

Farmers Get First A.C.A. Checks For \$17,398.76

Ninety-two farmers in Knox county received Agricultural Conservation checks last week for payment of practices carried out on their farms in 1944, according to Mr. Emmett Partridge, chairman Knox County A. C. A. These checks amounted to \$17,398.76. This is the first group of checks received, and farmers that did not receive their checks can look forward to getting them in the near future.

"The amount of soil conservation practices that were carried out in 1944 was tremendous and is believed to be the most ever carried out in one year," Mr. Partridge said. There were about three hundred tanks constructed in the county "These tanks will increase the stock water supply of which we have always been so short, and will tend to increase the beef production," he said. Mr. Partridge stated that we have the same kind of program in 1945 and are looking forward to doing just as much or more as we did in 1944.

James C. Branch Is Now In Italy

Mediterranean Air Transport Service, Somewhere In Italy.—James C. Branch, 704A Madison Street, Amarillo, Texas, son of Mr. and Mrs. Emmett R. Branch, Munday, Texas, recently has been promoted to the grade of Sergeant. He is married to the former Miss Irene McAuley, daughter of Mr. and Mrs. McAuley, Knox City.

He is currently assigned as an airplane electrical specialist in a ferrying squadron of Mediterranean Air Transport Service at a busy air base in Italy.

Enlisting in the Army Air Corps April 7, 1942, Sgt. Branch trained at Kelley Field, Texas and Tulare, Calif. He completed courses in airplane mechanics and electrical maintenance at Army Air Forces technical schools before leaving the States in July, 1944.

Sgt. Branch was graduated from Vera high school, and prior to his enlistment, was employed as a printer at the Ranger "Daily Times," Ranger, Texas.

Sgt. Branch's squadron has been engaged in supplying the Allied armies in Italy and Southern France by flying high priority freight and passengers to the fronts as they are needed. MATS, predominantly American in personnel, is nevertheless a composite organization with a contingent of the Royal Air Force, and is responsible for the control and co-ordination of all air transport activities in this theater.

Auction Sale Has Heavy Run

The Munday Commission Co. reports a good run of cattle for last Tuesday's sale. All classes of cattle sold fully steady with last week.

Canner and cutter cows sold from \$6 to \$8; butcher cows, \$8.50 to \$10 fat cows, \$10.50 to \$12; butcher bulls, \$8 to \$10; beef bulls \$10.50 to \$12.30; butcher yearlings, \$10.50 to \$12; fat yearlings, \$12.50 to \$15; rannie calves, \$8 to \$9; butcher calves, \$9.50 to \$12; fat calves, \$12.50 to \$14.70.

Some cows and calves sold from \$85.00 to \$130.00 per pair.

MILK BUYS FEED AND BONDS

Milk from two cows is enabling one Rusk County farmer to pay for his feed and buy one \$25 war bond every month. S. L. Neal, county agricultural agent, is recommending a similar program to other farmers in the county, since milk is badly needed and the bonds will mean increased equipment or comfort on the farm after the war.

Misses Clydeen Warren, Wvnelie McGee, Bonnie Wilkins and Norma Coates, students in McMurray College, Abilene, visited with Miss Flora Alice Haymes last Sunday. Miss Haymes, who has spent about three weeks in the Stamford hospital, was brought home the first of last week and is recuperating at the family home here.

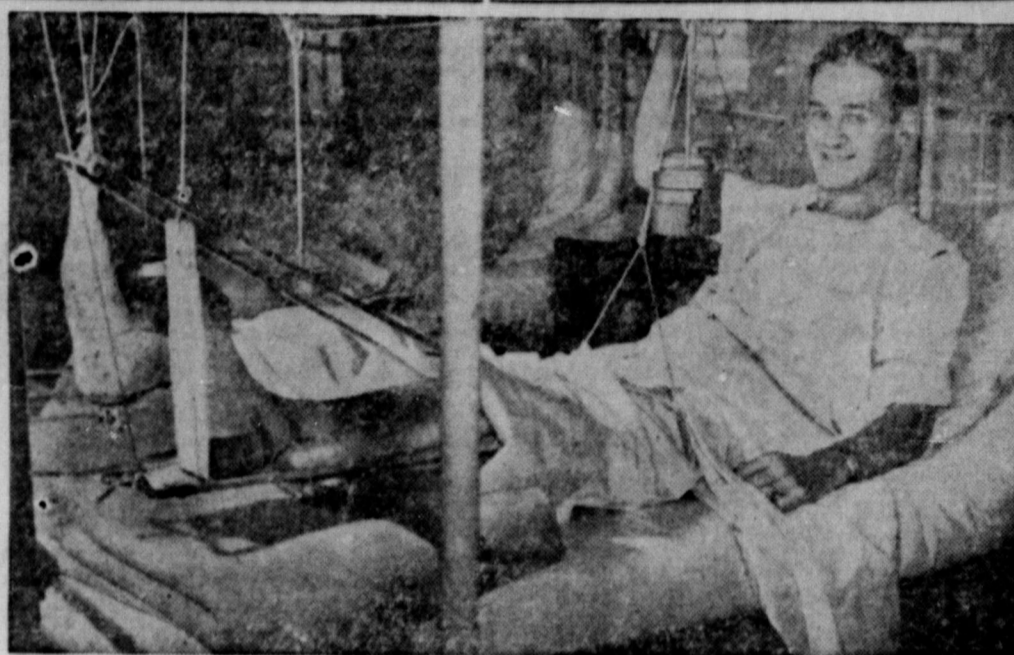

Mrs. Ray Howard and son, Zack, left last Tuesday for Hico for a visit with Mrs. Howard's father, M. O. Burnett.

After recovering from shrapnel wounds, Marine PFC Russell Halsey, 21, Roselle Park, N. J. returned to action in the Tinian Islands, shot a Jap sniper but sustained a broken hip in the action. Twice War Bonds funds have helped restore him to health, and Bonds bought and held are healing hundreds of other service men's wounds.

Marine Sgt. Don Baird, Monmouth, Ill., smiles because War Bonds bought and held at home speeded his recovery from arm wounds suffered in an attack across a dummy flight strip at Saipan. An enemy 77 field piece hit him.

During beaching operations on a Pacific island, an LST struck a mine and Milton H. Fox, Mr. M. M., 1/C, 22, Sandusky, Ohio, sustained multiple fracture of both legs. War Bonds invested in and held by folks at home have helped provide treatments that encourage him to look to the day when he will walk normally again. More invasions are being added almost daily in that area with more and more casualties, men who need all the treatment Bonds can supply.

U. S. Treasury Department

Club People Begin Feeding Work For 1945

Fourteen 4-H Club boys and two 4-H Club girls have started their Hereford steer calf feeding operations for 1945.

All of these boys and girls have a personal liking for beef cattle and are willing to devote unlimited time to carry out the small details daily which are necessary to keep their calves on full feed and make maximum gain.

The boys who have had previous experience in calf feeding find that the location of the feeding pen is of primary importance so that it will be convenient to water and shade. Another advantage is to keep the pen clean and so fenced that chickens and other fowls can be kept out, and there should also be provided a self feeder, convenient hay rack and a small water trough which can be cleaned weekly at least.

"Last but not least" the boy must have parents who are interested in the demonstration and who are willing to encourage him to carry out the feeding instructions given him by the County Agent or adult leader.

The names of the boys and girls feeding calves for this year are as follows:

Carroll Fred Glover, Benjamin, Texas; Olen Ray, Benjamin, Texas; Buddy Crenshaw, Benjamin, Texas; Fred Lewis Crenshaw, Benjamin, Texas; Jerrel Trainham, Vera, Texas; Donald Joe Jackson, Vera, Texas; Jerry Leek, Vera, Texas; Janetta Beck, Vera, Texas; Leroy Davis, Vera, Texas; C. A. Davis, Vera, Texas; Bryson Laird, Benjamin, Texas; J. G. Pultz, Benjamin, Texas; Nadine Allen, Vera, Texas; Edwin Horth, Knox City, Texas; Pat Hill, Munday, Texas.

Many Persons Are Violating Drivers' License Law

AUSTIN — Approximately 250,000 persons driving motor vehicles in Texas do not have valid operator's licenses. Director Homer Garrison of the Department of Public Safety said today.

This isn't a deliberate, wholesale violation of the law, Garrison observed. It's simply the result of drivers failing to observe the expiration dates of their licenses.

J. B. Draper, chief of the Drivers License Division, reported that sporadic renewals create a difficult labor situation in that division, and urged motorists to check the date stamped on their licenses. Ordinary operators' licenses expire two years from date of issue; chauffeurs' and commercial operators' licenses, one year from date of issue.

Application blanks are available at Drivers License and Highway Patrol offices, courthouses, and some city halls, fire stations, and service stations.

County Agent Gives Formula For New Fly Poison

Usually 1 plus 1 equals 2. But, for some insecticides, chemists have proved recently that 0 plus 1 may make at least 3.

Sesame comes from sesame oil and will kill no flies. Pyrethrum kills many flies. Mix these two together, and the mixture will kill three to four times as many flies as pyrethrum alone. The practical result is a more deadly household fly spray now on the market. In this case, 0 plus 1 equals at least 3.

When we entered the war, U. S. Department of Agriculture chemists made use of just a mixture in the "aerosol bomb." This bomb is a spray device now used by the armed forces to protect troops against disease by killing mosquitoes and flies in tents, airplanes, barracks and mess halls. It is a fortunate thing for the soldiers that some insecticides do not act according to arithmetic.

D. P. Morgan Jr. To Return From Europe

Mr. and Mrs. D. P. Morgan of Seymour, formerly of Munday have received a telegram from their son, Lieut. D. P. Morgan Jr., who is now in England, stating that he had completed his missions over Germany and was on his way home. He expects to be here about the middle of April.

Another son, David Lee Morgan, is in training at St. Petersburg, Fla., with the Merchant Marines.

Plans Are Now Being Made For Grain Harvest

All indications are that the small grain harvest in Knox County will be acute, when we consider that the small grain acreage has increased from a 25,000 acres in 1944 to a 63,000 acres in 1945.

"Every straw in the wind" indicates that a tight squeeze on box cars will continue throughout the spring and summer instead of easing off with improved spring weather as earlier anticipated.

The county agents office is cooperating with the Regional Farm Labor Office at Plainview and doing all that is possible to contact combine operators in the Panhandle and in Oklahoma regarding the prospects of a bumper wheat crop and encouraging them to come to Knox County during the harvest season.

Goree Girl Enters Baylor Nurse School

Jean Stevenson of Goree, Texas, will be a member of the new class entering Baylor University School of Nursing in Dallas April 5. She is one of 24 new student nurses coming from Oklahoma, Nebraska, Louisiana, California, New Mexico and fourteen Texas towns.

Following registration on the 5th, the period to April 10 will be spent in orientation. Complete physical examinations will be given the new students and lectures on student nurse life will be held. The week's activities will be climaxed with a tea on April 10, at Holiday Hall on the Baylor Hospital campus. Classes will begin April 11.

ED GOSSETT HERE

Congressman Ed Gossett of Wichita Falls and Washington, D. C., was here last Saturday, visiting with local friends and talking over matters pertaining to his duties at Washington. Gossett was home for the Easter holidays.

Ralph Schumacher Home From Overseas

T/Sgt. Ralph G. Schumacher, radio operator on a B-17 Flying Fortress overseas, came in last Friday to spend a leave with his parents, Mr. and Mrs. August Schumacher of Rhineland, and with other relatives in this area.

Schumacher was presumed "missing in action" from his 30th Eight Air Force bombing mission recently, but returned to his base in England two days later, after crash landing in France.

Prior to his enlistment in the Army Air Forces in April, 1941, Schumacher was engaged in farming. He had been based in England since leaving the states in July, 1944.

Benjamin Boy Is Pilot In Italy

15th AAF in Italy.—Second Lt. Joseph W. Barton, 22, son of Mr. Zell Barton, Benjamin, Texas, a fighter plane pilot, has been assigned to a veteran 15th AAF P-51 Mustang fighter group in Italy.

He will fly combat against the enemy with a group which has participated in every major aerial operation of the Mediterranean theatre since April 1943, and which has the outstanding record of having destroyed 488 enemy planes in aerial combat on 450 missions. This group has been awarded two Distinguished Unit Citations for outstanding achievement in aerial combat, and was the first fighter group to fly the historic Italy-Russia shuttle mission in June 1944.

The principal type of aerial operation upon which Lt. Barton will fly will be high altitude heavy bomber escort in aerial assaults upon strategic railroad yards, oil refineries, landing grounds, and aircraft production plants in Germany and German controlled territory.

Entering the Army Air Forces in November 1942, he was awarded his pilot's wings on May 23, 1944 at Eagle Pass, Texas, and left the States for foreign service in December 1944.

Will You Help In The Clothing Collection?

The United Clothing Collection, a drive to secure used clothing for the millions of war-sufferers aboard, is now under way in Knox County.

Besides wanting all the used clothing and shoes that you can spare, Mrs. D. C. Eiland, local chairman, is asking volunteer workers to collect, sort, and pack the clothing for shipment.

If you can help at any time, please fill out the form below and mail to Box 151, Munday, Texas:

Name _____

Address _____ Phone _____

I can spare some time on the following date:

Date _____ Hours _____

My car (truck) will be available on the following date:

Date _____ Hours _____

The local chairman received a wire this week to the effect that the O. P. A. has issued a proclamation that extra gas will be available for cars used in the clothing collection.

Little Interest Is Shown Tuesday In City Election

Little interest was shown in the city election here last Tuesday, with only 40 votes being cast locally.

The three present aldermen were re-elected. They are Travis Lee, who is serving in the army overseas; P. V. Williams and H. C. Haves. Only one other name, that of J. L. Stodghill, appeared on the ballot.

Baker Knox City Mayor
More interest was shown in the election at Knox City, where Roy A. Baker defeated Mayor C. C. Hoge by a slight margin. Hoge had held the office for the past ten years.

O. W. Causey was re-elected city commissioner. He was opposed by Virgil Stephens, asking re-election as city marshal, defeated J. C. Ames. Approximately 240 votes were cast.

Voting was also light at Goree, where three aldermen and the City Marshal W. A. Moore were re-elected without opposition.

The aldermen are Tom Webber, H. D. Arnold and W. H. H. Griffin.

Weather Report

Weather report for the period of March 29th to April 4th, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative weather Observer:

	Temperature	
	LOW	HIGH
March 29	49	71
March 30	55	66
March 31	40	62
April 1	49	76
April 2	49	75
April 3	42	64
April 4	28	54

Rainfall to date this year 4.79 inches; rainfall to this date last year 5.73 inches; rainfall since Nov. 1, 1944, 8.86 inches.

Governor!

Senator "Cotton George" Moffett, whose home is in Chillicothe, became acting governor of Texas at 10:30 p. m. Wednesday when Gov. Coke Stevenson crossed the international line at Laredo.

Moffett, president pro tempore of the senate, automatically assumed the governorship, since Lt. Gov. John Lee Smith is also absent from the state. Smith is in Mexico in connection with inauguration of an airline.

Mrs. Pendleton Thanks Workers In Red Cross Drive

I want to thank every one who in any way contributed to the Red Cross War Fund. The giving of your time and money has made it possible for Munday to far exceed her quota—a thing I am sure every citizen has a right to feel justly proud of.

To my committee I am especially grateful for their wonderful cooperation.

Munday sent to our county treasurer a check for \$2,698.44.

I count it a great privilege to have served as your chairman in this great work.

Mrs. H. A. Pendleton.

Keep Up With Rationing

REMINDERS

MEATS, FATS—Red stamps Q5, R5, S5, expire March 31; Red stamps T5, U5, V5, W5, and X5, expire April 23; Red Stamps Y5, Z5, and A2, B2, C2, D22, expire June 2; Red stamps E2, F2, G2, H2, J2, expire June 30. New stamps will be validated April 1.

PROCESSED FOODS—Blue stamps X5, Y5, Z5, and A2 and B2, expire March 31; Blue stamps C2, D2, E2, F2, and G2, expire April 23; Blue stamps H2, J2, K2, L2, M2, expire June 2; Blue stamps N2, P2, Q2, R2, S2, expire June 30. New stamps will be validated April 1.

GASOLINE—A-15 coupons good for four gallons.

SUGAR STAMPS—Stamp 35. No new stamp will be validated until May 1.

FUEL OIL—Period 1, 2, 3, 4, 5 coupons, good for ten gallons per unit, continue valid throughout the country for the rest of the heating year.

SHOES—Airplane stamps 1, 2, and 3 in book three, good indefinitely.

Italian children, huddling in a cave with other war refugees, smile because they're safe for the moment. Glad in make-shift garments, they speak for millions overseas who are in dire need of clothing. Your serviceable shoes, garments and bedding will help these war-stricken people. Round up your bundles for the United National Clothing Collection.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him— What He Does For His Community Lives On and On."

REAL DIVIDENDS

"Fire losses have been serious and more severe than they should have been, but no major war effort in this country has been stopped or critically hampered by fire," said W. E. Mallieu, general manager of the National Board of Fire Underwriters, at a War Department conference on repairs and utilities.

The record of fire prevention in the United States in this war is far better than in World War I. The cost of damage by fire during the five years of World War I totaled more than \$1,293,000,000, while fire damage costs for World War II, 1939-1943, inclusive, totaled \$1,555,000,000, an increase of 220 per cent.

However, during World War I the maximum value of property exposed to possible destruction by fire was less than half the greatest value exposed in World War II. In other words, if fire losses for the five-year period of the second World War had been running at the same rate as in the first World War, our destruction would have been over three billion dollars. Therefore, fire prevention has paid big dividends.

Fire protection engineers from the National Board of Fire Underwriters and other boards and bureaus throughout the fire and property insurance business, donated their organized cooperation. This, together with public cooperation, has aided immeasurably in our war effort.

SMALL INDUSTRY BENEFITS

That big industry recognizes the distribution problems of small industry, is evidenced by the announcement of Safeway Stores that it has adopted a new buying policy under which its shelves will be opened to grocery items with merit offered by small suppliers, whether backed by national advertising or enjoying a widespread consumer demand, or not. In the past, food stores, as well as other merchandise outlets, have largely sold nationally advertised brands and items which have an established demand, and a more rapid turnover than unknown brands, however meritorious the latter brands might be.

Safeway's new policy involves a courageous step which will probably be followed by many retail organizations. Under present conditions, numerous nationally advertised items are impossible to get. Therefore, a policy which encourages new sources of supply seems both practical and constructive, from the standpoint not only of the store, but of the consumer who is more hardput every day to fill his needs.

TAX EXEMPTION RACKET HITS HOME

There is a real humor in the statement that Uncle Sam's tax collectors are enjoying the tax-exempt income of "cooperatives" in the United States.

Cooperatives, like labor unions, came into existence to meet a very real need. They provided a central organization that could bargain for members in an endeavor to stabilize or find markets for products and labor. They were certain tax exemptions because they were not originally commercial enterprises.

But co-ops now engage in practically all lines of business. They operate funeral parlors, build tanks for the army, produce and market gasoline, make and sell farm machinery, process dairy products, lend money, sell fire insurance, run grocery stores, etc., etc.

Their profits, earned in competition with highly-taxed business, are largely beyond the reach of Federal income tax laws. They are now big business with an annual turnover running into hundreds of millions of dollars. Taxpayers are asking the Bureau of Internal Revenue how they can reorganize on a co-op basis and escape income and excess profits taxes.

And here is the joke: The government itself is the biggest offender in the tax exemption racket with its multi-billion-dollar government owned electric monopoly. If this purely commercial activity, which is in no way connected with the function of government, was taxed, the United States Treasury would be in a better position to ask taxation of all tax-exempt business associations and organizations.

A county school teacher had forbidden the eating of candy and the chewing of gum during school hours. One day she became suspicious of a lump in Johnny's cheek. "Johnny," she demanded, "Are you eating candy or chewing gum?" "No, ma'am," replied the pupil, "I'm just soaking a prune to eat at recess." —Wichita Eagle.

STILL THE BEST SYSTEM

If the American oil industry had ever faltered in its production, what would have happened to our war effort? In plain English, we would have been sunk.

The total crude oil production in the United States for 1944 was 1,678,000,000 barrels. That figure set a new record, but still was not enough to meet the demands of the military forces of the United Nations and support our own essential economy. Fortunately, the oil companies were prepared with millions of barrels of oil above ground upon which we could draw.

Such a record is one reason why the American people should have confidence in free private enterprise which outstripped the production of all the government-owned or controlled oil properties throughout the world, all of which can well remind us of what Federal Judge Learned Hand of New York once observed, "Liberty lies in the hearts of men; when it dies, there is nothing can save it." And this quotation was echoed by a young American soldier who, after fighting across weary miles of war-torn Europe, wrote his home folks he had come to the conclusion that freedom is not a right, but a privilege for which almost any struggle and sacrifice is worth while.

EXONERATED

The Office of Price Administration has dismissed suits against eight large chain store companies which last year had been charged with price violations covering sales of women's and children's under-wear. This is the termination of suits brought under Maximum Price Regulation 330 which caused such confusion and injustice by preventing low-cost stores from selling articles at a price based on current cost, while allowing new stores or stores that had not previously established highest price, to sell goods at current costs.

The reason for such a ruling was never satisfactorily explained. The expense it caused merchants was incalculable, and the inconvenience it caused to the consuming public can never be estimated. It can be considered one of the penalties of war and the seemingly inescapable regimentation which war entails. It should be a lesson, however, to encourage free markets at the earliest possible moment after the emergency is over, with a minimum of restrictions.

THEIR VOTE WILL TELL

"If there is a strange spectacle anywhere in the world today," says the New York Times, "it is the spectacle of the government of the United States solemnly preparing to poll the coal miners, under its official auspices, on the question of whether they want to cripple the American Army and the American Navy with a wartime strike."

Here is a chance for the members of one great union to vote No, leave their demands to orderly adjustment, and show they think more of their country's welfare than immediate personal gains. Is this too much to expect of American workmen in a war crisis?

WE HAVE OUR CHOICE

"If Russia keeps going to the right, she will wind up as the greatest democracy in the world, and if the United States keeps going to the left, we will wind up where the Russians were twenty years ago." —Edward V. Rickenbacker, aviation executive.

The oldest cross-word puzzle was made by a Cretan about 2,000 years ago. A copy now lies in the archaeological museum at John Hopkins Hospital, Baltimore. It is called the Phaestus disk, and was found on the Island of Crete by an expedition many years ago.

BAD NEWS FOR JERRY

The rockets, one of the most effective weapons of the war, have provided Allied aircraft with firepower equivalent to heavy field guns.

Some secrets of the rockets, with which the Royal Canadian Air Force's Buffalo Squadron of Beaufighters in Coastal Command and the famous RAF Typhoons are equipped have been disclosed officially.

The rocket-firing Typhoons have been described as the greatest of all army cooperation weapons and they have been used with devastating result against German tanks, road and rail transport, and even to aid in the reduction of fortresses and fortified cities, such as Aachen.

Rocket-firing Beaufighters present one of the most formidable of all weapons against enemy shipping.

An official statement says the rocket is equivalent to a six-inch gun shell. Another rocket has a head with excellent penetrative power against steel plate. The success of rocket-firing aircraft must have gratified the group of men who went to Jamaica in 1939 to carry out experiments with anti-aircraft rockets for, even at this early stage, they had visualized the possibility of firing rockets from aircraft. When they had perfected the anti-aircraft rocket they made the alterations which turned into the aircraft rocket.

Essentially these two rockets, which seem to be so different, are the same. Their common parent is the "three-inch motor rocket," the part that drives the explosive head to its target—either upwards or downwards.

When the motor rocket was first completed it was intended for one purpose only. Now by skillful adaptation it has become capable of several functions. Its use as an anti-aircraft weapon is well-known; it is used with a concrete head for practice purposes, it is used by Typhoons for attacking enemy armor and transports while Beaufighters destroy enemy shipping.

To the tail of the rocket hangs a tale: It is the story of the efforts made by scientists and workers in ordnance factories to perfect the new cordite that supplies power to

Rocket firing Beaufighters of the R.C.A.F. Buffalo Squadron have been wreaking havoc upon German shipping. In lower photo an armorer is shown loading the rocket racks of one of the squadron's planes.

Because of the extreme urgency of the demand for these new weapons production was begun in advance of clear designs, and the factory staffs engaged in the manufacture of cordite willingly consented to undertake new operations, which may have involved abnormal hazards, without the usual thorough trials.

Texas Legislative Sidelights

By Senator "Cotton" George Moffett

Austin, Texas, March 31, 1945.—Many members are going to vote for an early adjournment of this session because of the unbelievably high cost of living here in Austin. However, unusual conditions caused by the war have placed a load of problems in our laps that no other session ever had to deal with.

More bills of consequence have been introduced than at any regular session for fifteen years. A number of them apply to men and women in the armed services, such as bills concerning soldier voting, giving free tuition in state schools and colleges to those who have been killed in action, and providing that those discharged can buy and sell property, even though they be under the age of 21 years. All of these have not yet passed, but I think they will.

The State Legislature does not deal with allotments and allowances, with furloughs, or with discharges, as that is a matter handled by the national government. However, the people of the various states have shown that they are concerned about the matter of post-war jobs. In the past, free public land has been given as a reward for military service, but it is no longer available. Therefore, a veterans job preference bill has been introduced at this session, sponsored by the American Legion. It provides that at least forty percent of state jobs in the future must be filled by honorably discharged war veterans, and provides that the girls who entered the service shall be eligible just the same as the men. This bill has a special provision that a considerable number of these jobs must be reserved for those who are among the last to be discharged. The expectation is that

at the end of the demobilization period, jobs will begin to get scarce, hence a certain number of them should be tagged for those who are the last to take off their uniforms.

I would appreciate suggestions from you as to how this bill could be improved or how other suitable benefits could be provided for veterans.

It is certain that some of the seventy-five constitutional amendments introduced at this session will be submitted to the people at an election in August. Perhaps as many as eight or ten of them will be on the ballot. I will analyze them at a later date.

OIL IS NOT ALL THE FLEET OILERS BRING

Dallas.—The sturdy, unglamorous fleet oilers which churn through Pacific waters with the supply fleet do a surprising number of vital jobs in addition to that most vital one of all—providing fuel at sea for the Navy's mobile combat forces.

Besides thousands of barrels of black oil, aviation gasoline, and Diesel oil these unsung oilers carry food, blood plasma, surgical supplies, ammunition and mail.

And, in addition to all this, they carry extra men. The skipper of a fleet oiler knows that when he pulls next to a fighting ship that has spent many weary weeks in the Pacific; the first demand from officers and men will be for mail—letters, packages, magazines and hometown newspapers.

Navy postal officers have learned that an oilers frequent trips to port, and frequent contact with combat ships, make it an ideal medium for speedy delivery of mail to other ships that may not drop anchor for many weeks.

Just as the battle-spent combat ships need new fuel to keep going at

full tilt, so the complement of men may need new strength or replacements. So, the fleet oilers serve as a floating man-power pool.

In this role, she carries 40 or 50 men above her complement to replace battle-weary men who have earned leave or change of duty under the Navy's rotation plan. The oiler it also ready to provide medical care, and even emergency surgery, for battle casualties. Men who have been injured and need to be removed from the fighting zone can be taken aboard the oiler, and their places at battle stations can be filled immediately from the oiler's replacement pool.

In these many ways, the fleet oiler serves as a sort of a hypodermic for the combat fleet. Fuel for the engines, men for the crew, food and mail for the men—these all add up to the injection of new life into the fighting ships that are carrying the war to Tokyo.

Mrs. Agnes Mayes and son, Jackie, of Amarillo spent the week end here with Mrs. Mayes' mother, Mrs. W. M. Mayo, and with other relatives and friends.

NOTICE OF CONSOLIDATION OF MUNDAY AND SEYMOUR FARM LOAN ASSOCIATIONS

A meeting of the boards of directors of the Munday, and Seymour National Farm Loan Associations, to meet in joint session was called at Seymour February 16th. The meeting was duly held, and all members of both boards were present, and voted unanimously to proceed with the consolidation of the two associations. A stockholders meeting of each association was called for March 8th, as follows: The Seymour association stockholders were called to meet at 10:00 a. m. in Seymour and the Munday stockholders to meet in Munday at 3:00 p. m. of that date. At each of these meetings the stockholders ratified the action taken by their boards of directors. The following were elected as officers and directors of the new association, which is chartered under the name of Baylor-Knox National Farm Loan Association, for Baylor and Knox counties. This consolidation becomes effective at the close of business March 31, 1945.

TO CITIZENS LIVING IN PRECINCT NO. 1:

For several years, the folks living along the County Roads, in Precinct One, have been plowing on and across such roads, and it is strictly against the law for such things to be done. In view of the shortage of laborers, and machinery for keeping the public roads passable, hereafter all such actions will be handled as the law provides by criminal prosecution.

RAY WILLIS,
Commissioner, Precinct No. 1.
By Order of the Commissioner's Court. 39-2tc

WOMEN AND HOSPITAL EXCHANGE GIFTS

Various "wants" of wounded and sick soldiers at McCleskey Hospital, Temple, are being met by rural women of Bell County under the direction of the hospital committee of the Bell County Home Demonstration Council. In February they supplied 50 small light-colored vases, in February a script to a state-wide newspaper for circulation among the men, and in March a portable sewing cabinet. The women benefit, too. They get discarded fruit jars from the hospital.

Mrs. Margaret Bird and daughter, Janice, of Lampasas visited relatives and friends here over the week end.

In This Free Country, You Are The Boss of Your Dollars!

The dollars you earn are yours. You are the boss. It is up to you whether you spend them wisely . . . waste them foolishly . . . save a reasonable number of them.

But remember one thing. The way you handle the dollars you now earn means a lot to your country and your family—both now and in the future.

You can save those extra dollars by investing in War Bonds.

Senior News

The Seniors enjoyed a party last Thursday night given by Wendell Partridge. There were quite a few seniors absent from the party, but those that were there had a swell time. This party was given in farewell to Glenn Myers and Lendon Walling who are going to the Navy soon. We seniors wish them the best of luck.

The Senior baseball club went to O'Brien Monday. We met a decisive defeat at the hands of Rule with a score of 7-0. We then retaliated with a victory over O'Brien with a score of 8-0.

Junior News

We had a very successful time at Haskell last Wednesday at the district track meet. We won first place and brought home a big stack of blue ribbons. The volleyball girls won third in volleyball. Our track team will participate at Abilene April 14, and we are hoping for the best of luck.

We were very glad to have Peggy and Betty Hunter of Denton visiting us this week. We are always glad to welcome some of our former classmates.

Everyone was very proud to receive a letter from our former classmate, Doyle Dean Johnson, who is serving in the Navy somewhere in the South Pacific. We were very happy to know that what little effort we put forth in writing up our school news is appreciated.

AT FIRST SIGN OF A
COLD
 USE 666
 Cold Preparations as directed

by the boys serving our Uncle Sam, fighting for our peace and freedom. We can assure all of the boys in service if what little we write in the news helps to cheer them up in any way we will be only too glad to keep it up.

The letter received is as follows:
 Somewhere in South Pacific,
 March 25, 1945.

Dear J. B.:
 I thought that I would take the liberty to write to you. I received the Munday Times yesterday and read the Sunset news. I want to take the privilege of commending you on the piece that the Juniors had in the school news. Please don't think me rude for writing you, but you see that piece sure hit the soft part of a guy's heart. I am in the Navy as you know and am somewhere in the South Pacific exactly where I cannot say.

I am writing this letter to the whole Junior class as you know if I were still going to school that would be the class I would be in. In all my school days I never went to a finer school than Sunset, J. B. Never let anyone tell you that it isn't rough over here because it is. Some times I get so homesick for everything back home that I can hardly stand it.

You sure have the right look on the future. Your speech is the thought of every fellow out here. We are all living for the future like you were speaking of and there are lots of us who are dying for it but with boys and girls like the Juniors in Sunset behind us we can't miss, so keep up the good work.

Former Classmate,
 Doyle D. Johnson.

Sophomore News
 The Home Economics II girls served an Easter Dinner to several of the boys Friday afternoon. All

Army Nurse and Doctor Scrub for Field Operation

At a field surgical hospital a doctor and nurse prepare for another U. S. Army Medical Corps conquest over pain and death. The Army doctor-nurse combination is a team that is winning thousands of victories daily behind the battle lines. There is an urgent need in the Army now for more doctors and nurses.

Army Doctors and Nurses Match Valor Of Fighting Men

The valor exhibited by our soldiers on the world's far flung battlefronts is being matched daily by the heroic accomplishments of highly skilled and trained U. S. Army Medical Corps personnel. Each day behind the battle lines Army doctors and nurses win many victories over death and pain.

The Army physician-nurse team does much "above and beyond the line of duty." Their task is hard, their hours long, and working conditions often difficult and hazardous. Major surgical operations that in peace time were performed within the quiet, white-walled confines of a civilian hospital are now often accomplished in olive drab tents. Often above the quiet voices of surgeons and nurses busy at work in the field hospital can be heard the booming of artillery fire and the overhead roar of combat planes. Where, once in the days of peace, the surgeon and his nurse performed a limited number of operations during the course of a day, there is now a constant flow from the fronts of operative cases streaming into the field surgical unit. The element of time is a primary factor and work continues night and day.

Through hard toil, highly specialized skill and expert modern Army medical methods, the nurse-doctor team has established an amazing record in this war. Of all battle casualties treated ninety-seven and one-half per cent have been saved. Today the Army is in vital need of more doctors and nurses. Registered nurses may apply for commission in the Army Nurse Corps through their nearest Red Cross Procurement Office, or by writing to the Surgeon General, U. S. Army, Washington 25, D. C. Physicians who wish to apply for commission in the Army Medical Corps should also make inquiry of the Surgeon General.

visiting him.
 Mildred visited Mr. and Mrs. Gene Michels and Mr. and Mrs. Edd Jungman at Knox City, Sunday.

Lornee visited her grandparents Mr. and Mrs. J. W. Malone of Knox City, Sunday.

Weldon's relatives from Crosbyton visited him Sunday.

Dennie's aunt, Mrs. Clyde Russell of Carlsbad, New Mexico visited him during the week end.

The Eight Grade enjoyed the ball games with O'Brien and Old Glory Monday afternoon.

Seventh Grade News
 We have selected our new class song and have practiced it some.

We are glad to have Mrs. Hunter, from Denton, visit us today.

Tommy Yost and Patricia Johnson were elected flag monitors for this week.

Patricia spent the week end visiting her grandparents in Oklahoma.

Betty Matthew's sister, Neilsa, from Fort Worth spent the Easter

holidays at home.
 We are sorry that Ethel is absent today.

We all enjoyed the Easter egg hunt at Leo Hill's home Sunday.
 Fifth and Sixth Grade News
 My!! what an Easter picnic we had. Although it was raining the Easter bunny found some dry nests and we found the eggs. We spread our lunch in the old lunch room and then played games and enjoyed the day as much as we had planned.

We are glad to have Mrs. Hunter, who was our room teacher the first semester, and who is now a hostess in a dormitory at Teacher's College in Denton, to visit us today.

Doris June's aunt Frances Walling is spending the Easter holidays at home.

D. B. Jones's uncle and aunt, Mr. and Mrs. Thomas from Amhurst are visiting in the Jones home.

Robert Cerke went egg hunting on the Brazos River.

Gerald Rays uncle, Mr. Wilson Harbor and family from Dallas, visited in the neighborhood this week end.

Gloria Gene Michels went to an egg hunt at Gladys Nell Simmons.

Roy Dykes spent Sunday at Rhineland. He hunted eggs at Mrs. Holders. In fact nearly everyone of us hunted eggs somewhere yesterday.

Third and Fourth Grade News...
 Sue went to Abilene over the week end. She was Easter shopping.

Charles Parker's grandfather went fishing and brought back lots of catfish.

Mildred's grandparents, Mr. and Mrs. Green, from Brock visited in her home Sunday. Also her brother from Odessa came for a visit.

Charles Everitt's mother has been sick. We hope she will soon be well.

Jack went fishing with his family Sunday. They killed two rattlesnakes.

Miss Pauline McAfee, Shirley's sister came home Saturday.

Jimmy's cousins, Gerald, Marjorie, Gommil and Deanna visited him Sunday.

Harold spent the Easter holidays in Knox City.

Louise visited her grandparents Sunday.

Eline and her cousin Ivona spent Easter at her grandfather's, Mr. Nix.

Barbara went to Vernon Sunday with her parents.

Emorene's cousin, Mrs. Doris June Wood is here visiting.

First and Second Grade News
 Ruth's brother, Billy Bob came in Saturday night to stay until Tuesday. Her sister, Jane came in Thursday night for the Spring holidays.

Delore's grandfather went fishing in Postum Kingdom and brought back an eighteen pound fish along with some smaller ones.

Jerry's uncle, Utah left for the Army the past week.

Loretta spent Friday night in Goree with her grandparents. Her aunt Bessie is home from California where she has been with her husband who recently was sent overseas for duty.

Benny V. hunted Easter eggs at her grandmother's on Sunday.

Betty Joan spent Sunday with her cousin, Virgil Samples.

Nell spent Easter Sunday in Oklahoma with her grandparents.

Carlene has some baby rabbits her home.

Joyce Clark has some baby puppies at her house.

Sue had an Easter Egg hunt at her house Sunday. A number of cousins participated in the hunt. Sue found the most eggs and Joyce found the prize egg.

Jennette went to her grandmother's at O'Brien to an egg hunt and found the prize egg.

We had two new pupils yesterday, Pete and Lucella Silber and Fidel Flores entered today.

Mrs. H. A. Pendleton returned home last week from Jacksonville, Fla., where she visited with her son, H. A. Pendleton Jr., and his family for several days.

Miss Maxie Dingus of Fort Worth spent the week end with her parents, Mr. and Mrs. G. W. Dingus.

I ALWAYS USE IT

Pacific Island Jungles Furnish Needed Lumber

DALLAS. — The lumberman of Construction Battalion Maintenance Unit 609, 610, 611, and 612, the Seabee Maintenance Units which operates the logging camp and lumber mill at this Pacific Naval Base in the Admiralty Islands, are experienced loggers learning a new trade of culling timber out of tropical jungle after culling shrapnel out of the timber and live bombs out of the surrounding brush.

"We always seem to hit shrapnel in the logs," said Arthur G. Batts, Machinist's Mate, First Class, USN R, of 2602 4th Avenue, Seattle, Washington, "just as we're getting in that last lick—and always when we got a new saw in."

Not only is much of the timber in the area studded with Japs and American shrapnel from sharp skirmishes which were fought in the surrounding jungle only months before, but also loggers swinging axes, catskinners snaking logs and bulldozer operators leading in roads must keep one eye peeled for falling timber and the other for stray unexploded bombs which still are found in the area.

"We picked up a thousand pounder the other day," recalled Million F. Malvik, Shipfitter, First Class, USNR, of Chester, California. "Our men had been felling and bulking timber all around it for days."

Lennis E. Smith, Carpenters Mate, Second Class, USNR, bulldozer operator, of Willamina, Oregon added, "I sure was glad to be able to see my dozer tracks that day. When they picked up the bomb, my trackmarks straddled both sides of her."

When the men aren't chopping steel out of trees, replacing teeth in shrapnel-torn circular saws or disposing of live bombs, they log and cut lumbe to the total of 15,000 board feet a day with occasional record days of sixteen thousand.

The officers and men of these maintenance units can't identify the various types of tropical lumber in this area, but they can point to the mountainous piles of two-by-fours, one-by-twelves, one-by-tens and boards and planks of any required size used for the myriad tasks in construction and maintenance on this base and substituted for the shiploads of stateside lumber which would otherwise be necessary. "We don't know what it is," said Thomas G. Cassidy, Shipfitter, Second Class, USNR, of 7702 8th Avenue Southwest, Seattle, Washington and a former Grays Harbor lumberman at home, "but it looks like wood, builds like wood and we sure do have a lot of customers."

Betta and Cassidy are both Seattle woodsmen while Malvik, a Californian and the logging "boss" to this tropical sawmill, spent 20 years felling and cutting timber up and down the Northwest Coast. Smith the bulldozer bomb-etraddler, is also a Northwesterner from Oregon and much of his life has been spent in construction work near forest country.

"It's a mite hotter here than on the coast," commented Malvik, "but shrapnel and bombs keep us from taking siestas."

Mrs. Elmo D. Anderson, who is attending school in Denton, spent the Easter holidays here with her parents, Mr. and Mrs. J. R. Burnison.

Mrs. D. E. Holder left last Tuesday for Lorenzo for several days' visit with his sister, Mrs. J. E. Richardson.

Sew a Spring Suit

THIS smooth rayon-and-wool costume suit is slick as a whistle—tailored to a T—and can be made at home. It features semi-dolman sleeves and an interesting yoke. Be sure the fabric you select for a garment like this is worthy of the workmanship, time, and money you put into it. There's no guesswork about the wearing and cleaning qualities of rayon fabrics that have labels giving the results of scientific tests.

New Officers Of Auxiliary Elected Monday

Members of the Ladies Auxiliary of the Presbyterian church held their regular meeting last Monday afternoon at the church. Since this was the beginning of the auxiliary year, new officers were elected. They are as follows:

Mrs. Joe McGraw, president; Mrs. Dixie Williams, vice president; Mrs. W. E. Braly, secretary-treasurer, and Mrs. McCready, assistant secretary.

The auxiliary sponsored an Easter party last Saturday for children of the Sunday school. This was held in the Sunday school rooms of the church, and the children reported a very enjoyable time.

Arthur Smith, Jr., who is stationed at Sheppard Field, came in last week to spend a 19-day furlough here with his wife; his parents, Dr. and Mrs. A. A. Smith, and with friends.

ATKEISON'S

Gillespie Sunday School Class Has Easter Party

The junior Sunday school class of the Gillespie Baptist church had an Easter party in the home of their teacher, Mrs. D. L. Hill, last Sunday afternoon.

Outdoor games were played and enjoyed by all. Refreshments of cake and punch were served to the following:

Loyce Reddel, Royce Reddel, Doris Walling, Joan Tackett, Dennis Walling, Dickie Walker, Marie Tackett, Tommie Walling, Larry Walling, Ellen Colvin, Allene Cude, Leo Hill, Helen Colvin and Donald Hill.

CARD OF THANKS

We take this means of expressing our sincere thanks to everyone who were so kind and thoughtful to us during the illness of Mrs. Spelee; also for the beautiful flowers sent to her at the hospital. Your loving deeds and thoughtfulness will always be remembered.

Mr. and Mrs. Will Spelee and Children, Carl and Tommy.

A Want Ad In The Times Pays

Benjamin's Club Boys Make Report On Recent Work

The last Benjamin 4-H Club meeting was held at 2:00 P. M. in the Benjamin School House. The boys studied rainfall charts of Knox County and how and when to plant various types of grain. Our County Agent, R. O. Dunkle, distributed some chinch bug resistant milo maize to the boys who wanted it. Olen Ray, Philip Escobar and J. G. Pults were the boys who bought some grain.

The boys who feed 4-H Baby Beeves this year are: Stanley Glover, whose calf sold for \$396.00 and got a premium of \$87.43; Buddy Crenshaw whose calf sold for \$325.50 and got a premium of \$72.43; Carrol Fred Glover whose calf sold for \$245.50 and got a premium of \$26.80; and Anson Ray whose calf sold for \$288.00 and got a premium \$24.30; J. G. Pults whose calf sold for \$304.00 and got a premium of \$24.30; John Charles McFerrin, whose calf sold for \$259.20 and got a premium of \$26.80; Olen Ray whose calf sold for \$275.40 and got a premium of \$18.71. This made a total selling price for the calves of \$2,093.50 and a total premiums of \$280.77.

Carrol Fred Glover fed a calf which went to the Fort Worth Fat Stock Show, and sold for \$490.50. There were two calves sold in Knox County by John Charles McFerrin and Fred Lewis Crenshaw for \$110.20 and \$149.40.

Brave little Hearts that will Never Forget!

Hard and cruel have been the lives of young ones in war-torn countries. Children like these—30 million of them—are hungry, homeless, nearly naked. Deaths from exposure are often as many as deaths from starvation. Tuberculosis and typhus run rampant among them.

Never will their brave hearts forget the horrors of war. Never will their grateful hearts forget your gift of the clothing they so sorely need—clothing which now hangs unused in your closet—or reposes forgotten in your attic.

And remember, these pitiful children of today will be our proud partners of tomorrow in keeping the permanent peace we are all fighting for! Isn't their everlasting friendship worth your spare clothing?

America must help clothe about 125 million men, women, and children in Europe alone. This month, America must collect 150 million pounds of serviceable used clothing to take care of part of their needs.

Some of that clothing *must* be yours—as much as you can spare.

Will you do your share today?

Mental Hazard

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

THROWING a golf ball over a pond is a type of skill altogether different from lifting it across a large patch of green grass. I know golf but men who play well have made me understand the difference. They call it a mental hazard, and life is full of them. A mental hazard seems to be something that offers a threat but presents no actual hindrance.

I have heard several intelligent people recently talk as if post-war planning might be something outside of their world; a job for some mysterious committee of mental giants or supernatural beings. Actually, only a small part of post-war planning needs to be central planning. It is a job for us all and the sooner we start it the more promptly prosperity will follow peace.

FACE THE OBSERVATION Figures makes me believe that the magnitude of many world problems, currently discussed in print and on the air, creates a mental hazard. Utter business causes people to turn their thoughts away from facts that concern them vitally. Post-war planning is a case in point. It is something that needs the serious attention of millions of thinking Americans.

Species of unemployment shaped in the smoke of war are scary enough to frighten even the wizard statisticians who know how to tame wild figures. That streetcorner estimate, "20 mil-

Miss Lela Jones, who is attending school in Denton, visited with her mother, Mrs. Rose Jones, during the Easter holidays.

lion without jobs," is probably 25% high. America has 40 million people working now at jobs they can keep after the war. After the war, however, 55 million will have to work if the nation prospers.

One Man DIFFERENCE is 15 in Four million. This many will come from our armed forces and from war-baby industries; too many to be idle. Fewer job-hunters than that made 1932 a bad year. But (not counting the jobs that will die with the war) our industries are using 40 million people now and should use 55 million in peace time. Call it a gain of one man in four.

Conquerors, men from uniform and men from munition plants, will return to peace-time pursuits and we must have work for them. Anybody can plan on a one-man scale. The first step is for each of us, in his own shop or office, to figure out about three things that might happen to his business when peace comes. Then arrange these "could-be" changes, 1-2-3, the most likely one first.

Step No. 2: Plan what's best to do in each of the three cases. Try to make plans justify four workers where three work now. Nobody can plan for you. Nobody knows your business like you do. When war ends, have access to your own deliberate thinking, and be ready to welcome peace. It is an idea for small business, but small firms normally employ 85% of America's workers.

Quality Sought In Frozen Foods

Amounts of food frozen by Texas homemakers has multiplied several times in the past decade, and it's important that the progress in quality keep step with the enormous increase in quantity, says Mrs. Winifred J. Leverenz, specialist in food preservation for the A. and M. College Extension Service.

Using high quality fresh food is the first step, she says, but wrapping, preparation methods, quick freezing, and storage temperatures, all are factors in obtaining A-1 products. All foods to be frozen should be stored in moisture- and vapor-proof paper or packages, and experts consider a cellulose film best for this purpose.

For meats and poultry, Mrs. Leverenz says two wraps are recommended, with string or gum tape used to hold the wrap secure. The "drugstore" wrap for meats is considered better than the "butcher" wrap because it takes less paper and is more nearly air tight.

Vegetables must have a heat treatment before packaging and freezing in order to stop enzymatic or chemical changes which impair color, flavor, texture, and food value. Fruits do not have to be treated, but should be packed in sugar syrup or dry sugar for freezing.

Temperatures in home freezers or freezer lockers should be kept at zero degrees Fahrenheit or below and should not vary more than 3 degrees for best quality, Mrs. Leverenz says, quoting a report on food preservation issued by the Texas State Nutrition Committee. Food kept at low temperature will keep longer and retain its maximum quality.

Homemakers unfamiliar with recommended techniques can obtain bulletins on freezing of food from their county home demonstration agent.

had, have been traced to mild cases—that is, to cases too light for the doctor to be called. In some instances the children have continued to go to school and to associate and play with other children. In others, after they have been kept at home for a few days, they return to school and have scattered these germs around among their classmates. Eventually a group of cases—sometimes very serious ones—develop from the carelessly handled mild case. The result was another epidemic that could have been prevented.

The State Health Officer said that the family doctor is the best judge of the seriousness of such childhood diseases, and suffering and anxiety will be avoided if the child is put to bed, and a doctor's advice sought and followed.

A Duke ranks higher than an Earl in British peacage.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin, Texas—With the incidence of chickenpox and mumps more than 50 per cent higher than records indicate for a seven year median, Dr. Geo. W. Cox, state health officer, issued a statement today declaring, "It is a great mistake to treat even light cases of measles, chickenpox, mumps, scarlet fever, or any other of the communicable diseases of childhood so though they did not amount to much. That sort of treatment makes it possible for these diseases to spread and cause serious outbreaks among children and their resulting impaired resistance makes them easy victims to other forms of infection."

"Some of the most serious outbreaks of chickenpox which we have

AMERICAN HEROES

by JULIAN OLLENDORFF

WHEN Nazi planes strafed the SS Samuel Parker, setting fire to its cargo of high explosives and aviation gasoline, during unloading operations at a Sicily beachhead, Fred A. Anderson, able seaman, dropped into the hold and extinguished the blaze in the ammunition. Then he went into another hold and put out fires in the gasoline. He was awarded the Merchant Marine Distinguished Service Medal. War Bonds helped supply the gas, munitions and fire extinguishers.

U. S. Treasury Department

E. H. Bauman of Dallas visited with friends here over the week end.

A. E. Hollar, one day last week.

Misses Charlene and Emogene Nelson of Dallas spent the Easter holidays with their parents, Mr. and Mrs. E. H. Nelson.

Mr. and Mrs. G. B. Hammett were business visitors in Abilene on Thursday.

Mrs. Troy Warren of Haskell spent the week end with her parents, Mr. and Mrs. U. S. Rogers.

Miss Cathryn Mitchell of Frost, Mrs. J. D. Ramsey of Mart and Mrs. Walter Hayes of Corsicana were visitors in the home of Mr. and Mrs. Ray Holcomb over the week end.

Sgt. and Mrs. Frank Nance and Miss Evelyn McGraw were visitors in Robstown over the week end. Mrs. Nance and Miss McGraw returned home Sunday while Sgt. Nance reports to North Carolina preparatory to sailing for overseas service.

Research chemists say the post-war floor mop will be a compact wedge of sponge attached to a handle. A special device will squeeze out the water.

Rev. and Mrs. Don R. Davidson were visitors in White Deer, Texas, last Friday.

Paprika and chile are exceptions to the rule that spices furnish flavor but no food value. Paprika rates high in Vitamin A and chile contributes Vitamins A and C.

Miss Pauline Gage of Dumont, Texas, visited with Mr. and Mrs. .

WOLFE'S NEW BERRY GETS BIG BOOST

A new Texas plant is getting unusual attention and creating sensational interest all over the United States. More than 60 official State and Federal Experiment Stations have already arranged to test the new Rosberry by that was recently introduced by a Texas Horticulturist, Ross R. Wolfe, of Stephenville, Texas. These experiment stations include internationally recognized horticulture stations like Geneva, N. Y., South Haven, Michigan, and Berkeley, California, and other stations representing complete coverage of every state in the Union.

The Rosberry was created by the famed Luther Burbank, but due to unfinished business in other fields of endeavor he never got around to giving it the time he desired. Discovered in the hills of Arkansas by Ross R. Wolfe of Wolfe's Nurseries, it has brought sensational and wide-spread attention. In recent weeks hundreds of Texas people have planted it in gardens, on piling fences, trellises, and other places where the prolific growth of the vine shows to best advantage.

"I have never offered any new plant that I believe has more possibilities than the Rosberry," said Wolfe. "I believe in all sincerity that the results of official experiment stations will prove its merit not only as a luscious berry but also as a beautiful vine." (adv.)

HOT WATER HEATERS

No priority needed. New Crane automatic, 20 gallon capacity. The Rexall Store. 37-tfe.

John Hancock FARM LOANS

Washington News Letter

By Congressman Ed Gossett

Washington, D. C., March 30.—From now until April 10 the House is not scheduled to take up any more legislative business, but is meeting briefly every third day to meet Constitutional requirements. Most members of the House have gone to their districts. Though this is being written from Washington, I am at present in Texas.

The Senate is in session, debating the water treaty with Mexico. To be effective, the treaty must be ratified by a two-thirds vote of the Senate, as well as by Mexico.

The Colorado River has its watershed in the United States, but the last 100 miles run through Mexico where farm land depends on irrigation. The Rio Grande, however, gets most of its water from tributaries in Mexico. All irrigation on the Rio Grande depends on that water. The purpose of the treaty is to agree on a fair distribution of water from both rivers. The treaty awards Mexico less water from the Colorado than it received in 1943.

Californians object, contending Mexico should have no more than it used before Boulder Dam was built. They say in 30 or 40 years California may need more water, and would be restricted by this treaty from getting it. California now gets a limit of 4,000,000 acre-

feet of Colorado water yearly, as provided in a compact between the seven states affected by the river's flow. But she dreams of a future when she might want several times that amount. Another reason for California's protest stems from the fact the state has been selling water to Mexico. The treaty would kill that, and cause a loss to California in revenue of around \$200,000 annually. The California Legislature appropriated \$75,000 to be used fighting the treaty.

Several of the House Committees are working busily while the House is in recess. An indication requests for money by the armed forces will be scrutinized more closely than during the last few years is evidenced by the naval appropriation bill now in committee. Each item in the request is being questioned, and the consensus is appropriations for many shore installations will be eliminated.

Some people do not understand why it is impossible to buy items originating in such places as Hawaii, when we have many cargo ships carrying supplies to those ports. The answer in most cases is a lack of dock space. A ship unloads its cargo for the armed forces, but does not have time to load canned pineapple, for instance, to be brought to the States, before another incoming ship must have the dock space to unload more military and naval material.

Easter lilies will be much in evidence for the next week, most of them grown in our own country. Before the war Japan, growing Bermuda-type lilies under almost ideal conditions, furnished 95 percent of the 25 to 30 million lilies which decked American homes and altars. This year there'll be only about one-tenth that many used, of which a few thousand will be flown in from Bermuda and others from Mexico. Most of them will come from our own south and west.

The original Easter lily was the pure white "Madonna" lily from southern France. "Creoles" from Florida and Louisiana are whiter, have more sheen. They grow profusely in the Mississippi delta. Senator Ellender of Louisiana is one of the state's largest growers. He is reported to have sold his crop

this year for \$25,000—\$9 or \$10 a dozen.

Because of unseasonably warm weather in Washington, the famous cherry trees blossomed before Easter. More pedestrians viewed them this year than in a good many years.

The weather bureau promises good Easter weather which will be welcome to the throngs attending the sunrise services in Arlington cemetery. The white marble benches and floor of the amphitheater can be uncomfortably cold.

Among our visitors this week were Naval Lieut. (j.g.) and Mrs. D. B. Wood, Jr. of Olney, and Captain J. J. Bissell, Army Air Corps, of Wichita Falls. Mr. and Mrs. Frank Bass of Wichita Falls were also recent visitors here.

LOCALS

Misses Patsy Ruth Kirk and Louise Speigelmier, students in McMurry College, Abilene, and Jack Speigelmier, who is serving in the U. S. Navy, spent last Tuesday in the home of Mr. and Mrs. Lee Haymes.

Mrs. Ben Guinn left the first of this week for Handley, Texas, where she will visit for several weeks.

Mr. and Mrs. Tom Haney of Wichita Falls visited with Tom's parents, Mr. and Mrs. G. W. Haney, last Sunday.

Earl Clements of Flagstaff, Ariz. and Mrs. Joe Duke of Colorado City spent the week end here with their mother, Mrs. R. A. Clements.

Wilson Hunter, who is stationed at Frederick, Okla., visited with relatives and friends here over the week end.

Kenneth Whittemore, a student in Abilene Christian College, spent the Easter holidays with his parents, Mr. and Mrs. Ed Whittemore.

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

Mr. and Mrs. C. Winchester and son attended church at Goree last Sunday morning.

Mrs. A. W. Aikins and son and Mrs. F. H. Mobley and daughters also attended church at Goree last Sunday morning.

Mr. and Mrs. Marion Jones and children spent the week end in Fort Worth with an aunt; also at Grand Prairie with a brother, Philip Jones and family.

Mr. and Mrs. John Lambeth and children spent the week end at Canadian with Mother Overton and Bro. Green Overton.

Mrs. Ira Owen of Anton and Mrs. Orle Lambeth and son and daughter of Anton were visiting their relatives and old friends here last week.

Mrs. Vernon Moore has returned from Cleburne and Grand Prairie where she visited relatives.

Many old friends of Roy Brown of Chillicothe were saddened to learn of his death. Roy once lived at Hefner with his parents, Elder and Mrs. Ed Brown of Richland Springs. He passed away a few days ago. He had been in poor health for some time.

He underwent a major operation last fall at a Temple hospital. He leaves a wife and one daughter.

Roy and his sisters attended the Hefner school back in 1915 when his parents lived in this community.

Mrs. G. L. Hunter and daughters of Denton visited relatives and friends here over the week end.

Mr. and Mrs. Charles Lane and children of Lubbock and Mr. and Mrs. Clarence Peok and children of Seymour spent last Sunday with their parents, Mr. and Mrs. Ed Lane.

Mrs. A. L. Sheppard of Vernon spent the week end with Mrs. Forester Yancy.

TEXAN'S SHARE in the WAR

These overseas meetings of Texas brothers bring out the truth in the old proverb about the truth being stranger than fiction and the world being a small place.

S/Sgt. Gene Rodgers and Cpl. Davis Rogers, sons of Mr. and Mrs. W. W. Rogers of Leonard, Texas, met recently in Belgium, where both were fighting the Nazis. It was their first reunion in more than four years.

Pvt. Harrel and G. W. McCurdy of Tom Bean met for the first time while fighting in Germany. Two other Tom Bean brothers, Sgts. Harvey and Haynes Lee, ran across each other in southern Belgium after 16 months of separation.

The importance of the work done on behalf of our men in enemy hands by War Prisoners Aid, the National War Fund and the Red Cross which Texans contribute when they give to their county war chest, was vividly brought out recently by Wick Fowler, Dallas News war correspondent just back from the European front.

"Only the packages the prisoners get from home enable them to stand up under the rigors and tedium of life in enemy prisoner-of-war camps," Fowler declared.

War Prisoners Aid provides athletic and recreational equipment, study courses, books, games, and many other supplies designed to sustain morale and stave off the dread "barbed wire sickness" which in past wars has sent men home mental and physical wrecks. It is the only agency concerned with the spiritual and moral welfare of our men in enemy hands.

Sgt. Johnnie Anderson, Bells, has received a battlefield commission as second lieutenant in the Philippines. John C. Graves, Sulphur Springs, with the Ninth Air Force in France, has been promoted to major. Thomas Stevenson, Merens, serving with a medical unit in the Southwest Pacific, has won a field promotion from staff sergeant to second lieutenant.

And Capt. William Dillard, Grand Saline, flying as a Mustang pilot in Italy, chalked up his fifth victory recently when he shot down a German jet-propelled plane in a 1400-mile round trip to an oil plant south of Berlin.

Capt. Edward D. Maner of Hillsboro, who has been flying the China-Assam route "over the hump" of the Himalayas, has been awarded the Distinguished Flying Cross.

But in the air or on the ground, Texans continue to garner an enviable multitude of medals for bravery. Capt. Walter E. Green, Ennis, now recovering from wounds

at O'Reilly General hospital, Springfield, Mo., has received the second oak leaf clusters for his Silver Star. That means the equivalent of three Silver Stars.

Bronze Stars have been awarded overseas to M/Sgt. Cecil King, Brownsboro; Sgt. Thomas A. Ellis, Roston; Marine Lt. Peter F. Lake, Tyler; Lt. Victor L. Tip, Selman City; S/Sgt. L. B. Dickerson, Sulphur Springs, and Lt. James A. Morgan, Denton.

CORRECT ACCOUNT NUMBER ESSENTIAL IN ALL CASES

Wichita Falls.—In case a worker gives his account number to an employer and it proves to be incorrect he is jeopardizing his protection under the old-age and survivors insurance program under the Social Security law, according to R. L. Surles, Manager of the Wichita Falls Social Security Board office. It is equally as dangerous for a worker to give his employer his name incorrectly, such as the wrong initial or first name. He may be depriving his widow and children of monthly benefits, in case of his death, if these errors are not corrected.

It will prove of much benefit to the employer in aiding him to keep his wage records if employees will cooperate with him in checking a second time on the name typed on the account card and the one on the payroll under which he is working. The employer must make reports based on the information given him by the worker. He consequently should be provided with correct and accurate data.

Mrs. J. B. Bowden and daughter, Carolyn, spent the week end with their son and brother, Lloyd Bowden, and his family.

Miss Doris Howell, who is attending school in Denton, spent the Easter holidays here with her parents, Mr. and Mrs. R. H. Howell and with other relatives.

Miss Maggie Searcey, who is attending John Tarterton College in Stephenville, spent the Easter holidays with her parents, Mr. and Mrs. A. M. Searcey.

"I tell you, Chuck—it's serious!"

"Seriously, Chuck, we may not get new cars until 2 or 3 years after V-Day!"

"It's had me worried. After all, I need my car and have to make it last! So here's what I did..."

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

People, Spots In The News

I GIVE YOU TEXAS by BOYCE HOUSE

Sign on the back of an automobile seen in Wichita Falls, "Caution—a blind man is driving this car!" That startling declaration causes the observer to look as he is going past the machine and he notices, on the side, the name of a Venetian blind company!

Times change. Can you remember when the big magazine writers were praising Mussolini for his work in Italy—because the trains there ran on time?

And a traveler named Wells visited Russia and then wrote a book called "Kaput," meaning "finished—no good." Wonder where Wells is, by the way? Maybe he's "kaput."

There are so many little children on the buses these days that it is rumored the 1946 models are going to be equipped with sandpiles and saws.

The life of Sam Bass (so I hear) is to be filmed—Wayne Gard of the Dallas News wrote a biography of the Texas Robin Hood some years ago... E. H. Whitehead, one of the outstanding Chamber of Commerce executives of the state, is now a publisher, having acquired the Polk County Enterprise in Livingston... C. L. Douglas of the Fort Worth Press has had a nibble from Hollywood on his fine book, "James Bowie," the first full-length biography of one of the three most colorful Texans. The other two? Sam Houston and Big-foot Wallace... Tom Foster, former publisher of Kilgore, is editor of the Seabee, a handsome publication. Foster has been serving in the Seabees for about three years.

A favorite story: A business man called in one of his creditors and said, "I'm going to go broke but I am going to make you a favored creditor." The other said, "How much are you going to be able to pay on the dollar?" The merchant said, "Not anything." His friend said, "Then how do you figure I'm a favored creditor?" "Oh," was the reply, "you know now you aren't going to get anything—the others I owe won't know for two months yet."

Mrs. B. F. Hood and children, James Furnie and Robbin, of Galveston came in on Wednesday of last week for several days' visit with Mrs. Hood's mother, Mrs. Dave Elland, and other relatives. They returned home last Monday.

Mrs. C. H. Harrell had the misfortune of breaking her left wrist in an accident at her home last Sunday. The injured member is getting along nicely, according to latest reports.

CARD OF THANKS

We wish to express our deep appreciation to those who brought tractors and put up our land during the recent illness in our family. This act of true neighborliness will always be a cherished memory in our hearts, and the sincerely thank everyone who had a part in it. Mr. and Mrs. Joe West

FIVE MEMBERS OF INDIAN FAMILY DON THE NAVY BLUE

DALLAS—The Japanese failed to reckon with the Beaver family from Oklahoma.

Three of the Beaver boys are in action against the Japs in the Pacific, and two of the Beaver girls are enlisted Waves at the Naval Air Station, Norman, Oklahoma. They are all the children of Mr. and Mrs. Jones Beaver, whose farm is on Route 1 near Binger, Oklahoma.

The Beavers are descendants of the powerful Shawnee tribe of Oklahoma and Texas.

One of the children, Hubert Dennis Beaver, Fireman, First Class, USNR, 20, has been awarded the Purple Heart Medal for wounds received while he was at his battle station aboard a battleship in the Pacific. He has since resumed his duties aboard the ship.

The other Beaver children in the service are: Willard Beaver, Seaman Second Class, USNR, 18, on duty aboard a Navy transport in the Pacific; Manuel Beaver, 16, in the Merchant Marine service aboard a ship transporting material to the Pacific; Miss Doloret Beaver, Seaman Second Class, USNR, 22; and Miss Beulah Beaver, Seaman Second Class, USNR, 21.

Mrs. Ruby Kethley of Abilene spent the week end in the home of Mr. and Mrs. P. V. Williams.

R. M. Almanrode

Civilians At War

The Government needs and asks its citizens in this 174th week of the war to:

- 1. Plan now to take a summer job on a farm, and be one of the four-million workers who are needed to meet this year's wartime food production goals.
- 2. Drive your car slowly, check tires regularly, lubricate frequently. Your car must last until victory—and then some.
- 3. Save kitchen fats. Every teaspoonful of waste fat is still needed and the two red points per pound are more important to you than ever.

Sale of Ungraded Farm Eggs Now Permitted

Because of heavy demand for eggs and a relatively short supply, steps have been taken to permit the sale of "current receipt" (ungraded) eggs, f. o. b. the seller's farm, place of business or other location, OPA has announced. OPA also said that on sales to a government agency, one and one-half cents a dozen may be added to the ceiling price for eggs that have been treated for preservation by immersion in hot water followed by a coating of mineral oil.

Milk Production For 1945 Expected To Equal Last Year's Output

Milk production on farms during 1945 is expected to be at least as large as the 1944 output of 119 billion pounds, says the Bureau of Agricultural Economics. Milk cows on farms January 1, 1945, totaled 27,785,000 head, or 129,000 more than on January 1, 1944. Returns to dairy farmers, because of higher production payment rates for butterfat, probably will average higher in 1945 than in 1944. Also dairy products-feed price ratios will con-

tinue favorable to milk producers with the 1924-1943 average.

Seventh War Loan Drive To Open May 14 With Goal of 14 Billion

The Treasury will open the Seventh War Loan Drive on May 14, 1945, with a goal of 14 billion dollars, the Treasury Department announced. One objective of this drive will be the sale of \$7,000,000,000 worth of Government Securities to individuals. This is the largest quota ever set for individuals in a war loan drive. As a part of the campaign to raise this amount, an intensive program for the sale of Series E Bonds in plants and factories will begin April 9. "It is clear," Secretary Morgenthau said, "that federal expenditures are going to remain at a high level for some time to come. It is also apparent that funds in the hands of non-bank investors will continue to increase sharply under present conditions. It is highly desirable to channel as much of these funds as possible into Government security investment, and to put them to work in the prosecution of the war."

April Supply of Passenger Tires For Civilians Sharply Reduced

Only 1,000,000 passenger tires for cars and motorcycles will be available to civilians during April, as compared with the 1,500,000 available in March, OPA announced. This sharply reduced civilian tire supply is due to a decline in production caused by a serious shortage of carbon black, an ingredient used to harden synthetic rubber.

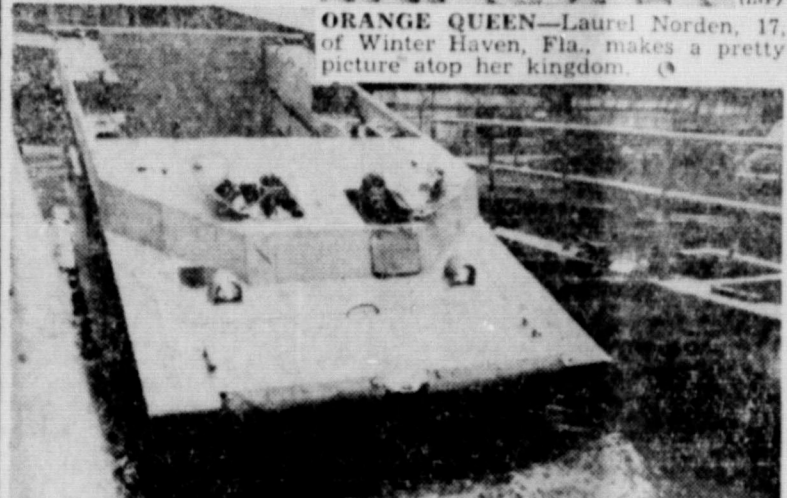

Purchasers of Passenger Car Tires Classified In Four Groups

A preferential list of occupations for use in selecting persons to receive passenger car tires has been prepared by OPA in cooperation

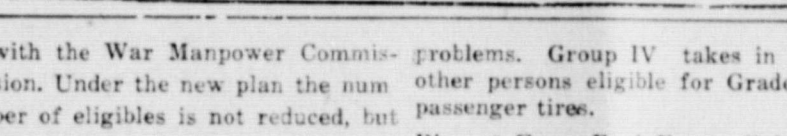

A MAN AND HIS DOG

—Crouched in a foxhole on two Jima, Marine Cpl. Virgil W. Burgess instructs his courier dog Prince, who will carry a first aid bandage to another point. The bandage is strapped to his back.

ORANGE QUEEN

—Laurel Norden, 17, of Winter Haven, Fla., makes a pretty picture atop her kingdom.

ALLIGATOR BATH

—A steam-heated "bathtub" has been constructed for "Alligator" tests at the Graham-Paige Motors plant in Detroit. Test drivers are shown nosing one of the amphibious tanks into the bath, the sides of which are equipped with steam coils to prevent the water from freezing.

Banner Ice Co.
Munday, Texas

with the War Manpower Commission. Under the new plan the number of eligibles is not reduced, but they are classified into four preference groups for the aid of local War Price and Rationing Boards in issuing tire certificates. Group I is limited almost entirely to persons whose occupations are of emergency nature, and to workers at establishments faced with production emergencies. Within this group are eligible physicians, public health nurses, police and employees at critical war industries such as those producing urgently needed aircraft and ammunition that are experiencing a manpower emergency. The exact plants, however, will be determined on the advice of local WMC officials. Group II includes persons employed in other essential plants, and those whose occupations are highly important to the war effort. In this group are farmers, farm workers and representatives of management, labor and government who recruit for essential establishments. Group III includes such occupations as buyers for essential establishments, and persons who travel to essential establishments on request to perform necessary technical services, such as those who advise these establishments on machinery maintenance

problems. Group IV takes in all other persons eligible for Grade I passenger tires.

Rise of Farm Real Estate Values Continue

The average index value per acre of farm real estate (1912-1914, index value 100) for the United States as a whole was 126 on March 1, 1945, representing a rise of 11 percent during the last year, and 5 percent during the preceding four months, according to the Bureau of Agricultural Economics. Values rose 15 percent during the year ended in March, 1944, and 21 percent in 1919-1920, when the peak of the World War I boom was reached. Values have now advanced at an average rate of one percent a month for four years. The rise for the 1941-45 period is 85 percent of the increase for the four-year period 1916-1920. During the year average values increased 15 percent or more in nine states, and 10 percent or more in 26 states. The increase during the year equalled or exceeded the record increases of 1919-1920 in five states. dmonths9Svshr mh mh etaoin m

Mrs. Bob Rogers, who has been making her home in San Diego, Calif., came in last week for a visit with her parents, Mr. and Mrs. L. E. Hunter of Goree. Her husband has sailed for overseas duty. Mrs. Rogers is the former Bessie Hunter.

Mrs. Margaret Lake of Dallas spent the week end here with her parents, Mr. and Mrs. Sam Salem and with other relatives.

You Can't Count On New Tires; Your Old Ones Must Do!
Recap Before Too Late!
You'll likely get no new tires this year, so make your old ones last as long as possible. The time to recap is when your tires begin to wear smooth.
Use our recapping service. The best available in materials and expert workmanship go into every job.
See us for tubes and reliners.

THE OLD JUDGE SAYS...

"That's news to me, Judge. From the way some people talk you would think it was at least 50%."
"No, Clem, there's the statement right here in the paper... from authorities who have made an exhaustive study of the subject. Only about 5% of the people who drink occasionally abuse the privilege... 95% drink sensibly."
"No wonder you say it wouldn't be fair to take the privilege away from the other 95%, Judge. I agree with you."
"I can't see it any other way, Clem. No more than I could see taking automobiles away from everybody because a few drive recklessly and have accidents. Or preventing the making or sale of cake or doughnuts because some folks eat too much and get indigestion."
"In the case of spirit beverages, the answer is one of education and better control."
"As a matter of fact, the responsible members of that industry are working constantly toward that end. They don't want folks to abuse the use of their product any more than we do."
This advertisement sponsored by Conference of Alcoholic Beverage Industries, Inc.

Mister Peltz Is Peeved!
Mister P. sells charts. Pie-charts, bar-charts, fever-charts—in pink and green and purple—proving anything you want.
He has a nice new chart on the cost of living. It shows the price of practically everything curving sharply up after war began.
But one price stubbornly stays down at pre-war levels. It's the price of electricity. It upsets the neat cost-of-living curves. It upsets P. P. Peltz. He's peeved.
We're sorry to offend Mister Peltz, but glad that we've been able to keep electricity plentiful and cheap when so many things are scarce and expensive.
It hasn't been easy to serve busy homes and booming war plants at the same time—with the friendly, efficient service we like to give. But all our folks have pitched in and worked hard to make it possible.
West Texas Utilities Company

Goree News Items

Supt. and Mrs. H. D. Arnold and family spent Easter Sunday at Wichita Falls with their daughter, Marjorie, and attended Easter services there. They also attended the graduating exercises of the flyers at Sheppard Field.

Mr. and Mrs. J. W. Adams and daughter, Mrs. Virginia Weyeth of Lexington, Ky., were recent visitors in the home of Mrs. Adams sister and husband, Mr. and Mrs. E. W. Miller.

Johnnie Camp. Mr. and Mrs. R. D. Stalcup Jr. of Clovis, New Mexico, were here last week for a visit with Mr. Stalcup's mother, Mrs. R. D. Stalcup, and with other relatives.

Goree and surrounding territory was saddened when Mr. and Mrs. O. G. Barnett received a message that their son was missing in action.

Mrs. Betty Sue Pearson is visiting her grandmother, Mrs. R. S. Stevenson, and her aunt, Mrs. Effie Alexander, at Munday.

Misses Mary Jean and Doris Ruth Stevenson attended a gathering of young people of the Baptist student council in Abilene recently. They were entertained with a house party, which was very pleasant occasion. A great number of young people were present from a large area.

A Boy Scout meeting was held Monday evening in the home of the scoutmaster, Rev. S. E. Stevenson. Eighteen boys were present, and a very pleasant evening of games was enjoyed.

Mrs. Heard Reeves and her mother, Mrs. Julia Moore, of Wichita Falls were visitors in the home of Mr. and Mrs. V. M. Reeves and Mr. and Mrs. W. S. Heard over the week end.

Mr. and Mrs. Jerry Hudson have had word from their sons, Pfc. Billy Hudson, who is in the infantry in France and Pfc. Walter Hudson, who is with the field artillery in Italy, that they are well. Another son, S/Sgt. Joe Hudson, is stationed in North Africa and has finished

Club Meetings Are Well Attended During March

Five hundred and sixty two 4-H club boys and girls and ten sponsors attended the eleven 4-H club meetings held by R. O. Dunkle, County Agent and Lucile King, County Home Demonstration Agent, during the month of March.

The girls had charge of the meetings. The meetings were opened by the groups singing songs pertaining to the bond drive. At the secretary called the roll each boy and girl stood and gave a report on their gardens. In these reports they told what they had planted, if they had fertilized their gardens and fenced them. Ninety five per cent of the boys and girls reported having some of their gardens planted.

After the business session the groups met in separate rooms. The meeting was turned over to the home demonstration agent and she gave a demonstration on "Making Banana Bread." After the bread was made she used a Food Model Display Piece and Colored Food Models sent out by Natt Dairy Council and she and the girls planned a well balanced meal using the Texas Food Standard as a guide. The Banana Bread was used as the dessert. Each girl was given a Texas Food Standard to take home and from this demonstration she learned how to plan a meal.

The agent told the group about the serious food shortage that we are facing and that if we have a well balanced meal we are to raise our own foods and we can do this by raising a garden. The agent gave each girl a copy of the Bulletin C-175 "Grow a Garden." She took the bulletin and showed the girls how to use it in selecting the garden seed that is suitable to Knox County. The agent displayed seeds that are suitable to Knox County and stressed that the groceryman will not buy the type seed that is suitable to Knox County unless we demand that kind. She told the group if they would soak carrot, beet and

officers training school. Mrs. Orb Coffman and daughter, Mildred, spent the Easter holidays with their son and brother, Jack Orb, who is attending Kemper Military school at Booneville, Mo.

Mr. and Mrs. Van Thornton have had word from their son, Van Jr., who is in with the infantry on foreign soil, that he is well.

Mrs. L. W. Mattern and son, Thomas James of Columbus, Texas were visitors in the home of Mr. Mrs. J. W. Fowler over the week end.

Miss Opal Johnson and son, Royce, visited relatives in Abilene last Thursday and also shopped for merchandise for the gift shop.

Miss Oma Johnson has returned to her home in Abilene after a visit here with Mrs. Opal Johnson.

Miss Roberta Ratliff spent the Easter holidays with her parents, Mr. and Mrs. W. C. Ratliff.

Activities of Colored People

The meeting of the Church of God in Christ closed last Sunday night. One new member was added to the church.

Mrs. Jarden left Monday for her home in San Angelo, Texas.

Rev. and Mrs. Alexander is yet in the city as Mrs. Alexander was stricken to the bed Saturday evening. She is reported some better and they will remain here for several days.

Mrs. Eluro Hendric was admitted to the Knox County Hospital and is reported doing fine. Mrs. Aline

parsley seed in lukewarm water overnight, it would cause more of the seed to germinate. Then, too, she suggested that sprinkling the beds with lukewarm water would hasten germination also.

The 4-H club boys discussed in their meeting, new varieties of grain sorghums that had been planted in the years 1943 and 1944. Bonita, the variety which was distributed in 1943, has increased until 25 percent of the farmers in Knox County are including Bonita in their regular grain sorghum acreage. Early Hegari seed, which was distributed in 1944 to 47 club members, has increased to well over 1,000 bushels of seed for distribution to neighboring farmers within the 4-H club communities, and it is estimated that 4,500 acres of early Hegari will be planted this year from a small beginning of 600 pounds of seed that was distributed to 4-H club members just one year ago.

T. W. Hertel, 4-H Club member of Sunset Community, produced thirty seven hundred pounds of Hegari from ten pounds of seed that was distributed in 1944.

The new variety of grain sorghum being distributed this year is Chinch Bug Resistant Milo. Forty four boys have received seed in 10 club projects for 1945, in addition pound lots and will plant it as their to a few acres of new varieties that were distributed in 1943 and 1944.

Memorandum copies of a rainfall chart Knox County, was discussed at each of the meetings and after the discussion each club member was asked to select a satisfactory planting date of grain sorghums, so that the summer droughts would be avoided and that the rainfall chart could be used in selecting a proper planting date. In 90 per cent of the cases the 4-H club members had no trouble in suggesting a satisfactory planting date in order to escape the summer drought of July and August that greatly reduces yields when grain sorghums are in critical period of growth.

It is believed that information relative to improved varieties of grain sorghum and proper planting date will increase grain sorghum production in Knox County by over 500,000 bushels. 4-H Club members are leading the way in pointing out proven farm practices that will increase yields of grain sorghums for Knox County.

Leyte Landing

Early one morning at the break of day,
We pulled our hook and got underway.
LST's and other ships combined,
Freighters and tankers they were behind.

We sailed that day and all the night:
We plowed through the water without a fright.
On the fifth day in the late afternoon,
We sighted land where the Japs were doomed.

We steamed into the gulf of the Leyte Isles,
To find the Japs were only a few miles.
On the 24th day of that fateful month,
We hit the beach with an awful bump.

To that we boys paid no heed,
For there's not a sailor afraid of the Japanese.
Early next morning the day after before,
Out in the gulf we heard a terrible roar.

Battleships, cruisers, destroyers and such,
Caused a rumpus, a terrible fuss.
They caused all damage to a great extent,
To us it only cost just a few pence.

Now, there's Tokyo Rose you have all heard about,
She says "You're in the Philippines, now let's see you get out."

Just the next day in the late afternoon,
One Jap came over to meet his doom;
His plane was hit, one motor was gone,
He made for the beach, but something went wrong.

Early next morning, the sun shining bright,
When seven Japs came over and started a fight;
To end my story with a terrible shame,
Over the beach there was a big flame.

Standing on the bridge above the bridge and below;
When over the beach we saw that awful glow.

Munition dumps went up in flames,
So that ends my story with an "awful bang."

The above poem was written by H. L. French, a shipmate of Wallis Jungman, son of Art Jungman of Knox City. Seaman French was killed in action aboard LST. 737 on the afternoon of Dec. 7, 1944.

All-Rayon Costume

YOUR new spring outfit may be all rayon, like this one. The navy rayon crepe frock features white rayon braid trimming—at the neckline, and to form the stripes on the peplum. The chic straw bonnet has rayon grosgrain bows and edging. Also of rayon are the long white gloves, which fall in just the right soft folds, and the new, young collar-box handbag. You can be sure of good wearing qualities in rayon fabrics as well as smart appearance when you look for labels giving the results of laboratory wear tests.

Whitney is staying with her. Mrs. Lillie Jones left Saturday with her daughter for Lubbock, Texas. Mrs. Jones will receive treatment at the hospital there.

Therman Johnson carried O. Z. to San Angelo, Texas, on Monday. He will be admitted to the hospital there.

Roy Atkins left Tuesday night for Fort Worth to attend his father's funeral. Doras Nappers, Charline and Alta Richardson spent Sunday evening in Haskell at Rev. D. B.

GOOD YEAR TIRES

SAFER TREAD
STRONGER BODY
LOW-STRETCH SUPERTWIST CORD

LOOK HERE...
SEE WHY

GOOD YEAR
IS THE TIRE TO BUY

Today, all tires are made with synthetic rubber... but all synthetic rubber tires are not alike... no more alike than when every manufacturer had access to crude rubber. Into every Good-year built today go the same world-famous Goodyear engineering, the same quality craftsmanship plus Goodyear materials and methods that have made Goodyear the world's first choice tire for 30-consecutive years. Now as always, Goodyear is a superior tire, built for superior performance... extra safety, extra service.

Trucks Need Truck Tires
GOOD YEAR AIRWHEELS
Don't shod your truck with passenger tires when you can get Goodyear Airwheels, designed to do a good truck tire job. For all types of pickups and light delivery trucks. Plus tax
