Principal of Crowell Grammar School Presents State Teachers' Convention in Ft. Worth, November 24, 25 and 26

(From Crowell Wildcat)
Cora Carter, principal of Crowell Grammar School, attended the State Teachers' Convention held at Fort Worth, Nov. 24, 25 and 26.
Carter says, "The welcome was surely out in Fort Worth. The Texas teachers are a group of inspired and helpful individuals. The theme of the convention is Individual Responsibility—American Democracy."
R. W. White, president of the University, preached the opening day sermon. He urged teachers to be thankful for the United States, a place where freedom is still a reality; where truth is still being sought; where the press and radio are free; where the task is not to release the spirit of God from heaven, but to catch and release the spirit of God on earth.
Allan Shivers, Governor of Texas, stressed education as a responsibility not only of the state but of every citizen of the state.
Andrew D. Holt, president of the National Education Association, recently returned from a months' stay in Europe where he visited the schools of the several countries. He remarked that he never seen such absolute obscurity of security; that it was impossible to teach the children in Europe the American democracy because of this security. He wondered if the people of this country were not thinking much along the line of security.
A. S. Artley of the University of Missouri believes the best way of having children stand in front of the class and take

turns reading helps neither the good reader nor the poor reader. The result of this has been that from 25 to 40 per cent of primary grade children never learned to read acceptably.
"Dr. Henry Hill, president of George Peabody College for Teachers, declared that the real aim of education is to train for democracy; and that individual responsibility is the heart of American democracy. He asked each teacher to reminisce for a while to see if each pupil in his or her classroom was given a fair chance to participate in a real democracy."
"Dr. L. D. Haskew of the University of Texas believes the challenge today is to release potentialities in children. He believes there are many geniuses from all walks of life and of all colors of skin that we are not reaching, not discovering, not doing anything for. Dr. Haskew made an earnest plea for better schools.
"All the educators stressed the fact that proper equipment in the schools is not only desirable but necessary. A globe in the teacher's room is better than one in the principal's office. A music teacher with a piano, a radio and a record player, has a greater chance of success than one who has none. Art teachers need paints, crayons, brushes, carving tools, clay and paper. Every school should have an excellent library, a motion picture projector, wire recorder, and other audio-visual equipment.
"Although Crowell Schools are plagued by financial limitations as are many other systems, we are proud of our wire recorder, movie projector, record player, and other helpful equipment. We have tried to purchase as much as possible as wisely as possible."

Vernon High School Mixed Chorus to Present Musical Program at High School Auditorium in Crowell on December 15th

The Vernon High School Mixed Chorus, which has been called Texas' finest choral group by music critics, will be presented in a special Christmas program at the Crowell High School auditorium on Thursday, Dec. 15. The group will be sponsored here by the Foard County Chamber of Commerce, and proceeds will go to the Crowell High School Band.
Although the chorus is only three years old, it has grown annually and this year it is composed of 94 young voices. Mrs. Ruth Parson is the director of the group.
In the District Ten Interscholastic League meet last spring, the

chorus won double first honors with a first place rating in sight reading and first place in contest work. This was the only double first rating in the entire contest in which schools from Sherman, Denison, Gainesville, Wichita Falls and Fort Worth participated.
Mrs. Parson, the director, is beginning her fifth year as music teacher in the Vernon High School. Previous to the beginning of the mixed chorus, only a girls' chorus was in existence. The present mixed group has presented some of the more difficult musical compositions. They are recognized as leaders in the interpretations of the Fred Waring arrangements.
The program which will be presented here will consist of Christmas music, popular favorites and novelty numbers. The group boasts a number of soloists who have attained recognition in spite of their young ages.
Tickets for the December 15 presentation will go on sale in Crowell and surrounding areas in several days.

A law is valuable not because it is law, but because there is right in it. — Henry Ward Beecher.

Curbs and Gutter Project Underway for Crowell Streets

The project for the placing of curbs and gutters on streets in the residential district of Crowell has been greatly delayed due to the busy fall season, but plans are going ahead on this project since a number of property owners have expressed the desire to have this work done, according to an announcement made Wednesday by Ray Shirley, chairman of the paving committee.
The curbs and gutters must be laid before the actual street paving can be started. After that part of the work is finished, the undercoat for the pavement will be laid. The hot top for the streets cannot be spread until the arrival of warm weather. Mr. Shirley said.
If the work is started within the next several weeks, the project can move ahead without a great deal of delay, it was pointed out. Mr. Shirley stated that it is unfortunate that the "go" signal cannot be given until more property owners express a wish for the paving.
Those owners who wish information on the paving plans and estimates of the cost may contact the Chamber of Commerce office.

Foard City Cemetery Needs Attention

It has been brought to our attention by some who have been working at the Foard City cemetery that much work needs to be done immediately. Markers have been broken down at many of the graves and there is no identification of any kind and lines between lots are not known and these needs must be corrected before much can be done at having the cemetery in good condition.
Those who have worked there recently ask that the graves be marked in some way and that the cooperation of everybody who has loved ones buried there is needed.

NEW CURE FOR ALCOHOLISM

Norwegian scientists have located a cure for alcoholism. The new product, Antabuse, was discovered by accident. Dr. Eric Jacobson, a Dane, while searching for a drug to kill intestinal worms took a dose of the drug as an experiment on himself. A few hours later he dined with friends and during the course of the dinner drank a glass of wine. He became ill. He made further experiments and asked a number of his friends to join him in the experiment. The result was such that Scandinavian Alcoholics Anonymous clubs adopted the drug. It is proving very effective in reclaiming men who have fallen into the drink habit.

You believe that easily which you hope for earnestly. — Terence.

Better Health for Texans Week December 4 to 11

Austin, Texas.—Governor Allan Shivers, by official proclamation, has designated the week between December 4-11 as Better Health for Texans Week, emphasizing venereal diseases.

The purpose of the week-long drive, according to State Health Officer Geo. W. Cox, is to "acquaint all segments of the population with true facts concerning this most serious group of illnesses thus providing a weapon of knowledge which all persons can use in their own protection."

Cox indicated that the health department informational campaign would be a year to year project from now on, with a different phase of public health being the subject each year.

Highlights of this year's drive will be a state-wide radio address by Governor Shivers, and a short motion picture trailer featuring the Governor and the State Health Officer. Informational packets have been prepared for distribution throughout the State by city and county health units.

The official proclamation reads: "One of the most important factors that will influence the future of Texas is a healthy citizenship. Public health has many phases, all contributing to the welfare of mankind."

"One of these is the campaign to eliminate the venereal diseases. Methods of diagnosis and treatment are at hand to prevent the unnecessary suffering caused by these diseases. All that remains now is to induce our citizenship to take advantage of the present day knowledge."

"In recognition of these facts and the vital importance of health in our everyday lives, I, as Governor of the State of Texas, designate the week of December 4-11 as Better Health For Texans Week."
Principle appeal of the campaign is directed to leaders of individual communities. Dr. Cox believes that the "final solution to the venereal disease problem will be forthcoming only when it is tackled on a community basis."

OUR CAMPUS CAFETERIA

"Hey, what they got at the cafeteria today?"
 "Beans and spinach."
 "Think I'll go somewhere else to eat."
 These are typical comments made during the lunch hour. But does everyone have exactly what they want at every meal they eat at home? In the cafeteria the meals which are served are wholesome and well balanced. Perhaps they are not seasoned to every taste, but it would be a big job to season food to suit the average of three hundred students who are served daily. How would you like to try it?

The price of a meal at the cafeteria would soon break the bank balance of any individual cafe owner who tried to duplicate these meals and serve them at the cafeteria price of 25c per person. This low price is made possible by government shipments of butter, apples, peanut butter, potatoes, cheese and other commodities. Last week the cafeteria received 128 pounds of butter. Have you noticed

the nice fat squares, of butter on each plate?
 Every government shipment helps lower the cost of preparing the meals. The cafeteria is not in operation for the school's profit, but at least not money profit, but we do find it very convenient and inexpensive to walk across the campus to the cafeteria instead of bringing our lunches at students once did.
 Here is a typical week's menu at the Crowell School Cafeteria:
 Monday: light bread, meat loaf, black eyed peas, peanut butter, crackers, Spanish hominy, fresh apples, choice of milk or orange juice.
 Tuesday: corn meal muffins, pinto beans, carrot strips, deviled eggs, cheese and crackers, peaches and cookies, orange juice or milk.
 Wednesday: light bread, weiners, kraut, macaroni and tomatoes, English pea salad, orange cake, orange juice or milk.
 Thursday: light bread, creole spaghetti, whole potatoes, green beans, lettuce, blackberry cobbler, orange juice or milk.
 Friday: hamburgers, potato chips, candy, orange juice or milk.
 All in all, the school is not making any money in its operation of the cafeteria. These meals would cost at least fifty cents in a downtown cafe. The cafeteria is operated solely for the benefit of the students, not for the benefit of anyone else. Think about it, and give the cafeteria your patronage. It deserves it.

STUDENTS PREPARE FOR SPEECH MEET

The Speech Class is on the road again. Twelve members of the Speech I and II classes will hit the highway for Canyon this Saturday. They will leave Crowell in private cars at 5:30 Saturday morning and are supposed to be at Canyon by 8:30.
 The students are going to Canyon to attend a Speech Meet which is sponsored annually by the Speech Department of West Texas State College.
 The students are Marcia Kincaid and Wanza Spears, original oratory; Donald Reynolds and Montez Laquey, oratorical declamation; Jean Hughston and Joline Lanier, poetry reading; V. A. Smith and Myrtle Bartley, humorous reading; Maurine Youree and Rosemary Moss, dramatic reading; Clara Jones, "My Home Town" radio sketch; and Anna Jo Lankford, a radio character sketch.
 Miss Turney will accompany the students.

BUS DRIVER

Pop rode five miles to school on his pinto pony and is still talking about it twenty-five years later. But what would he think of traveling 64 miles a day, 320 miles a week, and 11,520 miles a year just to get to school? Of course, these trips are made in a bus but miles are miles.
 The drive is made in a new yellow panel wagon type school bus

with students from the first grade to upper classmen in high school. Part of the route is on a smooth highway but more than half of it is over a spine jarring crushed rock road. You might think that the driver would have to be a big, burly person to keep quiet and peace and the long trip but she isn't. That's right, it is a she, Martha Ohr, a seventeen-year-old junior who is the daughter of Clifford Ohr Sr., Chief engineer at the Humble Station. She has operator's, commercial, and chauffeur's licenses and is the youngest bus driver at CHS.
 F. Martha, a typical teenager, says that she can manage the youngsters all right, but she wouldn't like to make bus driving her permanent occupation. Martha brings in the children from the Humble Pump Station and the JY Ranch district. Her charges are Jimmie Lewis, Woodrow Lewis, Jerry Strickland, Hershall Barnes Jr., Mary Lou Woods and Jimmy Woods.
 Martha plans to attend TSCW at Denton after her graduation from CHS next year. She is undecided about a career, but may become a homemaking teacher.

RUNNING PROJECTION MACHINE NOW

The Homemaking III girls, Wanza Spears and Virginia McKown, are learning to run the projection machine. Although they forgot to take it out of reverse and to turn on the lamps and various other mishaps, they are getting along fine. Billy Caddell and V. A. Smith are also learning. This will relieve Wayne Shultz and Jimmy Franklin from this job. However, they just loved to get out of class.

NEW NAME CHOSEN FOR ANNUAL

At last a title for our 1949-50 annual has been chosen. From all the entries submitted for the contest, it was finally narrowed down to "The Corral," "The Round-Up," or the "Buckaroo." By a large majority, the students chose "The Round-Up," an entry by Charles Wishon. The lucky boy will receive as his prize a brand new edition of the CHS 1949-50 annual, "The Round-Up."

SENIOR GIRL OF THE WEEK

What's In a Lady's Locker?
 During one of our weekly snoops for news we accidentally (?) opened Locker 17, and what should we find but a diary. We saw it as soon as we opened the locker, af-

ter first removing a bookkeeping practice set, a typing manual, an empty Kleenex box, a TSCW bulletin, two notebooks, a library book, a sketch of a cowboy, and two very interesting letters which were tucked in a pocket of one of the notebooks.
 By use of our best Sherlock Holmes methods, we gleaned this information about the user of the locker. She is a seventeen-year-old senior girl who was born on June 20, 1932, at Weimert, Texas. At the age of four, her family moved to the Halsell Ranch on the North Wichita. She has lived on every camp on that ranch but one.
 She seems to like hill billy and western music, blue, horseback riding, angel food cake and reading. The library book was her favorite, "The Golden Centipede." She seems to be undecided upon her career but after graduating at mid-term, she plans to work awhile, and then she will attend TSCW next September.
 Her name? Well, those very interesting letters were from a good-looking cowboy, name of Eddie Browder, who calls her Jo. Her full name is Betty Jo Smith, the girl with the black hair and blue eyes who is said to have attempted murder on a certain reporter for snooping too much one bright Monday morning.

SENIOR BOY OF THE WEEK
 Ewing Wilson Kidd might be called the manager of CHS. Better known to his classmates as E. W. or "Dubber," he has served as manager of the football team for three years, basketball manager for three years, manager of the track team for one year and he is also a good manager at getting out of class!
 E. W. considers football his favorite sport; his favorite pastime, eating pineapple upside down cake for sleeping; his favorite movie stars, glamorous Jane Russell and menacing Burt Lancaster.
 Upon graduation from CHS, E.

W. plans to attend Texas University. We don't know what his major there will be, but his ambition is to be a professional rodeo clown with Jon Sanders as his manager.
SOMETHING NEW ADDED
 The lucky band students now have a building all their very own. Work was begun a week in preparation for the building that is being moved in from Four Corners. There is much to be done, such as repairing heating system and painting, but with hard work, the building should be ready by Christmas.
 The new building is to be directly north of the tennis courts facing west. When completed, there will be a large practice room with a small room for storing instruments.
 A second something new is to be a home for Allan Taylor, who

New 1950 Pontiac Put on Display Last Saturday

James Weiss of the Weiss Farm Equipment, Pontiac dealer in Crowell, was in Oklahoma City Monday and Tuesday of last week attending a preview of the 1950 models.

When the 1950 Pontiac line went on display last Saturday, Harry J. Klingler, general manager of the Pontiac Motor Division, announced price reduction on Hydra-Matic transmissions and on station wagons.

The Hydra-Matic transmission, optional equipment on all Pontiac models, has been reduced \$25 and will now sell at \$158.50.

A price reduction of \$250 has been made on Pontiac's new all-steel station wagon, both standard and deluxe models, Mr. Klingler said.

"The Hydra-Matic transmission has proven its popularity with Pontiac owners and as optional equipment is ordered by a majority of Pontiac buyers," Mr. Klingler said. "We believe this price reduction will increase demand and make this driving pleasure available to an even greater number of future buyers."

"The Pontiac all-steel station wagon eliminates the disadvantages of the wood type. It combines the traditional swank appeal of the station wagon with the safety, comfort, and quietness of a sedan. We believe this new Pontiac model will find wide acceptance and the new low price will bring its merits within the buying range of more people."

Other Pontiac prices remain unchanged. Real glory springs from the silent conquest of ourselves; without that the conqueror is only the first slave.—James Thomson.

IN THE NEWS
 30 YEARS AGO

News items below were taken from the issue of the Foard County News of Friday, Dec. 5, 1919:

Farmers, hold your cotton! Judge W. F. Ransey of the Federal Reserve Board says: "I am only surprised that the steel strike, the coal strike, the rise in call money rates, the drop in foreign shipping by the coal supply being cut off, and other factors have not caused a greater drop in cotton price."

The parcel post has become something enormous, especially since the Government has been distributing its army supplies. The postoffice looks like a warehouse and the rural carriers with "jitneys" look like freighters when they start out.

Dr. S. H. Landrum of Altus, Okla., was killed last Friday when a car turned over. He was the father of Lynn W. Landrum of the Vernon Record. (Lynn Landrum is now an editorial writer on the Dallas Morning News.)

HISTORY

Birthdays of Martin van Buren, December 5—Martin van Buren, eighth President of the United States, was born in Kinderhook, New York, on December 5, 1782. His father, a farmer, was descended from Dutch emigrants from Buren, Holland. It is from the town of Buren that the family got its name. Following his schooling he studied law and was admitted to the bar in 1803. Four years later he moved to Hudson, New York, where he opened a law office. He held successively the offices of County surrogate, State Senator, Attorney General, was elected to the United States Senate in 1821 and was reelected in 1827. He was elected Governor of New York in 1828 and resigned from the Senate. In 1829 he was chosen by President Jackson as Secretary of State. In June of 1831 President Jackson sent him to England as American minister, but he did not receive the confirmation of the Senate. He received the nomination for Vice President in 1832 on the ticket with President Jackson and was elected. He was elected President in 1836 defeating the Whig candidate, William Henry Harrison. During his first term there was a general panic that brought ruin to many and threw thousands out of employment. He called Congress into special session in an effort to meet the emergency. He was renominated in 1840 by the Democrats, but the country held him responsible for the depression and defeated him. He was defeated by General Harrison whom he had defeated four years earlier. Upon his retirement from public life he

materials are stopped for even a short time, the whole economic machine slows, business dwindles, and unemployment soars. The point is that a handful of labor leaders, with vast powers, can decide whether or not American enterprise shall be allowed to produce.

There are honest differences as to the merit and justice of labor's demands on the coal, steel and other industries. But it should be evident to anyone, no matter where his sympathies lie, that the big labor leaders are establishing an iron-clad monopoly, and are bent on dealing with management on a "Do what I say or else" basis. This is particularly apparent in coal, where Mr. Lewis regards himself as prosecutor, judge and jury in any dispute—and where he demands powers that are clearly within the province of management. If there ever was a trust in any reasonable meaning of the term, the miners' union is it.

Any element which callously disregards the public welfare is heading for trouble. The rank and file of labor should realize that fact, even if some of their labor leaders refuse to. — Industrial News Review.

Heading for Trouble

Near the end of October, the President told a press conference that the country was a long way off from the sort of national emergency justifying the use of the Taft-Hartley law to halt strikes which had disrupted the coal and steel industries. Ironically, just after that, the huge Government Central Heating Service, which supplies heat to a large number of government offices in Washington, reported that it had a 30-day supply of coal on hand.

Opinion varies as to what constitutes a national emergency. But when the nation's supply of basic

Serenade from a member of the backfield to his girl: Will you love me and remember, in the sprightly month of May as you did, dear, in December, when I made that touchdown play? Or will you forget that story and your fickle fancy swing to the dope who wins the glory at baseball games in the spring?

Ann Haynie went to visit some friends in the city, and she took a taxi to their home. There were threatening clouds overhead, and the driver repeatedly signaled his turns, as the taxi weaved its way through the traffic.

If You Are 85, 45 or 3, Hadacol Helps All Ages

HADACOL is good for all ages, bringing five of nature's B vitamins and important minerals to the young and old alike. Recently the HADACOL folks received the good news that among the countless thousands who had been benefited by HADACOL were a lady of 85, a man of 45 who felt like he was 18, and a beautiful little girl only three years old.

Mrs. Edmond Doucet, of Church Point, La., is 85 years old, having thousands of friends in the picturesque Evangeline section of Louisiana where she was born and has spent all of her life. These friends are happy to know that Mrs. Doucet feels better now than at any time in two years and gives the credit to HADACOL.

"I had been sick for almost two years and was suffering with gastric disturbances and bloating. I was run down, had lost weight and had to stay in bed most of the time. I lost courage and felt that there was no hope for me."

Mrs. Doucet had tried many preparations without apparent beneficial results when she heard the glorious news about HADACOL.

"After taking several bottles of HADACOL I felt like a new person," said Mrs. Doucet. "I eat anything I want without ill effects and sleep well. I feel much stronger."

Neville Dugas, of Route 1, Box 101 B, Carencro, La., is a successful farmer who had worked early and late at all kinds of hard work and it wasn't so long ago that he wondered if he would ever be able to work that way again. He had tried many medicines, but felt no better.

"I had all kinds of stomach disturbances," said Mr. Dugas. "My stomach was so bloated that it felt like it would swell up and burst. I suffered with gastric disturbances, heartburn and was run down and nervous. I had no appetite and suffered with headaches and I couldn't sleep at night. I was so drawn and pale that my friends had difficulty in recognizing me. After the third bottle of

HADACOL I felt a real improvement and after the twelfth bottle of HADACOL I felt like I was 18 instead of 45. I am feeling perfectly well.

"My three year old daughter, Joan, had lost her appetite," said Mr. Dugas. "Her cheeks were pale and she cried often. I started giving Joan HADACOL and after three of the large economy size bottles she is now healthy, has an excellent appetite and her disposition is perfect."

All three of these people were suffering from a lack of B vitamins and the minerals which HADACOL contains. HADACOL comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away. It is easy to understand, therefore, why countless thousands have been benefited by this amazing tonic, HADACOL.

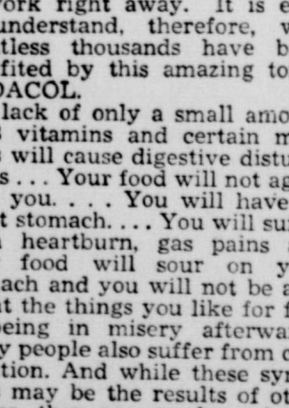

A lack of only a small amount of B vitamins and certain minerals will cause digestive disturbances. Your food will not agree with you. You will suffer from heartburn, gas pains and your food will sour on your stomach and you will not be able to eat the things you like for fear of being in misery afterwards. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are surely and certainly the symptoms and signs of lack of B vitamins and minerals which HADACOL contains. And if you suffer from such a deficiency disorder, there is no known cure except the administration of the vitamins and minerals which your system lacks.

It is easy to understand, therefore, why countless thousands have been benefited by this amazing tonic, HADACOL.

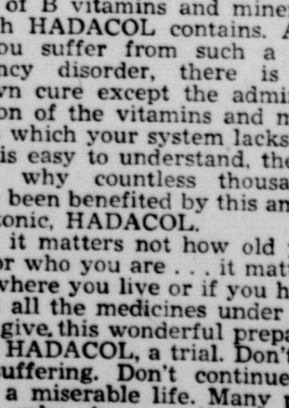

So it matters not how old you are or who you are... it matters not where you live or if you have tried all the medicines under the sun, give this wonderful preparation, HADACOL, a trial. Don't go on suffering. Don't continue to lead a miserable life. Many persons who have suffered and waited for 10 to 20 years or even longer are able now to live happy, comfortable lives because HADACOL supplied the vitamins and minerals which their systems needed. Be fair to yourself. Temporary relief is not enough for you. Give HADACOL a trial—Adv
