

THE FOARD COUNTY NEWS

AND CROWELL INDEX

CROWELL, FOARD COUNTY, TEXAS, FRIDAY, JUNE 3, 1921

10 PAGES

\$2.00 A YEAR

SCHOLASTICS HAVE INCREASED 20 PER CENT IN COUNTY

This year the scholastics of the county were 945. This year the enrollment shows 1141, or a gain of 196, or an increase of 20 per cent in one year. The gain in the city of Crowell is even greater than in the county. Last year the enumeration showed 410, while this year we have 502, an increase of 92 per cent.

According to these figures we will have about 288 more scholastics in the county, including the Crowell independent school district than we had last year, which will mean the addition of about \$4,000 to our school fund what we had this year.

It is well for us to keep in mind the number of children of school age in the county, which according to the census of 1919 is 1642. A gain of 20 per cent in one year is not a bad thing to show a good healthy growth in the country.

Farm Bureau News

Million bales for Texas. Have signed that co-operative contract. Two thousand bales signed up in Foard County and the same good is being done all over Texas. Eight other states doing likewise. The boys who haven't signed are signing the contract just like we did old blue backed speller when we were boys. We are going to put it. You had better get it before it. Everybody endorses it. Let show the world we can organize to do business for ourselves.

T. M. HANEY, President Foard Co. Farm Bureau.

Who's Who and Why

(By Walter Petet) The issue is squarely drawn—shall we put on a basis of prosperity or shall we continue upon a basis which after sixty years of compels four out of five farmers borrow money to make a crop. One side of this issue stands the diligent thinking farmers of Texas and every other cotton producing state. Alongside these farmers the fair-dealing, fair-dealing banker and merchants are standing squarely for a better system. The president and other officers of the Texas Agricultural and Mechanical College and similar colleges in every cotton producing state are backing the farmers in their effort to set up a better system. The agricultural and general press in Texas and all other Southern states are helping to the utmost of their power. And the encouraging thing about it is that all these great classes and agencies have studied and approved a plan of co-operative cotton marketing worked out by the Texas Farm Bureau Federation. And more wonderful yet is the fact that the farmers, the business men, the agricultural colleges and other agencies of agriculture in every cotton producing state have studied and approved the identical plan under which they are organizing. The contracts are being signed by farmers in Alabama, Arkansas, Mississippi, North Carolina, South Carolina, Georgia, Arizona, and other cotton states are identical with the Texas contract.

Against this imposing array of influence and public spirit, there is a few selfish and profiteering business men who have interests adverse to the interests of farmers, such as side-partnerships with street buyers of cotton; a few worn out farmers' leaders whose mission in life seems to be to run around over the state and shout their backs against the wall and fighting desperately to preserve their independence and save themselves and their families from lower standards of living. The people of the South, all of them

J. W. GIMMELL GETS 2-STORY HOME BURNED

J. W. Gimmell, formerly a resident of Foard County but now of Collingsworth, happened to the misfortune of getting his home burned recently, an account of which is given in the Wellington Leader as follows:

The splendid two-story country home of J. W. Gimmell just west of town and contents were entirely destroyed by fire last Friday night about ten o'clock. The origin of the fire is not known but supposed to have started from an oil stove. The alarm was sounded just as people were going home from the school exercises and Mr. and Mrs. Gimmell were on their way home from the school building when they saw the fire. Just a few articles were rescued from the building. Car after car loaded with people went to the scene and all that could be done was to keep the flying sparks from catching fire to the large barn which was in direct line and for a while the sparks literally covered the roof of the barn. The fire boys and others climbed on top of the barn and with wet sacks saved the building.

Mr. Gimmell carried about \$7,500 on building and contents but the building alone was worth more than that, and his loss will necessarily be heavy. This was one of the best farm houses in the county and situated like it was made a fine showing. The place was kept in fine shape and the trees, shrubbery and lawn around the house made it one of the most showy places in this whole country.

MASON COUNTY DEER BECOME NUISANCE

Austin, Texas, May 30.—Deer are so plentiful in Mason County that they are a nuisance to farmers. They are alleged to be destroying crops and the damage is so great that the game authorities are asked to permit their destruction. According to a letter received today by the Game, Fish and Oyster Commissioner, W. W. Boyd, from County Judge John T. Banks of Mason County, two farmers there will ask the commissioner for permission to kill deer. Commissioner Boyd will send a deputy to make investigation.

"Two different parties have complained to me that wild deer are destroying their crops to such an extent that it will be necessary for them to take some drastic preventive measures," wrote Judge Banks. Judge Banks said Mason County has been without rain for some time and it is getting dry, and for that reason deer are destroying crops.

This is a good country. It will continue to be a good country as long as its people are good citizens. Let's have no other kind.

President Harding, following the example of President Wilson, is appointing literary men to diplomatic posts. At last we are not coming into our own.

When great men travel under assumed names they begin to realize their insignificance.

dependent upon agriculture, must line up for or against farmers in their tremendous effort.

The issue is squarely drawn and it will be settled between the present time and July 1.

In the words of the Victoria Chamber of Commerce, it is the biggest event in the business history of Texas. On which side will you align yourself?

All the bankers of Cameron have signed an endorsement of the plan.

The Hill County Bankers Association unanimously pledged their support.

The Temple bankers unanimously placed themselves in line with the farmers for the plan.

The business men of Mount Pleasant will close all business houses one day and go out with farmers to finish the sign-up campaign in Titus County in one day.

The bankers of Marlin have lined up with their farmers in support of a better system.

More than a score of towns and cities are co-operating with county Farm Bureaus in fixing a "Sign-up Day" on which the business men will close their places of business and farmers will close their farms for one day and put over the biggest Community Job in the history of the state.

It is an opportunity of a life-time to have a share in this big undertaking to put our principal crop on a prosperity basis for its producers, which means prosperity for all. Ready? Let's go!

EVA BLAKEMORE Salutatorian, Crowell High School

GLEYANN BRIAN Valedictorian, Crowell High School

SIDEWALK COMPLETED

The sidewalk leading to the depot, which has been constructed under the supervision of Mr. Noland, was completed this week. The entire cost of the job figured \$1,839. These were the contract figures and Mr. Noland came out with a very small margin. He figured closely and knew at the time that this work would virtually amount to a donation, but we hardly think the town will be willing to allow him to make one as heavy as his small margin of profit indicates.

The walk is a fine piece of work and will prove a means of great convenience to pedestrian travel to and from the depot.

1-TON TRUCKS EXEMPT FROM HEAVY TAX

The impression has been made in some way that all motor trucks, regardless of their tonnage capacity, are to come in for a share of the increased tax and license fee to be imposed by the new Texas law.

The News is not familiar with the requirements of the new law, but understands that the burden it will impose on motor truck operators will be quite heavy. It is said to be four times as great as that imposed by the laws of any other state in the Union, and it is causing a great commotion among truck operators, factories and other business interests in any way related to the motor transportation business. The license are to be practically doubled and a tax on mileage is added which at a glance appears to be unreasonable. These interests all over the state are preparing for a lobby at Austin when the Legislature meets for the purpose of getting some relief from a measure which they believe to be hazardous to one of the essential businesses of the country, and one, too, which will likely effect all people more or less. Of course, there is another side to the proposition, that of the damaging effect to the roads which the heavy trucks have. The mileage and tonnage tax, it is understood, remains in the county and goes into the road maintenance fund, but it is thought to be too heavy.

But the point of interest to the light truck operator is that those running trucks of the one-ton size will not be effected by the new law. This information comes from the state highway department in response to an inquiry from Sheriff Campbell. "One-ton trucks do not come under the commercial classification. See paragraph 4, section sixteen, new law." This is the telegram that came to the sheriff Tuesday.

Think This Over

Press dispatches have been paying the way for another huge French loan to be placed in the United States. This time, if the dispatches are correct, we will be asked to lend a cool hundred million dollars to our friends across the water, in addition to the billions they already owe us.

The cables also tell another story—a very interesting one. Paris is going fashion mad. The whirl of gayety is the liveliest that has been seen in many years. Stupendous sums of money are spent on jewels, and dress, and the races, and the opera, and the continual round of expensive receptions and entertainments.

They have plenty of money with which to satisfy their vanity or their craving for excitement, but apparently they have none for the rehabilitation of France.

PRESIDENT OF OIL CO. HERE: DRILLING TO BE RESUMED AT ONCE

S. B. Nye of Buffalo, N. Y., president of the company drilling the Beverly well north of town, arrived here Thursday morning. He has plans made by which work will be resumed at once and the well completed.

DISTRICT AGENT HERE; HAS MUCH PRAISE FOR CITY AND COUNTY

John R. Edmonds, district agent, was here yesterday. Mr. Edmonds says Foard County has the best wheat in the state. He was glad to know that Crowell has such good prospects of a water system. He says that is what Crowell needs above all else.

At the Christian Church

Rev. J. Frank Montgomery will preach at the Christian church Sunday.

Miss Veda Clifford and Otis Benham left yesterday afternoon for Denton where they will attend the summer normal.

COUNTY AGENT WEDS

Mr. P. D. Chaney and Miss Elgie Bagley drove over to Vernon Wednesday morning and were united in marriage there. They left that afternoon for Cleburne and other points in Texas to be gone 10 days. Mr. Chaney takes this occasion to use the leave of absence from his work which he is allowed annually, but instead of using 15 days which he is allowed, will use only ten days and will be back at his post of duty by June 10th.

The marriage ceremony was performed by Rev. S. H. Holmes at his residence. After the ceremony dinner was served at the Vernon hotel to the bride and groom and Guy Jones, County Agent, and Miss Goodfellow, Home Demonstration Agent, of Vernon.

Mr. Chaney has been with us as County Agent for nearly two years and has proven himself a capable man in that capacity. The bride is the daughter of Mr. and Mrs. J. O. Bayley of Margaret and is well known in the county. She is an accomplished young lady and has taught in the Crowell schools.

The News extends congratulations and best wishes to the newly married couple. They have purchased the property just south of L. D. Campbell's home on Main street where they will make their home after the 10th of June.

QUIETLY MARRIED WEDNESDAY EVENING

Miss Ruth Martin and Alton Andrews were quietly married Wednesday evening at the Baptist parsonage, Rev. J. E. Billington performing the ceremony, after which the young couple repaired to their new home recently completed west of the place formerly owned by Mrs. Halsell, which had previously been furnished and made ready for their reception.

Mr. Andrews is the efficient bookkeeper of the store of R. B. Edwards Co. and has been reared in Crowell, being the youngest son of Mr. and Mrs. L. G. Andrews.

Mrs. Andrews, who formerly lived near Benjamin, has been employed in the Crowell High School the past two terms and has done good work in that capacity, and has made many friends in Crowell who are glad to welcome her as a permanent citizen.

The News joins in hearty congratulations and good wishes.

Celebrates First Birthday

Wednesday afternoon, May 25, Billy Gene Kirkpatrick entertained a number of his little friends in honor of his first birthday. Pictures were taken of the little ones, then a unique contest was held, when the mothers had to recognize the babies by seeing one eye through a hole in a sheet. Mrs. Percy Ferguson won out in this and received a box of candy. A contest was then held for the babies, Mrs. Kirkpatrick told each baby to take two ribbons out of a box and the one getting the red peanut was lucky. Little Virginia Lee Minnick proved to be the lucky one and received a baby spoon. The hostess served cream and cake. All departed wishing Billy Gene many such happy birthdays. Those present were: Ruth Ferguson, Genevieve Ferguson, Virginia Lee Minnick, Elizabeth Hughston, Sam Crews, De Witt Cook, Jr., Milton Magee, James Everitt Long, Merrill Allee and Carlos Hugh Yoder.

Too Many Somebods

Mr. Hoover says that 4,300,000 workers are idle in Europe. In this country an even greater number are idle. Europe was prostrated by the great war, wrecked in body, soul and finances. America was financially benefitted.

Why are so many people idle in this country when every man should be producing something? There is some excuse for idleness in Europe. There is no excuse here.

The comparison is not flattering to our intelligence, but looking the truth in the face may do some good. Some one is gumming the works and throwing monkey wrenches into the machinery.

Too many somebods, we fear.

Henry Burruss and Grady Magee while in Plainview last week took the opportunity of attending the Shrine ceremonial of Khiva Temple in Amarillo last Thursday. They report that our district attorney, Jas. V. Leake, won the Shrine ring although two of his rivals, Brown of Lockney, and Jones of Canyon, gave him a close race.

Mr. and Mrs. D. J. Brookerson were here yesterday from Benjamin.

MRS. WARNER WILL LECTURE TO CLUBS THIS AFTERNOON

It had been originally planned that Mrs. Phoebe K. Warner speak here on Saturday in connection with club work, but in some way the speaker was led to believe that she would not be wanted for that day, so Vernon procured her for Saturday. She will be here Friday and Friday night, but the address she was to deliver on Saturday will come Friday afternoon at 3 o'clock and will be held at the court house. Her address as originally announced for tonight will be at the school auditorium. So that the only disappointment there will be as to Mrs. Warner's speaking will be as to time, the change being from Saturday to Friday.

ANOTHER AGED CITIZEN ANSWERS CALL OF DEATH

"Uncle" Tom Collins was born in Alabama Jan. 18, 1844, and died at his home in Crowell May 30, 1921, after an illness of a week with dysentery.

He lived to the ripe age of 77 years, 4 months and 12 days. Mr. Collins had made Crowell his home for a number of years and was regarded as one of our best men. He was a Christian character whose example was worthy of emulation.

The deceased is survived by his wife and five children, all of whom reside with the widowed mother.

The remains were interred in the Crowell cemetery May 31.

Sold 100 Pounds of Beans

To show what one can do in this country, we call attention to what S. E. Norris has done in raising and selling beans on the home market. He has sold 100 pounds from his garden and, of course, the family has had enough for home consumption. The price of the beans has been 15 cents per pound. This is one of the ways in which almost any one may reduce the cost of living. It works two ways—by supplying the home table with its needs and by bringing in a revenue from its sale to those who have to buy. Another thing about home grown stuff is that its quality is as good as that to be gotten in the regular vegetable section of the country.

UNDERGOES OPERATION

Mrs. John S. Ray underwent an operation for appendicitis Sunday. She returned the latter part of the week from Milford College where she had gone to accompany Misses Jennie Belle and Martha Louise Ray home. She is reported to be rapidly improving.

CHILD UNDERGOES OPERATION FOR AP- PENDICITIS, DIES

William Grady Short, the 7-year-old son of Mr. and Mrs. J. L. Short of the Margaret community, died Friday after having undergone an operation for appendicitis. The remains were interred in the Crowell cemetery Saturday.

L. M. Cates and family came in from Forest Park, Ga., Monday, having made the entire trip in their car. They were about 11 days on the way and outside of breaking some springs on the car they had little car trouble. Mr. Cates says he did not have any trouble at all with his engine and got back with a set of tires that he bought from George Burks two years ago. The roads he says are very bad practically all the way to Georgia.

Mr. and Mrs. Parker Churchill and Mrs. Churchill's mother, Mrs. Bush, came up from Burk Burnett Sunday and visited in the home of the sister and daughter, Mrs. Jeff Bruce. Mr. and Mrs. Churchill will make Crowell their home for about three months, occupying the place in North Crowell which they bought from Marvin Whited. Mrs. Bush will visit her daughter, Mrs. Bruce, for the summer.

Sam Scales returned from Fort Worth Wednesday of last week where he had been taking a bookkeeping course at Brantley-Droughon's Business College. Roy Ayers who had relieved Sam of his work with the Bell Grain Co. while he was in Fort Worth, has returned to his farm to look after his interests there.

Clarence Benham came in last Friday from Denton where he has been attending the State Normal.

We Want You to Know

BEAVER NEWS

(By Special Correspondent)

Mr. Bursley and family motored to Truscott last Friday afternoon.

Remember, Sunday School is at 3 o'clock, and let everybody be on time.

Mr. Harper and his sons are cutting their wheat near Foard City this week.

Clarence Bellar is back in the community again after a few days absence.

Meddie Gray and wife from near Crowell visited C. L. Gray and family Sunday.

Lonnie and Paul Johnston are cutting grain for Jim Gribble southeast of Crowell.

Mr. Campbell of the Clayton community was a guest of Mrs. Newt Johnson Monday.

Samuel Crenshaw of the Clayton community was a guest of Jay Del Johnson Sunday.

W. B. Jones and sons, Garnet and Dale, visited relatives in the Clayton community Sunday.

Audrey Johnson helped his uncle, Will Ferguson of Crowell, build a house on his farm last week.

Audry and Johnnie Johnson are cutting grain this week for their uncle, Ed Thompson, at Foard City.

Garnet Jones, who has just finished a business course in the Draughton's College at Abilene, returned home last week.

Mr. and Mrs. Warren Crenshaw and children of the Clayton community were guests of the Charlie Adkison family Sunday.

Miss Annie Gray came home Monday from Harrold, Texas, where she attended school during the months of April and May.

Misses Ruby and Johnnie Johnston called on Mrs. Beulah Moore and Miss Una Miller in the Gribble community Wednesday afternoon.

Belford Stone returned home Saturday from Sagerton, Texas, where he has been working for his brother for the past two or three months.

Glenn Jones and his sister, Miss Evelyn, and Miss Virgie Borehardt, attended the party at Mr. King's near Crowell Saturday night. They report a real nice time.

Some of the people in this community were very much alarmed Sunday night by a fire in the southwest and were phoning around to see whose house or barn was burning down, when Mrs. Jim Blegg of the Foard City community relieved us by telling us that Mr. Halbert of that community was burning his straw stack.

There will be a farm bureau meeting

here Wednesday night. Everybody invited.

John Hugh Banister happened to the misfortune in getting his arm broken Friday.

Mrs. Simpson and daughter of Plainview attended church services here Sunday.

Mr. and Mrs. Clarence Haney of Vernon were in our city Saturday afternoon.

Mr. and Mrs. Everett Haney of Vernon visited Mr. and Mrs. T. M. Haney here Tuesday.

Mrs. Williams of Wolf Town was the guest of her daughter, Mrs. Orval Grimm Sunday.

There was a junior party at Mr. Short's Friday night which was enjoyed by all present.

Jeff Fleming and family spent a while in the Joe Orr home near Margaret Sunday afternoon.

Mrs. Thorn and baby of Vernon spent a few days here with her grandparents, Mr. and Mrs. Thorn.

Walter Rector and family and Greek Davis and family all of Ayersville attended Sunday School here Sunday.

Jeff Fleming bought a pair of fine big boned Poland China pigs from Joe Orr near Margaret one day last week.

Mrs. Jeffie Wood and children have moved here from the Ed Cates farm. We are glad to have this excellent family locate with us again.

Miss Eula Driskell left Saturday for Vernon where she took the train for her home at Grapeland, after teaching the past term of school at Rayland.

Mr. and Mrs. Tom Abston gave a home-coming party Friday night to the girls and boys who returned home from school last week. They report a nice time.

Knexie Burress, Leta Haney, Myrtle Huntley, Opal and Tom Johnson came home last week from Denton where they attended school at the State Normal.

Wednesday of last week, Messrs. Wright of Margaret, Russell Beverly of Crowell, and Hiram Grey were working this community in the interest of an oil well.

Fred Rennels, Tom Davis and J. K. Pool, all of Rayland, passed through town Friday en route to Floydada where they will work in the interest of the Farm Bureau.

Friday of last week Henry Randolph, Allen Shultz, Tom Abston and Hugh Thompson went to the Wichita river to fish, and landed about 75 pounds of the finny tribe.

B. W. Johnson of the Altus Marble Company visited his brothers, Luke and Lat Johnson, and sister, Mrs. J. G. Thompson, last week. He made a business trip to Crowell while here.

Sunday Misses Knexie Burress, Myrtle Johnson and Pauline Pigge and Fred Brown, Gus Neill and Claud Roberts motored over to Margaret and spent a while in the home of Mr. and Mrs. George Burress.

Government Stallion

ED LUCE is a bay horse, fifteen hands high and weighs ten hundred and sixty pounds. He was foaled in 1911 and is by Guiding Star out of Belle Strome by imported Ben Strome. He was bred by Mr. H. S. Peck of Gregson, Montana.

In this horse are combined the breeding of the thoroughbred with the conformation of the quarter horse, he should sire hardy, high class horses. He raced four years and ran seventy-seven races ranging from a half to three quarters of a mile and won eighteen, second thirteen times and third twelve. Making forty three times he won or was placed in seventy-seven races; run at nearly all the tracks from Mexico to Canada.

ED LUCE will be handled this season by J. H. Minnick of Foard City, Texas, and will stand for \$10.00 for each mare with usual return privileges. This stallion is placed in this place for the purpose of increasing the supply of cavalry horses which in a few years will be badly needed. The Government has no strings on the colt, but wants to know where to look for horses when they need them. 50

ESTRAY HORSE TAKEN UP

At J. W. Beverly's farm, 1 mile north of Foard City, one bay horse about five years old, 15 1/2 hands high, no brands, halter scars on head. This horse will be sold as the law directs if not claimed by the owner within ten days.

L. D. CAMPBELL, Sheriff.

Twenty-five wounded veterans training under the Federal Board for Vocational Education at Memphis, Tenn., joined a local post of the American Legion in a body.

This is to give notice that all trespassing on my place is forbidden.—Mrs. W. S. Bell. 52p

MARGARET NEWS

(By Special Correspondent)

Mrs. Russell Bryson is on the sick list this week.

Roy Ayers is back at his old stand at the elevator.

Miss Letha Davis left for a visit in San Angelo Tuesday.

Mr. and Mrs. J. W. Allison of Crowell were in Margaret last Friday.

The party at Mrs. John Hunter's last Friday was enjoyed by all present.

Mr. and Mrs. J. W. Allison and Bro. Gettys were here from Crowell Monday.

Jap Bray and Charlie Thompson of Crowell were here Thursday of last week.

Mrs. Rambo is here for a visit with her parents, Mr. and Mrs. John Bradford.

T. M. Haney of Thalia was here Tuesday in the interest of the Farm Bureau.

Mr. and Mrs. Tucker Reinhardt are rejoicing over the arrival of an eleven pound boy.

Mr. Coltharp and family left last Friday for a visit with relatives in Wellington.

Rev. Justin Anderson of Clarendon is here this week in the interest of the Clarendon College.

D. M. Ferebee was here from Vernon Tuesday. Uncle Jake Middlebrook accompanied him home.

Joe Goodman, wife and daughter of Vernon were here Sunday visiting his brother, T. F. Goodman.

Mrs. L. Y. Jamison of Whiteflat has been visiting her parents, Mr. and Mrs. J. Q. Middlebrook.

The harvest is well under way in our community. The cutting and shocking is keeping the farmers busy.

The junior ball team suffered a slight defeat at the hands of the Crowell team Saturday afternoon.

Miss Letha Davis went to Vernon Sunday to attend the wedding of her brother, Jesse, to Miss Louise Garrett.

Alvin Hysinger came home from Clarendon College last Friday, where

he has been in attendance the past term.

Mrs. Bert Self, Miss Josie Wright, Mrs. Paul Shirley, Misses Buna Shirley and Fay Davis were in Margaret Tuesday from Crowell.

Mr. and Mrs. John Wesley and little grandson, Garland Taylor, returned home Wednesday from a visit with relatives in Oklahoma.

Leo Owens has returned from Fort Worth where he has been with his mother. She is reported much improved after her operation.

Taylor Hunter arrived home Tuesday from the oil fields of California where he has been for some time. He is on his way to the fields of Oklahoma.

The Farm Bureau held a session here Tuesday night. Mr. McLeroy gave a splendid exposition of the plans of the marketing system proposed by the bureau.

Misses Pauline Pigg, Myrtle Johnson and Bnoxie Burress, and Messrs. Claud Roberts, Gus Neill and Fred Brown of Thalia were visitors with Mr. and Mrs. Geo. Burress Sunday.

Dave Thomson and family have moved to the Black community. The people of Margaret are very sorry to lose these people from their community as they have been a great help in community affairs.

We report with sadness the death of little Grady Short who was buried in the Crowell cemetery Saturday. Funeral services were held here at the Baptist church. We extend our heartfelt sympathy to the bereaved parents and relatives.

School Closed

Our school closed a very successful term Friday, May 20, and commencement exercises ended the following Monday evening with a program by the graduating class. Bro. Fuller delivered the address, "The Possibilities of Man," and Prof. Coltharp presented diplomas to Emma Goodman, Mary Thomson, Linnie Johnson, Fred Goodman, William Bagley and Curtis Priest. Bro. Henderson delivered the address Sunday morning, which was a great inspiration to all the graduates as well as those who were attendants at the service. The Seniors assisted by the undergraduates gave a very interesting and amusing play, "Aaron Boggs, the Freshman." They are to be congratulated on the outdoor scenery of the play as well as the splendid manner in which it was rendered.

DEVOE

MARBLE FLOOR FINISH

The woman who takes pride in her home insists on well-varnished floors.

POUNDED, scuffed, kicked, banged a thousand times a day, the floor gets more use—and abuse—than anything in the house!

Surely, it needs real protection, for a worn floor spoils a beautiful room; a hard-to-clean floor endangers health.

No wonder Devoe Marble Floor Varnish is popular with careful housewives! It fills the pores and coats the wood with a glossy finish, making a surface easily cleaned with broom and mop; durable, sanitary, protecting the wood, beautifying the room.

Devoe PRODUCTS are time-tested and proven—backed by 100 years' experience of the oldest paint manufacturing concern in the U.S. Founded 1754.

Sold by the Devoe Agent in your community.

Land of the Incas.

The Peruvian Central railroad is a wonderful monument to the science of railroad engineering, the climb being made through a system of "switch-backs" and having 54 tunnels in its trajectory. At one point, Tickle pass, it rises to an altitude of nearly 19,000 feet. The mines are rich in historical lore, having been operated in a primitive way by the Inca Indians a long time before the advent of Pizarro, the famous conquistador of Peru. In the near vicinity of the mines are many ruins of old Inca temples and other evidences of a remote but well-developed form of civilization that dates back to ages that as yet have not been definitely established.

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, June 3, 1921

The election for an increase of taxes to an amount not to exceed \$1.00 on the \$100 valuation in the Crowell independent school district will be held here Monday. To the man who has ever made any study whatever of conditions the necessity of this will be apparent. Times have changed within the last three or four years to such an extent that readjustments must extend all the way through our economic life. We have been slow to make the adjustments in our public schools, consequently we have suffered. No reasonable man wants the same conditions to exist which we had to contend with this year. We may remedy the trouble by voting for an increase of the school tax from 50 cents to \$1.00 on the \$100 valuations. That does not mean that we shall apply the \$1.00 rate but that we will apply a rate not to exceed \$1.00. That is the limit. In other words, the limit is to be raised just 50 cents over what it has been and which has been found to be too small to furnish us a sufficient amount of funds with which to finance the school. We do not want any more tuition or pay school. The only proper way to carry on a school is by taxation and no good citizen will object to paying his part of the taxes necessary to maintain the school. We will manifest a commendable interest in the betterment of the school conditions by remembering the date of the election, Monday June 6, and by going to the polls and casting our vote for the raise of the tax limit. There is absolutely no other way to carry on the school.

The recent dry spell has put the water wagons to going, which fact is the strongest argument in favor of Crowell's voting for water. That we must have water is the general opinion of most of our citizens. With a system that would furnish us with a moderate supply Crowell would double its population in a year or two.

Foard County's small grain crop is going to make a surprising yield. Some of the farmers now think there will be some 25-bushel wheat in the county. Quite a number expect to make from 18 to 20 bushels. A month ago it looked like the wheat crop was "blowed" up.

A number of harvest hands came in from the east this week and most of them speak well of Foard County. They will go back to advertise our fine country. They like the spirit and life of our people, a condition which seems not to exist in the east.

The clouds have been trying to give us some moisture and succeeded in giving a sparing amount Wednesday night. Conditions indicate that more will follow.

Slash Again

Short skirts for women have been vindicated. Hurrah! Cut off another foot or two!

Statistics gathered in Chicago show that the short skirt is responsible for reducing the number of accidents to women in boarding and alighting from street cars and trains.

"Before the advent of the short skirt innumerable falls were caused by women stepping on their own skirts. Now the short skirts are cutting down the number of accidents," says the statistician.

Hurrah again! Off with still a little more!

We men will look the other way—when our wives are around.

Columbian Club

A delightful outing that marked the closing of the club year was enjoyed by the Columbians and their husbands on Tuesday evening, May 24. About 6 o'clock they motored to Sloan Springs where a delicious picnic supper was spread.

During the evening several pleasing readings were given while those present were gathered around the glowing camp fire.

The out-of-town guests who enjoyed this occasion were: Mrs. Boomer of El Paso and Goode of Roby.

Too Many Aces

"I want our America to have nothing to do with any nation that is not willing to sit at the table and show its cards," said the president in a recent New York speech.

A fine sentiment, and one which would revolutionize the world if other nations desired and practiced the same. Laying their cards on the table, though, is just what the nations of the world will not do. European countries have been steeped in diplomatic duplicity for so many years it has become bred in the bone, a part of their national life.

To carry out the laudable desire of the president it would be necessary to build a Chinese wall around the United States and seal every entrance and exit. We would have to shut off all communication with the outside world and become a nation completely isolated from the rest of humanity.

Lay the cards on the table? We fear every deck would contain at least a dozen aces.

Throwing Stones

The public is becoming nauseated with the case of the New York banker who brought suit for divorce against his wife, claiming that another man is the father of her baby boy. The wife fought for her good name and the legitimacy of her child, and she fought hard and with startling results. She charged, and claims to be able to prove, that the banker, while attacking her purity, was even deeper in the mire—was in fact maintaining another woman as his wife under an assumed name. There, too, a child is to be found.

Before his attempt to besmirch his wife in order to secure his freedom he was a man of commanding position in the financial world. Now he is no longer at the head of his bank, is looked upon with suspicion by the public, and is said to be contemplating a residence abroad.

He can be spared—he will not be missed—the air may be purer when he is gone.

The American people do not look with favor upon guilty men who throw stones.

Use the Iron Fist

Many country people are viewing the reign of banditry in the cities with increasing uneasiness. Instead of diminishing the number of criminals seems to be increasing. There appears to be no end to them.

Men who, through lack of employment, enter a life of crime do not like to go back to work again. Stealing requires less exertion.

If the city authorities wake up and drive these hordes of bandits from their limits at least a portion of them will be migrating to the country in search of easy prey. Our own community may not be exempt from their unwelcome visits.

An iron fist should be waiting for every one of them who invades this territory.

Unwelcome guests should not be permitted to grow grass under their feet in our midst. Keep 'em moving.

Fighters and Fighters

Fistic fans are speculation at a lively rate on the result of the coming fight between Georges Carpentier, the French war hero, and Jack Dempsey, the American "fighter" who failed to fight for his country. The money is on Dempsey, but popular sympathy and favor are unquestionably with the Frenchman.

National pride should prompt a person to root for his countryman, provided that countryman is one worthy of the name.

But—Carpentier quit fighting in the ring in order to fight the enemies of his country. He is a man, regardless of what some may think of his calling.

Card of Thanks

We wish to take this method of thanking the good people of Crowell for their kindness during the illness and death of our husband and father. May God bless you. Mrs. Collins and Children.

Mrs. Bryan O'Connell and Miss Margaret O'Connell, mother and sister of M. O'Connell of this city came in Tuesday from West, Texas, to pay him and his family a visit.

Turned Down.

BACHELORS KNOWN TO FAME

List Is Not Overlong, but There Have Been Some Great Men Who Remained Single.

Who is the most famous bachelor in history? While, as is natural to expect, a large majority of the notables of the past have been married men, there have been a few who have attained prominence in the world of art, of science, of statesmanship and in war without the aid of a "better half."

One who had as much claim as any other to the distinction of most eminent bachelor is Michelangelo, one of the greatest figures of the past. Voltaire, scientist and statesman, is another great man who remained single.

In the realm of warfare few of the really great have remained bachelors. Perhaps the most eminent is Lord Kitchener, who was so largely responsible for England's military strength in the World War.

Eliminating these few the list presents a more complicated problem to one who would pick the greatest. There are several others of about equal prominence. Among the painters Raphael stands out as one of the greatest to die unmarried. Chopin and Beethoven achieved fame in the realm of music without the inspiration of a helpmate.

Several modern writers, poets and essayists achieved prominence by themselves. Charles Lamb, Alexander Pope, Walt Whitman, Phillips Brooks, Henry James, Whittier and Swinburne head the list.

Petrarch was an unmarried historian, and Cecil Rhodes, also single, attained great prominence. Few men have become famous as statesmen without marrying before the end of their career. President Buchanan was a notable exception.

Cave Has Natural Heat.

A naturally heated cave has been discovered at Horse Butte, near Bend, Ore., which apparently draws its

warmth from a subterranean volcanic source. The discovery was made by C. A. Yarnell and H. D. Eide, local fuel dealers. The cave is located near the top of the butte and first attracted attention when a wave of heat was felt issuing from the mouth. The cinder bottom and rock walls of the tunnel are unbearably hot to the touch, the heat increasing as far back as could be explored. That the phenomenon is a recent manifestation was indicated by the smoldering of grass and twigs near the opening. To test the natural oven Mr. Yarnell cooked a light breakfast by introducing raw articles of food into the aperture and closing the orifice for a few moments.

AMERICAN LEGION NEWS

More than ten thousand residents of New York City paid tribute to soldiers and sailors who died in the World War at a memorial service May 26 under the auspices of the Memorial Festival Committee, of which President Harding is honorary chairman, and of which F. W. Galbraith jr., national commander of the American Legion, is chairman.

Addresses by Governor Henry J. Allen of Kansas, and the Reverend Francis P. Duffy, chorus singing by 2,000 New York children and a solemn funeral procession, with a draped and poppy-laden gun carriage, rolling the length of the hall and halting before the stage, formed the most impressive parts of the program.

So great was the public interest in the event that it is probable the desire of the committee to hold the memorial annually and to have a day of tribute to the World War dead set apart in every community will be realized.

Jack Dempsey's supporters in his coming fight with Carpentier are few in the ranks of the American Legion, which does not look with favor upon Dempsey's career in the shipyards during the World War as contrasted with Carpentier's *croix de guerre*. The Legion post at Atlantic City, N. J., which was reported as endorsing Dempsey, has indignantly denied taking such action. Post officials state that when Carpentier visited Dempsey's camp at Atlantic City, the Legion members accorded him an enthusiastic reception. The endorsement of Dempsey, they aver, came from another veteran's organization in that city.

With all the ceremony accorded a chieftain of bygone days, Albert Grass, 21 years old, last chief of the Dakota Sioux Indians, who was killed fighting in France, was buried at Mandan, N. D. Mingled with the Indian rites and religious ceremonies were the services of the American Legion, whose members conducted a military funeral for their comrade. The Legionnaires buried the chieftain in Holy Hill, a spot sacred to the Indians, where the last great sun dance of the Sioux was held.

Most of the American aces of the World War will be seen in action during the annual convention of the American Legion in Kansas City. Airplanes will be sent by the Army and by numerous builders of aircraft and a "flying circus" will be held under the auspices of the Flying Club of Kansas City. Among the aces expected to participate are Eddie Rickenbacker, "Dare Devil" Murphy, Eddie Stinson and Major R. W. Shroeder, who holds the world's altitude record.

George Gee, a Chinese, who was a cook in the Seventh Cavalry at the Custer Massacre, was buried recently by a post of the American Legion at Sitka, Alaska. When Custer went to his death on the Little Big Horn, the Chinese cook was detailed to remain with the regiment's baggage and thus escaped death at the hands of the Sioux.

A cemetery in which only ex-service men will be buried will be established soon by American Legion posts of San Francisco.

The third annual state convention of the Montana department of the American Legion will be held in Lewistown, June 27 and 28.

About the only way to prevent future wars is to fight on until there is nobody left.

The good ministers tell us it is wrong to work on Sundays, but that is what we pay them to do.

A dull sermon puts a fellow to sleep, but a squeaky voice in the choir soon stirs him to life again.

Soft Beds in Ancient Days.

According to Athenaeus, effeminate gentlemen in ancient Greece sometimes slept on beds of sponge. Fashionable people in Athens slept under coverlets of dressed peacock skins, with the feathers on. Clearchus, the author of a treatise on sleep, described the bed of a Paphian prince in such a way that it is difficult to keep awake while reading it. "Over the soft mattresses," he writes "was flung an expensive short-grained Sardinian carpet. A coverlet of down texture succeeded, and upon this was cast a costly counterpane of Amorinian purple. Cushions variegated with the richest purple supported his head, while two soft Dorian pillows of pale pink gently raised his feet."

Democratic Cigar Names.

The nomenclature of the cigar trade is one of the very interesting phases of democracy, says the Philadelphia Public Ledger. No agent latent upon building up a market for a 10 cent cigar ever named it for a statesman. He complimented, instead, an actor, a philanthropist, a race horse, a hypothetical Indian maiden or a supposititious Spanish grandee. To have named a 10 cent cigar for a statesman would have been to "quess" both the cigar and its involuntary patron. The people would not have stood for that sort of thing. It would have presumed a certain superiority which they would have rebuked both at the cigar stand and at the polls.

Cure for Flat Feet.

Are you flat-footed? If you don't know, the next time you take a bath, observe the impressions that your wet feet make. If your feet are normal, there will be a narrow line from heel to toe on the outside; if they are flat, the entire bottom of the foot will show.

How can you cure flat-footedness? Buy a handful of marbles, place them in two rows, and start picking them up with your toes. To do this you must curl up your toes; as a result the muscles of the feet will be exercised and thereby strengthened.—Popular Science Monthly.

Time to Go.

"She said 'No?'"
"Yes," said the dejected suitor.
"Cheer up. A woman's 'No' sometimes means 'Yes.'"
"Not in this case. The door bell rang and she produced the other man."
—Birmingham Age-Herald.

TRESPASS NOTICE

No fishing, hunting, wood hauling or prowling in the Worsham & Johnson pasture allowed.—W. B. Johnson.

Do not take too seriously the woman who says she is on the shady side of 40. The sun shines on both sides.

Some people are so painstaking in their truthfulness it leads others to suspect they are prevaricating.

If some one doesn't come along with a fresh sensation soon we will have a tedious day of it tomorrow.

An exchange says that when the full truth about graft is made public graft will be abolished. Perhaps—when.

Diplomacy might be aptly described as a combination of dignity and duplicity.

Never mind what the rest of the world thinks of you. Old St. Peter is the boy who will decide whether or not you enter the golden gate.

This country and Japan are waging war in the approved manner. They are making diplomatic faces at each other from a safe distance.

It is best to throw the mantle of charity over the mistakes of your neighbor. You may need a circus tent to cover your own.

Planting trees in memory of our soldier dead is a commendable act, but why not a little of the fruit for those who were only half killed?

Of course, if a squib in these columns is too pointed to please you, you can enjoy hanging in onto the other fellow.

No man ever remembers the first lie he ever told, and the last one is even easier to forget.

Every man knows how to attend to his own affairs. A few of them do.

No one can expect to make a hit when they aim at nothing.

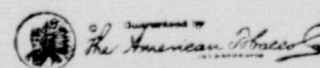

The fellow who tells all he knows seldom knows much to tell.

All men make mistakes. A few admit them.

Notice of Election

Notice is hereby given that an election will be held at the court house in the town of Crowell, Foard County, Texas, within the Crowell Independent School District, on the 6th day of June, 1921, to determine whether an annual ad valorem tax not to exceed one dollar on the one hundred dollars valuation of taxable property of said Crowell Independent School District shall be levied, assessed and collected for the maintenance of the schools therein.

J. W. Beverly has been appointed Judge, and A. G. Magee and D. L. Reavis, clerks of said election, which shall be held as nearly as may be possible in conformity with the general election laws of the State.

No person shall vote at said election unless he or she be a qualified voter under the Constitution and laws

of this state and a property tax payer in said Crowell Independent School District.

Those in favor of the tax shall write on their ballot: "For Maintenance Tax." And those against the tax shall write or print on their ballot, "Against Maintenance Tax."

Said election was ordered by the board of trustees of said Crowell Independent School District by order passed on the 6th day of May, 1921, and said notice is issued pursuant to said order.

Dated this 9th day of May, 1921.
W. F. KIRKPATRICK,
President of Board of Trustees of Said Election.

Attest:
R. R. MAGEE,
Secretary of Board of Trustees of Said District. 51

Nothing is quite so insistent as hunger. It comes unbidden, is never welcomed, and departs only when satisfied.

Faults are unfortunate, yet they are of value to the person who profits from them.

Many people are blessed with wisdom, but cursed with an inability to apply it.

The fellow who is false to his trust kicks mightily when others refuse to trust him.

Spontaneous friendships are generally founded upon impulse and wrecked upon deliberation.

ALMOST LOST BIG DISCOVERY

Predatory Bird Carried Off Fed Containing Precious Seed That Produced Burbank Potatoes.

Luther Burbank recently told Colorado potato men a story of his discovery of the world-famous Burbank potato, which has only recently come to light. While Burbank was experimenting with potatoes about twenty years ago he noticed in his patch one plant which held one particularly promising pod of seeds. To his practiced eye these seeds and the plant which bore them would contain the germ of a new and excellent potato. If he had thought it necessary he would have put a watchman over this one small seed ball. As it developed later, the money that would have been required for a watchman would have been but a minute drop of silver in the ocean of gold which this one pod was destined to produce.

Every morning Burbank would go to the patch to see how the pod was faring, and often during each day he would look at the plant to discover the time when the pod could be picked.

One morning he went into the patch and the pod was gone. With the help of workmen he searched for it. Finally, after hunting for hours, 20 feet away from the plant, in the midst of other plants, the pod was found.

"I think a bird must have picked it off and tried to carry it away," Mr. Burbank told the Colorado potato men. "Anyhow, there it lay, and I picked it up and planted the seeds, and that's how we have Burbank potatoes today."

HAD NO ANSWER TO THAT

Georgia Man's Assertion Concerning Watermelons Left Upholder of Indiana Product Gasping.

Harry Grimsley, a Terre Haute Rotary club man, comes from Georgia and is still in love with his native state. He boasts of its wonders, and the last time he discoursed on it, was telling of the wonderful bargains he got in watermelons. "Why, we got the very biggest ones for only five cents," he said.

"But they aren't so big as the ones we have up here," persisted one of his listeners. "Why, out on my farm we had some half as big around as half the top of this table. We didn't eat any of it except the core, and yet the whole family had enough of it and more."

"Down there," drawled Mr. Grimsley in his most southern drawl, "we never eat nearer than two feet of the rind of the melon and yet there's always more than enough for a family in one melon."—Indianapolis News.

A Chicago judge says that "we have hit the bottom of hard times and from now on business is going up hill." But how long is the hill?

NO SUBSTANCE TO DREAMS

Writer Gives Reasons for Her Refusal to Have Any Belief in Common Superstitions.

The mind during sleep reminds me of a naughty child, writes Marion Holmer in the Chicago Daily News. With a normal person during waking hours reason controls it and when it seems inclined to let loose a foolish trail of thought rebukes it with "Nonsense! Behave yourself!" But when reason goes to sleep the mind has seasons of wild capering. It makes you do things that when awake would scorch you with blushes. It causes you to go to church dressed in your very best except your shoes and stockings, which you find you have left at home. It makes you marry a dark man with big black whiskers when you already have a perfectly satisfactory husband who is blond and smooth faced. There is nothing that it will not do uncontrolled by reason. Therefore I never have had much faith in the prophetic quality of dreams, although there are persons who pin their faith to those so-called warnings. We have heard them say, "I dreamed last night that I had lost a tooth. That means bad news," or "I dreamed of walking among ruined buildings. That means that somebody in the family is going to be ill," and, like fortune telling, the predictions that do not "make good" are forgotten.

A recurrent dream is of no importance. I have known the same stage setting with its incidents to be presented over and over in sleeping visions without ever reaching its counterpart in reality. An uncomfortable position during sleep, or the fact that you are not feeling well often occasions troubled dreams.

NEW THEORY IN ASTRONOMY

Feasibility That There is a Tail Attached to Our Earth Leads to Ingenious Suggestions.

Opposite to the sun there is a very mysterious glowing patch, which is thought to be attached to the earth as a comet-like tail.

The highest regions of our atmosphere consist of very light gases, and the impression is that some of these were driven away by the sun or by other means, and that they stream off from the earth into space just as the light gases do from the head of a large comet.

Naturally, this theory has aroused much controversy, and has led to all sorts of ingenious suggestions. One of these is that a swarm of meteors (of the kind we know as shooting stars) keeps us company through space at a distance of about a million miles, or four times the distance of the moon. But a tailed earth is an ideal vehicle for imaginative flights.

It might be argued that if our globe has a tail why should not the planets Mercury and Venus, and even Mars, have one. Well, perhaps they have, for all we know to the contrary. Our earth's tail would be much more easily seen by us because of its nearness and brightness.

Most men are quick to embrace their opportunities, especially if they are young and pretty.

Gceries That Satisfy

A grocer can buy two kinds of foodstuffs—the kind that possesses nourishing qualities and is readily digested, or the kind that is produced for huge profits and overtaxes the stomach.

Buy digestible foodstuffs and you will have less occasion to call in the doctor.

TO THRESHING MEN

We want your bills for thresher groceries bad enough to ask you for them, and we are confident that we can make it to your interest to buy them from us. Besides the fact that we have a large variety of food stuffs, they are the best that can be had. Quality in groceries, we think, is as essential as quality in anything. Let us figure your bills.

Massie-Stovall Gro. Co.

"First see that you are right and then go ahead" is good advice—provided you know when to stop.

Some people make up in noise what they lack in sense.

Sacred Mohammedan Rock.

A report on the Dome of the Rock of Jerusalem is shortly to be published and will be of great interest to the Mohammedan world. It may not be generally known that this place is the third in sanctity of all the sanctuaries of Islam, and indeed for a short period it actually formed the Kibla toward which all Moslems prostrated themselves in prayer.

Among the more important religious associations of this rock we may mention it was here that David and Solomon were called to repentance, and on account of a vision David chose this site for his temple. From this same spot Mohammed ascended to the seventh heaven after his night journey from Mecca, and lastly it is to be the scene of the Great Judgment. The historical associations are not less striking and such famous names as Omar Abdel-Malek, Saladin and Suleiman are all connected with the rock.

Trouble is about the only thing the present generation is willing to surrender without a price.

It is possible, of course, that you worry over the faults of others merely for the purpose of evening up the score when they worry over yours.

Some people never stoop to telling little fibs. Nothing short of a whopper satisfies them.

A Harvard professor claims to have discovered a means whereby a lie can readily be detected. Want to talk to him?

Public office is a public trust, and often an object of distrust.

If hard times keep on coming much longer they may get by us before we recognize them.

Merely as a test of memory, do you still remember the name of the new vice president of the United States?

Trouble comes mainly to those who recognize them as such.

Oats in Wheat

A great deal of wheat this year has oats in the field. Have the thresher man to take these oats out. Our elevators can't do it, and if there is too many oats in your wheat you might get a dock.

We are on the market every day now for June and July wheat at the market price. At present things look favorable for a little better price on wheat, but don't get the idea that it is going to \$3.00 per bushel and let the market get away from you.

At any time you want to know anything about grain, step into our grain office at the store, and we will gladly furnish you with any information that we have. We get reports every day as to weather conditions, etc. See us before you sell your grain.

Allison Grain Co.

AYERSVILLE NEWS

(By Special Correspondent)

Miss Aline Gamble spent Saturday night with Mrs. Bertie Flowers at Crowell.

Millard Phillips and wife visited Gordon Davis and family at Thalia Sunday.

Mack Gamble and wife took dinner with J. R. Gamble and wife at Crowell Saturday.

Ben Haney and family of Rayland were visitors at Millard Phillips' one day last week.

Miss Jewell Davis came home last Sunday from West Rayland where she taught school the past term.

W. L. Johnson and wife and Tom and W. A. Johnson and wife of Thalia visited W. E. Rector and wife Sunday.

Ray Pyle went to Vernon last week and purchased a Case Tractor. He has rented R. H. Cooper's wheat farm for the next year.

Carroll Lindsey and wife and Mrs. Yancy Lindsey took Mrs. Alice Tackett to Vernon last Wednesday where she took the train for her home in Oklahoma.

Mrs. J. L. Short's father and mother, Mr. and Mrs. T. P. Northam, and two brothers, W. C. and B. E., all of Chillicothe, and one brother, J. W., of Vernon, attended the funeral of little Gracie Short last Saturday.

Gracie, the little 7-year-old son of Mr. and Mrs. J. L. Short, died Friday after an illness of three days. He underwent an operation Thursday for appendicitis but God saw fit to take him after all that loving hands could do was done to save him. His last words were to his brother, "Come on Cecil I'm going home, it won't take me long," and then quietly passed away. Gracie was born Dec. 22, 1913, and died May 27, 1921. Funeral services were conducted Saturday by Rev. Henderson in the Baptist church at Margaret after which the body was interred in the Crowell cemetery.

Bees Eaten for Revenge.

Bees are usually employed as manufacturers of honey, which is everywhere considered a delicious food, but there are places where the bees themselves serve as a food.

The negroes of Guleana, when stung by a bee, proceed to catch as many as they can and in revenge eat them. It would be interesting to know what happens as an effect of the sting thus taken internally.

In Ceylon the natives hold a torch under the bee swarm hanging to a tree, catch them as they drop, then carry them home, boil them and eat them.—Popular Science Monthly.

To Thresher Men

You can not only save money by buying your groceries here but you get quality goods. We know your wants and that is why we are enabled to supply them. Give a shot at your bill.

NO QUARREL ON THAT POINT

Father and Small Daughter in Complete Agreement Concerning Classification of Relatives.

There lived with an eminent divine his two sisters, Mary and Jane. One morning he was deeply engrossed in a new treatise he was preparing, when his young daughter was brought to him by her governess.

"I have to report Miss Ellen for a terrible thing. She called her Aunt Mary a—a—a d—d fool!" said the governess.

"How terrible!" responded the divine. "Did you call your Aunt Mary this awful thing?"

"No, father. I didn't," faltered the youngster. "I called her a fool—but not a—a—a d—d fool."

"Well, even that is very wicked of you," he replied, "but as you did not use that awful adjective I will forgive you. You may go." And he returned to his writing.

The youngster, however, did not go. "Please, father," she said, presently, "I didn't call Aunt Mary a d—d fool. I called her a fool. But—I—I—I did call Aunt Jane a d—d fool!"

"Yes, yes!" he mumbled, without looking up from his work; "I quite agree. That is the precise distinction between them that I usually make myself!"—London Tit-Bits.

"Pain Points."

On every human body there are four million "pain points" connected by nerves with the brain. They are, of course, distributed very unevenly. They are placed close together at the tips of the fingers and are furthest apart in the back. Anyone can test this for himself. If you will place two needles one quarter of an inch apart by sticking them into a piece of cardboard you will have a very effective instrument for making tests. Put your finger on these two points and you will, of course, feel both of them. Now apply them to the small of your back and you will feel but one point. In other words, the nerve centers in your back at this point are more than a quarter of an inch apart.—Boys' Life.

Finds Pleasure in Thinking.

Thinking after a while becomes the most pleasurable thing in the world. Give me a satchel and a fishing rod, and I could hie myself off and keep busy at thinking forever. I don't need anybody to amuse me. It is the same way with my friend, John Burroughs, the naturalist. We can derive the most satisfying kind of joy from thinking and thinking and thinking.

The man who doesn't make up his mind to cultivate the habit of thinking misses the greatest pleasure in life. He not only misses the greatest pleasure, but he cannot make the most of himself.—Thomas A. Edison.

We Do Not Charge

We Do Not Deliver

People May Differ But--

Difference of opinion regarding the place to buy Groceries will not occur if you buy at Eggleston's Cash & Carry Groceries. It is a common saying that you get the same goods for less money at Eggleston's than elsewhere. A trial will convince you.

The prices listed below are not specials but are our regular, every-day prices and will remain until there are changes in the market.

Sugar 100 lbs.	\$8.50
Pinto Beans 100 lbs.	\$7.50
Coal Oil per 5 gal.	.60
Spuds per bu.	\$1.50

HOW ASIATICS TAME EAGLES

Spirits of Fierce Birds Are Broken by Deprivation of Sleep for Long Periods.

The Asiatic eagle is the golden eagle. It is a big bird, many pounds in weight, and exceedingly swift in flight, as well as fierce when attacked. Indeed, to see the natives on horse-back carrying golden eagles on their backs is a strange sight for the birds are usually tame when one considers how they act when free.

The eagle hunter has a problem in taming, much less training, a golden eagle. The eagle hunter finds where an eagle frequently rests during the day. He climbs to this place where an eagle frequently rests during the day. He climbs to this place where an eagle frequently rests during the day.

When the attention of the soaring eagle is attracted by the fox, the eagle is attracted by the fox, the eagle is attracted by the fox.

COMBINE ART WITH 'MOVIES'

How City of Toledo, O., Attracts Children to Its Museum for Educational Purposes.

In order to attract the children of Toledo to that city's museum of art, the museum management offers to the visitors "story hours" gallery talks, music hours, classes in pure and applied design and the educational motion picture.

The Toledo museum was the first to include motion pictures in its educational plan when, in the autumn of 1917, the necessary equipment was presented through the efforts of H. T. Barnes, then assistant to the director.
