## Crowell-Seymour Highway Urged by Ft. Worth C. of C.

In a recent letter to the State Highway Commission, the Highway and Territory Relations Department of the Fort Worth Chamber of Commerce endorsed and urged the building of a highway between Seymour and Crowell. The letter follows:

"The Highway committee of the Fort Worth Chamber of Commerce requests that you be advised of its interest in and approval of the Commission's May 26 endorsement of the idea of an Area-wide System of secondary roads connecting, among other points, in Baylor, Foard and Knox Counties, the cities of Seymour and Crowell. As State Highway Commission records disclose the Fort Worth Chamber of Commerce, the Fort Worth Stockyards Co., Packing Houses, other business interests of the city have looked with favor for many years upon the construction of a road which would connect directly Seymour with Crowell projecting further northward through the present highly desirable diagonal route State Highway 199 between Fort Worth and Seymour.

"A connection between Seymour and Crowell would be one of the most desirable pieces of construction that our Committee can think of to take place anywhere in the State and we are happy to note its inclusion in area-wide highway plans and hope that the Commission and District Engineers will have the hearty support of Commissioners Courts in the Counties involved in providing right-of-way so that construction might be included at the earliest practical moment. It is a real pleasure to convey appreciation of the interest of the City of Fort Worth for the Commission's endorsement of the idea."

## Mrs. R. V. Hatfield Dies in Tocomo, Wash.

Mrs. R. V. Hatfield, who lived here with her parents in the early days of this community, probably in the 1890's, passed away at her home in Tocomo, Wash., on June 4, 1954, according to a notice received by Mrs. Carrie Hart this week.

When she lived here, Mrs. Hatfield was Miss Flora Gibson and will be remembered by some of the older residents. Mrs. Hatfield had suffered with heart trouble and rheumatism for the past 15 years.

In addition to the minister, the Order of the Eastern Star officiated at the funeral services.

She is survived by her husband.

## GAS GOES UNDERGROUND

Natural gas is being put back into the ground where it is needed instead of where it happened to be found. About one-third of the supply of natural gas comes from oil wells. It is a seasonal commodity, needed mainly for residential heating and at peak demand in winter. Storage of natural gas near consuming areas is made underground in the type of reservoir that nature used.

## Approximately 350,000 Bushels of the 1954 Wheat Crop Have Been Delivered to the Five Elevators in Foard County

According to figures released by Foard County elevators Wednesday morning, the approximate number of bushels of wheat delivered to the elevators was 350,000. Heavy showers in the east part of the county and at Crowell Monday afternoon delayed harvesting of the grain. The rain measured .17 of an inch in Crowell. Green wheat and fast-growing weeds are also a troublesome feature of this year's harvest.

It is reported that some farmers are using a swathing machine to cut the grain, placing it in a ridge to be picked up later by the combine and threshed after it has dried out.

Test weight of the grain is averaging around 58 pounds. Many of the combine crews that were here at the start of the season have moved northward to continue the grain harvest.

## Ginger Johnson Wins Third Place at NAIA Meet in Abilene

Ginger Johnson won third place in the 880-yard dash at the third annual National Intercollegiate track and field championships held at McMurry Stadium in Abilene Friday night, June 4.

One of the few freshmen entered in the meet, his victory went a long way in helping A. C. C.'s outstanding team win the championship cup. His fine performance placed Ginger as anchor man for the Christians when they defend their title next year.

Attending from Crowell were Mr. and Mrs. Henry Johnson, Mr. and Mrs. Jack Turner and Miss Marcia Kincaid.

## TLC Valuable Discovery

Denver, Colo. — Delegates to the University of Colorado Medical Center's postgraduate course were interested when a speaker, Dr. Charles U. Letourneau of Chicago, praised a medical ingredient called "TLC" as a valuable discovery in the treatment of the ailing. "TLC" is not a new drug, however, explained the speaker, it is just "tender loving care."

Decisions of the Supreme Court cannot be overruled.

**ALMOST 'GONE WITH THE WIND'**—This is no storm at sea, it's just stadium crew fighting to keep drenching wind-storm from blowing away tarpaulin being spread on Milwaukee field after second inning of National League baseball game. Contest was called with Cincinnati leading Braves 3-0.

## Annual Installation of Officers for Rotary Club of Crowell Will Be Held at Elmer Cub Hut on Tuesday, June 29

The 45th annual installation of officers for the Rotary Club will be held at the Elmer Cub Hut on Tuesday, June 29, at 7 o'clock, according to an announcement made last week by Irving Fisch, president of the local club.

Approximately 175 people are expected to attend this annual event, which is one of the most enjoyable events of the Rotary year.

Dr. E. H. Hereford, president of Arlington State College at Arlington, immediate past Governor of the 186th District, has been secured as the principal speaker. The present Governor of this district, Grady Halbert, and his wife, and the incoming Governor, Warren B. Tayman, and wife of Stamford, will attend this meeting. Other guests will be the incoming presidents and secretaries of the Rotary Clubs of Quanah, Vernon, Wichita Falls and Stamford.

The menu will consist of a barbecued chicken dinner and the following committees have been appointed to work out details: Food committee: Claude Callaway, chairman; Herbert Edwards, Marvin Myers, Tom Woods; wood committee: Hubert Brown, Clinton McLain; ticket committee: Jack Seale, Fred Youree; arrangements and decorations, George Self, Dr. Dugwood Sanders, Grady Graves, Marion Crowell; registration, Glenn Goodwin, D. ## Chicagoan Elected President of Rotary International

Herbert J. Taylor of Chicago was elected president of Rotary International for 1954-55 at the 45th annual convention of this world-wide service club organization, which completed its five-day session in Seattle, Wash., June 10. The convention registration of more than 8,000 Rotarians and guests represented 8,200 Rotary Clubs with a membership of 387,000 business and profession executives in 89 countries.

Mr. Taylor is chairman of the Board of the Club Aluminum Products Company and a director of a number of banking, civic and manufacturing organizations. He was vice-chairman of the U. S. War Department Price Adjustment Board in Washington, D. C., during World War II and is a past director of the American Management Association and of the Aluminum Wares Association.

A Rotarian since 1923, he has served Rotary International as vice president, director, district governor and as committee chairman and member. He is the author of the "Four-Way Test," a policy which has been widely adopted by business and professional executives, government officials and educators in many parts of the world.

Elected to Rotary International's Board of Directors were Rotarians from Australia, Belgium, Brazil, Canada and the U. S. A. In the formal convention addresses by the Secretary of State of the U. S. A., John Foster Dulles; Rotary's president, Joaquin Serratos Cibils of Montevideo, Uruguay; and other outstanding speakers, and in the informal discussion groups, emphasis was given to the many opportunities of the world to work for the achievement of one of the advanced international understanding, good will and peace.

This was the first Rotary International convention to be held in this country since 1951, the last two conventions having been held in Paris and Mexico City.

Rotary's Golden Anniversary convention will be held May 29, June 2, 1955, in Chicago, birthplace of the first Rotary Club in 1905, as the culmination of a world-wide observance of Rotary's 50 years of service.

### Low Humidity and Heat Cut Egg Quality

High temperature and low humidity are two of the greatest enemies of good egg quality.

With warm weather here again, Joe Burkett, County Agent, warns poultrymen that unless extra precautions are taken the quality of their eggs will drop rapidly. For producers who sell eggs on a graded basis, a drop in ungraded, a drop in quality means decreased consumer demand.

Here are Burkett's summertime tips for top egg quality: Keep the eggs clean. Use clean, dry nesting materials and keep the birds confined on wet days to avoid mud-tracked nests.

Gather the eggs two or three times a day in a wire basket. This allows air to circulate, quickly carrying off the heat.

Store the eggs in a cool, humidor.

ALLAN SHIVERS

Your Governor Returns to Lufkin His Birthplace MONDAY, JUNE 21 TO OPEN HIS CAMPAIGN June in 8:30 PM KWFT — 620 Wichita Falls

Statewide Broadcast

The Passing Scene by Carl Rose

The Travelers Safety Service "Drunk and doing eighty. Never mind the ambulance. Send a basket."

State Capitol NEWS by VERN SANFORD Texas Press Association

Austin, Texas — Governor Allan Shivers will claim the political spotlight Monday.

The Lufkin-born chief executive formally opens his campaign for re-election in the city of his birth in the heart of East Texas on June 21.

It will be an old-fashioned political rally, reviving the personal-appearance type of campaign.

Newspaper ads are being used to call statewide attention to his talk which will go on the air at 8:30 p. m.

Lufkin is also the home of Governor Shivers' campaign manager, Senator Ottis Lock.

It was in nearby Woodville that Shivers received word in July of 1949 that he—then Lt. Governor—had become governor, with the sudden death of Governor Beauford Jester.

Shivers Busy Campaigning Governor Shivers is filling many speaking engagements over the state.

Kicking off his drive for campaign funds was a \$10 per plate luncheon in Dallas, attended by 800 persons.

In his off-the-cuff talk in Big-D, Shivers said he would run on his record.

He branded the majority of his political enemies as persons who believe in a centralized government, subject to socialistic infiltration, as against the theory of local powers and States' rights.

"Perpetuity" Says Yarborough Judge Ralph Yarborough, Austin attorney who is campaigning against Shivers, got his own campaign into motion earlier, with stinging remarks about "perpetuity in office."

So far Yarborough has under-

taken no statewide promotion.

The rest of the political front was much like the quiet that comes just before a tornado strikes.

Coke Returns

However, political incidents of 1948 are being brought back to mind.

Coke Stevenson has returned to political life.

The former governor of Texas stepped into the limelight with an endorsement of Dudley T. Dougherty for U. S. Senator.

Dougherty seeks the seat occupied by Senator Lyndon Johnson who won over Stevenson by 87 votes, in a hotly contested race for the senate six years ago.

Stevenson will serve as chairman of the campaign steering committee for Dougherty.

He promised the voters a refresher course in Texas political history.

"This time," he said, "we can go into and reveal all the details about Box 13 in Jim Wells County, where on Friday after the primary a sleight of hand miracle occurred and 200 votes were added to the Johnson total."

Hammonds Confesses Insolvency Legally it's all over. But politically it will be an issue for months to come.

Ralph W. Hammonds has confessed that his Lloyd's of North America insurance company is insolvent.

With head bowed, the heavyset one-time University of Texas wrestling champion gave up defense of his company in 98th District Court after only three days of testimony.

The trial had been expected to last at least two weeks and was destined to produce explosive political testimony . . . as the subpoena list included Governor Shivers, his public relations chief John Van Cronkrite, Ralph Yarborough, and many others active in state politics.

It was a victory for Attorney General John Ben Shepperd and Assistant Attorney General Rudy Rice, chief prosecutor for the state in the case.

Other Trials Delayed Criminal trials of four officials of defunct insurance companies have been postponed until Octo-

News from the Congress by Congressman Frank Ikard

In a case growing out of the natural gas collecting activities of the Phillips Petroleum Co., the Supreme Court has recently ruled that rates of natural gas producers who sell to interstate pipe lines are subject to regulation and control by the Federal Power Commission. In 1951 the Federal Power Commission had ruled that they did not have jurisdiction in this case; however, they were reversed by the United States Circuit Court of Appeals and now by the Supreme Court. As a result of this broad view adopted by the Supreme Court of the legislation involved and the fact that the consideration of oil and gas is inseparable, it seems entirely possible that before long there will be efforts made for the Federal Government to regulate the oil industry too. The only way to prevent this is for Congress to take affirmative action to prevent this from happening and also to prevent the Federal Government from controlling the production and sale of natural gas that occurs within a State and is solely intrastate commerce. I am hopeful that such action by Congress can be taken in the very near future.

Like everyone else, I have been very interested in just why the current prices of coffee are so high. From evidence recently collected by a Congressional committee, the indications are that this sudden price increase has been a result of simple supply and demand. The world now is consuming more coffee than is being produced. The evidence seems to indicate that the big jump in coffee prices can be blamed on a little noticed frost that struck coffee producers in Brazil last July which substantially reduced production in that clipped three million 132-pound bags from the Brazilian exports.

The four indicted men appeared before District Judge Charles O. Betts, asked and won continuance of their trials until the Fall term of court.

They are Paul and Leslie Lowry, D. H. O'Fiel — all of Beaumont — and Spencer S. Treharne of El Paso.

Now defunct is the Texas Mutual Insurance Company of Beaumont, formerly operated by the Lowry brothers. O'Fiel is a Beaumont attorney. Treharne was operator of the inactive insurance firm of United Lloyd's.

Twenty-eight persons were subpoenaed to testify in the trials, including State Senator William T. Moore of Bryan, chairman of the senate insurance committee, who was an attorney for the Lowry's Texas Mutual Company.

Scotfield Declared Innocent A federal jury has found Frank Scotfield innocent of charges that he violated the Hatch Act.

He was charged with soliciting and accepting funds for political purposes while serving as Collector of Internal Revenue.

During Scotfield's trial, 10 government witnesses testified that they had no knowledge that Scotfield had ever sold or received money from the sale of tickets to the 1950 Jefferson-Jackson Day Dinner held in Austin.

Federal employees, under the Corrupt Practices Act are prohibited from participating in any political activity.

into the world market. Also contributing to the shortage is the fact that during the depression years, many of the Brazilian coffee producers abandoned the raising of coffee because of bad market conditions. For example, in 1932 Brazil had 3,000,000,000 coffee trees. In 1942 she had only 2,200,000,000. During the recent years the coffee consumption in the United States has increased 46 per cent, and in Western Europe consumption has jumped from 5,000,000 bags in 1946 to 10,000,000 in 1953. All of this adds up to a much greater demand in the world for coffee and a considerably shorter supply. The result has been the recent price increases. It seems that there can be little expected in the way of price reduction due to this situation, at least for another year.

Is Socialism "Good Politics"?

It has been widely believed that it is "good politics" for candidates for high office to include public power plants in their platforms, on the theory that hordes of voters will find this particular variety of socialism irresistible.

However, it begins to look as if the belief needs a new and thorough examination. In many elections, in widely separated sections of the country, public ownership projects have met defeat—and men who see virtue in encouraging private enterprise have been victorious.

A particularly notable example has just occurred in the Oregon Republican primaries. Oregon is in the center of a region which contains some of the largest of the tax-free, tax-subsidized federal power projects, notably Bonneville and Grand Coulee. The incumbent governor, notably the Administration's "partnership" power program, under which private industry is to play an important role in hydroelectric development. He was opposed by a well known political figure, who has held high state offices, who went all out for monopolistic federal development. The incumbent won by a landslide.

The other major contest on the ballot involved Congressional representation from the county where most of Oregon's population is concentrated. The incumbent Congressman had held office for many terms, and had once been considered virtually unbeatable. He also endorsed all-out federal power development. His opponent was a relative newcomer to the political arena, who strongly backed the partnership idea, and who looks with favor on private enterprise. The newcomer beat the veteran handsily.

The moral seems plain. Perhaps, at long last, socialism and socialist doctrines, even though they are often camouflaged with other and prettier names, are going out of fashion.

Reunion Parade in Stamford July 1 to Feature Cowboys

Stamford — Cowboys and horses are the outstanding features of the spectacular downtown parade which will usher in the annual Texas Cowboy Reunion in Stamford Thursday, July 1. Visiting dignitaries may ride in cars in parades elsewhere but here they are in the saddle as are the lovely cowgirl sponsors in their beautiful costumes.

Among the several hundred riders will be a goodly number of old-time cowboys. L. E. Adams, 93, of Stamford, has never missed a parade and is expected to take part this year. G. L. English, retired newspaper publisher, and his daughter, Mrs. Sarah McDonald, are always passengers in the stage coach. There will also be chuck wagons and buggies, at least half a dozen hand, antique cars, boys' bicycle brigade and elaborate organizational and commercial floats.

But the horse will be king for the day and the riders will include the rodeo contestants and many other actual cowboys, just arrived from the ranches, as well as the junior cowboys and cowgirls.

A. C. Humphrey, general parade chairman, announces there will be cash prizes for ranching and individual entries, junior cowboys and cowgirls and for the two divisions of floats.

Starting time of the parade will be 5 p. m., a change from previous years, and the participants will begin assembling two hours ahead of time. There will be five

rodeo performances, one night and a matinee on Sunday. Dates are July 1, 2, 3.

## County Agent Gives Best Combination for Fly Control

Only continuous sanitation and proper use of chemicals can hold fly populations to small numbers this season.

Joe Burkett, County Agent, says this is a critical time in fly control. The pests now are becoming established for the season. And this is the usual time for manure hauling and general clean-up around the farm.

Sanitation — the removal of materials in which flies breed and develop — holds the real key to the control of these disease transmitting, and annoying insects. The agent's advice to farmers who are willing to work at fly control includes these points: haul manure, trash and rotting plant refuse to the fields and spread it out to dry. Clean up around livestock feed bunks. Scrape feed

## Farmers Urged by County Agent to Control Hog Lice

Hog prices are favorable and profits can be stretched further if producers will control the lice on their animals.

This parasite constantly irritates the hog, slows its rate of gain and, in turn, raises the producer's feed bill, explains Joe Burkett, County Agent. Lice also are a common spreader of Swine Pox.

Hog lice too often are taken for granted, but they can be easily controlled with DDT, toxaphene or methoxychlor sprays at 0.5 per cent concentration or with 0.6 per cent lindane or gamma BHC. The latter two insecticides give best results, Burkett adds.

Sows with suckling pigs should not be sprayed with any of these insecticides.

The next meeting will be with Mrs. W. J. Long June 24.

Refreshments were served to the following members and one visitor, Mesdames Lee Sims, Raymond Grimm, W. J. Long, B. A. Whitman, T. R. Cates, John W. Wright, G. W. Scates, C. H. Wood, and the hostess, Mrs. Leotis Roberts, and Dana Loy.

## Texas Safety Ass'n. Urges Use of Common Sense in Driving

"Would you put on your best Sunday suit to go walking in the rain?"

Col. E. B. Tilley of Houston, president of the Texas Safety Association, and Services Advisor for the Gulf Oil Corporation, put this question to motorists this week as he discussed the speed control program which the Texas Safety Association, the Texas Department of Public Safety and the National Safety Council are conducting this month.

"Of course you wouldn't," he continued. "And you wouldn't think of serving yesterday's leftovers when the boss comes to dinner. There's a time and place for everything, and the sensible man fits his actions to the conditions in which he finds himself."

Col. Tilley pointed out that it's just as foolish to drive at a speed too fast for the prevailing conditions. Here too, the person involved just isn't using his head. "A good driver always uses his head when he's behind the wheel," he said. "He doesn't travel at the same rate of speed when driving in snowy rain or darkness as he does when driving on a bright, sunny day. And, when he's not feeling up to par, or when he knows his car is not in top condition, he drives slower than he does when both he and the car are in the pink. He also slows down on rough or narrow roads."

## Soil Conservation News of District

Lower Pease River Soil Conservation District, Lower Pease River District Board: W. C. Howard, Grady Halbert, O. T. Holmes, O. H. Brandon, H. L. Ayers.

Floyd Richardson, a cooperator in the Lower Pease River Soil Conservation District, will soon have harvested his wheat and rye and will be preparing his land for the following crop.

Conservation farmers like Richardson will be using the stubble from the harvested crop to help combat erosion both from the damage from wind and from the direct impact of falling rain drops.

Stubble mulch tillage, which leaves residue from the preceding crop on the surface of the soil, helps protect the land from wind and rain damage. The absorption of rainfall by the soil where stubble mulching is practiced is increased. It also helps to reduce the loss of water by evaporation.

Stubble mulching helps to maintain a favorable supply of humus in the soil. Some of the crops that furnish residue suitable for stubble mulching are small grain, grain sorghums, vetch and winter peas.

One of the most important uses of properly managed crop residue is a protective cover in which to plant small grass seed. Such a residue or dead cover is very important when small grass plants first come up. The temperature of the ground surface not protected in July will go as high as 130 degrees while that on protected land, under the same condition, will be 97 degrees.

"Driving at a speed that's safe for conditions merely means using ordinary good judgment," Col. Tilley said.

"Most of us pride ourselves on our good judgment," he said "and there's no more important place to exercise it than behind the wheel. It means the difference between safe driving and dangerous driving. Let's keep it safe!"

## WEST SIDE H. D. CLUB

The ladies of the West Side Home Demonstration Club entertained their families with a 42 party in the home of Mrs. Ad Norris last week. Mrs. Jack Lyons and Donna Norris assisted Mrs. Norris with hostess duties. The members brought home-made cookies that were served with punch.

Mrs. S. E. Tate and J. T. King tied for high score. Mr. King drew the lucky number and received the prize.

Those attending were Mr. and Mrs. Walter Thomson, Mr. and Mrs. Bert Mathews, Mr. and Mrs. J. T. King, Mr. and Mrs. Jack Lyons and son, Keith, Mr. and Mrs. M. O'Connell, Mr. and Mrs. Henry Ross, Mrs. R. J. Roberts, Mrs. S. E. Tate and Ed Manard, Mrs. L. E. Archer and daughter, Nancy, and the hostess and family.

The club will have its next regular meeting in the home of Mrs. O'Connell with Mrs. Thomas as hostess. It will be covered dish luncheon with a sewing machine demonstration at 9:30 a. m.

LET'S TALK LIVESTOCK BY TED GOULDY

Fort Worth — The increased tempo of the movement of grass cattle to market in the Southwest resulted in some weakness on most kinds at Fort Worth Monday. The cattle offerings included large numbers of cows and grassy steer and heifer yearlings of the plain or common quality. However, the cow market withstood some effort on the part of the buyers to lower prices. Mature steers were fully steady to strong.

Virtually all slaughter and shipper interests appeared in need of some numbers, and local packers were stepping up their killing floor activity to near peak levels. This broadening of demand resulted in mostly steady market on cows. Bulls were weaker, some sales 25 to 50c lower. Grass yearlings and heifers drew weak to 50c lower rates.

Calves continued under heavy pressure and sold weak to 50c lower along with most of the stockers and feeders.

Included in the sales were a load of 1,067-lb. cows at \$14.50, and two loads of 938-lb. cows at \$12.50 from the Tom Burnett Cattle Co., Foard County.

Hogs topped at \$24.50 to \$24.75 at Fort Worth Monday, and this represented the lowest market top since the first week of January. This price was 25 to 50c under last week's close. Sows sold 50c to \$1.00 lower and at largely \$16 to \$19.

Fat Spring lambs were steady to strong at Fort Worth Monday, some sales appeared measurably higher due to more lenient sorting. Feeder type yearling lambs and good breeder ewes sold steady, but Spring feeder lambs were dull and weak to \$1 lower.

## What Do You Know About Safe Driving?

(Editor's Note: This is one of a series of questions and answers prepared by the Texas Safety Association, Inc., in their "Slow Down and Live" campaign.)

**Test 1**  
Which of the three choices best completes the statement? Underline your choice. Correct answers are given under the test.

1. When the speed of a car is increased from 25 m.p.h. to 50 m.p.h., the braking distance is increased approximately: (a) four times, (b) three times, (c) twice.

2. At 50 m.p.h. a reasonably safe distance at which to follow the car ahead is: (a) 3, (b) 4, (c) 5 car lengths.

3. You are traveling at 45 m.p.h. and wish to pass another car traveling at 35 m.p.h. This requires about 10 seconds. The number of feet that your car will travel before you have passed and are back on the right side of the road again is: (a) 300 feet, (b) 450 feet, (c) 600 feet.

4. Drivers exceed speed limits chiefly because: (a) they don't know the regulations, (b) they lack skill, (c) they have poor attitudes.

5. When the right wheels of your car slip off the pavement, you should: (a) turn back onto the pavement quickly, (b) slow down gradually and steer back onto the pavement when convenient, (c) apply the brakes sharply and cut the wheels hard back onto the pavement.

6. While the average driver is moving his foot from the accelerator to the brake, a car going 50 m.p.h. will travel approximately: (a) 35 feet, (b) 55 feet, (c) 75 feet.

7. A common characteristic of the "show off" driver is that he: (a) does not know the regulations, (b) lacks presence of mind in emergencies, (c) drives too fast for conditions.

8. Your car is being overtaken and passed by another car on a two lane road. Just as this car starts to cut in, another approaches around a curve. In most cases it is best to: (a) maintain speed, (b) slow down and give way, (c) speed up.

9. As you approach an intersection it becomes apparent that your car will enter the intersection before a car approaching from the street on your right. However, that car's speed is greater than yours. You should: (a) speed up to match his speed, (b) slow down and prepare to stop, (c) maintain your speed and don't let him bluff you.

10. A flashing red traffic light means: (a) slow down, (b) stop, (c) congested traffic area.

**Answers**  
1. (c) 2. (b) 3. (c) 4. (c) 5. (b) 6. (c) 7. (c) 8. (c) 9. (c) 10. (c)

## CARD OF THANKS

I would like to say thanks to all who helped me in any way while I was in the hospital, and especially to the doctor and nurses. May God bless you.  
Mrs. Joe Bledsoe.

G. Y. Carroll and son, Bill, of Abilene spent Sunday visiting in the C. W. Carroll home.

Mrs. Emmye Kirkpatrick of Galveston visited last week in the home of Mr. and Mrs. E. A. Dunagan.

## Home Demonstration Notes

MRS. MARY D. BROWN

Last week I attended the annual State 4-H Round-Up at College Station. It is very inspiring to see these many boys and girls from all over the state meet to work and play together.

Now is the time for us to begin thinking about flowers for the late summer. Buying plants to transplant in hot summer weather is easiest and gives the quickest flowers. Most flowers suitable for summer will be at their best 3 to 4 months after seeds are planted.

Good choices for summer beauty are periwinkles, moss rose, morning glory, and purple bachelor buttons. Others are cockscomb, petunias, zinnias, marigolds and straw flowers.

Don't forget our demonstration on machine embroidery. Mrs. Rivers of the Singer Sewing Center will meet with the Vivian Club Thursday morning, June 24, the Gambleville club that afternoon, the Margaret club Friday morning, June 25, and the Thalia

club that afternoon. She will meet in the morning with the West Side club June 22 and the Riverside club that afternoon. On June 29 she will meet with the Foard City club. I'm sure you will enjoy this demonstration so make every effort to attend.

Our recipe this week is for—  
**Extra Special Onions**

1 can condensed cream of mushroom soup, 10 to 12 small onions, 1/3 cup chopped walnuts, 1/4 cup pimiento strips, 1/4 cup grated cheese.

Cook onions in water until tender. Drain. Combine soup, onions, walnuts and pimiento. Put in a baking dish and sprinkle with cheese. Bake in a moderate oven (350 degrees) for 30 minutes, or until cheese is melted. Six servings.

Mrs. Bessie Rexrode of Lockney is visiting Mrs. T. N. Bell.

Miss Beulah Patton of Paducah is visiting in the home of her sister, Mrs. Earl Manard, and family.

Mr. and Mrs. J. W. Nelson, Mrs. Mattie Skeet and daughter, Julia, of Baytown visited this week in the home of his cousin, Mrs. Sam Bell, and husband.

Mr. and Mrs. Doyle Graves of Stephenville visited Tuesday with his brother, Grady Graves and family. They were en route home after attending the International Convention in Washington, Wash. Mr. Graves is incoming president of the Stephenville club and Mrs. Graves is president of the Rotary Club.
