## Slave Sale Reaches \$60

Members of the Future Homemakers were placed on the auction block in front of Farmers State Bank Tuesday morning to be sold as slaves in a fund-raising project.

Proceeds of the slave sale, approximately \$60, were placed in the Jeff Ewing Fund.

The drive fell short of the desired goal of \$100. Anyone wishing to help with the project may make a donation to the fund at the school.

## Head Start Program Begins, Coach Don Seymour Resigns

Parents of children enrolled in the Head Start program are asked to bring their children to the elementary school by 8:45 Monday morning. Boys and girls who are five or six years old are eligible to attend.

Students will be provided transportation by bus to and from school in the mornings and evenings. They will be given a free breakfast and lunch.

Health services will be provided for the students. Mrs. Lois Riley has been employed as school nurse.

Mrs. Flora Bledsoe and Mrs. Willa Seymour are Head Start teachers. Elodia Castillo and Joe Quiroz are teacher's aides.

## Hart Lions Hold Bulb Sale

Hart Lions met Monday noon in the Community Room of Farmers State Bank and met again Monday night to complete the door to door light bulb sale.

Members attending were Bob Reed, Ted Averett, Fred Brown, W. A. Hawkins Jr., Kenneth Lambert, Bill Rich, W. T. Sanders, Claude Ray, Rev. C. T. Cunningham, Weldon Jones and their queen, Frances Cunningham.

The lunchroom will be under the direction of Mrs. Birdie Godfrey.

The school board Monday night accepted the resignation of Coach and Mrs. Don Seymour. Seymour has been hired as of-

fensive backfield coach for South Garland High School in Garland.

Applications are being taken for head football coach and will continue to be taken until June 9.

## New Superintendent Employed At Tide

L. M. "Mike" Burnam, formerly of Simms Corner, a community located sixteen miles south of Adrian, has accepted position as Tide's plant superintendent here.

He and his wife, Patsy, and two boys, Michael, five, and Lonnie, four, moved here Saturday. They are making their home at 202 C.

The family attends the Church of Christ.

Burnam has dealt in the fertilizer and ag-chemical business for the past three years.

Richard Franks, manager of the plant, extends an invitation to all residents to come by and personally meet Burnam.

## LEWIS LLEWELLYN

### Where Will This Course Lead Us?

The general assembly of the United Presbyterian Church has called on the United States government to recognize Castro's Communist Cuba.

A Florida minister, Rev. Don Steeger, who is a Negro, has reportedly told students at the University of South Florida that police are "pigs" and that white people should be "torn down."

Rev. Ralph Abernathy violated a state court injunction and was sent to jail for it. When he was released from jail, he advised school-children to stay out of school and join him and others in picketing the hospitals in Charleston, S. C.

Is this the mission of the church?

Is this what Jesus Christ commissioned His followers to do?

#### "Rapid Collapse"

Recently, Rev. David Poling, Presbyterian minister and president of the Christian Herald Association, said, "We are watching the collapse of an historic profession—the clergy. It is a very rapid collapse."

Nationally syndicated religion writer Louis Cassels said, a few weeks ago, in analyzing the situation in the church, "People are giving up on the church because they haven't found there what they hoped to find—a confident faith in God."

He quoted Bishop Paul Moore, Jr., as saying that a "crisis in faith" is at the heart of the problems of the church.

"The church is put together as a religious institution," said Bishop Moore, as quoted by Cassels. "If it loses faith, the whole enterprise will fall apart."

Cassels added, "It may sound terribly old-fashioned to say that what the church needs most today is a revival of contagious faith in the saving mercy of God. But if people keep getting stoned when they ask for bread, they'll finally quit coming to the bakery."

What is the mission of the church?

#### Message of Salvation

Is it not to proclaim clearly that there is hope for sinful man when he comes to the Savior? Is it not to point men to God?

To the man or woman who is burdened with care, not knowing which way to turn, Jesus says, "Come unto Me, all ye that labor and are heavy-laden, and I will give you rest."

To the one who is bowed down with the guilt of sin, He says, "God sent not His Son into the world to condemn the world, but that the world through Him might be saved."

Should the church become so involved in solving—or complicating—the social problems which face mankind that it is either unable or too busy to perform its primary function, who, then, will point people to the way of salvation?

Remember, the Master's last command to His disciples was, "Go ye into all the world and preach the Gospel to every creature."

Wouldn't this be a good time for the church to emphasize again the spiritual needs of mankind, rather than the social and political—to get back to doing the job that Christ told His followers to do?

## SENSING THE NEWS

By Thurman Sensing

EXECUTIVE VICE PRESIDENT

Southern States Industrial Council

Having compelled the states to surrender their traditional and constitutional authority over public education, the U. S. Supreme Court now has decreed that states may not make fundamental decisions as to who is eligible for welfare assistance.

In a 6 to 3 decision, the court struck down state laws and regulations requiring welfare "clients" to wait a period of months before becoming eligible for relief payments. In so doing, the Supreme Court tossed out rules that are in force in 40 states and the District of Columbia.

The ground on which the decision was made was nothing less than fantastic. The court held that requiring people to wait before getting aid is unconstitutional because it restricts the right of all citizens "to travel throughout the length and breadth of the land." To reach this conclusion, the court had to ignore the facts. No person, except those restricted by a court order, is hindered from traveling anywhere in the United States. Freedom of movement never has been curtailed. States simply have drafted sensible rules that prevented handout hounds from dropping into any community they pleased and becoming an immediate burden on the taxpayers.

Now the Supreme Court has said that welfare careerists have an automatic right to get a handout in any state they choose to reside temporarily. This ruling is another nail in the coffin of state sovereignty, in the concept of a federal Union as established by the founding fathers of the United States.

On the practical side, the decision most probably will lead to the creation of wandering bands of welfare recipients who migrate from state to state according to the season and their whims. Sunny states such as Florida and California may become winter resorts for a roving drone population. In Florida, the law on the books requires a person to have lived in the state five of the past nine years, and at least one full year prior to applying for welfare.

Floridians have been well aware of the possibility of hordes of professional reliefers descending on the Sunshine State. It is impossible to calculate at this point how costly the new ruling will be to many

states, but it will likely run into millions of dollars. Taxpayers, who are already overburdened, will be faced with a new weight of taxation. Secretary of Welfare Finch has warned that the decision will have a severe financial impact. He has said that states should have the right to set their own welfare standards, but, in the light of the court's ruling, he added, the states "are going to have to scramble to meet the extra budgetary load."

Inevitably, the Supreme Court's ruling will lead to demands for federal uniform welfare standards. And as a practical matter, the scale of payments almost certainly will be what is being paid in New York State. This, in turn, will impose staggering financial burdens on the poorer states. In addition, a federal welfare minimum would mean that those getting relief could move into those poorer states and live on a higher scale than many of the people in those states who are employed and paying taxes. Thus the court's ruling will be an incentive to many persons to give up working and to get on welfare.

So-called welfare unions already are active. They aim at packing the welfare rolls and extracting every possible handout and advantage. The strategists of the welfare unions are engaging in this campaign in order to achieve their goal of a federally guaranteed income for non-workers in our society.

The drones in American society believe they have a vested right to a comfortable living at the expense of working citizens. And the Supreme Court's latest ruling in effect is a judicial mandate for this philosophy of compulsory handouts. In the long run, the United States may not be able to survive such an assault on productive citizens by organized, non-productive elements.

The working people of America need to regain the initiative, in state legislatures, in the Congress and in the courts. This country wasn't designed as a grab bag for the shiftless. A counter-movement against welfarism, a revolt of the taxpayers, is essential. Survival of our free enterprise country may depend on such a revolt.

INSTANCES of lead poisoning have been decreasing the past few years but if you have young children at home beware of paint, which contains lead. Children will eat almost anything, advises Liberty Mutual Insurance Companies, and paint is no exception.

FRIENDS OF 4-H--Among the very active participants of the June 3-4 Texas 4-H Roundup will be some 200 folks who are proud to be known as "Friends of 4-H". They support the organization with funds and their time and talents.

TEXAS LIVESTOCK INDUSTRY continues to grow-- Cash receipts from the marketing of livestock in Texas in 1968 were close to the billion-dollar mark, reports Dr. Ed Uvacek, Extension livestock marketing specialist. The breakdown shows that cattle and calves accounted for over \$900 million of the cash receipts; hogs and pigs for \$52.3 million and sheep and lambs for more than \$34 million.

SOIL SURVEYS supply useful facts--A soil survey is an inventory of the soil resources of an area. This inventory, says Dr. Clarence Carter, Extension soil and water conservation specialist, permits the grouping of soils which are alike into Land Capability classes. Many of the answers to questions dealing with soil problems are derived from facts learned during the soil survey process, he notes. Soil surveys have not yet been completed for all counties of the state but the work is continuing. General soil maps are available on all counties, he said.

WHEN YOU BEGIN your Spring fix-up campaign be sure to check your front and rear steps and landings. A week step could prove to be your downfall, says Liberty Mutual Insurance Companies.

## Your Social Security

Every person 65 or older who is enrolled for the medical, or doctor's part of Medicare may be able to receive reimbursement toward the purchase or rental of durable medical equipment needed for their use at home.

John G. Hutton, social security district manager pointed out that many patients need wheel chairs, hospital beds, special walkers, oxygen equipment, or similar items for use in their homes while they convalesce from an illness. If such appliances have been prescribed by a physician, the patient may apply for reimbursement of the rental or purchase price, just as he applies for reimbursement of the doctor bills.

In submitting the claim for reimbursement, the patient must attach an itemized bill for the rental or purchase and a statement from his doctor showing that the equipment is needed and an estimate of the length of time it will be required.

Reimbursement usually will be made to the patient in monthly installments, Hutton said.

For further information about this or other Medicare matters, Hutton said, local residents should visit, call or write the Lubbock social security office at 3428 Avenue H. The telephone number is PO 58541.

## Danny Smith Will Attend Symposium

Daniel Ray Smith, Hart High School junior, and Raymond Keller, III, high school instructor, are among 500 top Texas high school students and teachers who will attend the ninth annual Texas Nuclear Science Symposium at Austin from June 3 through 6.

Daniel Ray is a member of the Student Council, an officer in the Future Farmers of America Club, junior class officer, and won a place on the all-district football team. He is also on the basketball and track teams. His interests are farm related, other than his science and math interest.

Keller earned his bachelor's degree from the University of Houston and is now a teacher of social studies and economics in the Hart schools.

The Hart participants are sponsored by the Southwestern Public Service Company, which is a member of the Texas Atomic Energy Research Foundation. The Foundation and the University of Texas jointly conduct the symposium.

Some of the nation's leading authorities on nuclear physics will speak and a tour of the university's laboratory facilities will be made.

## Senior Trip Highlights

Left Hart at 8 a. m. Saturday and drove to Dallas where we picked up Tom Trout, our driver to New Orleans. We went through a wax museum while in Dallas.

We arrived at New Orleans at 7 a. m. Sunday morning, went to our lodgings at the Rowntowner Inn. Many students then attended the churches of their choice.

Sunday evening the class went to Lake Pontchartrain and enjoyed rides at the amusement park on the beach.

Monday the class went on a ride on the Mississippi aboard the "Mark Twain". Observed commerce on the river, and the roaming grounds of Jean Lafitte.

We went down "Bourbon Street" on Monday night. We went into a banjo hall, jazz-hall, and various other plush places, and got our eyes full of the night life of New Orleans.

Tuesday we rested most of the day. Part of the class went shopping in downtown New Orleans, others stayed at Rowntowner and went swimming.

That night part of the class went to the French restaurant "Cafe' ala Crepee'" where they enjoyed famous French cuisine. Afterward they went to "The Famous Door", a popular jazz night place on Bourbon Street.

The remnant of the class went to a cafeteria, and movie that evening.

Wednesday, everyone packed. We checked out of The

Rowntowner at 1 p. m. and went down to the French Quarter aboard the bus, to do some shopping. That evening, the class attended a movie. We left New Orleans about 11 p. m.

Thursday morning we stopped in Dallas for breakfast. When we stopped at Seymour for dinner, we had surprise birthday cakes for Mr. L. C. McLain, one of our sponsors, and Gary Cole. Then we hit the road again, and arrived in Hart at approximately 5:30 p. m.

Though we ended this outing somewhat reluctantly, the cherished memories we have of this great adventure will remain with us throughout the rest of our lives.

### NEW ARRIVAL

Mr. and Mrs. Willie Diaz of Hart announce the arrival of a son born May 25 in Community Hospital. He weighed nine pounds and four ounces and has been named Esidro.

MOST INJURIES in the home occur from falls and one of the most dangerous areas is the bathroom. One way to reduce this hazard, says Liberty Mutual Insurance Companies, is to keep a rubber mat in the bathtub. Also never touch anything electrical while bathing.

CHILDREN ARE generally attracted to anything that resembles candy in bottles or cans. Liberty Mutual Insurance Companies advises that aspirins and sleeping pills be kept well out of the reach of children. Aspirins have become a prime poisoner of children.

AT BUFFALO SPRINGS Mr. and Mrs. Lyndall Warren and family accompanied by Sylvia Gonzales enjoyed a few days outing at Buffalo Springs near Lubbock recently.

## Financial Facts

By Willis A. Hawkins, Jr.

Do you have a bill that has been partially burned or torn? You can exchange it for one of full face value if three-fifths of the original remain.

You may return fragments of less than three-fifths but more than two-fifths. The bill will be redeemed at one-half the face value.

Fragments of less than two-fifths are not redeemable without the following qualifications: Proof must be established that missing portions are totally destroyed.

This proof should be in the form of an affidavit. It must state that you are the owner. You must give full explanation of the cause and nature of the destruction.

If you cannot swear to the facts concerning destruction do this. Get affidavits from others having actual knowledge of destruction.

### WHAT IS YOUR COMPUTER SCORE?

The new thing in auditing income tax returns this year is that the computer gives a "score" to each taxpayer with an income of less than \$10,000. Next year the computer will "score" everyone (and if you made more than \$10,000, don't think that Internal Revenue will forget you until next year).

A score is determined by how close the return comes to what IRS considers the norm for a taxpayer of that income bracket with that particular type of business, with similar dependents or deductions, with that particular variety of income sources, in that geographic area, etc.

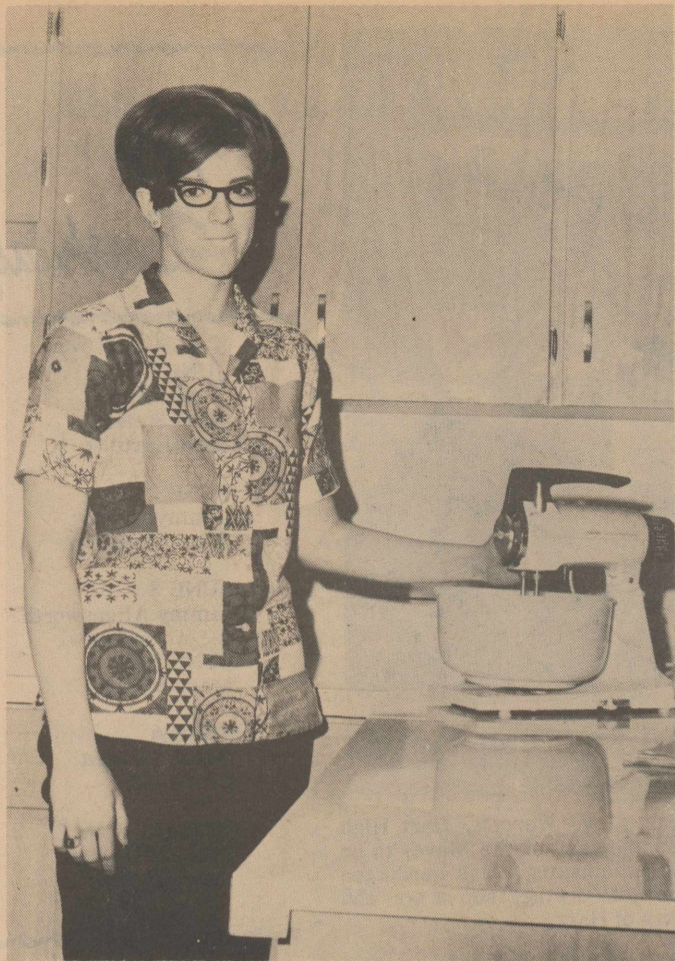

"Nation's Business" magazine recently reported that approximately 2.5 million returns receiving the poorest scores in 1969 will be reported back to the regional and district offices and will be thoroughly audited. If your return gets a good score at Martinsburg it most likely will never be audited. However, returns which "flunk" the score will be "eyeballed" at length at the taxpayer's IRS district office. Here the trained tax people review the mechanical thinking of the digitized selector and rule out those cases where it is obvious the taxpayer does not need an audit.

DIANE LANCASTER

## Recipe Of The Week

Diane Lancaster, who will be a junior at Hart High School this fall, shares a recipe for Toffee Nut Bars with Hart Beat readers.

She attends the First Baptist Church with her parents, Mr. and Mrs. Lester Lancaster.

Diane is active in sports and is a member of the pep squad. She is also a member of Future Homemakers.

Her hobbies are reading, running around, cooking and sewing.

She has not made any plans for her future following her graduation from Hart High School.

### TOFFEE NUT BARS

1/2 c. shortening, softened  
1/2 c. packed brown sugar  
1 c. flour.

Mix ingredients thoroughly. Press evenly in ungreased 9x13 inch pan. Bake for 10 minutes at 350 degrees.

### TOPPING

2 eggs  
1 c. brown sugar  
1 tsp. vanilla  
1 T. flour  
1 tsp. baking powder  
1/2 tsp. salt  
1 c. shredded coconut  
1 c. chopped pecans

Combine ingredients well, spread over pastry. Bake 25 minutes longer. Cool slightly, cut into bars. Makes 2 - 3 dozen.

## Aaron Hutto Earns Honors

Aaron L. Hutto of Hart has been named a Distinguished Student in veterinary medicine at Texas A&M University, announced Veterinary Dean Alvin A. Price.

The honor is awarded to students who have excelled academically at Texas A&M, Dr. Price explained, by earning at least a 2.25 grade point ratio (out of a possible 3.0) during the most recent grading period.

Hutto, a third year student in the College of Veterinary Medicine's professional program, is the son of Mr. and Mrs. S. R. Hutto.

## Good Neighbors Meet Tuesday

Mrs. T. R. Davis will be hostess Tuesday, June 3 for a meeting of the Good Neighbors Club.

A salad luncheon is planned for noon.

### Change In Variety

Nickel in pure form, plus eight alloys of the metal are in use today for coinage.

## Piano Students Earn Awards

Carol Armstrong, daughter of Mr. and Mrs. Paul Armstrong, earned the highest rating of all the piano students of Mrs. Leon Sanders at a recent Piano Guild Audition sponsored by the National Fraternity of Student Musicians in Dimmitt.

Students of Mrs. Sanders from Dimmitt, Sunnyside and Hart participated in the auditions. Jana Mapp and Elizabeth Stephens also earned top honors.

The three students were presented certificates, report cards and pins. Mrs. Sanders also presented her top ranking students with pins and certificates of merit.

Students who earned 95% ratings were entertained by Mrs. Sanders to a dinner at Myers Drumstick Restaurant in Amarillo and an outing in Palo Duro Canyon.

Pupils of Mrs. Sanders were presented in a recent recital in the Community Room of First State Bank in Dimmitt.

# THE HART BEAT

# Dear Editor

Dear Editor:

Been wondering if there might be some chance of realizing some relief from my most shattering and disappointing news that my friend and everybody's friend met a tragic death early in the morning on the highway at the south edge of town—OTTO DINWIDDIE.

I know I speak the feelings of the whole neighborhood when I say he was the neighborhood big brother for the forty years he lived here. Natives or strangers that needed information or any other kind of help were always referred to Otto. They always went away satisfied.

It is so easy to remember the first time I saw him. It was in the fall of 1944. I was a stranger and he took me in. I needed a job and he gave me one. That produced such a wonderful feeling that it is still growing and will as long as I live. It was always so easy for us to find something to talk about when we got together. We always had a fresh political joke to tell that we could both laugh about.

Remember so well one time I had a nice crop of cotton I wanted to show him and he was not satisfied he had to show me his cotton. We both contended that we had the best cotton. In the twenty-five years we enjoyed being together, if one of us was ever the least bit irritated or disappointed, I never knew it.

When a friend like that leaves you in such a sudden way, you wonder did it really happen or did I just think it

did? We have no choice often in life but to take what we have left and go on from here. Whether it be days or years for us we will all remember Otto.

Personally, as I stroll along the winding trail through the garden of my memories every step will be pleasant memories of OTTO.

NEVER RUN power lawn mowers, chainsaws or snow blowers in an enclosed area such as a garage, says Liberty Mutual Insurance Companies. Like automobiles, they too can cause carbon monoxide poisoning.

DIRECTIONS for safe use are on insecticides. Liberty Mutual Insurance Companies says be sure to follow the directions closely or the bugs in your garden may not be the only ones poisoned.

## Moments OF Meditation

C. T. Cunningham, Pastor of The First Baptist Church

"The fool hath said in his heart, there is no God." Psalm 14:1

"Who is the Lord, that I should obey His voice?" Exodus 5:2

You will note the Psalmist's words, "the fool hath said IN HIS HEART, there is no God." IN HIS HEART! The psalmist is not talking about the Atheist who blatantly declares his belief, but of the person who acts as if God does not exist, or whose thoughts never turn to God. And there are more people like this than you may think, who say, in effect, "Who is the Lord, that I should obey His voice?"

Some never think of Him at all. Except, maybe, to use His name as an expletive, for lack of an intelligent vocabulary, without a thought as to Whom the Name represents, thousands go through life with never a thought of God. Men of superior intelligence as astronauts in space may, as they soar in orbit, proclaim and praise Him; but ordinary man walks the earth with little thought of His majesty, plowing his feeble way through life, his eyes fixed on the ground, with little thought of the One by his side, offering him a helping hand.

Some deny His existence. By and large, the voices of the prominent clergymen who have declared that "God is Dead" have lately been stilled. On the other hand, it is still true that

there are many who would strip Christ of His claim to be the Son of God.

Some think of God as a divine "Santa Claus". Only when trouble strikes into their lives do they turn to God, and they cry, "Why did God do this to me?" Or, having reached for something without success, they go to Him with their "Gimmes". Having failed themselves they go to God for help. "Give me money!" "Give me health!" Give Me. This is not to say that our requests should not be made known to God. And it is not to say that God will not give us what we ask, or what He sees best for us. But "Give me" is the least important element of true prayer, and if we view God as One whose main function is to provide our selfish needs, our misapprehension is great indeed. We are not placed on earth to receive, but to give. We should think of God as one who needs our help.

SPRING CLEANING time is here again and one place that definitely should not be neglected, according to Liberty Mutual Insurance Companies, is the medicine cabinet. Check to see that medicines are not over-age. If any are, throw them out. They could make you feel better but also might make you feel a lot worse.

4-H ROUNDUP--THERE'S at least one roundup in Texas which doesn't involve riding, roping and the other events well known to folks of the west. The Texas 4-H Roundup on the other hand involves some 1,800 members of the "Green and White and Head, Heart, Hands and Health" organization. These 4-H Club members will come from sections of Texas to the campus of Texas A&M University on June 3-4 for their annual state meeting. They've been doing it for well over a half century; thus, establishing it as one of the oldest such meetings in the nation.

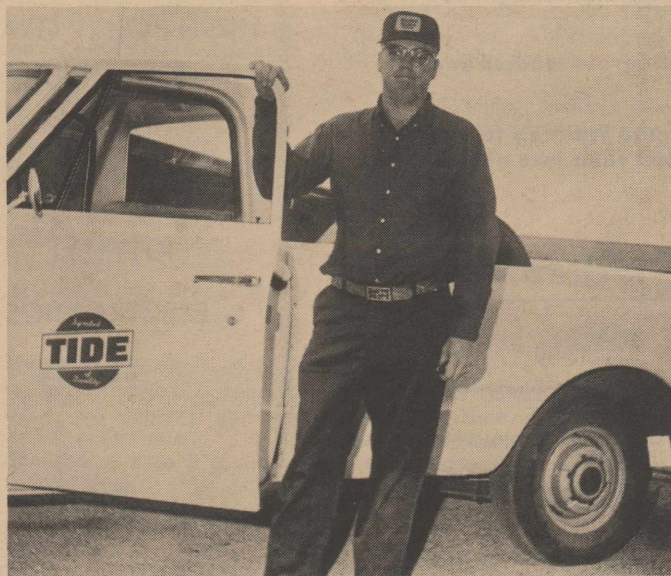

IF YOUR BACK-YARD barbecue is rained out, advises Liberty Mutual Insurance Companies, don't bring the charcoal broiler inside, unless you plan to use it in the fireplace. Carbon monoxide poisoning might be the result.

LIBERTY MUTUAL Insurance Companies says be sure never to touch an appliance and a water faucet at the same time. If the appliance is not properly grounded, the result could be a fatal low voltage electrical shock.

ALWAYS CHECK labels on cleansers and follow the directions strictly, suggests Liberty Mutual Insurance Companies, to be completely safe. Many of these products have ingredients, which could prove harmful if carelessly used.

GET RID of paints and thinners as soon as you are finished with them. Keeping them around too long could lead to an explosive situation if they are not handled properly, says Liberty Mutual Insurance Companies.

"Bull's-eye!" The arrow flew straight to the heart of the target.

And so, straight to the heart of the matter fly the minds of young people today. In this age of advanced technology and far-flung communication, youngsters are better informed, geographically, politically, scientifically and economically than at any other time. No vague generalities, no sugar-coated probabilities will satisfy them. They want the facts and straight-to-the-point answers.

That's why your church recognizes the importance of having trained and devout leaders and teachers for its youth programs.

Graduation time salutes these people who give so much of their time and training to the Christian development of our children. Their dedication and devotion reflect their love of God in their ministry to the men and women of tomorrow.
