Mr. and Mrs. C. P. Sandifer to Observe Wedding Anniversary Friday

Everyone in Plano said the kids ran away from home to get married early that Sunday morning. "I wouldn't make a go of it," time has certainly proven wrong as Mr. and Mrs. C. P. Sandifer prepare to observe their wedding anniversary Friday, February 7, at their home in Crowell.

The young couple, both residents of Plano at the time, ran away from home, went up to Denver and from there went north on a ferryboat, and were married on the north shore of the river at sunset on February 7, 1886. They were wed in Indian Territory, the State of Oklahoma had not been organized at that time.

Mr. and Mrs. Sandifer arrived in Crowell on their first day in the new town. Mr. Sandifer is now Foard County Commissioner.

They have been members of the Methodist Church since its beginning and for many years were teachers in the Sunday School. They continued their church activities as long as their health would permit and down the years have contributed liberally to the support of the church.

Mr. and Mrs. Sandifer are in fairly good health, for people of their age. Mr. Sandifer was 93 on his last birthday, Sept. 7, 1957. His greatest handicap probably is his failing eyesight.

George W. Naron Observes 83rd Birthday Jan. 26

Living in the same county for more than half a century, George W. Naron, Hardeman county pioneer, says "... and a heap of living it's been too" recalled for his family many early day experiences when they gathered in Quannah Sunday of last week to observe his 83rd birthday.

Five generations were present to mark the important occasion for Mr. Naron, who came to this country shortly after the turn of the century from Brown county, Ala., and still maintaining a zest for life, Mr. Naron enjoys keeping up with current events.

Seven of Mr. Naron's twelve children were present Sunday to help him celebrate his birthday. Joining the group were many grandchildren and great grandchildren.

Present Sunday were the seven children: Jim Naron, Quannah; Guy Naron, Crowell; Mrs. G. F. Sugars, Vernon; O. J. Naron, Roswell; N. M. Naron, Nell Bullock, Graham; George W. Naron Jr., of Wichita Falls, and Mrs. Clint Simmons of Crowell, all with their families.

Grandchildren present were William Simmons and family of Crowell, Miss Pauline Naron of Wichita Falls, Mrs. Billie Cottrell and Donna, Perryton; Mr. and Mrs. Duane Naron and son, Mrs. Reba Vaughn and daughters, all of Roswell; Mrs. Jack Lovett and family, Perryton; Mr. and Mrs. Dale Davis and son, Fort Worth; Mr. and Mrs. Bill Naron and family, Mr. and Mrs. Jimmie Naron, Mr. and Mrs. Herman Pierce, all of Quannah.

One sister, Mrs. Mollie Schulze and her daughter, Mrs. Joe Griffin, were also in attendance at the birthday party.

Out of his 37 grandchildren, 16 were present and 17 of his 44 great grandchildren attended.

Children unable to come home for the event were Donald Naron, El Paso; Daniel, Jack and Fred Naron and Mrs. June Sharpe, all of California.

Boys Basketball Team Wins One and Loses One

The Crowell High School boys' basketball team broke even in games the past week, and the Crowell Girls' team won both of its contests. The boys lost to Chillicothe 45 to 37 over there last Friday night and won over the Iowa Park Hawks 73 to 44 here on Tuesday night. The girls defeated Chillicothe 46 to 20 and Iowa Park 71 to 42.

The Crowell boys were losing the ball too many times in the Chillicothe game without getting a crack at the basket. Jerry Bob Sellers played about one-half of the game before fouling out. Thomas Worley led the way for the winners with 15 points. The game here with the Iowa Park Hawks found every member of the Crowell team breaking into the scoring column. Sellers and Gary Carpenter led the way.

The Crowell girls had very little trouble in winning over their weak opponents. The victory at Chillicothe kept them in the lead for the western half championship.

The Crowell juniors cinched the championship of the western half by defeating Chillicothe 39 to 22. They are undefeated in conference play. This team is composed of the following boys: Ronny Bradford, Jim Mack Gafford, Bob Borchardt, and Dale Henry, forwards; Claude Dean Sellers and James Teal, centers; and Don Beesinger, Gerald Howard, John Stone and Jerry Setliff, guards. They will have to play Iowa Park for the championship of the entire district.

Crowell "B" string boys won over Chillicothe 63 to 44, and let Iowa Park down 67 to 23. They are undefeated in class A for the season.

Crowell girls can cinch the championship of the western half by defeating Munday there to-

WORK ISN'T FATAL! TRY IT!

So you aren't so intelligent as some of your classmates and you have to dig out every assignment—paragraph by paragraph or problem by problem—and you have to earn every mark the hard way? Don't despair—you have already learned an important lesson need-learned in life. That lesson is that it takes hard work and persistence to win, and if you don't make it the first time, if you are determined enough, you'll get it eventually. There's an old Chinese proverb which says: "Fall down seven times, get up eight," which is another way of saying "don't give up." Work and study habits are usually acquired early in life, and if you have to work hard, it develops character so that if and when the sledding gets rough, you have already developed enough character and initiative that you don't despair. You get up and try again, and eventually you make the grade. So don't envy the person who has more natural ability than you have, because he may have become accustomed to depending on his natural ability rather than on hard work and perseverance; it will probably be more difficult for him to buckle down to hard work than you because he hasn't developed good study and work habits. Facts acquired the hard way aren't easily forgotten.

her eye in the center of her head is yellow, her hair is a beautiful peroxidized pink, and she weighs 350 pounds.

Prudence, or "Babyface" as she is sometimes called, considers football as her favorite sport, and before coming to Crowell, she played halfback for the Detroit Lions.

Her hobbies include knitting, cooking, big game hunting, learning army tactics, pole vaulting, ice hockey, and weight lifting.

Prudence's favorite food is fried buffalo head topped off with a dish of broiled whale blubber. Being the great athlete that she is, Prudence doesn't smoke; she just drinks. (Don't get excited—it's good old gyp).

Prudence is president of a club of high social standing known as the "Bring 'Em Back Alive" club. She also belongs, due to the hoistered .45 that she wears, to all of the clubs which CHS has to offer.

After graduation, Miss McGilcutty plans to find work as either a brick layer or a lumber jack. No matter which course you may take, Prudence "Babyface" McGilcutty, may you never come back to CHS again, or even to Texas as far as that goes.

REPLY TO A CERTAIN COLUMN IN LAST WEEK'S PAPER

Boys—you've had it! We girls may wear, as you called it, "ridiculous" looking clothes sometimes, but we don't hold a candle to some of your "fads and fancies."

Let's start at the top. Oh—those haircuts! Some boys just don't have any hair at all—they get such extreme butch haircuts that they look like "peeled onions." Then there's the Elvis Presley haircut. It seems that it's awfully peculiar the way the boys seem to despise E. P., but always turn up copying everything he does. Well, boys are that way—always copying someone else. Quote from last week's paper, "They just don't have a mind of their own." unquote.

Now to the shirts—I shirts, muscle-man shirts, mystery man shirts, Ivy Leagues, and loud, loud, loud sport shirts. It appears to be essential in CHS to button only the bottom three buttons. No one can say girls' clothes are more expensive than boys' clothes. Some of the boys around here come in a different colored sweater every day.

Just one thing about the Levis and ivy-league pants—how do you keep them up without suspenders? Nuff said!

I think we've said enough, but there's just one more thing that needs taking care of. After taking a careful census, it has been discovered that CHS has more "chicken farmers" than any other school in the state.

Well, we girls hope we've put you "little gifts to the women" in your place. All in all, you must not be so bad, though, just look at the way we girls swoon over you—no matter what you wear.

So long, chicken farmers, junior Elvis Presleys, and all you Harvard and Yale followers!

PLANS PROGRESSING FOR JR.-SR. BANQUET

Hey kids! We just got a flash bulletin from Mrs. King, junior class sponsor. The Jr.-Sr. banquet is to be held Thursday, April 3. It sounds like the banquet will really be a big affair this year. So don't forget—April 3.

FHA HAS MEETING

The regular monthly meeting of the FHA was held in the Home Economics Cottage on Wednesday, Jan. 31.

A committee was elected to make arrangements for the crowning of the FHA King, Ivan Cates. Plans were discussed for attending the Area meeting March 1 in Stephenville. Peggy Cates was nominated as delegate, and Elizabeth Davis was selected as voting delegate. All who plan to attend the meeting should contact Roxie Adkins immediately.

Cecelia Drabek brought the devotional, and Janis Morris gave a report entitled "Teens for Times." Thelma Henry directed a recreational period after which refreshments were served by the hostesses: Linda Johnson, Wanda James, Shirley Hough, and Judy Hollenbough.

GIRLS WIN, BOYS LOSE TO EAGLES

Well, basketball fans, did you enjoy the conference A games Friday night between Crowell and Chillicothe?

The girls managed to add another conference victory to their score book by beating the Chillicothe girls by the final score of 46-20. Pat Prosser, that fighting forward, scored 17 points in the first half of the game. Gayle Taylor and Judy Vaughn also played a good game. Roxie Adkins, Helen Vessel, Mary Akers, D'Lois Shultz and Sandra Simmons all really fought those Chillicothe forwards. Margaret Faske, Mary Ann Myers, Dorothy Denton, Ruth Ellen Short did their share of winning the game too. Crowell surely has a fine girls' ball club this year, and we think they will go all the way to district!

Neither the Crowell or Chillicothe boys could hit the basket or get the rebounds Friday night. In the fourth quarter of the ball game, Chillicothe really got busy and outscored Crowell by a small margin. The final score was 45-37 in favor of the lucky Chillicothe team. If both teams are unbeaten at the end of the season, there will be a play-off between Crowell and Chillicothe to determine the district winner.

TATTLE TALE

Sharon-Johnnie were seen Saturday and Sunday nights.

Quannah must really have something "Slim" has now joined Bill in making frequent trips over there.

Don Tole was seen with good looking blond from Paducah Saturday night.

Bobby looked lonesome over the week end. Reason—Kay was gone. Jo Frances was having fun with "Freddy" Sunday night.

Among the Saturday night visitors in Vernon were: Judy-Aldor, "Freddy"—Barbara, Elizabeth-Sonny, Peggy-Bubba, Carolyn-Billy Gene, Roxie-Gerald, Jeannie-Joe, Sue-Jackie.

Jo and Bettie, who were your visitors Sunday? Could they have been Kenny Newell and Donnie Hawkins?

Our sympathy goes to Charlotte Sledge who has the measles. Mary Ann Myers seems to be a pretty good shot—especially with

a "tennis shoe." Jerry Bob-Gayle, Elizabeth-Sonny and Carolyn-Mike went on a picnic Sunday.

Seen Sunday afternoon were Roxie-Gerald, Sue-Jackie. Well, it looks like Crowell has another soldier boy—Aldon Garrett.

EX-CHSites at the ball game Friday night were Roma-Bill, Janis-Lowell.

It looks like several kids from CHS are looking over colleges.

Ray and Sonny went to North Texas and "Prunie" went to TCU. Sandra-Donald, Jana-Jimmy surely had fun in Fort Worth over the week end.

Carolyn, did you get very wet when you fell into the river Sunday?

Notice! Seniors! Just 15 more weeks of school. We would like to welcome Melvin Johnson to CHS. He has been in school in Lubbock.

"CAT SCRATCHES" Howdy, partners! Ah'm old lone-

some Tabby Cat, the rough and tough cowboy! How many of you all went to the rodeo at Fort Worth last week end? Ah did, and ah shore did have a whopper of a time! O' course, ah had to sneak away down thar (ah rode in the back seat with Kay Johnson, Duane Johnson, and Margie Rasberry.)

Upon arriving at the rodeo grounds, ah went immediately to the very front, so ah could see all that wuz going on. Well sir, them cowboys shore could ride them horses! It looked so fascinating to me that ah decided that ah'd try my hand at it! So ah jumped on the back of the meanest critter thar—"Hells Canyon"—(Of course, he weren't no trouble to an old cowhand like me!) Ah rode him till he wuz "panting like a lizard on a hot rock!"—shore 'nough!

My favorite event wuz the riding of the Brahman bulls—that's when ah really showed those bulls who's boss. Thar weren't nary a

bull that could throw me! Well, ah could go all day about how good ah wuz down thar—but ah can sum it up in a few words "Ah wuz as busy as a frog on a freeway!"

Ah shore hated to come home, but ah had to start handin out my autograph to all my fans! Well, ah better be a movin' on down the trail. A've got a lot of cows to round up! (Don't tell anyone, but I'm as tired as a two pound hen that just laid a three pound egg.)

SPEAKS TO ASSEMBLY

Bro. Kenneth Bingham, pastor of the Assembly of God Church, spoke to the student body Jan. 28. His text was from Hebrews 11:8-10. To prove that hard times sometimes lead to better lives, he told how Abraham lived in idollatry in Babylon. One day, God called Abraham to go to Palestine. Abraham obeyed the Master, and when anyone asked him what he was looking for, Abraham always answered, "I'm looking for a city

which has a foundation builder and maker is God." He stressed that we (Continued on page 7)

PAY TELEVISION

After making a careful study of both sides in question in regards to pay television, it is my belief that it is impossible to be for both sides, because there can be no co-existence between pay television and free television. The position of Dr. Frank Stanton, president of the Columbia Broadcasting System, should meet with the approval of every TV owner in Foard County. The Federal Communications Commission has authorized tests of the pay-television system; but the result of that test will be doubtful, under the law, even to authorized tests, since one must assume they would be conducted on existing facilities licensed to broadcast under the free system. The cost to the American people will be enormous. Each family would have to buy or rent a decoder costing between \$40.00 and \$85.00. On top of that will be the charges for programs. To watch pay television for two-thirds of the number of hours that it now actually watches free television, the average family would have to pay \$473 a year. It is true that with pay television, actors would receive more pay for their services, and pay television would be with less advertising while giving better performances; but what would become of those who could not pay for top performances? They could not see any major performance, such as world series, rose bowl, or any top or high class performances. Again it will place a direct control over what one class of people should see, and what another class should not see. This encroachment by our Federal Authorities will eventually do away with free breathing if we don't write our Congressmen and Senators, and advise them how we stand. Friends, this is your Country and my Country; it makes no difference if you are Democratic, Republican, Socialist or what-not, White, Black, Red or Yellow. Think and act now. Write your leaders and let them know where you stand.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin, Tex.—By 1962 the first wave of the state's "war babies"—probably hundreds of thousands of them—will be seeking a college education in Texas.

Time to get ready for them is now, says the Commission on Higher Education.

Created by the Legislature in 1955, the Commission has spent some two years getting organized and gathering facts. Now, says the Commission's director, Dr. Ralph T. Green, it is ready to start making some "firm recommendations," beginning with its meeting Feb. 10 in Denton.

Commission has the responsibility for studying the needs and problems of all 18 state supported colleges and universities and making recommendations and appropriate requests for them to the Legislature.

Commission staff has done extensive research in areas of professors' salaries, how many students take what courses and possible need for more branches and courses in certain areas.

Several cities have been actively demanding senior college status for their junior colleges. Commission is to have recommendations on this later.

At present, says Dr. Green, Texas' 18 state colleges have some 77,913 students. By 1962, he predicted, they will have 102,000.

Statewide, the possibilities are even more overwhelming. There are some 160,000 students in both state and private colleges now, said Dr. Green, but by '62, there will be an estimated 320,000 prospective college students.

Exact figures are not possible, of course, he said, but "there's no getting around it, the kids are there. It's almost frightening to foresee this tremendous volume and know, too, that standards must be raised to meet demands for improved scientific and technical training. But with good planning, we can do it."

POLIO PLUMMETS—Best news from the State Health Department recently is the 1957 polio figures—lowest in a decade.

Total for 1957 was 734 cases, just a little over half the 1956

Warren Everson to Seek Re-Election as Commissioner

Warren Everson, present Commissioner of Precinct No. Four, has authorized the News to announce that he will be a candidate for re-election to such office, subject to the action of the Democratic Primary. Mr. Everson states: "During the three years that I have served as Commissioner of Precinct No. Four, I have tried to conduct the affairs of such office in a manner which would benefit the people of the precinct and the county at large. I do not claim that I have not made any mistakes, for to err is only human, but if the people of the precinct see fit to re-elect me as Commissioner, I shall do my very best not to make the same mistakes twice and shall serve in such capacity in a fair and impartial manner. I respectfully solicit your vote and influence."

total of 1,307 and less than one-fourth the peak year of 1952 (3,984).

Department officials said they expect a continued, but more gradual decline, as more people take the vaccine. Shots are not likely ever to stamp out the disease completely, they said, since the vaccine does not prevent non-paralytic polio.

COME AND SEE US—Texans can garner many millions in out-of-state dollars by learning to be good hosts to tourists.

Said Tom Taylor, manager of information and statistics for the State Highway Department, "The tourist industry is one of the easiest in the world to promote. Every community has something to offer. But many Texans don't know enough about their own communities to give directions."

Considering the scarcity of promotion, said Taylor in a speech to the Texas Motor Transportation Association, it was surprising to note that Texas is fifth among the states in number of tourists.

It was a \$500,000,000 industry in 1957, he said, bringing Texans more income than cotton, cattle and wheat combined.

But, Taylor noted, competition from other states is getting stiffer, and Texans will have to work harder to get out-of-staters to spend their vacation money here.

SCHOOL QUESTIONS TO GO OUT—Some 25,000 manuals are to be mailed to counties by Feb. 15 for use in a massive study of Texas public schools.

Study guides are being sent out by the Hale-Aikin Committee which is to report to the next Legislature on school needs. County leaders will distribute the 44-page study guides to the local school districts. It is hoped that answers and suggestions will be worked out in a series of group meetings in each area.

Rep. L. DeWitt Hale, vice chairman of the study committee, said local groups should feel free to add more topics of their own. Study guide has 167 questions.

If people all over the state respond with facts, ideas and suggestions, the committee will have some 42,000 replies to serve as basis or its recommendations.

MORE COTTON ASKED—Texas should be allowed to produce more cotton this year to meet a demand for better grades, says Agriculture Commissioner John C. White.

Despite the cotton surplus in storage, there is a shortage of middling grades and an active de-

mand for better grades, said White. Because of the end of the drought, he said Texas had an excellent chance to produce high quality cotton this year for the first time in eight years.

WELL WATERED—Texas goes into the 1958 growing season with the best soil moisture conditions in years, reports the U. S. Dept. of Agriculture.

High plains wheat prospects are considered the best in years. Most areas have enough moisture to carry the crop well into spring.

In many areas growers now want "open" weather. Said USDA, "Many fields in East Texas have turned pale as waterlogged soil prevents root aeration."

Panhandle grain farmers need sunshine to prepare for spring planting and Valley vegetable growers to harvest the winter crop.

FLU UP AGAIN—Number of flu cases in Texas climbed in January, but was no where near the October peak.

According to State Health Department officials, estimated number of cases at end of December was 3,411. In successive weeks, totals went up to 4,301, 4,820 and 8,800.

But during the October outbreak the total reached 40,000. Gov. Price Daniel was among the recent victims.

News From the Congress
by Frank Ikard, 13th Dis.

The first piece of major legislation to receive approval by the Congress during this session will be spending authority for the Defense Department. This measure includes only top priority matters which are critically and urgently needed. Briefly, a breakdown on the bill is as follows:

\$189 million for a ballistic missile detection system. This will make possible the installation of sensitive electronic gear at carefully selected sites to immediately detect and track the course of any missile fired any place on earth.

\$30 million for a speedier aircraft warning system which is designed to shorten the time inter-

val between the discovery of tracking enemy aircraft and use of planes or missiles to hit them.

\$25 million to improve the facilities of the Strategic Air Command. Under this program, it will be possible to get the planes of the Strategic Air Command in the air almost immediately after an alert.

\$194 million for the development of the Strategic Air Command Forces. Since the Strategic Air Command is our chief strategic force, it is important that the force be kept in a state of readiness. It is important that the United States will be protected by more than one heavy squadron or one medium wing.

\$112 million to speed up ballistic missile program. Included in this are the Atlas Intermediate Range and the Jupiter intermediate range models. These funds will be used to speed up the development of these weapons.

Ysleta del Sur, established in 1682 near El Paso, is Texas' oldest permanent settlement.

The district THDA meeting will be in Rotan on April 8. Your THDA constitution states that delegates must be elected at least 30 days in advance of the meeting. It will be too late if we wait for the March council meeting, so you will have to do it at the February council meeting.

News From the Congress

by Frank Ikard, 13th Dis.

The first piece of major legislation to receive approval by the Congress during this session will be spending authority for the Defense Department. This measure includes only top priority matters which are critically and urgently needed. Briefly, a breakdown on the bill is as follows:

\$189 million for a ballistic missile detection system. This will make possible the installation of sensitive electronic gear at carefully selected sites to immediately detect and track the course of any missile fired any place on earth.

\$30 million for a speedier aircraft warning system which is designed to shorten the time inter-

val between the discovery of attacking enemy aircraft and use of planes or missiles to take it down.

\$25 million to improve the facilities of the Strategic Air Command. Under this program, it will be possible to get the planes of the Strategic Air Command in the air almost immediately on an alert.

\$194 million for the development of the Strategic Air Command. Since the Strategic Air Command is our chief strategic force, it is important that scattered out so that no base in the United States will be picked by more than one heavy squadron or one medium wing.

\$112 million to speed up ballistic missile program. Included in this are the Atlas Intermediate Missile and both the Atlas and Jupiter, intermediate range models. These funds will be used to speed up the development of these weapons.

Ysleta del Sur, established 1682 near El Paso, is Texas' oldest permanent settlement.

Texas is regarded as one of the most fertile fields in America for archeological research.

Tax Man Sam Says

This is the time of the year that everybody is mad at Santa Claus because the Christmas bills have just come in. Many taxpayers make the mistake of getting so worked up over their Christmas bills and how to pay them that they don't even want to think about income taxes until April 15. There is one small point to remember—700,000 North Texans got a refund check last year. It is pretty certain that your refund check won't reach you in time to pay your Christmas bills, but if you file your tax return now, the chances are you will get the refund two months sooner than if you file your return on April 15. You ought to figure your tax now, anyway.

FARMERS MAY OBTAIN CREDIT EVEN IF OPERATING AT A LOSS

Mr. Farmer, if your gross income from your farm in 1957 was at least \$600, you can choose

to have 2/3 of your gross income credited to your social security account. You can get this social security protection by filing a self-employment tax return with the Internal Revenue office, and paying the social security tax. The last day for filing the tax return for 1957 is April 15. You can get

more information about this special provision from your district director of Internal Revenue, from your social security office.
