Tax Payments in County Increase Over Last Year

The percentage of current taxes paid on the 1960 tax rolls prior to the February 1 penalty-free deadline this year was slightly higher at the three local tax collecting offices than was recorded on Feb. 1, 1960, according to figures released by tax collectors for the county, city and Crowell Independent School District.

75% of County's Vehicles Still Not Inspected

Of the 2,000 registered motor vehicles in Foard County, only 25 per cent have been inspected to date, according to Captain Alan Johnson, Motor Vehicle Inspection supervisor, of the Texas Department of Public Safety.

Drivers are urged to have their vehicles inspected early to avoid the last minute rush. This time of the year is noted for adverse weather conditions which may predominate during the next two and one-half months. As a result, the number of inspection days will be cut down since stations cannot inspect vehicles under these adverse conditions.

"Texas law requires all registered motor vehicles in Texas to display a valid inspection sticker," stated Johnson. All motorists not displaying a valid inspection sticker will be subject to a fine of \$1. to \$200.00 plus court cost.

Captain Johnson further advised that all licensed trailers having a gross weight exceeding 4,000 pounds are required to be inspected.

"By having your vehicle inspected today, you will be driving a safer vehicle," Johnson pointed out.

Why I Believe in Soil Conservation

The subject of soil conservation, the guarding of our land and its natural resources, has been debated many times and in many places. Today, however, I should like to bring it down to a personal level—Why do I believe in soil conservation, or do I?

Yes, certainly I believe in soil conservation. Common sense demands soil conservation practices; our world cries for it. Hundreds of thousands of people all over this globe are living in hunger. Their poignant cries are ignored too often by Americans. Yes, we profess to be the guardians of democracy; yet, as countless numbers submit to communism rather than to starvation, we sit idly by.

Therefore, this is the reason for my belief in soil conservation. Here, imbedded in the soil, lies the future of America—indeed the future of the world. We hold the key to peace—the key to the future. Every day the world grows smaller. Each civil war and each revolt affects the United States, too. These outbreaks are the result of want for democracy, for freedom, for food. Yes, hungry people are the breeders of war,

and peace is not safe under such conditions. The Communists having realized this fact are doing something about it. They—not we—are gaining in numbers, in land, in popularity. Their factions are persistently at work in all parts of America to act. We can wait no longer. We must stand up for our beliefs. Yes, we must aid our fellowmen, and soil conservation is one of the first methods.

Soil conservation explains the abundance of crops in America. We know its value; we can put it to work, too. American staples can become our good will ambassadors. Our understanding and assistance will be our foreign ministers. Yes, according to America's place in the world, we can wage and win the war against communism. Thus, the people of all nations by supporting soil conservation practices, can gain mutual contentment, understanding, and peace in this world—today and tomorrow.

Stage Band Places Second in Quanah Festival Last Week

Last week, the Crowell High School Stage Band, under the direction of Earl Hesse, received a first division rating and won second place in the second annual Quanah Stage Band contest! The band lost the first place trophy by one point to Archer City. Having done this well, Mr. Hesse stated they will go to Brownwood next week to participate in the State Stage Band festival. Crowell has won the showmanship trophy at this festival for the past two years and is trying to make it three in a row. The stage band this year has many young and inexperienced players, most of them participating for the first time in contest. We think they are the best group yet to come out of

Crowell High School, and we want to wish them lots of luck at Brownwood next week!

Student Council Report

The Student Council met Thursday, Feb. 9 with its sponsor, Miss Jean Whitby. President Jack Hickman called the meeting to order. Secretary Bob Borchardt called the roll and read the minutes.

Plans were made for the Student Council elections which are now in progress. Speeches and the elections will be on Tuesday, Feb. 21; the run-offs are set for the 22nd. Each candidate for an office was required to pay a one dollar filing fee and must be passing in his subjects.

The intra-mural basketball games among the classes were also discussed.

Girls' Jackets Arrive

On Feb. 6, eight basketball girls received jackets. They are black with gold leather sleeves. Those receiving jackets were Margie Rasberry, Dorothy Denton, Margaret Faske, Janise Pritchard, seniors; Carria Driver, Alta Bartley, Wilma Denton, juniors; and Mary Kuba, freshman. Their basketball season ended with Paducah winning the west half of the district. Our girls did some mighty good playing and we're proud of them. It's just too bad every team can't win.

Seniors of the Week

This senior has been a member of the Wildcat staff, annual staff, Library Club, pep squad, student council, F. F. A. and Adelpian Club. She is the editor of the annual staff this year. Last year she was who's who in business "and in everybody else's business." Ha! She has a height of 5' 8", and she has green eyes and brown hair. "Really it is dish water blond" was her way of saying it. She likes to eat anything that has a good taste. "How 'bout that?" is her favorite expression. Fats Domino is her favorite singer. Paul Newman and Elizabeth Taylor are her favorite personalities in the movies. Her parents have influenced her the most. Her easiest subject is English, and her hardest is algebra. When asked what her favorite pastime was, she answered, "Being with Carroll Wayne Lawson." He is a real "cool cat" from Kentucky. "If what I have in mind doesn't work, I will go to college" was her answer when asked about her future plans. "People, especially girls, who talk loudly in public about their smoking cigarettes" was her answer to the question, "What is your pet peeve?"

Have you been in the dark

all the time? Well, her name is Joan Schwarz. The way Joan answered the questions in the interview showed that she has a wonderful sense of humor.

Best of luck to you, Joan.

This senior is very easy to please. He likes all of the actors and actresses and all of the singers. He has blue eyes, black hair, and a height of 5' 6". He is a member of F. F. A., and this year he is the reporter. Agriculture is his easiest subject, and bookkeeping is his hardest. "People who think that they know it all" was his answer when asked what was his pet peeve.

Have you guessed who he is yet? Well, I will tell you. His name is Melvin Wheeler, often called "Pete." His parents have influenced him the most because they have taught him right from wrong. Fried chicken is his favorite food. Hunting is his favorite pastime. I wonder what he likes to hunt the most? Melvin is undecided about what he will do after graduation.

Best of luck in whatever you decide to do, Melvin.

Senior Class Meeting

The eager seniors met Monday morning to discuss plans for the winter trip. Working down town will be the project for them the next three weeks to obtain more money to be used on the trip.

The sponsors emphasized the necessity of sending "thank you" notes upon receiving graduation gifts. Those interested in placing an order for these cards are to get in touch with Carole Fisch.

Coming and Going

CHS would like to welcome a new student—Roger Hoffman—a junior from Climax, Colo. We are happy to have a new face around here!

The students, too, would like to bid farewell to our very good friend, George Moss. George has joined the Navy, and he will be stationed in San Diego, Calif. George, all of us will certainly miss you. We wish you the very best of luck.

Col. Larson Entertains

The students enjoyed the Southern Assembly presented by Col. Larson, All-American football star from Wisconsin, last Wednesday. As a young man, he was stricken by polio and was paralyzed for many months; however, he conquered this dreaded handicap by utilizing his hobbies such as rope twirling, whip cracking, rifle and pistol shooting; these he demonstrated to the students. His booming throwing was also an excellent demonstration of how he had conquered his handicap. We

would like to express our appreciation for an enjoyable hour of entertainment.

Hits and Misses

Howdy! The snow was fun, but it's nice to be back at the ole job again. It looks as if "bunches" of things happened during the past two weeks.

What was the mix-up between Rheta, Earlyn, Fauncey and Marcia? This sounds very interesting. Problems!

Sue and Joe broke up Saturday, but Sue didn't waste any time in getting back into circulation. Joe doesn't seem to be doing so bad himself. That a way!

Most of the girls at the sweetheart banquet Saturday night were stag. Wonder what happened to their dates, Hurt! Pain! Agony!

Earlyn and Rheta were looking for the Lockett boys Sunday, but they weren't to be found. North to Alaska!

Vicky and Claude rode horses all day Sunday. This sounds like fun and it's healthful besides!

Couples at the game Friday night (news before the snow) were Sue-Joe, Fauncey - Jackie, Elly, Boob, Lynda-Bob, Carria-Ronny, Carolee-Roy, Carolyn-Bryant.

Karen, are you still wondering about that big box?

Couples at the banquet Saturday night were Wendell-Lynda, Jo Wynn-Woody, Pat-Jimmy, Scherri-Junior, Paul Bax-Ella Ann, Carolyn-Dale, Arcina-Kenny, Roy Lee-Carolee. We heard that it was just beautiful!

Special message: Kenneth, please drive slower, or you'll scare some people to death.

Couples at the Plaza Saturday night were Ronnie-Carria, Boob-Elly, John-Beverly, Kay-Lace, Wea-Jo, Lynda-Bob, Gage-Jim Mack, Carol-Miles, Sharon-Billy Doyle, Vicky-Claude.

The scandal wants to know why some girls are carrying a water gun? Has someone been calling names in your presence. Hum—this could lead to another one.

Jeanette, why were you so nervous Sunday night? Was it that bad?

It's good to have Gena back at school.

Fauncey, what were you doing last Thursday night? Wonder if they got the message. It was going loud and clear in the right direction.

Hey, boys! We didn't know that you had taken up with the film industry. It sounds very interesting. Also, what's this jazz about shining shoes?

We want to congratulate Miles on his excellent taste. That hat is just way out. Don't you all think that he'd make a brilliant character in the movie, "Where the Boys Are." Naturally, playing the part of T. V.

Missing personnel: George Moss. Location: Uncle Sam's Navy. Job: Peeling potatoes. Interest: WAVES.

What's the good word this week? Beat Henrietta! Let's rim 'em up, O. K.?

Over and out for another scandalous week. Take it nice and easy! But, remember, you can't win them all! (Words from the wise!)

Home Demonstration Notes

MRS. VIRGINIA ILSENG

Ever feel like sitting on your hands because you didn't wear gloves at some function—or happened to choose the wrong color or kind? If so, you'll appreciate these fashion tips.

When to wear gloves? . . . Today there are many informal occasions when they are not needed. But do plan to wear them on the streets of a large town or city; going to and from church; at ceremonies such as weddings and funerals; attending formal luncheons, dinners, receptions, dances, the theater, opera, concerts. Once inside, you may remove them when ever you wish, except at formal dances, dinners, and receptions. Here they are usually kept on until you wish to eat.

And what about fabric? . . . Gloves are made of both leather and fabric for all occasions. Thin white glove' kid or suede leather is considered most formal, particularly for above-the-elbow gloves for evening wear. The much less expensive fabric gloves in these lengths are also correct, except for ultra-formal occasions. For ordinary daytime wear, kid, doeskin, chamois, string, suede, antelope, or fabric gloves are suitable; for sports or driving, pigskin, deer-skin, woolen or string with leather palms are recommended.

Now about length? . . . One rule always to have your glove meet your sleeve, therefore, with a three-quarter sleeve, wear a midarm glove; with an elbow sleeve an elbow-length glove. This is a sensible practice if your arms are not your best point. But if you have pretty, rounded arms and smooth elbows, there's no reason why you shouldn't wear wrist or bracelet-length gloves with almost any length sleeve. The one thing to avoid is a too-short gap between glove and sleeve that looks unintentional—as if the sleeves had shrunk.

Beige and grey co-star as the newest fashion for gloves for spring. White gloves may be worn when there is something else white in the costume. For instance, if you are wearing a white hat with a yellow coat, white gloves would be correct. Remember that contrasting colors always call attention to your hands.

What is a "one-button," "two-button" glove? . . . These terms are simply a measurement of length, starting from the base of the thumb. A one-button glove measures 1 inch from the thumb; a two-button, 2 inches, and so on. Here, in terms of "buttons" are the most popular glove lengths: shorty, or wrist length, 2 buttons; bracelet length, 4 buttons; mid-arm, 8 buttons; crush, 10 buttons; elbow, 12 buttons; opera, 16 buttons; shoulder length, 20 buttons. Gloves should always fit like a glove.

Field Trials Scheduled for Matador Ranch

In conformity with a program of dual use of wildlife management areas, two bird dog field trials have been scheduled for the Matador Ranch in Cottle County, according to W. J. Cutbirth Jr., assistant executive secretary of the Game and Fish Commission. The first of these trials will be staged by the South Plains Bird Dog Association Feb. 17 to 21.

On March 3-5, the Panhandle Association will hold similar trials on the area.

The Matador Ranch was bought two years ago by the Game and Fish Commission as a management area. It has been in the process of development since that time. It has been fenced and roadways now are being built through the property.

There are 27,000 acres in the ranch, which is a segment of the famous Matador Ranch, put together in the late eighties.

Last year, 802 persons applied for quail hunting permits; 497 were issued and 251 hunters showed. They got 647 birds.

Over 40,650 tons of food, delivered in 4,225,000 packages, will reach hungry people in 20 countries as gifts from Americans who give \$1 per package to the CARE Food Crusade, New York 16, N. Y.

Offers to Help Any Depressed Area

The Chamber of Commerce of the United States has offered to help any depressed community in the country start its own program to attract new industries, create new jobs, and improve blighted areas.

According to the National Chamber, its members report that industries looking for new plant sites are most interested in communities that are hard at work trying to improve themselves.

"The plight of people living in depressed areas must not be overlooked," the National Chamber says, "but the depressed areas must take the initiative."

The National Chamber's community self-help program is operating in Erie, Pa., and starting in four other cities. The Chamber is making its staff available to help other communities start this program. The federal government is cooperating with states in technical programs like vocational re-training.

"Most people in depressed areas are the unfortunate victims of progress, but they must adjust," the Chamber says, "because progress means that the old must give way to the new. We must all accept the fact that while change means that some people benefit, change also means that some people get hurt. The coming of the automobile opened up a vast number of new opportunities and jobs, but it was hard on the workers and investors in livery stables and harness businesses.

"Change is one of the prices of growth and progress. The way to grow is to push ahead. When we stop to subsidize the obsolete, we are deliberately obstructing our own growth. We are holding down economic expansion and cancelling out job opportunities demanded by a rapidly growing labor force.

"Growth is not just more of the same—it is new ideas, new products, new services. We depend on change to clear the way for progress."

Busy Indoctrinating Everyone Who Will Listen to Them

"The Communists are hard at work indoctrinating everyone who will listen with their dictatorial theories under the guise of being interested in the welfare of the common man. They infiltrate every walk of life and their prime targets are our young people who, unless we instruct them properly in the wisdom of private enterprise as opposed to government control, will know only their side of the story and the Communists will win the war without ever dropping a bomb. The penalty, of course, will be enslavement." — Apple Valley, Calif., News.

Welfare State Likely to Arrive via Social Security

"The Welfare State, both feared and desired, seems likely to arrive via Social Security. Steadily, the Social Security tax expands and the promises and 'benefits' grow. Already, without additional legislation that the liberals in Congress are arguing for, the Social Security tax will, by law, reach 6 per cent in 1969." — San Diego, Texas, Facts.

Texas Exchanges Quail for Chicks With Nebraska

Greater prairie chickens from Nebraska will be given an opportunity to get a foothold in Texas, according to H. D. Dodgen, executive secretary of the Game and Fish Commission. Twenty of these birds were flown into Texas last week and released on the Flat Top Ranch, southwest of Fort Worth.

More of the birds will also be brought in as they are trapped in Nebraska, according to the secretary. Texas is giving scaled quail in exchange for the prairie chickens. These quail are being trapped in the Trans-Pecos country, where there is an abundance of birds and a short supply of feed. On another exchange, more than 100 Rio Grande wild turkeys from the King Ranch have been shipped to Hawaii. This also is on an exchange basis, and will give the newest state a start of Texas propagated birds.

In recent months there has been an import of strippers from California, which were planted in Lake Kemp. And on the Black Gap area in the Big Bend, reports are that the Big Horn sheep imported from Arizona during the past two years are doing really well in the 600-acre predator-proof enclosure.

No Surprise

"The average taxpayer may feel no surprise at all when informed that, as a news service put it so neatly, 'a record number of taxpayers paid record federal income taxes this year on record 1959 earnings.' The individual taxpayer, recalling his own painful disbursements to Uncle Sam, may be inclined to say, 'It figures.' "The only consolation is that the money goes for a good cause—to keep the governmental ma-

chinery of this great nation but it takes a lot of money to pay for the losses that some of the leaders plugged." —Clarkdale, Register.

Southwest GROWTH

Excellent yardstick to determine plant location

In the past decade a quiet revolution has taken place in the Southwest. Southwest has become a booming growth area. In addition to a population increase 27% higher than the nation, personal income rose over 67%, retail sales increased 84%, and value added by manufacture up 87%. This phenomenal growth means there is a probable opportunity here for industry today, and even average potential for the future.

As an industry operating in and serving the CENTER OF THE WEST, we benefit from and contribute to the growth of the area. Our 80% increase of 1957 in the past decade is a vital picture of the industrial opportunities available in a vital part of the area. We have information about markets, labor, taxes, costs, transportation, community growth factors. We are prepared to compile market data, business facts and plant location studies designed for your specific needs.

Let our area representatives start to work for you in a direct and without obligation.

INVITING NEW INDUSTRY

is one way we work to help build this community

The advertisement reproduced above is appearing in a number of national publications to promote the industrial advantages of this area. It is the first of our 1961 area development national advertising schedule which is to run throughout the year.

THIS year, West Texas Utilities Company is expanding its area development activities because we believe the growth opportunities ahead demand it.

We believe our service area faces growth unlimited because we are the center of the Southwest, and the Southwest is growing faster than the Nation.

This is the kind of story we are telling American industrialists in our national area development advertising. It is being supplemented by colorful folders depicting the industrial advantages of the area, and by personal visits which our representatives will make during the year.

Through the expanded area development program, we are working to help build this community, because as the Southwest grows, so should West Texas Utilities grow... and the communities we serve.
