Odd Bits Salvaged By The Editor

Wichita Falls proved to be an excellent host city. k-k

We were among the editors and newsmen from Van Horn to Spearman, Houston to Andrews, and even from Austin to attend the annual WTPA convention there over the week end. When the Wichita Falls group made such a concerted effort at San Angelo last year to get the convention, we knew they'd go all out to show us a good time.

There were many interesting events, one of which was a tour of Sheppard Air Force Base on Friday afternoon, where we were welcomed by Maj. Gen. Thomas Moore, base commander. He and Lt. Col. Charles Leigon, director of the missile school, explained Sheppard's teaching objectives, after which we were divided into groups to tour classrooms where various teaching methods were demonstrated.

Wyatt, his dissertation with: "Any ques." his dissertation with: "Any questions?" None of us knew enough about the complicated mess to Agency, Washington, D. C. ask a question!

A sergeant boarded our bus and talked during the tour. We were too near the back of the motor bus, where the noise of the motor kept us from hearing—but we guess it was just as well. He used such technical terms that our WTPA president remarked next day: "We had almost completed O'Brien on Friday, August 10. the tour before I discovered the sargeant was talking English!"

Of interest to all of us was a Glenn into orbit. By means of 5. button pushing, they rolled away the huge door from above the missile and raised it into firing acres that had at least two bales position, then lowered it again.

Col. Charles W. Johnson, deputy commander of the 4245th O'Brien School Stragetic Wing at Sheppard, welcomed us to the SAC section and comed us to the SAC section and Building Burns functions of the wing. "Guess that's what you call leading a dog's life," she remarked.

Friday evening, we were entertained by the Wichita Falls Boosters Club at one of the city's showplaces, Centime Farm. Net Income Down

Farmers, like other businessreceived less net income, reports 7:30 p.m. C. H. Bates, extension farm management specialist.

The nation's farmers have increased gross sales since 1945 by 46 per cent but their net income has declined more than 9 per cent, Bates adds. billion. Farmers have sought to improve their situation, says Bates, by shifting the inputs or "mix" of production resources. They have substituted machinery for labor. In 1940, U.S. farmers on hired help. By 1960, they were each dollar spent for hired labor.

Another effort to boost efficiency is reflected in the amounts spent for fertilizer and lime. By 1960, U. S. farmers were spending 4.8 times more for these items than was spent in 1940. This means a great increase in quantity since prices for fertilizer and lime have increased only 50 per

Although comparable figures are not available on farmer expenditures for pesticides and herbicides, the trend has been sharply upward, says the specialist. These inputs have tended to keep down the cost of food to consumers, he adds.

The question is often raised, points out Bates, why do farm units continue to increase in size? A major factor behind the pressure for larger units is the use of machinery and the narrower margin received on products marketed, explains the specialist. Today's farmer must invest three pointee to Ecuador, will speak at to four times as much capital the First Baptist Church next in fixed assets as was needed in

What Is Baptism?

There is no need for us to go to the works of men for a definition. One will say one thing, and another something else. After all, there is but one sure guide, the Bible. We find in the Bible ten things in connection with baptism.

1. It takes water. (Matt. 3:6). Acts 8:38 " - - - and they went down both into the water, both Philip and the eunuch;

and he baptized him.'

2. Much water. Jno. 3:23 "And John was also baptizing in Aenon near to Salem, because there was much water there." 3. Going to the water. (Matt. 3:5-6), Acts 8:36 "And as they went on their way, they came unto a certain water, and the eunuch said, See here is water: what doth hinder me to be baptized.

4. Going into the water. Acts 8:38 " - - - and they both went down into the water, both Philip and the eunuch; and he baptized him."

5. Coming out of the water. Acts 8:39 "And when they were come up out of the water."

6. It is the form of a birth. Jno. 3:5 " - - · Except a man be born of water and of the Spirit, he cannot enter the kingdom of God."

7. It is from a burial. Rom. 6:4 "Therefore we are buried with him by baptism into death . . . ". Col. 2:12 "Buried with him in baptism, - -

8. It is a form of a resurrection. Rom. 6:4 "Therefore we are buried with him by baptism into death, that like as Christ was raised up from the dead by the glory of the Father, evenso we also should walk in newness of life."

9. It is a form of a planting. Rom. 6:5 "For if we have been planted in the likeness of his death, we shall be also in the likeness of his resurrection."

10. The body is washed. Heb. 10:22 "Let us draw near with a true heart in full assurance of faith, having our hearts sprinkled from an evil conscience, and our bodies washed in

In view of all these scriptures before us, there is just one answer as to what baptism is: Immercion in water. But, says one, "Don't you think sprinkling or pouring will answer the purpose?" No! The Bible plainly says, "BURIED." Why try to change what God has said? (Gal. 1:6-9).

count on GAS heat to pour on the comfort when other kinds of heat fail!

Hard to believe now - but it does get chilly here. Doesn't bother GAS heat. It never gives up because the air gets too frozen for "heat pumping." Never needs repairs for complicated moving parts (needs none to produce heat). Never gouges your pocketbook for doing the job - GAS is the lowest-cost heat you can buy!

Something you should think about if you're about to buy a truck:

If all trucks were built the same way, cost the same to keep up, were worth the same at trade-in . . . then probably the price tag would be your only concern. It can't be, of course, because some trucks have more quality than others. And marks

of quality are the real keys to low cost. Chevrolet trucks, for example, have double-wall construction, which gives bodies and cabs more strength. Cabs are insulated against heat, cold and noise. A big part of road shock, which shortens truck life, is damped out by Chevrolet's suspension system; it also makes riding in the truck a pleasure. Pickup bodies and cabs are separated to eliminate stress between them.

people to invest in Chevrolet trucks every year since 1937.

This can be a good time to buy a modern new Chevrolet truck

Late summer traditionally is the season for all-around savings on a new Chevrolet truck . . . selection is still good . . . deliveries are prompt . . . and Chevrolet dealers are doubly anxious to put you into a new vehicle in order to make way for next year's models. Coupled with the efficient performance a new Chevrolet truck will give you, it seems evident that you couldn't buy at a better time. Come in and take full advantage of it!
