Foard County Wins Eleventh Place on Its Exhibits at Fair

Out of 42 counties entering the contest for prizes, Foard County won eleventh place with \$150 in cash. The counties standing above this county are Hale, Floyd, Randall, Dalhart, Dawson, Wilbarger, Garza, Haskell, Childress and Potter.

It was no fault of the county that it did not stand first or second in the column, and really it can be said that it was not the fault of Mr. Burns. The fact is it is to his credit that he stood as high as we did. But according to his view of looking at matters we should have been able to easily overcome the little things that were our average. One was the fact that he was cut 10 points on some of the things because it was gathered in little too green and moulded, so that he had to throw the moulded things away, leaving the bundle a little too small. Another thing was that he did not quite enough care was given in procuring a sample of wheat. We had plenty of wheat in the county that tested 64, but what we had at Dallas tested only a 61 test. All these little things had the effect to cut us down, bringing us a lower place in the column.

But notwithstanding these things Foard County did mighty well. We had not made an exhibit in several years before and we were competing with counties that are old at the business and under managements that have given the matter more study than our folks have. Mr. Rennels did exceedingly well in getting together his products and also in arranging them in the booth at the fair. He attracted a great many people were attracted by the exhibit and he thinks he will bear fruit in stimulating people to come to this county and make investments.

Mr. Rennels says he knows better how to handle an exhibit now than before he went down to Dallas and he believes we can easily win over all other counties where dry farming methods are practiced.

With a fair association organized and functioning as a live proposition, we should next year attract the eyes of all Texas towards us. Now is the time to commence.

A fine exhibit at the state fair will mean a great deal of profitable advertising for the county.

Love Manifesting Itself in Service Is Subject of Sermon

And Jesus said "Let her alone, why trouble ye her; she hath wrought a good work on me."

The above Scripture furnished the text for Sunday morning's discourse by Rev. T. C. Willett.

The pastor gave discussion to the memorial established by this woman, a memorial worth while because of its endurance as such and because of its sacrifice and symbol.

The breaking of the alabaster box with its costly ointment, represented the saving of a considerable period of time and was regarded by some as a reckless waste, but the Savior did not so regard it. It was a memorial that would endure for all time and was a manifestation of Mary's great love for him.

It is regarded as a symbol of the breaking of Christ's body and the contents representing the pouring out of his life for the salvation of the world. Again the breaking of the box showed that the woman was eager to give all the ointment, just as Christ's blood was all given for the redemption of man. Giving all showed complete sacrifice.

One of the practical lessons to be drawn is that whole-hearted service only is acceptable to Christ. Just as he gave all, so we are to place at his command our lives to be used according to his will.

Boy Scouts Are Reorganized with Aid of Vernon Man

Scoutmaster Taylor and his troop of boy scouts from Vernon visited Crowell Friday night, meeting with the Crowell troop and a number of citizens of the town in the district court room where a reorganization of the local troop was perfected.

The Crowell boys have encountered the difficulty of procuring a scout master who could give them the necessary time and attention to make the movement a success and it was principally to supply this need that Mr. Taylor came.

A. T. Schooley was appointed some weeks ago to act as scout master but he finds his time so completely taken up that he can not give the boys his time as he would like to, so after looking about for a man Garland Burns was finally persuaded to take the responsibility of the work, with the understanding that T. P. Reeder and Q. R. Miller share the responsibility with him by acting as assistants and agreeing that one of them would always be ready to take Mr. Burns' place in case he could not be present with the boys. This agreement seemed to be hearty on the part of all and it now appears that the success of a troop is assured. Mr. Taylor said he would assist these men in every way possible, even by supplying them with a weekly program that would be at least an outline to follow.

Mr. Taylor is very much interested in the movement and wants Crowell to have a live troop of boy scouts and he is making quite a sacrifice in coming to Crowell from time to time to assist in launching the movement in any way he can and at the same time works every day in Vernon.

One of the difficulties met in the matter here has been that of securing somebody that could give his time as scout master. The choice of Mr. Burns, with his assistants, is a good one and the boys have the utmost confidence in these men to believe that they will build up a live and active troop of scouts here. Most people here are interested in the matter to the extent that they would like to see it succeed, but it requires the personal attention of somebody, and every one is pleased that Mr. Burns is willing to take this responsibility and with his efficient help it is believed the movement will be a success.

It is a great thing and we believe that if every one would realize that fact, the co-operation and assistance of the entire town would be forthcoming.

Let us get behind the proposition and help them make it what it ought to be made. The boys need the physical and moral training they will get from it and the town and community need such men as that training will give them.

Committee Working Towards Organizing Permanent Fair Assn.

A committee has been and is now working with the aim of organizing a permanent County Fair Association. This committee is composed of J. F. Long, M. L. Hughston, C. T. Schlager, Fred Rennels and Leo Spencer.

This committee is selling stock in the organization and had up to the early part of this week sold 28 shares at \$10.00 per share, making 280 subscribers.

The intention of the committee is to sell enough shares to enlist a wide general interest and to insure the financial side of the proposition so that it will be a permanent thing.

They will lease the property on which the fair has heretofore been held and erect permanent buildings so that the needs of a first class county fair can be taken care of.

Practically all the business men, it is thought, as well as many others, will gladly co-operate with the committee to make this a success. All will be given an opportunity to thus manifest their attitude towards it. There is no limit as to the number of shares an individual may buy, but it is recognized that it is better that the organization be composed of many small shareholders than only a few large ones.

Those having already purchased shares are as follows:

G. D. Self	\$10.00
Fox & Sons	\$10.00
Q. R. Miller	\$10.00
Crows-Long Hdw. Co.	\$10.00
Ferguson Bros.	\$10.00
Massie-Stovall Gro. Co.	\$10.00
C. T. Schlager	\$10.00
George Hinds	\$10.00
Mack's Filling Station	\$10.00
R. B. Edwards Co.	\$10.00
R. W. Porter	\$10.00
C. E. Flowers	\$10.00
A. F. McMillan	\$10.00
J. E. Thompson	\$10.00
W. R. Womack	\$10.00
Haney-Rasor Grocery	\$10.00
Bert Bain	\$10.00
Matthews-Crawford Gro. Co.	\$10.00
Sam Crews	\$10.00
T. L. Hughston	\$10.00
Frank Hill	\$10.00
W. F. Kirkpatrick	\$10.00
R. R. Magee	\$10.00
T. B. Klepper	\$10.00
H. L. Kinsey	\$10.00
Jesse Owens	\$10.00
Fred Rennels	\$10.00
Leo Spencer	\$10.00
J. E. Bell	\$10.00

Valuations in Crowell Independent District Increased \$300,000

Before the close of the term of 1923-24 it became apparent that the Crowell Independent school district would be forced to make some provision for increased finances for the school another year and the board took the matter in hand of making its own assessments with the view of raising the valuations so that it could get enough money to run the school. This work was finished last week and the rolls turned over to the tax collector.

According to that roll the valuations this year are a little more than \$1,000,000 as against \$1,300,000 last year, making an increase of approximately \$300,000. This should give the board about \$3,000 more money for school purposes, which it is hoped will be enough by the strictest economy from now on out. Last year the board lacked about \$2,000 having a deficit. So that it can be seen at once that it will not have an abundance of money, if even enough. It will depend largely upon the amount of taxes collected.

In view of the fact that this has been a fairly prosperous year and in view also of the fact that the State apportionment will be raised from \$12 to \$14 per capita, it looks as if the school ought to go through this term and at least break even.

However, there are always many expenses unforeseen that must be met and it can only be hoped that these will be reduced to the minimum.

For the very reasons above specified the school board will insist on the payment of every dollar of tuition on the part of transfers and boarding students where it is due in order that the school may get by without going in the hole. We are taking the liberty to say just here that the school board is a unit on that matter and it just as well be put down now that where tuition is due that tuition is going to be collected or those students who must pay and refuse to do so will be suspended.

Here is the proposition. There are a number of pupils from districts outside the Crowell Independent School District who have transferred their State apportionment of \$14.00 to the Crowell school. This will pay about four months tuition, or a little less than half the cost of a nine months term. The people of the Crowell Independent School District pay this additional amount in special taxes. This district gets none of the special taxes of the districts from which pupils are transferred. That is what this tuition charge is for.

Also there are some who are enumerated in outside districts but who are boarding with some relative here as if they were making that their home. They will be asked to pay tuition or quit school.

There is only one way to do the thing and that is the right way. Every reasonable person knows what that is.

Foard County Will Have Third Annual Poultry Show in Dec.

It has been definitely decided that Foard County is to have its third annual poultry show, and while the exact date has not been fixed, it has been decided to have it the first week in December. It will be under the auspices of the Chamber of Commerce and the Foard County Poultry Association.

Every one remembers the fine shows we have had in the past, that they have compared favorably with the best in the country, and that this can be repeated admits of no argument.

The fact is, the show of 1924 should be better than ever for the simple reason that poultry people in the county have been improving their flocks each year since the first show. They have gone from these shows with increased interest in the poultry business and with the determination to improve their flocks and surpass their neighbors in their exhibits the next time.

Foard County has some mighty good birds. Every recognized breed is produced in the county and the foundation for them have come from the best flocks in the State.

There is one thing the News wants to urge, and that is that every person in the county who has good birds bring them to the show. After nearly every poultry show some one may be heard to remark: "I had better birds at home than any I saw at the show." Well, then why did you not bring them? Let everybody bring his stuff and put it on display. That is the only way it can be known where the best is and just how good it is. If you have good chickens and do not bring them to the show you are hindering the poultry business to the extent that you are not making it known what is here.

Every person may help the poultry industry in the county by getting in behind this business and boosting to beat the band from now until the first week of December. Talk the matter and tell everybody what a good thing it is. Not only that, but get busy right now and pick out a few of the best chickens you have and begin to put them in trim for the big show, then stick them into a coop and bring them with you to the show in December. That's the way to co-operate in the matter and you will be helping the cause wonderfully.

The poultry business has grown to be something worth while, not only here but all over the country. And it is yet in its infancy. It is one of the promising industries of the West. It is already bringing thousands of dollars to this county. A good bunch of revenue-producing hens on every farm in Foard County would be worth more than half a dozen oil wells.

W. D. Mahn Dies from Having Taken Wrong Medicine by Mistake

W. D. Mahn, residing with his daughter, Mrs. Nevt Johnson, died Monday, October 20th, after having been poisoned some days before by taking the wrong medicine.

He had been under treatment of the physician and had two kinds of medicine, one to take inwardly and the other to apply outwardly. He got up one night to take his medicine and got hold of the wrong bottle, taking the medicine that should have been applied locally. It poisoned the man but he lived some days, finally dying Monday from the effects of the poison.

Mr. Mahn was born in North Carolina March 29, 1854, being in his 71st year when he died.

Burial took place at the Crowell cemetery Tuesday.

Attended Funeral of Homer Ferguson

N. P. Ferguson, S. J. Ferguson and wife and H. E. Ferguson and wife attended the funeral of their nephew, Homer Ferguson, who died Friday of last week at Albuquerque, N. M., where he had been residing. He was 36 years of age and had been manager of the Swift & Company's plant in Albuquerque for some time. He was a son of T. M. Ferguson of Vernon for burial, which took place Monday.

Mr. Stephens' Oil Interests Enlarging

W. H. Stephens, who, for the past few months has been at Vernon on account of his interests in the Vernon oil field, was here Saturday and Sunday visiting his daughter, Mrs. R. L. Kincaid. He was making his home here prior to the bringing in of a well on his property several months ago, and we understand that he still claims this as his home.

Mr. Stephens says after having drilled deeper in the first well brought in on his property they got a well that flows 3,500 barrels a day. He leased 100 acres of his land for \$40,000 a short time ago.

Dallam County Spends \$750,000 on New Schools

Dalhart, Oct. 19.—Nearly \$750,000 has been expended in new schools in Dallam County the past two years, giving to the county, including Dalhart and Texline, practically all new modern schools, well equipped and adequately supplied with good teachers.

Dallam County has been especially unlucky with fires in connection with her school buildings, this bringing about some of the necessity for this enlarged school program, with general development and setting up of the country being in close second. Three new schools costing \$400,000 have been completed in Dalhart; a \$150,000 high school at Texline and consolidated district schools at Ware, Perico, Conlen, Colony and Mountain View.

All districts are supplied with auto conveyances which take the children to and from school daily.

Former Crowell Man Dies in Oklahoma

Mr. and Mrs. Jim Gribble and "Aunt" Julia Gribble were called to Greentown, Oklahoma, last week on account of the illness of "Uncle" Zeke Chastain who had been residing there for some years.

Mr. Chastain had been suffering from dropsy for some time. He died Saturday and was buried Sunday.

Mr. Chastain was a resident of Foard County for a number of years prior to his going to Oklahoma and is remembered by many of our people. He married the daughter of Mrs. Julia Gribble of this place.

ABILENE PREACHER TO BE AT FOARD CITY SUNDAY, NOVEMBER 2

Dr. Fry, Bible teacher at Simmons, will be at the Baptist church at Foard City the first Sunday in November to preach at the 11 o'clock hour in the morning and at 3 o'clock in the afternoon.

Dr. Fry is a well known preacher and many of our people have heard him. The church at Foard City extends an invitation to all to come and hear him on November 2nd. Remember it is the first Sunday, which is the second day of the month.

Black Community News (By Special Correspondent)

W. W. Nichols was on the sick list the first of this week.

Miss Minnie Douglas spent Saturday night and Sunday with Mr. and Mrs. Eldon Crossnoe of Foard City.

Mr. and Mrs. Sherman Nichols were visiting Mrs. Nichols' father and mother, Mr. and Mrs. B. F. Whately, the past week-end. Mr. and Mrs. Nichols are located at Thalia.

Mr. and Mrs. Sam Scales of Crowell spent Sunday visiting in the home of Mr. and Mrs. S. W. Gentry.

Morris Kenner of Crowell was in this community Sunday morning.

Another nice rain fell over this section of the country Tuesday morning.

The only difference between summer silk hose and winter silk hose is that winter hose are thinner.

The first step in getting rid of a fault is to admit it.

Ten-A Class Organized

Class A of the tenth grade selected their colors, flower and officers at the same meeting. Officers elected were: Ralph Hunter, president; Robert Long, vice president; Mamie Lee Collins, secretary-treasurer; and Addie Smith, reporter. Minnie Ola Nash, Florence Griffith, Cornelia Beidleman and Myrtle Hunter form the social committee.

Committees to select the class song, motto and yell were appointed.—Reporter.

Nov. 4th, Election Day, Is Little More Than One Week Off

Almost before one knows it general election day will be upon us, next Tuesday week, November 4th.

It should not be necessary that any one's attention be called to this and yet many of us are so busy that it is easy to forget. This is simply to remind the voters of the county of the approach of the day, which to all of us is a very important one.

Neither should it have to be urged that it is the duty of every voter to go to the polls and express his choice in the selection of men to fill our public offices. Every one knows that it is his duty to express his wish and when that is done it matters not what the results are all people should be satisfied. It is the only way for the majority to rule. When we have minority rule it is when people are too busy with individual affairs to go to the polls and express their choice.

The election on November 4th will be one of the big elections. We will vote for men for office all the way down from President of the United States to constable of a precinct, and the biggest vote of any election year ought to be registered.

It is expected this year that the results will be quickly known because of the small size of the ticket. There will be only three ballots, the Democratic, the Republican and the Independent, so the results of the election can be quickly known and the returns made within a short time after the polls have closed.

J. M. Clayton while in town last Saturday gave the News office a nice job of printing. It consisted of the minutes of the fifteenth annual session of the Northwest Brazos Association of Freewill Baptists which convened with Pleasant Hill Church of this county on the 11th, 12th and 13th of September, 1924. Mr. Clayton is clerk of the convention. The convention will be held with the Seymour church next year.

Boy Tells of Trip to the State Fair

A free trip was offered by Swaim's Garage to the boy who could produce the most fetterita on one acre of ground. I happened to be the lucky boy.

We left Crowell on the night of October 13th, and arrived in Dallas on the morning of the 14th. I went immediately over to the boys' dormitory where we ate and slept. The dormitory consists of about twenty rooms. There were between three and four hundred boys there. The boys from our county were Ollie Bledsoe, Wilbur Benham and Earl Smith.

We had the opportunity of going through the club boys exhibit hall where we received some ideas as to how to arrange our products for the next fair. We were also welcomed to the Farm and Ranch building, which we went through. We went to the top of the Magnolia building from which we took a look at Dallas. We went through the Dallas News building, also that of Sears & Roebuck.

I think it is well worth any boy's time to try for the trip.

EARL SMITH.

Margaret Young Couple Married on Thursday, October 9

The News learned last week that license had been issued at Vernon for the marriage of Mr. Roy Ayers and Miss Rose Hlavaty, both of Margaret, but we never learned of the marriage until this week.

The young couple are said to have gone to Dallas after procuring license at Vernon and married at the First Methodist parsonage in that city. Dr. C. C. Gregory performing the ceremony on October 9th.

Mr. Ayers is a son of Henry Ayers of near Margaret and has been with the Hunter Grain Company of Margaret for some time. He is a leading business young man of this county.

Mrs. Ayers is the daughter of Mrs. Leo Hlavaty of near Margaret and was for some years a student in the Crowell schools, having graduated here about two years ago. For the last year or more she has been employed in the public schools of Wilbarger County, having taught in the West Vernon school last year.

Mrs. J. A. Wright returned home last Sunday from Dallas where she was called ten days ago on account of the serious illness of her sister, Mrs. Jane Julian, who died Monday morning, Oct. 13. The deceased was 80 years of age, and is known by many Crowell people, having visited here many times. Burial was made in a Dallas cemetery, the funeral being conducted by Dr. Selectman, president of S. M. U.

Mr. and Mrs. T. F. Welch returned Tuesday from a visit with Mrs. Welch's parents, Mr. and Mrs. J. F. McLain, at Anna. Mr. Welch says the rain did not extend any further east than Decatur.

The seeds of discontent never raise a profitable crop.

Rude men always hide behind the excuse that they are practical.

Fat men seem to get more out of life than fat women.

Fire Prevention Week was celebrated, and after it is over we let fire prevention shift for itself until next October, when we will get anxious about it again.

He is a wise politician who can distinguish between a burning issue and a blaze of indignation.

Men with distinguished airs seldom ever distinguish themselves.

Scientists say Mars has two moons. Now, if it were back in the old days, we might be inclined to doubt it.

Every man should have enough religion to enable him to quarrel about it.

A college professor says the world is ten billion years old. And it still has a lot to learn.

People who pay some attention to the middle never have any trouble making both ends meet.

Lem Davidson was transacting business in Crowell Monday.

Herbert and Henry Fish of Crowell spent the week-end with their parents, Mr. and Mrs. Egbert Fish.

BESSIE BANKS TRIO

Three young women of exceeding good looks and unquestioned musical talent are found in the Bessie Banks Entertainers, which company will appear on Saturday evening in the court house, as the first number of the local Lyceum course. Personality and appearance play such a large part in the success of an artist, and because these musicians have both of these attributes as well as talent, they have made a tremendous success wherever they have appeared.

Miss Bessie Banks is a reader, plays the cornet, and accompanies at the piano. She received her training as a pupil of Elias Day and was graduated from the Lyceum Arts School of Chicago.

Miss Blanche Hammond is a soprano soloist with a voice of remarkable sweetness, and is also a pianist. Her vocal studies were carried on with Theodore Harrison, of Chicago, and her piano instruction was gained at Knox Conservatory of Galesburg, Illinois, of which she is a graduate.

The third member of the company, Miss Mabel Forrester, is a violinist. She is a graduate of the Illinois State College, Jacksonville, and also studied at the American Conservatory, Chicago. Her playing shows sound musicianship, and she has had extensive professional experience.

The program given by these young women includes vocal and instrumental arrangements, readings and dramatic sketches. A Chinese novelty is a feature of the evening, and the ensemble of cornet, violin and piano is especially well given. The repertoire embraces semi-classical and popular numbers.

Chinese songs and other costumed numbers will feature the program to be given on Saturday evening at the court house by the Bessie Banks Entertainers. An enjoyable evening of strictly high class entertainment is in store for those who hear this delightful group of young women. The three members are not only very talented in vocal and instrumental music and elocution, but are all very attractive in appearance as well.

Miss Bessie Banks, who heads the company, has been a Lyceum favorite for several seasons. Her readings have been highly commended everywhere she has appeared. In addition, she is a cornetist and an accompanist.

Her assisting artists include Miss Blanche Hammond, soprano soloist, and pianist; and Miss Mabel Forrester, violinist. Both of these artists have had extensive training and no little experience before the public. Miss Hammond's voice is one of remarkable sweetness, and Miss Forrester's playing shows sound musicianship and musical appreciation.

Matthews-Crawford Grocery Co.

THE FOARD COUNTY NEWS

KIMSEY & KLEPPER, Owners and Publishers

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, October 24, 1924

GENERAL CONDITIONS PROSPEROUS

Perhaps nobody in Foard County is coining money, as we use the term, neither are there any whom adverse conditions have reduced to a state of beggary. Our people occupy that happy medium so conducive to happiness and contentment as to justify their claim to the best of things.

The country is fairly prosperous. Good crops have been made and fair prices realized, so that reasonable profits have been returned upon the investment of capital and the expenditure of labor. This should be satisfying. There is no surplus labor, but all who are willing to work can now be earning something every day.

Then, too, the country looks good. While a splendid cotton crop is being harvested newly sown wheat fields are giving promise of a future harvest. Of course, that is months away, but we are merely taking note of the present. And while we are speaking of this we can't refrain from expressing the belief that within the last few years improved methods of farming have eliminated largely the element of chance accompanying that vocation. Favorable conditions have come to mean more than at one time and unfavorable conditions are largely being overcome. This means more regular succession of normal years of business and a more steady development of the country.

Only the craving heart could wish for more. Why not be content with the good things we have and be thankful to Providence for them?

At the Methodist Church

Last Sunday of this conference year. Let us make it a good one. The pastor will preach both morning and evening. Morning subject: "The Story of the Forgotten Man," a thrilling story of a most useful citizen. Evening subject, "And He Fell Among Robbers."

T. C. WILLETT, Pastor.

TRAINING THE DISABLED

The U. S. Veterans' Bureau, though it has been condemned, is doing a very creditable work in restoring disabled ex-service men and women so that they may again take their place in the world and become useful citizens.

The bureau is appealing to prospective employers to give consideration to these men and women, who seek not charity, but a chance to earn a living.

The fact that they have not permitted their handicaps to darken their lives, but have striven to fit themselves for a productive occupation, is recommendation enough that they will make valuable employes.

There are approximately 52,000 men and women in vocational training and 67,000 have already been rehabilitated and have gone into employment.

They are normal in appearance, ability and their desire to be self-sustaining. Less than five per cent have any apparent disability and more than ninety percent are able men and women, viewed from the standpoint of the occupation for which they are being fitted. Their disability consists of handicaps only insofar as their prewar occupations are concerned.

They deserve wise and sympathetic consideration, not alone because of the service they rendered their country in time of need, but because they have shown a determination to overcome their handicaps and take their rightful places in gainful employment.

Adelphian Club

The Adelphian Club met October 15 at the home of Mrs. Jesse Owens. Roll call was answered with memory gems from "Everyman," a morality play.

Mrs. L. A. Andrews in a very interesting lesson taught us to understand more clearly the technique of the one-act plays and how to write them. In addition to "Everyman," "The Stronger Woman," "Motherly Love," "Paria" and "Simoon," four one-act plays by August Strindberg, a noted Swedish playwright were studied. From the study of Charles J. Finger's "Hints on Writing One-Act Plays," we learned that a person must be a real genius to write one.

Refreshments were served by the hostess to twenty members and two guests, Mrs. Frank Long and Mrs. C. N. Campbell of Washington, D. C.—Reporter.

Are You All Run Down?

Many Crowell Folks Have Felt That Way

Feel all out of sorts? Tired, achy, blue, irritable? Back lame and stiff? It may be the story of weak kidneys!

Of toxic poisons circulating about Upsetting blood and nerves. There's a way to feel right again. Help your weakened kidneys with Doan's Pills—a stimulant diuretic.

Doan's are recommended by many Crowell people:

Mrs. Mark Wilcox, Crowell, says: "My back was awfully weak and darting pains went across my kidneys when I tried to lift. Mornings my muscles were lame and stiff and I was unable to stir around very much. A run down, played out feeling was always present and my nerves were on edge, too. I had dizzy spells time and again and also my kidneys acted frequently. Several boxes of Doan's Pills strengthened my kidneys and stopped all the other troubles."

Thalia Missionary Society

The Thalia Woman's Home Missionary Society met at the Methodist church Monday afternoon, Oct. 20. There were 13 present and one new member.

Mrs. M. S. Henry and Mrs. C. P. Sandifer of Crowell met with us and helped us in the first lesson in our mission study book, "The Leaven in Japan." Mrs. Henry also gave a very helpful talk on the duties of our officers and of the society as a whole. The question of lighting the church was brought before the society, and a committee consisting of Mrs. H. A. Gray and Mrs. E. G. Grimsley was appointed to investigate a proposed plan.

The next meeting will be held at the church on Monday afternoon, Oct. 30, at 3 o'clock. All the members are urged to be present and bring as many new members as you can.—Supt. of Publicity.

One advantage to public improvements that has been overlooked. Watching their progress provides occupation for loafers.

STAR PARASITE REMOVER

Given Chickens in drinking water will rid them of Lice, Mites, Fleas, Tiggers, Blue Bugs and all other blood-sucking parasites, and save many young chickens that these pests kill. Also is a good tonic and blood purifier. Keeps fowls healthy and increases egg production or money refunded.

FERGESON BROS. DRUG STORE

BESSIE BANKS ENTERTAINERS

Each member of the Bessie Banks Entertainers, which company will be heard here on Saturday, Oct. 25, at the court house, is an artist of musical attainment, and each has plenty of that rather indefinable thing called "personality." This happy combination has enabled the three young women to prepare a program of wide popular appeal, and they present it in a manner which immediately places them in the front rank of popular concert organizations.

Miss Bessie Banks is a reader, cornetist and an accompanist. She is a graduate of the Lyceum Arts School of Chicago, an advanced pupil of Elias Day. She has been a Lyceum favorite for several seasons, and her work has been highly commended everywhere.

Miss Blanche Hammond has a soprano voice of remarkable sweetness, and her technique is an ample testimonial of the work of her teacher, Theodore Harrison, of Chicago. She is also a pianist of ability, a graduate of Knox Conservatory of Galesburg, Illinois.

Miss Mabel Forrester, violinist, studied at the American Conservatory of Music of Chicago. Her work shows sound musicianship and musical appreciation. She is a graduate of the Illinois State College of Jacksonville.

The program given by the Bessie Banks Entertainers consists of vocal and instrumental arrangements, readings and dramatic sketches. Fascinating groups are given also, featuring Chinese songs and novelty numbers. Their entertainment is one of dignity and charm, highly artistic and most enjoyable.

A MINISTER ON TRIAL

Rev. E. M. Wheatley was on trial at the Christian church Sunday night. The church was so well pleased with the way he defended Christ and the church, that the congregation extended him a unanimous call to be their pastor for half time. Bro. Wheatley is a young man and comes highly recommended both as a strong preacher and Christian gentleman. He will preach at Crowell the 2nd and 4th Sundays each month.

The first service will be the 2nd Sunday in November. Come to the first service.

At the Christian Science Chapel

Sunday services at 11 a. m. and 7:15 p. m. Testimonial services Wednesday at 7:15 p. m. Subject for Sunday, Oct. 26, "Probation after Death."

The public is cordially invited to attend these services.

Things in General

HAPPINESS

There are all kinds of institutions, but none quite as unique as the Freedman club for bankrupt millionaires.

To live there, one must be past 60 years old, be cultured, have known wealth and luxury but through bad fortune have been reduced to poverty, must have refined surroundings and must be married, because all of the apartments for single folks are occupied.

Those of us who can't qualify for admission may always be happy over the fact that we do not want to.

For being a millionaire is not the supreme thing in life. To be one whose wealth runs into the millions is misfortune enough, without being reduced to poverty past 60 years of age after knowing luxury which spoils one for a happy life in moderate circumstances.

It isn't so much what we possess or are in this life, as what we think we have and are.

The baby with his first toy is happier than the rich man with his leisure and means of amusing himself with any pleasure he desires.

Happiness is in the imagination and life is just what we make it, regardless of what our social station may be.

A PROFITABLE PASTIME

Boosting, like an infectious disease, is "catching."

Those who boost find in time that their whole system is permeated with the spirit of boosting and that their viewpoint on every question is better.

Honest boosting is profitable. It reacts favorably and brings results when everything else fails.

Boosting renders a service for the booster. It takes his mind off the petty things which occupy his attention and prevents him from developing a clear case of brain fog.

Even though it be for selfish reasons, boost and then boost some more.

And when you get the right mental attitude for boosting, take your early training in boosting for Foard County.

There is no better place in the world to live. We all believe that, but we don't think about it often enough.

This community which we call home may have disadvantages. But when that idea works its way into your thoughts, push it out by enumerating in your mind some of the many drawbacks of communities you know.

Foard County never suffers by comparison. It always will grow in your estimation if you will take a few minutes now and then to think over some of its good points.

And its disadvantages? They will disappear when we boost together as we should for its betterment.

FOOD FOR REFLECTION

Farmers need only to reflect on the difference between prices they are receiving now and a year ago to appreciate that their business has made marked improvement.

Wheat is now selling in Chicago at \$1.30 and a year ago it was \$1. Corn is being sold above \$1.15 and was then worth only 85c. Oats is quoted near fifty cents and twelve months ago it was less than forty. Rye was then 66 cents and now it is bringing above \$1 a bushel.

Wool is selling for more than it did a year ago and hogs have been selling around \$12 compared with \$9 at this time last year. Cattle and sheep are slightly lower than quotations a year ago and hay continues to bring as good prices as in the fall of 1923.

Butter is slightly lower, but eggs are dearer than they were a year ago and lard is distinctly higher.

And best of all, for the farmers as well as those who do not depend upon the products of the soil for a living, the cost of living is no higher than it was last October.

We read of a man who was arrested for having cider in his cellar. That was hard.

Confidently now, isn't an issue something most candidates think they can win on?

Eastern college students propose a debate on "Resolved, That We Put Our Grandchildren." And a hundred years hence their grandchildren will be pitying them.

You can't tell just by looking at a boy whether he is going to be a leading hitter on a big league team or just president of the United States.

There is some dispute about which political party caused the post-bellum deflation, but we are all agreed that somebody let the gas out of the gas bag.

HOW DOCTORS TREAT COLDS AND THE FLU

To break up a cold over night or to cut short an attack of grippe, influenza or sore throat, physicians and druggists are recommending Calotabs, the nascent Calomel tablet, that is purified from dangerous and sickening effects. Those who have tried it say that it acts like magic, is far more effective and certain than the style calomel, heretofore recommended by physicians.

One or two Calotabs at bed time with a swallow of water—that's all. No sick, no nausea nor the slightest interference with eating, work or pleasures. Next morning your cold has vanished and your system feels refreshed and purified. Calotabs are sold only in original sealed packages, price ten cents for the vest-pocket size, thirty-five cents for the large family package. Recommended and guaranteed by druggists. Your money back if you are not delighted.—adv.

Our stock of sweaters is complete for boys and girls, in a variety of styles and colors, and in all prices. Also boys suits and overcoats. Our ready-to-wear department has dresses and coats for all the school girls.

Crowell Dry Goods Co., Inc.

Our Texas Industries

(By Phoebe K. Warner)
Here is something else for the school boys and girls of Texas to study this year. And it will make the subject matter for your composition work and your junior and senior high school English. What could be more interesting to any live Texas boy or girl than to know more about what is going on and what is being done in Texas?

Until this day Texas and Texans have been the biggest producers of raw materials in the Union. Men, women and little children have spent their lives to produce something for others to do. They have done the hardest work that other people in other States and other Nations might build great factories and employ millions of others to work up the raw materials raised in Texas.

Just how many people do you suppose Texas furnishes a job? By this we mean how many people do you suppose it takes to ship the million bales and more of cotton from both Galveston and Houston to Texas did this past year, and make it up into garments of every kind and then ship it back to Texas and all over the world to be used? How many people do you think are required to work the millions of pounds of wool and mohair sent from Texas into garments ready for use? How many people are needed to make the boots and shoes our hides supply? Think of it! Texas produces more raw materials, even agricultural products than Iowa and Illinois combined which are the two other largest producing States in America. What becomes of all this cotton, wool, mohair, cream, beef, pork, and everything raised on Texas farms? Then there are all our mineral products that come from under the earth. Who works those products into finished products ready for the markets? Thus far Texas has the name and the glory of being the greatest producer of all of Uncle Sam's sons. But what becomes of its products? Not one person in a thousand, even in Texas, ever thinks of Texas as a manufacturing State. Do you?

Just listen to this. These are the very words of G. M. Knebel, Executive Vice-President, Texas State Manufacturers' Association, with headquarters in San Antonio, Texas: "Over five thousand industries in Texas are producing over \$1,000,000,000 in manufactured products annually."

Think of it! Did you know that? Almost as much as the Nation's cigarette bill. As much as the whole Nation spends on the public free education of all its children. Almost as much as the Nation spends on candy. A little more than the women of this Nation spend on the outside of their heads and faces. More than the wheat crop of the Nation. Almost as much as the egg and poultry crop amounts to in the whole Nation. \$1,000,000,000. One billion dollars worth of manufactured products are turned out annually in Texas from 5,000 different industrial plants in our own State. The finished products already made in Texas practically double the commercial values of our agricultural products which last year sold for a little more than a billion dollars. What could Texas do, and how many people would be furnished employment if even half of her raw products were manufactured into ready to use and ready to wear articles at home? This is one of the biggest problems of the future in Texas. And it is the school boys and girls of today that will have to solve Texas' great industrial problem. It is ripening for you. It is getting ready to be solved by you. It will be the problem of your generation. Are you being prepared for that day? Is the State of Texas doing all in her power to prepare the boys and girls of today for Texas' industrial day?

Here is one thing you can do for yourselves. You can look out for industrial news. You can begin to think and study Texas products, their great quantities and varieties. You can study the economic waste from field to factory and back home by the Around-the-World-Route. Yes, you can. Every high school boy and girl is old enough and ought to be

smart enough to study these things. business foundation into their heads. What our high school students need most is to review their old Ray's arithmetic for about 4 years and learn to compute interest, freight rates and transportation and study the multiplication tables and get a sure-enough

Paper Razor Strop

Ordinary newspapers folded together in a thick strip and held between wire clips make a satisfactory substitute for a regular leather razor strop, according to a European inventor. Popular Mechanics Magazine reports. The ink on the paper is said to assist in giving a keen, non-pulling edge and consequently a smooth shave. A fresh strop can be prepared in a few moments and it is especially convenient for the traveler and camper.

Full Explanation

"So you were caught red handed counterfeiting ten-dollar bills?" said the police magistrate. What have you to say for yourself?"
"I am not a malicious counterfeiter, and I should never have been arrested," replied the suspect. "I am a chemist whose interest is entirely scientific. I have been trying to make gold from less precious elements and I have only got as far as ten-dollar bills."

LEO SPENCER

Giant Thistle, Grown on Coast, in Demand

Among the profitable crops grown by Californians in the region of San Francisco is a giant Mediterranean species of thistle. Soil and climate there seem to be exactly suited to its needs, says the Pathfinder Magazine.

Attempts to grow it elsewhere have invariably resulted in failure. Like the thistles with which all are familiar, it has formidable spines, only they are longer and more cruel than the average. It has a large purple flower, so sweet scented that bees find it irresistible. Rarely, however, are the buds allowed to develop into flowers, for the buds are esteemed as a table delicacy, being harvested and sold as "artichokes."

A quarter acre for the buds is not an unusual price in San Francisco and at that they take precedence over the finest oranges, raisins, apricots, etc., for the growers craftily time their development so that they may be marketed just at the psychological moment, so to speak—that is, in midwinter, when there is little else of the same nature to compete with them. This is done by cutting back the plants in June, pushing them down to the ground. Within a short time new shoots appear. Then if plant food and water are supplied in sufficient abundance the long sunny days bring about ideal development.

The bud harvest begins in October and reaches its peak about the first of April.

Hard-Working Burglar Forced to Draw Line

Bert met his old friend Bill the Burglar and the two got chatting about things in general.

"I hear you've left your wife," remarked Bert presently. "Why did you do that?"

"Because she was always wantin' me to do somethin'," snarled the burglar moodily.

"What do you mean?" asked his friend.

"No matter how busy or tired I was, she was always naggin' me to do somethin' for her. At last, one night, it was too much."

"How was that?" said the other, interested.

"Well, I came in about three o'clock in the morning," explained Bill, "all worn out from doing too much work. I had opened two strong boxes and finished up by forcing a couple of safes, to say nothing of a vault I cracked earlier in the evening. An' then, when I got in, what do you suppose that woman wanted me to do?"

"What?"

"As I stand here, it's true!" growled Bill the Burglar. "She wanted me to open a box of sardines for her."—London Answers

Adelphian Club

Twenty-seven Adelphian Club members and visitors gathered at the country home of Mrs. W. R. Parrish about 10:30 Wednesday for an all-day meeting.

Embroidering for the coming bazaar and talking were enjoyed and at 12:30 Mrs. Parrish opened the doors leading to the dining room where we were invited to help ourselves cafeteria style to a sumptuous turkey dinner with all the accessories. After this course the hostess passed an ice with angel food cake in purple and gold, the club colors. The decorations throughout the house were yellow and purple flowers. Radio and Edison furnished music throughout the day.

At two o'clock the president called the club to order. Mrs. Duncan was welcomed into the club. The study of Oscar Wilde's "Salome," was presented by Mrs. Andrews as leader. Though the drama depicts the corrupt life of King Herod's court and the sentiment is not good, the play teaches a lesson. Mrs. Kimsey discussed Grand Opera and the spoken drama. The club was held spellbound as it listened to Mrs. Henry visualize "Salome" as she saw Mary Garden present it in Grand Opera. We felt that Mrs. Henry had given it so beautifully to us that we could appreciate "Salome" more.

The club adjourned at 4:30 and unanimously thanked the hostess for one of the nicest days spent in the club. Besides the members, the following guests were present: Mmes. Walker and Barnes of Vernon and Mmes. C. C. Campbell and John Ray of Crowell.—Reporter.

A BIRTHDAY DINNER

On Thursday, Oct. 17, at 7 p. m., at the beautiful country home of Mr. and Mrs. A. G. Bell, a birthday dinner was served in honor of Mrs. Bell's grandmother, Mrs. F. E. Hinds, better known as "Gracie," celebrating her 92nd birthday, an allotment of years that but few approach. The guests were seated at the table of good eats, most everything good to eat from turkey, dressing, salads, cranberry sauce to the loveliest angel food cake and cherry ice cream.

The guests were Mesdames Jeff Bell, Georgia Pittillo, N. A. Crowell, C. A. Adams, Joe Couch and Hubert Brown; Messrs. and Mesdames Tom Bell, Sam Bell, John Bell, J. W. Allison and Jim Gribble.

Mrs. Hinds was the recipient of many congratulations as well as a number of pretty and useful gifts.

Mrs. Hinds was born in Jackson, Miss., 1832, and moved to Texas soon after she was married and has called Texas her own for seventy years. The best of it all is that her mind is clear and good and her health is fine. May the Lord care for and return many more birthdays to this woman who has lived to honor him.—Contributed.

FREE ENLARGEMENT

EVERYTHIN PHOTIGRAPHIC

The most rushing time among photographers is the Fall season, known as the Christmas rush, which is now at hand. As the hot days are over and the cool days are here, most everybody feeling good, so now is the time to have your beauty struck. But listen, don't wait until we are "sonwed" under with work. Come early so we will have time to turn you out a real nice piece of work. It pleases us to please you. Think it over.

We are expecting the biggest rush this fall we have ever experienced, and the only way to handle it successfully is to start in time. So in order to get a large portion of our Christmas work off our hands early, we are going to make this offer. From now until the 15th of November we will give a nice 8x10 inch unmounted enlargement with every \$6.00 order for photographs, and a 11x14 inch enlargement, finished from same negative, with every \$10.00 order.

Now is your chance to get something nice. Who will be first?
