

## Kracker Krumb's Odds Bits Salvaged at Random

People appear to be happy. . . .  
Their old face-wrinkling smiles have returned, their hopes buoyed, their gloom and fears mostly vanished, and their good mornings have a more friendly ring than just a few weeks ago. . . .  
In fact, it's a grand old world to be living in! . . .  
The reason: those drouth-breaking rains that have come to Knox County. . . .  
Statistics of which stack up about like this: . . .  
Heaviest precipitation for any one period of continuous rain was Saturday morning when 3.08 inches fell. . . .  
Total for the week ending last Saturday was 6.18 inches. . . .  
Total received during July, 7.15 inches. . . .  
Total received during 1953, 14.78 inches, which is more than the total amount in 1952, when Munday got only 14.23 for the year. . . .

The average rainfall for this area is around 25 inches, and some have said we must still get lots of rain to bring the year's total up to the average. But anytime we can get as much as 6.18 during any week in July, it's altogether possible to get ten inches more in the remaining five months. . . .

Puddle holes are full, stock tanks are full, the city lake is full, our drainage ditch was full for a number of hours. Water almost got into some Munday buildings, in spite of our drainage. . . .

A sort of rubber boat was paddled around in one Munday street. The rain was just wonderful! . . .

The city lake started flowing over the spillway at about 5 p. m. Saturday, and water was still pouring over at 5:30 p. m. Sunday. . . .  
That wasn't any boost to solving the city's water problem, because the city didn't have any. But it was a boost to the golf club members, who have a four-county tournament under way this week, and who are worrying about an almost dry lake furnishing water for the golf course greens. . . .  
During the deluge Saturday, one person who depends on farming for a living and does some dry goods clerking on the side was heard to remark: "It could rain too much!" . . .

Which brings to mind a story we heard about a time when it was raining too much. . . .  
A big Methodist revival was going on, so we were told, and the continuous rains had people most worried to death. Some began talking of setting aside a special service of the revival to pray for the rains to cease. . . .  
A vote was taken, and the congregation was almost unanimous in wanting this service. The pastor noticed, however, that one of his most staunch members failed to stand up when the standing vote was asked. The worried pastor inquired of this old-timer about his failing to vote. . . .  
"I'll tell you, pastor," he said. "You weren't here back in 1889, when we were all praying for rain. Well, I promised the good Lord then if He'd just let it rain I'd never ask Him to shut it off." . . .

While Hap Pendleton was in the hospital last week, we heard that Orb Coffman wrote him a flowery letter about the rains here, and how people were pepped up and encouraged. He closed the epistle by saying Mr. Braly had a big sign up in front of the bank, saying: "Money to loan!" . . .  
Yes, the rain was wonderful, wasn't it?

## Miss Georgeen Claus Writes Parents Of Interesting Impressions In Europe

Recent letters from Miss Georgeen Claus have been received by her parents, Mr. and Mrs. H. N. Claus of Rhineland, telling some experiences during her tour of Europe. From England, she wrote:

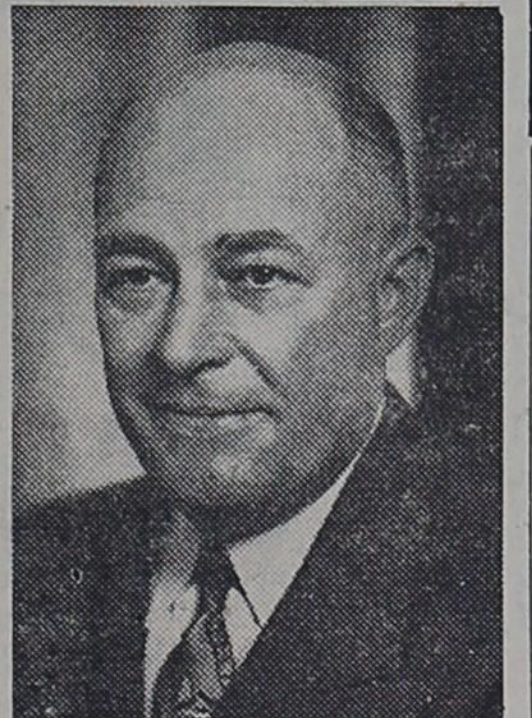

"I wish all of you could be with me. It's the most wonderful experience of my life. England is the most beautiful country. London is charming. I never realized how completely steeped in tradition these people are. You can't quite comprehend their way of clinging to pagentry and pomp. . . .  
"The pace of the city is so leisurely, compared with New York. Everything looks clean and progressive in business sections. The food is fair. The bombing damage is great (at least to me it is). The people aren't in the last loud or boisterous. I like them very much. . . .  
"Guards march around the castles and palaces—and what enormous places they are. It's fantastic in this age. Landing at Plymouth was quite a thrill, and customs officials are very courteous." . . .  
Three days later, July 15, she wrote from Holland: . . .  
"We drove through several country villages on the 20-minute drive to our hotel. Everything is beautiful. Some of the villagers wear wooden shoes, but, really, everything looks wonderful. . . .  
"We saw pillboxes left by the Germans. Of course, the windmills are picturesque. We were all agog when we arrived at our hotel. It is magnificent, and the food is copious and delicious. Everyone in the hotel is so friendly. . . .  
"I met two Dutch ladies on the boat crossing the North Sea. They are openly grateful for the help America has given them. I never imagined foreign people to be so grand as these were. Later I found that the elderly one was a baroness." . . .  
As a footnote to her letter, Miss Claus said: "The greatest sight on earth to me will be August 24, when I see the Statue of Liberty and Manhattan's skyline."

**LITT LEMLEYS ARE PARENTS OF A SON**  
A 50-50 chance is being given Litt Lemley to recover from the fatherhood of a bouncing 8 pound 8½ ounce boy who made his arrival Wednesday, July 15, at 11:22 p. m. at the Knox County Hospital. The Lemleys have named this latest addition Michael Litt. He has a five year old sister, Judy Carolyn, and an older step-sister, Earlene Edwards, who are more than willing to do their share in spoiling the boy. Mrs. Lemley and son are doing fine.

**PAULA NEWEST ADDITION TO PENDLETON FAMILY**  
After several days of waiting and expectancy on the part of all the family, the little girl finally made her appearance at 1 a. m. Saturday, July 18, at the Knox County Hospital. She tipped the scales at seven pounds and 13 ounces, and she was welcomed just as heartily by Mr. and Mrs. Pendleton and Jan as the rest of us welcomed the soaking rains. The family wanted a girl, they knew it would be a girl—it had to be a girl, because Jan had her named some time before her arrival. Her name is Paula. . . .  
Everybody's doing fine, and Jan has been sharing with her daddy the duties of passing out cigars.

**Guess Appointed Goree Mail Carrier**  
Rebus Guess received his appointment as regular rural mail carrier on route two out of Goree and announced his duties July 20th. He succeeded W. O. Lewis who retired in January, 1952. C. T. Weber has served as temporary carrier since that time. Guess has been engaged in the oil and butane gas business in Goree for several years.

## Revenue Chief Joins Dallas Bank

John B. Dunlap, former Commissioner of Internal Revenue of the United States, has been elected vice-president of the Dallas National Bank, president Blagden Manning has announced. While Commissioner, Dunlap directed the nation-wide reorganization of the Internal Revenue Bureau and the streamlining of the country's tax collection methods. More recently he served as Revenue Commissioner of the Dallas District and resigned that post to accept the vice-presidency of the Dallas National Bank. A life-long resident of Dallas, except for periods of military and government service, Dunlap was honored by Southern Methodist University in 1953 with its Distinguished Alumnus Award. He rose through the ranks from a private in the Texas National Guard to Brigadier General and served in World War II.

## Local Plumber Invents Pressure Sewer Cleaner

Word was received here this week that Roe Allred, who follows the plumbing trade in Munday, has invented a simple method of flushing sewers by means of a pressure system. Allred says his invention may be installed outside a building which has already been constructed or inside one to be constructed. The Patent Engineering and Development Company, which reviewed Allred's invention, included in their review the following statements: . . .  
"Mr. Roe Allred, a craftsman of the trade, has invented a new means of flushing out obstructions in the sewer pipe lines. Basically, the invention provides the householder with a permanently installed means of clearing obstructed sewer lines without retaining the services of a plumber. . . .  
"It is simple. It is direct. It works. Mr. Allred's invention is in a patent pending status."

## August 1 Deadline For Eligibility In Classing Of Cotton

With only eight days remaining before the deadline, 1,070 Knox County farmers have signed up in Cotton Improvement Groups under the Smith-Doxey Act. This was revealed today by H. J. Matejowsky of the Abilene Cotton Classing Office, U. S. Department of Agriculture. Mr. Matejowsky reminded farmers that group applications must be received in his office before August 1 to insure participation this year. Group leaders may obtain applications from ginners, county agents, and the Abilene Cotton Classing Office. Under the Smith-Doxey Act, Mr. Matejowsky explained, farmers get free classing and market quotations from the USDA. This gives them an advantage in marketing their cotton. It also simplifies the procedure for getting price supports and loans, and eliminates the fee for classing price support bales. That's because USDA's green card will already be in the hands of the farmers at loan time. This green card, showing the grade and staple of the bale, is also accepted by merchants in place of actual samples. By using one, a farmer can sell his cotton by telephone if he desires, Matejowsky said.

**Emergency Loans Under New Laws Are Explained By Secretary Benson**  
Methods of making emergency loans to farmers and cattlemen who need Federal credit to buy feed and pay operating expenses have been outlined by Secretary of Agriculture Ezra Taft Benson. The special loans were authorized by Congress in new disaster credit legislation approved by President Eisenhower. This credit will be extended only to established producers and feeders of cattle, sheep and goats, who have a reasonable chance of working out their difficulties but cannot obtain the funds they need from private or cooperative credit sources. Loans will not be made to enable a man to go into the livestock business or to carry on commercial feed lot operations. Heaviest demand is expected in the drouth-stricken Southwest, but loans to cattlemen are not limited to the disaster area. Application blanks will be available from the Farmers Home Administration offices within a few days. In areas of heaviest demand, banks, production credit associations, national farm loan associations, as well as the local offices of the FHA will have the blanks. All applications will be passed on by special livestock loan committees to be appointed by Secretary Benson. The farmers can get in touch with the loan committee servicing his area by contacting his banker, the county agricultural

## To Motley County

Bill Pallmeyer, above, county agent for Knox County for several years, will leave soon for Matador, Motley County, to take up his duties as county agent. Pallmeyer came here from Wichita County, where he was serving as assistant county agent. He is being succeeded by Jay Bryan of Wichita Falls, assistant county agent there, who will move to Benjamin around August 8. The announcement of the change was made last week by J. A. Scofield of Vernon, district agent.

## Drouth Broken Locally By Generous 6.18 Inches Rain

### 64 Golfers Have Qualified Here For Tournament

A total of sixty-four golfers of this area had turned in their qualifying scores for the annual Four County Golf Tournament here Tuesday evening, making four full flights of players. Qualifying rounds started last Sunday and closed Tuesday evening. The annual dinner of baked ham, red beans, pickles, onions and salad was served to a large crowd at 6:30 p. m. Tuesday, and this was followed by bracketing the players and the calculation pool. More than usual interest is being shown in the tourney, although the failure of Crowell to send players cut down on the number expected to enter. Vacations and recent rains which made farmer-golfers busy in the fields were contributed to Crowell's inability to enter the tourney. They were voted in this year, making the tourney a four-county instead of a three-county affair. The sixty-four players came from Knox, Haskell and Baylor counties. Matched play was started on Wednesday and will continue through Sunday, when final matches will be reeled off.

### Softball Game Set Saturday At Stamford

Red Denham and the Primm Drug of Brownfield will be in Stamford Saturday night, July 25, to play the Weaver Medlin Tire Company All Stars. This is a Texas Softball League double-header. Primm Drug is in a two-way tie for first place and Medlin Tire Company is in third place. Opposing pitchers will be Roy Weeks and E. W. Mickler of Stamford against Red Denham of Brownfield. Admission is 35 cents for adults and 15 cents for children over 12. Those under 12 and over 65 will be admitted free.

### Junior High School Adds 20 New Books To School Library

By Mrs. Alice Partridge  
Twenty-nine new library books, each recommended by the American Library Association, the H. H. Wilson Company and other authorities on children reading, have been received by the Junior High School Library as gifts from last year's sixth graders and Junior High School pupils, who presented the one-act plays last spring. Six a room mother chairman, Mrs. Herbert Cunningham and Mrs. John Phillips, managed six A social events last year without using the \$14.00 cleared in the Hallowe'en carnival, enabling the group to vote the money to be spent for the much needed library books. Twenty-four dollars cleared from the one-act plays plus seven dollars and fifty cents from six B increased the library gift figure to \$45.50. The new shipment of books include biographies, exciting fiction with ancient history background, animal stories, fiction about life on Mars and interest and easily read non-fiction about a wide range of subjects. Still needed are simple mysteries, Nancy Drew or Bobsey Twin type books, which aren't on any recommended reading list, but are easily read and appealing to casual readers.

### MEET IN SCOTLAND

The National Council of Catholic Women will meet in Scotland Thursday, July 30th. Registration will be at 11:00 a. m., luncheon at noon, meeting at 1 p. m.

### Future Bride

Mr. and Mrs. J. R. Hitchcock of Knox City announce the September marriage of their daughter, Carol Anne, above, to Robert Henry Gaines, son of Mr. and Mrs. J. R. Gaines of Munday. Miss Hitchcock is a graduate of Knox City High School, and Mr. Gaines finished Weinert High School. Both Miss Hitchcock and Mr. Gaines are students of North Texas State College, Denton, and plan to resume their studies there this year.

### Revival Begins At Weinert On July 22

Rev. C. C. Lamb announced this week that the Methodist revival in Weinert commenced Wednesday evening, July 22, and will last through Sunday evening services, August 2. Rev. Lamb, local pastor, will do the preaching and R. L. Edwards will lead the singing with Mrs. M. O. McMinn at the organ. Morning services at 10:30 a. m. and evening services begin with prayer service at 8 o'clock and song services at 8:25. The public is cordially invited to attend any or all of these services. Mr. and Mrs. Waymon Pistole visited friends in Abilene last Sunday.

Everyone is rejoicing over the generous rains which fell over Knox County and a large portion of the state last week, virtually spelling the end of the drouth in many sections. Munday was among the sections bounteously favored by rain during the week, while heavy amounts fell to the south and east with floods coming to Abilene and Albany, causing some damage. Stamford, Haskell and Weinert areas were among those receiving heavy amounts of rainfall. Heaviest for Munday came Saturday morning, when a steady downpour for several hours brought a total of 3.08 inches. Several streets were filled to overflowing the curbs and it appeared for a while that water might enter some of the business houses. It is believed that Munday's drainage ditch prevented flooding in much of the business section. Munday's total rainfall for the week ending Saturday was 6.18 inches, while Knox City has reported around seven inches, with around 5.50 falling during Saturday. Other communities of the county, including Goree, Hefner, Vera and Rhineland had drouth-breaking rains. Lightest precipitation was reported at Benjamin, where about two inches fell. The rain was insufficient to be of any special benefit to Benjamin's water supply. Their lake was not in the watershed area, although rains of near flood stages were reported to the west of the town. Most surface tanks in the county were filled to overflowing, bringing beneficial stockmen and ranch ranchers in the northwest portion of the county had been hauling water for their livestock. Munday's city lake started flowing over the spillway at 5 p. m. Saturday, and the flow was continuing at 5:30 p. m. Sunday. The lake was practically dry, and local golfers had begun to worry about water to keep the grass green on the greens. In the opinion of many, crop prospects were never brighter in Knox County than at this time. Much of the cotton had suffered very little from the drouth, and the rains which started on June 30 have made cotton fields a very beautiful sight. Young feed is looking good. Rainfall for Munday now stands at 7.15 inches for July, and 14.78 inches for the year. In 1952 we received only 14.23 inches for the entire year. In 1952 we received only 14.23 inches for the entire year. Normal rainfall is around 25 inches. Much of the south plains area is continuing in the drouth area, as only light rains have fallen in many sections. Around 2.50 inches fell at Spur, and farmers started planting grain crops as soon as they could get into the fields.

**LITTLE GIRL ARRIVES FOR JIMMY BELLS**  
It's a girl at the Jimmy Bell home. She made her arrival at the Knox County Hospital on Sunday, July 19 at 12:10 a. m. and weighed 6 pounds and 15½ ounces. She has been named Gloria Nadine. As the story goes, while still in the incubator and only a small portion of the back of her head showing, Papa Jimmy was trying to get every one to say they thought she looked just like her daddy. He is about back to normal now. Mrs. Evelyn Elliott of Haskell is the child's maternal grandmother and Mr. and Mrs. Jim Bell are the paternal grandparents. She even has Mr. and Mrs. Ben Tuggle for great-grandparents. Guess Gloria Nadine will get plenty of that good old-fashioned grandparental spoiling.

### LEAVES FOR GERMANY

Mrs. John Andres of the Rhineland community left Wichita Falls by train last Tuesday at 3:45 p. m. for New York, from which point she will sail for Hannef, Germany, in the British zone, for a three months visit.

### GRASS ROOTS OPINION

**TELL CITY, IND., NEWS:** "Too many people are looking to this war situation merely from the standpoint of finances, they have more money in their pockets than at any time during their lives . . . Why can't these people realize that eventually they are going to have nothing. Their pockets have money in them that is coming from the government and being gradually built up into a debt that will bankrupt the once-richest country the world has ever known."

**BALTIMORE, MD., DAILY RECORD:** "Why not review, calmly and without political bias, the whole process of governmental participation in fields which used to be solely the prerogative of private enterprise."

**FAIRFIELD, IOWA, DAILY LEDGER:** "It appears the CIO unions are changing some of their positions on socialistic ventures. In their Sixth Constitutional convention held recently they adopted this resolution: No federal agency should construct or operate, except for national defense or where private industry fails or refuses adequate service, any project the sole purpose of which is the generation of electric energy" . . . It has been our opinion all the time that both labor and management have the same stake in the future welfare of the country. Whenever times are prosperous for management they are also prosperous for labor."

### THE CONSUMER IS NO PUSHOVER

A late issue of Newsweek featured an article on current shopping attitudes throughout the country. It began: "The American shopper is in a mood to buy but he is no pushover."

"Up, down, and across the country . . . there was a great competitive show of bargains to lure retail customers. Generally, dollars were plentiful. In Chicago and Los Angeles, the buyer was acutely price-conscious; in Atlanta, very selective; in Boston, style-conscious; in Dallas, quality-minded; in corn-belt Des Moines, he was wary; and, in Seattle and Salt Lake City, downright cagey at times. But when he found what he wanted he usually bought."

News week's article ended with this sentence: "The customer simply has to be sold."

What this means, of course, is that a competitive economy, with retailers of all kinds and sizes trying to get the business, the customer is the real boss. But he is never the boss in an economy where business is owned or run by government and real competition is therefore non-existent. In this country, the success of any merchant, from the oldest and the biggest and newest and the smallest, depends on pleasing you and making you want to come back to his store. When that is the situation, we get top value for our money.

### THE ONLY WAY

The Sixteenth Amendment to the Constitution which became effective in 1913 and gave the federal government the power to lay a direct tax on the incomes of the people, was the seed from which the socialistic welfare state idea grew in this country. Actually, not one of us has a constitutional right remaining to one penny of our income.

The unlimited power to tax the incomes of the people reversed the basic concept of government on which our republic is founded. It made government master of the people, rather than their servant.

Most of us, still startled by the tremendous chunks of our income that went to pay federal taxes last year, begin to agree with the idea that the only way to prevent confiscatory taxation is to now limit, by Constitutional Amendment, the income taxing power of government. This is the only way we can hope to preserve representative government and a free economy.

Relief will never come from tax collectors but only through changes forced by taxpayers.

### NOT SO SIMPLE

Why do people patronize one store—and pass right by the doors of another store?

The head of an association which represents food chains gave a general answer to that question in these words: "People like to do business with people they like. It is almost as simple as that—but the processes by which you get people to like you may not be simple. Public opinion is the combination of many likes and dislikes, many attitudes, many acts. Public opinion determines where people spend their money day after day; public opinion influences what stores will be profitable, what stores will fail."

Different people, obviously, want and seek different kinds of goods, different kinds of services, different attractions of many sorts. Back of all the promotional and public relations activities of the merchant, from advertising to improved employee training, is the desire to attract as many people into his store as possible—in other words, to make people like him. And that will always be true so long as we have a free market and open competition.

### SINCE ANDY JACKSON'S DAY

According to a recent AP story, "The United States spends more money forecasting the weather than it cost to run the whole government during Andy Jackson's Administration."

That fact isn't cited as a criticism of the weather service. But is a striking example of how government has got out of hand, and how vital it is that every non-essential activity be eliminated and every possible nickel cut from the budget.

### THE BIBLE vs. DOCTRINES OF MEN

Bible: "He that believeth and is baptized shall be saved." (Mark 16:16).

Doctrine of Men: "He that believeth is saved, and can be baptized if the church votes him in."

Bible: "For as many of you as have been baptized into Christ have put on Christ." (Gal. 3:27).

D. M.: "As many of you are are in Christ may be baptized."

Bible: "Baptism doth also now save us." (1 Pet. 3:21).

D. M.: "Baptism doth not also now save us."

Bible: "Arise, and be baptised, and wash away thy sins, calling on the name of the Lord." (Acts 22:16).

D. M.: "Arise and be baptized because you have sins to wash away."

Bible: "Except a man be born of water and of the Spirit, he cannot enter the kingdom of God." (John 3:5).

D. M.: "The kingdom of God can be entered without a birth of water."

Bible: "Therefore let him that thinketh he standeth take heed lest he fall." (1 Cor. 10:12).

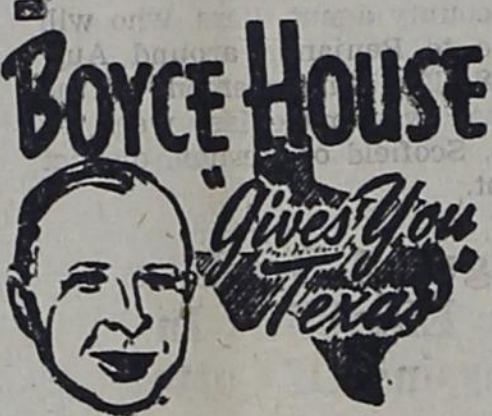

D. M.: "Take no heed, for you cannot fall."

"But in vain do they worship me, teaching as their doctrines the precepts of men." (Matt. 15:9).

CLIFFORD WILSON, Evangelist

One of the most dramatic scenes in the history of the United States was the rush when Oklahoma, until then a land of Indian tribes and buffalo, was thrown open to settlement in 1889.

As the day drew near, thousands of people assembled along the border of southern Kansas as well as in Arkansas and Texas, overtaking hotel accommodations. Thousands slept in their wagons. In the multitude were citizens from almost every state in the union, and of all callings and professions, including a considerable number of gamblers and those who today would be called racketeers. While some were attracted by curiosity or for speculative purposes, most were seeking land and homes.

Some of them were so anxious to be the first to reach choice sites that they eluded the vigilance of the troops patrolling the boundaries, and concealed them-

selves near the best lands. These were called Sooners, having entered too soon. Many of them were discovered and ejected by soldiers but some were not found.

There was only one railroad into the Oklahoma country, the Atchison, Topeka and Santa Fe. Fifteen passenger trains left Arkansas City between daylight and 11 a. m. on the day of the opening. Ten thousand people tried to board the first train; standing room was at a premium and platforms and steps were occupied; some rode on the roofs of the coaches. The trains halted at the boundary line, one train behind the other to await the appointed hour of noon.

For the race ahead, some were in wagons, others were in buggies and buckboards, some were on horseback and a good many

were on foot. These former in line as far as the eye could see. As the minutes crept by, each was in the grip of excitement; some compared it later with the feeling of a soldier about to go into battle. Some studied maps and charts while the cavalymen patiently sat on their horses.

By now the sun was directly overhead and a hush descended until from the distance came the faint notes of a bugle, and the trooper in front fired his rifle. There was a tremendous shout and the race was on. One chronicler says that in the contest we've fleet race horses which had been groomed and trained for days; slow-moving, heavy-gaited plow horses; wiry mustangs, at home on the prairie turf. Here came the 15 long trains, laden with cheering humanity, the whistles shrieking and the funnels belching smoke and cinders while other trains were advancing from the south. At every station, some alighted to take their chances in or near one of the smaller towns, though most aboard landed either in Guthrie or Oklahoma City.

One man, attracted by land along the right-of-way, told a fellow passenger to throw his baggage out in case he landed without accident, proceeded to jump out a car window while the train was in full motion between Mulhall and Guthrie. A young woman, who rode on the pilot of the locomotive and, (as had been agreed), when she signaled the train slowed down so she took possession of a quarter section.

A man laid claim to a tract, contending that he had arrived on

the train in Purcell at 2:10 p. m. and three and a half minutes later he was on the tract which was about three quarters of a mile from the depot. When the attorney for the other claimant ridiculed this contention, the man offered to duplicate his achievement and bet \$10 on the side; so attorneys, witnesses, court officials and many spectators went to the station and the claimant ran the distance in three minutes and 20 seconds. It was then learned that he was a nationally-famous runner.

One hundred thousand people, it was estimated, entered Oklahoma on the day of the opening. Fifteen thousand spent the first night in Guthrie and 10,000 in Oklahoma City. One historian says "nothing in the history of American pioneering, not even in California in '49 nor the Pike's Peak country in '59 equalled the rush into Oklahoma that day—in the morning, solitude and a wilderness as it had been through all the ages; midday, a surging flood of excited humanity; in the evening, tented town-sites with thousands of camp fires."

R. M. Almanrode visited Mr. and Mrs. J. B. Vaught, Mrs. M. A. Horton and Mrs. L. S. Partridge in Bowie Monday of last week. The Vaughts and Mrs. Almanrode went to Oklahoma City on Tuesday to visit a sister of Mrs. Vaught and Mrs. Almanrode, who is ill in the rode, who has been with her sister the past week, returned home with them.

Scotty Ponder of Lubbock visited his parents, Mr. and Mrs. E. R. Ponder, over the week end.

Released by The Texas Department of Agriculture

By JOHN C. WHITE, Commissioner

## A NEW LOOK AT THE DROUGHT

The Southwest—and Texas in particular—is still locked in the searing hot grip of the drought.

No one is more conscious of this fact, nor feels its effect more than our state farmers and ranchers. Every day, untold thousands more dollars in crop and beef production are paid in tribute to the merciless sun.

The drought made its appearance over three years ago. Record high temperatures in June ushered in the threat much earlier than last year. What will be its effect on yields and dollar gains in 1953?

Although it is too early to accurately predict actual money losses, a look at the cotton and cattle situation gives an advance picture as to what we may expect.

Judging from conditions of late June, Texas farmers will be fortunate if their 1943 cotton production equals last year's 3,808,000 bales. And last year was far from being "normal" since the state is capable of raising nearly 6 million bales.

Without immediate additional moisture in our cotton areas, we may expect the present production outlook of some 3,800,000 bales to fall off even more before the official U. S. D. A. forecast is released August 8.

The cattle situation is grim. All cattle shipping points report unusually heavy movements as ranchers continue to unload beef from ranges growing increasingly unfit for grazing.

Receipts of cattle at the Fort Worth market in recent weeks have been from 50 to 90 percent above those of a year ago. And in most cases, the stock is low-grade slaughter cows, yearlings and stocker yearlings. The same is true of all 12 major cattle shipping points in Texas.

One day last month, cattle receipts at a large Texas market totaled 10,500 head—the greatest number received at that point since August 8, 1934.

These two commodities alone—cotton and cattle—indicate it is time for farmers and ranchers to tighten their belts. Once again we have to look for disaster relief from the federal government. The movement is underway now to secure help for our stricken agriculture. If aid is secured from a sympathetic government, we will once more surmount the mounting obstacle of drought.

Mr. and Mrs. Jack McCall and daughter, Debbie, left last Thursday for their home in Grapevine after an extended visit here with her mother, Mrs. Rose Jones.

## Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M. D., State Health Officer of Texas

**AUSTIN** — A farm-to-farm, ranch-to-ranch survey of Texas water resources is now underway in an effort to gauge drought effect on public health.

The State Department of Health conducted a similar survey earlier this year on incorporated cities and towns, but it failed to show the status of privately owned water sources, such as farm and ranch tanks and private wells.

Information is being sought by questionnaires sent from the State Health Department to all county judges. When complete, Dr. George W. Cox, state health chief, says a compilation sheet will be made showing:

Towns with ample water supplies; towns with impending shortages; number of wells and tanks and the amount of water available from them; how much water is being hauled and from where; steps rural organizations are taking to relieve their shortages; to what extent is land being irrigated; and what outside help is necessary to relieve shortages in individual communities.

National attention has been directed to Texas in view of the drought-caused plight of West Texas cattlemen, but "there's more to this thing than just cattle," Dr. Cox said.

"When drought becomes widespread and as prolonged as this one, it affects every factor of state operation, including the public's health."

He said sanitation is the most serious threat posed by drought conditions.

"There's some typhoid in Texas now," he indicated. "Did contaminated water cause it? We're in the process of finding out."

He said the bulk of the questionnaires are due in "soon," and that a copy of the compiled data

## Home Demonstration NOTES

By Mrs. Georgia Faye Perkins, Home Demonstration Agent

Equip your garden shelf now with the supplies that are usually needed at one time or another for controlling insects on your flowers. According to Mrs. Georgia Fae Perkins, County Home Demonstration Agent, there are at least six ingredients which you will want to include. These are lindane, chlordane, poison bait, sulphur, lead arsenate, and oil emulsion.

Mrs. Perkins says each ingredient is particularly efficient for control of certain insects. Lindane used as a one per cent spray will help you kill the aphids, the tiny insect which is active from spring until fall. You can use lindane for the adult white fly, thrips or "rose petal lice," small beetles, leaf hoppers, young squash bugs and many others, but you may need a two per cent dust for the mature squash bug.

For the cutworms and some leaf-eating caterpillars, you will find chlordane in a five per cent dust or spray effective. Chlordane is also effective for killing saw bugs, white fly, lace bugs, thrips, beetles, flea hoppers, and leaf hoppers. Ants and grasshoppers will also succumb to treatment with chlordane.

The best control for slugs and snails is poison bait. Sow bugs or pill bugs eat small bait, so this is effective control for them.

Dusting sulphur will control the red spider and other tiny mites which yellow the leaves and kill evergreens, annual and other plants. It takes a spray of two or three tablespoons of lead

arsenate to a gallon of water to control the bag worms if applied when they are young. The grown bag worms need a double dose of the lead arsenate spray.

Oil emulsion spray will dissolve the troublesome scale that grows a waterproof cover on shrubs and plants.

"For detailed information, call or come by the office for a copy of LI32, Control of Insects and Allied Pests in the Flower Garden, says Mrs. Perkins.

## Brief Articles On The Draft Law And Regulations

IV.  
(Editor's Note: This is one of a series of short articles on the draft law and its rules and regulations.)

How does a draft board consider a draft registrant's case when it comes before the board in the manner governed by law and regulations?

The members of a board sit around at table—and the file containing the man's papers are placed before it by the clerk.

The board then considers the man from the following standpoints, based on information in the file:

1. Is he on active duty in the military service? (1-C).
2. Is he a conscientious objector who has been ordered to a civilian job? (1-W).
3. Is he too old for service under the law? (5-A).
4. Can it be determined at the board level whether he is physically, mentally, or morally unfit for service? (4-F).
5. Is he a minister of religion or divinity student? (4-D).
6. Is he subject to exemption as an alien? (4-C).
7. Is he a public official deferred by the law? (4-B).
8. Is he a World War II veteran as defined by the law? (4-A).
9. Is he subject to deferment because of his dependents? (3-A).
10. Is he eligible for deferment as a member of the armed forces reserve or a student taking military training? (1-D).
11. Is he a student in a college or university deferrable under local board authority? (2-S).
12. Does he meet the requirements for farm or other civilian job deferment? (2-C and 2-A, respectively.)

**FARMERS**—See us for your machine work. Russell Penick Equipment Company. 3-tfc

13. Is he a college or high school student subject to deferment by law for a short period? (1-S).

14. Is he one of the two types of conscientious objectors? (1-O and 1-A-O).

If the evidence in the file indicates to the satisfaction of the local board that he is eligible for none of these, then the registrant is considered available for military service. (1-A).

Mrs. Myrtle Meinzer was a business visitor in Knox City last Monday.

FORT WORTH—Strong point of the market Monday at Fort Worth was the demand for calves. Both stocker and feeder buyers and the packer buyers were competing strongly for the supply and the result was a strong to \$1 higher market. Both replacement and fat calves topped at \$20 to \$21 on Monday and were considered quotable over that in load lots of the proper kinds.

Cows were uneven, selling on steady to easier basis, with prices about in line with last week's close. Bulls were off \$1 per hundred.

Very small numbers of fat steers and yearlings arrived, and grainfeds were very scarce. Some broadening inquiry is noted for suitable feeders and indications are that sizable numbers of these fleshy grassers and supplementally fed steers and yearlings will wind up in feedlots.

Sheep and lambs were fully steady. Fat lambs topped at \$22 to \$23.50, and feeders drew \$12 to \$16.50, and were quotable to \$17 or better in loads and of suitable quality and weights.

Hogs moved at strong to 50 cents higher prices and again topped at \$27, the year's best levels, and equalling the best price in five years here. Pigs were steady at \$23 down. Pigs sold at \$22 down.

Good and choice fed steers and yearlings sold at \$18 to \$22.50, and are quotable to \$23.50 and above. Common to medium sorts sold from \$12 to \$17, with some rannihan yearlings \$9 to \$12.

Fat cows drew \$10.50 to \$14, while canners and cutters drew \$6.50 to \$10.50. Bulls sold for \$8 to \$14.

Good and choice fat calves sold from \$17 to \$21, and common and medium butcher calves drew \$12 to \$16. Cull sorts sold from \$8 to \$12.

Good and choice stocker calves sold from \$16 to \$21, and plain to medium sorts sold at \$12 to \$16. Good and choice stocker steer yearlings sold from \$15 to \$18.50, and heifer calves drew \$19 down, and heifer yearlings sold from \$16.50 down. Stocker cows cashed at \$10 to \$16. Older replacement steers cashed at \$12 to \$17.50.

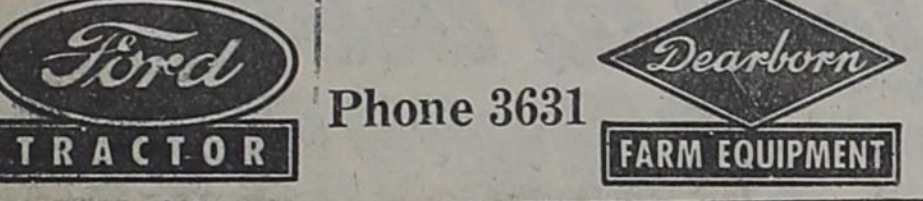

Good and choice fat lambs sold at \$20 to \$23.50, while cull, and medium offerings sold for \$8 to \$18. Stockers and feeders drew \$10 to \$16.50. Fat yearlings sold at \$12 to \$15, and feeder yearlings sold at \$10 to \$12. Slaughter ewes \$3.50-5.50, stocker ewes \$6.00-9.00. Old wethers \$6.00-9.00, yearling ewes \$13.00 down. Two-year-olds \$10.00 down.

Mr. and Mrs. Jim Langford of Lone Oak, Okla., visited Marlon Jones one day last week enroute to New Mexico on a vacation trip.

## Surging Power with a Single Purpose

Turning into traffic, you call on the surging reserve of acceleration that set new official AAA performance records for the Red Ram V-8.

# SAFETY!

When you choose a car for your family, you call on your good judgment to obtain every measure of safety.

One safety factor you should certainly consider is the magnificent reserve of power that Dodge provides in the 140-h.p. Red Ram V-8 engine.

This power is there when you need it: For passing, for turning into highway traffic, for crossing intersections.

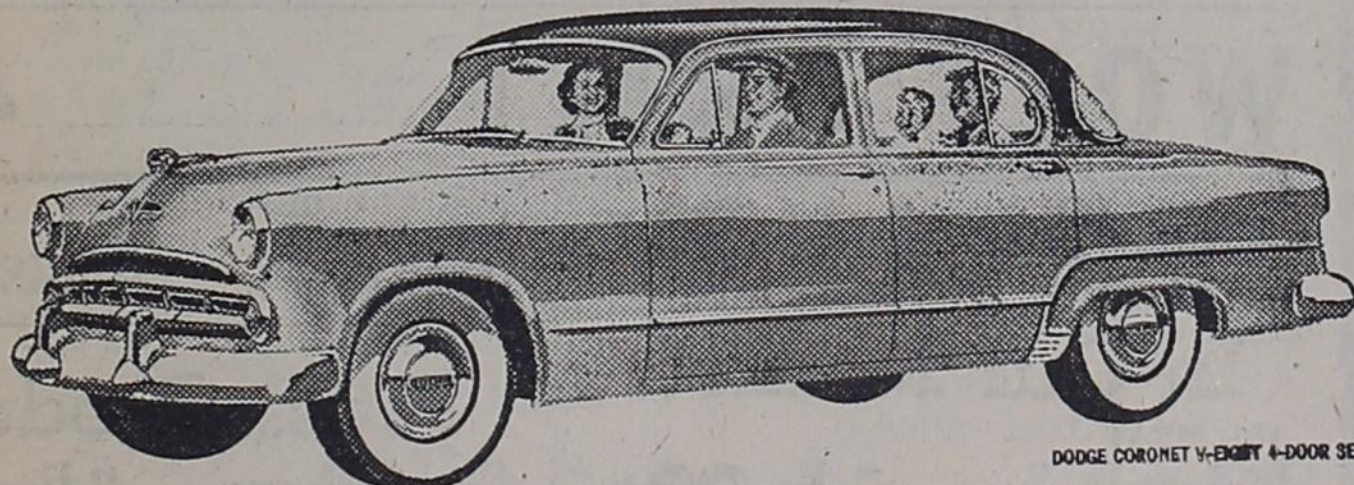

The cost of safety is very low: Dodge prices start below many models in the "lowest-priced" field.

Passing a truck on the highway, a touch of your toe brings instant, eager response. Dodge power reserve is a great safety factor.

Powerful brakes, capable of developing more than 700-h.p. in stopping power, team up with the Red Ram V-8 engine to bring you new mastery of every driving situation.

## News From The U. S. Congress

Congressman Frank Ikard

WASHINGTON, D. C., July 17—The instructions to the county drouth committees as to how they must administer the emergency feed program have been sent out of the Department of Agriculture here. These instructions state that: "To be eligible for feed at reduced prices a farmer or stockman must (1) have less than a 30-day supply of feed to supplement the roughage for the foundation herd to be maintained, except that such feed may be made available for cattle other than those in the foundation herd when such cattle, other than feeders in feed lots will be marketed not later than September 30, 1953; (2) not have the financial ability to remain in business and maintain his herd in a relatively satisfactory condition in view of present drouth conditions, unless he can purchase feed at prices substantially below prevailing market not eligible. To avoid any undue hardships, county committees should use reasonable discretion in carrying out these instructions."

These instructions appear, in

many respects, to defeat the whole purpose of the program. In the first place, it provides that feed may not be made available for cattle other than the foundation herd, after September 30, 1953, and according to the instructions, the foundation herd consists of cows, bulls, nursing calves, and such heifers as may be kept to replace over-age undesirable cattle. This very obviously denies feed for steers after September 30. This, of course, will mean that unquestionably large numbers of steers will be sent to the market around September 30, if not sooner, which is the very thing that should be prevented. It is also apparent that this will work an undue hardship on the small cattleman who has a few cows and a few steers, for it will mean that he will be unable to get feed under the drouth relief program for his steers after September 30 if he keeps them, while he can get such feed for his cows. In many such instances, the only chance the stockman has for recovery is to be able to carry over his steers until next year in the hope that marketing conditions will be better. If he cannot do this, it will mean he will have to take additional losses and the market will be further glutted

with unfinished cattle.

Another provision of the regulations provides that the cowman, in order to get feed, must not have the financial ability to remain in business and maintain his herd in relatively satisfactory condition. This, of course, is a very broad and in many respects meaningless language. If it is to be interpreted that in order to be eligible for feed, a person has to, in effect, take a "pauper's oath" a great hardship will be worked. It could be interpreted that anyone with an equity or credit, no matter how small or meager it is, could not participate in the program. Such an interpretation could only lead to further economic disaster in the drouth area and to a greater marketing of cattle, which, I repeat, is the very thing this program is supposed to prevent.

I am very fearful that the regulations as they now stand will defeat the whole purpose of the drouth relief program. A bill that would set aside a room in the Capitol building for prayer and meditation by the members of Congress. This action has been long overdue. I know this room can and will be put to good use by both the members of the House and of the Senate. Visitors from home in my office this week were: Mr. Roy A. Box, Jacksboro, Mr. F. M. Doyle, Decatur, Mr. Al Ellis, Mr. Enos Burt, Mrs. Doug Allen and Mrs. Dorothy Ellis Barr, all of Wichita Falls.

Mr. and Mrs. Shelton Phillips of San Angelo were week end visitors in the home of Mrs. Alex Jones.

### Luncheon Club Is Entertained In Crockett Home

Mrs. J. D. Crockett was hostess to members of the No. 8 Luncheon Club on Tuesday, July 14. Spring flowers were carried out in the home decorations, and a lovely luncheon was served to the following: Mmes. P. V. Williams, H. F. Jungman, T. G. Bengel, D. E. Holder, S. E. McStay, G. R. Eiland, A. H. Mitchell, Georgia Maples of Goree, and a visitor, Mrs. Hattie Williams of Abilene.

### Mrs. Williams Of Weatherford Guest At Coffee Friday

Mrs. P. V. Williams entertained with a morning coffee at 10 a. m. Friday, July 17, honoring Mrs. Roger Williams of Weatherford.

Attending were Mmes. C. P. Baker, H. F. Jungman, S. E. McStay, W. P. Farrington and A. H. Mitchell.

Mrs. Hollis B. Moore, Edna Marie and Patricia took Mrs. W. A. Montague and children to their home in Buda and visited over the week end. Mrs. Montague and children remained. They had been visiting her parents here the past month.

Mrs. J. E. Courtney of Fort Worth and Mrs. B. C. Cooner of Olton spent several days here last week, visiting their brothers, Burniece Bowden and Buel Bowden and family, and with other relatives.

Mrs. Idell Montgomery and children of Van Horn visited relatives and friends here and attended a family reunion in Graham during the week end.

Mr. and Mrs. L. B. Patterson, Sr., were Sunday guests in the home of Mr. and Mrs. E. E. Patterson in Rotan.

Mr. and Mrs. Kirby Fitzgerald and Mr. and Mrs. Bob Jarvis visited relatives in Wichita Falls last Sunday.

Mr. and Mrs. M. L. Barnard returned Friday from a two weeks vacation in McAlester, Okla., and Fort Smith, Arkansas.

### Engagement Of Newana Goolsby Is Announced Here

Mr. and Mrs. E. L. Goolsby are announcing the engagement and approaching marriage of their daughter, Newana, to Mr. Herschall Shuttlesworth.

Mr. Shuttlesworth is the son of Mr. and Mrs. C. T. Shuttlesworth of Troup, Texas. He was a graduate of Hardin-Simmons University in the spring of 1952.

Miss Goolsby will receive her B. B. A. degree from Hardin-Simmons University in Abilene at the close of the summer semester.

The wedding date has been set for Saturday, August 22, at the First Baptist Church in Munday, with the pastor, Rev. Huron A. Polnac, officiating.

### Thursday Luncheon Club Meets In Home Of Mrs. A. H. Mitchell

Mrs. A. H. Mitchell entertained members of the Thursday Luncheon Club with a luncheon in her home on Thursday, July 16th.

Shasta daisies were used as the theme carried out in decorations throughout the home. After a lovely luncheon, the evening was spent in playing eighty-four. The following ladies attended:

Mmes. W. E. Braly, J. C. Borden, C. P. Baker, Fred Broach, R. D. Atkeison, M. H. Reeves, W. R. Moore, R. L. Ratliff, S. E. McStay, Effie Alexander, A. A. Smith, Sr., Leland Hannah, P. V. Williams, H. F. Jungman, Oates Golden, Worth Gafford and Orb Coffman.

Marion Jones received word that his son, Jerry, has been transferred from Reno, Nev., to London, England, for three months.

Mr. and Mrs. Joe Harris of Lubbock were guests in the home of her parents, Mr. and Mrs. Joe B. Roberts, over the week end.

Harlow H. Curtice, left, president of General Motors, presents the \$25,000 first national award to Robert Moses, New York City Commissioner of Parks, in the General Motors Better Highways Awards essay contest. The presentation was made recently at a banquet in Detroit. Mr. Moses proposed that federal, state, and local governments spend a total of five billion dollars a year on highways for the next 10 years—almost double the present rate. He presented a tax program which he said would raise the necessary fund.

**Knox Prairie Philosopher Alarmed Over The City Group Which Tries To Fine A Man For Underfeeding His Cows**

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek no doubt is unduly alarmed over the matter he discusses this week. Pay no attention to him.

Dear editor:  
 Nearly every paper that turns up out here on my Johnson grass farm at the creek lately doesn't make any difference whether it gets here by whirlwind or falls out of my neighbor's mail box, for years I've had pretty good luck catchin my neighbor's papers as they fell out of his box, but lately he's straightened the post holdin it up and I have to worry with that paper for ten or fifteen minutes sometimes to get it to fall out. At any rate, as I started out to say, nearly every paper that turns up out here lately, has had something in it about the government's new policy of "hard money."

I do not understand this. That is, I understand what had money is, but I do not understand the talk about it's being a new policy.

I thought that was the policy we've had in effect for years. I've heard of easy money, but I thought it was mostly a campaign promise like reducin taxes. All the money I've ever earned was hard money, all the money I've ever borrowed was hard money, all the money I've ever repaid was even harder, and what I still owe is even harder than that.

To change the subject, I noticed in another paper yesterday where the Dallas Society for the Prevention of Cruelty to Animals filed a complaint against a man the other day for under-feeding a cow.

I did not pay much attention to this item until I got to thinkin about it, and I want you to know that while I ain't in favor of bein cruel to dumb animals, I'm afraid this Society is up against a pretty big job if it has any

they'd say if they came out here and gave a physical examination to some of my cows.

The way I look at it, you put a fine on a cattelman for not feedin in his cows enough, on top of goin broke right away on account of the price drop, and this country will wind up livin on vegetables.

Personally, with cattle bringin what they are now, I'm in favor of organizin a Society for the Prevention of Cruelty to Cattlemen. It's bad enough for a man not to feed his cows, but it's even worse for his cows not to feed him.

Yours faithfully,  
 J. A.

plans for movin against everybody in Texas who at the moment is under-feeding his cows. In West Texas alone the Society would probably go crazy, and I have a pretty good idea of what

Misses Nell Albus and Arleda Moore visited friends in Wichita Falls last Saturday.

Mr. and Mrs. J. D. Nelson and Gladene Nelson visited friends and relatives in Abilene recently.

Mr. and Mrs. Louis Cartwright visited on the Plains last week. While there they attended the Tulla picnic on the 17th and the rodeo that was held from the 15th through the 18th and saw many old acquaintances whom they had not seen for years. They reported a wonderful time.

Mrs. Rose Jones and Mr. and Mrs. Jack McCall and Debbie spent last week vacationing in Juarez, El Paso and Carlsbad.

Mr. and Mrs. C. O. Bullington of El Paso are visiting their son and family, Mr. and Mrs. Tom Bullington, this week.

Mr. and Mrs. Cecil Kilgore of Wetumka, Okla., were week end guests in the home of Mr. and Mrs. Ermon Thomas.

## Emergency Loan—

(Continued from Page One)

give standby agreements for a long enough period to enable the farmer to have a reasonable chance for recovery.

The Secretary will set up special loan committees to serve the whole state or a few counties, depending on the demand for this credit. Each committee will consist of at least three local persons having recognized knowledge of the livestock industry.

Most loan approvals will be handled by the local committees. However, whenever an applicant's total indebtedness would exceed \$50,000, final approval will be by the Secretary of Agriculture.

Authority for making livestock loans extends for two years.

The legislation passed by Congress also provides a supplemental source of emergency credit for established farmers—not limited to livestock operators—in areas designated by the President as major disaster areas. When the Secretary of Agriculture finds that farmers in these areas have felt the force of an economic disaster—such as a substantial price decline—to the extent they cannot get needed credit from local sources to carry on farming operations, he can authorize loans to meet that need.

Large areas of Texas and Oklahoma and parts of Colorado, Kansas, New Mexico and Arkansas have been designated as major disaster areas.

Emergency loans to help farmers hit by economic disaster will be similar to the disaster loans now being made by the Farmers Home Administration to farmers who have suffered production losses from natural disasters as drought, flood and windstorm. New loans will be made only during the period of the emergency. Lending will be handled by the Farmers Home Administration offices. Credit will be available at rates and terms to be established by the Secretary.

The new legislation also provides that in the future whatever expense the Government bears in supplying feed and seed in disaster areas will be borne by a disaster loan revolving fund under the jurisdiction of the Secretary of Agriculture. In the past, this expense had been carried by the President's emergency fund.

The other two new programs will also be financed out of the disaster revolving fund. About \$16 million is available at the present time. A request for additional funds is being made.

Wilburn A. Satterwhite, local FHA supervisor, and John B. Henry, Assistant Supervisor, met with FHA supervisors from Wilbarger, Haskell, Jones, Taylor and Callahan counties in Haskell, Texas on July 21 at which time the special emergency loans were explained by Wallace W. White, State Field Representative, Dallas, Texas.

### ROBERT L. HOWELLS ARE PARENTS OF BOY

Mr. and Mrs. Robert L. Howell of Texarkana, are proudly announcing the arrival of a big boy who made his arrival at a Texarkana hospital Sunday, July 19, at 5:15 p. m. His name is Gary Lee and he weighed 8 pounds and 4 ounces. His daddy, who is in the Navy and has been stationed in Japan for several months returned home on June 30th. ### Graham Youth Is Winner Of Bureau Scholarship Award

FORT WORTH — Norman Evans, senior in Graham High School, has won the 1953 Texas Farm Bureau Scholarship for outstanding leadership in the Texas Association of Future Farmers of America. J. Walter Hammond, president of the state Farm Bureau, made the presentation here today in ceremonies at the silver anniversary convention of the state FFA.

The scholarship, worth \$250.00 in books and tuition, can be used by the winner at any college in the state. The TFBF also gives similar scholarships each year to the outstanding 4-H Club boy and girl.

Evans, who lives at Eliasville in Young County, has an outstanding record in FFA work. He is presently state vice-president, past district and local chapter president, and has held a host of other positions in the FFA. He also held high offices in high school organizations, and received the Agriculture Medal for Outstanding Boy in vocational agriculture in his local school for two consecutive years.

The 1953 winner represented his chapter at the national FFA convention last year in Kansas City. He received his coveted Lone Star Farmer degree at the association's annual state meeting last year.

Miss Martha Hannig of Abilene spent last Thursday with relatives here.
