General Talks With His Men

Gen. Dwight D. Eisenhower, supreme Allied commander, is shown in center of circle as he addressed men of the First division in Normandy. The general made a special trip to France to decorate 24 men for valor in the field. Despite his many duties he usually finds time to personally inspect all troops under his command and to listen to their problems. His popularity at the front has proven as great as on the homefront. Hundreds of American homes have received letters from General Eisenhower telling of good work done by their GI boys.

Yanks Shell Retreating Nazis

As one American soldier pulls the lanyard of a howitzer, two others hold cars and turn away from the rear as they shell retreating German troops near Carentan. American columns are still reported as advancing everywhere along the western half of the Normandy front despite powerful opposition.

Efficient Job of Demolition

Three American naval officers stand amid the wreckage of the German arsenal at Cherbourg, graphic testimony to the efficiency of German demolition squads. Left to right are Commodore William A. Sullivan, port salvage expert; Rear Adm. John Wilkes; and Rear Adm. Alan Kirk, commander of U. S. naval task forces in French waters.

MEMORANDUMS OF SOUTH PACIFIC

Mrs. G. L. Scott is in receipt of several mementos of the conflict in the South Pacific sent by her son, David Scott, MM 1-C, who is at present located in the Admiralty Islands. She has a dagger, with the handle made in an attractive manner from the decorative features of a Japanese bomber. The motifs of the handle are encased in plastic glass.

She also has a baton made from the same materials. The knob of the baton is solid aluminum from the bomber and the staff is made of the same materials as the knife handle. Both are extremely interesting and are the handiwork of Scott. He sent the souvenirs to his wife and daughter who reside in Lubbock.

CEMETERY DONATIONS

The following gifts have been received for the upkeep of the cemetery since the last report was made by Mrs. N. J. Roberts, president:

Mrs. Ethel Dickerson	\$5.00
Claude Callaway	5.00
Mrs. Ethel Glover Rider	1.00
Mrs. Frances Glover Withron	2.00
Sam Gamble	10.00

ROTARY CLUB

Rotary programs for the next three months as outlined by the program committee, were announced at the meeting of the Rotary Club Wednesday at noon. A new feature of the Rotary program for the three-month period will be a short review of the news headlines and comments by Verne Watson, in addition to the regular program.

The program Wednesday was a very impressive talk on "Building a City," given by Rev. Otis Strickland. Rev. Strickland gave the foundation of a city, the home, the school, the government and the church.

CARLOADINGS

The Santa Fe System carloadings for week ending August 5, 1944, were 28,168 compared with 21,521, for same week in 1943. Cars received from connections totaled 14,293 compared with 12,180 for same week in 1943. Total cars moved were 42,461 compared with 33,701 for same week in 1943. Santa Fe handled total of 42,514 cars in the preceding week of this year.

In Service Death Comes to Joyce Marie Mathews in Austin

Last Rites Held Sunday Afternoon At 5 o'Clock

Lt. John F. Bowley, who was injured in action in France recently, is in a hospital in England and has been operated for the removal of shrapnel. Three out of 23 pieces of shrapnel have already been removed. He also has a burst ear drum. He says that he is getting along as well as could be expected and is around the hospital in a wheel chair. He was taken prisoner by the Germans on June 16 and released when the Americans took the town where he was imprisoned.

M-Sgt. Burke Bell of the Finance Det. at Camp Carson, Colo., was here the first of last week visiting his mother, Mrs. B. W. Bell, and other relatives and friends. He has recently been promoted to the rank of M-Sgt. His mother has been in Colorado Springs for the past six weeks and returned to Crowell with him.

According to The Stars and Stripes, T-5 Fred R. Vecera of Crowell, is a guy who looks for trouble. As an armor artificer in the Second Division, Vecera has a comparatively safe job but has volunteered several times for sniper-hunting patrol duty. He is the son of Mr. and Mrs. Tom Vecera.

Sgt. L. G. Simmons, who is somewhere in New Guinea, has recently been promoted to staff sergeant, according to information received by his parents, Mr. and Mrs. Clint Simmons.

Mr. and Mrs. Guy Naron received a letter last week from their son, Pfc. Doris Ray Naron, the first they had received in 51 days. He has been active on the battle front in the South Pacific for the past two months.

According to a letter received last week by Mr. and Mrs. W. A. Love from the Adjutant General's office, their son, Pfc. William M. Love, who was recently wounded in action, was making normal improvement, on July 9, latest report from the theater of operations revealed. They were assured that when additional information concerning his condition was received they would be notified immediately.

Sgt. Reid Pyle, who is in France, has recently received a pair of shoes his wife had sent him. He writes that he can't use them himself, but is going to give them to a Frenchman. Many Frenchmen are being forced to go barefooted since the Germans have looted them of all their clothing. He says the French people are having a hard time.

Lieut. Sam Crews, wife and baby are here for a few days' visit with their parents, Mr. and Mrs. Sam T. Crews. Lieut. Crews received his wings as an airplane pilot at Turner Field, Ga., and will report to Hendricks Field, Fla., following his furlough. He is a graduate of A. & M. College and has served an overseas period, being at Pearl Harbor at the time it was attacked by the Japanese. He returned to the United States to take training in the Army Air Forces.

Learning the latest tricks in the repertoire of the combat pilot, 2nd Lieut. Lloyd English, son of Rev. and Mrs. Joseph W. English of Truscott, is now undergoing final training at Peterson Field, Colorado Springs, Colo., preceding his assignment to a U. S. Air Force fighter unit overseas, it has been announced by the Public Relations Office. Lieut. English, qualified as skilled pilot through earlier Army Air Forces Training School, is now in the study of an advanced tactical formation flying course. A graduate of Simmons University, Abilene, English entered military training service in 1942 and received his pilot's wings and commission as a second lieutenant in May, 1944.

Major T. P. Reeder Jr. arrived safely in England last week, according to letters received by his wife and parents in Crowell. His brother, Lieut. G. D. Reeder, has been stationed in England for several months.

Lt. Ella Patton, who is stationed at Brownwood, spent the week-end in the home of her mother, Mrs. T. S. Patton.

Cpl. Harold Canup, who is stationed at Fort Sill, Okla., is spending a furlough here in the home of his parents, Mr. and Mrs. G. M. Canup.

Earl S. Manard, BM 1-C, and Mrs. Manard arrived here Wednesday morning from Williamsburg, Va., where Mrs. Manard has been for the past several weeks. Mr. Manard is stationed at Camp Peary, Williamsburg. He will be here for a 15-day leave.

Que Meason, GM 1-C, of the Coast Guards, who is stationed at St. Augustine, Fla., has been here on leave for the past several days.

Sgt. Jack W. Thomas and Mrs. Thomas of Dalhart are here visiting in the homes of their mothers, Mrs. R. J. Thomas and Mrs. T. L. Collins.

Death Comes to Joyce Marie Mathews in Austin

Last Rites Held Sunday Afternoon At 5 o'Clock

Joyce Marie Mathews, daughter of Mr. and Mrs. B. W. Mathews, of Vivian, passed away in Austin Saturday morning. The body was brought to Crowell Sunday morning and funeral services were held Sunday afternoon at the Womack Funeral Home at 5 o'clock.

Rev. G. O. McMillan officiated at the services. John Rasor sang a special number, "Will the Circle Be Unbroken," and a duet, "Beyond the Sunset," was sung by Mrs. Rasor and Mrs. Jim Cook. Mrs. Arnold Rucker played the accompaniment.

Burial followed in the Crowell cemetery under direction of the Womack Funeral Home.

Pall bearers were John E. Long, John Rasor, A. Y. Beverly, Herbert Fish, Arthur Sandlin and R. L. Walling. Flower bearers were cousins of the deceased.

Joyce Marie was born in Burk Burnett, on March 2, 1927. Survivors include the parents; one sister, Norma Jean Mathews; one half-sister, Mrs. J. W. Burleson of Quanah and one half-brother, Loyd Mathews of Portland, Ore. A number of aunts, uncles and cousins also survive.

Mr. and Mrs. A. W. Keller of Skellytown, Mr. and Mrs. Mathews of Quanah, were among the out-of-town relatives present for funeral services.

Husband of Local Woman Killed in India July 17th

Cpl. Robert J. Seitz is reported to have been killed in action at Ramgarh, India, on July 17th, according to information furnished by his wife, the former Miss Truda Patton.

Mrs. Seitz was expecting her husband home soon and was in Nashville, Tenn., so as to be near when he returned. He was in a Ferrying Command and stationed at Nashville. The message of his death came to Crowell and Mr. and Mrs. Lester Patton, Miss Alma Patton and Mrs. Roy Fox went to Nashville to be with their sister.

Cpl. Seitz was aerial gunner on a transport plane when it crashed. There were no survivors. This was his 7th foreign mission. A letter to Mrs. Seitz from the chaplain tells her that further information would necessarily have to wait until the war is over.

Death Takes Young Brother of Mrs. Herman Biggerstaff

Mrs. Herman Biggerstaff was notified Tuesday of the sudden death of her 8-year-old brother, Jimmie Frank Belt, son of Mr. and Mrs. John Belt of Kirkland. The small boy was playing near the house and when he failed to respond to a call for dinner, it was discovered that he was dead. A small belt with which he was playing was accidentally drawn so tight around his neck that it strangled him to death.

Funeral services will be held this afternoon in Kirkland.

Warblers fly from South America to the United States in a single night.

'Fello Needs a Pal'

Constant companion of this sad-eyed bewildered Japanese youngster was "Shipper," the ship's mascot of a coast guard-manned assault transport, where the "Little Tojo" found haven and medical treatment from the strife that surged over his span home.

New Instructions Received by AAA on Use of Lumber

According to instructions received in the County AAA Office from State AAA Officials, the lumber situation is becoming more critical from day to day, due to heavy demands of the military forces and less lumber being manufactured due to labor conditions, etc., according to Clinton McLain, county AAA chairman.

The County AAA committee is charged with the responsibility of rationing lumber for farm use to farmers under a limited quota of board feet issued each county office by state headquarters. In the past, a farmer could get his lumber for essential uses merely by signing an application showing what the lumber was used for to be approved later by the AAA committee, but under the new and more strict regulations and small quota, a farmer must make application at the lumber yard and present this application to the AAA committee for its approval before he can purchase his lumber.

Each county is issued a quota of a certain number of board feet of AA-2 preference rating to be issued for the most essential jobs, and a somewhat larger quota of AA-3 rating to be used for less important jobs. The quota is issued quarterly.

Here is an outline of the instructions of purposes for which certificates to purchase lumber for farm use may or may not be issued:

1. Purposes for which certificates may be issued:

a. Construction of farm buildings (excluding farmhouse) which come within the \$1,000 limitation of conservation order L-41.

b. The rebuilding or restoring of farm buildings (excluding farmhouse), damaged or destroyed by fire, flood, tornado, earthquake, acts of war, or the like, if the cost of rebuilding or restoring is less than \$5,000, where immediate reconstruction is determined by the State AAA Committee to be essential to the agricultural program.

c. Construction necessary to prevent threatened loss of farm products where immediate construction is determined by the State AAA Committee to be essential to the agricultural program.

d. The rebuilding or restoring of a farmhouse damaged or destroyed after July 1, 1943, by fire, flood, tornado, earthquake, act of war or the like, if the cost of rebuilding or restoring is less than \$5,000.

e. The construction of farm labor buildings required for housing seasonal labor which comes within the \$1,000 limitation of Conservation Order L-41.

f. Maintenance and repair of farm buildings (excluding farmhouses).

g. Maintenance and repair of farm implements.

h. Other essential uses contributing to food production.

2. Purposes for which certificates may not be issued:

a. Construction of farm buildings (including farmhouses), the cost of which exceeds the limitations of Conservation Order L-41 and where EPB construction approval is required.

b. Construction or remodeling of farm houses which come within the \$200 limitation of Conservation Order L-41.

c. Maintenance and repair of farmhouses.

d. "Off-farm" construction.

e. Maintenance and repair of "off-farm" buildings.

Because of the critical lumber situation, the farmer is urged to use less critical materials wherever and whenever possible to substitute for lumber.

The new order provides that a small user purchasing less than 300 board feet of lumber may do so ration free, provided his total amount purchased during an entire quarter does not exceed this amount.

It is suggested that farmers discuss their lumber needs with their lumber dealer or a member of the County AAA Committee.

Foard County Exceeds Quota in Fifth War Loan by \$72,131.50, According to Tabulation by Federal Reserve Bank

The official tabulation of the Fifth War Loan campaign has just been released by the Federal Reserve Bank, County Chairman George D. Self announced Wednesday. With a quota of \$145,000, Foard County bought \$217,131.50, exceeding its quota by \$72,131.50. This is the greatest amount by which the county has ever exceeded its quota and the largest amount of bonds sold in any previous drive.

The outstanding feature of the Fifth War Loan drive was the sale of Series E bonds which totaled \$165,487.50. Foard County was at the top of the list of fifty-nine West Texas counties in the Fort Worth district. This excellent achievement was made possible by the fact that the masses of people bought small bonds, which showed that the home people are behind the war effort.

The total quotas of Foard County for all of the five War Loan drives is \$611,000. The total sales of bonds in the five campaigns is \$716,000. Thus, Foard County has oversubscribed its entire quotas for the war effort by \$105,000. This amount does not include the bonds purchased each month and it has been reliably estimated that these monthly purchases would amount to \$200,000 since war bonds have been offered for sale. Counting this amount as over-subscription, it would mean that the county has oversubscribed its quotas since the First War Loan by something like \$295,000.

Substantial amounts of these bonds have been purchased by corporations, utilities companies, who operate branches in the county, and by non-resident land owners. It is estimated that there are approximately \$700,000 worth of the bonds in the possession of Foard County residents. Very few of these bonds have been cashed, according to the Treasury Department.

Another remarkable fact about bond purchases in this county, Chairman Self states, is the fact that each of the nine communities in the county has exceeded its quota in the last three drives. This outstanding achievement is due to the hard work of the community committees, who are to be congratulated for their splendid work.

According to figures furnished by the United States Treasury, sale of Series E bonds in Texas totaled \$138,326,118.75, or 110.7 per cent of the quota of 125 million, and overall sales were \$412,621,890.25, or 132 per cent of the quota of 312 million.

Remember to Vote in Conservation Election Saturday

County Agent D. F. Eaton makes a final appeal for farmers and ranchers to go to the polls Saturday and cast their ballots for the creation of a soil conservation district in this county.

Every farm and ranch owner in Foard County has the responsibility and will have the opportunity Saturday to vote on the question of whether or not this county and Hardeman County should be formed into a soil conservation district.

While there has been no outspoken opposition to the proposition, there is some danger that the vote cast will be so small that the State Board will refuse to approve the district, although it passes by a two-thirds majority of those voting. Therefore, an appeal is being made by Mr. Eaton to all interested parties in the county to make an unusual effort to get people to vote next Saturday.

Everything has been done to inform the people, so it is now up to them to approve or disapprove the proposition. As stated in last week's issue, you can vote at either of the following places: Crowell, Thalia, Foard City or Rayland.

This problem is of sufficient merit to have the careful consideration and action of everyone. Mr. Eaton says, and the county will go forward with this movement, or it will come to a standstill, or go backward, according to the attitude the farmers and stockmen assume in respect to this program. It is squarely up to the qualified voters of the county and they should vote their sentiments.

Sister of Local Man Passes Away; Attend Funeral

Mr. and Mrs. F. C. Borchardt, Mr. and Mrs. Henry Borchardt and daughter, Judy, and Mrs. C. T. Hord went to Lewisville Monday to attend the funeral of Mr. Borchardt's sister, Mrs. Therese Wolters, who passed away at her home there Sunday. Funeral services were held Tuesday afternoon, Aug. 8.

Nephews of the deceased served as pall bearers. They were Johnnie Wolters of Lewisville, Clarence Wolters of Houston, Robert Borchardt of Plainview, Henry Borchardt of Crowell, Oscar Wolters of Fort Worth and Audrey Borchardt of Lewisville.

Mrs. Wolters was born on April 13, 1871, in Babbitt, Germany. Interment was made at Round Grove Cemetery near Lewisville.

Boy Scouts to Learn Water-Front Safety in Paducah, Aug. 11-13

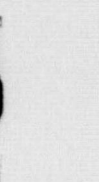

Boy Scouts of this district will be given an opportunity to learn water-front safety — swimming, life-saving and rescue methods — in Paducah on Friday, Saturday and Sunday, August 11, 12 and 13, at the swimming pool in that city, according to information received from Carlos Baker, Field Scout Executive. Mr. Baker has recently attended an aquatic school in Austin. The meet will be conducted under the leadership of Boy Scout Council personnel.

The field executive is very anxious that all Boy Scouts in the district attend. Each Scout must have his own food and cooking equipment, bedding, eating utensils, change of clothing, bathing suit and toilet articles.

If a boy qualifies in these activities, he may receive merit badges for same. Swimming and life-saving is a first class merit, however, many First Class Scouts have been denied this opportunity.

Medical examination is required of each boy on Form C-352 and must be by a registered physician. If a Scout has had an examination for camp, he need not have another one.

Some authorities advise the boiling water method for tomatoes and fruits only. The only safe way to can non-acid vegetables according to these authorities is by the pressure cooker because this is the only way in which one can be sure of killing botulinus germs. In the last five years food poisoning has cropped up in widely different parts of the country. Botulinus germs grow in improperly processed non-acid vegetables. They produce acute illness and in some instances death.

New Instructions Received by AAA on Use of Lumber

According to instructions received in the County AAA Office from State AAA Officials, the lumber situation is becoming more critical from day to day due to heavy demands of the military forces and less lumber being manufactured due to labor conditions, etc., according to Clinton McLain, county AAA chairman.

The County AAA committee is charged with the responsibility of rationing lumber for farm use to farmers under a limited quota of board feet each county office by state headquarters. In the past, a farmer could get his lumber for essential uses merely by signing an application showing what the lumber was used for to be approved later by the AAA committee, but under the new and more strict regulations and small quota, a farmer must make application at the lumber yard and present this application to the AAA committee for its approval before he can purchase his lumber.

Each county is issued a quota of a certain number of board feet of AA-2 preference rating to be issued for the most essential jobs, and a somewhat larger quota of AA-3 rating to be used for less important jobs. The quota is issued quarterly.

Here is an outline of the instructions of purposes for which certificates to purchase lumber for farm use may or may not be issued.

1. Purposes for which certificates may be issued:

a. Construction of farm buildings (excluding farmhouses) which come within the \$1,000 limitation of conservation order L-41.

b. The rebuilding or restoring of farm buildings (excluding farmhouse), damaged or destroyed by fire, flood, tornado, earthquake, acts of war, or the like, if the cost of rebuilding or restoring is less than \$5,000, where immediate reconstruction is determined by the State AAA Committee to be essential to the agricultural program.

c. Construction necessary to prevent threatened loss of farm products where immediate construction is determined by the State AAA Committee to be essential to the agricultural program.

d. The rebuilding or restoring of a farmhouse damaged or destroyed after July 1, 1943, by fire, flood, tornado, earthquake, act of war or the like, if the cost of rebuilding or restoring is less than \$5,000.

e. The construction of farm labor buildings required for housing seasonal labor which comes within the \$1,000 limitation of Conservation Order L-41.

f. Maintenance and repair of farm buildings (excluding farmhouses).

g. Maintenance and repair of farm implements.

h. Other essential uses contributing to food production.

2. Purposes for which certificates may not be issued:

a. Construction of farm buildings (including farmhouses), the cost of which exceeds the limitations of Conservation Order L-41 and where EPB construction approval is required.

b. Construction or remodeling of farm houses which come within the \$200 limitation of Conservation Order L-41.

c. Maintenance and repair of "off-farm" buildings.

d. "Off-farm" construction.

e. Maintenance and repair of "off-farm" building.

Because of the critical lumber situation, the farmer is urged to use less critical materials wherever and whenever possible to substitute for lumber.

The new order provides that a small order purchasing less than 200 board feet of lumber may do so ration free, provided his total amount purchased during an entire quarter does not exceed this amount.

It is suggested that farmers discuss their lumber needs with their lumber dealer or a member of the County AAA Committee.

Foard County Exceeds Quota in Fifth War Loan by \$72,131.50, According to Tabulation by Federal Reserve Bank

The official tabulation of the Fifth War Loan campaign has just been released by the Federal Reserve Bank, County Chairman George D. Self announced Wednesday. With a quota of \$145,000, Foard County bought \$217,131.50, exceeding its quota by \$72,131.50. This is the greatest amount by which the county has ever exceeded its quota and the largest amount of bonds sold in any previous drive.

The outstanding feature of the Fifth War Loan drive was the sale of Series E bonds which totaled \$165,487.50. Foard County was at the top of the list of fifty-nine West Texas counties in the Fort Worth district. This excellent achievement was made possible by the fact that the masses of people bought small bonds, which showed that the home people are behind the war effort.

The total quotas of Foard County for all of the five War Loan drives is \$911,000. The total sales of bonds in the five campaigns is \$716,000. Thus, Foard County has oversubscribed its entire quotas for the war effort by \$195,000. This amount does not include the bonds purchased each month and it has been reliably estimated that these monthly purchases would amount to \$200,000 since war bonds have been offered for sale. Counting this amount as over-subscription, it would mean that the county has oversubscribed its quotas since the First War Loan by something like \$395,000.

Substantial amounts of these bonds have been purchased by corporations, utility companies, who operate branches in the county, and by non-resident land owners. It is estimated that there are approximately \$700,000 worth of the bonds in the possession of Foard County residents. Very few of these bonds have been cashed, according to the Treasury Department.

Another remarkable fact about bond purchases in this county, Chairman Self states, is the fact that each of the nine communities in the county has exceeded its quota in the last three drives.

This outstanding achievement is due to the hard work of the community committees, who are to be congratulated for their splendid work.

According to figures furnished by the United States Treasury, sale of Series E bonds in Texas totaled \$138,226,118.75, or 110.7 per cent of the quota of 125 million, and overall sales were \$612,621,690.25, or 132 per cent of the quota of 464 million.

Remember to Vote in Conservation Election Saturday

County Agent D. F. Eaton makes a final appeal for farmers and ranchers to go to the polls Saturday and cast their ballots for the creation of a soil conservation district in this county.

Every farm and ranch owner in Foard County has the responsibility and will have the opportunity Saturday to vote on the question of whether or not this county and Hardeman County should be formed into a soil conservation district.

While there has been no outspoken opposition to the proposition, there is some danger that the vote cast will be so small that the State Board will refuse to approve the district, although it passes by a two-thirds majority of those voting. Therefore, an appeal is being made by Mr. Eaton to all interested parties in the county to make an unusual effort to get people to vote next Saturday.

Everything has been done to inform the people, so it is now up to them to approve or disapprove the proposition. As stated in last week's issue, you can vote at either of the following places: Crowell, Thalia, Foard City or Royland.

This problem is of sufficient merit to have the careful consideration and action of everyone, Mr. Eaton says, and the county will go forward with this movement, or it will come to a standstill, or go backward, according to the attitude the farmers and stockmen assume in respect to this program. It is squarely up to the qualified voters of the county and they should vote their sentiments.

Sister of Local Man Passes Away; Attend Funeral

Mr. and Mrs. F. C. Borchardt, Mr. and Mrs. Henry Borchardt and daughter, Judy, and Mrs. C. T. Hord went to Lewisville Monday to attend the funeral of Mr. Borchardt's sister, Mrs. Therese Walters, who passed away at her home there Sunday afternoon, Aug. 5.

News of the deceased served as pall bearers. They were Johnnie Walters of Lewisville, Clarence Walters of Houston, Robert Borchardt of Plainview, Henry Borchardt of Crowell, Oscar Walters of Fort Worth and Audrey Borchardt of Lewisville.

Mrs. Walters was born on April 13, 1871, in Babbin, Germany. Interment was made at Round Grove Cemetery near Lewisville.

Boy Scouts to Learn Water-Front Safety in Paducah, Aug. 11-13

Boy Scouts of this district will be given an opportunity to learn water-front safety — swimming, life-saving and rescue methods — in Paducah on Friday, Saturday and Sunday, August 11, 12 and 13, at the swimming pool in that city, according to information received from Carlos Baker, Field Scout Executive. Mr. Baker has recently attended an aquatic school in Austin. This meet will be conducted under the leadership of Boy Scout Council personnel.

The field executive is very anxious that all Boy Scouts in the district attend. Each Scout must have his own food and cooking equipment, bedding, eating utensils, change of clothing, bathing suit and toilet articles.

If a boy qualifies in these activities, he may receive merit badges for same. Swimming and life-saving is a first class merit, however, many First Class Scouts have been denied this opportunity.

Medical examination is required of each boy on Form C-952 and must be by a registered physician. If a Scout has had an examination for camp, he need not have another one.

Some authorities advise the boiling water method for tomatoes and fruits only. The only safe way to can non-acid vegetables according to these authorities is by the pressure cooker because this is the only way in which one can be sure of killing botulinus germs. In the last five years food poisoning has cropped up in widely different parts of the country. Botulinus germs grow in improperly processed non-acid vegetables. They produce acute illness and in some instances death.

Gen. Hideki Tojo has been relieved of his post as chief of the Japanese army general staff and has been succeeded by Gen. Yoshijiro Umezu (above), ambassador to occupied Manchuria.

MEMORANDUMS OF SOUTH PACIFIC

Mrs. G. L. Scott is in receipt of several mementos of the conflict in the South Pacific sent by her son, David Scott, MM 1-C, who is at present located in the Admiralty Islands. She has a dagger, with the handle made in an attractive manner from the decorative features of a Japanese bomber. The motifs of the handle are engraved in plastic glass.

She also has a baton made from the same materials. The knob of the baton is solid aluminum from the bomber and the staff is made of the same materials as the knife handle. Both are extremely interesting and are the handiwork of Scott. He sent the souvenirs to his wife and daughter who reside in Lubbock.

ROTARY CLUB

Rotary programs for the next three months as outlined by the program committee, were announced at the meeting of the Rotary Club Wednesday at noon. A new feature of the three-month period will be a short review of the news headlines and comments by Verne Walden, in addition to the regular program.

The program Wednesday was a very impressive talk on "Building a City," given by Rev. Otis Strickland. Rev. Strickland gave as the foundation of a city, the home, the school, the government and the church.

Rotarian Vance Favor of Quanah was a visitor.

CARLOADINGS

The Santa Fe System carloadings for week ending August 5, 1944, were 28,168 compared with 21,521, for same week in 1943. Cars received from connections totaled 14,293 compared with 12,180 for same week in 1943. Total cars moved were 42,461 compared with 33,701 for same week in 1943. Santa Fe handled total of 42,514 cars in the preceding week of this year.

CEMETERY DONATIONS

The following gifts have been received for the upkeep of the cemetery since the last report was made by Mrs. N. J. Roberts, president:

Mrs. Ethel Dickerson	\$5.00
Claude Callaway	5.00
Mrs. Ethel Glover Rider	1.00
Mrs. Frances Glover Withron	2.00
Sam Gamble	10.00

What well known citizen of France visited President Roosevelt recently? (Answers on page 3).

AGRICULTURE (D. F. Eaton, County Agent)

Spotlight on Soil Conservation Soil and water conservation in Texas will be the spotlight during August.

Governor Coke Stevenson has issued a proclamation designating August 12 as Soil and Water Conservation Day in Texas and supervisor of the 125 soil conservation districts in the state are making plans for its proper observance. According to Paul G. Haines, soil and water conservation specialist for the A. & M. College Extension Service, programs being prepared for the occasion are expected to result in the greatest educational value. These include meetings, tours of inspection, exhibits, and talks on conservation at luncheon clubs.

The supervisors of soil conservation districts in Northwest Texas and the Panhandle will meet at Childress on August 16. The principal subject for discussion will be post war plans for soil and water conservation.

Hardeman, Foard, Cottle and Motley counties will vote August 12 on the creation of soil and water conservation districts. Creation of districts in these counties would complete the coverage of Extension district three, which comprises 20 counties from Montague and Wise westward to Kent, Dickens and Motley.

Boy Scouts Aquatic Meet at Paducah

We have just been informed by Carlos Baker, District Scout Field Executive, that the local troupe is invited to attend a district camp to be held at Paducah, August 11, 12 and 13.

The members of troupe No. 49 here and the troupe at Thalia are planning to attend this camp as well as members from the older boys group here in Crowell. The program will consist of various events in water, consisting of swimming, life guard training, rescue work, the use of throw

lines, artificial respiration and other aquatic events. We are expecting a good delegation from the local troops to attend. The boys will make their plans at Thursday night's meeting. They will have to provide food, bedding and swimming equipment. The boys will buy their food in bulk after they have worked out a menu.

This will be a fine opportunity for the boys to have a good outing and to get some valuable training as well. The boys will be properly supervised and if some of them can't swim this will be an opportunity for them to learn to swim under expert guidance.

Boys Return From 4-H Club Camp agents and adult leaders.

Foard County's group consisted of County Agent D. F. Eaton and adult leader, J. C. Prosser, and the following boys: Robert and Oran Carroll, Bruce Blouise, Charles McDaniel, Leon Pechacek, Jack Wayne Murphy, Ginger Johnson, Thomas Tamplin, Olen Wayne Shultz and Herman Athey. The camp was held at the West

Boeing B-29 Superfortress, the type which bombed Yawata steel plants and Saigo Naval Base.

10 Little Octane Numbers that will help end the war sooner!

TODAY'S SUPER-FUEL is 100-Octane, as compared with 90-Octane for pre-war aviation gasoline.

This difference of 10 octane numbers is definitely contributing toward hastening the day of victory, because these extra octane numbers represent extra fighting power... extra range and carrying capacity for our big bombers... extra speed for our fighter planes!

In thirty months, U.S. production of 100-Octane Aviation Gasoline has been multiplied ten times. Our facilities for producing this precious, fighting, superfuel can now deliver 21,000,000 gallons daily. Think of it! This is a greater quantity of aviation gasoline alone than the combined total of all petroleum products available to Axis Europe.

Boys Return From 4-H Club Camp agents and adult leaders. Foard County's group consisted of County Agent D. F. Eaton and adult leader, J. C. Prosser, and the following boys: Robert and Oran Carroll, Bruce Blouise, Charles McDaniel, Leon Pechacek, Jack Wayne Murphy, Ginger Johnson, Thomas Tamplin, Olen Wayne Shultz and Herman Athey. The camp was held at the West

nineteen counties ranging from five to ten boys with their county. The 4-H Club District Camp was a decided success and was thoroughly enjoyed by all of the 150 in attendance. There were delegations from Texas Utilities Company club house park and lake which was an ideal location. The boys were provided with excellent meals, well cooked and a wide variety of foods. This they appreciated. One of the things that was of special interest was the rifle shooting. Each boy got to shoot twenty shots, five each at four different targets. We shot from a prone, sitting, and standing position using a standard rifle. Thomas Tamplin ranked second place among the 125 boys shooting a splendid record with a high score. They had their final swim in the Municipal Pool at Chillicothe, Wednesday.

international respiration and other aquatic events. We are expecting a good delegation from the local troops to attend. The boys will make their plans at Thursday night's meeting. Thomas Tamplin ranked second place among the 125 boys shooting a splendid record with a high score. They had their final swim in the Municipal Pool at Chillicothe, Wednesday.

The leaders of the camp were Dist. Agt. J. A. Seinfeld, who had charge of the camp; L. L. Johnson, State Boys Club Agent; C. W. Simmons, Extension Farm Forester; R. E. Callender, Extension Game Management Specialist; Mr. Pope from the Game, Fish and Oyster Commission from San Antonio, and his assistant, Mr. Pope had charge of the rifle shooting. He is an expert shooter. The boys were provided with excellent meals, well cooked and a wide variety of foods. This they appreciated. One of the things that was of special interest was the rifle shooting. Each boy got to shoot twenty shots, five each at four different targets. We shot from a prone, sitting, and standing position using a standard rifle. Thomas Tamplin ranked second place among the 125 boys shooting a splendid record with a high score. They had their final swim in the Municipal Pool at Chillicothe, Wednesday.

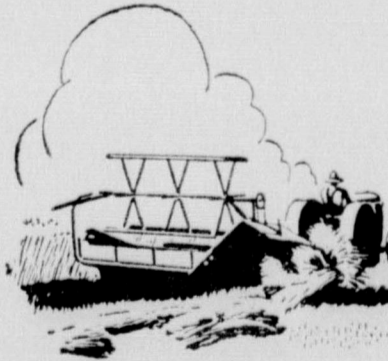

They had special instructions in trapping, hunting and care and protection of wild life and observed a splendid exhibit of wild life specimens as well as moving pictures showing actual wild life in

its native habitat. One special feature was the study of forest trees and shrubs, and the use of various kinds of timber. The highlight of the camp was a demonstration on the growing of grain sorghums in Knox County by three 4-H Club boys. By use of a rainfall chart they showed that by planting at the proper time the crop might mature during the period of usual rainfall and ahead of the usual drought period. The leaders of the camp were Dist. Agt. J. A. Seinfeld, who had charge of the camp; L. L. Johnson, State Boys Club Agent; C. W. Simmons, Extension Farm Forester; R. E. Callender, Extension Game Management Specialist; Mr. Pope from the Game, Fish and Oyster Commission from San Antonio, and his assistant, Mr. Pope had charge of the rifle shooting. Western Fields that feed a Nation at War

Look to the West, America, and fill your eyes with the boundless expanse of American fields—symbol of Freedom's Food.

And under the plow, the drill and the combine the Good Western Earth is turning out the precious food that peoples live on, armies fight on, wars are won on.

Today, on our western prairies, our golden fields of war are working hand in hand with our black smokestacks of war industries.

Could there ever be a prouder time for American farmers?

T. B. KLEPPER, Owner-Editor
Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, August 3, 1944

For God is my witness, whom I serve with my spirit in the gospel of his Son, that without ceasing I make mention of you always in my prayers.—Romans 1:9.

There is a bill before Congress to provide \$200,000,000 a year aid to education. We are opposed to the bill. We believe that it will lead directly to federal control of the schools, a thing to which we would definitely be opposed.

One of the important projects of the future in this country is going to be the matter of public health. This matter has been brought to the attention of the country by the number of rejections for physical reasons by the Army and Navy.

Although we are assured that air travel will be rapidly developed after the war and that the great planes of the earth will be brought within a few hours of our door, we have no hankering to visit many of the places now well known such as Suipan, Guam, the Marshall Islands, Iceland, the Azores and a dozen others we could mention.

A WARNING TO PIG BOATS

Tomorrow's dictionary will define walking as a primitive method of locomotion achieved by placing one foot in front of the other.

The biggest handicap to marriage nowadays is the fact that man can't support the government and a wife on one income.

Many a man has been deterred from crime because he didn't have the courage of the judge's convictions.

Of the invasion it could not be said there was "too little, too late."

High compliments paid extravagantly are likely to cause inflation, too.

Before hopping on a train of thought, one should inquire as to its destination.

He who progresses by leaps and bounds isn't jumping to conclusions.

Some phrases are worn thin from people's trying to get them in edgewise.

When asked to pay more than the ceiling price, it's patriotic to raise the roof.

Some women seem to be afraid that a square meal will spoil their curves.

You can always get credit quickly and easily if you can prove that you don't need it.

Dentistry is the most admirable of all professions. Dentists do their crowning work every day.

When you embark on the sea of matrimony, you sail with the tide.

There ought to be a law against making any more laws for a while.

So live that when you die it will be difficult to replace you.

The way of the transgressor is hard on his associates.

HISTORY

Labor Day—September 4: Labor Day observed the first Monday in September has come to be one of the most generally observed holidays in this country. Credit for originating the observance of a day set apart to the recognition of labor is generally given to Peter J. McGuire in 1882.

In every community there is one or more persons who have plenty of money but nothing else. They have a house full of things but nothing in their lives. The only riches that it is not possible to have too much of are the riches of the heart and the spirit, and the fine art of true hospitality and friendliness.

There is an undercurrent of feeling that Hitler will resort to the use of gas. To do so would be sheer suicide. The Russians would retaliate in kind and to the degree that Hitler never dreamed possible.

We at home are doing a lot of talking and planning as to what we will do after the war for and with the boys now in the armed forces. Our opinion is that when the boys get back home they are going to have some idea of their own as to what ought to be done and for the next thirty or forty years they are going to be the ones who will run affairs in this country.

The Cow with a Complacent Ego

What We Think

Of all the people with whom I have the least patience it is those who contend that this country should not concern itself with wars outside the borders of the United States.

I think it is so obvious that no one doubts that had we not thrown the services of the United States into the war at the time we did, England and Russia would be prostrate under the heel of Hitler's armies alone.

We talk about the loss of American lives, but it is not to be compared with what the loss would have been had we failed to help our Allies and taken on the full force of Hitler's army later.

For this reason, I believe that those who counsel our remaining out of world affairs in the future and having no part in maintaining world peace, even with armed force, should be pushed aside, and the truly realistic view taken of the situation.

I believe that the United States should not only take an active part in maintaining world peace, even with force, but that it should assume the lead in this direction.

I believe the defeat of the Axis will bring this nation to its rendezvous with destiny. At that time we may choose whether we are willing to take up the cross of world peace and accept our responsibility in the world of nations.

I believe that God uses men to get his work with mankind done on this earth. If one people fails to meet the challenge of any particular hour he passes the torch to another people and so on until the desired task is accomplished.

I do not believe that God ever fails. It is man who fails. If we fail to meet the challenge that will face us squarely after this war, there will be no lasting world peace.

The next time it will not be led by Hitler and Mussolini, there will be other leaders inspired by the same mad, senseless desire to subjugate and rule the world.

In the tumult and the shouting that will follow victory we of this country must not forget that our hour is at hand. This is our opportunity to become in truth the world's greatest nation.

German prisoners of war taken in Normandy reported that Hitler had been on an inspection trip in Normandy but left two days before the invasion got under way.

If any proof were needed that we have a great country, it is the fact that though our boys have visited every country of the world in this war they all agree on one thing that America has them all beaten a million or more miles.

We have come to the conclusion that if those silly plugs one hears on the radio for this and that product sell the merchandise, the selling game is a lot simpler than we have suspected it to be.

IN THE NEWS 30 YEARS AGO

Items below were taken in whole or in part from the issue of The News of Friday, August 7, 1914:

W. J. Long was here from Thalia Monday. Mr. Long says that the Vernon Oil Company which purchased the Thalia Gin is completely overhauling the gin and putting it in fine shape for the coming season.

Miss Mae Majors has resigned her position with the Allee-Henry & Co. store and returned to her home in Memphis.

W. A. Patton called at our office Monday and renewed for the paper and ordered it sent for six months to M. B. Patton of Stephenville.

Gordie Gafford returned Friday from Pueblo, Colo., where he has been for several months. Gordie says he likes Colorado very well, but their Crowell and Foard County look good to him and that he will come back to stay.

J. F. Matthews, who operates the Long Bros. farm near Thalia, was in town Monday. Mr. Matthews says that he had a good crop on his crops Sunday, and that the crop was much heavier just east of his place.

Mrs. Frank Crews and children left this week for Fayette, Mo., to visit Mrs. Crews' father. We noticed Frank in town Monday hanging around a restaurant, but he lives so far from town he will be almost compelled to eat some of his own cooking.

The schools of Crowell will open for business Sept. 7. Parents, begin now to prepare to have your children ready to enter the first day, as an even start is worth a great deal.

Mr. and Mrs. Joe Klepper of Midland spent several days here this week visiting relatives and friends.

Miss Jess Hutchison of Waco is spending her vacation here the guest of Misses Leona Young and Essie Thacker.

Miss Essie McLarty, one of the efficient telephone operators, is taking a vacation. Mrs. W. B. McCormick is filling her place in the office.

Willie Wheeler returned last week from East Texas. Willie says there's no place like Foard County.

Mrs. J. S. Harby, wife of the editor of the Snyder Signal, spent last week in Crowell visiting her niece, Mrs. M. O'Connell.

Miss Bess Crouch, who has been visiting Mr. and Mrs. T. M. Beverly, left Saturday for Willard, N. M., where she will visit several weeks before returning to her home at McKinney.

DOUBLE DEALING

Commenting on the uncertainties of the "new order" in domestic economy, Wheeler McMillan, editor of the Farm Journal, one of the most widely circulated agricultural monthlies, says: "When a law is passed, most of us ordinary citizens assume that it says what it means, and means what it says. . . . We are not as smart as the new kind of bureaucrats. They have what they call 'administrative interpretation.' That is a fancy phrase for twisting the law to let you do what you want to do, regardless of Congress, and there has been much of it. . . . Supreme Court Justice Frankfurter encourages the 'administrative interpreters.' In a decision, he wrote: 'The notion that, because the words of a statute are plain, its meaning also is plain, is merely pernicious over-simplification.'"

Is it any wonder that some of the Supreme Court justices have openly expressed the fear that public confidence in our highest tribunal is being shaken? "Administrative interpretation" of laws permits public agencies to commit acts which would be illegal if practiced by private citizens. When expedient, "administrative interpretation" finds monopoly that violates the Sherman anti-trust laws, "administrative interpretation" of the interstate commerce clause has been stretched until a man who eats a Kansas City steak with Idaho potatoes, is in danger of being in interstate commerce.

But "administrative interpretation" fails to see monopoly in government electric projects which refuse to recognize state laws, state regulation, state taxation, and which give their customers rebates in electric rates through tax exemptions. Government electric monopolies openly and deliberately seek to drive existing private enterprise out of business, either by forcing it to sell or duplicating its properties at public expense, thereby destroying its earning power.

European dictators never devised more cunning schemes for dominating their citizens than have been developed in our own country by the "administrative interpreters." — Industrial News-Review.

According to those in charge of supply services in the European theater of war, it takes ten tons of equipment to land a man on the Continent and it requires one ton of supplies monthly, including ammunition, clothing and food to keep him in combat.

AGRICULTURE DEPENDS ON MARKETING PROGRAM ENEMIES OF INFLATION

It has always been taken for granted that the small farm—the ownership of land by millions of individuals—was the great safeguard of independence in this nation.

Postwar prosperity of American industries will depend largely on the ability of small farmers to buy the products of our factories. With world markets made more accessible for buying and selling than ever before, success for the small farmer will depend on his ability not only to produce, but to market his crops in competition with the world.

As farmers learn how to better utilize marketing co-operatives to handle their production and sales on a group basis, a major economic handicap that American agriculture has faced, will be removed. — Industrial News-Review.

The story is told that an Italian prisoner of war working on a peanut ranch in the south recently told the owner that Mussolini had told the Italians that they would soon be marching across the plains of the United States. "What he didn't tell us," the prisoner said, "was that we'd have to pick up peanuts on the way."

Graceful Lines in Rayon Gives Youthful Tone to This Outfit

A youthful silhouette is attained by the brief sleeves, slim skirt and graceful lines of this rayon. In a light rayon print of yellow, grey and white, you will find it a perfect choice for spring-through-summer wear. This style requires little fabric, and by making it yourself, you will have extra money to put into War Bonds. Sewing Leaflet No. M 5591, "How to Beginning to Cut," may be obtained by sending a stamped, self-addressed envelope to the Textilework Department of this paper.

Invasion of England

From the gaping bow doors of an LST, German prisoners of war stream ashore at a British port. When they used to sing "We Sail Against England," they never dreamed that the landing on the shores was going to be like this—as prisoners of war.

CORRECTIONS MUST BE MADE

Inequitable price ceilings set by the Office of Price Administration are directly responsible for current shortages in certain types of apparel, according to statements made by the heads of the International Association of Garment Manufacturers and the Underwear Institute, both of whom declare that admitted shortages have been brought about by pricing orders which have not permitted producers to make profits.

As for poor quality, the head of the Underwear Institute said OPA was at fault for the situation "due to its manipulation of and inertia toward price ceilings on yarns and knitted cloth. For example, a spinner could not deliver knitted yarn to established knit underwear mills at a price which showed him any profit. On the other hand, a yarn spinner could have his yarn knitted into cloth for himself and sell the cloth at a profit.

"This cloth is bought by cutters-up with no experience, as a rule, in the underwear business, who, because of the queerness of OPA's pricing policies, are able to get the very highest price quoted for underwear, and deliver that very high-priced unsatisfactory merchandise. The legitimate, established underwear mills are unable because of their price ceilings, to make or deliver merchandise of a much higher quality.

"The result has been that these price policies of the OPA have shut off good quality merchandise at reasonable prices, and have permitted inexperienced producers to make questionable goods at an extremely high price.

There is no doubt that OPA has to deal with many manufacturers who would price gouge if not restrained, but with past experience to go by, it should now be possible to avoid inequalities which penalize the consumer in both quantity and quality of goods.—Industrial News-Review.

PASSENGER SERVICE

More than 35,000 trains run in the United States every day, seven days a week and 365 days a year, and with very few exceptions they run without accidents, local Santa Fe officials announced this week.

The increase in the volume of transportation performed by the railroads has far outdistanced the fatality rate.

Last year the railroads performed an amount of passenger service that was 269 per cent greater than in 1938. The passenger fatality rate last year was 19 1/2 per cent lower than in 1940 and 32 1-3 per cent lower than in 1938.

A letter from W. H. Taylor of Los Angeles, Calif., gives us the following information concerning Lance Middlebrook, son of Mr. and Mrs. I. W. Middlebrook of Springtown, former Foard residents. Lance is a former Crowell High football and basketball star and will be remembered by many. He is at present in a hospital in England following injuries received in France. He describes his experiences, which were had enough, and says that his only wish is that he may soon leave the hospital and get back into the fight. He says that he is enjoying a good bed and plenty of rest but is eager to finish the combat. He says that his squad had been called the "suicide squad," because it seemed to always go first, for some reason. His letter reads like what might be read from a book but is real experience.

CARD OF THANKS

I wish to express my sincere thanks and appreciation to the people of Foard County for their kindness during the recent illness and death of my husband, J. N. Banks.

To all those who made inquiries about his condition, to the men who plowed his land, for the flowers, cards, letters, telegrams thank you from my heart.

May God bless each of you.

Mrs. J. N. Banks
and J. N. Jr.

SAFETY SLOGANS

No automobile is accident proof. Learn what to do in case of emergency. If some one has fainted, suffered an electric shock, taken poison, slipped into deep water, knowing what to do may be the means of saving a life. One second is enough to send your car into another car or cause it to leave the road and be wrecked.

The Wolverine is a three-letter animal. It is triply dangerous because it can swim, climb trees and run.

The Hummingbird is the only known bird that can fly backward as well as forward.

The Pika deceives pursuers by throwing its voice.

PEOPLE EAT LESS

Soft drinks, iced tea and other beverages—containing calories, but essentially no vitamins—make up a large part of many diets.

Keep your vitamin reserves up to par. We stock all the important vitamins—in liquid, capsule or tablet form.

JOIN GULF'S "Anti-Breakdown" Club TODAY!

HERE'S GULF'S PROTECTIVE MAINTENANCE PLAN

Protects those bearings and pistons!

IT'S IMPORTANT to give your car a good motor oil and change regularly. Gulf offers two outstanding oils... Gulfpride, "The World's Finest Motor Oil," and Gulfube, an extra-quality oil costing a few cents less.

Reduces wear at 39 danger points!

GULF'S Protective Maintenance Plan includes Gulfex Registered Lubrication which reaches up to 39 vital points with six different Gulfex Lubricants that reduce wear, and lengthen your car's life.

Helps stretch those "A" coupons!

AIR FILTER and spark-plug cleaning, and radiator flushing help give better gas mileage. A clean air filter makes gas burn more economically; clean plugs increase power; a clean radiator prevents overheating.

Get an appointment at your Gulf station!

HELP YOUR Gulf Dealer do a thorough job—and save your time—make an appointment in advance. Phone or speak to him at the station. Then you should encounter no delay when you get Gulf's Protective Maintenance Plan... 15 services in all!

for better car care today... to avoid breakdowns tomorrow

Gasoline powers the attack... Don't waste a drop!

BEFORE THIS WAR IS OVER, there may be only two kinds of people in America...

1. those who can still get to work in automobiles,
 2. those who are forced to walk.
- If you want to be in the fortunate group who will still be riding to work in automobiles, join Gulf's "Anti-Breakdown" Club today. How do you do it? Just come in for Gulf's Protective Maintenance Plan!
- This plan was conceived by experts in car care. Gulf developed it because car maintenance is a most important civilian job.

PERPETUATE AMERICAN AIR SUPREMACY

At the close of World War I commercial aviation was in its infancy and presented no postwar problems. Today it is a vital branch of transportation, and its place in domestic and international trade can only be assured by wise and careful planning.

The Federal government recognized its responsibilities to aviation when it enacted the Civil Aeronautics Act of 1938. The wisdom of its action has been well attested by the praises of the air transport industry from high military and naval officials for its great contributions to the prosecution of the war. But plans and policies adopted six years ago, are becoming as obsolete as the air planes of the pre-war days.

In domestic commerce many questions must be solved involving trunk routes, feeder lines, additional airports, zoning regulations, contract carriers and duplicating state and local laws. In the international picture, there must be established new trade routes and international rights and treaties. Still other problems are involved in the aircraft manufacturing industry, and the development of future pilots, technicians and mechanics.

As a nation, we must solve these problems through legislation designed to promote and co-ordinate the national and international transportation system. The Committee on Interstate and Foreign Commerce of the House of Representatives has been working to prepare practical legislation along these lines. Congress must act on well considered findings in order that America's system of airways may be kept the finest in the world.—Industrial News-Review.

It is the duty of every American at home to vote. In years past only a part of the people have taken the time to vote. The people in the European countries would be happy to vote if they were given the chance but they are not. We of America, who are permitted the privilege should not treat it lightly or with indifference. It is a duty of every citizen of a Democracy to vote.

AMENDMENTS TO STATE CONSTITUTION TO BE VOTED ON IN NOVEMBER; EVERYBODY SHOULD READ THEM IN ORDER TO VOTE INTELLIGENTLY

H. J. R. NO. 18
HOUSE JOINT RESOLUTION

proposing an Amendment to Section 9 of Article 8 of the Constitution of the State of Texas, by changing said Section 9 so as to provide that the Commissioners Court in any county may re-allocate the county tax levies authorized in said section by changing the rates provided for any of the purposes authorized in said section by either increasing or decreasing the same, but in no event shall the total of such taxes exceed eighty (80) cents on the one hundred dollars valuation for any one year; providing that before such Commissioners Court may make such re-allocations and changes in such levies that same shall be submitted to the qualified property tax paying voters of such county at a general or special election and shall be approved by a majority of the qualified property tax paying voters, voting in such election; providing that if and when such re-allocations and changes in such county tax levies have been approved by the qualified property tax paying voters of any county as herein provided, such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of the election at which same shall be approved, unless the same again shall have been changed by a majority vote of the qualified property tax paying voters of such county, voting in such election; providing that this section shall not be construed as a limitation on powers delegated to counties, cities or towns by any other section or sections of this Constitution; affixing the time for the election for the adoption or rejection of said proposed Constitutional Amendment; making certain provisions for said election and ballots thereof; and the method thereof; directing the issuance of certain duties of the Governor of the State of Texas; and making an appropriation to defray the expenses of said election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 9 of Article 8 of the Constitution of the State of Texas, be so amended that the same will hereafter read as follows:

Section 9. The State tax on property, exclusive of the tax necessary to pay the public debt and of the taxes provided for the benefit of the public free schools, shall never exceed thirty-five (35) cents on the one hundred dollars valuation, and no county, city or town shall levy more than twenty-five (25) cents for city or county purposes, and not exceeding fifteen (15) cents for roads and bridges, and not exceeding fifteen (15) cents to pay jurors, on the one hundred dollars valuation, except for the payment of debts incurred prior to the adoption of the Amendment September 25, 1933; and for the erection of public buildings, streets, sewers, waterworks and other permanent improvements, not to exceed twenty-five (25) cents on the one hundred dollars valuation, in any one year, and except as is in this Constitution otherwise provided; provided, however, that the Commissioners Court in any county may re-allocate the foregoing county taxes by changing the rates provided for any of the foregoing purposes by either increasing or decreasing the same, but in no event shall the total of said fore-

going county taxes exceed eighty (80) cents on the one hundred dollars valuation, in any one year; provided further, that before the said Commissioners Court may make such re-allocations and changes in said county taxes that the same shall be submitted to the qualified property tax paying voters of such county at a general or special election, and shall be approved by a majority of the qualified property tax paying voters, voting in such election; and, provided further, that if and when such re-allocations and changes in the aforesaid county taxes have been approved by the qualified property tax paying voters of any county, as herein provided, such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of the election at which the same shall be approved, unless the same again shall have been changed by a majority vote of the qualified property tax paying voters of such county, voting on the proposition, after submission by the Commissioners Court at a general or special election for that purpose; and the Legislature may also authorize an additional annual ad valorem tax to be levied and collected for the further maintenance of the public roads; provided, that a majority of the qualified property tax paying voters of the county voting at an election to be held for that purpose shall vote such tax, not to exceed fifteen (15) cents on the one hundred dollars valuation of the property subject to taxation in such county. And the Legislature may pass local laws for the maintenance of the public roads and highways, without the local notice required for special or local laws. This section shall not be construed as a limitation of powers delegated to counties, cities or towns by any other section or sections of this Constitution.

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a general election to be held throughout the State of Texas on the seventh day of November, 1944, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"FOR the Amendment of Section 9 of Article 8 of the Constitution of the State of Texas, so as to provide that the Commissioners Court in any county may re-allocate the county tax levies authorized in said section by changing the rates provided for any of the purposes authorized in said section by either increasing or decreasing the same, but in no event shall the total of such taxes exceed eighty (80) cents on the one hundred dollars valuation for any one year; providing that before such Commissioners Court may make such re-allocations and changes in such levies that same shall be submitted to the qualified property tax paying voters of such county at a general or special election, and shall be approved by a majority of the qualified property tax paying voters, voting in such election; providing that if and when such re-allocations and changes in such county tax levies have been approved by the qualified property tax paying voters of any county as herein provided, such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of the election at which the same shall have been approved, unless the same shall have been changed by a majority vote of the qualified property tax paying voters of such county, voting on the proposition, after submission by the Commissioners Court at a general or special election for that purpose; and providing that this Amendment shall not be construed as a limitation on powers delegated to counties, cities or towns by any other section or sections of this Constitution."

eral or special election for that purpose; and providing that this Amendment shall not be construed as a limitation on powers delegated to counties, cities or towns by any other section or sections of the Constitution.

Those opposing said proposed Amendment shall write or have printed on their ballots the following words:

"AGAINST the Amendment to Section 9 of Article 8 of the Constitution of the State of Texas, so as to provide that the Commissioners Court in any county may re-allocate the county tax levies authorized in said section by changing the rates provided for any of the purposes authorized in said section by either increasing or decreasing the same, but in no event shall the total of such taxes exceed eighty (80) cents on the one hundred dollars valuation for any one year; providing that before such Commissioners Court may make such re-allocations and changes in such levies that same shall be submitted to the qualified property tax paying voters of such county at a general or special election and shall be approved by a majority of the qualified property tax paying voters, voting in such election; providing that if and when such re-allocations and changes in such county tax levies have been approved by the qualified property tax paying voters of any county as herein provided, such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of election at which same shall be approved, unless the same shall have been changed by a majority vote of the qualified property tax paying voters of such county, voting on the proposition, after submission by the Commissioners Court at a general or special election for that purpose; and providing that this Amendment shall not be construed as a limitation on powers delegated to counties, cities or towns by any other section or sections of this Constitution."

If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and Laws of this State.

Section 4. The sum of Five Thousand Dollars (\$5,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of such publication and election.

H. J. R. NO. 8
HOUSE JOINT RESOLUTION

proposing an amendment to Section 51 of Article 3 of the Constitution of the State of Texas, by adding thereto Sections 51-e and 51-f, Section 51-e providing that cities and towns in this State shall have the power and authority to provide a system of retirement and disability pensions for their appointive officers and employees of cities and towns; and Section 51-f providing that the Legislature shall have authority to provide a system of retirement and disability pensions for appointive officers and employees of cities and towns to operate Statewide or by districts under such plan or program as the Legislature shall direct and shall provide that participation therein by cities and towns shall be voluntary; provided that the Legislature shall never make an appropriation to pay any of the cost of any system authorized by this Section; providing for an election on the question of the adoption or rejection of such an amendment and making an appropriation therefor; providing for the proclamation and publication thereof and prescribing the form of ballot.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 51 of Article 3 of the Constitution of the State of Texas be amended by adding thereto Sections 51-e and 51-f, which shall read as follows:

"Section 51-e. Each incorporated city and town in this State shall have the power and authority to provide a system of retirement and disability pensions for its appointive officers and employees who have become disabled as a direct and proximate result of the performance of their duties, or have passed their sixty-fifth birthday, or have been employed by such city or town for more than twenty-five (25) years and have passed their sixtieth birthday, when and if, but only when and if, such system has been approved at an election by the qualified voters of such city or town entitled to vote on the question of issuance of tax supported bonds; provided that no city or town shall contribute more than the equivalent of seven and one-half (7½) per centum of salaries and wages of the officers and employees entitled to participate in its pension system, and that said officers and employees shall contribute a like amount; and this Amendment shall not reduce the authority nor duty of any city or town otherwise existing.

"Section 51-f. The Legislature of this State shall have the authority to provide for a system of retirement and disability pensions for appointive officers and towns to operate Statewide or by districts under such plan or program as the Legislature shall direct and shall provide that participation therein by cities and towns shall be voluntary; provided that the Legislature shall never make an appropriation to pay any of the cost of any system authorized by this Section; providing for an election on the question of the adoption or rejection of such an amendment and making an appropriation therefor; providing for the proclamation and publication thereof and prescribing the form of ballot.

Meats, Fats.—Red stamps A8 through Z8, A5, B5 and C5 indefinitely.

Processed Foods.—Blue stamps A8 through Z8 and A5 through F5 good indefinitely.

Sugar.—Sugar stamps 30, 31 and 32, each good for five pounds indefinitely. Sugar stamp 40, good for five pounds of canning sugar through February, next year.

Gasoline.—In 17 East Coast States, A-11 coupons, good through November 8. In States outside the East Coast area, A-12 coupons, good through September 21.

Fuel Oil.—Period 4 and 5 coupons, good through September 30. New period 1 coupons now good.

Shoes.—Airplane stamps 1 and 2, good indefinitely.

Farm Inflationary Signs
Elements that might contribute to inflation continue to be seen at the end of the second quarter of this year as compared to the end of the same period last year, according to data made available by the Bureau of Agricultural Economics. Demand deposits in Country Banks, consisting largely of checking accounts, were up 28 per cent—an increase partly accounted for by large deposits of Government funds. These checking accounts would be inflationary if used to bid up the price of land and scarce goods. Another inflationary sign is that average per acre value of farm real estate as of July 1 was up 15 per cent over a year ago. For the quarter, cash receipts from farm marketings were up six per cent over a year ago and prices paid by farmers for the things they buy—including interest and taxes—were up five per cent. The only non-inflationary factor, more than offset by increased receipts from farm marketings, was a decline of one per cent in prices received by farmers.

This One For You Kids
More low cost candy and better price control for candy are two of the aims of the Office of Price Administration in setting up four new Advisory Committees of Candy Manufacturers. Just in case you kids are interested, these manufacturers represent "General Line Candy," "Candy Bars," "Package Goods" and "Wholesale Candy."

Potato Prices Up 90 Cents
To compensate for a substantial reduction in yield due to drought, OPA has increased maximum prices of potatoes at the shipping point during August 90 cents a hundred pounds in 16 states—including retail cost of potatoes grown in these states about one cent a pound. The increase was granted for potatoes produced in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, New Jersey, Ohio, West Virginia, Delaware, Maryland, Virginia, Tennessee and Kentucky.

Tires For Farm Vehicles
Because Farm Vehicles must be kept in service, they may be equipped with used truck tires if available, as well as with used passenger tires, OPA announces.

Most Beef To Be Ration Free
Beginning next Monday, August 13, all beef will be ration free except commercial, good and choice steaks and roasts, WFA has announced.

Stories of Two Harvests
Many of the German prisoners of war captured in Normandy have volunteered to help with the harvest in Great Britain, according to a BBC broadcast reported to the Office of War Information. Inexperienced workers are paid six pence a day and experienced workers, one shilling. The broadcast also reported a story about the harvest in Northern Italy, where the facts were quite different. Italian patriots drove the German occupation troops from one village and captured the entire harvest, which was all ready for shipment to Germany.

U. S. Government Manual
The summer 1944 edition of the "United States Government Manual," official handbook of the Federal Government, now being printed, gives the name and function of each Federal Agency, both "Emergency" and "Old Line." The Manual may be bought for \$1 from the Superintendent of Documents, Government Printing Office, Washington, 25, D. C.

Reclaim Quarter of Million Men
Treatment of syphilis is responsible for the presence in the Armed Forces of 125,000 men who otherwise would have been unfit for service, and for making 140,000 others available for service unless otherwise disqualified, the U. S. Public Health Service reports. Among the first 15 million Selective Service Registrants given blood tests, evidence of syphilis was found among 720,000. Selective service boards, state and local health departments, army and navy co-operated in tracing, treating and inducting infected registrants.

School Teacher Now Cadet Nurse
After seven years teaching all grades in "The Little Red Schoolhouse," Rita Turner, Linn, Mo., took her opportunity to get help in achieving her life-long ambition to become a nurse by being among the first to enlist in the U. S. Cadet Nurse Corps. The U. S. Public Health Service says at least 60,000 more cadets are needed this year to meet requests

School Teacher Now Cadet Nurse
After seven years teaching all grades in "The Little Red Schoolhouse," Rita Turner, Linn, Mo., took her opportunity to get help in achieving her life-long ambition to become a nurse by being among the first to enlist in the U. S. Cadet Nurse Corps. The U. S. Public Health Service says at least 60,000 more cadets are needed this year to meet requests

for hospital personnel.

Want Consumer Price Lists
Large-scale distribution of four to five million consumer price lists is needed in connection with a campaign to "Sell Retailers on Their Stake in Price Control," declared the Consumer Advisory Committee to OPA in protesting against substitution of a plan of posting community ceiling price lists in retail stores. Shoppers are too hurried or too timid to question prices in the presence of other shoppers who may be waiting, the committee said. Informed shopping, the advisors believe, "is possible only when consumers have studied their ceiling prices at home."

Asks Complete Social Security
"We will not have a just system of Social Security until all workers, no matter what their employment, are covered," Paul V. McNutt, Federal Security Administrator, declared in connection with the announcement that on August 8 the Social Security Board would begin to pay off on its one millionth benefit in force under Federal Old-Age and Survivors Insurance. The beneficiaries are a War Worker's Widow, Mrs. Mary Rex Thompson, Parma, Ohio, and her two children. Mrs. Thompson's husband and his employer each paid \$145 in premiums. Benefits now amount to \$58.49 a month and may total as much as \$15,172.83. Although 12 million farm workers and eight million other types of workers and self-employed persons are not now covered by Social Security Benefits, the Social Security Board has recommended to Congress that

Political Advertisement Paid for by Grover Sellers

coverage be extended to all groups now excluded.

Round-Up
OPA says—no more special ration rations for travel to Gardens will be issued after August 15. . . . There will be an increase in the prices of cookies, crackers, toast crumbs now sold in retail as a result of a change in regulations.

Two Minute Serum (By Thomas Hartwell)

Work Hard, Live Clean. Faith: The other day I read a letter he had received from a well known successful man of the community. The letter had been written in response to a request by the young man to the secret of a successful happy life. The letter contained a paragraph in the letter which appealed to me. It was the most important thing I had read in a long time. It was that a long life has been when he lives clean, works hard and keeps faith. No man is enough, or strong enough, or rich enough to clutter up his life with sin and wrong to accomplish a measure of his possibilities. Success is a jealous creature. It cannot give it a half hearted vice and receive in return a half reward. We are of life what we are willing to for. I've heard a good many more convincing or appealing than this man's letter to my friend. It contained the secret of a lifetime of experience. A man who had tested life covered the secret of its formula.

all get the same electric service!

WAR has moved many American families into new living quarters. But, whatever the size of their homes, they all get the same dependable electric service.

Oh, sure, some folks may light more rooms and use more appliances than you do. But the service and the quality of the electricity you receive remain the same. You can't get an "exclusive" grade.

Electricity is also the one service whose cost has remained low—while the cost of living in general has been going up. Whoa, you say? Your bill's been more over the years? Well, that's because you're now using electricity to keep your wash clothes, clean rugs, tell time and make music—where once you used it only for light.

The truth is, the average American family today gets about twice as much electricity for its money as it did ten years ago! And we, your friends and neighbors, are proud to be one of the many electric companies under business management, bringing you this bargain.

Days Lost from Accidents in State Is Alarming Number

With the United States being a loss of more than 100 million man-days per month from industries alone from accidents and illnesses, Dr. Geo. H. State Health Officer, is urging the Texas State Department's effort to cut the total days lost in this...

number of man-days lost from accidents alone each month is an alarming total. But we consider that there are many more absentees from work because of other diseases...

communicable disease and even epidemics can seriously handicap the nation's war effort by slowing down the production of munitions and supplies necessary for the victory.

Dr. Cox said, "The nation's health can be boosted and protected by strict adherence to standards and full cooperation in such community projects as mosquito control and rat extermination for preventing the spread of malaria, dengue and typhoid fever. Loss of time renders the enemy and this country unable to depend on production from all of its industrial army."

Cox pointed out that the forces have called a great number of our doctors and nurses to active service and the war made unattainable many of the drugs and chemicals which heretofore been used as household remedies.

where in Normandy—"I'm lucky," declared Red Cross Director Charles L. Skarren after searching five miles in enemy territory for his combat American patrol, which him, commented, "You sure your head in the lion's den."

Worth got sore, jumped on top of the stranded machine, cut loose with a sub-machine gun, and personally killed 35 Nazis.

Lt. Dan Gilmore, whose home is Luling, has made six bombing runs over Berlin, and still is in there pitching. Now he holds the DFC for heroism and the Air Medal with three Oak Leaf Clusters.

Lt. Neilan Bemis of Denison is towing more glider troops to France, after winning the DFC with cluster. . . Lt. Winfred Alfred of Commerce is back home after 28 missions over Europe as a Flying Fortress pilot. . . Sgt. Julian Barkman, whose home is near Texarkana, has been taken prisoner by the Germans. But his lot will be made easier by War Prisoners Aid, National War Fund agency which provides sports equipment and other supplies for our men behind enemy barbed wire.

One of the youngest generals in the Army is C. D. "Casey" Vincent, veteran fighter pilot. He's only 29, but strictly a Texas fighting man. His home is Gale.

More than one dog has lost an eye in attacking the long-legged, long-necked Sandhill Crane, a valiant fighter which dances about a foe, lunging lefty with its weapon-like pointed bill.

Rattlesnakes are shy and retiring and fight only if they have no choice.

Weekly Sermon

By the Rev. William H. Hockman, D. D., Director of Missionary Course, Moody Bible Institute, Chicago.

Are You in the Will?

Text: "And this is the will of him that sent me, that every one which seeth the Son, and believeth on him, may have everlasting life; and I will raise him up at the last day"—John 6:40.

Here is a most extraordinary statement. The average person has little interest in a will unless there is a possibility of inheritance. This text has supreme interest and value because of the one who uttered it. Who is this Jesus, the author of it, and whence did He come? Was He no more than a prophet, or a holy man?

We hear Him talking to His heavenly Father: "And now, O Father, glorify thou me with thine own self with the glory which I had with thee before the world was" (John 17:5). Earlier, Jesus said to His disciples: "He that hath seen me hath seen the Father."

Based upon the immutable testimony of Scripture, the one addressing us is not merely a very good man, a very wise man, nor yet a great teacher, but the eternal Son of God, who came down to earth to show us the way of life, and to make that way possible by Himself becoming "the Lamb of God that taketh away the sins of the world." Is He not therefore qualified to speak with absolute knowledge concerning the will of the Father?

What is the will of the Father? The answer deeply concerns you and me. He speaks selectively—He declares that certain people are to receive everlasting life, and be raised up at the last day. Is He speaking about endless existence merely? No, but about a joyous life filled with all the richest good that God's love and power can provide with all the evil and suffering left out. Whose soul does not thrill at such a prospect?

But what shall we do that our names may be written into that will? In the days of His flesh some eager people asked Jesus, "What shall we do that we might work the works of God?" His reply was simple and clear: "This is the work of God, that ye believe on him whom he hath sent." In the face of that tremendous teaching what are we to do? Try to make ourselves good. Do some painful penance? Attempt to work our way to heaven? No; listen to these wonderful words of life: "The Son of man is come to seek and to save that which is lost." And again: "I am not come to call the righteous, but sinners to repentance."

The world is full of confused voices. Only Jesus can speak with authority, and He says: "I am the way, the truth, and the life; no man cometh unto the Father but by me." Are our names to be written into God's will for the eternal ages? Yes, if we take to heart the simple condition of faith so clearly laid down in the words spoken by our Lord.

Christian Science Services "Soul" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 13. The Golden Text is: "My soul, wait thou only upon God; for my expectation is from him" (Psalms 62:5).

Among the citations which comprise the Lesson-Sermon is the

following from the Bible: "The Lord is my portion, said my soul; therefore will I hope in him" (Lamentations 3:2b).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "As the children of Israel were guided triumphantly through the Red Sea, the dark obbing and flowing tides of human fear—as they were led through the wilderness, walking wearily through the great desert of human hopes, and anticipating the promised joy,—so shall the spiritual idea guide all right desires in their passage from sense to Soul, from a material sense of existence to the spiritual, up to the glory prepared for them who love God" (page 566).

When danger threatens, the Porcupine Fish swells up like a large globe with formidable long barbs protruding. Scars of even sharks.

Fishes can taste, smell, hear and distinguish colors.

Your Horoscope

August 8, 9, 10.—You have much executive ability and dominate those about you. You are very fond of your family, love music and travel, and spend money freely, whether your own or some one else's. You are determined and work industriously to gain your ends, but can be very inactive when there is no scheming on hand. You are persistent and determined to have your own way, and are not always sincere.

August 11, 12, 13, 14.—You would have to lead the band. You are bound to dominate, but you can be lead if you do not know where you are being led. You possess a fiery temper, are passionate and independent. You are bold, courageous and always ready to fight if necessary.

Prairie Dogs live in subterranean cities miles in area, with as many as 4,000,000 gray, hoisterous inhabitants.

DISC BLADES

We have just received a large shipment of Genuine JOHN DEERE Disc Blades. These Blades will work on all John Deere One-Way Plows and they will fit any other makes of plows.

- 23 inch Disc with 1 1/16 square hole \$5.15

Miss Mildred Marlow Weds Delmar McBeath

Miss Mildred Marlow of Fort Worth became the bride of Delmar Paul McBeath, S. 2-C, who is stationed at San Diego, Calif., in simple rites performed on July 31, in the parsonage of the First Baptist Church with Rev. Otis Strickland, pastor, officiating. Mrs. Howard Ferguson, sister of the bride, was matron of honor. For her wedding, the bride chose a street-length dress of black marquisette with which she wore white accessories. For something old, she wore a pin which had belonged to the mother of the groom. For something borrowed, she carried her sister's purse and for something new, she had a pretty new handkerchief. Mrs. McBeath is the daughter of Mr. and Mrs. Luther Marlow of Foard City. She is a graduate of Crowell High School and is, at the present time employed as telegraph operator in the main office in Fort Worth.

The groom is the son of Mr. and Mrs. J. L. McBeath of Thackerville, Okla. He entered the Navy in May, this year. He left Tuesday for the return to San Diego, and Mrs. McBeath plans to join him there in the near future.

Marriage of Louise Shaw Announced

Mr. and Mrs. Z. D. Shaw announce the marriage of their daughter, Louise, of Burbank, Calif., to Robert Earl Hamilton of Van Nuys, Calif., which took place on July 9th at the Church of Christ with the minister of the church, officiating. The bride was attended by her sister, Mrs. Charles Neathery, and Gary Hamilton, the groom's brother, was best man. They were the only attendants. The bride wore a navy blue suit with white accessories. The couple will make their home in Van Nuys.

BIRTHDAY CELEBRATION

Mrs. Gordon Cooper entertained a number of friends of her son Paul, Tuesday afternoon, August 10th, to celebrate his 8th birthday. Many games were played and good wishes were expressed for Paul and birthday remembrances received by him. Refreshments of angel food cake and ice cream were served to the following boys and girls: Robert Graves, Gordon Graves, J. C. Kincheloe, Fred Barker, Clonnie McKown, Billie Smith, J.

LIFE'S Little TROUBLES

CAN'T SLEEP

No need to lie in bed—toss and fret because CONGESTION or GAS PRESSURE won't let you sleep. Be sensible—get up—take a dash of ADLER-I-KA as directed, to relieve the pressure of large intestines on nerves and organs of the digestive tract. Adler-I-KA assists old food wastes and gas through a comfortable bowel movement so that bowels return to normal size and the discomforts of pressure stop. Before you know it, you are asleep. Morning finds you feeling clean—refreshed and ready for a good day's work or fun. Get Adler-I-KA from your druggist today.

CANADA'S WOMEN AT WAR

Members of Canadian women's auxiliary services enlisted in armed forces: (1) Royal Canadian Air Force; (2) Royal Canadian Naval Service; (3) Canadian Women's Army Corps; (4) Nursing Services; (5) Women Doctors.

OF close to 1,200,000 gainfully occupied civilian women in Canada more than 260,000 are engaged directly or indirectly in war industry. Women enlisted in the armed forces number more than 35,909 as follows:

Women's Royal Canadian Naval Service	4,247
Canadian Women's Army Corps	14,000
Royal Canadian Air Force (Women's Division)	15,000
Nursing Services	2,620
Women doctors in the armed services	42

The Women's Royal Canadian Naval Service was established in June, 1942, and aims to have a strength of 5,500 by March, 1944. By October 22, 1943, 4,247 were attested. Their purpose is to take over shore jobs and release sailors to man ships. During October a new WRNCS barracks was opened at Sydney, Nova Scotia, to house officers and ratings. Sydney is the seventh city in which an organized unit of the W. R. C. N. S. has been established to take over shore duties formerly performed by men.

A recent development is the establishment of a group of W. R. C. N. S. dietetic advisors who will supervise the food of men and women in the Navy. A new cooking school at H. M. C. S. Cornwallis, naval training establishment at Deep Creek, Nova Scotia, has a Wren as chief instructor. The Canadian Women's Army Corps was established in August, 1941. C. W. A. C. personnel are serving in the United Kingdom, the United States and Newfoundland. There are more than 50 trades. More than 14,000 had enlisted by October, 1943.

Enlistments in the Royal Canadian Air Force (Women's Division) totalled more than 15,000 in October, 1943—160 times the strength of the division on the same date in 1941, when the first 150 recruits were in training in Toronto. The R. C. A. F. (W. D.) was the first Canadian women's service organization in this war to release men for active duties and was the first to send a contingent overseas.

Nurses wearing Canadian war uniforms totalled more than 2,620 by the end of October. These include nursing sisters, dietitians, physiotherapists and home sisters.

There are more than 1,856 in the Royal Canadian Army Medical Corps, 206 in the Royal Canadian Navy nursing service, and 314 in the Royal Canadian Air Force. There are also about 250 Canadian nurses serving with the South African military nursing service. Canadian nursing sisters are serving with their units in the Mediterranean. There are 42 women doctors in the armed services, four in the navy, 24 in the army and 14 in the R. C. A. F.

be purchased at drug supply houses, is another chemical that may be used in the same way for making cloth mildew-resistant. It leaves no color. Both copper sulphate and cadmium chloride are poisonous so should be kept out of reach of children. The kettle used for the solution and the tablespoon used for measuring should be carefully washed.

Stimson in England

Secretary of War Henry L. Stimson is shown examining the remains of a flying bomb shortly after it exploded in England. The war secretary has been conferring with Gen. Dwight Eisenhower in England and inspecting American troops on invasion fronts.

Lower Panhandle I. O. O. F. Ass'n. to Meet at Seymour

The Lower Panhandle I. O. O. F. Association will be held at Seymour on Thursday, August 17. The meeting will be held in the high school gymnasium building and registration will begin at 9 o'clock. The program, starting at 9 o'clock, will be open to the public. Officers of the association are expecting seven Grand and Assembly officers to be present. Prizes will be awarded on individual charge work, both in the Subordinate and Rebekah lodges. The Subordinate branch will have competition degree work in the second degree, starting at 9 o'clock in the evening. The Rebekah lodges will compete in fancy drills only. Officers of the association are:

Miss Myrtle Russell, Electra, president; Henry Ritchey, Vernon, vice president; Mrs. Ival Seymour, second vice president; Mrs. Kathleen Moore, Falls, secretary; Mrs. D. E. Barbee, Quana, treasurer; Nora Fancher, Seymour, and W. D. Curtis, Vernon, and Mrs. Lephia Dillard, Falls, reporter. The program is being conducted under the direction of Crawford, J. L. Meade, Coufal, Mrs. Thelma Chappell, Mrs. Dessie Brooks and Dr. Etta Walters, all of Seymour. The Lower Panhandle Association is composed of the following lodges: Rebekah, Burkhardt, Chillicothe, all, Electra, Estelita, Memphis, Quana, Seymour, and Wichita Falls.
