## Saturday Proclaimed Hart Day

### Hawkins Children To Honor Parent's 50th Anniversary

Mr. and Mrs. Willis A. Hawkins Sr. will be honored in observance of their fiftieth wedding anniversary with an open house at their home in Hart Sunday, Aug. 18 from 2 to 6 p. m.

Hosting the occasion will be the couples children, Sister Mary Hawkins, O.S.B., of Fort Smith, Ark.; Mrs. Laramack Harris of Portland, Ore.; Mr. and Mrs. Willis A. Hawkins Jr. of Hart; Mr. and Mrs. Bob Lang of Ft. Lauderdale, Fla.; Dr. and Mrs. T. C. Hawkins of Kerrville; and Mr. and Mrs. Robert L. Hawkins of Hart.

Friends are invited to attend.

The retired farmer-stockman and his wife have been active in civic affairs. Mrs. Hawkins has been named Woman of the Year and her husband Man of the Year.

Hawkins served as Hart's first mayor. He helped establish Farmers State Bank and is presently chairman of the board. He also helped with the organization of the High Plains Water District.

Hart Day celebration gets underway here Saturday at 10 a. m., when members of the Good Neighbors Club will greet old-timers at the Farmers State Bank community room.

At 2 p. m., the parade will begin, forming on Ave. A. and proceeding south. Floats are to be in place by 1:30 p. m. in order that they may be judged before the parade begins.

Entries in the parade should be arranged through R. G. Henderson, activities chairman.

As the parade makes its way downtown, an announcer with loud speaker will introduce and comment on each float and entry.

Aside from floats and members of the riding clubs expected to parade downtown Saturday are antique cars, bi-

cycles, unicycles, and old-fashioned farm machinery.

Best dressed old-timers and best all-around girls and boys in the playday activities will be eligible for trophies, as will the most unusual entry in the parade. A total of 21 trophies will be presented.

Fun at the second annual

playday will begin immediately following the parade. Keyhole, Potatoes, Poles, Rings, Barrels and Flags will be part of the competitive fun staged in the Henderson Rodeo Arena. A total of eight riding clubs will participate in the events.

Motto this year for Hart Day is "Bigger And Better!"

### Farmers Organization To Meet In Tulia School

National Farmers Organization of Swisher County is sponsoring a meeting Monday night, Aug. 12 at 9 p. m. in the high school auditorium in Tulia.

Interested persons are invited to attend.

National Farmers Organization's purpose is collective bargaining for farmers. Topic of the program will be the economic impact of farmer's low prices and what rural America can do about it.

Speaker for the occasion will be Erhard Pfingsten of Gage County, Neb., national vice president of NFO.

Pfingsten joined NFO at its beginning and has been a member continuously since that time. He was elected to the National Board of Directors in 1960, appointed Director of Meat Commodity Department in 1961 and elected vice president in 1962. He has been re-elected each year since.

Spokesman for the Swisher County organization stressed that there is need for membership among businessmen as well as farmers.

### Johnny Newsom To Receive Bronco Bicycle For Sales

With a little less than one week remaining in the Hart Beat subscription contest, Johnny Newsom brought in a total of 25 and one half points to make himself the proud owner of a new bicycle.

Johnny, son of Mr. and Mrs. Stewart Newsom, will be presented a bicycle the latter part of the week by Sue Cannon, manager of The Hart Beat.

Other bicycles have been awarded to Dee Ann Bailey, daughter of Mr. and Mrs. Joe

Bailey and Jim Tucker, son of Mr. and Mrs. Lanny Tucker.

New subscriptions this week went to Adella Davis, Dale West, A. L. Gilcrease, Theron C. Hawkins, A. D. Crawford, Tom Ed Benton, Velma Entrekin, Mrs. Everett Cole, Claude Kropp, and L. W. Bennight.

The contest closes this Saturday at 5 p. m. Those who do not have enough points to win a bicycle at that time will be given 25 percent of total sales.

## Hart Neighborhood Center Functions Explained

Hart's Neighborhood Center, under management of Mrs. Florinda Aleocer and Mrs. Geneva Espinoza will begin house to house surveys soon. Following completion of the survey, the center will be housed in the old Catholic Church building.

A basic function of any Neighborhood Center is to make people aware of the agencies that exist to serve them and to make sure that the community can and does use every available and effective resource in its war on poverty. In doing this, the neighborhood center employs the techniques of outreach, referral, and follow-up.

Outreach -- To inform the poor about existing agencies and services, the neighborhood center must first establish communication with its constituency. The usual methods of making contact--posters, radio, television, newspapers are preferably inadequate. The experiences of neighborhood centers have shown that there is no substitute for personal contact.

The technique of outreach was developed to fill the "communications gap" between people and services. As its

name implies, this technique involves reaching out to the neighborhood residents with information about programs and encouraging their use. Outreach work--personal contact with people on their farms in their homes, in their churches, their barbershops, their bars, and their streets--is often most tact. Local residents employed by the centers, as well as volunteers, can be trained and used for this purpose.

The technique of outreach provides other opportunities to the center and the CAA. It is a way for them to find out in detail what problems people in the neighborhood have, and what programs they need and want to meet those problems. The outreach workers of a center can be gathering and analyzing this data, the center will be substantially improving its ability to represent the neighborhood and be responsible to its needs.

Outreach work can also be used to find people in the neighborhood who are interested in working on common problems. Such people may well become the core of the neighborhood boards and committees which help in setting policy for the center, or of other neighbor-

hood groups which use the center's facilities.

Survey data can be extremely useful as raw material in long and short-range planning in the neighborhood. Also, the organization of neighborhood groups provides an initial relationship between the center and the neighborhood. Consequently, it may well be that outreach survey work should begin before the center is open, and even before an application is submitted to CAP for a Neighborhood Center component. Once the center is open, neighborhood surveying and organization can continue, as part of the center's on going program for planning, self evaluation, and development.

To summarize, outreach is a technique which

1) gives people in the neighborhood information about the neighborhood center, its programs, and other available anti-poverty services in the community;

2) presents the people in the neighborhood with the opportunity and the impetus to begin organizing their resources to solve pressing problems;

3) gives the center a way

to gather detailed information about the human and social problems and potential in the neighborhood.

Referral and follow-up -- The use of resident workers who can speak the language and understand the problems of the neighborhood and who people can trust is an essential ingredient of any center. These workers will be turning up individual and family problems, however, with which the center must deal, if it is to reinforce and demonstrate its position as an effective agency in the community.

In the beginning, a neighborhood center ordinarily may not want or be able to offer a wide range of services to solve those problems under a single roof. In many cases, it will have to refer those who come for help to other public and private agencies. It is most important, however, that the neighborhood center offer people more than the name and address of an impersonal office "downtown." It should make sure that the person who has to go downtown or to the county seat for help has the transportation to get there. The center may provide money for transportation and it may

also have a staff member accompany the client to his destination. If necessary, the center should be able to provide other aid, such as child care, while the client is away from home.

It is essential that the staff of the neighborhood center be knowledgeable about the rules and regulations of the agencies to whom they refer neighborhood residents. Thus, they must know and understand the eligibility criteria for welfare, and all the basic and special services which are available to welfare recipients. They must know and understand housing and sanitation codes, the procedures for getting loans from the Farmers Home Administration, or the range of services which are to be provided by a local Public Health Service. They must know and in short know the "system" with which they deal, so they can intercede on behalf of a neighborhood resident to ensure that he is getting the service he needs and has a right to get. Such information should be included as part of the on going, in-service training for all neighborhood center staff, and in particular

### VISIT MILES COX

Mr. and Mrs. W. L. Baldree of Borger, the Rev. and Mrs. E. B. McCulley of Markham, and Mr. Opal Baldree from Baca Raton, Fla. were Thursday guests in the Miles Cox home.

### VISITING HAWKINSES

Sister Mary Hawkins O.S.B. of Fort Smith, Ark. arrived Wednesday to visit three weeks with her parents, Mr. and Mrs. W. A. Hawkins Sr. and brothers and sisters.

## Tuition Plan Available High Ranking Students

Cooke County Junior College in Gainesville has initiated an advisory service to inform students from low-income families of their legal free tuition rights, student advisor Paul Thomas has announced.

Under the Connally-Carrillo Act passed by the Texas Legislature in 1967, Thomas said, a graduate of a Texas-accredited high school can attend a Texas state-supported college with tuition and fees paid by the state if the student was in the top quarter of his class and if his family's total income does not exceed \$4,800.

The junior college has set up an information office to explain the law to prospective enrollees of state colleges.

Thomas announced, "If you plan to attend ANY state college and think you are eligible for this program, then write or call Scholarship Advisor, Cooke County Junior College, Gainesville, Texas 76240, Phone 817-HO5-3476."

### UNDERGOES SURGERY

Mrs. Tom Duffey is at home after undergoing surgery in Lubbock Methodist hospital recently.

### IN MEDICAL CENTER

Mrs. Fluff Hacker is in the Plainview Medical Center at this time and is reported to be doing well.

### VISIT ROLANDS

Mr. and Mrs. J. H. Davis and family of Fort Worth visited Thursday and Friday in the home of her brother, Mr. and Mrs. Rod Roland.

## Annual Boys Ranch Rodeo Slated To Begin Sept. 1

Excitement and desire to win are running high as the nearly 350 boys at Cal Farley's Boys Ranch prepare for their 24th annual Labor Day Rodeo.

Four times a week the boys are rehearsing for the rodeo and trying to qualify as contestants on the bucking broncs, Brahma bulls, steers, and calves. Even the Ranch's youngest are saddling their stick horses and getting ready to set some new records in the barrel races.

Traditionally the biggest Labor Day Event of the Texas Panhandle, the Boys Ranch rodeo is expected to attract a record number of visitors, topping the over 9,000 spectators who attended the two performances last year. Aside from the action that will be provided

by young riders on bucking animals, the boys will operate a barbeque concession, work in the chutes, act as ushers, sell cold drinks and pop corn, park cars, and assist with the many details involved with the production of a rodeo.

Believed to be the only rodeo in the nation in which boys are the only contestants riding professional rodeo animals under R.C.A. rules, two performances are scheduled at 2:30 p. m., September 1 and 2. Box seats may be purchased in advance for \$2.50 by calling 374-4687 or writing the Boys Ranch office at 600 West 11th, PO Box 1890, Amarillo. General admission prices are \$1.50 and 75¢ for children and servicemen in uniform.

THE CZECHOSLOVAKIAN film and live actor presentation Laterna Magika at the San Antonio World's Fair features two different shows -- one in the daytime and another each night.

THE MEXICO PAVILION at the San Antonio World's Fair includes stone idols as much as 2,500 years old.

THIRTY-THREE paintings sent to the San Antonio World's Fair by France for display have been insured for \$11 million.

THE FABULOUS "Man in Sport" exhibit in the Theme Gallery at the San Antonio World's fair features the photographic works of the greatest sports photographers in the world.

Hart, Texas

THE SAN ANTONIO World's Fair will close October 6, ending its six-month run.

TWENTY-TWO restored homes, each dating back to Spanish land grants, will remain on the grounds of the San Antonio World's Fair after the exposition closes its doors.

THERE ARE 103 places to eat on the grounds of Hemis Fair, ranging from French delicacies to the old-fashioned hot dog.

THE 622-FOOT Tower of Americas, a popular permanent attraction at the San Antonio World's Fair, is the tallest observation tower in the Western Hemisphere.

# HART DAY SATURDAY AUGUST 10

### SCHEDULE OF CASTRO COUNTY ROUNDUP WEEK

- Aug. 10 - Hart Day - Parade at 2 p. m.
- Aug. 15 - Old Settlers Reunion - 9:30 a. m. Dimmitt
- Aug. 15 - Dinner On The Ground - Courthouse, Dimmitt
- Aug. 15 - Pet Shows - 1 p. m.
- Aug. 15 - Parade - Dimmitt - 3 p. m.
- Aug. 15 - Barbecue - 6 p. m.
- Aug. 15, 16, 17 - Rodeo - 8 p. m.

Looking at the economic progress of the community of Hart in Castro County, there seems to have been advancement by the decade. In the first decade of this century, settlers were brought in by the train load. They came from all areas of the States and most had farming in mind when they settled here. However, it was during the decade of World War I that wheat and grain became king of crops in the Hart area.

The use of horses for power sources denied our farmers from use of many acres, however. In the roaring twenties things really began to roar here with the incoming use of tractors, large plows and gasoline powered harvesters. In those days it was not uncommon to hear tractors roaring all night long. The age of agricultural industrialization had begun.

With the coming of the railroad, all Hart was in a booming, festive mood. The skyscrapers of the plains began to appear on the horizon. These grain handling facilities loaded wheat from thousands of acres which were cultivated with very little capital investment. The decade of the dirty thirties is characterized by the introduction of irrigation from our fine underground formation. Hart is sitting over the thickest water bearing formation south of the Canadian River.

The decade of World War II is portrayed by the expansion of irrigation to include nearly all the acreage in the Hart area. The roar we heard then was of motors pumping water night and day. With the fifties came the mighty surge of cotton as a cash crop. Since cotton required the use of many dollars in its production, the need for capital sources was met by the establishment of Farmers State Bank.

This bank was founded by Hart men with the idea of complete community development in mind. Since so much capital was being used for fertilizer, seed, manpower and increased production, these men knew that capital had become a tool for farming.

On our tenth anniversary this year we at Farmers State Bank know that we have fulfilled the thinking of our founders. We have become a vital part of the agricultural development of Hart and its area.

Now we must not stop here. We feel we have made substantial growth in view of the poor crops lately as has the town of Hart. This growth for Hart, in any manner whatsoever, is the basic premise at this Bank. We want industry to recognize the advantage of the area. We therefore promise the area that any opportunity for growth will not be overlooked.

# FARMERS STATE BANK

MEMBER F.D.I.C.

## Frank Ford Writes

Frank Ford, Republican candidate for State Representative, has outlined a three point program for reducing the rising crime rate in Texas.

"Salaries for our Department of Public Safety and local law enforcement personnel must be such as to keep and attract high-caliber, dedicated men," said Ford, "And these men must be provided with the best in training."

"Volunteer work with youth must be stressed to help our young people develop into good citizens, and support for law enforcement evidenced in home and school."

"Finally, we must elect a President of the United States who is pledged to appoint an Attorney General and Supreme Court Justices who will show some concern for the rights of law abiding citizens."

"There are hundreds of murders and other serious crimes committed each year by compulsive criminals who were freed by some technicality due to Supreme Court decisions, and it is time to reverse this trend."

Ford is a candidate in the 72nd Legislative District.

—Smoking and Your Health—

# A Growing Breed: The Ex-Smoker

The Public Health Service estimates that there are now 19 million ex-smokers. Since 1964, the number of adults who smoke cigarettes has been decreasing at a rate of one million people per year.

Ex-smokers can be found in large numbers among particular groups. Physicians, as a group, smoke far less than other groups with only an estimated 30 percent of them still smoking cigarettes. This low number has helped produce a 7 percent decline in the lung cancer rate among doctors compared to a 22 percent increase among American males in general.

Doctors are not alone. Many of our legislators who passed Senate Bill 559 have become ex-smokers.

The individual ex-smoker faces some problems. Some find their spouses a bit more difficult to live with (since in not all cases has the spouse also become an ex-smoker).

But perhaps the biggest problem is an initial tendency to eat more. Some ex-smokers have successfully "beaten" this habit. For example, keeping in the refrigerator a supply of raw carrots which you can chew when hunger arises.

On the plus side, research indicates that a person's body begins a remarkably effective program of self-repair the very minute smoking stops. "Smokers cough" subsides as does chronic

bronchitis. The heart has a lighter workload and further deterioration of the air sac wall is halted. Precancerous changes actually reverse themselves as damaged cells are replaced by normal cells.

Another advantage is felt in the pocketbook. An ex-smoker formerly on two-packs-a-day now finds himself up to \$300 richer annually, depending on his state's taxes.

He can also save on life insurance. The State Mutual Life As-

urance Company of America, Worcester, Mass., for example, has a 'non-cigarette smokers' plan offering a lower premium on new issues for persons who have not smoked any cigarettes in a year or longer.

Finally, one of the trends most encouraging to health officials is a growing social tendency to consider smoking "out." It was this social "taboo" that, for example, helped make the chewing tobacco habit disappear.

**WANTED:** Man to cover Hart Football games for the Hart Beat. Apply Monday and Tuesday afternoon after 4 p. m. at the Hart Beat Office. tfc.

Continued From Page 1

for resident nonprofessional staff, and for members of the policy and advisory boards and committees of the center.

The center should follow up on every referral it makes, by retaining personal contact both with the neighborhood person and the agency to which he was referred. Careful records must be kept on every referral, the person's need, the service agency or agencies to which he was referred, the services offered him by those agencies,

and the results of that service. These records will be helpful in evaluation of the performance of the center and of other agencies to which clients are referred. Records will indicate where gaps exist and where modifications are needed or the development of additional services is required.

PUT CELLULOSE tape over darts on patterns for easier tracing. This will also keep the pattern from tearing.

## Moments Of Meditation

C. T. Cunningham, pastor of First Baptist Church

It was not by accident that the Word of God played an important part in the founding and development of our country.

"For the Word of God is quick and powerful, and sharper than any two-edged sword, piercing even to the dividing asunder of soul and spirit, and of joints and marrow, and is a discernor of the thoughts and intents of the heart." Hebrews 4:12.

Pioneers on the frontiers where there was little other law of the land knew the necessity of divine guidance, as did the persons on the government frontier founding a republic like the world has never known.

At that time Thomas Jefferson reminded the people that "studious persual of the Holy Scriptures will make better citizens, better fathers, husbands, wives and children." This is the basic fabric of the nation.

Now the United States is at a new frontier when the forces of evil and a new permissiveness are literally tearing apart our morality, tradition and nation.

The nation needed God's guidance desperately in the early days of the republic.

The need is even more desperate now.

"If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land." II Chronicles 7:14.

There is not a single crime, not a single broken home, not a single addiction to narcotics, not a single unlawful act, not a single wrong against one's neighbor that would have occurred if the teachings of the Word of God were observed.

"Righteousness exalteth a nation; but sin is a reproach to any people." Proverbs 14:34

### VISIT HILLS

## KITCHEN KORNER

By Lela Gallion

Hope to see all of you at some time on Saturday here at HART DAY. There are a lot of folks working to make it a good day so come and meet your friends and enjoy a good day. It will only be as good a day as we all try to make it. The good neighbors club ladies will serve cookies, coffee and punch in the Community Room of Farmers State Bank. Any cool drink is certainly welcome in this hot weather. Here is one just a little different.

**QUICK LEMON PUDDING**  
 1 pkg. white cake mix  
 1 can lemon pie filling  
 1 stick butter  
 1/2 c. slivered almonds.

Pour lemon pie filling into buttered baking dish. Sift white cake mix evenly over pie filling. Arrange thin slices of butter over cake mix and sprinkle with almonds. Bake at 350 degrees for 35 to 40 minutes.

**STRAWBERRY COOLER**  
 1 c. pineapple juice  
 1 orange, peeled, seeded and cut  
 1/2 lemon, peeled, seeded and cut  
 1 - 10 oz. pkg. frozen strawberries  
 1 qt. gingerale

Place pineapple juice, orange, lemon and strawberries in blender and blend at high speed until smooth. Add 1 quart of gingerale, pour over ice. Serves approximately 12.

## Scouts Visit San Antonio

Fifteen members of Boy Scout Troop 246 and their leaders returned home Friday from a trip to San Antonio.

The group arrived in San Antonio Monday afternoon and set up camp in the Alamo Area Council Camp. They spent Monday evening and Tuesday at the HemisFair.

Wednesday morning was spent touring the Alamo. While touring the Alamo, the group visited with Mrs. Paul Kennedy and her granddaughter, who were also seeing the Alamo. Mrs. Kennedy is a former school teacher of Hart.

A visit to Brackenridge Park was the highlight of Wednesday afternoon. The group visited the zoo, took paddle boat rides and then topped off their day with swimming.

Trips to the Buckhorn Hall of Horns museum and the San Jose Mission were the treats for Thursday. More swimming was in store for Thursday evening.

Enroute home the group visited Wonder Cave and Aquarena at San Marcos.

Scouts making the trip were Duane Clevenger, James and David Warren, Danny George, Theron Hawkins, Bobby Clark, Freddie and Sonny Mancias, Pete Niabes, Jim Tucker, Mike and David Armstrong, Thomas Cunningham, James and Kerry McLain and Tony Miller. They were accompanied by Mr. and Mrs. Deryl Clevenger, Iona and Dee; Mr. and Mrs. Jack George and Kerry; Mr. and Mrs. Cleve McLain, Dana and Benny and Paul Armstrong.

## Church Of Christ Has Fellowship

Members of the Church of Christ met Sunday night in the Community Room of Farmers State Bank for a fellowship hour.

Refreshments of homemade ice cream, cake and cookies were served to approximately 60 persons.

Harold McColum, minister, showed pictures of his recent trip to San Antonio and other trips.

Mr. and Mrs. Ed Bennett, Mrs. G. R. Bennett and Mrs. Myrtle Wood of Amarillo spent from Thursday to Saturday vacationing at Ruidoso N. M.

## Cards Of Thanks

### THANK YOU NOTE

We would like to thank all of our wonderful friends for the many acts of kindness shown us in the passing of our loved one. To all those who sent flowers, cards, food, to the ladies who prepared and served the food, to Bro's, Harold McColum and Lester Flippo for the very nice service, to the Class of '51 and the Good Neighbors Club and the many others who were so kind to visit us. May God bless all of you!

## Brooks Rites Held Tuesday

Gano Brooks, 75, a long-time Hart resident, died early Sunday at his home in the Easter community where he had recently moved.

Services were held at 2 p.m. Tuesday in the Dennis Memorial Chapel with Dr. Raymond Perkins, pastor of the First Baptist Church, officiating. Burial in Hart Cemetery was directed by Dennis Funeral Home.

Survivors include one son, Troy of Dimmitt; one brother, Charles of Roaring Springs; three sisters, Mrs. Eva Campbell of Port Lavaca, Mrs. Mae Holleman and Mrs. Gertrude Brown, both of San Angelo; four grandchildren and eight great-grandchildren.

### VISITING HENDRIXES

Mr. and Mrs. George Hendrix of Union City, Calif., Mr. and Mrs. Dave Hendrix and family of Chicago, Ill., Mr. and Mrs. Henry Hendrix Jr. and family of Fairfax, Va., Mr. and Mrs. Lloyd Hendrix and family of Huntsville, Ala. and Mr. and Mrs. Archie Bussey of Dimmitt are all here visiting this week in the home of their parents, Mr. and Mrs. Henry (Pop) Hendrix.

### VISIT BASSES

Mr. and Mrs. Lynn Miller of Odell spent last week here visiting her cousin, Mr. and Mrs. D. A. Bass.

## TOPS Members Plan Bake Sale

Hart of Texas TOPS Club met Monday evening in the Community Room of Farmers State Bank. Mrs. Weldon Jones, leader, presided.

Minutes were approved and a treasurer's report given. Members weighed in with a loss of 38 pounds and gain of seven.

Members cut out pigs, turtles and tops emblems. Those members who show a weight increase will be given a "pig" emblem; members showing neither gain nor loss are recognized as "turtles" and those with a loss of weight earn the coveted "top".

Queen for the week, Mrs. Richard Entrekin, received a surprise gift for having lost the most weight.

Members will hold a bake sale Saturday, Aug. 10 at Newsom Grocery. All baked goods will be homemade.

Homemade Garlic Corn Meal Croutons top tossed summer salads and hearty soups. You might find them just right, too, for stuffings, bread puddings or casserole toppings. — Or use them as a zippy brunch accompaniment to scrambled eggs.

However you use them, do try this easy recipe soon. It's an easy trick to spark simple dishes, and a wonderful way to say something home-hearted to your family.

### GARLIC CORN MEAL CROUTONS

Makes about 4 cups

1/2 cup enriched corn meal	1/2 teaspoon garlic powder
1/2 cup sifted all-purpose flour	2 tablespoons shortening
1 1/2 teaspoons baking powder	1/2 cup milk
1/2 teaspoon salt	1 egg

Heat oven to very hot (450°F.). Sift together corn meal, flour, baking powder, salt and garlic powder into bowl. Cut in shortening until mixture resembles coarse crumbs. Add milk and egg; stir until blended. Pour into greased 9-inch square baking pan. Bake in preheated oven (450°F.) 18 to 20 minutes or until golden brown.

While warm, cut into 1/2-inch square croutons. Separate croutons, then place in a large shallow baking pan. Place in preheated broiler 3 inches from source of heat. Broil about 2 minutes; stir; broil about 2 minutes longer or until browned.

### IN CLOVIS

Mr. and Mrs. Robert Brooks visited in Clovis Sunday with their daughter, Mr. and Mrs. Deward Armstrong and family.

### VISITS COLES

Mr. and Mrs. Danny Richardson of Post visited Sunday in the home of her parents, Mr. and Mrs. Everett Cole and family.

## Poppy Byrnes Feted Friday

Miss Poppy Byrnes was honored Friday night with a going away slumber party. Mrs. Joe Newman and Cheryl were hostesses in the Newman home.

Poppy is moving to Austin. Those attending were Mary Lynn Hays, Penny Hays, Beverly Newman, Allan Webb, Kay Bradley, and Jill Braafladt, all of Dimmitt and Rebecca Futrell of Hart.

### IN SUNRAY

Mr. and Mrs. L. L. Swindle and Mark Bennett spent Tuesday and Wednesday of last week in Sunray visiting Mr. and Mrs. Freddie Lilley, Kevin, Kyla and Kelvin. Tuesday they celebrated Kelvin Lilley's birthday.

VENEZUELA'S Angel Falls is about three times higher than the Empire State Building.

## Vicki Nolan Visits In Hart

Vicki Nolan, of Christian Childrens Home in Portales, N. M., visited last week in the home of Mr. and Mrs. Dwight Miller and family.

During her week's visit, Vicki was honored with swimming parties, cookouts and an outing to Buffalo Lake for water skiing. Helping entertain Vicki were members of the Church of Christ and members of the Girl Scouts.

The Miller family took Vicki back to Portales on Sunday.

### VISITING SWINDLES

Buford Clemmer and children, Janie and Charlie of Lancaster, Calif. are visiting this week in the home of his sister, Mr. and Mrs. Bill Swindle.

IN THE ANIMAL world there are 250,000 kinds of beetles.

**PUBLIC NOTICE**

**Proposed CONSTITUTIONAL AMENDMENT  
NUMBER FIVE ON THE BALLOT (HJR61)**

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Section 24, Article III, Constitution of the State of Texas, be amended to read as follows:

"Section 24. Members of the Legislature shall receive from the Public Treasury an annual salary of not exceeding Eight Thousand, Four Hundred Dollars (\$8,400) per year and a per diem of not exceeding Twelve Dollars (\$12) per day of each Regular Session and each Special Session of the Legislature. No Regular Session shall be of longer duration than one hundred and forty (140) days.

"In addition to the per diem the Members of each House shall be entitled to mileage in going to and returning from the seat of government not to exceed one round trip per month during such time as the Legislature is in session, which mileage shall not exceed Two Dollars and Fifty Cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and

most direct route of travel, from a table of distances prepared by the Comptroller, to each county seat now or hereafter to be established; no Member to be entitled to mileage for any extra Session that may be called within one (1) day after the adjournment of the Regular or Called Session."

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November 1968, at which election all ballots shall have printed on them the following:

"FOR the constitutional amendment providing the members of the Legislature shall receive as salary an amount not exceeding Eight Thousand, Four Hundred Dollars (\$8,400) per year."

"AGAINST the constitutional amendment providing the members of the Legislature shall receive as salary an amount not exceeding Eight Thousand, Four Hundred Dollars (\$8,400) per year."

**Bob Price Reports**

Panhandle Congressman Bob Price said he was delighted that the House of Representatives had passed his resolution to proclaim the week which includes Mexican Independence Days in September as "National Hispanic Heritage Week."

"Senator John G. Tower, who introduced the resolution in the Senate, has promised full support in getting the resolution through the Senate and we are hoping for early passage when Congress returns after adjournment in September," Price said.

"The resolution, which would give recognition to the Hispanic influence in the role of Spanish surnamed persons in United States history, was co-sponsored by 19 other House Members including Representative Henry B. Gonzales of San Antonio," Price said.

"It is in the tradition of our country to recognize, cherish and conserve the many cultural contributions of the people who have helped achieve the greatness of our nation," Price observed, adding that "it is high time that our immigrants and their descendants from Latin nations, as well as those citizens whose Spanish heritage and lineage within the current boundaries of the United States dates back to pre-pilgrim days, were honored in the same manner."

The resolution asks that National Hispanic Heritage Week include the dates of September 15 and 16 because of the fact that Mexican Independence Day and Independence Day of other Latin American countries are celebrated on those days. In the case of persons of Mexican heritage now living in the United States, huge celebrations are held in the southwestern states celebrating the holiday that go relatively unnoticed outside of the community.

THE MIGRATION Courtyard of the U. S. pavilion at the San Antonio World's Fair is the scene regularly of numerous band and choir concerts.

**Livestock Utilization Meeting Slated Sept. 12**

Livestock utilization of grain sorghum, forage sorghum and corn and products made from these crops will be the major theme of an exhibit at the Twelfth Annual Field Day of the High Plains Research Foundation on Thursday, Sept. 12.

Members of the Commodity Committee of the Board of Trustees for these crops are preparing the exhibit and will be hosts that afternoon. Explanation of the value of these crops and products in livestock production will be made for visitors by these hosts. Materials and methods to illustrate their use will be shown, by the use of pictures, slides, charts and grafts. Marketing programs, especially in the development of foreign markets, will be presented by the Grain Producers Association. Various varieties of the crops will be displayed and literature describing values and growing

period will be available. The Commodity Committee will be assisted by representatives of organizations and firms interested in production, marketing and feeding operations. The display will be located in the seed processing laboratory at the Foundation.

Wayne Byerly, Chairman of the Commodity Committee, has scheduled a meeting of the committee at the Foundation headquarters at Halfway the afternoon of August 8. This meeting will (1) complete their exhibit plans, (2) review progress to date of the Foundations 1968 research programs for the crops involved, and (3) prepare recommendations for the 1969 research programs. These proposals will be presented to the Board of Trustees at the Semi-annual Meeting the morning of September 12.

Members of the Grain Sorghum, Forage Sorghum and Corn Commodity Committee are: Gabe D. Anderson, Bovina; Ralph Blodgett, Spearman; Wayne Byerly, Plainview; Lane Decker, Floydada; Elbert Harp, Abernathy; Bill Nelson, Amarillo; Pat Northcutt, Silverton; Frank Dickson, Aiken; Sam Singleton, Dalhart; Frank Pharris, Amarillo; Malcolm Garrett, Clovis, N. M.; Bob Worley, Portales, N. M.

**NEWS FROM OUR SERVICEMEN**

Marine Mike Fore is serving with the First Battalion Fourth Marine Regiment in Vietnam. He is the son of Mr. and Mrs. Floyd Fore of Kress and the husband of the former Francis Hollimand of Hart.

As a member of the battalion he helps capture or destroy enemy forces, through weapons fire, tactical maneuvering and both large and small scale operations.

The area serviceman is also engaged in a civic action program designed to assist the Vietnamese people in completing self-help projects, such as the building of wells, culverts, small bridges and schools. Equipment and materials are made available through Marine Corps Reserve Civic Action Fund.

THERE ARE 100 different pieces of modern sculpture on the grounds of the San Antonio World's Fair, ranging from the far-out to a perfectly formed bull welded out of automobile bumpers.

THE SAN ANTONIO World's Fair boasts art works unequalled anywhere else in the world.

THE FABULOUS Flying Indians of Mexico, performing atop a 114-foot pole four times daily at the Pepsi Cola/Frito Lay pavilion at the San Antonio World's Fair, take from 30 to 34 turns to reach bottom in their descending rope spin.

Hart, Texas

Phone 938-2183

Prospects are good in September for enactment of a one year extension of current farm programs, without payment limitations or other substantial changes -- thanks to some very astute maneuvering by the Texas delegation in Congress and other proponents of the program. Without such political finesse, sometimes mislabeled political pettifoggery, farm legislation for this session of Congress would have been dead.

At least this was the opinion of Congressman George Mahon, expressed in a review of the situation with Plains Cotton Growers, Inc.

The Senate on July 20 passed a four year extension of present programs for wheat, feed grains and cotton with relatively minor changes. In the process a heavy vote was registered in opposition to payment limitations.

The going was more sticky in the House on Wednesday, July 31.

The House Agriculture Committee proposed a simple one year extension. The Department of Agriculture sponsored an amendment to make it four years, an action strongly opposed and more than a little feared by House Republicans.

Several amendments to limit individual farmer payments were offered. One would have set the ceiling at \$10,000. Another favored a graduated scale of limits and finally came one prohibiting payments of over \$20,000 to any one farmer.

All were soundly defeated until a roll call vote was called for and the amendment limiting payments of \$20,000 was adopted, 230 to 160, with two distinct elements voting "yea" and with resounding "nay's" from Congressman Mahon and the entire Texas delegation.

Some who voted for limitations did so in an earnest effort to get either a dollar limit placed on farm payments or kill the bill entirely. Others, notably republicans, voted for the limiting measure as a means to prevent passage of an extension for more than a year. They felt a limitation feature on the House Bill would be the only trading point with the Senate to prevent ultimate passage of a bill for more than one year.

Then came the final vote on passage of the bill, a one year extension with individual payments limited to \$20,000, and the voting became even more confusing.

Some who had voted for limitations voted against the bill. Some who had voted against the limitations amendment voted for the bill with the same amendment attached.

In this latter category came the Texas delegation and virtually all other cotton belt Congressmen, and their action has been badly misunderstood in some quarters.

In the words of George Mahon, "Confusing as it may sound, we voted for the bill, WITH limitations, because this was absolutely the only way during this session of Congress that we could get a bill WITHOUT limitations."

Now it is up to Senate and House Conferees to meet to work out the differences between the bills passed by the two bodies, and in September both Senate and House will be called up to accept or reject the conference report.

Congressman Bob Poage, Chairman of the House Agriculture Committee and a

staunch opponent of payment limitations, will select House Conferees.

Senator Allen Ellender, Chairman of the Senate Agriculture Committee and also a steadfast opponent of limitations, will select Senate Conferees.

"So there are really two almost ironclad guarantees against us getting payment limitations," Mahon explained. First it is understood that Congressman Poage will not permit a bill to be returned to the House with limitations intact, and second, "even if such a bill should be returned to the House, we are confident we have the strength to defeat it, just as we could have defeated it last Wednesday," Mahon stated.

Mahon pointed out that the key to this strategy rested in the Senate's prior passage of a four year extension of the Act with a strong vote against limitations.

"With this Senate Bill," he said, "there is no way that farm legislation can go to the President for his signature without first coming before the House again. And there is no doubt in my mind that in the unlikely event the Conference Committee should come back to us with a bill containing a payment limitation we will be able to defeat it, which would put us right back where we would have been on Wednesday had we voted against the measure at that time -- without a farm bill."

But by our favorable votes on Wednesday we have given

ourselves and our people in the country another chance -- and a very good one -- to get a one year extension of current farm programs from this session of Congress, and we think farmers want and deserve that chance."

In answer to a final question, Mahon said, "In my opinion this Congress will enact a one year extension of current farm programs, without limitations, giving farmers the ability to plan operations into the year 1970 and giving both farmers and the new Congress a chance to consider farm legislation without the extreme urgency of a December, 1969 deadline.

The Aug. 1 county-by-county High Plains crop estimate adds up to 1,534,000 bales for the 23 counties represented by Plains Cotton Growers, Inc. despite heavy losses to rain, wind and hail earlier in the year. Good "cotton weather" recently has done much to raise producer hopes.

The estimate, compiled jointly by the Lubbock Cotton Exchange and PCG, shows standing acreage as of Aug. 1 to be 1,549,000. A new estimate is made the first of each month from August through December.

Last year, from 1,256,000 standing acres on December 1 the area produced 1,187,472 run-

ning bales, as compared to the December estimate of 1,169,000 published by the LCE and PCG.

Standing acreage, the August 1 estimate of 1968 production and the number of bales produced in 1967 appear below for Castro County.

August 1 standing acreage- 33,000, August 1 estimate for 1968 - 34,000, and 1967 production was 17,585.

## LIFE-SAVING POLE

This crash illustrates how new breakaway light poles made of aluminum will be making the nation's highways safer on holiday weekends and every day of the year.

The aluminum poles have a specially designed base which fractures when struck to eliminate the jarring impact which often kills or maims when an auto strikes an immovable pole. The pole breaks away and is thrown clear of the vehicle which can then come to a gradual, controlled stop.

The new poles are one of many highway fixtures

and designs which have been re-engineered in recent years to reduce highway fatalities and injuries. Forty-seven states now specify this type of pole, and 23 states specify them exclusively. The U.S. Bureau of Roads has decreed that breakaway light poles must be used on all future interstate road construction unless poles are protected by a guard rail or are set 30 feet back from the roadway.

In New Jersey during a five-year period 2,000 breakaway aluminum poles were hit by autos without a single fatality and with few serious injuries.

## THE FAMILY LAWYER

### Proving Pain

As the result of an auto accident, you are left with continuing pains in your shoulder.

At least, so you say. But the driver of the other car thinks you are faking. If it comes to a showdown in court, would your word alone—without supporting evidence—be enough grounds for collecting damages?

That is a difficult question. Accepting a person's unsupported claim of pain may mean throwing the door open to fraud.

On the other hand, the pain may be real enough to the victim, even though he has no way of proving it. Predictably, courts differ as to just how much weight to give to this kind of complaint.

Fortunately, however, there are usually other ways—besides the claimant's own testimony—to establish that he does have pain.

Most persuasive is medical evidence. Although a doctor cannot actually feel a patient's pain, he can find out a great deal through his instruments. For example:

Pain may speed the patient's pulse. It may affect his blood pressure, his metabolism, and his respiration. It may even put extra zigzags into his electrocardiogram.

Moreover, a doctor can learn much simply by watching a patient's expression. As one judge put it:

"There are symptoms of pain that write their story on one's countenance as clearly as lightning scribbles in the sky."

Will a court listen also to the non-scientific observations of a layman? Generally yes, because these too may be revealing.

Thus, in one case, an accident victim's pain was proven through the testimony of a fellow patient in his hospital room. The patient vividly recalled the victim's moans, groans, and weeping.

Of course, any method of proving that pain is present may also be used to prove that it is absent. Both instruments and observation, both doctor and layman—in proper circumstances—help to expose false complaints.

One woman, claiming injury in a bus accident, said she had severe pains in her back. But a doctor noticed that when he was touching that area, she winced far too much in some places and far too little in others.

Result: she collected nothing at all.

THE CONTROVERSIAL movie "US" at the United States pavilion at the San Antonio World's Fair is shown on the world's largest screen, covering one-fifth of an acre.

THE ITALIAN PAVILION at the San Antonio World's Fair features the only existing portrait of Amerigo Vespucci, painted in 1472.

THE ORGANIZATION of American States pavilion at the San Antonio World's Fair features art works from every member country.

THE GIRARD EXHIBIT, "El Encanto de un Pueblo", is a San Antonio World's Fair feature displaying 10,000 pieces of folk art from Latin American countries.

**THE GOLF CLUB** used by Arnold Palmer to win the Masters, Ty Cobb's baseball glove and Sam Huff's pro football helmet are among the sports items featured in the U. S. Pavilion Exhibit Hall at HemisFair.

## PUBLIC NOTICE

### Proposed CONSTITUTIONAL AMENDMENT NUMBER SEVEN ON THE BALLOT (SJR32)

#### BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article VIII, Constitution of the State of Texas, be amended by adding a new Section 1-e to read as follows:

"Section 1-e.  
"1. From and after December 31, 1978, no State ad valorem taxes shall be levied upon any property within this State for State purposes except the tax levied by Article VII, Section 17, for certain institutions of higher learning.

"2. The State ad valorem tax authorized by Article VII, Section 3, of this Constitution shall be imposed at the following rates on each One Hundred Dollars (\$100.00) valuation for the years 1968 through 1974: On January 1, 1968, Thirty-five Cents (35¢); on January 1, 1969, Thirty Cents (30¢); on January 1, 1970, Twenty-five Cents (25¢); on January 1, 1971, Twenty Cents (20¢); on January 1, 1972, Fifteen Cents (15¢); on January 1, 1973, Ten Cents (10¢); on January 1, 1974, Five Cents (5¢); and thereafter no such tax for school purposes shall be levied and collected. An amount sufficient to provide free text books for the use of children attending the public free schools of this State shall be set aside from any revenues deposited in the Available School Fund, provided, however, that should such funds be insufficient, the deficit may be met by appropriation from the general funds of the State.

"3. The State ad valorem tax of Two Cents (2¢) on the One Hundred Dollars valuation levied by Article VII, Section 17, of this Constitution shall not be levied after December 31, 1976. At any time prior to December 31, 1976, the Legislature may establish a trust fund solely for the benefit of the widows of Confederate veterans and such Texas Rangers and their widows as are eligible for retirement or disability pensions under the provisions of Article XVI, Section 66, of this Constitution, and after such fund is established the ad valorem tax levied by Article VII, Section 17, shall not thereafter be levied.

"4. Unless otherwise provided by the Legislature, after December 31, 1976 all delinquent State ad valorem taxes together with penalties and interest thereon, less lawful costs of collection, shall be used to secure bonds issued for permanent improvements at institutions of higher learning, as authorized by Article VII, Section 17, of this Constitution.

"5. The fees paid by the State for both assessing and collecting State ad valorem taxes shall not exceed two percent (2%) of the State taxes collected. This subsection shall be self-executing."

Sec. 2. That Article III, Section 51, of the Constitution of the State of Texas, be amended so as hereafter to read as follows:

"Section 51. The Legislature shall have no power to make any grant or authorize the making of any grant of public moneys to any individual, association of individuals, municipal or other corporations whatsoever; provided, however, the Legislature may grant aid to indigent and disabled Confederate soldiers and sailors under such regulations and limitations as may be deemed by the Legislature as expedient, and to their widows in indigent circumstances under such regulations and limitations as may be deemed by the Legislature as expedient; provided that the provisions of this Section shall not be construed so as to prevent the grant of aid in cases of public calamity."

Sec. 3. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November 1968, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment continuously reducing State ad valorem property taxes and abolishing all State ad valorem property taxes after December 31, 1978, except the tax levied by Article VII, Section 17, for certain institutions of higher learning.  
"AGAINST the Constitutional Amendment continuously reducing State ad valorem property taxes and abolishing all State ad valorem property taxes after December 31, 1978, except the tax levied by Article VII, Section 17, for certain institutions of higher learning.

## Highway Tax Law Defined

Owners of trucks and buses in Northern Texas were advised today by District Director of Internal Revenue Ellis Campbell, Jr., that a thorough check will be made to insure compliance with provisions of the Federal Highway Use Tax Law.

Campbell said that lists of owners of taxable motor vehicles are being compared with Federal Highway Use Tax returns filed, to assure that all taxable vehicles were reported and to determine whether they were reported in the correct tax categories.

Campbell pointed out that highway use tax revenue collected by the Federal government is returned to the states to help pay the costs of the Interstate Highway System now under construction.

IRS Publication No. 349, "Federal Use Tax on Trucks, Truck-Tractors, and Buses," can be obtained without charge by dropping a postcard to the District Director, Internal Revenue Service.

### RETURN FROM HAVEST

Mr. and Mrs. Al Irons returned from harvesting in Kans. and Neb. last week.

### IN HOUSTON

Mrs. Lyndall Warren spent last week visiting in Houston with her sister, Mr. and Mrs. LaMarr Bently.

Frank Bauman was honored on his birthday Sunday in his home, with homemade ice cream and cake. Those present were Mr. and Mrs. Lyndall Warren and family and Mr. and Mrs. Ray Warren.

### LUBBOCK GUEST

Judy Hill of Lubbock spent last week here visiting with Cathie Warren. Kathy Alexander joined them for a cook-out Wednesday of last week.

### RETURNS HOME

Gary Cole returned home this week after spending the summer traveling with a harvest crew.

### VISITS MRS. COX

Mr. and Mrs. Bob Bradshaw from Ropesville visited Sunday with his aunt, Mrs. Ellen Cox.

## Tax Man Sez

As a part of the Federal estate and gift tax law, Congress has provided a system for giving your money away without paying tax, or by paying less tax than the estate tax would be later.

Briefly, the rules are: You can give each of your children, grandchildren, etc., \$3000 each year without paying any gift tax or being liable for estate tax later (unless you die within three years after the gift).

Out of community property, you and your spouse can give \$3000 each or \$6000 to each child, grandchild or other beneficiary. By filing a gift tax return, Form 709, with the Internal Revenue Service you can give \$30,000 tax free out of your estate. Of course, in community property this would be doubled to \$60,000 tax free from both spouses. This must also be more than three years before date of death.

So, if you and your wife have three children who are all married, and you have nine grandchildren, you can give your 15 heirs \$6,000 each, tax free, or \$90,000 a year. By filing a form 709 with Internal Revenue you can use your \$60,000 exemption (two 30,000 life time exemptions), you can pass \$150,000 out of your estate the first year and \$90,000 a year thereafter, tax free, provided you live for three years after the gift.

If you are making an estate plan, it is probably advisable to consult an experienced Federal estate and gift tax consultant.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Like the general cost of living, the price of outdoor recreation is going up for Texans. But the outdoorsmen will be getting more for their money.

However, the decision by the Texas Parks & Wildlife Commission to set entrance fees on 42 state parks did not mean an end to use fees.

In addition to a \$1-per-car daily charge for entrance to 30 of the most-developed parks in the state system and 50-cents-per-car for some others, Texans and out-of-state visitors still will pay use fees for campsites, shelters, recreation halls, cabins, lodges, swimming pools and for fishing piers at Copano Bay and Port Lavaca.

But the dual fee system was designed to serve a dual purpose. The entrance fees, which are expected to draw \$9 million over the 10 years beginning September 1, will be used to pay off principal and interest on the first parks improvement and acquisition bond issue by the Parks & Wildlife Commission.

Gov. John Connally, who urged the bond financing program, hailed the commission's action as the "opening step to bring a first class parks system within easy reach of every citizen of Texas." He said the 10-year land acquisition program that is contemplated will more than double the 60,000 acres of park land and bring recreation facilities within easy reach of every major metropolitan area.

Last November, voters approved an amendment to the state constitution which authorizes the Commission to issue up to \$75 million in parks revenue bonds so that parks expansion can catch up with the state's population growth. Sometime after September 1 the Commission will issue \$575 million worth of bonds, and it will take about \$7.5 million to pay them off.

But the bond program can only apply to new parks lands. Initial developments with bonds funds will be in a 120-mile radius of most of the state's 10 largest metropolitan centers.

Although PWC declined to state where the first funds will be spent, sources speculated that the initial developments may be at Velasco, Matagorda Island, Grapevine Reservoir, a five-mile "wild river" stretch along the Guadalupe River, White River Reservoir and in Jefferson County.

Under the entrance fee plan, a family paying a \$1-per-car entrance fee can go to as many \$1 and 50-cent parks in that day as they can and care to attend. But they could buy what Parks & Wildlife Executive Director Robert Singleton considers a big bargain -- a \$12-a-year pass to all parks. Annual permits will be acceptable in all facilities charging fees except San Jose Mission in San Antonio, Varner-Hogg Plantation and Eisenhower State Park where present fee schedules will continue. Swimming pool fees also will remain unchanged.

State Highway Commission looked to better recreational facilities, too, and approved new parks roads for Atlanta State Park and Caddo Lake State Park, as well as \$100,000 worth of "arbor projects" in 12 roadside parks along Texas highways.

APPOINTMENTS -- Governor Connally appointed Mem-

phis attorney Jack B. Boone district attorney of the 100th judicial district which includes Carson, Collingsworth, Childress, Donley and Hall Counties.

Connally also named Dr. Herbert C. McKee of Houston and Dr. Wendell H. Hamrick of Dickinson to the Texas Air Control Board and Ray A. Foley to the Dallas County Flood Control District board.

New assistant district supervisor positions were announced by the Liquor Control Board for John R. Bacak of Kerrville, who will be stationed in Victoria; Donnie R. Hunter of Odessa, who will transfer to Corpus Christi; and Joe McCarthy who will remain in El Paso.

Department of Public Safety selected Elmer J. Terrell Jr. of Fort Worth as acting agent-in-charge of its narcotics section. Six agents in the section are retiring, including the present Agent-in-Charge, W. E. Naylor. DPS named as new Texas Rangers L. C. White of Beaumont and Henry B. Ligon of Kerrville.

Tilmon Barnett of Lockhart is DPS' first Negro officer. He is assigned to the capitol security guard.

House Speaker Ben Barnes named a blue-ribbon committee to study Texas employment wages and economic problems. Callan Graham of Austin is chairman. Lay members include Gustave Falk of Dallas, Harold Kilpatrick of Austin, Dean George Kozmetsky of the University of Texas, Austin, and Dean H. O. Kunkel of Texas A&M University. Legislator members are Reps. Raul Longoria of Edinburg, Honore Ligarde of Laredo, Raul Muniz of El Paso, Ralph Wayne of Plainview and the Rev. Zan Holmes of Dallas.

Barnes picked Reps. Menton Murray of Harlingen and Bill Clayton of Springlake to represent Texas on July 31-August 1 at the Southern Water Resources Conference in Miami.

LITTLE CHANGE--A subcommittee of the 25-member committee which is working on revisions of the Texas constitution has recommended to the full committee that closed sessions of the Texas Senate be abolished.

Texas' constitution now allows the Senate to lock its doors when it considers approval or rejection of persons nominated to state offices by the governor.

Sub-committee headed by Rep. Dick Cory of Victoria voted down a proposal to allow 18-year-olds to vote. Also, one to permit the Legislature to set up a permanent voter registration system.

It did agree to retain the present system of legislative sessions every other year. Governor Connally and Speaker Barnes, who appointed most of the members of the committee,

both favor annual legislative sessions.

These decisions will go to the full committee, then to the Legislature, which will decide which of the recommendations, if any, are to be submitted to the people for a vote.

POLLUTION JUDGMENT-- State of Texas has won a judgment for \$17,500 against International Minerals and Chemicals Corporation of New York after taking the company to court for polluting the air over Houston. Corporation operates

a barite plant.

This is the second pollution suit won by the state.

SHORT SNORTS-- Rep. John Traeger of Seguin was re-elected urban affairs committee chairman of the southern conference of Council of State Governments.

Latest report from the Texas Liquor Control Board shows 2,831 criminal complaints were filed by LCB agents in June with 2,500 convictions for violations of the liquor law and \$90,022 in fines and costs.

## PUBLIC NOTICE

### Proposed CONSTITUTIONAL AMENDMENT NUMBER THIRTEEN ON THE BALLOT (HJR16)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article VIII, Constitution of the State of Texas, be amended by adding a Section 1-f, to read as follows:

"Section 1-f. All merchandise, products, goods or wares in the temporary custody of a public warehouseman, who has no financial connection other than as bailee for hire with the owner, shipper, or consignee of the merchandise, products, goods, or wares, are exempt from ad valorem taxation if they are shipped to or from the warehouse by regulated or bona fide private carrier, are held by the warehouseman not longer than six (6) months, and have a predetermined out-of-state destination at point of origin. The books and records relating to out-of-state shipments covered hereby of such public warehouseman shall be available for reasonable inspection by

the proper taxing authorities. This amendment shall not act as a validation of any present statute or law, but only those passed specifically pursuant hereto; provided, however, that enabling legislation passed in anticipation of the adoption of this amendment shall not be invalid solely because of its anticipatory nature."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November 1968, at which election all ballots shall have printed on them the following:

"FOR the constitutional amendment to exempt certain property temporarily stored in a public warehouse from ad valorem taxation."

"AGAINST the constitutional amendment to exempt certain property temporarily stored in a public warehouse from ad valorem taxation."

### Freedom Shares

Question: Is it true that I can now buy Freedom Shares over-the-counter at my bank?

Answer: Yes. You no longer need to be enrolled in a formal plan for the regular purchase of Savings Bonds and Freedom Shares. However, Freedom Shares still must be purchased in combination with a Series E Bonds of the same or larger denomination.

Question: What are the new higher interest rates on Savings Bonds and Freedom Shares?

Answer: Series E Bonds now will return 4.25 per cent interest, compounded semi-annually, when held to maturity

of 7 years. Series H Bonds will return 4.25 per cent also, when held to maturity of 10 years. Freedom Shares now pay 5 per cent when held to maturity of 4 1/2 years.

Question: Will my old E and H Bonds pay more interest, too?

Answer: Yes. Outstanding E and H Bonds will return comparably higher yields for the remaining time to next maturity. The increase will be realized in the final interest period when Bonds are held to next maturity.

THE SURFACE temperature of Venus at the height of its 'day' probably reaches about 250 degrees Fahrenheit.

### Household Hints

If you love colored sheets but don't want to spend the extra money, next time the stores have a white sale, stock up on white sheets and pillow cases. Then buy two boxes of all-purpose dye and follow the directions on the package for automatic washers. Two packages of dye are enough for two big sheets and a set of pillow cases. Old sheets can also be dyed this way.

## OUR HEALTH

By J. M. Amberson, M.D.

#### DOES THE SUN CAUSE SKIN CANCER?

There is an unfortunate amount of misinformation about the effect of sunbathing and the incidence of skin cancer.

It is quite true that in recent years we have seen a great increase in cancers of the skin and that a large part of this increase is among those workers whose jobs are such that they are exposed to the sun for long periods of time.

For example, farmers, outdoor laborers, soldiers and sailors, these are occupations where some area of the body, usually the face, back of the neck and hands, are constantly exposed to the sun and after many years the individual may develop a skin cancer in the area that has been exposed.

Now, many Americans fear that by taking the weekend sun during the warm summer months they are increasing their risk and will develop a cancer of the skin.

That's highly unlikely. Weekend gardeners living out of the tropic or warm climates of our country are not really in any great danger, all things being equal. Nor is it likely that sunbathing in moderation during the warm months will result in a skin cancer for most of us.

As I said earlier, the greatest danger is faced by those men and women who are exposed year 'round and then usually due to their occupations, to the rays of the sun. Light-skinned persons apparently are most sensitive.

But, if you are unlikely to become a victim of skin cancer due to exposure to the sun's rays, that does not mean that you should blithely 'soak up'

the sun every chance you get.

In fact, while the sun's rays (in moderation) may not actually harm your skin, they do not do you any good either.

The sun bathing fad that we are now living through, and have been since the end of the First World War, places great emphasis on tanned, 'healthy' skin. Well, tanned skin is not healthy skin.

The sun's rays, along with wind, dry out the skin and create a cracked, uncomfortable skin that ages before its owner does.

During the warm weather months that are before us, I urge you to avoid over exposure to the sun for the sake of your skin. Few of us are so unsophisticated nowadays that we actually suffer from severe sunburns, but the tan leathery look is just as unhealthy, if not as painful.

If you suffer from skin dryness during the summer months, you may find a relatively new bath oil spray, called Alpha-Keri, to be helpful. Designed to be sprayed directly on wet skin, Alpha-Keri spray leaves a fine, invisible shield over the skin locking in the skin's own moisture to relieve dryness and that tight, itchy feeling.

#### CAN CERTAIN PILLS CAUSE WEIGHT LOSS?

Diuretics in pill form can cause temporary weight loss by increasing the amount of water released from the body. However, these medications should only be used under a physician's care.

Other pills, amphetamines, for example, are appetite suppressants and thus curb the number of calories taken in, resulting in a loss of weight. But, these diet pills, as they are called, are risky and should never be taken without the advice and approval of a physician.

#### WESTERN STARTER

Cut a head of crisp iceberg lettuce into slices. Halve each slice and top with orange slices and onion rings, overlapping. Dollop generously with thawed frozen avocado dip (or your own recipe for guacamole).

#### CELEBRATION SALAD

Throwing a party? Spear small chunks of crisp iceberg lettuce, halved fresh apricots and chunks of watermelon on picks for a festive salad.

LIGHT TRAVELS at about 186,000 miles per second.

THE CUBIT, a measure of length often used in the Bible, was the length of a man's forearm.

### PUBLIC NOTICE

#### Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT (SJR37)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III, Constitution of the State of Texas, be amended by adding a new Section 52e to read as follows:

"Section 52e. Bonds to be issued by Dallas County under Section 52 of Article III of this Constitution for the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, may, without the necessity of further or amendatory legislation, be issued upon a vote of a majority of the resident property taxpayers voting thereon who are qualified electors of said county, and bonds heretofore or hereafter issued under Subsections (a) and (b) of said Section 52 shall not be included in determining the debt limit prescribed in said Section."

Sec. 2. The foregoing constitutional amendment shall be submitted to vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1968, at which election all ballots shall

have printed on them the following:

"FOR the amendment of Article III of the Constitution to provide that Dallas County may issue road bonds under Section 52 of Article III upon a vote of a majority of the resident property taxpayers voting thereon who are qualified electors of said county, and to provide that bonds heretofore or hereafter issued under Subsections (a) and (b) of said Section 52 shall not be included in determining the debt limit prescribed in said Section."

"AGAINST the amendment of Article III of the Constitution to provide that Dallas County may issue road bonds under Section 52 of Article III upon a vote of a majority of the resident property taxpayers voting thereon who are qualified electors of said county, and to provide that bonds heretofore or hereafter issued under Subsections (a) and (b) of said Section 52 shall not be included in determining the debt limit prescribed in said Section."
