### Shootin' Straight

By Dave Thompson

With a story in an earlier edition of the News, and another article this week, all of us are reminded that election time is just around the corner. Even though this is not an election that will gain national notice, each of us here in Knox City should make it a point to pay keen attention to the three different races that are underway.

The city will be placing the positions of mayor and three council seats up for grabs on the ballots, the Knox City-O'Brien Consolidated Independent School District will have two seats on the trustee board up for election, and the Knox County Hospital Board will be filling one open position on its governing board. With these three different areas of our local governments having openings, this joint election is of vital interest to every resident of the city. The running of the city government, the administration of both the school district and the county hospital will be affected by this election; therefore it would be safe to assume that at least one of these areas could affect each of us. With that type of a future impact in mind, we should all take pride in the fact that we have the opportunity to be heard and place individuals of our choice in those positions up for election. The way to be heard is very simple. All it takes is voting participation on April 2. For one reason or another, there are always a large number of registered voters who do not show up at the polls. The reasons for non-appearance are varied. Mostly they are just excuses that don't amount to a "hill of beans." In a democratic form of government, it is the inherited duty of each citizen to take an active part in the elective process that is so important to our way of life.

It seems to be so easy for some to sit in the coffeshops and beauty parlors and criticize those in office for the way that they are, or are not doing their jobs. If you do not agree with the way that the different branches of government operate, an election is the time to have your say in the matters. By voting, you can re-elect those in office that you think are doing a good job-or you can take part in removing them from office and placing someone of your choice in the position. It's simple, it's up to you.

The election is still over a month away and some might think that this article about voting is a little early. In reality, it might just take the amount of time that is left for some to make their plans to be available on election day in order to vote.

Whatever the issues are and whoever you choose, remember to plan on voting in the upcoming election! As you converse with others prior to the election, remind them to vote also! It would be different and would probably make national news if Knox City were to be represented by 100% of its registered voters at the polls!

On a closing note, if you feel that you could contribute to these governments by serving in an elected position, then sign up to have your name placed on the ballots prior to the filing deadlines. There are still positions on the city council that have not been filled for. Maybe it's your turn to fill those seats for awhile.

More Shootin' Straight next week.....

## Scout Cookie Sale To Begin Friday

February 25 marks the start of this year's Girl Scout Cookie Sale and will continue through March 16. The Cookie Sale is an American tradition that dates back to 1933, it's still the main fund raiser for the Girl Scouts, one of America's finest youth groups. All age groups will again be selling the cookies. The girls will be selling seven delicious varieties of cookies including Do-Si-Dos (peanut butter sandwich), Vanchos (vanilla and chocolate cremes), Tagalongs (peanut butter patties), Trefoils (old fashioned tender shortbread), Thin Mints (double rich with fudge middle), Samoas (vanilla cookie covered with caramel, coconut and coco), and Chocolate Chunks.

Linda Carver, service unit cookie chairman for Knox City, explained that the money raised through this year's sale goes to help the troops in Knox City finance their troop many activities. The sale also serves as a learning experience for the girls by teaching them how to relate to other people and how to handle money. As well as supporting local troop activities, the cookie money

also helps the NorCentTex Girl Scout Council continue to provide and improve the Girl Scout program for the girls throughout the Council. It also helps support and maintain local day camps in the summer and Camp Stonewall Jackson, a primitive campsite near Holliday.

The girls will also receive individual awards for their cookie selling efforts. Each girl who participates in the sale will receive a "Rising to Great Heights" Doodle Art Poster. Girls selling 50 or more boxes will receive a 1983 Cookie Patch. Those selling 100 boxes or more will receive a Cookie Mug. For 150 or more boxes the girl will receive a cookie T-Shirt, 200 or more boxes sold the girls will receive a Canvas Tote Bag. The girls that sell 250 or more boxes will get a NorCentTex Baseball Cap and for 300 or more boxes a stuffed Penguin.

Girls from over 80 troops in the 11 county area will be selling cookies in thirteen area towns including Archer city, Burkburnett, Childress, Henrietta, Holliday, Iowa Park, Knox City, Munday, Paducah, Petrolia, Quanah, Sheppard Air Force Base, and Wichita Falls.

## Houndettes Bi-District Champions

By Dale Wainscott

For the second year in a row the Knox City Houndettes won the bi-district crown. This moves them on for a playoff with Windthorst for the Area Crown. This game was to be played Tuesday at Seymour.

Last Friday, the Houndettes traveled to Anson to play Lueders-Avoca for the bi-district championship. LA represented district 20-A and KC represented 19-A. The score by quarters was KC=16-28-43-59; LA=6-14-28-34.

Leading scoring individuals were Sharon Roberson with 15, Tammy Rogers with 11, Delores Stafford with 10, Toni Hewitt with 10, Diane Helms with 8, Karae Beal with 4, and Daveine Holcomb with 1.

The Houndettes played well, they concentrated on moving the ball and this is what makes them so tough.

The winner of the area game Tuesday night will be in the Regional Tournament at Stephenville Friday and Saturday.

Good Luck Houndettes! Hope we'll see you there!

## PIK Signup Ends Mar. 11

# Deadline Will Not Be Extended

Farmers have only a few weeks left to sign up for the payment-in-kind program. The signup period ends March 11 and will not be extended, according to John Rector, Agricultural Stabilization and Conservation Service executive director for Knox County.

"Farmers will not have the opportunity to change their mind and sign up after this deadline. However, those who have already enrolled and those who enroll before March 11 will have the option of withdrawing or changing their enrollment without penalty provided it is done before enrollment ends," Rector said.

The PIK program is a land diversion program designed to bring supplies more in line with demand. The government offers farmers a commodity for reducing acreage by a larger amount than the 20 percent called for under previously announced voluntary acreage reduction and land diversion programs. Commodities eligible for the program are wheat, rice, corn, grains, sorghum, and upland cotton.

"Producers on any farm for which a 1983 acreage base and yield have been established under the acreage reduction programs are eligible to participate in the PIK program," Rector said.

Under the program, farmers have the right to receive bushel or pounds of the crops from which acreage was diverted. However, the Commodity Credit Corporation reserves the right to substitute, on a bushel for bushel basis, corn for grain sorghum, he said. The amount of crop entitlement will be determined by multiplying 80 percent (95 percent for wheat) times the farm program yield, times the acres diverted from

**Carriker Opens District Office**

(Austin) State Representative Steve Carriker has announced the opening of a district office in Roby. The office is located on U.S. Highway 180 one-half block west of the traffic signal. Marjorie Mitchell, a former Roby school teacher, is serving as the District Office Manager. The District office will be open mornings, Monday through Friday. The mailing address is Box 517, Roby, 79543, and the telephone number is (915) 776-2358.

When not in Austin, Representative Carriker can be reached at the district office number. "I try to make it back to the district about every two weeks to take care of things around the farm and handle constituent matters," Carriker said. Carriker, a first term representative, sits on the Agriculture and Livestock Committee, the County Affairs Committee, the subcommittee for Budget & Oversight of County Affairs, and the 17-member Executive Committee for the House Democratic Caucus.

**G.T.E. Seeks New Revenues**

SAN ANGELO--General Telephone Company of the Southwest asked the Public Utility Commission of Texas (Feb. 11, 1983) for \$85.5 million in new revenues, almost half of which the company says is due to changes dictated by various governmental actions.

E.L. "Buddy" Langley, president of General Telephone, said the request is being made because earnings have fallen to 9.5 percent from 12.5 percent authorized last year, which was never obtained; interest coverage, critical to the company's bond rating among financial agencies, has fallen to 2.68 and poses a danger of having the company's A-rating downgraded to a BBB; and the dramatic impacts of deregulation of the industry and the restructuring of prices mandated by governmental actions.

"All of these factors require us to either raise rates or cut back our service improvement and modernization program," Langley said. "As distasteful as raising rates is, we prefer this rather than reducing

these programs which our customers have told us they expect.

"During the 12 months covered in our filing, we reduced our companywide work force the equivalent of approximately 700 employees in an effort to reduce costs, but we have reached the point we cannot reduce much more without adversely affecting service," he continued. "As a public utility we do not have the option of cur-tailing expansion and investment during periods of recession and high interest rates. We have the obligation to have facilities to meet our customers' needs when they request them. Therefore, we can only proceed with prudent programs and seek permission from the state commission to raise our rates.

"We realize our customers expect quality service and it is our objective to provide it. It is unfortunate that this

costs money."

Benjamin, Knox City, O'Brien, Munday, Goree and Seymour are in the local rate band where proposed increases on business phones will be from the present one-party rate of \$19.75 to \$29.70 and residences from the present one-party rate of \$7.45 to \$11.20.

Rochester, Rule, Haskell, and Weinert have extended area service which would increase in addition to the local rate band.

**Knox County Bridge Will Undergo Repair**

CHILDRESS -- Wasting no time in deploying the recently appropriated Federal highway funds, the State Highway and Public Transportation Commission approved a \$140 million Bridge Replacement and Rehabilitation Program January 27, 1983.

Knox County's share of this total is \$281,000, which will be used for replacement or rehabilitation of the bridge at South Wichita River, 5.0 miles north of U.S. Highway 82 on F.M. 267.

Childress District Engineer Lewis H. White said that the \$7,143,000 approved for the Childress District will be used for bridge improvements in five counties.

The two-year program will upgrade 245 bridges in Texas. Last year TRIP (The Road Information Program) published a national survey showing Texas leading the

nation in deficient bridges. "This two-year program will get a number of bridges on our system up to standard," said Wayne Henneberger, State Bridge Engineer of the State Department of Highways and Public Transportation (DHT).

Under Federal appropriations formulas, City and County Bridge Programs (off the State Highway System) will receive \$26,891,100 -- about one-fourth of the amount allocated for State System Bridges. The State System includes Interstates, US Highways, State Highways, and Farm to Market Roads.

Distribution of the funds for the bridge projects is based on an inventory of bridges, taken by each of DHT's 24 Districts, compiled in December 1980.

"How does a man become wise? The first step is to trust and reverence the Lord. Only fools refuse to be taught. Listen to the Christian father and mother. What you learn from them will stand you in good stead; it will gain you many honors." (Prov. 1: 7-9). Parap.

King Solomon, King of Israel, King David's son, was the wisest man who ever lived. He gave us instructions to become wiser and be great leaders in teaching the depths of meaning in the nuggets of truth that he wrote in Proverbs. He is saying to all, "Come here and listen to me and I will pour out the Spirit of wisdom upon you and make you wise. Do not turn your back on me, choose to reverence the Lord and trust in Him." All of you who listen to me shall live in peace and safety, unafraid.

The Word says, "I am Jehovah your God who liberated you from sin and death; You may worship no other God than me".

Solomon said, "You can be sure, if you have spurned God's counsel and reproof; some day you will be in trouble, the storms of terror will surround you. You will be engulfed by anguish and distress; then God will not answer your cry for help." Today is the time to reverence your God and trust in Him. Obey Solomon's words of wisdom, and you shall find peace and happiness. Let the Holy Spirit be your guide and comforter.

## Rebates Increase

State Comptroller Bob Bullock Monday returned \$114.3 million in local sales tax payments to 974 cities who levy the one-percent city sales tax.

Although the payment is the largest single one returned to cities since the rebates began in 1968, Bullock warned merchants and city officials not to make too much of it.

"Our sales tax goose is still laying golden eggs but they are not growing as fast as they used to," Bullock said. The Comptroller pointed out February allocations, based on sales made in December, are traditionally the biggest of the year.

"Last February we made an allocation that was 16 percent higher than the previous year, which was 16 percent higher than the year before that," Bullock said. "This February, our allocation is only 7.49 percent higher than February 1982. And a good deal of this is because of streamlined procedures we're using to get as much city revenue back to the city that collected it just as soon as possible. If we took out the part of the increase due to processing improvements, the rate of growth over last February would look even smaller."

Knox City's net payment for the period was \$10,454.82 as compared to last year's \$9,735.77. Payments to date for 1983 were \$13,829.85, a 3.37% increase over last year's \$13,379.58.

Munday received \$8,240.81 as compared to \$6,571.48 for the same period in 1982. Payments to date in 1983 have been \$10,386.62, a 17.98% increase over last year's \$8,803.35.

Benjamin's payment of \$697.66 was -2.93% less than \$718.72 in 1982.

Goree showed a decrease of .3807 with \$675.39 this period as compared to last year's \$1,090.57.

O'Brien's \$327.68 was a -10.10% below last year's \$364.48.

Payments for this period for other area towns included Haskell \$32,002.14; Rochester \$2,147.49; Rule \$3,882.62; Weinert \$386.02; Seymour \$27,426.46; Crowell \$3,895.14; and Stamford \$28,041.93.

The city sales taxes are collected along with the state sales tax by merchants and rebated monthly to the cities in which they are collected by the Comptroller.

## Plans Are Underway For 'Heart Month'

February is designated as Heart Month, and members of the Knox County chapter of the American Heart Association are busily engaged in organizing drives in the various communities of the county.

Mrs. Latham has asked the cooperation of the Munday citizens if they are requested to assist in the drive. Plans are to complete the drive by March 4.

Jeanette Blake is organizing a "100 Heart Club" in Goree. The "100 Heart Club" is a drive in which each worker who raises their goal of \$100.00 becomes a member of the "club" and receives a certificate.

## The Computer Goes To The Classroom

Mention the word "computer" to a farmer 15 years ago and he probably would have conjured up images of huge rooms filled with robot-like gadgets, complete with scientists running to and fro, punching buttons and flipping dials.

Now those days have passed; the computer has slipped into practically every aspect of life today. The butcher, the baker, the businessman and the banker are all becoming involved with the computer. And yes, the computer has also made its way into the feedlot.

"The computer in agriculture is here to stay," was how one high school vo-ag instructor put it.

And it would appear it's not just in production agriculture or agri-business. It is being used by secondary ag teachers across the country to instruct students on how to improve the management of their farming operations. As a result students are able to make better, quicker and more efficient management decisions, leading toward more productive careers in agriculture.

It's happening in vocational agriculture departments everywhere, take for example the Langford FFA Chapter in South Dakota.

Vo-ag teacher Floyd Lehman owns a micro-computer and data bank, and he uses them both in dialy classroom instruction. Students can sit down to a terminal and call up a program. The program often consists of answering practice questions on a number of farm management topics and allows students to work at their own pace.

Lehman said students can even use the machine to make more informed decisions on their supervised occupational experience programs.

"One student came in early this afternoon and ran a program on wheat, trying to figure out what his best crop would be," Lehman said. "Another wanted to buy feeder pigs, and he worked out the breakeven analysis."

"Basically, if students have a micro (computer) available to them they should be able to use it on a 'what-if' basis—what if I would buy a \$40,000 tractor instead of a \$60,000 tractor? What if I would plant wheat instead of corn?"

Computer instruction in farm management won't make decision making obsolete, he said.

"They still have to make their own decisions. But at least the information and the analysis that the computer puts out gives them something to base that decision on," Lehman said. "The farm management end of it ties in well with the high

school because it's providing information that's meaningful for the high school students."

The situation at Langford, although successful, is not typical. In most cases schools are either buying their own micro-computer systems or just buying the computer terminal. The latter enables vo-ag instructors to tap in to state or regional computer systems via telephone.

Gary Leske, professor of agricultural education, University of Minnesota, said the new use of computers in high school classrooms is constantly changing. High schools in Minnesota can plug into the large-frame computer service MECC (Minnesota Educational Computer Consortium), and Leske said about 92 percent of the schools in the state can get into the system.

"Almost all ag programs have access to the MECC system," he said, "but realistically, only about 25 percent are active in a regularly scheduled way. In many cases teachers are not prepared to operate them (computers)."

John Hobert is an FFA advisor and vo-ag instructor involved with computer instruction at Cannon Falls, Minnesota.

"When you get a program, a lot of time there's no written material to go with it—that's a problem," he said. "We need more written

material that outlines completely what we see in the computer."

Hobert said more written instructions for program operation and a greater number of agricultural program writers were required.

The use of the computer in the classroom is just one segment of the progressive skills being explored in the farm management area. Lehman taught adult farm management before starting the Langford vocational education program. He said he can see the need for good farm management skills.

"Many farmers don't know what the cost of production is," Lehman said. "They plow, they plant, they harvest at the end of the year if they have any money left in the checking account they think they've made money for the year."

He said he hopes students become aware of the different uses of the computer in the classroom, and the effects it may have on their future endeavors as farmers.

"Hopefully, they'll have the appreciation of what a computer can do for them as far as decision-making, record-keeping and so forth. At least they'll know that it's another tool they have at their disposal."

"We don't want to try to make computer experts out of them," Lehman said, "but the computer in agriculture is here and its here to stay. The last we can do is make the students aware of what it can do for them, and the benefits they can get from it."

## Call Toll Free For Agent Referral List

College Station -- Names of certified agents who have completed the Agent Certification Training and testing program will be available at a toll free 800 telephone number in 1983, according to F.W. "Ted" Crouch, Jr., Director for the College Station, Texas Field Operations Office of the Federal Crop Insurance Corporation (FCIC).

"Agents who qualify at a later date will be added to the listing as they are trained and certified. In addition to the toll free number listing, the county ASCS offices will post a list of all certified and authorized agents," Crouch stated.

### BVRA Elects New Officers

At its recent annual meeting, the Brazos Valley Recreation Association decided to charge one dollar per day for horses left at the arena for more than two weeks.

Other business at the meeting included the election of officers and planning for the association's annual Knox County Open All Trophy Horse Show and the Munday-Knox City Cutting Horse Contest.

Wayne Rowan of O'Brien was elected president of the organization. Elected vice-president was Max Bradley of Knox City and Mary Ann Boone of Knox City will serve as secretary-treasurer for the group this year.

Members decided to have the Open All Trophy Horse Show on the second Saturday of June, as in previous years, and to work with the Munday arena association on the Cutting Horse Contest.

"The individual farm yield guarantee and other program changes make immediate access to a trained agent necessary," Crouch added.

"Absentee landowners needing to locate a qualified agent in the same county where the land is located will find this service especially helpful," Crouch declared.

"Use of the 800 number is simple. Just dial 1-800-447-4700 and ask for agent referral. The operator will ask for name, address, and the zip code where the land is physically located. With this information the names of three certified agents in that area will be randomly and automatically selected and given to the caller. Farmers can be assured that all agents listed will be either certified by FCIC or authorized by a reinsured company," Crouch said.

# Open an IRA at Olney Savings and make a brilliant deduction.

This year, when you open or add to your Olney Savings Individual Retirement Account, you can receive a \$2000 deduction on your 1982 income tax return. We think that's brilliant. And we think you deserve it.

Whether you're a rancher, farmer, small business owner, doctor, lawyer or whatever, you can benefit from an IRA. Even if you already have a retirement plan where you work, you're still eligible for an IRA.

And you won't have to pay income taxes on the money you invest or on the interest it earns until you retire (when you'll be in a much lower tax bracket). So, come see us soon. Or call and we'll come see you. We'll answer all your brilliant questions about an IRA.

Come see us soon. Or call and we'll come see you.

## Texas Senior Games Coming Up May 18-21

AUSTIN -- The second annual Texas Senior Games are on the way. The starter's gun is loaded and will go off on the campus of UT-Arlington, May 18-21.

Any Texas resident 50 years of age or older is eligible to compete in any of the over 40 events being offered. In most events, separate contests will be held for men and women in the following age groups: 50-54; 55-59; 60-64; 65-69; 70-74; 75 and older. Registration cost is \$1 for each event, plus nominal facility fees for certain events such as bowling, golf, tennis and racquetball.

The success of the first Senior Games held last year has insured a large turnout of the state's older athletes and game players. "Over 600 older Texans competed in our games last year," according to Hal Geldon, executive director of the Texas Senior Games. "We had people from all four corners of the state compete and expect an even greater turnout this year which appropriately enough will coincide with Older American's Month."

Sponsor for the games is a non-profit organization, Texas Senior Games for Fun and Fitness, in cooperation with the Texas Department on Aging and the Governor's Commission on Physical Fitness.

Other supporting organizations include The American Association of Retired Persons, the Texas Amateur Athletic Federation, Texas Recreation and Parks Society, and the Dallas Morning News.

Among the local groups that will be working with the participants are: Dallas County YMCA, Arlington YMCA, Arlington Bicycle Club, and the Arlington Parks and Recreation Department.
