

THE FOARD COUNTY NEWS

AND CROWELL INDEX

FIFTH YEAR NUMBER 45

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, MAY 23, 1946

EIGHT PAGES

AND OUT OF SERVICE

Deut. Raymond S. Joy, Jr. and Mrs. C. C. Joy of Wichita Falls, Tex., has received an honorarium from the A. A. F. separation center at Shepherd, Tex., for his services during the war.

William Wilburn Nichols, Sr. of Mr. and Mrs. Claude Nichols, received an honorable discharge from the U. S. Navy at the Navy Separation Center at Norman, Okla., according to news release from the center. He had served 18 months in the Pacific and duty was at Tacoma, Wash.

Ward Wright received a discharge from the service Saturday. He and his family were in the city last week for a visit. He is now residing at Amarillo which he has visited for about twelve days.

Miss Bullion is at home on Camp Gordon, Ga., with her parents, Mr. and Mrs. J. B. Bullion, and family, of Tusculum, Tenn.

Marion Howard Ferguson, Jr. and Mrs. W. R. Ferguson were at home Saturday afternoon receiving their discharge from the service at Fort Worth, Tex.

Honor Names

Edward Bursey, principal of the Dallas Schools, announces the names of pupils who have received the honor roll. The honor roll consists of: Carolyn Tole, Isaacs Kuba, Lindsay, Gaylon Whitton, Rose Hall, Rosemary, Peggy Sharon Long, L. Larue Mason and Vida Meyer.

Honor Roll — Virginia Lewis Cates, Jane James Bates, James James Bates, Ruth McRae, Myra L. Letha Faye Marlow, M. Hammond, Jean L. Letha, J. H. Abston, Bobby Joe Hill, Cole, Don Wisdom, Dorothy Norma Grace Gray, Bill Gerald Short, Charles Phil Henry and Alicia.

RECEIVE DEGREE

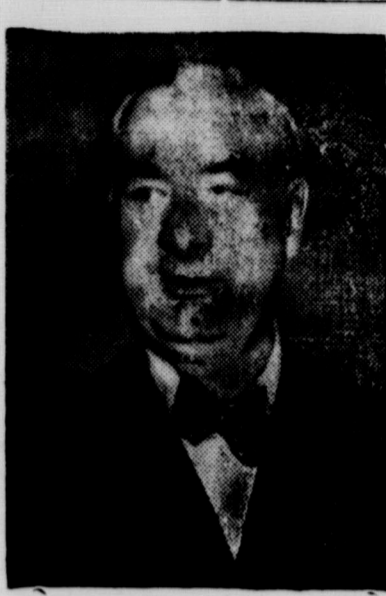

Clara Gilliam, daughter of Clara Gilliam of Foard County, received her bachelor's degree from the University of Texas at Denton, Tex., on May 19. She is a candidate for a master's degree in education. She was a member of the college chorus her senior year, and acted as treasurer of the Club her sophomore year.

Question of how far influenza may be gained following: Prices have in pre-war standards, where it costs 50 per cent to build a house than before the war. Automobiles several hundred dollars more than they did before the war. Prices are higher for clothing, men's clothing is up 60 per cent, labor is up 60 per cent from 10 to 20 per cent the next year.

Dr. Geo. W. Cox Issues Suggestions to Control Polio

Austin—Dr. Geo. W. Cox, State Health Officer, has issued the following statements and suggestions concerning the control and prevention of poliomyelitis which is now occurring in certain sections of the state.

Until recently it was generally believed that this infection is transmitted by means of discharges from the respiratory tract. It is now believed that poliomyelitis may be another of the several gastrointestinal infections. Therefore, control measures must include clean-up campaigns and improvements in sanitation.

All raw foods and vegetables should be washed thoroughly before use and protected from flies, dirt and insects. All eating and food handling establishments should adhere strictly to the State law concerning the sanitization of dishes and utensils. Those restaurants maintain approved sanitation should close one or two hours a day so that employees can assist in maintaining cleanliness and high sanitary standards.

Every effort should be made to secure approved milk. Rats and mice should be eliminated. Maintain in the home the same sanitary standards that are necessary in community life. Particular attention should be paid to personal hygiene. Excreta from cases and contacts should be handled and disinfected with the same scrupulous care as in typhoid fever or bacillary dysentery.

Charter Members Still Active in Home Demonstration Work, Check-Up by Miss Elizabeth Elliott, Agent, Reveals

"You never learn it all and this fact holds true in home demonstration club work as well as in anything else. Evidence of this fact presents itself from the women who have remained members of a home demonstration club through the years. It was revealed in a check-up by Miss Elizabeth Elliott, Foard County Home Demonstration agent.

Basketball Squad Pays Tribute to Late T. P. Hunter

The University of Kansas basketball squad paid tribute to a former member, the late T. P. Hunter of Oklahoma City, on April 9 by naming him posthumous captain of this year's Big Six championship team, according to a news dispatch from Lawrence, Kansas.

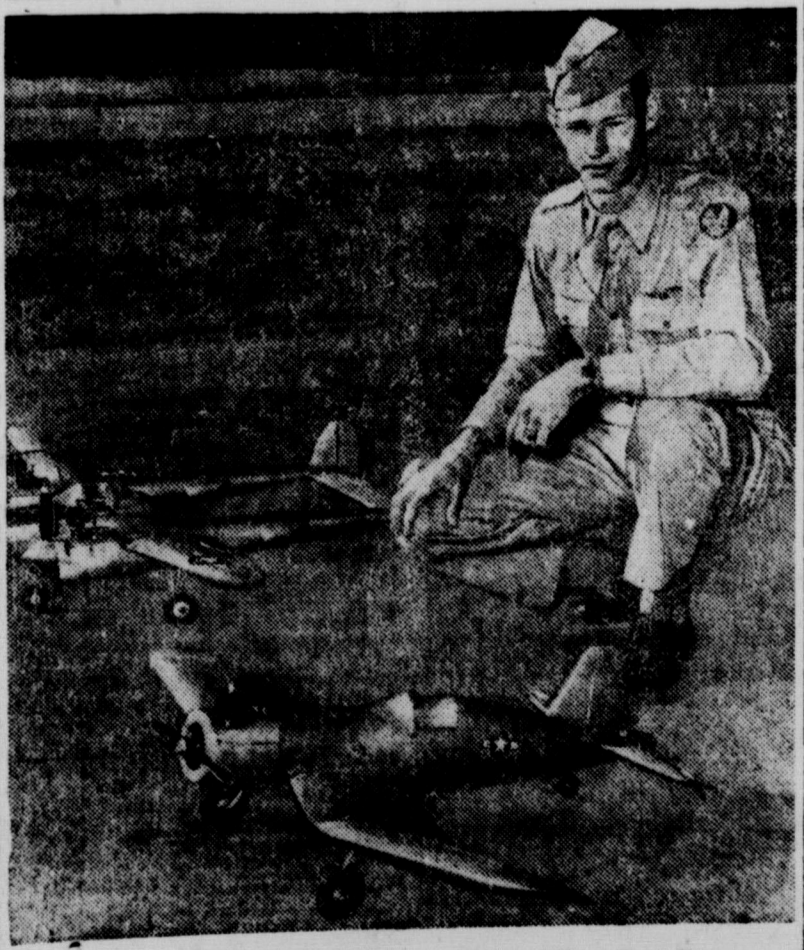

Son of Mrs. Mary Hunter of Margaret, Hunter who was killed July 21, 1944, on the first American landing on Guam with the Marines, was acclaimed by seventeen Jayhawk letter men at the Lawrence Co-Operative club's annual basketball dinner.

Stoneburg Storm Victims Related to Mrs. Joe Smith

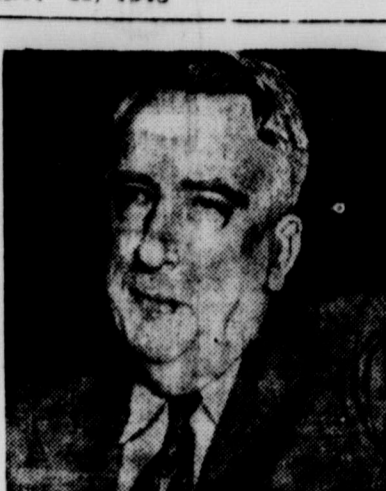

J. L. Howard, pioneer resident of Stoneburg, near Henrietta, who was killed in a tornado which wrecked his home Saturday night, was a great-uncle of Mrs. Joe Smith, of Crowell.

Crowell Masonic Lodge Calls Meeting for Monday, May 27

A called meeting of the Crowell Masonic Lodge has been set for Monday, May 27, it was announced this week by D. B. Magee, secretary. The purpose of the meeting is the conferring of three Master's degrees and all Masons are invited to attend.

HIS MODELS WERE THE TOPS . . . Flying Officer Carl Freeman, Luke Field, Ariz., is shown with the model planes which won first and second prizes at the model airplane meet held at Luke Field. Record speed of the model airplane was 61.2 mph. The army air force has a program to encourage the building and flying of model planes not only among enlisted personnel and officers but also among civilian groups. Many aces in World War II became interested in aviation while building model planes.

FOR OPA . . . Secretary of the Treasury Fred M. Vinson, as he appeared before the senate banking and currency committee, conducting hearings on bill to extend life of OPA. He urged that the office of price administration be retained for the common good.

B&PW Members Sponsoring Food Collection

The Business and Professional Women's Club of Crowell is sponsoring the Emergency Food Collection in Foard County and Miss Bertha Womack, club president, solicits the co-operation of everyone in the county to make a complete success of the drive. The food is to be sent to the hungry people of the war-torn countries.

Miss Womack is general chairman of the drive and has on her committee, Mrs. Henry Borchardt, Mrs. Alva Spencer and Miss Elizabeth Elliott. Any of this committee or any member of the B. & P. W. Club will accept any donation made to the drive.

Over 300,000 Bushels of Foard's 1946 Wheat Crop Has Been Combined; Total Yield to Be More Than 500,000 Bushels

Wheat harvest in Foard County has been in full swing this week and up to Wednesday afternoon the 304,000 bushels had been received at the elevators in Crowell, Margaret and Foard City, according to figures released by the elevator men.

Texas Company to Build New Refinery on East Coast

The Texas Company has acquired a 1,368 acre site on the Delaware River opposite the Philadelphia Navy Yard on which it will build its first major East Coast refinery. W. S. S. Rodgers, Texaco's Board Chairman, has announced. The first unit of the new plant may be in operation some time during 1948.

Harvesting Off to Slow Start in Truscott Area

Wheat harvest in the Truscott territory across the river in Knox County has been slow this week on account of the cloudy, damp weather conditions and the grain being too green to combine, it was learned Wednesday night in a telephone conversation with Lester Hickman, manager of the Farmers Co-Operative Elevator Association.

Mr. Hickman reported that the elevator had received 24,000 bushels up to Wednesday afternoon and had shipped out ten cars. He stated that the harvest was just getting started in the first three days of the week.

The Texas Company during the 44 years of its existence has sought continually to improve its products and to maintain the highest standards that extensive research establishes," said the Texaco Chairman. "The new East Coast refinery will carry Texaco's purpose forward into the post-war era assuring consumers an increasing supply of the highest quality petroleum products."

Commencement Exercises Held at High School Friday Evening for 1946 Seniors; Dr. D. D. Jackson Delivers Address

Dr. Doyle D. Jackson, professor of education and director of the Teacher Placement Bureau of Texas Technological College at Lubbock, was the speaker at the commencement program at the High School auditorium Friday evening, May 17, when forty graduates of Crowell High School received their diplomas.

Mrs. William Ricks played the professional for the entry of the Senior class and Rev. D. D. Denison gave the invocation. Miles Neill played a cornet solo, accompanied by Morris Johnson, both young men being members of the graduating class.

Dr. Jackson was introduced by Superintendent Grady Graves.

Dr. Doyle D. Jackson, member of the faculty of Texas Tech since 1935. Co-author of the book, "The Unit Method of Learning and Teaching."

Sup. Graves spoke a few words of appreciation to the orator and also admonished the Seniors with the words, "When you play, play hard, when you work, do not play at all." He presented the diplomas and awards to the members of the graduating class and honor pupils.

Important Uses for DDT Given by New County Farm Agent

Dichlorodiphenyl-trichloroethane (commonly known as DDT) can be used successfully to control horn flies on cattle, according to Joe E. Burkett, county agent. As a spray use one-half (1/2) gallon of 2 per cent DDT per mature animal. Water should be used to dilute the DDT before spraying livestock, Mr. Burkett says.

Turning Out More Wheat Than Expected, Especially in the East and Southeast Portions of the County

Some excellent yields per acre have been reported and are comparable to those in good years. However, on a large part of the wheat acreage in the county the per acre yield will be low as compared to former years. This is true in the west and southwest sections of the county.

May 31 Last Day to Make Application for Dairy Payment

Commodity Credit Corporation has announced that May 31 will be the last day for making application for dairy payment for dairy products produced and sold during January, February and March of 1946, according to A. V. Shepard, County AAA Administrative officer.

All producers who have not made application are requested to call at the local AAA office to do so on or before May 31, 1946. The department has announced payment rates for April, May and June subject to termination or revision in the event of any general increase in price ceilings for milk and its products. The payment rates will be 17 cents per hundredweight for dairy products produced in April, and 15 cents for butterfat and 55 cents per hundredweight for May and June.

People over 45 years of age now comprise more than a quarter of the population of the United States, or about twice the proportion of a century ago.

Miss Mary Ray Ayers spent the week-end visiting in Fort Worth.

So far as is possible to discern no progress has been made toward the settlement of the coal strike. It is estimated that most steel mills will be shut down by the middle or the last of May. The public as a whole has not felt the coal strike yet. Its effect will be felt some months hence in a shortage or delayed delivery of consumer goods.

You'll see what we mean when you drive with that smooth-powered New Phillips 66*

THOUGHTS OF SERIOUS MOMENTS

Justice is itself the great standing policy of civil society; and any departure from it, under any circumstances, lies under the suspicion of being no policy at all.—Burke.

God gives manhood but one clue to success, utter and exact justice; that, he guarantees, shall be always expediency.—Wendell Phillips.

Justice delayed, is justice denied.—Gladstone.

It is estimated that there are between 52 and 53 million persons employed in gainful work in this country at the present time. This leaves an established 2 to 3 million unemployed which is normal. It is also estimated that the shortage of workers will become more acute for the next two years at least.

Insanity seldom develops in persons under fifteen years of age. The art of moose calling is difficult.

Edwards greets the young flyer, Jackie is still a student. He must wait until his 17th birthday, August 9, before he will be granted a pilot's license—which will permit him to fly.

Health Information Released by Dr. George W. Cox

Austin.—If every case of suspected communicable disease could be promptly visited either by the family physician or the local health officer, thousands of susceptible persons would be protected from disabling illnesses, according to the State Health Officer.

To quote Dr. Geo. W. Cox, "The old fashioned theory that it is a good thing for children to have a number of these catching diseases and get them over with, has long since been known to be a serious and sometimes fatal error. The longer a child can keep from having these diseases, the better it is for him. Every child should be completely protected by vaccination or inoculation against these diseases where an immunity can be produced."

Prompt diagnosis, isolation, good medical and nursing care give the patient the best chance for a satisfactory recovery without the serious complications that sometimes accompany even the mild forms of communicable diseases. Dr. Cox emphasized that obeying the public health laws regarding isolation and quarantine of communicable diseases protects not only the patient, but helps prevent others from contracting the illness.

"The State Health Department," Dr. Cox said, "is doing everything

in its power to protect the health of the people of Texas. It is the duty of every man and woman to do his share to maintain a high level of health and help prevent the spread of communicable diseases."

Mr. and Mrs. Ernest Cox of Good Creek spent Saturday with Mr. and Mrs. Emmet Painter.

Mrs. Oral Wharton and daughter, Sharon Sue, have returned to their home in Odessa after an extended visit here with her parents, Mr. and Mrs. J. H. Taylor. O. C. and Icyphene Wharton, who had been attending school in Crowell, returned home with them. O. C. graduated from Crowell High School.

W. Myers, finds them adapted. All profits, beyond cost of materials used in the manufacture of the items, will go to the handicapped makers. In addition, strategic children of pre-school age will be given training in muscular re-education and speech correction.

The director, Mrs. Myers, was the first occupational therapist in France during the first world war. Her introductory work was largely responsible for the establishment of handicraft rooms in veterans' hospitals. She later did organizational therapy work for Hull House in Chicago, worked with mental patients in the government hospital in Panama and inaugurated pottery making classes for a leper colony in the Caribbean.

State headquarters of the Texas Society for Crippled Children are now located at the workshop, 3707 Worth St., Dallas.

Dates for Cowboy Reunion at Stamford Set for July 2-3-4

Three stellar attractions at the 1946 Texas Cowboy Reunion include the Cutting Horse Contest, the Sponsor's Contest and the Chuck Wagon meals which are available to all during their visit to the Reunion. Dates for this year's 3-day celebration fall on July 2, 3 and 4.

The Cutting Horse contest originated with the Texas Cowboy Reunion and is a regular ranch chore during the course of operation. Co-ordination between the horse and rider are the main factors involved in this contest and it is a sight to see. Performance and ability of the rider and horse, and the ease and speed of the work are determining points from the judge's observation.

Smoke curling from many chuck wagon fires is another spectacle at the Reunion. Quite a sizeable acreage is fenced off at the Reunion grounds to provide space for numerous chuck wagons that are brought to the show by various ranch owners each year. Ranches desiring to bring a chuck wagon have only to notify Reunion officials in advance, and a spot at the grounds will be reserved for them where mesquite wood is neatly corded, and watery for "range" cooking, is always available. Old-timers take their meals up at the Texas Cowboy Reunion Association. Chuck House, a sheltered place provided near their "bunk house." The others are out on the open range space. The public is privileged to dine at most of these wagons for a nominal charge.

Crippled Children to Learn Trades in New Sheltered Work Shop

Commerce, Texas.—A sheltered workshop, where handicapped young people of Texas can learn crafts and trades that will make them self-sustaining, has been established in Dallas, according to an announcement by Dr. Sam H. Whitley of Commerce, President of the Texas Society for Crippled Children. The workshop was financed through the sale of Easter Seals which the Society annually conducts.

"Rehabilitation of the crippled is one of the main objectives of the Texas Society for Crippled Children," Dr. Whitley pointed out. "It is vital that they be equipped for trades that will make them self-sustaining citizens. In New York, Chicago and other cities where sheltered workshops have been in operation a number of years, the products turned out by the handicapped are in great demand and command prices equal to any comparable merchandise. We have a great opportunity in Texas for the development of this work."

In the sheltered workshop, children and young people will weave, make wood carvings, costume jewelry and other handicrafts to which the director, Mrs. Clyde

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, May 23, 1946

Thousands of people in the world today do not know what it means to have enough food to supply the barest subsistence needs. They go to bed every night hungry and wake up in the morning hungry. At the same time there are thousands of people in this country who do not know what it means to suffer from hunger. They have all they need to eat and more. These have an opportunity to share their abundance with those in need and will feel better, and be better for it.

Some comparison in the matter of our army and air force of the future with that of Russia might be interesting. The United States plans a peace time army of 1,550,000. Russia plans a peace time army of 6,500,000. The United States plans a peace time air force of 400,000. Russia plans a peace time air force of 1,200,000. Peace time conscription in Russia will provide 1,500,000 young men for the army each year.

A survey of eight colleges in the middle west conducted by the Chicago Tribune shows that in all of them the spring enrollment has greatly increased, indicating a new high interest in college training. The increase in enrollment averages from 30 to 40 per cent. With all facilities already taxed the condition indicates a new problem of disturbing proportions for the colleges and universities.

The world wide condition of famine and want is one of the prices humanity pays for war. The cost of war is not confined to the cost of planes and ships and guns and supplies. There should be included in it all the rebuilding and rehabilitation that follows in its wake for years to come.

You can judge a man as well by his foes as by his friends.

HISTORY

Birthday of Jefferson Davis: Florida was the first state to observe as a legal holiday in 1892 the birthday of Jefferson Davis. The example of Florida was followed in rapid succession by most of the other southern states. Davis was born in Christian, formerly Todd County, Kentucky, in June 1808. He was the tenth child of Samuel Davis. While Jefferson was a small boy the family moved to Mississippi locating on a small plantation. Jefferson received his first schooling at a Roman Catholic Seminary in Washington County, Kentucky, which he was permitted to enter by his Baptist parents. Upon his return home two years later he entered Transylvania University at Lexington, Kentucky, in 1821. At the age of 16 he was appointed to a place at West Point. He was graduated from West Point in 1828 with a commission of second lieutenant in the United States Army. While stationed at Fort Crawford, Wisconsin, which was commanded by Colonel Zachary Taylor he met and married Taylor's daughter. His wife died three months after her marriage. During the next ten years Davis lived on a plantation near Briarfield, Mississippi. In December of 1845 he was elected to the National House of Representatives as a Democrat. He resigned in June, 1846, to accept command of a regiment known as the Mississippi Rifles. He participated in the attack on Monterey and Buena Vista in the Mexican war with Colonel Zachary Taylor. He withdrew from the army in 1847 and was elected as United States Senator from Mississippi. He resigned from the Senate in 1851 to run for Governor of Mississippi but was defeated. He was made Secretary of War by Franklin Pierce in 1853. At the close of his term in this office he was again sent to the Senate from which he resigned in 1861 when the Southern states decided to secede from the Union. He was placed in command of his state's troops but was soon after elected president of the New Confederacy. When Richmond was captured he fled from the city but was captured at Irwinville, Georgia, on May 10, 1865, by Federal Caval-

What We Think

(By Frank Dixon)

ry. He was imprisoned for two years but was never brought to trial. He was released on May 13, 1867, and spent his remaining years on the estate of Beauvoir on the Gulf of Mexico. He died December 6, 1889.

National Memorial Day

The 30th day of May is an occasion for thoughtful sentiment and emotion on the part of the American people, as they think of all who died as servicemen in all our wars, and as they commemorate all these veterans who have passed away. The nation pays warm tribute of affection to these men and appreciation of the great sacrifices they made, the heroism they displayed, and their devotion to their country.

Years ago when the veterans of the War between the States were still vigorous, many of them went around to the schools just previous to Memorial Day, and talked about their wartime experiences. Their appearance was very thrilling to the youngsters, as they talked about campaigns and battles, about hardships and suffering.

They expressed thoughts of patriotism and love of country. They made a deep impression upon young minds. The young people were given the thought that the country in which they lived had been built up by many sacrifices, and that it was up to them to do what they could to maintain its ideals and keep it developing along the true path of progress.

Now all but a very meager remnant of these veterans are gone. Their places are taken by the great number of veterans of succeeding wars. The veterans of all the wars have set a grand example of patriotism and of devoted service to their country. The Spanish-American war veterans did a grand job in the face of great difficulties. The veterans of the two World Wars went up against enemies that had been preparing for war for many years, and had a magnificent military system, and our men conquered them. It was a wonderful achievement.

So on Memorial Day we honor all veterans who have passed on, and lay floral tributes of affection on their resting places, and make a solemn vow that they shall never be forgotten.

Home Town Thoughts

The people of a town might well study the reasons why a good many persons have left their community. Perhaps they would find some defects that could be removed by united action.

One reason why some people leave towns is that they complain of the lack of social and educational advantages in such a community. There are enough bright and intelligent people in any community to provide such advantages if they organize to secure them.

Veterans at NTSC Experience Strange Anniversary

Denton, Texas, May 20.—A strange anniversary was celebrated by two North Texas State College veterans on April 27 when they discovered that through the fortunes of war one was liberator and one was liberated at Stalag XIII in Germany on April 29, 1945.

Ray Allmon of Ballinger, Tex., was with Patton's Third Army during the drive into southern Germany last year when advance units liberated American prisoners of war south of Nuremberg, including Bill Kamenitz of Vernon, an air corps pilot.

The two students discovered the incident when a group of veterans at a barbecue given by Gamma Phi Chi, ex-servicemen's fraternity, were comparing their lives in military service on April 27 last year to college life at NTSC.

Frowning raises muscle tone and put the body under tension and strain.

It is difficult to select from among the many problems that face the nation today one and say that it is the most important and should be settled first. There are many that need to be settled and settled now. In my opinion one of the most important if not the most important of these problems is that of housing.

Housing is important because so much depends upon the home life of a family. Our whole national structure is built about the home. The possession of a home gives a solidarity and a contentment to human beings that nothing else affords. If a family has no home, or is crowded into undesirable quarters where living conditions are not tolerable it tends to create general unrest and even imperils family life. Under the conditions that exist in this country today this one aspect assumes an importance that should not be underestimated. Coming as it does at the time when many leaving the army are unsettled, and uncertain, and discouraged, and at a time when they need above all the stabilizing influence of a home, its importance is magnified.

To date little has been accomplished in the way of providing homes. There has been a lot of talking and speech making but it has not resulted in the production of homes to any considerable extent.

The big contractors and the big builders who have a strong lobby at Washington are responsible, in my opinion, for a lot of the delay. Not that they are opposed to homes being built, but because of the fact that they have worked for and talked for the building of homes entirely out of reach of the GIs and the mass of people who are now needing homes.

What the housing committee needs to do is to get down to earth and begin to think in terms of bread and butter houses—houses that young couples can afford to live in and can afford to undertake to own. They should rub their eyes and realize that the people who can live in \$10,000.00 houses are not the ones about whom we should be concerned in the present crisis. They are amply able to take care of themselves.

As I see it, the government is going to have to take a hand—a direct part in the home building program in the larger centers where there is need for a great many modern priced homes. The proportion should not be set up to make a few big contractors and builders rich but to provide homes—small, comfortable, livable homes for GIs and other young people.

In small towns I would handle the matter through the local yards. I would restrict the cost of houses and take care first of the GIs who wanted to build a small home. I would require plans to be filed with the local lumberman and after they were approved for construction would have federal authority see to it that the needed materials were gotten to that particular yard and made available to build the GI homes for which plans and financing had been arranged and approved.

At the moment we are drifting. We are complicating it by paying too much attention to selfish interests. A nation that could summon the resource to provide the necessities of war for half the world should not experience too much difficulty surmounting the obstacles that hamper the home building program for its young men and women now that the fighting has ceased. We should cut the red tape and get the job done the quickest, and simplest, and best way.

Walking is called one of the most beneficial forms of exercise, but it may not be so healthful on some crowded roads unless considerable jumping is mingled with it.

Conflict of Ideals

The differences that have arisen in the United Nations between the United States and Britain on one side, and Russia from an opposite point of view, represent the effort of two sets of ideals to influence human life. The American people believe in democracy, freedom and free enterprise. The Russians say that a socialistic state is necessary to promote human welfare. Which idea will finally prove most popular? So these differences might be considered a competition between these two sets of ideals, to see which will provide the most human welfare and do the most for social progress. Up to date the competition has been all in favor of freedom and free enterprise. The United States, which has operated under that system, has produced far more human welfare and progress than is seen in socialistic Russia.

SUNNY SQUIBLET'S Clinging to Freedom The future of life in the United States will be determined largely by the very strength of our people in the ideal of individual freedom. Their own personal freedom of speech and of the press. They are not to be denied these freedoms. One reason why theistic ideas make no great inroads in the United States is because those systems which appear to be necessary to individual freedom to a great extent. The American people want the right to do as they please, work as they please, and say what they please. Some restrictions which have been necessary in the United States are freedom and its people's principle will continue to be a basic fact of American life. The Near-By Center One feature of moving build up towns is to develop the smaller cities and rural country to the center. If greater production of farm or manufacturing products in nearby localities be obtained, more business from these localities to the center. Many communities have aided the outlying farms to increase production and develop some specialty of the neighborhood would be encouraged. Fruit growing, poultry or cattle raising, or some such form of production and became able to produce quantities of products at good prices.

Food, Home Notes

(By Miss Elizabeth Elliott, County Home Demonstration Agent.)

SUGAR FOR HOME CANNING IN 1946

The total supply of sugar is very short. World production during the 1945-46 season was 18 per cent less than before the war.

The total demand for sugar is very great. Americans want and have the money to buy much more sugar than they can get with their sugar stamps.

Here Are Suggestions To Home Canners:

1. Spare Stamp No. 9 is now good for 5 pounds of sugar for home canning. This stamp is good through October 31, 1946.

2. Keep this stamp until you really need the sugar for home canning. Don't spend it until fresh fruits are ready for canning.

3. When your canning season comes around, your grocer will have enough sugar to "cash" these canning sugar stamps.

4. Later in the canning season, OPA will probably make another stamp good for canning sugar. This second stamp is expected to be made good for only up to five pounds.

5. Use one pound of canning sugar for at least four quarts of fruit.

6. The present sugar stamp for regular home use became good May 1, for 5 pounds. This must last you four months.

7. Play fair and square with your friends and neighbors—and with the hungry peoples abroad. Don't buy sugar for canning without giving up the required sugar stamps.

THE PRESSURE COOKER SAUCE PAN

With pressure cooker sauce pans coming to the market, housewives may find it hard to decide what type to buy.

The advantages of cooking with steam are well known. It saves fuel, and meat and vegetables cooked under steam pressure can be cooked in about one-fourth the time it takes to cook them by other methods.

In buying a pressure sauce pan

LOOK! ELECTRIC IRONS A TERRIFIC VALUE \$5.50 Cool, Easy-Grip Handle. Convenient Size—weight 4 1/2 lbs. Complete with Detachable Cord. Suitable for All Types of Ironing. Attractive, Durable Chrome Finish. K & K SALES COMPANY 534 Pittsburgh Life Bldg. Dept. Pittsburgh 22, Pa.

ease of operation is the primary consideration. It depends largely upon the seal—on the way the cover is closed so that it's steam-tight.

In one type of pan on the market, the flexible lid is sealed with a spring. In another type a flexible band is used to clamp the lid to the pan.

Either aluminum or stainless steel is satisfactory for a pressure cooker that makes sauce pan construction that fakes the sauce pan hard to clean should be avoided.

If a utensil in which an entire dinner can be cooked at once is desired, a four-quart cooker will be adequate for the average family of four.

NEW HOUSING ORDER HAS STRICT LIMITATIONS

New construction which cannot be classed as veteran housing or "hardship" civilian housing is limited strictly by new building controls.

Here are the types of building activity you can engage in without getting an authorization. You can do a job of building, repairing or remodeling on your house if the total cost is not more than \$400.

Exceptions are made for "disaster" cases where homes or farm buildings were damaged by fire, flood, tornado or similar disasters.

For permission to do more extensive construction, farm people may apply to their local county Agricultural Conservation Committee.

With pressure cooker sauce pans coming to the market, housewives may find it hard to decide what type to buy.

Making Life Pleasant

The success of a community in holding its own people as permanent residents, in inducing young people to stay on there instead of going elsewhere, and in inducing newcomers to settle there, depends in part on whether life is pleasant in that community.

On the average, women outlive men.

Rail-Labor Cases: A Recapitulation

(From the Public Relations Office of the Western Railways.)

Now that the procedures of the railway labor act have been followed through to the end in several cases, it may be interesting to pause a moment and recapitulate just what has been accomplished.

Fifteen operating unions, having agreed to arbitration, after negotiation and mediation, received from an arbitration board an award of a 16-cent hourly increase, as compared with their original demand for a 30-cent increase.

To the extent that the results of fact-finding are, in the terms of the railway labor act, recommendatory only, as contrasted with the agreement of the other unions to accept the awards of their respective arbitrators, the action of the trainmen and engineers in refusing to accept the fact-finding recommendations at least lacks the unsportsmanlike tinge of the action of the other unions.

Further, the trainmen and the engineers now hold the whiphand among the unions, because they may under the law reinstate their strike date after thirty days have

have not as yet filed demands for additional increases, although such filings were expected before the end of the week in which this was written.

Finally, two operating unions, the Brotherhood of Railroad Trainmen and the Brotherhood of Locomotive Engineers, declining arbitration, following breakdown of negotiations and mediation, took a strike vote and set a strike date, which was postponed only because the railway labor act requires maintenance of the status quo while a fact-finding board is working and for thirty days after it hands down its recommendations.

The threat of a strike by the trainmen and engineers is exactly as serious a threat to the continuance of railroad operation as it would be were the other eighteen unions participants.

Here, then, the accomplishments of following through the long processes of the railroad labor act are also exactly nothing.

And we might add that there has been another accomplishment—albeit a negative one. After what has happened in the two arbitration cases, arbitration on a national scale in railway labor disputes is thoroughly and permanently dead.

At the end of World War 1 the United States had 1,000,000 federal employees.

The United States emerged from World War 1 with a debt of \$27,000,000,000.

A message to VETERANS OF WORLD WAR II

FACTS ON YOUR RIGHTS IN BUYING SURPLUS PROPERTY

To improve veterans' priorities in the purchase of war surpluses, Congress has amended the Surplus Property Act. So that you as a veteran may have the facts direct, the War Assets Administration is taking this means to address you.

WAR ASSETS ADMINISTRATION WASHINGTON 25, D. C. May 3, 1946

TO ALL VETERANS OF WORLD WAR II:

As a veteran you are anxious to get all the benefits you can from war surplus. It is our desire to give you every possible preference, under the law, in purchasing the items you want.

By amendment to the Surplus Property Act of 1944, the War Assets Administrator has been authorized to reserve certain items for exclusive sale to you. They are listed below, but in fairness, we must tell you that quantities are not large, the demand is tremendous and you may not always be able to buy exactly what you want.

Subject to availability, you may purchase these items for your personal use, as well as for your business, professional, or agricultural enterprise. You may be sure that only World War II veterans will be entitled to purchase them.

The amended Act contains a second provision that further improves your buying position for their own use may purchase ahead of you. Federal agencies buying for their own use over State and local agencies have had an opportunity to purchase surplus, all available items which do not appear on the reserve list will be available to you to purchase for your own business.

Under the amended Act you still must be certified to purchase war surplus, as thousands have done since the original Act was passed. The certification procedure has now been simplified, as explained at the right.

The War Assets Administration will make every effort to see to it that you receive the benefits Congress intends you to have. Your patience and cooperation will aid in the difficult task we face in trying to satisfy the needs of every veteran who wants to buy surplus property.

THE ADMINISTRATOR

War Assets Administration WASHINGTON 25, D. C.

What is set aside for you The property listed at right is reserved for exclusive sale to veterans of World War II. These are the items in greatest demand by veterans. Large quantities are not available. You may have to wait some time before purchases can be made. So many veterans may already be ahead of you that you may not be able to make your purchase. But you may be sure that only veterans will have the opportunity to buy "set-aside" items.

HOW YOU CAN QUALIFY FOR YOUR PRIORITY If You Are Already Certified: Thousands of veterans of World War II have already been certified to purchase surplus items. If you are not certified, or if you wish to change your certification to items on the "set-aside" list: STEP 1. Take your honorable discharge from the armed services of World War II and apply at any of the offices listed below for a veteran's certificate for the item you desire. STEP 2. Wait for mail or local public notice that the item for which you are certified is available and may be purchased. You may be sure that you will be notified and that you do not need to call in person to check the availability of the items you wish. You will be told where and when to buy. STEP 3. Make sure that you follow up promptly the notice of availability when it reaches you by either mail or public notice. 3rd and 5th Sundays, 8:00.

Safety Slogans
The safe way to leave an auto-
mobile is to step out from that
side of the car which is at the
curb or near the edge of the road.
If a person leaves from the other
side, he may step in the path of
another automobile before the
driver can avoid him.
Most pedestrians are killed be-
tween intersections and between
the curb and center of the street,
the first 18 feet from the curb ap-
pear to be most dangerous.

Two Minute Sermon
(By Thomas Hastwell)
The Buried Talent: There is in
the town in which I live a woman
who at one time had a beautiful
voice. Without effort she could
fill the largest hall in the commu-
nity. Every word was distinct.
Her enunciation was perfect and
every note rang true. Not only
this she had that peculiar quality
in her voice that is a gift of God
and which seems to have been be-
stowed upon only a few. She sang
with a feeling and a sincerity
that thrilled and gripped every
listener within the sound of her
voice. Hers was no ordinary voice.
It was one in a million as they
say. It was a voice that could
have easily thrilled millions over-
er the radio as it did those in her
home community. When she sang
she sang to people, to their hearts,
and invariably awakened in them
an answering echo. Everyone
thought she had a lifetime of use-
ful, beautiful service before her.
But it did not work out that way.
She gave less and less of her tal-
ent to others. She gave up her
work in the church choir, the Sun-
day school and her clubs and in
public meetings. One day she
woke up to discover that her voice
was no longer of its golden qual-
ity. It had lost its golden qual-
ity. It no longer charmed and
thrilled others. Her priceless tal-
ent was lost. She had buried it
in indifference and selfishness,
and because she buried it, it was
taken from her.

Goethe completed what is
judged by some to be the great-
est single work of philosophical
literature, Faust, when he was
eighty-two.
According to the U. S. Bureau
of Census there were 333,969 In-
dians in the United States in 1940,
the last year for which figures are
available.
William E. Gladstone was man-
aging the affairs of an expanding
British Empire, as Prime Minister,
when he was eighty-three.

Under high-altitude flying con-
ditions, where the oxygen pres-
sure is reduced, persons of more
advanced years actually do bet-
ter than their young colleagues.
They are less liable to fainting and
collapse because their cardio-
vascular systems are more stable,
and they suffer less loss of mem-
ory.
The porcupine is a member of
the rodent family.
Fredericksburg, Texas, has the
longest name of any town in Tex-
as, 14 letters.

Weekly Sermon

By the Rev. Kenneth S. Wuest, Member of Faculty, Moody Bible Institute, Chicago.

Guilty or Saved, Which?
The Court of the Universe has
convened. God is the Judge, the
human race the accused. The
Judge reads the general charge
preferred against men, "who hold
the truth in unrighteousness"
(Rom. 1:18).
The truth all mankind has, is
that there is a God in heaven that
should be worshipped. This every
one can see in the created uni-
verse (Rom. 1:19, 20). Man re-
fuses to worship God and descends
to the grossest forms of sin
(Rom. 1:21-32).
Moral man says, Not guilty.
I am a moral man (Rom. 2:1-16).
The religious man says, Not guilty.
I am a religious man (Rom.
2:17-3:9). God the Judge re-
futes their plea and pronounces
the final verdict: "None righteous
... none that seeketh after God
... none that doeth good" (Rom.
3:10-12).
Then the human race stands,
hopelessly lost, head bowed in
utter dejection. It does not see
the Judge with his head bowed.
It does not hear the sobs that
come from his bosom. Suddenly
there is a rustle of garments. The
Judge is gone; he has left his
judgment bench.
It has been a dark day. The
land of Palestine has been clothed
in darkness from noon until
three in the afternoon. But now
the blackness is lifting, and the
sunset is glowing in the western
sky. It lights up the temple and
the smoke of the evening sacrifice.
It lights up something else;
three crosses on a hill. The vic-
tims on the two outside crosses
are still writhing in agony. But
the One on the central cross is
dead.
Who is that One on the central
cross? It is the Judge's Son. But
the human race does not under-
stand. Presently, there is a rustle
of garments again. The Judge is
back, now clad in shining white,
his brow scarred by the crown of
thorns he wore, his hands marked
by the nails of the cross. The
Judge explains his absence from
the courtroom, and his presence
on the cross. He says, "For God
so loved the world, that he gave
his only begotten Son, that who-
soever believeth in him should not
perish, but have everlasting life"
(John 3:16).
It was the Judge in the person
of his Son who stepped down from
his judgment bench to take upon

himself the guilt and the penalty
of human sin so that he might
satisfy his justice, maintain his
government, and offer mercy on
the basis of justice satisfied to a
hell-deserving sinner if he will
put his faith in the Lord Jesus as
Saviour.
How do you stand before God?
Guilty or saved?

HOUSEHOLD HINTS
Cleaning Windows.—To clean
windows use warm water and a
little borax. Wipe dry and polish
with crumpled newspaper.
Fill Furniture Cracks. Then
Varnish.—Ugly cracks in furni-
ture will disappear if they are
filled with beeswax, and then
varnished over.
Polishing Furniture.—If before
polishing furniture you wipe it
over with a cloth dipped in vine-
gar and water, the polishing will
be easier, and no finger marks
will show.

Marjorie Pechacek Wed to Warren Wilson of Vernon Saturday

The wedding of Miss Marjorie Pechacek and Warren Wilson of Vernon, was solemnized Saturday evening at 8 o'clock at the Catholic Rectory in Vernon, with Rev. Ed J. Shopka, pastor of the church, performing the ceremony.

Esther Reed daisies ornamented the living room table and the wedding background was formed of twin floor baskets of white stock and fern in a fan arrangement. This was flanked by tall cathedral candelabra holding eight candles which were lighted by Leon Pechacek, brother of the bride.

The couple was unattended. The bride wore a becoming blue and white print and a large, open-crowned picture hat of white straw. Her corsage was of white iris. For something borrowed, she wore a string of pearls belonging to a friend.

The bride's parents, her two sisters, Misses Dorothy and Irene Pechacek, and her brother, Leon Pechacek, of Crowell, attended the wedding.

Mrs. Wilson is the daughter of Mr. and Mrs. R. L. Pechacek and was born and reared in Crowell. After graduating from Crowell High School she attended a business college and for several years, has been employed at the Herring National Bank in Vernon.

Mr. Wilson is the son of Mr. and Mrs. Duard D. Wilson of Vernon and graduated from the Vernon High School. He later attended Paris Junior College and Baylor University at Waco. During the war he served in the Navy as Signalman 3-C.

Mr. and Mrs. Wilson will make their home in Vernon following a short wedding trip.

Johnie R. Gray Weds Miss Louise Lee in Amarillo

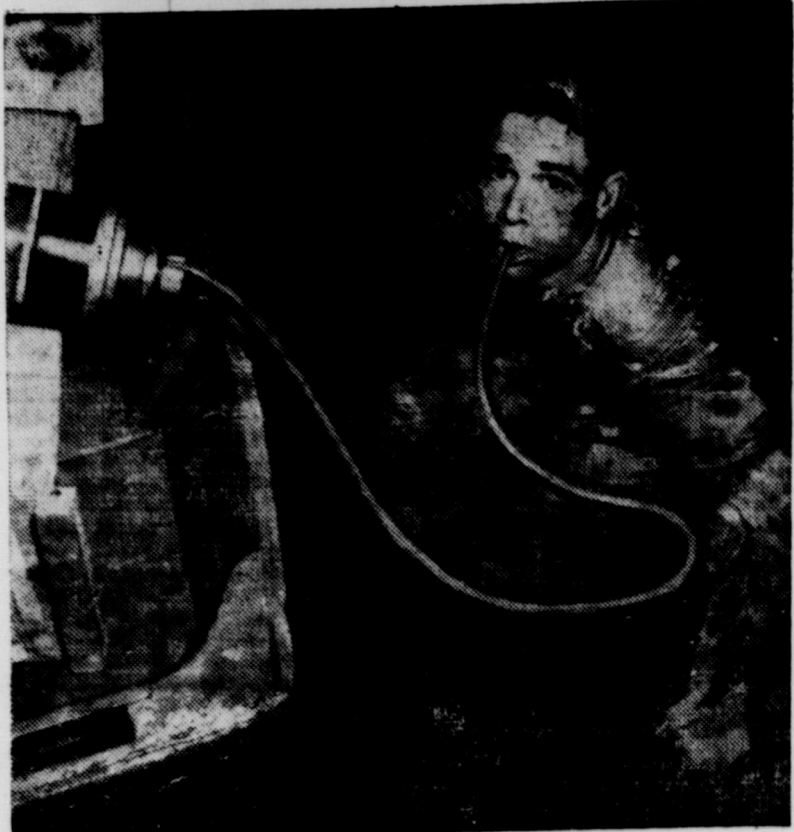

Miss Louise Lee, daughter of Mr. and Mrs. Guy Lee of Amarillo, became the bride of Johnie R. Gray, son of Mr. and Mrs. M. C. Gray of Crowell, in a ceremony performed at the First Baptist Church in Amarillo on Saturday, May 4, at 8 o'clock in the evening. The pastor of the church officiated with the double ring ceremony.

The couple was attended by Mr. and Mrs. Tracy Ford of Amarillo.

The bride was attired in a gray dress with which she wore red accessories. She is a graduate of Amarillo High School. She has been drum major in the Axtel Band of Amarillo. She was employed, at the time of her marriage, as bookkeeper at the Western Union Stock Yards in Amarillo.

Mr. Gray was educated in the Crowell school, having graduated from Crowell High School in 1941. He entered the service in July, 1942. He served 25 months overseas, in Africa, China, India and Burma. He was Staff Sergeant in the 85th Ordnance, Heavy Mountain Automotive Company. He received his discharge on Dec. 13, 1945. He has two battle stars, five ribbons and one medal for meritorious action. He is now employed as foreman of the Panhandle Stock Yards in Amarillo.

Mr. and Mrs. Gray are making their home in Amarillo.

FAST FEEDING . . . Jimmy Slyter, 19, receives food through tube from thermos bottle during his Los Angeles-Catalina island swim try. The navy veteran was forced to abandon his attempt after two hours and 49 minutes of paddling, approximately five miles short of the 22 mile route. He was pulled aboard exhausted. Judges believe that he struck his head on boat which caused collapse.

Luncheon Honoring Old-Time Friends Given by Mrs. Roberts

Mrs. N. J. Roberts entertained with a luncheon at her home Tuesday, bringing together as guests a group of friends of long acquaintance, a number of them having been in school together at the beginning of the century. These ladies have lived in Foard County continuously, but, strangely enough, some of them had to be introduced. Time does this. Old pictures, school recollections, home interests and children provided an afternoon of conversation and chatter. Mrs. Roberts displayed a picture of a group of twelve young ladies taken in April, 1900, and, until April, 1945, not one of the group had been taken by death. Six of them were present at this luncheon.

In the school days of early 1900, the honor roll was made up of an honor student of each grade and, as a reward for their scholarship, at the close of school, the group was taken to Quanah to have a picture made, going by wagon, of course. A number of these pictures were exhibited and Mrs. E. T. Evans, Eva Magee, of Vivian, was the envy of the group, having been to Quanah twice.

The ladies enjoying the pleasant get-together were Mesdames Lucy Gallup Fish and Eva Magee Evans of Vivian, Isa Thompson Banister of Thalia, Inez Allison Self, Effie Gordon Bell, Carrie Allee Hart, Josie Gates Long, Arrie Thomson Clark, Lena Raser Davis, Edna Nelson Bell and Miss Nora Banister and the hostess.

Miss Kubicek Weds John Rekieta at Vernon, May 13

Miss Georgie Ann Kubicek, daughter of Mr. and Mrs. Emil Kubicek, of Thalia, became the bride of John Rekieta of Vernon in a ceremony performed Monday morning, May 13, at 9 o'clock in the Holy Family Catholic Church in Vernon. A host of relatives and friends were present for the wedding.

Rev. Edward Shopka, pastor of the Holy Family Catholic Church, read the vows for the double ring ceremony. The couple knelt at the altar which was beautifully decorated with spring flowers.

The traditional wedding music was played by L. A. Cummins and vocal selections by members of the choir were rendered. Miss Elizabeth Rekieta, sister of the groom, was maid of honor and Joe Kubicek, brother of the bride, acted as best man.

Little James Bujnosok, son of Mr. and Mrs. Joe Bujnosok of Chillicothe, was the ring bearer and little Miss Gladys Henricke was flower girl and carried a pretty basket of flower petals.

The bride was gowned in a dress of white net marquisette, fitted bodice and full skirt. Her long veil was attached to a crown of seed pearls and she carried a bouquet of daisies.

A reception dinner was held immediately following the wedding at the home of the bride's parents where about 100 guests registered.

Mrs. Rekieta attended school at Five-in-One. She was reared in Monilton, Texas, but has resided at Thalia and Vernon for the past several years. The groom is the son of Mr. and Mrs. John Rekieta of Vernon. He attended school at Paducah. He was in the service for four years and overseas for a good part of the time, in the Hawaiian and Philippine Islands. He was discharged in December of 1945.

Mr. and Mrs. Rekieta will make their home on his farm near Paducah.

Mrs. Van Browning is Complimented with Luncheon and Party

Mrs. Van Browning, who has resided in Crowell for the past two years, was complimented last week with two parties, before she left for her home in Truscott.

Mrs. M. O'Connell was hostess at a delightful luncheon with Mrs. Browning as honor guest on Monday, May 13, at her home. Guests were Mrs. Browning, Mrs. T. N. Bell, Mrs. W. L. Thurston and Mrs. A. Y. Beverly.

Mrs. A. Y. Beverly entertained Tuesday evening, May 14, at her home with a 42 party to honor Mr. and Mrs. Browning. The house was decorated with spring flowers.

At the close of the games, the honor guests were presented with a beautiful silver serving tray by the host and hostess. A pretty and delicious salad course was served to Mr. and Mrs. Browning, Mr. and Mrs. M. O'Connell, Mr. and Mrs. Earl Manard, Mr. and Mrs. S. S. Bell, Mrs. T. S. Patton and Miss Ella Patton.

GILLILAND H. D. CLUB

The Gilliland Home Demonstration Club met in the home of Mrs. W. G. Hollis on Wednesday, May 15. A sing-song was enjoyed by fifteen members and one visitor, Mrs. J. W. English.

Mrs. George Solomon gave the Council report. An interesting book on "The Egg and I" was given by Mrs. Dudley Ellis.

The achievement report of the club was brought up to date. The next meeting will be in the home of Mrs. John Jamison on Wednesday, June 5, at 2:30 o'clock. Refreshments were served by the hostess.

ADELPHIAN CLUB

Mrs. C. G. Graves was hostess to the Adelpian Club on May 15, with the Junior Club members as guest artists. Mrs. George Self was program leader.

Mrs. Crockett Fox sang, "Smile Through." She was accompanied by Mrs. D. D. Denison.

Mrs. Self, with other members of the Junior Club, reviewed "First Ladies" by Kathleen Prindiville. Sometimes people forget how important the role played by the wife of a president of the United States. She is often a most helpful and important influence in the career of her husband. Short graphic biographies of some of these famous women were given.

Costumes of the White House were given by Miss Frances Hill. She displayed pictures of the costumes. Mrs. R. R. Jones reviewed the life of Martha Custis Washington (1732-1802). For eight years Martha Washington stood at her post as first lady, silently carrying the burden of her public duty, always longing for the plantation home on the Potomac. At the close of Washington's public life, she said "I am again fairly settled down to the pleasant duties of an old-fashioned Virginia housewife, steady as a clock, busy as a bee and cheerful as a cricket."

Abigail Smith Adams' life (1744-1818) was reviewed by Mrs. W. Johnson. Mrs. Adams was the only woman to be wife and the mother of a president. Rondon Self gave the life of Dorothea Todd Madison (1772-1840). To her no effort was too great to make everyone feel at ease and she won many friends by her thoughtfulness and generosity. For Dolly Madison found her happiness in making others happy.

Rachel Roberts Jackson (1767-1828), First Lady of the Frontier, was presented by Mrs. J. C. Prosser. Mrs. Jackson was known throughout Tennessee for her hospitality at the Hermitage. Mrs. Thomas Johnson gave the life of

Mary Todd Lincoln (1828-1882). All her life she had loved display. As the daughter of a Lexington banker, she had been fashionably dressed but then had come the drawn years as the wife of Abraham Lincoln whose disregard of money had often enraged her. Now that she had the most prominent social position in the nation, she tried to make up for all that she had been denied. She plunged into heedless frenzy of buying dresses, cloaks, shawls, bonnets and jewelry.

Helen Herron Taft was given by Mrs. Clyde Eddy. She was First Lady of the Philippines, she set the precedent of riding with the president of the White House after the inaugural address. She was also the first lady to ride about Washington in an automobile and arranged for the building of a bandstand and for concerts each Wednesday and Saturday and was responsible for the first concert by the Marine Band.

At her suggestion, the White House gardeners set out cherry trees in Potomac Park. Tokyo became interested in an annual cherry festival and sent 3,000 trees to be planted in the city.

Mrs. Bert Ekern reviewed the lives of Ellen Axson Wilson and Edith Galt Wilson. Ellen Wilson gave the proceeds from sale of landscapes which she entered in the New York Art Show to an industrial school in Rome, Ga. She made a rose garden at the White House. The tenement bill was passed, due to her great work to improve tenement conditions. Edith Galt Wilson was nurse, companion and executive secretary to her husband.

Mrs. Graves served a delicious refreshment plate to members, Junior members and guests, Mrs. Lewis Purvis and Mrs. Dick Todd. The last meeting of the year will be held on May 29, with Mrs. Doyle Kenner and Mrs. Carrie Hart as hostesses.

Penguins can catch and swallow fish under water.

Sawdust Circus Seen in "Whistle Stop"

Two nationally-known stars bring the tang of and popcorn to a carnival in Seymour Nebenzal's new film drama, "Whistle Stop," starring George Raft and featuring glamorous Ava Gardner in her most important role. Frank Mills, star of the Patterson Circus Company, freak-show barker and Boston, who has hawked wild and crowded fair alleyways along the tanbark with his violent story of love, is coming to the Rialto Tuesday and Thursday, May 21 and through United Artists.

Bulls are no more red than they are to color.

OVER 100 MILLION SOLD! SIMPLY GREAT MONTHLY PAIN RELIEVER

Lydia E. Pinkham's Vegetable Compound does more than monthly pain when due. It's also a great stomachic, also relieves accompanying tired, nervous, grumpy, such nature. Taken regularly, it offers resistance against such ailments. It's also a great stomachic.

REDDY KILOWATT
Your Electric Servant
TRADE MARK REG. U.S. PAT. OFF.

I'm Reddy Kilowatt, your electric servant. I live in all electric outlets. (I'm going to call them "Reddy Boxes" from now on—because you'll always find me in the nearest box. Reddy to serve you electrically.)

So I suggest, Mr. and Mrs. Homebuilder, that you put plenty of "Reddy Boxes" in that new home you're planning to build—or in that house you're planning to remodel. Then I can be at your elbow (your nearest Reddy Box), Reddy for work or play whenever you want me.

Before going too far with plans, talk to your electrical contractor about adequate wiring for plenty of "Reddy Boxes."
