The thing he wants most in the world is to be a farmer just like his dad. A Old-fashioned farming, with its never ending toil, often shattered this childhood dream—sent the boy off to the city to seek his fortune. Today, it's easier to keep him on the farm. Better crops and improved farming practices have boosted yields and profits. Modern John Deere equipment has taken over much of the muscle work, and chopped hours from the old dawn-to-dusk work day.

No wonder more and more farm boys are supply with the land—realizing a childhood ambition follow in their fathers' footsteps. This is a pusing. These young farmers will hasten the fall mechanization of our agriculture, pioneer the farming practices, and bolster vital food production.

"With world conditions, distressing and inflated as they are oday, we must have the farmer's viewpoint discussed in every committee meeting of our legislative bodies, both in Washington and Austin. That is what Farm Bureau offers to all farmers. The ed on its merits and reported out members in our organization, the more voice and influence we will have. Therefore, we are asking every farmer and rancher to join Farm Bureau with us and make tacking another, the House takes Haskell county an even better agricultural county.

"The board of directors of the Haskell County Farm Bureau will also discuss the possibility of having community educational meetings during the membership drive. These community meetings will inform the farmers as to how they may have their say in our government, where the farmer stands today in our world economy, and the benefits of farmers organizing," Couch concluded.

#### Overloaded Trucks Persistent Violators Of Highway Rules

More than 17,800 truck arrests were made on Texas Highways for overloading and other violations for the year ending Aug. 31 1950, accordin to a recent report released by Kent Odom, Chi f License and Weights division of the Department of Public Safety. 8,447 cases were filed in Justice Courts throughout the State, charging the operation of vehicles

with loads in excess of the 48,000 pounds of weight on each truck axle; 3,801 cases charging operation in excess of registered gross weight of the truck and 5,582 cases were filed for miscellane-ous offenses, such as overlength, overwidth, driving while intoxi-cated and operating without per-

According to the report, nine trucking companies were arrested more than 100 times last year. One Dallas firm with 265 arrests, was find over \$5,000 for hauling more than a million pounds excessive

#### **Most Housewives** Polish Furniture Once Every Week

A spot survey conducted in Austin, and seven other widely scattered American cities indicates that 92 per cent of the urban American housewives clean their living room furniture at least once a week. Ten per cent clean the furniture each day.

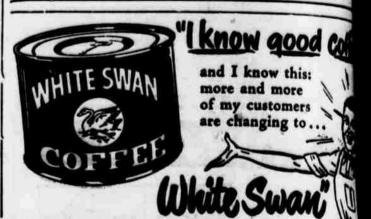

The survey was conducted by Johnson's Wax on behalf of "Pride" a new liquid furniture polish that needs no rubbing. Strangely enough, it was the housewives over 50 years of age who racked up the highest score for once-a-day cleaning. House-wives in the 40-50 age bracket had the lowest score.

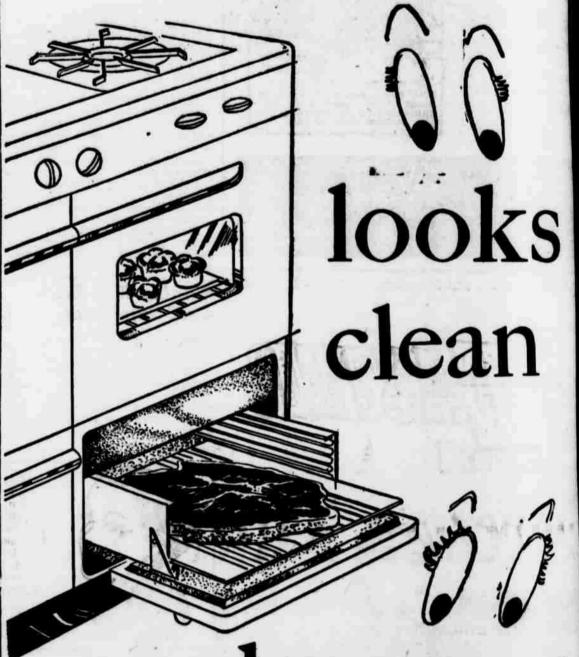

The largest percentage - 48 per cent - clean their living room furniture on an even weekly schedule, the survey showed.

#### Certificates To Be Required of Meat Slaughterers

Commercial slaughterers who who are not Federally inspected, and persons who have such slaughterers hardle livestock for them need to take immediate artion to obtain certificates from the Office of Price Stabilization.

John Boyle, meat specialist of the Regional Price Stablization Office at Dallas, explained the Distribution Order No. 1 affecting slaughter of livestock and distribution of meat requires these slaughterers to obtain price of-fice certificates if they expect to continue slaughtering after April

Slaughterers classed as No. 2 and No. 2-A are affected. Application forms may be obtained by writing the district office of Price Stabilization recently opened in Fort Worth to serve a 53-county area of West Texas or the regional Office of Price Stabilization in Dallas. The Fort Worth address is 2914 W Lancaster; the Dalles address, 3306 Main.

## Area Farmers To Try New Variety Of Sweet Clover

The planting of sweet clover in the Wichita-Brazos Conservation District will start as soon as the ground is dry. C. C. Browning and Marion Chowning of Truscott plan to plant Evergreen sweet clover. Also planting the same clover is John Spann and Wendell Bastridge. Partridge near Munday. Joe and Jim Ferguson near Weinert plan to plant Evergreen sweet clover

Evergreen sweet clover is a new clover for this area but promises to be much better than Madrid. It is a biennial and can be used for grazing the first year. The second year a seed crop can be har-vested. This clover is a very good soil improving crop as it is deep rooted and will break the hardpan. It deposits large quantities of nitrogen as well as adding a large amount of organic matter. A lot of the land in this district needs clover, believes the Board of Supervisors. Hubam sweet clover is especially good to rid your land of rootrot .

# Built in Texas... and helping build Texas

Ford is the only Automobile Manufacturer Building Cars and Trucks in Texas

ALL THE FORDS made are not built in Detroit. There are plenty of them built right here in Texas-last year over 128 million dollars worth of cars, trucks, parts and products were made at Ford's Dallas Assembly Plant. What's more, 1,722 Texans put them together or followed through with their consignment to dealers in the Dallas, Houston, Oklahoma City and New Orleans Sales Districts.

The folks who work in Ford's Dallas Assembly Plant and District Sales Offices earn over \$7,000,000 every year. They spend it mostly in Texas. Texas benefits from Ford in other ways, too. For example: during 1950 Ford bought over \$1,000,000's worth

of material and supplies from Texas merchants and manufacturers and paid over \$7,500,000 for incoming and outgoing transportation. Then, too, there is a total of over \$148,000 paid by Ford in local and State taxes.

Yes, Texas is building a lot of cars and trucks for Ford . . . and in the process Ford is helping to build Texas, too!
