Wildcat Football Team Will Go to Holliday Friday Night; Both Clubs Have Won One Conference Victory

Committees Have Been Appointed for Annual Red Cross Roll Call

All committees have been appointed and arrangements have been made to open Foard's annual Red Cross drive on next Tuesday morning, according to Jack Seale, Red Cross Roll Call chairman for the county. The business section, the residential district and the convenience of the committees will be canvassed at the earliest convenience of the committees and it is hoped that the work can be finished at an early date. Due to unfavorable weather conditions, it is suggested that the personnel of the rural committees, but the chairman and their committees, as far as is known, follow:

In past years, the leaders have been satisfied with a family representation in membership, but in the face of the facts that the goal has been raised, on account of the greater need, there will have to be more than one membership in a family, wherever it is at all possible. It is suggested by Mr. Seale that the men leave membership dues for the wife at home so that she will be prepared when the solicitors come to the home and thereby save the necessity of a second trip.

The leaders are as follows: Jack Seale, general chairman of Roll Call; Mrs. H. Schindler, chairman of residential district; John Rasor, chairman of business district; Wade Callaway, chairman of rural committees; Mrs. Schindler to assist her; Mrs. W. B. Hanson, Mrs. Clint White, Mrs. E. Beverly, Mrs. Oscar Gentry, Mrs. L. A. Andrews, Mrs. M. N. Bennett, Mrs. Q. V. Winningham, Mrs. T. V. Rascoe, Mrs. G. L. Cole, Mrs. W. A. Cogdell, Mrs. F. Russell and Mrs. J. A. Stovall.

John Rasor, chairman of the business district and special groups, has Miss Blanche Hays, Mrs. Bertha Womack, Mrs. Ura D. R. Magee, Glen Goodwin and J. R. Beverly as solicitors of the down town business houses. The special groups are in three parts. Industrial with Munson Welch in charge, the school with Mrs. F. A. Davis, and the court house with J. A. Stovall, the solicitor.

The rural communities under the leadership of Claude Callaway, have for chairman: Foard, Mrs. T. M. Whitty; Vivian, Mrs. Rosalie Fish; Texas Co., Mrs. Beadie Meason; Thales, A. B. Wisdom with Will Wood and Rev. T. J. DuBose; Rayland, Mrs. Tom Lawson; Riversdale, Mrs. John S. Ray; Margaret, Mrs. Dan Dunn; Four Corners, Mrs. Frank Cates; Black, Mrs. C. D. Hill.

RELATIVE KILLED

Grover Cole has received word that a cousin, a niece of his father, was killed in an automobile accident near Temple on Sept. 22. At the same time, a son of his cousin was also killed and two other sons were seriously injured. They have recovered, according to the letter received by Mr. Cole. Another son of the lady would have been with the party, but for the fact that he had been enlisted in the Navy for three weeks. The family had been to Denver, Colo., to visit the husband and father who was employed there at the time. The family lived at Austin.

Bomber Saboteur?

William Etzel, 22, paint foreman at the Glenn L. Martin airplane plant, Middle River, Md., who was arrested by FBI agents, charged with acts of sabotage to bombers.

The Crowell High School football team will go to Holliday for another conference game Friday night. Both of these clubs will be trying for their second conference victory. Holliday defeated Archer City, for its only victory in the conference, while Crowell was winning from Iowa Park. The Holliday Eagles dropped a game to Chillicothe last week by a 13 to 0 score. Boney, fullback for Holliday, is one of the outstanding passers of the district, and the Wildcats should see plenty of passes thrown Friday night.

The Crowell boys received a much needed rest last week. Arnold Smith, outstanding left end, will be playing in his first conference game. His injured hip has healed, permitting him to work out all this week. Paul Yeocera is still lame from a hip injury received in the Chillicothe game. His guard position will be taken care of by Fred Pierce, who did such a splendid job in the Iowa Park game. Paul should be able to see some service Friday night. Dewitt Cauthan, right half, received a leg injury in Monday's workout that will force him to the sideline. C. J. Kelton will play that position against the Eagles. Crowell's probable starting line up is as follows:

Arnold Smith, left end; T. L. Owens, left tackle; Alton Roark, left guard; Kenneth Archer, center; Fred Pierce, right guard; Harold Canup, right tackle; Charlie Thompson, right end; Albert Bird, quarterback; Rudolf Halenak, left half; C. J. Kelton, right half; and Bobby Spears, fullback.

Wildcat Editorial Receives Comment from State Press

An editorial about editorials printed in the Crowell High School Wildcat Sept. 25 appeared in the State Press column of the Dallas Morning News Oct. 31 with favorable comment by J. J. Taylor, editor of the column. It follows:

ABOUT EDITORIALS

"Wildcat in Foard County News (Crowell). Editorials are hard to write. First you have to choose a good subject. There are very few good subjects left in the world, so somebody has to write on the worse subjects. It is one of these worse subjects that I am going to endeavor to write on. The subject is studying. Now, if you don't study it is a bad subject, try it some time. People study in many different ways. A happy-go-lucky person studies, one brain cell on his lesson while another brain cell is replaying Friday night's football game. A serious person almost always has deep concentration on his subject or lesson. A lazy student reads his lesson for one minute, then he leans back and rests for four minutes. A naturally smart person reads his lesson once, then remembers all he has read. A dumb person reads his lesson six times and remembers nothing at all. A person who doesn't care never opens a book. An interested person reads and studies until his eyes become weak. A person who knows it all is trying to cover up what he doesn't know. Studying is important, try to do it right if you do it at all."

State Press comment:

The Wildcat is the student publication of Crowell High School, we gather. Its editor wrote a good editorial, although starting out by saying editorials are hard to write. They are hard, until you learn how. Until you know how to start with an idea and expand it sentence by sentence—just like the Wildcat editor did in his editorial. Naturally there has to be an idea to start with. How to get the idea is the hard part. Mr. Roosevelt, in his Navy Day speech, had an idea to begin with. He widened that idea, elongated it and put a bit of embroidery on it here and there. In the main, though, he delivered an oral editorial. He told how Herr Hitler aims to destroy established religions and substitute one of his own conceiving. It isn't likely that Herr Hitler will succeed, yet it was a good editorial and emphasized the duty of all religionists to combat the pagan. Incidentally the Grand Mufti of Jerusalem, Mohammedan high prelate, has landed in Rome, the seat of the Catholic Church. But Signor Mussolini isn't introducing the important Romans.

NEW CAR REGISTRATIONS

The following new motor vehicles were registered in the office of the tax assessor-collector, A. W. Lilly, since last report: M. L. Hughston, 1942 Ford Deluxe tudor. Dr. Hines Clark, 1942 Ford Deluxe coupe. Bill Crenshaw, 1942 Plymouth Special Deluxe tudor.

The Call America Heeds

The Red Cross nurse is the symbol of the 1941 American Red Cross Roll Call poster, appealing to all men and women to join their local chapters during the annual Roll Call. Bradshaw Crandell, distinguished poster artist, painted the poster and Frances Fadden is the model.

NFLA Area Directors Meet at Childress

Better times on Texas farms and ranches are reflected in the "most consistent farm mortgage debt retirement in years," said Mr. C. P. Sandifer upon his return from a conference of leaders chosen by the boards of directors of 19 national farm loan associations in this territory. The meeting was held in Childress on November 4, the national farm loan association representatives discussing conditions and the 1941-42 plans with officers of the Federal Land Bank of Houston.

Records of the Federal Land Bank reveal foreclosure sales and requirements of farms, for the year ending September 30, were the smallest since 1931—twenty percent below the previous year. Delinquencies are the lowest in several years.

During the past year in Texas land bank and land bank commissioner loans were made for a total of fourteen million dollars, which is the largest dollar volume since 1935. Total land bank loans in the amount of \$12,540,757.00 and land bank commissioner loans in the amount of \$3,828,980.00

Tour of Inspection Planned for H D Clubs

Miss Joellene Vannoy, Foard County home demonstration agent, announces that the Foard County tour of demonstrations will be conducted on Friday of this week (Nov. 7). Everyone in the various clubs is invited to meet at the court house at 9:30 a. m., and to bring a covered dish and dishes from which to eat. The following is the schedule for the day: 10 a. m., Mrs. W. A. Cogdell, West Side, Yard; 10:30, Mrs. Sam Tate, West Side, Yard and Home; 11, Mrs. Pearl Kamstra, West Side, Pantry; 11:30, Mrs. Floyd Borchardt, Foard City, Pantry; 12, Mrs. A. L. Davis, Foard City, Yard and Lunch; 2, Mrs. Virgil Johnson, Foard City, Home and Yard; 2:30, Mrs. Tom Bursey, Black, Yard; 3, The Roy Ayers family, Riverside, Whole Farm Demonstration; 3:30, Mrs. Joe Bledsoe, Margaret, Home; 4:15, Mrs. T. W. Cooper, Vivian, Pantry; 4:45, The Egbert Fish family, Whole Farm Demonstration.

were outstanding as of September 30, 1941, in the 19 associations representing this area.

Closed Coal Mines Four Days

Pictured above is John L. Lewis as he appeared at a press conference before a truce brought an end to a strike of 35,000 miners in the nation's "captive" coal mines. When the picture was taken Lewis declared he was telling President Roosevelt "no" in response to a White House request for a settlement of the dispute. But after a conference between the President, Lewis, Myron Taylor, former head of U. S. Steel, and William Davis of the National Mediation board, the miners went back to work under terms of a 15-day truce which called for further mediation of the issues involved.

RED CROSS MEMBERSHIP DRIVE TO START NEXT TUESDAY, NOV. 11; QUOTA FOR FOARD COUNTY 550

Driver's License Setup Organized

New Schedules to Prevail in this Area

State Highway Patrolmen in Vernon this week announce the new schedule for the issuance of driver's licenses, and issue complete and official instructions to persons holding the old Texas operators licenses, as well as instructions to those who will be affected by the new classifications of drivers under the present law.

Special attention is called to the time and method of renewing the old licenses. The renewal time for all outstanding operators licenses depends on the serial number of the individual license. The following table will show just exactly when your license needs to be renewed:

Licenses bearing serial numbers from 1 to 450,000 expire Dec. 31, 1941, and can be renewed any time after Nov. 1, 1941.

Licenses bearing serial numbers from 450,001 to 900,000 expire March 31, 1942, and can be renewed after Jan. 1, 1942.

Licenses bearing serial numbers from 900,001 to 1,350,000 expire June 30, 1942, and can be renewed after April 1, 1942.

All licenses bearing serial numbers from 1,350,001 and upward, including all licenses issued on or before Sept. 30, 1941, shall expire Nov. 1, 1942, and can be renewed after July 1, 1942.

Any licensee failing to make application for renewal within the above specified time, may be required to take the examination as required for an original license.

Classification of Drivers

Under the present drivers license law, drivers are divided into three classes; namely: Operators, Commercial Operators, and Chauffeurs. These classifications are defined as follows:

Operator: "Every person, other than a chauffeur or commercial operator, who is in actual physical control of a motor vehicle upon a highway." This license covers the operator of a passenger car only. Fee for this license is \$0.50 for two years.

Commercial Operator: "Every person who is the driver of a motor vehicle designed or used for the transportation of property, including all vehicles used for delivery purposes, while said vehicle is being used for commercial or delivery purposes." This license covers the driver of any kind of a truck, and is required for the driver of any truck, truck and trailer, pickup, etc. The owner-ship of the vehicle or the property makes no difference. Drivers of farm trucks hauling farm products are included in this class. A holder of a commercial operator's license does not have to have an operator's license, as the one license will be good for both the truck and his passenger car. The fee for this license is \$1.00 per year.

Chauffeur: "Every person who is the driver for wages, compensation, or hire, or for fare, of a motor vehicle transporting passengers." This license is required by bus drivers, taxi drivers, school bus drivers and private chauffeurs. A holder of this license may legally drive any motor vehicle in the state. The fee for this license is \$3.00 per year.

New Time Schedule

In order to facilitate the issuance of the new licenses, the personnel of the Drivers License Division has been increased, and additional time has been assigned to all towns in this area. The new schedule is as follows:

- Monday: 8 a. m. to 5 p. m.—Vernon.
- Tuesday: 9 a. m. to 12 noon—Benjamin. 2 p. m. to 4 p. m.—Guthrie.
- Wednesday: 8 a. m. to 5 p. m.—Seymour.
- Thursday: 9 a. m. to 12 noon.—Crowell. 2 p. m. to 5 p. m.—Quanah.
- Friday: 9 a. m. to 4 p. m.—Electra.
- Saturday: 8 a. m. to 5 p. m.—Vernon.

All license work in this section will be handled by Patrolman-Examiner A. F. Temple, who will be stationed in Vernon.

HOSPITAL NOTES

Foard County Hospital

Patients In: Audie Brown, Garland Denton, Baby Ranjel.

Patients Dismissed: R. C. Johnson.

National Defense Meeting Will Be Held Tonight

At 7 o'clock this (Thursday) evening in the District court room of the court house, there will be a meeting sponsored by the Foard County U. S. Department of Agriculture National Defense Board. The meeting is for everyone and it is hoped that many will attend.

The meeting will be under the leadership of Grady Halbert, chairman of county U. S. D. A. Defense Board, and the main speaker is to be Frank Wendt, Hardeman County Agent, who will talk on "The Food Situation in England," as reported by R. M. Evans, National administrator of AAA, who has recently returned from England and who made an address in Waco Tuesday night, which was heard by Mr. Wendt. It is hoped that G. R. McNeal of Wichita Falls, Wichita County Agent, will also be present.

An explanation will be made of what the farmers will be asked to produce in the Food-For-Freedom campaign. There is necessity that the business men co-operate as well as the farmers, because the producer must have an outlet for the products that he is scheduled to produce. This meeting is for the information of all people of the county.

Red Cross Roll Call Proclamation Issued by Mayor Schlagal

WHEREAS conditions in the world today have necessitated an unprecedented peacetime extension of our Army, Navy, Marine Corps, Coast Guard; and

WHEREAS our national civilian defense program necessitates a strengthening of all those services essential to the public health and welfare; and

WHEREAS no section of the United States is free from the threat of natural catastrophe or disaster, such as flood, hurricane, tornado, drought, earthquake, fire, explosion, epidemic, and

WHEREAS the international situation still continues to cause intense distress among innocent victims, making essential American aid to suffering humanity abroad; and

WHEREAS the American Red Cross is the only organization in our land equipped and ready, first, to assist, advise and otherwise serve the men of our armed forces and their loved ones at home; second, to carry on in our own and every other community such indispensable welfare programs as Red Cross Public Health Nursing, instruction in Home Nursing, First Aid, Water Safety and all kinds of Accident Prevention, and through the Junior Red Cross in the schools, to act as the medium for service by our young people; third, to render protection and relief in case of the above-mentioned disasters, and fourth, to undertake the administration of American aid to stricken noncombatants and refugees abroad;

THEREFORE, I, C. T. Schlagal, Mayor of Crowell, Texas, proclaim the period of the 1941 American Red Cross Annual Roll Call, from November 11 to November 30, a time during which the public spirited people of this community, both men and women, boys and girls, should make every effort to support and strengthen the Red Cross by enrolling through our local chapter as members of the

Jack Seale, chairman of the Red Cross Roll Call for Foard County, has announced that the annual drive is scheduled to begin on Tuesday, Nov. 11. The committees have been appointed and the work will be started at the proper time and it is hoped that the quota may be reached as soon as possible. The quota for Foard County for the year 1941 is a membership of 550. In 1939, it was 150, in 1940 it was 250, and these goals were reached. In the face of conditions as they exist today, the raised quota should be as easy to raise as either of the previous years' goals. Prior to 1939, the goal was 100, or probably under that.

It is to be remembered that one-half of the money raised at the Roll Call will be retained at home to be used for relief of any kind and is expended during the year, as seen fit, in the judgment of the local Red Cross authorities. In times of disaster, additional funds are expended by the National Red Cross. In cases where five homes are involved in distress, relief starts immediately, upon a call from the County Red Cross chairman. In the year 1931, Foard County received nearly \$10,000 as drought emergency relief.

Red Cross is the only organization of its kind operating in soldier camps, therefore, the work is extremely heavy there and the home needs remain as important as ever before, so these are the reasons that the quota is extended.

Cotton Damaged by Wet Weather in Texas and Oklahoma

The grade of cotton ginned through October 17 in Texas and Oklahoma was lower than for any recent year, and for the period October 1 to 17 about one bale in every 12 ginned in Texas was reduced one or more grades because of rough preparation, according to J. R. Kennedy of the U. S. Department of Agriculture's Marketing Service in Dallas, Texas.

With continued light to heavy rains, picking and ginning are making slow progress. The proportion of the estimated production for Texas that was harvested through October 17 was the lowest in more than 15 years.

Cotton is damaging in the fields and growers are naturally anxious to harvest their crops, but if picked and ginned in a wet or damp condition further losses will result. Some cotton now being classed under the Smith-Doxey Act for organized cotton improvement groups must be reduced from Strict Low Middling to Below Grade because of rough preparation. Losses may run as high as \$25 per bale. Cotton is also being damaged in the bale when allowed to remain unprotected on gin yards and elsewhere during heavy rains.

Growers are urged to let their cotton dry in the field, if possible, before pulling or picking, particularly if the gins are not equipped with driers, and when ginned out, put their cotton either in a water-proof building on their farms or in a warehouse where it will be adequately protected.

Red Cross, or by renewing their memberships in it; and I further proclaim that it is the sense of all of us who are residents of Crowell that our membership enrollment in the Red Cross must be larger than ever this year, in order to enable this great national organization of ours to meet whatever demands may be made upon it.

MARGARET
(By Mrs. John Kerley)

Tommy Haseloff of Los Angeles, Calif., visited relatives here from Friday until Sunday.
Mr. and Mrs. George Owens of Wichita, Kan., visited his sister, Mrs. John L. Hunter, and family several days last week.
Grant Morrison and daughter, Billie, visited with Mr. and Mrs. Carl Mears of Abilene, and Mr. and Mrs. Tom Mears and children, Ada, Zada and T. J., of Hereford Sunday before. They returned to their homes after spending the week-end in the home of Mr. and Mrs. Z. D. Shaw of Riverside.
Mr. and Mrs. Coy Payne and children, Anna Laura, Mary Helen and Coy Nelson, visited in the home of his brother, H. C. Payne, near Foard City Sunday.
J. L. Dunn and sons, Junior and Kenneth, and John Kerley visited in Rayland Sunday.
Mrs. Alton Owens and little daughter, Laverne, visited Garland Denton in the Crowell Hospital Saturday.
Lois Wright, daughter of Mr. and Mrs. Lee Wright, is some better after a week's illness with flu.
Jim Eason and son, Wayland, of Childress visited Grant Morrison and family Tuesday.
Arthur Sharp and sons, Virgil and Duwood, of Burnsville, Okla., came Sunday for a visit with their daughter and sister, Mrs. Ed Holt, and family.
Mr. and Mrs. Clyde Hollingsworth and children, Clyde Edward and Theora, of Burk Burnett and his parents, Mr. and Mrs. O. O. Hollingsworth, of Wichita Falls visited Mrs. J. F. Russell and children Sunday.
Mr. and Mrs. Melvin Moore and son, Billie Ray, of Crowell visited her parents, Mr. and Mrs. Bax Middlebrook, Sunday.
A few people were seen pulling

RIVERSIDE
(By Bonnie Schroeder)

balls in this community Sunday on account of having lost so much time from bad weather.
Mr. and Mrs. Sam Billingsley and sons visited Mr. and Mrs. T. M. Hurd and Mr. and Mrs. J. M. Roberson of Vera Sunday afternoon.
Richard Johnson was admitted to the Crowell hospital for medical treatment Sunday.
Mr. and Mrs. George Grant and Miss Zelma Pope visited Mr. Grant's brother, Claude Grant, and family, of Frederick, Okla., Sunday.
Mr. and Mrs. Freddie DeJarnette of Dallas were guests of Mr. and Mrs. Antone Kajs Sunday.
Mrs. J. A. Moore and baby of Dallas are visiting her parents, Mr. and Mrs. George Wesley.
The Hallow'en stunt night and program which was scheduled for Thursday evening was held Friday evening in the school auditorium. The program was postponed to the following evening because of inclement weather.
Mr. and Mrs. Howard Bursey and son visited her parents, Mr. and Mrs. Frank Long, of Crowell Sunday.
Mr. and Mrs. Bob Miller and daughter, Pauline, of Shamrock spent Friday and Saturday with Mr. and Mrs. Walter Carr.
Mrs. Lent Mitchell of Comanche left for her home Tuesday after an extended visit with her niece, Mrs. Ben Bradford, and family.
Miss Minnie Ward, registered nurse of the Methodist Hospital in Dallas was the guest of her parents, Mr. and Mrs. Luther Ward, the past week-end.
Mr. and Mrs. Henry Hlavaty of

Seymour visited Mr. and Mrs. Ignac Zacek Sunday.
Mrs. Allie Huntley and Mrs. C. L. Adkins visited Mrs. Carl Bledsoe of Colorado and her mother, Mrs. R. E. Main, of Thalia in the home of Mrs. Main Sunday afternoon.

The Riverside Home Demonstration Club met in the home of Mrs. Sam Kuehn Tuesday afternoon. The next meeting is scheduled with Mrs. Herman Gloyna as hostess November 11.
Ben Bradford, accompanied by Mr. and Mrs. David Lee Owens of Crowell, visited Mr. and Mrs. Odie Claxton of Abilene Sunday. They were accompanied home by Miss Bonnie Lee Bradford, who has been recuperating from an appendicitis operation in the home of Mr. and Mrs. Claxton.
Miss Zelma Ward, who is employed in Vernon is spending two weeks with her parents, Mr. and Mrs. Tom Ward.
Miss Helen Zacek, who is employed in Vernon, visited her parents, Mr. and Mrs. Ignac Zacek, Sunday afternoon.
Hubert Simmonds and family of Stroud, Okla., were week-end visitors in the home of his sister, Mrs. R. G. Whitten, and family.
Carl Zipperly of Vernon visited Mr. and Mrs. Ben Bradford Sunday.
Mr. and Mrs. Howard Bursey and son visited Mr. and Mrs. Gerald Knox of Crowell Thursday night.
Miss Jewel Ward, who is employed in Vernon, spent the week-end with her parents, Mr. and Mrs. Tom Ward.
Evelyn Bradford was able to resume her studies in the Thalia High School Monday after recovering from an appendicitis operation.
Mrs. Jake Simmonds and children, Quincy Nell and Darrell, of Vernon visited in the R. G. Whitten home Sunday.
Mrs. J. L. Rennels spent Sunday with her parents, Mr. and Mrs. A. C. Key, of Rayland. Mrs. Key is ill.
Mrs. Ruth Colson and daughter, Margaret, of Oklahoma City returned home Saturday after a visit with Mrs. Colson's mother, Mrs. L. E. Young, and her brothers, Luther Whitten and R. G. Whitten and family.
Mr. and Mrs. R. L. Rhea and granddaughter, Mary Elizabeth Young, visited Mr. and Mrs. Loyce Lambert of Five-in-One Sunday.
Mr. and Mrs. Roy Fox, Mr. and Mrs. D. A. Davis, and Mr. and Mrs. George Fox and family of Crowell visited Mr. and Mrs. Loyd Whitten Sunday.
Several from this community attended the play, "The Valley of the Ghosts," in the Five-in-One High School auditorium Hallow'en night.

BLACK
(Dorothy Hall)

Mr. and Mrs. Henry Hrabal and daughter, Geraldene, and Charlie and Miss Elsie Machac visited his mother, Mrs. John Melnor, at Hillsboro and his sister, Mr. and Mrs. Raymond Cepena, and sister, Mr. and Mrs. Frank Blahuta, at West Tex, over the week-end and returned Monday.
Mr. and Mrs. J. W. Roberts of Quannah spent Saturday night and Sunday with her parents, Mr. and Mrs. C. D. Hall.
Mr. and Mrs. S. A. Wallace and daughter, Jean, spent Sunday with their daughter and sister, Mr. and Mrs. Charlie Rogers, at Crowell.

Mrs. J. L. Shultz, who has been ill, is improved.
Robert Hudgens and family of Elk City, Okla., are visiting her parents, Mr. and Mrs. C. E. Blevins, here this week.
Mrs. Ed Cates has returned home from a visit with relatives in Hugo, Okla.

THIS WEEK IN HISTORY

November 10. — Winston Churchill, American historical novelist, author of "The Crisis," born, 1871. Saybrook, first English settlement in Connecticut, 1635.
November 11.—Germany signed Armistice, 1918. Famous Mayflower compact signed, 1620.
November 12.—Montreal surrendered to Colonial forces, 1775. Chloroform first used as anaesthetic, 1847.
November 13.—General Sherman begins famous "March to the Sea," 1864. Mexican declaration of Independence, 1813.
November 14.—Mason and Dixon, English surveyors arrive to establish boundary, 1783. First telephone exchange opened at Philadelphia, 1878.
November 15.—Articles of Confederation adopted by Continental Congress in 1777. Pike's Peak discovered, 1806.
November 16.—Oklahoma admitted to the Union, 1907. Capture of Fort Washington by British, 1776.
Two scientists at the Texas College of Arts and Industries report their experiments indicate that "blue bugs" may play a role in the transmission of fowl paralysis.

Two Minute Sermon
(By Thomas Hastwell)

An Enduring Monument: It is a common thing when a successful man dies to point out his material accomplishments, his works and his achievements. And this is as it should be. They deserve to be recognized. But these, wonderful though they may be, are but the temporal things of life. All of these will in time be forgotten. They will pass from the earth, and great though they may be, those who come after will not know they ever existed. The only enduring thing that man can leave the world is the contribution he makes while here because of his having lived in it. The humblest life, that during its sojourn on earth, has benefited the race by causing some one to live better, some one to turn from wrong and evil ways, and live a higher, nobler life with loftier concepts and ideals, has made a greater contribution to the world and mankind than he who merely builds a castle on a hill. This is the lesson that Christ taught that the greatest contribution that man can make to the race is not measured in material riches but in terms of better lives. The world soon forgets the achievements of men but the influence of a good life lives always, and, like the waves from a pebble tossed into a placid pool, reach out and out, until the influence touches the world and mankind everywhere. Such a contribution is the only enduring monument man can leave.

THOUGHTS OF SERIOUS MOMENTS

Complete unity of aim is the traditional condition of genuine and sincere friendship.—Cicero.
In love one has need of being believed, in friendship of being understood.—Abel Bonnard.
Life has no blessing like a prudent friend.—Euripides.
Sweet is the scene where genial friendship plays the pleasing game of interchanging praise.—Oliver Wendell Holmes.
Young tender smoked turkey may be baked slowly as in roasting ordinary poultry, but first they should be soaked overnight to take out part of the curing salt.

QUESTIONS AND ANSWERS

1. What position was held until recently by Dr. Arnulfo Arias?
2. Grover Cleveland Bergdoll is soon to be released from prison. For what was he imprisoned?
3. In baseball parlance what is a south paw?
4. In radio parlance what is a "ham"?
5. What well known movie star plays the lead in the picture "sergeant York"?
6. On what day of the month is Hallow'en?
7. For what is Rudolph Hess known in the news?
8. For what did the U. S. destroyer Greer become known in the news?
9. In what European country is the city of Helsinki located?
10. In what European country is the city of Stockholm located?

AGAIN Chrysler SETS THE PACE!
... now others follow!

Why shift gears? . . . when you can get improved Chrysler Fluid Drive with 2,000,000,000 miles of owner satisfaction behind it!

IT HAS happened again! Chrysler Fluid Drive and Vacamatic transmission have started a trend the motor car industry is attempting to follow.
The overwhelming popularity of Chrysler Fluid Drive makes it natural that various kinds of "liquid" and "automatic" drives should now appear. Some of these designs only remotely resemble Chrysler Fluid Drive . . . either in principle or in results. It is still best to buy genuine Fluid Drive . . . the one backed by greatest experience and favorable public acceptance.
More than two billion miles of owner satisfaction recommend Chrysler Fluid Drive and Vacamatic transmission. Further advanced in the beautiful new Chryslers, they give you the peak of effortless driving . . . liquid smoothness . . . fuel conservation . . . more power per gallon.
Try Fluid Driving in a Chrysler. It's the biggest thing in modern motoring! We'll be delighted to show you how thrilling it is.

Denton and Mr. and Mrs. John Allen Fish of Paducah visited their parents, Mr. and Mrs. Allen Fish, Tuesday evening of last week. Mr. and Mrs. H. H. Fish and son, Harold, of Paducah spent Sunday with Mr. Fish's brother, Erbert Fish.

Extension Service Gives Pointers on Making Silage

College Station, Nov. 3.—Silage-making is under full steam over Texas but is attended by problems of harvesting, and selection and treatment of the feed designed for storage in the pit containers on Texas farms. Scanning a cross section of the problems, E. R. Eudaly, dairyman of the A. & M. College Extension Service, assures farmers that shocked grain sorghum stalks make good silage provided the feed is thoroughly wet as it is put into the silo. He suggests that the best way to add the water is to run it into the cutter and let it pass out with the feed. Smutty red top cane heads will not ruin silage for cattle, but he advises against feeding it to horses. It is not necessary to add molasses in making silage out of Johnson and sudan grasses, Eudaly says, if the grasses are headed out and the seed is in the dough

Growing Fast

Unusual view of the bow of the battleship Indiana, which is rapidly taking shape at Newport News, Va. Construction work on the deck of this 35,000-ton ocean giant is well forward, and she is scheduled to slide down the ways in December.

stage. But if the grasses were cut before the seed was in the dough stage it would be best to sprinkle each ton with a mixture of five gallons of molasses to 15 gallons of water. Molasses also should be added when making silage out of alfalfa, clover, cowpeas, soybeans, peanuts, green cotton stalks, sunflowers, bermuda and other similar grasses. Eudaly recommends two methods of handling feed which is not likely to mature before frost. One means is to cut it and allow it to lie on the ground, a bundle to the place, for a week, provided the ground is dry, and then put it in the silo thoroughly wetting it in the process. The other method is to let the frost kill the feed, then cut and put it in the silo with necessary water added. But he suggests delaying cutting until two or three days after the frost. Sweet potato vines make good silage if they are cut and allowed to dry 12 to 24 hours, or are run through a cutter along with dry grain sorghum bundles, cane bundles, Johnson grass or some other dry feed. It is not necessary to add molasses. At present feed prices sweet potato vine silage is worth about \$4 a ton. Failure to save the vines would represent a loss of \$12 an acre.

FIRE FROM COLLEGE? WHOSE FAULT IS IT?

If your son is one of those who is "on the dean's list" or outright fired from college at this season of the year, it may not be his own fault, says William Lytton Payne, in the current Rotarian magazine. It may be just as much the fault of the parents or the school which sent him to college. Take a look at the circumstances and think them over, before blaming the boy—or girl. The author, himself an instructor who has some 500 conferences a year with freshmen, finds that the usual student comes ill prepared for college, not necessarily in his lessons, but in his concepts. Movies have given him a false idea of college life, and the freedom allowed misleads him as to his duties. That's his fault. But too many students don't want the courses their families select for them, or should have a chance to determine for themselves the lines they wish to follow. Preparedness for any eventualities has long been the task of the American Red Cross. National defense places huge new burdens upon the organization. Help your Red Cross carry on its work by joining the local chapter at once.

It's LOVE AT FIRST SIGHT

... when you try Phillips 66 Poly Gas for Cold Weather STARTING!

Let's get acquainted! Try a tankful of today's high test Phillips 66 Poly Gas, and see if that isn't the beginning of a long and useful friendship. Your engine will start... every time... with surprising speed. It will warm up faster, with less protest and pop-back. And you'll quickly feel the improvement in power, pick-up, and smoother running. Yes sir, it's not only a pleasure to drive with this greater gasoline; it's a pleasure to pay for it, because its extra high test does not cost a penny extra! It gives you volatility (high test quality) rarely equalled or exceeded even by premium price motor fuels. And scientific studies prove that no gasoline, not a single one, is so accurately matched all year 'round to the monthly changes in your weather. Forget starting trouble... just remember to stop for gas at the Orange and Black 66 Shield.

Phill-up with Phillips for Instant Starting

Half Million Mark Past in Mattress Making in Texas

College Station, Nov. 3.—Texas has passed the half million mark in the number of cotton mattresses made under the Department of Agriculture's cotton mattress demonstration, according to Mildred Horton, vice director and state home demonstration agent. Tabulations through September show 508,693 have been delivered. Altogether, 3,573,213 mattresses have been made in the nation under the program, with Texas leading all other states in number. Alabama is second with 478,534. The total number of cotton comforts delivered through September is 673,591 with 139,085 of this number made in Texas.

Since ticking and percale are difficult to obtain due to defense orders, the mattress and comfort program has slowed down in recent months, Miss Horton explains, but workers in the sponsoring agencies—SAM, AAA, and the Extension Service,—hope that eventually enough materials will be available so all families may get the mattresses and comforts for which they are eligible. Counties completing the program to date include Tyler, Carson, Refugio, Kleberg, Marion and Franklin. In commenting on this milestone in the program, Miss Horton paid tribute to 85,000 rural men and women who have served on community and county mattress committees. This number includes AAA committeemen, members of county and community land use planning committees and supervisors, trained by county home demonstration agents and other extension workers. These volunteer local leaders have been largely responsible for the program's success in practically every rural village and community of Texas.

Your Horoscope

November 2, 3.—You are very energetic, impulsive and independent. You are daring and fearless, and an extremist in many ways. If a chemist or doctor, you dig deeply into first principles, and look beyond physical symptoms in your diagnosis. November 4, 5, 6.—You are very easily discouraged, and become gloomy and sad when you meet with defeat. Your life needs more sunshine and happy surroundings. Do not relax your efforts to do more good, and cultivate more pleasant and happier thoughts. November 7, 8, 9.—You have a determined, fiery nature, but will not fight for your rights and are often taken advantage of. Your plans do not always turn out successfully. You have much musical ability but do not always follow system. You have many warm friends. Most of the nation's 16 egg-drying plants are located in Texas, Oklahoma, and Missouri. By January 1, the total will reach 37, with most of the new ones in the Corn Belt.

Be not deceived; God is not mocked; for whatsoever a man soweth, that shall he also reap.—Galatians 6:7.

What this country needs is some clear thinking on this Hitler problem—not thinking muddled by wishful thinking. Hitler is out to get the world. When he gets England he will begin to lay plans to get us. We have our choice, to help England and Russia defeat him or take on the job alone ourselves later. This is the stern fact. Anything that tends to disturb unity of thinking along this line is an aid and a comfort to Hitler. Clear thinking admits no other conclusion. The people of the United States should stand together now.

There are those in every community who should be thankful that the prophets of old, who called a spade a spade, a thief a thief, and a moral leper a moral leper, are not running newspapers these days.

We are thinking that the American Legion has as one of its aims the teaching of Americanism. It is needed in this country. There is no organization except the Legion that is at present concerning itself about it. Organizations for every hostileism to the Democratic form of government start and grow in this country and lure into their ranks, through false representation and misrepresentation, unsuspecting young people under the guise of youth groups and youth movements. The American Legion is the only organization in this country that is standing on guard.

The telephone is the severest tester of human voices. On the telephone the voice does not have the aid of whatever pleasing personality its possessor may have. It comes over the wire unaided, just as it is. Some folks, because of their voice should never ask anyone for a favor over a telephone. They just don't have the telephone voice that gets favors. On the other hand there are those whose voices are music over the telephone. They are perhaps accompanied with just as pleasing personalities if the listener could see them face to face. A pleasing voice nearly always goes with a pleasing personality and an unpleasant voice with just that kind of a personality.

Americans who are assumed to take a great deal of pride in the fact that they can worship as they please are noted for their inclination to be absent Sunday morning and not attend worship services at all. Perhaps a modern version of the expression would be that Americans are ready to fight for the privilege of worshipping or not as they please.

The best remedy we have seen proposed as a brake on inflation is the theory of plenty. If there is a surplus of any product the price will not get out of line. If there is a surplus of farm machinery, clothing, food and the like, the market will remain steady. It is only when there isn't enough to go round that panic seizes the consumers, there is a rush to buy and as a result a still greater shortage is created.

We hear so much about the rich paying the tax bills and defense bills. The rich can't do it. There isn't enough of them. The last census showed that less than 3 per cent of the people of this country have an income of more than \$8,500 and less than one per cent have an income of more than \$10,000.

We can't drive 500 miles in a car on a holiday. When we drive 500 miles in a day it isn't a holiday. It is a very tiresome exhausting trip and it requires the next day to recover from its effects.

We can't help it but when we hear some of the radio programs we catch ourselves saying "and to think they get money for that."

There is little satisfaction in figuring out where you caught that cold.

TOO MANY DRIVERS

What We Think (By Frank Dixon)

The call by Wendell Willkie to his party to line up for repeal of the Neutrality Act, and, as he put it, to "wipe out the ugly smudge of obstruction and isolationism" from his party assumed for the time being precedence in the news over the debate in Congress regarding the Neutrality bill and even the war itself.

Mr. Willkie's message was an appeal to his party to abandon the policy of isolationism and to rally to the repeal of the Neutrality Act and to permit the nation to arm its merchant ships. The message was signed by over one hundred of Mr. Willkie's party leaders.

In Mr. Willkie, the country has one of those rare individuals whom the defeat for the office of president of the United States has not eliminated from the headlines. Mr. Willkie is as much in the headlines today as he was the morning after the Philadelphia convention.

In a recent magazine article Mr. Willkie stated that he may be the Republican presidential nominee in 1944 if he "fits the times."

In this connection it should be noted that though Mr. Willkie has given generous aid to President Roosevelt there is no evidence that he has received any encouragement or favors from the administration. There is no evidence that Mr. Willkie seeks or even has ever sought such favors. As a consequence he is wholly independent both in respect to the Democratic party and the Republican party.

Being in this position he is qualified to think with less danger and less likelihood of partisanship on matters in which partisanship might easily enter.

For this reason his appeal to his party to abandon its policy of isolationism and remove the barrier of full aid to Britain may be assumed to be the conclusion of a man whose thinking is not biased or tinged with the policies of any particular political party.

And here is the thing that is apt to happen. When 1944 rolls around Mr. Willkie may emerge as the most dominant leader both of his party and the Democratic party. That all depends upon what happens between now and 1944. At the present moment no one can even hazard a guess. The thing that does stand out clear at the present moment is that if Mr. Willkie does have ambitions for the presidency he is departing radically from the conventional and beaten path of politicians. Instead of seeking to find out what the majority want and then carrying the banner for them he is blazing the trail for the majority to follow. Either this or he is shrewd enough to know that the position he calls upon his party to take, will, by 1944 come to be recognized as the best and wisest course and he will be recognized for his clear thinking and leadership because of it. He may be

Lehigh's Skipper

Capt. Vincent P. Arkins, commander of the torpedoed U. S. freighter Lehigh, who gave an account of sinking upon his arrival at Freetown, South Africa.

CIVILIAN DEFENSE

By the President of the United States of America

A PROCLAMATION

WHEREAS, On May 20, 1941, with a view to ensuring the most effective correlation and use of the instruments of civilian defense, I established by Executive order the Office of Civilian Defense; and

WHEREAS, By my proclamation of May 27, 1941, I declared that an unlimited national emergency confronts this country, which requires that its military, naval, air, and civilian defenses be put on a basis of readiness to repel any and all acts or threats of aggression directed toward any part of the Western Hemisphere; and

WHEREAS, It is the manifest duty and desire of every person in the United States to participate in measures essential to civilian defense;

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby designate the period commencing on Armistice Day, Tuesday, November 11, 1941, and continuing through Sunday, November 16, as a time for all persons throughout the Nation to give thought to their duties and responsibilities in the defense of this country, and to become better informed of the many vital phases of the civilian defense program and of the opportunities which it offers for the participation of every individual American in the defense of our priceless heritage, and I request the Governors of the several States, Territories, and possessions of the United States to issue similar proclamations.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

Done at the City of Washington this twenty-second day of October in the year of our Lord nineteen hundred and forty-one and of the Independence of the United States of America the one hundred and sixty-sixth.

FRANKLIN D. ROOSEVELT. (SEAL) By the President: CORDELL HULL, Secretary of State. (Exact Copy.)

YOU'RE AS OLD AS YOU FEEL

As for feeling old, that's as relative as the universe. Once I saw an 83-year-old jump up and rush down the stairs to greet a friend. "She can't walk up," she called in her flight. "She's an old lady."—Edith M. Stern, in the current Rotarian magazine.

COUNTIES GET STAMP PLAN

College Station, Nov. 3.—The Department of Agriculture's food stamp plan for distributing agricultural commodities has been extended to Cooke, Ellis, Floyd and Hunt counties and operation is expected to begin early in November.

Population of these four counties is 132,094. It is estimated that there are 8,621 families representing 26,053 persons who are eligible to benefit from the program.

A new smooth awn barley named Texas and developed at the Denton substation of the Texas Agricultural Experiment Station, is being made available to farmers this year. Its qualities include resistance to disease and superiority in yield in Central Texas.

taking a long look ahead and in doing so he is willing to suffer the storm of opposition today which in the light of conditions will be forgotten tomorrow.

Whatever the outcome it is an interesting chapter in American political life.

PROTECT YOURSELF TODAY TOMORROW May Be Too LATE

When you are the victim of an automobile accident, how will you and your family pay your regular expenses and meet the extra medical bills, with your income cut off?

BETTER INVESTIGATE BEFORE IT IS TOO LATE. We have just the policy that you need and at very little cost.

WHAT IS INFLATION?

Inflation is a relative term; inflation can be big, medium, or small. Whatever the size, they have in common this basic condition: a disproportion of the total supply of goods people want and their total demand for them. The key work to remember is "disproportion."—Melchior Palyi, research economist, in the current Rotarian magazine.

HOUSEHOLD HINTS

Basting with a little spiced peach juice will add new flavor to broiled or browned sausages. To improve the flavor of apple pie, sprinkle a little lemon juice over the apple slices as they are placed in the pie shell. Place a piece of beeswax between two pieces of flannel and rub your iron on them occasionally; it will keep the iron clean and make it run smoothly.

GOOD FARM FOR SALE

Located 1/2 mile west of Quanah Highway on Pease River, 438 acres, with 165 acres of good sandy loam farm land in cultivation, balance in pasture. This is known as the Tuttle home place and is one of the EXTRA good farms that border on Pease River. This place is priced to sell at once at \$21.00 per acre.

The crop of both cotton and feed on this place is perfect, and to see this place, in the next few days will prove its real merits. The pasture is extra good.

M. O'Connell returned Tuesday on a three day visit in Elk City and Willow, Okla.

Bring your Butane cylinders for refill or exchange, only \$2.00.—W. R. Womack.

Bobby Spears and Doris Ray spent week-end before last at Stephenville visiting friends.

George Carter of Childress visited in the home of his mother, Mrs. Pearl Carter, over the week-end.

The wild geese are now coming in, some are lighting, the season is now open, plenty of geese here.—W. R. Womack.

Miss Frances Cook, who has been nursing in a hospital in Bartlesville, is on duty in the Crowell County Hospital.

The W. R. Womack Burial Association is growing right along. We now have more than 800 paid members.—W. R. Womack.

Judge and Mrs. Claude Callaway are in receipt of a message stating that a baby son had been born to Mr. and Mrs. P. N. Stephens of Fort Worth Tuesday morning. Mrs. Stephens was formerly Miss Faye Callaway.

Lots of fish are now being caught. Get your tackle here now.—W. R. Womack.

Mrs. Laura Giddings of Vernon is spending a few days in the home of Mr. and Mrs. A. Y. Beverly.

A fine 7-tube Admiral cabinet radio for your old radio and \$69.95.—W. R. Womack.

Lee Shirley of Princeton, Ill., was a visitor in the home of his brother, Paul Shirley, and family over the week-end.

A big stock of heavy duty 1 1/2 volt battery packs, bought before the stiff advance in price. Get them here, save!—W. R. Womack.

Joe Wallace Beverly and Billy Klepper were at home over the week-end from Lubbock where they are attending Texas Tech.

We have a big stock of radios, all bought before the Federal tax of 10 per cent is required, save from \$1.00 to \$7.00 per radio.—W. R. Womack.

Lieut. Milton Magee of Fort Sill, Okla., visited his parents, Mr. and Mrs. R. R. Magee, Saturday and Sunday. He returned Sunday afternoon.

Miss Virginia Coffey of Fayetteville, Ark., spent from Thursday until Sunday here visiting friends and her sisters, Mrs. Curtis Barker and Mrs. Ed Huskey, and her brothers, Otis Coffey and Delton Coffey and their families.

A fine large battery radio, push button tuning, large speaker \$45.95, it is a wonderful set.—W. R. Womack.

Mr. and Mrs. Dee Roberts and daughter, Doris Jean, of Wichita Falls, were guests of relatives and friends here over the week-end.

We bought heavy on 1-battery radios and batteries. No Federal tax to pay. Buy now, save this Federal tax of 10 per cent.—W. R. Womack.

Mrs. J. A. White has returned from a visit with her daughter, Mrs. W. A. Pulliam, and husband, at Vega, Texas.

Plenty of all kinds of shells, for ducks, geese, quail, rabbits, even deer loads, and 22 shells, shorts, longs, longrifle, and long rifle hollow point, and 410 shotgun.—W. R. Womack.

T. H. White of San Jose, Calif., says: "We cannot get along without The News—just like a letter from home each week," in renewing his paper for another year.

All of our radios were bought before the time that the 10 per cent Federal tax became collectible, buy from us and save up to \$7.00 per radio, tax alone.—W. R. Womack.

Mr. and Mrs. Walker Todd and sons, Gene and Don, of Seagraves spent Saturday night and Sunday here visiting relatives. They returned home Sunday afternoon.

"Winter gas, or summer gas" is exactly the same price to all. It costs the very same at the refinery, the same to those using cylinders, and those using tanks, why pay more for so-called "winter" or "summer" gas, unless it is pure "Propane" which is much higher than Butane-Propane combination.—W. R. Womack.

Dr. H. Schindler returned home Saturday morning from Houston where he attended the convention of the American Dental Association, in company with his brother, Dr. W. M. Schindler, of Vernon.

To those who intend to buy an underground Butane system at all, we now have a good supply of 150, 215 and will get at least 288 gallon tanks in a few days. These will probably be all that can be bought for a long time. Several are already spoken for. Better buy now if you want one.—W. R. Womack.

Miss Faye Zeibig returned Thursday morning of last week from Burlington, Iowa. She has been employed as a typist with A. Guthrie and Al Johnson Construction Co., and during the time, she has lived in the home of her aunt, Mrs. R. C. Starrett.

Nine eastern states from New Jersey to Maine are suffering from a severe drought. The drought has prevailed for eight months.

Guiberson oil heaters, \$19.95, \$29.95 and \$39.95.—W. R. Womack.

Mrs. Ora Aydelott of Avery, Red River County, is visiting in the home of Mr. and Mrs. A. L. Aydelotte.

Why not own your own heating system, it will be yours, no bills to pay. Get one of our "Economy" underground Butane Systems.—W. R. Womack.

Herman Bell returned home Saturday night from Los Angeles, Calif., where he had been living for several months.

Lay your floor covering, felt goods, and inlaid linoleum, now. Why? It is so liable to damage when it gets colder. Looks better, too.—W. R. Womack.

Guy Whitfield, who had been visiting his brothers, Ben Whitfield and family, and Jesse Whitfield, in Los Angeles, Calif., returned home Monday.

Mrs. Ralph Burrow and little daughter, Mary Margaret, of Trent, have been here for the past week visiting in the homes of Mr. and Mrs. H. C. Roark and Mr. and Mrs. E. W. Burrow. Mr. Burrow joined them here Wednesday.

A baby daughter, Janice Lee, was born to Mr. and Mrs. G. D. Sullivan of Vernon, Oct. 23, in a Vernon hospital. Mrs. Sullivan was Miss Mildred Donaldson before her marriage.

Zenith, Philco, Federal, Freshman, Emerson and Clarion radios. No Federal tax on any of them. Two per cent State tax on all.—W. R. Womack.

Mr. and Mrs. Kenneth Lanyon and small son, Ken, of Amarillo were week-end guests in the home of Mr. and Mrs. C. C. McLaughlin and other relatives and friends.

Ask anyone who owns one — Butane System they will tell you that it is wonderful. For cooking, for heating, for Electrolux Servel refrigerator, hot water heater, and various uses. It is a complete plant in itself. After first cost, no bills to pay except occasional fill of gas. We supply it all. Buy now.—W. R. Womack.

Mr. and Mrs. Valton Wallace of Dallas visited over the week-end with relatives and friends here. Mr. Wallace's mother, Mrs. Duke Wallace, who had been visiting in their home, returned with them.

The W. R. Womack Burial Association now has more than 800 paid-in members. We invite anyone living within reach of our service, especially Gilliland, Truscott, Antelope Flat, Benjamin, in Knox County, and those near us in Wilbarger, Hardeman and Cottle Counties to become members.—W. R. Womack, President.

Mr. and Mrs. Bob Lilly of Wichita Falls spent Sunday here visiting Mr. Lilly's parents, Mr. and Mrs. A. W. Lilly. They were accompanied home by their small daughter, Michelle, who had been here for several days visiting her grandparents.

Folks! We are strictly in the Butane business. Have our own supply truck, furnish the very best tank gas at our premises, and always keep cylinders and gas for exchange of cylinders with you, at our place. Nothing but the very best obtainable gas furnished in season.—W. R. Womack.

Mrs. Gale Stout and little son, Lyn, of Wichita Falls visited in the home of Mrs. Stout's parents, Mr. and Mrs. Earl Davis, last Tuesday. Mrs. Stout returned to her home but Lyn spent a week with his grandparents. His mother came for him Tuesday.

Join The W. R. Womack Burial Association now, see some of us, or one of our legally appointed agents. We need you and you need the safe protection for yourself and family. Rates very low.—W. R. Womack, President.

Mr. and Mrs. F. W. Berna and Mr. Berna's mother, Mrs. B. W. Klink, of Houston and Mrs. R. L. Leonard of Memphis, Tenn., left Tuesday for Houston after a visit of several days in the home of Mr. and Mrs. Chas. B. Ferguson. Mrs. Berna and Mrs. Leonard are sisters of Mrs. Ferguson.

Mrs. R. L. Kincaid and Mrs. M. S. Henry left Wednesday for Dallas where they will visit relatives and friends before the State Convention of Women's Clubs meets. They both plan to attend the meeting, which opens next Monday in that city.

The type of steel used in making Butane cylinders, and regulators, and certain copper fittings, have been taken by the U. S. Government. The makers are not now able to get them made up fast enough to supply them to dealers. We still have a supply of cylinders, regulators, and enough copper pipe to set all of our underground tanks. Better buy your tanks and cylinders now.—W. R. Womack.

Mrs. J. H. Stark of Tulsa, Okla., and Mrs. Chas. Hunt of Sand Springs, Okla., were guests Sunday in the home of their grandfather and father, G. A. Mitchell. Mrs. Stark was formerly Miss Anabel Carter. They have been visiting Mrs. Stark's parents and Mrs. Hunt's sisters at Lubbock and Sudan. They also visited Mr. and Mrs. Bob Beck at Sudan.

Get your hunting and fishing and trapping license here.—Bertha Womack.

Mr. and Mrs. D. B. Sauls of San Antonio were guests this week in the home of Mr. Sauls' sister, Mrs. Pete Holcombe and Mr. Holcombe.

Fishing tackle, shotgun shells, 22 shells and 22 rifles.—W. R. Womack.

Mr. and Mrs. J. C. Self of Wichita Falls and Mr. and Mrs. Chas. H. Melton of Henrietta were guests in the home of Mr. and Mrs. C. C. McLaughlin Sunday.

The very best Butane-Propane gas, "winter type" in cylinders, \$2.00; in your underground tank at your plant, 6 cents per gallon.—W. R. Womack.

Tommy Haseloff, who has been in Los Angeles, Calif., for some time, visited friends in Crowell and his mother in Vernon for several days of last week. He left Sunday for Los Angeles.

Several have wanted to buy a cylinder, regulator to use Butane to heat with. We positively cannot furnish this for a heater, but we will, as long as we can get them, furnish one drum, one regulator with any cooking range that you select from our stock.—W. R. Womack.

Mr. and Mrs. J. T. Carter and two little daughters, Jan and Sandra, of Dalhart, were guests Saturday night and Sunday of Mr. Carter's mother, Mrs. Pearl Carter. They returned Sunday afternoon and Mrs. Carter went to Dalhart with them for a visit in their home.

Mr. and Mrs. Matt Graham and small daughter of Haskell were the guests of Mr. and Mrs. Foster Davis Sunday. Mr. Graham is county superintendent of Haskell County.

Ivanhoe, distillate heaters, \$32.50 cash, \$34.50 terms, \$48.50; Superflex all porcelain, \$53.00, and others available \$58.50 up.—W. R. Womack.

A Red Cross button displayed now means the wearer is doing his part for National Defense. Get yours by joining the American Red Cross through the local chapter.

Finest house paint offered in Crowell, Sun Proof, Fine Turpentine, linseed oil, inside paints and enamels, wall paper and canvas.—W. R. Womack.

Servel Electrolux refrigerators, Grand gas ranges, Rheems hot water heaters, Dearborne or Bu-Pro-Fire heaters connected to an "Economy" Butane system, will make you happy.—W. R. Womack.

Our big store is bulging with new bed room suites, living room suites, dining, dinette and breakfast suites, odd pieces, tables, coffee tables, radio tables, chests of drawers, cedar chests, lamps, platform rockers, pull-up chairs, all kinds and types of rockers and chairs, beds, springs and mattresses, Wool rugs, felt rugs, inlaid linoleum and felt goods, Guiberson heaters, Perfection and Ivanhoe cooking ranges, radio sets, one-battery packs, Coleman irons, lamp bulbs, flash lights, gas and Butane gas ranges, heaters, hot water heaters, Butane gas. Try here in Crowell first, before you go elsewhere, you might find it in Crowell just as cheap in price, and just as good in quality.—W. R. Womack.

Mr. and Mrs. Harold Ross and Mr. and Mrs. George Danaher of Wichita Falls were week-end guests in the home of Mr. and Mrs. W. B. Johnson.

ORR'S Veri-Best Bread

EAT MORE of ORR'S VERI-BEST BREAD
It's Healthful and Delicious

Bring your empty Butane cylinders for fill or exchange \$2.00; call us for filling your tank, only six cents per gallon.—W. R. Womack.

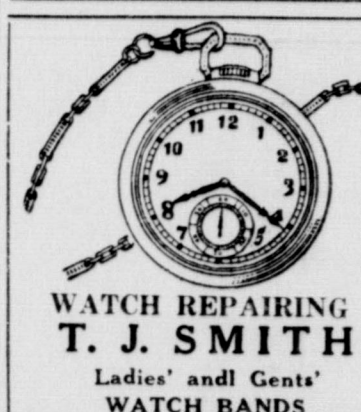

Folks! Last year, makers of Servel Electrolux refrigerators, (the only kind that will work on Natural or Butane gas), fell far short in being able to make enough to supply the demand, now, the government will only furnish enough material to make 50 per cent (just half) as many as last year. If you intend to buy a Servel Electrolux at all until after the war is over, you had better place your order now. No fooling!—W. R. Womack.

John Raser was in charge of the program for the meeting of the Crowell Rotary Club Wednesday at noon. The program included a detailed and interesting account of his recent trip to Kansas City, Mo., to attend the National F. F. A. convention by Truman Taylor.

Rotarian C. H. McClellan of Wichita Falls was a visitor.

A. H. Culbertson of Fort Worth, president of the Texas Natural Gas Co., has been here this week looking after business interests.

We are selling about all the Butane gas ranges that we are able to buy. In fact, some numbers we are absolutely unable to get at any price. The wholesalers and manufacturers of most makes are unable to ship, getting scarce all the time. We have a good supply on most best sellers.—W. R. Womack.

FAITH In THE FUTURE

Although we live in a streamlined age devoid of the simpleness of Puritan life, we still possess much the same fear and faith in the future as the Puritan had. While the Puritan overcame his fear by trusting to God and his flintlock, people today need not depend on powder and shot. Instead, they look to their bank to insure them safety, and to guarantee their future security.

NEXT WEEK'S EDITION

The next week's edition of the Wildcat will be published by the mighty Seniors who have as their editor, Margaret Claire Shirley, who some time during the week will announce the names of the rest of her staff. The edition will be a good one, and the other classes in high school will be given the same privilege some time before the year is over. This is a choice 'n' up to get revenge, Seniors, so hop to it.—Editor.

THE SENIORS FROLIC

The Crowell seniors went to a party and chuck wagon supper at Truscott last Wednesday night at the Methodist recreation hall. They went to Truscott in one of the school buses. When they arrived, they had supper consisting of weiners, Mexican style beans, doughnuts, pickles and cocoa. After supper several games were played, including one in which Jean Orr confessed that her latest heart throb was Howard Lee Black. Everyone enjoyed it very much. Those present were the class mothers, thirty-six seniors and Mr. and Mrs. Jiggs Barker. Mr. Barker drove the bus to Truscott.

"SCANDAL"

Oh, boy! What a time everyone had Friday night. Spooks, goblins, witches, ghosts were all seen running up and down the streets of Crowell. The most spectacular thing seen was a female ghost running down the street with six little baby ghosts. We also saw ?? Bill Owens stepping out with Margaret Davis. Boy-o-boy, have they got up a case. T. L. Owens is keeping the home fires burning with his steady heartburn—Mary Curtis. Paul Vecera was with his old sweetheart Friday night. You know—Evelyn Flesher. Charlie Thompson and J. T. Hughston entertained a few of the Freshmen boys with a "tea party" out at the grave yard. Lovely time was had by all present. (But confidentially—it was spooky, wasn't it, Freshmen?) Travis Vecera made a desperate attempt to woo Ruth Cates Friday night. After a last woeful failure he expressed himself sorrowfully—threw away his cigar—and sighed, "I've come to the end of the rope."

Cecil Parkhill attempted to go courting also. You know, he still thinks that Darnelle Morrison is cute. Everyone was glad to see Thelma Wiley come back to dear ole CHS—girls, you'd better be nice to your fellow. Jean Orr came out wearing Howard Lee Black's football jacket Monday at noon. Nice way to start the week off right. "Butch" Carroll, "Simp" Davis and "Clancy" Diggs had a whittling contest Friday afternoon the last period. "Butch" won by whittling 365 chips a minute. Whee—fast guy—no?

There was one accident Friday night when a car hit "Simp" Davis on the hip. After rolling about twenty feet "Simp" looked as if he had just come out of a threshing machine. Well, well, Virginia Thomas had a date with a certain Swearingen boy who drives a Ford V-8. They were also seen together Friday night. It seems that Donald Ward and Margaret Claire Shirley have been stepping out quite a bit lately. We are all wondering why Mary Edwards was so scared Friday night. It couldn't be because she went off riding and forgot about her mother and that she had the car keys. Mary, we didn't know that you cared. Have you noticed all the red signs that have been painted concerning the Seniors of '42? Did you know that John Calvin Carter had a date with Polly Davis last Friday night? We wonder why Jean Orr was so hoping that it wouldn't rain Saturday night? Don't forget to do your Christmas shopping early. It is only 48 days until Christmas. The Homemaking III girls said that they had a swell time Saturday night at Truscott. We wonder who that certain boy is that Margie Young is always talking about. It seems that a certain group of CHS belles went to Swearingen to take pictures on Sunday afternoon.

Locker 78 is the locker this year, so if any of you guys or gals want to publish or have published some of your choice gossip, the Wildcat will publish anything (or nearly anything) that is dropped in that locker. Thanks.

FRESHMAN PARTY

Crash! Bang! E-e-ek, and Etc., until 11 p. m. Halloween night. The freshman party started at 7:30 and lasted until 11. We had it at the home of Mrs. D. E. Magee. We were blindfolded and the hand of a ghost led us in some bed springs. Then group by group we were led to see the "Living Dead," and all his comrades. The games were led

by Mrs. John Carter, and after a few, we were led to the kitchen and were served "Witches' Broth" and sandwiches. The room was lighted at first by one jack-o-lantern. Colorful decorations were all about the house. We all had our fortunes told by a mysterious gypsy (Hr!). The refreshments were to each and every person a mile long hot dog (with two weiners) and a coca cola. The twenty-five freshmen all went to the show together—that is most of them. All in all, we had lots of fun and many thanks to Mrs. Ketchersid, Mrs. Carter, Mrs. Davis and Mrs. Magee for a grand time.

SOPHOMORE PARTY

The sophomores threw a "big" Halloween party at the Adelphi club house Halloween night. The club house was decorated in black and orange. Everyone present enjoyed games of forty-two, tidie-sticks, and flinch. Two mind-reading stunts were given. Shrieks and screams followed, while every one filed into the death room, where a corpse was present. The class mothers, Mrs. Vance Favor, Mrs. Frank Cates, and Mrs. John Rator, assisted by Miss Margaret Curtis and Mrs. G. C. Foster, served a very delicious plate, consisting of sandwiches, hot chocolate, pickles and a Baby Ruth candy bar. Everyone enjoyed the party.—Roy Joe Cates.

JUNIOR JAMBOREE

The Juniors had their annual Halloween party in the Cub Hut last Friday night. The games were of the active type, including relays of various forms and spinning the lid. The Juniors had a swell time and attended very well, 29 or 30 present. The class mothers, Mrs. Moody, Mrs. Edwards, Mrs. Evans and Mrs. Campbell, served sandwiches, hot chocolate, doughnuts on a broomstick, and jelly beans. All in all, the Juniors are going to make perfect Seniors next year, oh happy day.

Present Domestic Cotton Consumption May Set New High

Austin, Nov. 3.—Artificiality marks present cotton marketing conditions, although domestic consumption is at an all-time high and imports are running at record levels, according to Dr. A. B. Cox, University of Texas cotton marketing expert.

If present domestic consumption rates are kept up, a record requirement of 10,500,000 bales will be achieved in the United States, the cotton authority believes. Commercial exports are running at a record low. Continuing his report, Dr. Cox declares: "Exports under lease-lend, plus subsidized exports to Canada, may reach as much as 1,500,000 bales during the year. The export subsidy on cotton is now at an all-time high of three cents a pound. Actually, it is much higher than that, for the government makes its own cotton available for this purpose at about cost, which is more than four cents per pound below current commercial prices; therefore, in reality, the export subsidy is now more than seven cents. "Prices of foreign-grown cotton are at an all-time low relative to that of the United States. Brazilian is now only 45 per cent of U. S., compared to a normal of about 97 per cent, and Oomrs 97 per cent compared with a normal of 79 per cent. "The crop this year is the lowest except one since 1921. Notwithstanding this fact, the total supply of cotton in the United States is the fourth highest on record. Imports are at the highest levels since 1921. Cotton prices are the best since 1929, also."

SAVINGS BONDS

Austin, Nov. 3.—Purchases of savings bonds in 31 Texas cities in September totaled only \$387,695, a decline of 33.5 per cent from September a year ago. For the first nine months of this year, purchases amounted to \$5,475,796, a drop of 14.2 per cent from the comparable period of 1940.

If some church musicians twelve hundred years ago hadn't discovered harmony—the singing of two different notes at the same time—there might have been no grand opera, and for that matter, what would have happened to "Sweet Adeline?" This birth of harmony is described for Texas school children in a University of Texas-produced radio program on group singing, broadcast as part of the Texas School of the Air series.

Approximately 29,000,000 acres of land were reseeded to grass by deferred grazing in the United States in 1940. To conserve water for livestock some 75,000 earthen dams and reservoirs were built, or more than twice as many as in 1939.

Aluminum and Defense

(From Office for Emergency Management, Washington, D. C.)

The United States probably will produce this year twice as much aluminum as the entire world production of 1936—and yet there will not be enough aluminum to go around. This light, strong metal plays a leading role in National Defense production, particularly in airplane construction, and so great is the demand it is impossible to forecast when the supply will catch up.

These figures on primary production alone, excluding secondary production and imports, show the dizzy speed at which America's aluminum output is climbing:

Year	Production in Pounds
1936	224,000,000
1939	327,000,000
1940	412,000,000
1941 (est.)	600,000,000
1942 (est.)	800,000,000

These figures all go much higher, of course, when secondary production and imports are added in. Rapidly as aluminum production has increased, demand has kept ahead of it. Consumption in 1940 totaled 592 million pounds and demand in 1941, if civilian uses were not being curtailed, would reach the estimated total of 1,400,000,000 pounds.

It is difficult at present to put aluminum figures down and make them stay there. They're the broken-field runners in the production game. Reasons for this are many and they run about in this order:

1. The raw material from which aluminum is obtained is bauxite. From it alumina is manufactured, and from alumina comes aluminum. It takes about two tons of bauxite to produce one ton of alumina and two tons of alumina to produce one ton of aluminum. Whenever production capacity for aluminum is expanded, corresponding expansions must be made for alumina. Thus, building new aluminum plants is only half the problem.

2. The use of aluminum for military equipment, particularly in aircraft, is all tied up with the production of magnesium. Aluminum-magnesium alloy is a light, tough material that is highly prized by aircraft makers for frames, engines, propellers, wheels, and other parts.

3. Not only is our expanding airplane production calling for greater amounts of aluminum, but the trend to heavier planes calls for more aluminum per plane. A single-seater fighter uses some 5,500 pounds of aluminum alloy, while a heavy bomber takes 20,000 pounds.

4. Vast new plants now are under construction in the United States, others are about to enter construction, and still others are being projected. The dates on which these plants actually will enter into production are, of course, not definite. If no complications ensue—a somewhat rosy viewpoint—the United States next year will have a flow of aluminum never equaled in the history of the world.

More Must Be Produced Even if aluminum figures are hard to pin down, this much is certain—if the defeat of the Axis is to be insured within a reasonable number of years, larger and larger amounts of aluminum must be produced. No other metal, with the exception of steel, is of greater importance in the making of military equipment.

Besides its use in aircraft, aluminum is an essential component of tanks, armored cars, and Naval vessels. It is used in the manufacture of ammunition, guns, field kitchens, mess kits, and many of the other tools of war where lightness and strength are required. It has important chemical uses, too, and as an abrasive. There just isn't any chance for aluminum to be released for civilian purposes until this emergency is over. There is none for export, either, except some to Great Britain for airplane construction and a small amount to South America.

Increased production of aluminum calls, of course, for increased production of bauxite, the aluminum ore. We import about 60 per cent of our supply from British Guiana. The remainder comes from Arkansas. Both our imports and our domestic production have been increased sharply this year.

An unusual preparedness program is taking place in Arkansas, where bauxite lies from 5 to 75 feet below the surface of the ground. The ore always has been "strip" mined; that is, the earth removed above it and the bauxite taken out as needed. Now, however, the earth-removal process

is going on full tilt over a great area and the bauxite veins exposed. Thus, as rapidly as it is needed, the ore can be scooped up quickly and started on its way to make airplane engine parts, light and strong, which give American engines greater performance per horsepower than any other.

There is a sound reason for uncovering that bauxite ore. We have enough, it is estimated, to take care of U. S. demands for two or three years. If we found it impossible to get ore from the Guianas for any reason, our aluminum production would not suffer, at least for a time. Aluminum men do not like to contemplate such a contingency, however remote, but they are taking no chances. Defense comes first, these days.

The tremendous military demand (airplane construction alone is taking about 75 per cent of our aluminum supply) has, of course, stopped all but essential civilian uses, and the metal was the first on which priority action was taken.

General Preference Order M-1, March 21, 1941, placed all production, prime and secondary, and all fabricators under a general priorities system. Deliveries can be made only in accordance with preference ratings issued by the Priorities Division, Office of Production Management, and monthly schedules of deliveries must be submitted to the Division. Other priority orders place aluminum under the most rigid control.

Axis Has All It Needs While the United States is busy stepping up its aluminum production and seeking new sources of bauxite, the Axis powers face no such problem. France long has been one of the large producers of bauxite, and large deposits also exist in Hungary, Italy

and Yugoslavia. In fact, the Axis probably is better off in the aluminum field than in any other, and there is little doubt that aluminum is being used there to replace the deficiencies in other metals.

Great Britain has stepped up its production of aluminum greatly in the past two years and Canadian capacity has been more than doubled. Although Canadian exports to the United States declined in 1940 and the early part of 1941, due to British demands, this country has purchased a large supply from Canada to be delivered during the emergency years. Canadian exports to the U. S. were resumed in the fall of 1941.

While aluminum long has been regarded as an essential military material, not even experts in that field forecast any such demand for it as has taken place since National Defense production started. As is the case with most metals, we had more than enough for all civilian demand. Its use in aircraft is a new use, and one that has swept the world in a short time. The demand will continue as long as the defense emergency exists—as long as tyranny and oppression threaten the world and the Arsenal of Democracy pours forth an ever-increasing fleet of planes to fight for freedom throughout the world.

CONSTRUCTION ACTIVITY

Austin, Nov. 3.—Although figures for the first nine months of the year are still 6.6 per cent higher than for the comparable period last year, construction activity in Texas slackened measurably in September, University of Texas business statisticians report. September permit totals for 38 major cities declined 36.5 per cent from August.

NYA Girls Assist in Operation of Warm Springs Foundation

Austin.—Twenty girls employed at a part-time NYA Resident Center are assisting in the operation of the Gonzales Warm Springs Foundation which upon Saturday rounded out its first week of treatment for crippled children. J. C. Kellam, state NYA administrator, said this week.

The girls assist in the preparation and serving of food for the little patients, the making up of beds, caring for the laundry and other tasks accompanying the normal routine of the Foundation, which leaves the two resident nurses free to devote their time to the patients.

With a dozen children already receiving treatment, the unit's capacity of 16 is expected to be attained within the very near future. Patients are being admitted to the Foundation through the Vocational Rehabilitation and Crippled Children's Division of the State Department of Education, of which J. J. Brown is di-

rector. Ross Boothe and Harold Mason, both of Gonzales, are president and secretary-treasurer, respectively, of the Foundation, located in Palmetto State Park, Ottine, ten miles north of Gonzales-Luling highway.

Kellam recalled NYA's work in connection with the Foundation, an NYA construction project to which unemployed workers from Gonzales and surrounding counties were assigned to build the brick structure, now mostly equipped throughout, which contains two eight-bed wards, for boys and one for girls; a reception room; an office for nurses and for visiting physicians; two indoor treatment pools used by the physiotherapists; a dining room; a kitchen; and the construction of an outdoor swimming pool, which the indoor pools, is fed from warm springs.

NO Change in Terms on Small Appliances or Better Light - Better Sight Lamps

VISIT YOUR ELECTRIC DEALER, HARDWARE, FURNITURE or DEPARTMENT STORE for Electric Christmas Gifts Use the Lay-Away Plan

Some folks got excited about the new installment plan buying regulations and made a big to-do over "last chances," etc. Now that the smoke has cleared away, the fact remains that Convenient Terms are still open to buyers who meet their obligations. One-fifth down is not an unreasonable amount to pay when you recall that . . .

TEN YEARS AGO . . . An average refrigerator cost \$350. You had to pay \$75 to \$100 down and monthly payments of maybe \$20 to \$30. Today a better refrigerator of comparable size costs around \$165, sells for \$33 down with payments of less than \$8 a month on the balance. The 1941-42 electric refrigerators cost less than half as much as 10 years ago . . . and about ONE-FIFTH as much to operate!

SCIENCE CAN OUTMODE WAR, CHEMIST DECLARES

Science can eventually remove economic causes for war, writes Dr. Harrison E. Howe, editor of "Industrial and Chemical Engineering," in the current Rotarian magazine. Geographic or man-made monopolies of raw products that have provoked wars in the past, he believes, be broken by laboratory research workers.

Rubber tires made from lime, carbon, salt, petroleum and water are already on the market, he points out, and the cost of synthetic rubber will decline as it goes into mass production. "There was a time when men might have fought for rubber. The scientist believes that time is past."

No longer are manufacturers of films and plastics dependent upon camphor imported from Japan. When prices went up, scientists created a synthetic camphor actually better than their natural product. Heavy natural deposits of nitrate in Chile gave that country a monopoly on that material used in fertilizer and gunpowder—until scientists devised a way of making nitrates from nitrogen in the air. Today it would be ridiculous for any nation to go to war to control Chilean nitrates.

Modern science affects international relations in two ways, asserts Dr. Howe. On one hand it tends to make the world economically interdependent—by making the automobile owner dependent upon rubber from Malaya, for example. But science also tends to break up national monopolies—whether based upon climate or geography or created by tariffs or cartels—by inventing substitutes for natural products. In its latter function, he believes, science offers hope for the decline of economic stimuli to war. "Science can achieve modern miracles," comments Dr. Howe, "but as Dr. Arthur H. Compton, Nobel prize winner, puts it, 'Science is not enough. It needs the direction of men of good will. The ability to loose new energies carries the responsibility voiced in the hopes of a Britain scientist that the method for releasing the tremendous energy imprisoned in the atom will remain undiscovered until man becomes sufficiently civilized to use it for his weal and not for his woe.'"

CHURCHES

Christian Science Church Sunday School at 10 a. m. Sunday services at 11 a. m. Wednesday evening services at 8:00 o'clock. Sunday, November 9, 1941. Subject: "Adam and Fallen Man." The public is cordially invited.

East Side Church of Christ Each Lord's Day—Bible classes at 10 a. m. Worship service at 10:45 a. m. Evening service at 7 o'clock. Mid-week Bible class each Wednesday evening.

Christian Science Services "Adam and Fallen Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 9.

The Golden Text is: "Put off concerning the former conversation the old man, which is corrupt according to the deceitful lusts; and be renewed in the spirit of your mind" (Ephesians 4:22, 23).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Ye are all the children of God by faith in Christ Jesus" (Galatians 3:26).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spiritually to understand that there is but one creator, God, unfolds all creation, confirms the Scriptures, brings the sweet assurance of no parting, no pain, and of man deathless and perfect and eternal" (page 69).

Our Weekly Sermon

By George S. Schuler, Member of Music Faculty, Moody Bible Institute, Chicago.

What's It All About?

Following what might be termed the prehistoric past, Adam and his wife, Eve, lived in a state of bliss such as has not been experienced by any other human beings—"the last word" in creation. Their occupancy of the Garden of Eden was contingent upon obedience to their Creator; they were not to partake of the fruit of a certain tree, "the tree of the knowledge of good and evil." Disobedience caused their expulsion. The children of this couple have been striving long to re-enter this garden, but without avail. Murmurs have gone up deploring the fact that God should punish them for the sin of Adam and

that they should be finally banished from God and His glories.

But true to the claims of Scripture, God has proved Himself faithful and just. "God sending his own Son in the likeness of sinful flesh, and for sin, condemned sin in the flesh," that He might bring us back to Himself and to heaven, the glories of which infinitely surpass the glories of the Garden of Eden. That is to say, "God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life."

By believing we mean not the acceptance of historical facts, but a heart allegiance, which is an actual experience. Unlike God's dealing with Adam (the result of whose disobedience has been inherited by the human race as a legacy), God now deals with the human race in the light of the individual's acceptance of His Son, for "he that believeth on the Son hath everlasting life; and he that believeth not the Son shall not see life."

Let not man despise God's desire, for if he does, he dies alone and that without mercy, although God is "longsuffering to us-ward, not willing that any should perish, but that all should come to repentance."

What will you do with God's offer of mercy and provision of salvation? "Choose you this day whom ye will serve." "Behold, now is the accepted time; behold, now is the day of salvation." Today belongs to you; tomorrow belongs to God. It is a terrible thing to fall into the hands of a faithful and just, holy and righteous God after His love, mercy, and salvation have been spurned—not necessarily by actual abuse, but by passive evasion. For "everyone of us (independent of others) shall give an account of himself to God."

Truck load limits in the 48 states vary from 14,000 in Louisiana to 120,000 in Rhode Island.

Careless Handling of Firearms Caused Many Deaths in 1940

Austin.—A timely and urgent warning against the careless handling of firearms during the hunting season was issued this week by Doctor Geo. W. Cox, State Health Officer.

"During the year 1940 a total of 179 deaths occurred in Texas as a result of firearm accidents, by far the majority of them due to hunting activities," said Doctor Cox. "A hunter's loaded gun when not carried on safety is a menace to himself and to everyone within firing range."

Doctor Cox pointed out that while hunting is one of the nation's most enjoyable outdoor sports, this deplorable toll of human lives goes on annually due almost entirely to carelessness. "Many men go hunting year after year without harm to themselves or their companions because they handle a gun cautiously and with good sense," he declared.

"There is little excuse for the brand of carelessness or clumsiness that kills. If each hunter will use precautions to go through the hunting season without accidental injury to himself or his hunting companion, the death toll in Texas from firearm accidents will be reduced nearly seventy-five per cent," Doctor Cox stated.

Columbian Club Observes Annual Husbands' Evening

As its annual treat to husbands, the Columbian Club held Husbands' Evening on October 29 at the home of Dr. and Mrs. Hines Clark with Mrs. Clark, Mrs. John S. Ray and Miss Joellene Vannoy as hostesses.

Beautiful bronze chrysanthemums, tastefully arranged in a large silver and crystal bowl, centered the buffet and were flanked by tall white candles in silver candlesticks. On each of the quarter tables was a centerpiece of French marigolds and pyracantha berries. These flowers, together with the festive luncheon sets, carried out the theme of Halloween; and, after a delectable two-course dinner, spirited games of "42" were played.

Instead of honoring those with the highest scores, the hostesses presented prizes to the ones who made the most "84" bids, successfully. For the women, Mrs. Pearl Carter received highest honor and for the men, Oscar Boman led in the score.

Guests present were: Mr. and Mrs. Rude Magee, Mr. and Mrs. M. S. Henry, Mr. and Mrs. S. S. Bell, Mr. and Mrs. D. R. Magee, Mr. and Mrs. J. R. Beverly, Mr. and Mrs. S. T. Crews, Dr. and Mrs. R. L. Kincaid, Mr. and Mrs. Grady Halbert, Mr. and Mrs. T. L. Hughston, Mr. and Mrs. J. O'Connell, Mr. and Mrs. N. J. Roberts, Mr. and Mrs. B. W. Self, Mrs. A. Y. Beverly, Mrs. Ura Orr, Mrs. M. N. Kenner, Mrs. Agnes McLaughlin, Mrs. Chas. Thompson, Mrs. W. R. Womack, Mrs. H. Schindler, Mrs. T. B. Klepper, Misses Bertha Womack, Mary Ragland Thompson, Genevieve Ferguson and Oscar Boman, Jno. S. Ray and Dr. Hines Clark.

FOARD CITY H. D. CLUB

Stuffed heart, sweetbread, liver and onions were cooked and served by Miss Joellene Vannoy to club members of Foard City Home Demonstration Club Tuesday at the home of Mrs. A. L. Davis.

During the business meeting, it was voted that the club meeting date be changed from the 1st and 2nd Tuesday to the 1st and 2nd Wednesday of each month.

The next meeting will be at the club house and each member is urged to be present.

The average negro family in the United States is 3.1 persons. The average white family in the United States is 3.3 persons.

J. W. Cook Passes 80th Milestone on November First

Mrs. J. W. Cook and daughter, Miss Frances, entertained with a luncheon Sunday honoring their husband and father, J. W. Cook, who reached his 80th birthday on Saturday, Nov. 1.

Guests for the occasion were Mr. and Mrs. Frank Cates and son, Roy Joe, and Mr. and Mrs. Jim Cook.

Mr. Cook was born in Jasper County, Mo., Nov. 1, 1861, the son of Mr. and Mrs. Isaac Newton Cook. He came to Texas with his mother when he was eight years of age, his father having died. The Cook family came to Foard County thirty-four years ago.

Mr. and Mrs. Cook have seven children, five daughters and two sons. They are Mrs. Belle Schooling, Tulsa, Okla.; Mrs. Zada Curtain, Tulsa; Mrs. Mary Sloan, Tyler; Mrs. Ella Mae Cates, Crowell; Miss Frances Cook, Crowell; Jim Cook, Crowell; Joe Cook, Jackson, Miss. Mr. Cook also has one sister, Mrs. Clara Roland, Reber Falls, Okla.; and one half-brother, Albert Bowling, La Jolla, Calif.

PTA Entertains School Faculty With Banquet

Members of the Crowell Public School faculty, with their wives and husbands, were honored guests of the Crowell PTA at a delightful dinner party on Thursday evening, Oct. 30, in the Home Economics room at the High School.

Seated at quarter tables, which were centered with small marigold arrangements of Halloween covers, they were served a delicious plate of chicken and dressing, green beans, celery, congealed salad and hot rolls, with pumpkin pie and coffee. The food was furnished by the various room mothers and served to the guests by the executive board members, Mrs. Frank Flesher, Mrs. Joe Ward, Mrs. Roy Barker, Mrs. Vance Favor, Mrs. Earl Moody, Mrs. R. L. Kincaid and Mrs. Jim Cates.

Games of "42" followed the meal, completing the evening's enjoyment.

MARRIAGE

T. S. Lamar and Mrs. Ann Miller, both of Vernon, were married in the office of the County Clerk on Monday afternoon, Nov. 3. The ceremony was performed by H. E. Ferguson, Justice of the Peace.

METHODIST SOCIETY

The Woman's Society of Christian Service held its social meeting at the church Nov. 3 with Mesdames J. J. Brown, S. S. Bell and T. F. Hughston as hostesses.

The president conducted a short business session. Mrs. C. W. Thompson was leader for the program. She gave a devotional and a meditation. With Mrs. Claude Brooks accompanying, those present sang "Under His Wings," followed by prayer by Mrs. T. B. Klepper. Mrs. W. B. Tysinger gave an article, "The Things that make for Peace." After the song by the Society, "Jesus is all the World to Me," Mrs. Hughston led in prayer.

The hostesses served a refreshment plate to 23 members.

4-H CLUB NO. 2

The Crowell girls' 4-H Club No. 2 met in Mrs. Otto Davenport's room on Thursday afternoon and elected the following officers and demonstrators: Larue Graves, president; Lola Mae Fox, vice president; Julia Rose Johnson, secretary-treasurer; Doris Evelyn Johnson, reporter; Maudie Ellis, song leader; Annie Haynie and Edna Ruth Wallace, bed room improvement demonstrators; Bonnie Vassar, gardening demonstrator.

Mr. and Mrs. Garland Coltharp and their two children have moved into the home which they have recently bought from Mr. and Mrs. T. P. Reeder. The house was formerly occupied by Mr. and Mrs. Reeder.

Mrs. Gordon Gribble was called to Pampa last Saturday on account of the illness of Carol Ann, little daughter of Mr. and Mrs. Chester Henry. She is improving and Mrs. Gribble will return home today.

Mrs. Alfred Eddy and her mother, Mrs. George Doty, of Thalia, returned today from Lorenzo where they visited their sister and daughter, Mrs. Ted Solomon.

Mr. and Mrs. Leland Stovall left Wednesday for Corpus Christi, after spending a week's vacation with his parents, Mr. and Mrs. J. A. Stovall.

The vital Red Cross assistance to soldiers and sailors of America has more than doubled in the past year. You must help maintain these services for "the love of America." You can help by joining the Red Cross.

Margaret Host to Business Men at Banquet Nov. 4

The Farmers' and Business Men's Association met at Margaret Tuesday night and the ladies of the Margaret Home Demonstration Club served a delicious chicken banquet to them. Irving Fisch, acting vice president of the organization, called the meeting to order and turned it over to J. A. Stovall, as master of ceremonies for the evening.

Hardy Sanders gave a reading as the first number of the program, which was opened with the group singing of "God Bless America," with Mrs. Cecil Ray Moore at the piano. Jimmy Johnson of Thalia entertained with several accordion numbers. Henry Ferguson sang a cowboy song, after which C. D. Campbell read two numbers.

Mr. Stovall made the announcement that the organization had made a donation of \$50 to the Cemetery Association. To this Mrs. N. J. Roberts, president of the Cemetery Association, made response of appreciation. A number of impromptu talks were made by both Crowell and Margaret citizens. The meeting was brought to a close by the singing of "America."

The last meeting of the Farmers and Business Men's Association was held at Foard City but the weather was so inclement that the program was dispensed with. The Foard City ladies served a delicious barbecued chicken dinner, buffet style.

Just think! A Servel Electrolux refrigerator, a fine Grand or other make of cook stove, a fine Rheem hot water heater, a wonderful Dearborn or a Bu-Pro-Fire, or Brilliant Eye heater, wash pot, and an chicken brooder, all going at one time on your own Butane underground system. All yours, no bills to pay to anyone. Safe, sound, economical, perfect operation. Ask anyone who has one. We furnish it all including the gas. See us now while we have a good supply of tanks on hand. —W. R. Womack.

Margaret-Thalia Methodist Churches

Annual Conference meets in Big Spring, Texas, next Wednesday and ends a church year. Particularly on our last Sunday we need every member present in Sunday school, and on time at 10 a. m. I will preach at Thalia at 11 a. m. and 7:30 p. m. At 7 p. m. the Margaret young people will present a program for the Thalia young people. We invite the public to attend services and worship with us Sunday. —Don Culbertson, Pastor.

Sunday School Class Organized in Men's Dormitory of T. U.

Austin, Nov. 3.—Dormitory men at the University of Texas are organizing their own Sunday School class, because they feel that their common interests may be better met through a joint meeting each Sunday morning. The class, which will meet each Sunday in the lounge of Roberts Hall, central unit in the three-dormitory array comprising the University's largest men's rooming place, met for the first time Sunday.

Herman Jones of Austin, director of the Utilities Division of the Texas Railroad Commission, a University ex-student and former professor of law, will teach the Tri-Dorm Sunday School class, according to Keith Marroe and Randall Jackson, committeemen who have organized the group.
