B. C. Smith that was present. Your own club members may know who you refer to when you leave out an initial or first name, but remember there are hundreds of other readers who do not. Accuracy as to dates and addresses is also requested.

### Health Examination Required of People in Public Food Places

Austin, Texas.—For the protection of the public a law was passed in 1921 making it mandatory for every person who is employed in any public eating place, bakery, meat market, dairy or candy factory to secure a health certificate from a reputable physician. This law is intended to eliminate all persons having any communicable disease from handling any foodstuff. These certificates are found numbers of times working in Typhoid fever, diphtheria, and amoebic dysentery carriers have been found numbers of times working in dairies, cafes, and other places where food is prepared or offered for sale. It is not too much for the consuming public to demand that those who sell them food shall be free from communicable diseases. If the examinations for food handlers are properly carried out much good will be accomplished in protecting the health of the buyer as well as giving the applicant for a certificate accurate information as to his physical condition.

The Texas State Department of Health has repeatedly advocated periodic physical examinations for the general public, as it is during these examinations that many incipient diseases may be discovered and treatment begun in time to stop its developing to such a degree that treatment will not be helpful. Many deaths and much suffering would be eliminated if every one would have this periodic check. In the case of food handlers, only the diseases that are communicable will withhold the issuance of a certificate. The cost is money well invested and the consuming public should demand that those they buy from have this evidence of good health.

### HOW YOUNG FOLKS ENJOYED THEMSELVES 40 YEARS AGO

The clipping below was taken from a Plano, Texas, newspaper of 1894 and illustrates the way that young people entertained in those days, according to T. L. Hughton of this city who was present for the occasion referred to. Miss Lula Beverly, now Mrs. T. L. Hughton, was also present. The social took place in the home of T. F. Hughton, uncle of T. ## CHURCHES

### Christian Science

Sunday, 11 a. m. Subject for Sunday, March 18, 1934. Subject: "Substance."

Sunday School at 9:45. Reading Room open Monday, Thursday and Saturday 2 to 5 p. m. Wednesday evening service at 8 o'clock. The public is cordially invited.

### First Baptist Church

The Gospel of Christ has raised nations above the habits of beast. The church is the institution to proclaim the gospel. Why not make greater investments of time, talent and money in the institution which has the message of eternal salvation to every soul that believeth in the Christ of the Cross.

All regular services Sunday.  
O. L. SAVAGE, Pastor.

### Methodist Church

Sunday, both in percentage and actual attendance, we outdistanced both Chillicothe and Quanah. We also placed second in percentage for the contest to date. Our attendance was 592. Chillicothe's 482 and Quanah's 456. If we will make up our minds to attend the services of the church we will be able to top the list. I was asked last week "What makes you think we can beat Chillicothe?" I will pass this question on to you. The best answer will be announced from this column. What is your answer? Their total points are only 27 ahead of ours after the bad start we got in the contest the first two Sundays. Remember the children's Sunday afternoon attendance counts also in this contest and their staying for church. Is religion the dramatics?

The first Vesper service registered 100 per cent over the last night service we held. Remember this hour is 5:30. We will sing only new songs only thing in which we are behind our neighboring towns? Why should we let them outdistance us in loyalty to the program of the church any more than we do in athletics or Sunday morning and evening and Ray Nichols will speak to us at that hour. Choir practice is changed to Monday 7:30. We had a fine practice Monday.

GEO. E. TURRENTINE.

### Christian Church

Sunday, both in percentage and timing until we have a minister we will have a full morning service from ten to twelve o'clock. After the Sunday school and communion Mrs. Roberts will teach the studies in Christian Action, which are as fine studies as could possibly be used. Should anything happen at any time to prevent these studies for one or more Sundays, some other service will be arranged.

When we have a minister, these Sunday morning services will be changed to suit the new program of half-time or full-time preaching as the case may be.

Bro. Spreen after his return to Fort Worth notified us that he could not come as our pastor. We hope by next Sunday to make definite announcement about securing someone else.

Our young people are doing splendid work in their Christian Endeavor Society. Last Sunday's service was the best they have had and was entirely arranged and carried out by the young people themselves. Provisions are being made for more literature, pledge cards, a more complete organization, proper social fea-

tures, etc. All young people, who can, are invited to attend these services and become a member of the Society. The scripture text for the Christian Action studies is Romans 12:1-2. Read these and the succeeding verses of that chapter in preparation for the study class from eleven to twelve o'clock each Sunday.

### Christian Science Churches

"Substance" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 18.

The Golden Text is: "Behold, God is my salvation; I will trust, and not be afraid; for the Lord JEHOVAH is my strength and my song; he also is become my salvation" (Isaiah 12:2.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "To make known to the sons of men his mighty acts, and the glorious majesty of his kingdom" (Psalms 145:12.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Substance is that which is eternal and incapable of discord and decay. Truth, Life, and Love are substance, as the Scriptures use this word in Hebrews: 'The substance of things hoped for, the evidence of things not seen.' Spirit, the synonym of Mind, Soul, or God, is the only real substance. The spiritual universe, including individual man, is a compound idea, reflecting the divine substance of Spirit" (page 468.)

It is a striking fact that the greatest life ever lived concentrated its energies upon a tiny area. Palestine does not comprise much more than 9,000 square miles, which makes it about the size of your state of Vermont. Now Jesus stepped outside this small region only once, in the incident of one lesson. Except for this, He lived entirely within the Holy Land, carried on a varied ministry in Galilee and Judea, with brief excursions into Samaria and Perea. Within this circumscribed district the Master lived the most complete and perfect life of which history has any record. As our lesson text points out, he conceived His mission in definitely Jewish terms. "I have only been sent to the lost sheep of the house of Israel." (Chap. 15:24.)

## SUNDAY SCHOOL LESSON

by Charles E. Dunn

Jesus Responds to Faith.

Lesson for March 18th, Matt. 15:53-16:12.

Golden Text: Matt. 7:7.

It is a striking fact that the greatest life ever lived concentrated its energies upon a tiny area. Palestine does not comprise much more than 9,000 square miles, which makes it about the size of your state of Vermont. Now Jesus stepped outside this small region only once, in the incident of one lesson. Except for this, He lived entirely within the Holy Land, carried on a varied ministry in Galilee and Judea, with brief excursions into Samaria and Perea. Within this circumscribed district the Master lived the most complete and perfect life of which history has any record. As our lesson text points out, he conceived His mission in definitely Jewish terms. "I have only been sent to the lost sheep of the house of Israel." (Chap. 15:24.)

One is reminded of the great German philosopher, Immanuel Kant, who, although much interested in geography, was never more than a few miles distant from his native city Konigsberg, in Prussia, and never saw the sea, which could be reached by a walk of two hours. In that relatively unimportant provincial capital he spent a long, full life, rich in friendship, and profound in thought. A more familiar example is our own Henry David Thoreau, who could never be persuaded to leave his native Concord, then a village of some 2,000 folk only.

If people would be content to stay where they are, and live simply, making the most of what is immediately at hand, life would be much more serene and wholesome.

Jesus, however, did once cross the border of Palestine into the Gentile territory of Syria, seeking retirement and recreation. But His fame had preceded Him, and at once He was sought out by a Canaanitish woman of the district who persistently demanded that her sick daughter be relieved. So impressed was the Master by her ardent faith that He granted her request.

Thirsty after a game of golf, J. C. Broderick of Evanston, Ill., drank from a jug filled with lye and died shortly afterward.

## MEDICAL ADVICE

If you want to... keep the bowel action regular and comfortable... make constipated spells as rare as colds... avoid danger of bowel strain—use a liquid laxative

Can constipation be overcome? "Yes!" say medical men. "Yes!" declare thousands who have followed their advice and know.

You are not apt to cure your constipation with salts, pills and tablets, or any habit-forming cathartic. But you can overcome this condition just by gentle regulation with a suitable liquid laxative.

Dr. Caldwell's Syrup Pepsin has the average person's bowels just as regular as clockwork in a few weeks' time.

### Why Hospitals use a liquid laxative

The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. Will not irritate kidneys.

The right liquid laxative will bring a perfect movement, with no discomfort at the time, or afterward.

The wrong cathartic may keep you constipated as long as you keep on using it!

In buying any laxative, read the label. If it contains a doubtful drug, don't take it. If you don't know what is in it, don't chance it. The contents of Dr. Caldwell's Syrup Pepsin is stated plainly on the label; fresh herbs, pure pepsin, active senna.

Its very taste tells you syrup pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. Drug stores have it, ready for use, in big bottles.

## H. D. and 4-H Club Activities

"I mean to be there every time" says Mrs. J. B. LaRue, sponsor of the Margaret 4-H Club. She has been present at every meeting of the club and has worked with the girls in their committees and other outside work. She was largely responsible for the training of the girls' 4-H team who gave a team demonstration in Wichita Falls last week. In addition to her duties as sponsor for the girls, Mrs. LaRue is Vice President of the Margaret Home Demonstration Club, that club's council representative, chairman of the finance committee of her club, and a member of the expansion committee of the council. She can always be depended on, according to members of the council and her club.

The Foard County 4-H team placed fifth in the team demonstration given at the district meat show in Wichita Falls on Thursday, March 8. The girls of the team were Dorothy Bell and Loraine Goodman, both of the Margaret 4-H Club. Their team demonstration was the making of a meat pie using scrap meat which had been cooked off of the bone and canned. They made the pie together, one or the other talking while the other worked. They finished their demonstration in about fifteen minutes.

His very tone appealed. For an instant his pride broke, there was hunger and longing in his voice. She gasped.

"I—I'd like to go home first—I—what do you mean, Richard?" He gave her a tense look. "I'm human—God, I'm human!" he said. "You know what I mean!"

She hung her head, she did not know what to do, but—unconsciously—she wrung her hands. "Can I come home with you now," Richard pleaded, "and see your father and mother—or am I to stay here?"

"Oh, I must go!" she gasped, "I must!" "Go? As you will, Nancy; see—I keep my faith," and he stepped back aside his own gate and stood there, waiting to watch her.

She felt his eyes, gave one glance back, whitened to her lips and fled.

Richard was a proud man and he reddened under his tan. He had seen the agony in her face when she shivered at his touch, she, his wife—incredible! Then the flame of passion leaped up again. "She's mine—mine!"

He was startled at a voice. "Richard, I've been waiting ever so long for you!"

It was Helena Haddon standing at his door.

He was taken aback without reason. It was no unusual thing for Helena to come. He was the Haddon's physician and she came—sometimes with bald excuses, sometimes in real need of something to quiet her nerves, but today—

"What's the trouble?" he asked, striving to be natural. "Nerves again, Helena?"

"Oh, it's everything!" she smiled at him. "It's the nerves and King—and the spring weather."

"Principally the spring weather, I fancy," he said reassuringly, opening the door for her.

He meant to take her into his office, but she walked straight into the library. He saw her mood and he had begun sometimes to fear its consequences; today he was thinking hard: "At least I don't have to tell her now."

"I hope you haven't got the same old headache, Helena?" "No, it's not my headache," Helena laughed, looking around at him, opening her green eyes wide and laughing at him. "I see there's been a visitor here before me," she added mockingly.

## Former Foard Man on Tech Expedition to Yaqui River Country

Lubbock, Texas, March 7.—Texas Technological College's first major expedition is now on its way into the heart of the Yaqui River country of Sonora, Mexico, where original research as to the history, customs, and habits of the Yaqui Indians is hoped to be found by Dr. W. C. Holden, leader of the group.

Three recognized scientists, a surgeon, a newspaperman, a clothing merchant, and a first string Matador football player make up the party. The scientists are, Dr. W. C. Holden, historian and anthropologist, and Dr. R. A. Studhalter, ethnobotanologist, of Texas Technological College; and Dr. Carl Seltzer, physical anthropologist, of Harvard University.

Dr. Charles J. Wagner, Lubbock surgeon; Charles A. Guy, publisher of the Lubbock Avalanche-Journal; Ross Edwards, Lubbock clothing merchant; and Bennie McWilliams of San Benito, first string tackle on the Matador football team and student in anthropology who is to act as cook, interpreter, and truck driver, complete the party.

Two cars and a heavily loaded truck are being used for transportation. A week's time is expected for the trip to the camping base which is about 80 miles inland from Guaymas, Mexico, on the Gulf of California coast. Stops have been planned in Van Horn and El Paso, Texas; Tucson, and Nogales, Arizona; and Hermosillo and Guaymas, Mexico.

They will be joined by representatives of the Yaqui Indians in Tucson and escorted through the bad lands to Guaymas, the nearest city to the base. The return has been set for April 15.

(Editor's Note—Ross Edwards, who is mentioned above as a member of the party, formerly lived in Crowell and Foard County.)

utes, working before a large audience of spectators. This was the girls' first experience with team demonstrations and they received much favorable comment on their work.

A new closet which is now practically complete is the first step taken by Edna Lynn Thompson in her work as bedroom demonstrator for the Foard City 4-H Club. The closet was placed in one corner of the room between two doors. The room is a nice large one so that the space occupied by the closet is not needed. Edna Lynn plans to make a number of other improvements in her room, including new paper for the walls.

## VIVIAN CLUB MEMBERS HAVE ALL-DAY MEETING

The Vivian Home Demonstration Club met at the home of Mrs. J. H. Myers last Thursday with ten members, including one new member, and nine visitors present.

The meeting was an all-day affair with quilting taking up the major portion of the morning. When finished the women surprised T. W. Coopers' mother by presenting her with the friendship quilt, which had been pieced by thirty-five women, each woman embroidering her name on a block. "Grandma" Cooper had previously expressed a desire to sleep under a quilt like the one that was about to be finished, not realizing that it was being made for her. She is 78 years of age.

Each woman present carried something for the lunch at noon, after which the regular club meeting was held.

Mrs. Clyde Bowley was elected secretary to succeed Miss Rosalie Fish who is in school at Abilene. The roll call was answered by naming a Texas flower and describing it. The visitors were: Mesdames John Marr, Ike Everson, E. L. Bishop, L. T. Boren, Hudgeon, Johnson, Grandma Cooper and Rutledge.

The next meeting will be with Mrs. C. L. Goble. It is hoped that all members and many visitors will be present.—Reporter.

## THALIA H. D. CLUB

The Thalia Home Demonstration Club met March 7 at the home of Mrs. W. G. Chapman with 13 present, two new members and one visitor.

Mrs. W. J. Long, vice president, presided over the business meeting.

The subject, "Good Reading," Mrs. W. H. Gray, leader. Importance of good reading, Mrs. Charlie Wood. How to cultivate good taste for literature, Mrs. Clyde Bray. Can I find time to read, Mrs. Andy Thompson. The county library, Mrs. Mack Edens. The newspaper, Mrs. W. S. Tarver.

We adjourned to meet in the home of Mrs. Mack Edens March 21st with Mrs. W. J. Long as leader.—Reporter.

## When You Discuss Electrical Appliances . . .

What are the most important operations of your home?

Modern homemakers all agree on these!

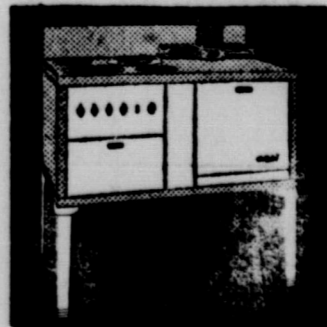

REFRIGERATION . . . You need constant refrigeration the year round, and you will enjoy the money-saving, health-guarding superiority of electrical refrigeration.

WATER HEATING . . . You need hot water many times each day. The modern electric water heater gives you a surplus of hot water, and for good measure adds safety, cleanliness, health, dependability, comfort and convenience.

COOKERY . . . Nothing so important. This inexpensive "Electric Cook" is worth immediate investigation. Electric cookery is simple—yet accurate, clean and economical.

LAUNDRY . . . Very necessary—but dreaded each week. Enjoy a "happy" washday by installing a combination washer and ironer. Cut washday to a fraction of the time usually required the old way.

THESE WILLING, INEXPENSIVE SERVANTS—the electric range, refrigerator, water heater, and washer and ironer—will improve your home by doing your work better, and save time, health, money and clothes. Don't consider these modern and efficient automatic electrical servants as longed for luxuries! . . . They are all dividend-paying necessities. They pay for themselves. Take advantage of these appliances at our convenient terms and prices—and take advantage of the lower step in electric rates. A representative will be glad to call and discuss them with you.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and operating costs amount to but a few pennies a week?

### New Basketball League

Now that we have four new basketball teams in the local league that has just been started, we consider that each should have its own pep squad and take the liberty to suggest that the following leaders be appointed:

Chas. Thompson for Gordon Bell's boys.  
J. H. Lanier, Jr., for Grady Graves' group.  
George Cates for Eli Smith's sharpshooters.  
O. O. Hollingsworth for Bill Middleton's mighty men.

Plenty of entertainment is promised all who attend the games of the new league and at the same time the 5c and 10c admission charge for the double-header programs will help pay for the new gym.

The first games were played Monday night and provided some of the most interesting basketball seen here this season. According to the response of the fans, the substitution of Jack Thomas for Dick Todd was the sensation of the evening. Despite Thomas' stellar work his team did not score a point after Todd left the game on personal fouls in the last quarter.

Ralph Burrow, who is helping the U. S. Navy protect this nation's interests about the Pacific Ocean, writes Typo from San Diego about some of the Navy's new developments. One of these is a device to pick up a seaplane from the ocean while underway. A portion of Ralph's letter follows:

"We recently picked up a plane in a rough sea while making 33 knots. The U. S. S. Trenton, which I am on, is a light cruiser and carries two seaplanes, which are shot from the ship while it is making 15 to 35 knots per hour. This is done with a 40-foot compressed air catapult. I recently saw 79 planes land in 40 minutes on the U. S. S. Lexington, an airplane carrier, while that ship was making 23 knots per hour. We were sailing in formation and were about 100 yards from the Lexington."

### A Fine Record

"Crowell has the cleanest team we have ever played," stated Howard Lynch, Amarillo High School basketball coach, following his team's second game.

### TOURNAMENT COMPLETED

The P. T. A.'s "Vanishing 42" parties which have been in progress since Friday, Feb. 23, ended March 10th, bringing into the treasury a total of \$42.46. This project was under the direction of the P. T. A. finance committee, Mrs. Oscar Boman, chairman.

ond game with the Wilsons Saturday, March 11. Similar comments have many other coaches for years in regard to membership all athletic teams. It is pleasing for local fans to their athletes not only an unusual record in victory forms of competition, but are also real leaders in manship.
