National Wheat Allotment Cut, Individual Farmers Cut Same

The 1970 national wheat acreage allotment is cut 12 per cent. Individual farm allotments will be cut about the same.

The minimum diversion will be 30.3 per cent of the 1970 farm wheat allotment, with no payment on this acreage. This acreage has already been taken off the 1970 farm wheat allotment. A producer may divert an additional 50 per cent of the 1970 wheat allotment for payment, about 63 cents per bushel.

Wheat certificates will be paid on 48 per cent of the projected production on the 1970 farm wheat allotment. For 1969, certificates are being paid on 43 per cent of the projected production at \$1.52 per bushel.

The option under which a producer can substitute the planting of wheat for feed grains or feed grains for wheat in any combination will be available. Whether barley will be included in the feed grain program in 1970 will be determined and announced later.

Payments will be subject to any limitation that might be required by Congress in the Department of Agriculture appropriations.

EXAMPLES:

No. 1 Minimum Diversion - 1970 Wheat allotment, 100 acres; 1970 wheat yield, 30 bushels. Minimum Diversion - 30.3 acres, (100 acres x 30.3%);

Wheat permitted - 100.0 acres; Wheat certificates acres - 48.0 acres, (100 acres x 48%); Wheat certificate payment rate - \$45.60, (30 bu x \$1.52); and Wheat certificate payment - \$2188.80, (48.0 acres x \$45.60).

No. 2 Same farm diverting additional 50 per cent; Minimum diversion - 30.3 acres, (100 acres x 30.3%); Additional diversion - 50.0 acres, (100 acres x 50%); Total diverted acres - 80.3 acres; and Wheat permitted - 50.0 acres, (100 acres - 50.0 acres, additional

diversion); Diversion payment - \$945.00, (63¢ x 30 bu. - \$18.90 x 50.0 acres); Certificate payment - \$2188.80, (48.0 acres x \$45.60). Total Payment \$3133.80

Financial Facts

By Willis A. Hawkins, Jr.

An ancient Roman bank consisted of a large, solidly constructed apartment. The money changer sat on a high stool. Coins were spread out before him behind a bronze mesh screen.

His clients entered from the porticos in front. Perhaps one client was a lawyer depositing a fee won in the forum. Or it might have been a young patrician on his way to the circus. He would draw a thousand restatii to bet on his favorite gladiator. Even a Thesalian slave could enter. He would add to a growing sum for purchasing his freedom.

Ancient Roman bankers were not merely money-changers. Their daily routine included: opening ac-

counts, receipt of deposits, issuing bills of exchange, making loans, and purchasing mortgages.

cake was decorated with pink roses and wedding bells.

Would you like to live in a house like this? It might be fun for awhile, but chances are that the novelty would soon wear off. When it comes to daily living, Americans are comfort-lovers. We want the latest car, deep freeze, stove or vacuum cleaner.

Because we pride ourselves on being modern, sometimes we are apt to think of going to church every Sunday as old-fashioned and out of gear with the present-day world. But the Church, in case you haven't noticed, is keeping up with the times far better than a lot of us. And isn't it true that certain basic truths, traditions and ideals cannot be gauged as modern or old-fashioned? The Church is ready to face tomorrow. Why not go next Sunday and see for yourself?
