or

newly formed cooperative associations made up of a membership two thirds of whom are low income rural families, and serving predominantly families in this group.

Cappleman stated that additional information concerning this program may be obtained from county Farmers Home Administration personnel, County and Home Demonstration agents, Vocational Agriculture teachers, Soil Conservation Service and Stabilization and Conservation Service representatives, and other United States Department of Agriculture agencies as well as State agencies. Applications may be filed in any local Farmers Home Administration Co. office in the state. There are 133 County Offices servicing every county in Texas. Applications are usually filed in the county in which the farm family or rural resident resides.

### W-F To Sponsor Flower Show May 1

May 1 and 2 have been set for the second annual flower show of six Wichita Falls garden clubs. The event is to be held in the newly remodeled and air-conditioned Clark Student Center on Midwestern University Campus in Wichita Falls. It is a "Florarama" presenting "Spotlight on Wichita Falls" as a theme.

Entries are to be submitted by members of the sponsoring clubs which include the University Park, Western Hills, Fountain Park, Popular Gardeners, Rivercrest, and Dig and Delve Garden Clubs. ### Truscott HD Club Has Meeting April 8

"Convenience foods" were discussed for members of the Truscott Home Demonstration Club at a meeting April 8, with Mrs. Edmund Tomanek and Mrs. R. C. Daniel acting as program leaders.

Mrs. Tomanek and Mrs. Daniel presented the actual costs of foods fresh, frozen and canned, as available in local stores. They showed how convenience foods are sometimes cheaper than either fresh or canned, but emphasized that the family preference must always be considered in choosing the items.

Mrs. W. M. Rake conducted the business session. Mrs. J. R. Brown led the singing and Mrs. Don Daniel presented a devotional, "One Solitary Light."

Mrs. Warren Corder led the prayer. The council report was given by Mrs. Marie Gillespie. Members were notified that the Lions Club dinner has been postponed until April 27.

Following the program, Mrs. Daniel led a food quiz game and Mrs. Brown served refreshments to 12 members and three guests.

### Eggleston-Frizzell Wedding Planned

Mr. and Mrs. Lee Eggleston of Nolan, former residents of O'Brien, are announcing the engagement of their daughter, Nancy Pearl, to Harold Dean Frizzell, son of Mr. and Mrs. Louie Frizzell of Sweetwater.

The engaged couple plan an early summer wedding. Miss Eggleston is a former student of O'Brien High School and is to be a graduate of Divide High School in May.

Her fiancé attended Divide High School and served in the Army for three years. He is employed by an oil construction company.

### Streams In Desert Places

Ozelle Stephens

Many years ago Simon of Syrene, the man who first carried the cross was on his way up to Jerusalem in search of God. His soul was reaching out, hoping, praying, and longing for the peace that passeth all understanding. God directed Simon in the way he took as He does all His children to serve and follow Him.

He has asked each one to take up his cross and follow Him daily. Wonderful peace, joy and satisfaction is found in doing so. Simon had not met Jesus before today. But when he took the cross he began to have a strange feeling that it was an honor to do this for this person.

When at last they reached the top of the hill the other two men were screaming, cursing and pleading for mercy but not a word from Jesus. When his cross was dropped in the ground he heard these words, "Father forgive them for they know not what they do."

A feeling of awe took possession of him as he listened to the words coming from the cross—When the last words rang out, "Father, it is finished, into thy hands I command my spirit." Simon was ready to say, "Lord, I will be your servant forever." Are you ready to serve Him? There is great joy and rewards forever, in doing so.

'65 Chevy II Nova Sport Coupe

'65 Corvair Corsa Sport Coupe

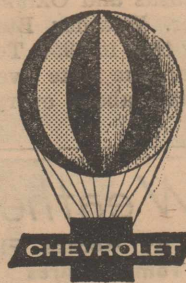

If you've been sitting tight waiting for just your kind of car, with just your kind of power, at just your kind of price—wait no longer!

**Chevrolet.** It's a bigger, more beautiful car this year. Which is why that handsome silhouette could be mistaken for cars costing a thousand—even two thousand—dollars more.

**Chevy II.** No car so trim has a right to be so thrifty. But thrifty it is, with money-savers like brakes that adjust themselves and a long-lived exhaust system.

**Chevelle.** This one's got lively looks, spirited power, a softer ride—and remarkable room atop a highly maneuverable wheelbase. No wonder it's today's favorite mid-size car.

**Corvair.** Ask any '65 Corvair owner how it feels to drive a car with such easy steering, tenacious traction and responsive rear-engine power. And be ready to do lots of listening.

### COMMUNICATIONS Your Tool for Progress

Imagine a telephone becoming a teacher!

In a case we know of, an automobile dealer uses our SPEAKERPHONE as a valuable and effective teaching instrument to train his salesmen. A salesman calls a customer and delivers a sales talk, with other salesmen listening to both voices via our SPEAKERPHONE. Afterward, sales talk and customer response are reviewed and discussed for the benefit of all. Here is still more evidence that in this modern age Communications can be your Tool for Progress. ## Tree Improvement Research Is Year Round Work

If you see a man scaling a pine tree like a monkey, chances are he is a part of the Texas Forest Service tree improvement team. It isn't unusual for him to spend most of a working day in the top of a pine tree. He's even patient when yellow jackets are on the move since he is usually 80 feet above ground.

His job is part of an over-all Service effort to produce high quality forest trees for Texas landowners.

Focal point of this activity is the forest genetics laboratory at Texas A & M University, headed up by Dr. J. P. van Buijtenen. The principle field laboratory is the Arthur Temple Sr. Research Area west of Alto in Cherokee County. However, all the "piney woods" serves as a laboratory to these "tree improvers."

The program is financed by both state and federal governments and by forest products industries.

Interest is centered in developing strains of pines to meet the demands of industry and forest landowners. Much progress has already been made in producing a drought resistant type. This will permit survival of planted pine seedlings on dry sites and during long periods of drought and in extending the range of pine. Also under investigation are quality trees of low and high specific gravity, and trees that are resistant to Southern pine beetles and tip moth.

Work in tree improvement is time consuming and entails much cross pollination. Since most pine tree flowers are near the top of the crown, a worker must climb each tree several times a year. First, he checks on flower growth. When flowers are about ripe, he bags them to keep out foreign pollen. Next, he applies pollen from another selected tree just as the flowers ripen. On his next trip, after the flowers are set, he removes the bags. Eighteen months later, he picks the special cones. With 50 or more flowers in each pine top to care for, this is a time consuming job.

A light sectional alloy ladder is used to climb the tall trees. A climber carries 10 foot sections of ladder with him as he climbs a tree. Near the top, however, he leaves his ladder and crawls with only limbs and a safety belt to aid him. A rope harness is used for the descent. Enroute down, he disassembles his ladder.

Some day fruits of the labor of these Texas Forest Service men will pay off for Texas woodland owners. Already benefits are on hand.

### Gardening Big Help To Mind And Body ---

Home gardeners by the hundreds and thousands emerge with the coming of warm spring weather to spade beds, plant seed, spread fertilizer, mow grass—and the other countless minor tasks attendant to keeping the lawn neat and attractive.

And gardening is excellent therapy for both mind and body. For those who enjoy digging in the dirt, gardening offers good exercise, fresh air and sunshine after a winter of being cooped up indoors.

Remember, though, to follow a few safety pointers and precautions and your gardening will be healthier, happier experience.

First, don't let your enthusiasm carry you away your first time out. Take it easy, at least for the first few sessions. Don't try to work a 10-hour day at hard manual labor on the first warm weekend. Take frequent rest breaks and work at a pace that isn't too tiring. As the season advances, your muscles will limber up and toughen, and you'll be able to do more with less discomfort.

Cuts, scratches, and bruises are the fate of most gardeners. Usually they aren't serious.

Clean minor cuts with warm water and soap and cover with a light bandage.

Tetanus lurks in the soil. If your immunizations are not up-to-date, see your doctor about a booster shot of tetanus toxoid at the beginning of the gardening season.

Stop and think about safety—before handling garden tools, especially power equipment such as lawn mowers. Always turn off the mower when you leave it, even if it is only for a few seconds. Always turn off the mower, saw or whatever when you add gasoline to the tank. Never use electric equipment

in wet or damp grass. And always read the safety instructions that usually accompany power tools.

Pesticides can be a gardener's best friend if he uses them wisely, but careless use and storage of pesticides can cause serious accidents. Always read the instructions on the package carefully and obey their safety warnings. Pesticides are safe, if properly used and kept away from children.

Don't let carelessness rob you of the enjoyment gardening can bring you this spring.

### Meinzer-Skiles Plan April 24 Wedding

Mr. and Mrs. P. D. Meinzer are announcing the engagement and approaching marriage of their daughter, Judy Ann, to Jimmy Dale Skiles, son of Mr. and Mrs. Huck Skiles of Abilene.

Wedding will be held April 24. The bride elect is a senior in Knox City High School and will graduate in May.

Mr. Skiles is employed by Willie Pool Chemical Co., in Abilene, where the couple will make their home.

### Spray Propazine to control weeds and grasses in sorghum.

One spray of Propazine® 80W herbicide controls most annual broadleaf weeds and grasses in sorghum for the entire season.

This can reduce or even eliminate the need for cultivating because Propazine takes care of problem weeds for you. Propazine is particularly effective on carelessweed (pigweed) and annual morning glory.

Sprayed before weeds and sorghum are up and activated by moisture, Propazine gives your crop an entire season without weed competition for moisture and soil nutrients. The result? Higher yields and more profit for you.

TEXAS PRESS ASSOCIATION

AUSTIN — Biggest job of the 59th Legislature — writing \$3,600,000,000 biennial budget for state government — was being quietly wrapped up in conference committee this week.

Conferees were playing a game of "beat the clock" to wind up before Easter holidays.

If they fail to make it, such important issues as teachers' pay raises and balancing tax measures would be postponed until dangerously late in the session.

Both Lt. Gov. Preston Smith and House Speaker Ben Barnes urged committee chairmen to turn on the speed.

Rep. Bill Heatly of Paducah, chairman of the House group, doubted the task could be completed by April 15 previous deadline set by Barnes. But Heatly said 15 solid hours of work would do the trick—if conferees can find the time between busy floor sessions.

Completing the 59th legislat-

ive meeting by the end-of-May cutoff time may depend on whether the conferees find that 15 hours for showdown decisions on vital money matters.

**REDISTRICTING NOW OR NEVER** — Sub-committee chairmen of the House redistricting committee huddled this week to compare notes on how legislative and congressional districts should be carved up under court order.

Senate already has passed two versions of a plan to increase its membership from 31 to 39 to help the work along.

Indications are that the House plans to give big counties the minimum representation allowable. This to make the painful task of reapportionment as easy as possible on rural areas which must yield representation any way you look at it.

State lawmakers are hopeful congress soon will pass a bill authorizing a 15 per cent variation above and below the math-

ematical average population per district. Speaker Barnes, on advice of Texas congressmen, predicts U. S. Supreme Court would yield that far in its one-man-one-vote edict.

**YOUTH CORPS PROJECT APPROVED**—First federal grant for a Neighborhood Youth Corps project in Texas has approval.

Gov. Connally announced clearance of all state preliminaries to grant of \$135,570 from U. S. Labor Department for Corpus Christi Independent School District. Program will enable 675 youths from low-income families to stay in school. They will be employed on part-time basis at \$1.00 an hour—or 83 cents, considering required hours of counseling and vocational guidance.

Wage is an exception from regulation requiring federal minimum wage to be paid on corps projects. Such exceptions, Connally noted, can be made on presentation of "convincing evidence."

**COLLEGE LOANS APPROVED** — State-financed college loan plan has final legislative authorization for submission to Texas voters.

If statewide election carries, an \$85,000,000 bond program will be established, enabling students from junior college to graduate and medical school level to borrow needed funds to complete their higher education.

Rep. George Hinson of Mineola, author of the proposed constitutional amendment, estimat-

es up to \$32 million will be borrowed in the next two years.

**MENTAL FACILITIES REVAMPED** — A bill calling for massive reshuffling of all state facilities and programs for mental health and retardation has been signed into law.

Legislation brings services under new Texas Department of Mental Health and Mental Retardation. It anticipates gradual shift in next decade from institutional care in state mental hospitals and special schools to "community care" in or near homes of patients.

Governor already has signed bill to place tuberculosis control and eradication facilities in the State Health Department. These two bills in effect abolish the present Board for Texas State Hospitals and Special Schools which has administered mental hospitals, special schools and tb hospitals.

**WACO A&M UNIT ASKED**—Gov. Connally called on the Legislature to authorize establishment of a vocational technical training institute at Waco's Connally Air Force Base, to be administered by Texas A&M University.

Base is scheduled for deactivation in 1966.

Bills to carry out Connally's request promptly were introduced by Rep. David Haines of Bryan and Sens. Murray Watson of Mart and Bill Moore of Bryan.

Governor asked appropriation of \$1,100,000 to prepare base for first classes in September, 1966.

**FLOOD CLEARS WEED**

When flood gates broke at Corpus Christi, near Mathis, thousands of acre feet were lost and the lake level dropped drastically. However, not everything was damaging, says a Parks and Wildlife Department biologist. Dropped level left high and dry thousands of hyacinths, of which the department had been trying to eradicate for years. A nuisance to fishermen, the plants had been almost impossible to control.

**"65" INSURANCE REOPENED** — Gov. Connally has declared April as Texas 65 Month in recognition of the third open enrollment period of Texas 65 Health Insurance Association, scheduled for April 15-30.

During these two weeks, all Texans 65 years old and over again are eligible to enroll in the health insurance program, regardless of age or health condition. Three plans are available ranging from premiums of \$9 to \$19 monthly.

**AG OPINIONS** — Atty. Gen. Waggoner Carr has held that the Commissioners Court of Sherman County may recognize the existence of a vacancy in the office of County Attorney and may appoint someone to fill the office.

District Attorney William Hunter of the 69th Judicial District had requested the opinion as a result of balloting in November's general election.

In that election, the incumbent County Attorney was defeated by a write-in candidate. However, the write-in candidate had not taken his bar examination. He was admitted to the bar prior to Jan. 1, 1965. Subsequently the District Court ruled that no eligible candidate had received a majority of plurality of the votes cast. But court did not rule on whether a vacancy existed as of January 1st.

Carr also has held constitutional a bill to make it unlawful for anyone to sell liquor to any person under 21. Bill deletes word "knowingly" from present law.

**SHORT SNORTS** — House criminal jurisprudence committee sent the bill to wipe out capital punishment to subcommittee after members raised the question whether a five year moratorium should be declared on electrocutions.

The annual County 4-H Rifle Match was held Saturday, April 10, just north of Rhineland. A total of eight senior boys and 13 junior boys competed in the meet. The top four senior boys will compete in the district elimination at Wichita Falls, May 8. They are in the order of finish — Wwman Meinzer, Benjamin; Lawrence New, Gilliland; Fred Cash, Gilliland; Gregory Zeissell, Rhineland with George Doby, Benjamin; first alternate. Other senior boys competing were: Ronnie Hollar, Munday; Rickie Herring, Rhineland, and Ronnie Simmons, Gilliland.

The junior division were those boys who had not reached their fourteenth birthday by January 1, 1965. The order of finish from top to bottom was as follows: David Navratil, Jacky Miller, Gilliland; Carl Doby, Steve Lamascus, Benjamin; Gerald Voss Munday; Mikael Loran, Rhineland; Phil Cook, Fred Cook, Gilliland; Johnny Wilde, Rhineland; Kerry Cash, Gilliland; Ricky Meinzer, Benjamin; Grover Reed of Gilliland and James Loran of Rhineland.

Knox County received a big boost with the rainfall of last week. From all reports, most of the county received in the vicinity of an inch. The dryland wheat really took on a different look.

This should be enough to get it out of the boot, which is a most difficult time.

The potatoes are up to a stand after a long time since planting in February. Grain sor-

## GOREE HOSTS CAREER DAY

The Goree High School will host a county-wide Career Day Thursday (today) for seniors from Munday, Knox City and Benjamin schools.

Students will attend their choice of six speeches five times during the day. Each speaker will explain his own profession.

An assembly program will be held at 9:00 a.m. and speakers at 9:50 a.m. will be:

Tom Bullington, county attorney from Munday; Charles Hogsett from Hogsett Chevrolet Co., in Munday; Mrs. Mary A. Moore, homemaking consultant from the Texas Education Agency; Mrs. Tom Bullington, Munday accountant and bookkeeper; Jessie G. Smith, Munday pharmacist; and Mrs. Phillip Colehour, Goree school librarian.

Speakers at 10:40 a.m. will be George Wall, Knox City Highway Department engineer; Sgt. Frank Jircek of Haskell, Texas Highway Patrol; Mrs. Nancy Jo Murphy, Seymour home economist; Dr. Tommy Gage, Munday dentist; Mrs. W. L. Conn, airline hostess now residing in O'Brien; and Jack Nunley, Goree barber.

An 11:30 a.m. session will feature Bob Winchester, Knox City science teacher; David Slaughter, Sul Ross College coach; Dr. W. H. Stewart, Munday veterinarian; Mrs. Alton Fitzgerald, Knox County school nurse; Mrs. Billie Harkness, Seymour secretary; James Carden, Munday electrician and plumber.

The 1 p.m. session will have the following speakers: Dr. David C. Eiland Jr., Munday MD; Joe Doby, Knox County agent; Roy Stewart from Modern Beauty Shop in Knox City;

ghum planting was the order of the day last week for most farmers. Some cotton was planted with this activity expected to pick up considerably.

Knox County ranchers are invited to attend a special program in Wichita Falls, Thursday April 22, beginning at 6 p.m. Dr. Jan C. Bonsma, World-wide authority on reproductive problems in cattle, from the University of Petrolia, South Africa, will present his program on cattle selection. Dr. Bonsma has developed a system of cattle selection on the basis of certain changes in their external appearance.

The program will run from 6-7 p.m., stop for a dutch supper and then continue after supper. It will be held at the 4H club barn on Hampstead Lane.

Some people swear by pesticides, others swear at them. Usually the difference in the two is what they know about pesticides and how they apply them. Whether or not pesticides harm men, animals, plants, fish and wildlife depends largely upon one person — the user.

By following a few simple rules of safety when using agricultural chemicals, especially pesticides, trouble can be avoided. We would like to offer these suggestions. Follow all label directions and safety precautions. The manufacturer is required by law to properly label his material. The label clearly states what the pesticides is to be used for and how. Also precautions for the applicator's safety when applying the material are listed.

All agricultural chemicals and especially pesticides should be stored under lock and key and in their original containers. If for any reason, the original container is not used, then properly label the substitute. Don't guess what is in an unlabeled bag or bottle. It could be a costly one.

Dispose of containers in a safe manner. Burn paper containers but make sure the smoke does not drift on you or your house or a neighbor's property. If the containers are glass or metal, bury them.

Guard against drifting dusts or sprays. Make sure they do not drift into an area where they will be harmful.

And remember, when you encounter trouble with pesticides, about the only person you can blame is yourself.

## Why a prominent banker urges you to buy Savings Bonds

"My service as Chairman of the ABA Savings Bonds committee provided a unique vantage point from which to observe how Savings Bonds, as a non-inflationary method of financing the public debt, benefit every American by helping to maintain the value of the dollar.

"And in almost 25 years as a Savings Bonds volunteer I have seen again and again how Savings Bonds help individual families by providing a steady, dependable, guaranteed way to save.

"Recognizing these contributions to our national and individual economic strength, bankers have been among the most enthusiastic supporters of the Savings Bonds program since its inception in 1941."

How to Get Less Air in Baby's Tummy — Babies held in an almost vertical position while being nursed or bottle-fed will get less air in their tummies, and suffer less discomfort. Dr. J. H. Hood, of Children's Hospital, in Brisbane, Australia, also observes that adults confined to bed, especially after abdominal surgery, will get less uncomfortable if they eat in an erect or semi-erect position.

Why? Because they take in more air when reclining.

Planning and Prenatal Care Vital — The U. S. aims to put a man on the moon before the end of the 60's. Our people produce more goods and services than any country in history. Yet we rank 10th among Western nations in deaths per 1,000 of infants under one year. It is estimated that one of every 40 babies born in the U. S. dies before it reaches its first birthday; that one of every 16 babies born here has a birth defect.

These shocking figures can be cut substantially if:

1) Women PLAN their pregnancies. Then any abnormalities or diseases they may have can be eliminated or treated.

2) All women, rich and poor alike, receive prompt and continuous prenatal care.

Every county in the land has a hospital clinic or public health center at which prenatal care is provided. To find out what is available in your community check your state, city, or county health department. The lives you're safeguarding are yours — and your baby's.

Tetanus Tame-able! — Do you like to garden? Or walk barefoot on a sandy beach? Do you ever have to change a tire? Do you think you might puncture your skin some day on a thorn, or a baby's diaper pin, or while opening a can?

Your answer to one or more of these questions is likely to be "yes." If it is, there's another question we hope you can answer with a "yes." Have you been inoculated against tetanus? Tetanus, also known as "lockjaw," is a killing disease caused by a germ that lurks in dirt.

An innocent-looking garden tool, a piece of broken glass, a nail (which doesn't have to be rusty) — any of these can harbor the germ. It can penetrate a tiny skin puncture to do its deadly mischief. Unless you're inoculated against the disease, tetanus can strike. Its victims have only a 60-40 chance of survival.

Despite the fact that a safe, dependable, long-lasting inoculation against tetanus exists, Americans are dying of the disease every year, either because they have never been inoculated or neglected to get their boosters.

Two Harvard researchers, Leo Levine and Louise Wyman, found that many Massachusetts men and women over 30 are not fully protected against tetanus. More women than men over 20 are susceptible to it largely because, the scientists believe, men are routinely inoculated against tetanus when they do their military service.

After 50, though, both men and women seem to be inadequately protected. (Studies by the World Health Organization indicate that immunization of women before pregnancy helps protect newborn infants from tetanus). Mr. Levine is chief of laboratory and Miss Wyman is senior bacteriologist, at the Division of Biologic Laboratories,

## 1946 Study Club Has Meeting

Seven representatives of Knox City High School gave their Interscholastic League entries for members of the 1946 Study Club Tuesday. Mrs. Ottis Cash is their sponsor. Mrs. Leon Burkham introduced the speakers.

They were David Hoge, extemporaneous speaking, "The Warren Commission Report;" Mack Standlee, persuasive speaking, "Civil Rights;" Carolyn Crowover, poetry interpretation, "Come Up from the Fields, Father," (Walt Whitman);

Mike Glenn, poetry interpretation, "Silence," (Edgar Lee Masters); Belle Burnett, poetry interpretation, "Poetry of One Dead," (Conrad Aiken); Kay Reeves, prose interpretation, "What My Son Taught Me;" Johnny Montandon, prose interpretation, "Look Down, Travis."

Mrs. Cash said these seven speakers were among 30 who would represent Knox City in their first venture in Class A participation in Interscholastic League Literary Events Friday

## Willis Receives SCS Award

Roland Willis, area conservationist for the Soil Conservation Service in Lubbock, was honored at a state SCS meeting in Temple last week for outstanding performance of duties.

Willis was born and raised in Knox City and graduated from school here. He and his mother now reside in Lubbock.

H. N. Smith, state conservationist, presented Willis one of the two such awards given at the meeting. The USDA Certificate of Merit cited performance substantially exceeding the requirements of Willis' position during 1964.

Smith said that during the past year Willis supervised service activities in the Lubbock area resulting in significant increase in area production.

Willis has been area conservationist with headquarters in Lubbock since June 1961. He is responsible for SCS operations in the Lubbock, Lamb, Crosby, Hockley, Hale, Garza, Cochran, Floyd, Duck Creek and Black Water Valley Soil Conservation Districts.

He holds a B. S. degree in agronomy from Texas A. & M. and began his SCS career at San Angelo in 1952. He since has served at Waco, San Marcos, Big Spring, Stanton, Robert Lee and Littlefield.

He is a captain in the Air Force Reserve.

Massachusetts Department of Health.

## Can't Sleep? Join The Bunch! Here Are Some Helpful Hints

You can't sleep? You have lots of company.

There are millions of "insomniacs" in America. Even though they are tired and weary, they toss and turn for hours — or wake up four to five times during the night.

And they face the early morning with all the pep and enthusiasm of a wet dish cloth.

Almost every one has a pet

at Paducah.

Following the program members of the club held a hat sale. Hostesses for the afternoon were Mmes. Jack Hamilton, Rufus White, Jim Bateman and Sammy Tankersley.

Lemon punch and cookies were served. A beautiful arrangement of yellow gladioli, Dutch iris and lemon leaves was used on the piano. The table was centered with an arrangement of yellow mums and roses in a gold container. Hats and mannequins were also used in the decorating scheme.

Plans were announced for the Easter Seal drive to be held April 13. The club was invited to attend the meeting of the Knox City Study Club April 15 when the Knox City High School One Act Play will be given. The play won District 11-A competition. Mrs. Harold Bankston is director.

remedy for sleeplessness. If you have one that works — use it.

Charles Dickens could sleep only in a bed that faced north. A physician once said he found counting sheep did no good, but he had success starting at 1,000 and counting backward.

If you are one of those who find themselves starting dejectedly at the ceiling at three in the morning, maybe some of these suggestions will help.

Make yourself as comfortable as possible before you retire. Make sure you've the right temperature in your bedroom.

Use a comfortable mattress, not too hard or too soft; good bedsprings that won't hop coils into your ribs and won't sag in the middle; and fluffy, light blankets rather than heavy ones.

Take a brief, relaxing walk before turning in, or do some mild exercising to help tire you enough to relax.

Again, there are all sorts of theories. Some people say coffee keeps them awake. Some prefer warm milk or a light snack. Many people read themselves to sleep, using everything from comic books and mystery magazines to rhythmical poetry.

If you do encounter a sleepless night now and then, don't fight it. Just lie there and relax. The rest will do you good. Chances are, you will rest well and get enough sleep when you do drop off. Worrying about not

sleeping will only make you more awake than ever.

If insomnia becomes a real health problem, see your doctor. He may be able to help you find relief.

## Knights of Columbus Sponsor Contest

An essay contest to be judged by an inter-faith panel of judges on the topic of "The Ideology of Democracy" is being conducted by the Texas State Council, Knights of Columbus.

"Texas high school students of all races, colors and creeds are invited to write essays on the topic," said Charles J. Kaler, Jr., of Corpus Christi, council state deputy. "Prizes will be a \$100 and a \$50 U. S. Savings Bond and 10 honorable mention awards.

High school principals desiring copies of the rules can obtain them by calling local members of the Knights of Columbus or writing directly to the Essay Contest Committee, Texas Knights of Columbus, 1111 Majestic Building, San Antonio."

Kaler said the essays would be judged by a panel composed of representatives of the Jewish, Protestant and Catholic faiths and the names of the judges would be made public on conclusion of the contest.

"The contest rules are simple" Kaler continued, "in that the writers must be bona fide, full time students of a Texas high school and under 20 years old. The essay cannot exceed 300 words and should be signed by the student with his or her full name, age, school, class, home address, telephone, city and state.

"Further, students should list their parents' full name, address and telephone and give the same information on the principal of the school. The essay must be mailed before April 18 directly to the Essay Contest Committee, Texas Knights of Columbus, 1111 Majestic Bldg., San Antonio, Texas. Rhetorical structure will be left entirely to the student."

**HERALD**

# FACTS & FIGURES

Reams and reams of articles pro and con on the proposed teacher pay raises, leaves the citizen with many unanswered questions on how it will affect him and his school. The Herald, in cooperation with Mr. William Roy Baker, Superintendent of O'Brien schools has helped immeasurably in compiling the facts and figures listed below to illustrate, or rather to let the voter see for himself what the proposed legislation can do locally.

At the present time, Texas teachers rank 32nd among the states in average salary received. They are

\$774. below the national average and are dropping at the rate of more than \$200 per year. Texas teachers have had no base salary increase since 1961. During that period the cost of living has increased 8 percent and salary increase nationwide in all fields has been 12 per cent and continues to rise at the rate of 3 per cent per year.

Beginning school teachers take-home pay at the present time is \$274.62 figured on a 12-month basis, plus \$10 per month for each dependent on the minimum pay scale.

## COMPARISON OF "\$45 FOR '65" PROGRAM WITH PROPOSED GOVERNOR'S PROGRAM For 1965-1966

"\$45 for '65" (S. B. No. 4—H. B. No. 5)	GOVERNOR'S PROGRAM (S.B. No. 124—H.B. No. 446)
<b>BACHELOR'S DEGREE</b> \$45-per month salary increase for all professional personnel.	<b>BACHELORS DEGREE</b> \$10-per-month for beginning teachers. \$12-\$18 per month for others.
<b>MASTERS DEGREE</b> \$45-per-month salary increase for all professional personnel.	<b>MASTERS DEGREE</b> \$19-per-month increase for beginning teachers. \$21-\$27 per month for others.
	<b>OTHER PROVISIONS</b> State funds equal to \$50 per classroom teacher to be used for selective salary increases for classroom teachers only. Local districts would provide equal funds from local sources. \$75-per-month increment above Masters Degree schedule for holder of Doctor of Philosophy Degree.
<b>TOTAL COST — \$42 MILLION.</b> Local District Share — \$8.4 million (20 percent) State Share — \$33.6 Million (80 percent).	<b>TOTAL COST — APPROXIMATELY \$19.1 Million</b> Local District Share — \$13.8 million (72 per cent). State Share — \$5.3 million (28 percent).

### FOR 1965-66, 1966-67

Total Cost — \$85 million for teacher salary increase. State share — \$68 million. Local share — \$17 million. State — 80 percent*      Local — 20 percent*	Total Cost — \$40 million for teacher salary increase. State Share — \$12 million. Local Share — \$28 million. State — 30 per cent      —      Local — 70 per cent
--	---

(\*This is based on all the schools in the state. Some pay more and some less. O'Brien, at present, pays 45 per cent of the Minimum Fund Requirement.)

Local districts are required for the first time to pay 20 percent of the cost of textbooks and 20 percent of the cost of retirement matching for teachers.

### --- This Information From Texas Education Agency ---

	Current (1965-66)	Under T. S. T. A. Bill	Under Governor's Bill

NET Salary Increase to the Knox City Teachers . . . . .	None	\$10,343	\$ 4,688

The Governor's plan will give the average teacher in O'Brien a take home pay raise of \$9.65 per month. The T. S. T. A. plan will give the average teacher in O'Brien a take home pay raise of \$26.04 per month.

It should be noticed that the Governor's proposal will increase in local cost each two years while the T.S.T.A. cost will be met in the current year. All figures have reference to the present school year (1964-65) only. The local cost could change as the size of the faculty may change and textbook cost go up etc.

## THE FAMILY LAWYER

**LAW DAY USA**  
At a police station in Tennessee, an indignant schoolboy put this question to the officer on duty:

"If the principal whips me at school, and then my mother whips me for the same thing when I get home, can she be arrested for double jeopardy?"

How does it happen that a mere schoolboy, still shaky in his grammar, is already on speaking terms with an ancient and technical rule of law?

How does it happen that Poet Robert Frost defined freedom not as the lack of all restraint but as learning to "feel easy in your harness"?

How does it happen that thousands of prisoners in our jails are showing more interest in filing legal papers than in filing iron bars?

How does it happen that the power of our government has been handed over peacefully, from one administration to the next, for almost two centuries?

The answer is that the roots of law run very deep indeed in this land. And that is what Law Day USA, the first of May, is all about.

When President Dwight D. Eisenhower proclaimed the first Law Day in 1958, he refrained from specifying any particular kind of ceremony. For this occasion glorifies no single leader

and commemorates no single event. It honors only a simple and momentous idea: that where law rules, men are free.

Thus, the observance takes many forms. There are quiz contests among school children about the Bill of Rights, and mock trials, and visits to the local courtroom. There are sermons and lodge meetings and TV shows with law as the theme. And judges add extra words of warmth as they swear aliens into citizenship.

There was method in choosing May 1 as the date for paying our homage to the rule of law. For that is the date on which millions behind the Iron Curtain are paying their homage to power. In the words of President John F. Kennedy, Law Day is "the significant answer to Communism's May Day."

Whatever form that answer takes in your community, you will understand its message better in the context of 100,000 simultaneous observances across the nation. The rule of law has strength for the finest reason in the world: that so many free people believe in it. The 1965 Law Day theme is timely: "Uphold the Law — A Citizen's First Duty."
