Think Twice

Every day each of us has an opportunity to do something, but often at the expense of another person. The other person may not seem important to us, especially if he stands in the way of something we want. However, we must think of others. This world would be in a much better condition today if we thought of others—

other nations and other people. In our own daily lives, too, we need to feel a responsibility to our parents, teachers, and friends. We must be aware of "stepping on someone's toes" or hurting someone deeply. Yes, before we act, we must think twice. Remember, someone else counts besides your own self.

Band Squeaks

At 6:50 a. m. Saturday morning, all the sleepy band students gathered at the band hall to leave for the Sweetwater Band Festival. That morning the band played two numbers in concert, "Prairie Prince" and "Green Aces" and two in sight reading. The band students had most of the afternoon free. At 4 p. m., everyone was entertained by the Lackland AFB band. Immediately following, there was a parade consisting of the nineteen bands entered in the festival. To conclude the festival, all the bands gathered on the court house lawn where, in mass concert, they played a march and "The National Anthem." The winning bands were then presented their trophies. We would like to congratulate our neighboring school, Munday, on its band winning the trophies in class A. We would also like to congratulate our own concert band for placing second in this event in class A.

Ex-Student Makes Good

Cited for generously donating a gallon of blood to aid the sick and injured, Gene P. Pogue, 3291 Glenwood Lane, was presented a certificate of merit Wednesday by the Wichita Falls Times and Record News. He was also named a member of the Red Cross Gallon Club and praised by blood bank officials for his life-saving contribution. Owner of Gene's Tasty-Burger at 1899 Holiday and Gene's Diner at Call Field and Lake Roads, Pogue has been a resident of Wichita Falls since 1952. He is not married. From 1956 to 1958, he served in the U. S. Army in Germany as a food computer for some 10,000 troops. Pogue is a member of the Floral Heights Methodist Church where he serves on the official board of stewards. He also serves as president of the Upper Room Sunday School Class, a newly organized group for single career adults in the young people's department.

Annual News

The Roundup staff has been industriously working on the 1961 Roundup, and they now lack about one-third of the material having it completed. The students who bought annuals and have only partially paid for them, are requested to make their final payment by April 1.

Area IV Meet

Sign seen on Tarleton State campus: "Playboys, rise early on Saturday morning, 3,000 high school girls coming." Well, such a thing did happen! The reason—an area F. H. A. meet. Crowell had five to attend. Mrs. Doyle Kenner, sponsor, Alta Bartley, candidate for office; Cecelia

Drabek, voting delegate, and Dorothy Denton and JoAnn Schwarz, as members of the area choir, were present.

The girls thoroughly enjoyed themselves. They left Crowell at noon on Friday and returned early Saturday night. Between these times, new friends were made, and everyone had a "blast."

Test! Test! Test! Test!

Had you rather be a garbage collector or a chemist. This was one of the questions that the seniors were faced with last week. The seniors were given four tests in all. They were the "Fundamentals Evaluation Test" which measures the achievement of the student's progress; "Kuhlmann-Fench test, to test the I. Q.; "Aptitude Tests for Occupations," "Kuder Preference Record" which shows vocational preference. Colleges require that the grade made on some of these tests be recorded on the student's high school transcript. It is true that the college in which a student enrolls knows his record before he knows it.

This series of tests is only a beginning for many of the students, for they will be faced with many other tests upon entering college. In fact, much of the grading in college depends upon one's test grades—not upon daily preparation.

Senior Personality Of the Week

Paul Newman and Elizabeth Taylor are this senior's favorites at the movies. She has blue eyes

and brown hair and a height of 5' 7". Football is her favorite sport; Fats Domino is her favorite singer. Sewing is the thing that she likes to do in her pastime and her pet expression is "for goodness sake!" It seems as if she has the same expression as a certain Chinese actress.

Can you fit the expression with any of the senior girls? Well, I will help you; her name is Carol Bell. Her easiest subject is home-making, and her hardest is English. You will find Carol's picture in the '61 annual with the title of Miss C. H. S. She has served as cheerleader for two years. For the past six years, she has been a member of the Junior Columbian Club. She has served one year on each of the following: Annual staff, Wildcat staff, and basketball team. Carol has also been a member of 4-H and F. H. A. "People who pretend to be something that they are not," was Carol's answer when asked her pet peeve. Her parents and Mrs. Marnard have influenced her most in life. After graduation, she plans to attend West Texas State College.

Best of luck to you, Carol.

Howard and Stone Place in Track Events

Five boys journeyed to Iowa Park Saturday to enter the track meet there. Those who went were Gerald Howard, John Stone, James Gafford, Don Welch and Dale Doyal. There were approximately thirty track teams there, and some of the records made were higher than those made at the state track meet last year.

Howard placed fifth in the 100 yard dash and sixth in the 220. Stone placed fourth in the mile. Our boys entered the 440 relay and the 440 dash, but they did not place in either. They scored seven points in the meet.

Library Report

The Old Curiosity Shop is a selected list of works by the famous Charles Dickens. Among eighteen of his most noted stories, we find Oliver Twist, Posthumous Papers of the Pickwick Club, A Christmas Carol in Prose, A Tale of Two Cities. Into each he weaves a magic tale and a heart warming story. Charles Dickens, born in Landport, England, first became a lawyer's clerk and then a shorthand reporter in the courts and House of Commons. His first book stemmed from his work as a journalist. Many books, many stories, and many years later, Charles Dickens died at the age of 58 in Gadshill, England.

Hits and Misses

Hi-dee! Here's the news of the "cats" during the past week. They seemed to have found themselves in a lot of trouble—but it was fun, right?

Together Friday night having a good time were Ronnie-Carrie, Chuck-Fauncine. They tried to teach Ronnie something new. Hum!!

Throwing eggs Saturday night down on the square were Kay, Carole, Carol, Joe B., Chuck and Charles Carroll. Sounds messy! Sue and Jackie were seen dragging around Crowell Saturday

night. Wonder if this is the start of something big.

Evelyn seemed to have an interesting experience last Friday at school. Sounds like a winner! Rhetta, why were you limping around the school Monday morning? Don't horses like you? Maybe you had better teach Larry a few things.

Together in church Wednesday, Thursday and Friday nights were Philip and Barbara B. Wonder if this is going to be a new steady soon?

Sleeping in the back of a dress shop in Sweetwater Saturday afternoon were Jo Carol, Kay and Sue. That's what we call hospitality!

Philip and Barry B. seem to have some great secret? The scandal knows what it is, so you two had better watch your step.

Together in church Friday night were Alta-Danny, Linda-Bob, Kay-Wes, Carol-Miles.

Why was Paula S. irritated with Carolyn and Ruth? Could it have something to do with some rings? Sounds interesting!

What happened to Kenny Bill in the parade Saturday? The kids thought that he deserved a medal for courage.

Dear ole CHS has two new members. Listen to this! Boys, Natha Hodge is a doll. She's from Albuquerque and she's a junior this year. Girls, James Neeley is real nice. He's from Yale, Okla. He's honoring the freshman class.

Carole Sue got to deliver some interesting facts Sunday. He did look as if he were sick! You never can tell how these things will

work out. Just wait till the Crowell Tuesday night, when and Lave. We wonder who will ever become of this, and she!

See ya' around! Take it easy. Don't get into trouble. Adios, amigos!

Farm Management is Increasing in Importance

Farm records kept by farmers throughout the country show a variation of several thousand dollars in farm income on farms of the same size having the same labor and about the same capital investment. This can best be explained by good management, says Joe Burkett, county agent.

One cotton farmer produces cotton of much better quality than another. One cattle man has a calving percentage of 90 per cent while another has only 75 per cent. The gap between the good farmer and the average farmer continues to widen as the cost-price squeeze grows tighter.

The top farmer usually is easy to identify. He keeps a good set of records and first tests a new practice with paper and pencil to determine if it has a chance of paying. He makes his labor count and gears the size of his operation as much as possible to reduce the per unit cost of machinery. In addition, he studies the market and does many other things which make him a better manager.

The successful farmer of tomorrow will have an operation made up of the most profitable combination of enterprises with each enterprise being managed with maximum efficiency. He will be using many farm economics ideas which are in the process of being developed or have been developed only recently. In other words, the emphasis will be on management—the economics of farming.

Therefore, it is important that farmers and ranchers spend an increasing amount of their time on management.

A jury in Federal Judge Joseph B. Dooley's court in Amarillo convicted two Pampa brothers for aiding and assisting in the preparation of false income tax returns for others on March 1.

Your RIGHT TO VOTE
MR. AND MRS. VOTER, do you feel that you should have an opportunity to vote on legalizing Parimutuel Horse Race Betting?
A constitutional amendment (H.J.R. #4) is being considered whereby Texans will be given an opportunity to legalize horse race betting in Dallas, Tarrant, Harris, Galveston, Bexar, Midland, Hidalgo, Cameron and Webb Counties, subject to approval by LOCAL OPTION.
H.J.R. #4 provides for distribution, ANNUALLY, among all counties that do not have race tracks, one-half of the STATE TAX REVENUE obtained from horse racing. Each county would receive approximately \$1.00 per capita population the first year. Counties where the tracks are located would receive 2% of parimutuel handle. The state's tax income from horse racing alone would run close to \$12,000,000 the very first year—possibly more—besides all the income tourists would bring to Texas—which would amount to millions of dollars, plus a great ad valorem tax on race tracks, breeding farms and many valuable race horses.
Please express your opinion by checking the appropriate box below. You do not have to sign your name unless you like, but we would prefer it.

Retrieve in Spurts

Your retrieve should be more or less erratic when spinning for bass. This is especially true when using a spoon, as the steady twinkle of a spoon looks most unlikelike when viewed by a fish. Let the spoon dip and rise, slow down and speed up, for life-like action. Bread is probably the oldest of mankind's prepared foods.

In South Vietnam, 4,000 refugee and other resettled families are getting a double measure of American help: CARE farm tools to work their land, plus 6-month food rations to sustain them until their first harvest. Contributions to the CARE Food Crusade, New York 16, N. Y., feed the 22,000 members of the families.

Austin, Tex.—Hopes for early legislative agreement on money-raising measures hit the dust when the House began to vote.

Future is dim for three of the four deficit-erasing measures recommended by Gov. Price Daniel. First to be defeated was a proposal to raise the gas production tax from 7 to 10 per cent. Its sponsor, Rep. George Hinson of Mineola, asked that it not be voted out of committee. He expressed hope that the money could be gotten some other way.

Two others—the abandoned property act and a bill to raise the franchise taxes on interstate corporations—got overwhelming approval of the House Revenue and Taxation Committee but ran into a hornet's nest of opposition on the House floor. Both were opposed by 79-to-69 votes.

Vote on another revenue measure for utility companies was postponed after its sponsor claimed it had been "amended to death." This bill, by Rep. Max Carraker of Roby, would set a uniform utility tax rate of 1.997 per cent and eliminate exemptions for rural areas and REA co-ops.

Fourth of Governor Daniel's deficit-cancelling measures (besides the gas tax, franchise tax and abandoned property act) is a proposal to take the \$15,000,000 a year for farm-to-market road building from regular highway funds rather than the general revenue funds.

MAILMEN STAGGER—Supporters of the legalized horse racing bargained for time as aroused church people flooded House members' desks with anti-racing letters.

Rep. V. E. Berry, sponsor, won by a narrow 79-to-70 vote a motion to postpone action on the racing measure until March 21. Opponents pressed for action to "kill it now."

Some members reported their secretaries were bogged down in answering "hundreds of letters" prompted by sermons and religious magazine articles against the proposal.

Berry's secretary is flooded with mail urging passage of Berry's resolution.

Actually the resolution (HJR-4) does not legalize horse race betting. It calls only for a poll of public sentiment on the subject of whether or not the voters would like to vote officially on the matter at the next general election.

Then the topic would still be up for legislative debate.

Berry's argument is that the people have a right to express their opinions, and they can do so at the April 4 election at no cost to the state.

Milk producers are pushing a bill which would require that the Texas Health Department certify that any milk shipped into Texas meet standards for milk produced in Texas. This will prevent importing of substandard milk, say the producers.

Milk distributors oppose the measure, saying that it would make it impossible for them to buy from anyone but Texas producers. They say required inspection of out-of-state dairies would be impossible and impractical. Result, they declare, would be a monopoly for Texas producers and higher prices to consumers.

Senate Public Health Committee approved the bill.

AERONAUTICS BOOST URGED—A bill to make more money available for aeronautics regulation won Senate State Affairs Committee approval.

Sens. Ray Roberts of McKinney and Grady Hazlewood of Amarillo are sponsors of the bill to provide for allocation of some \$70,000 to \$140,000 from taxes paid for airplane fuel.

Under the Roberts-Hazlewood plan, 35 per cent would go to the Aeronautics Commission for operations, 40 per cent to the Commission for airport and landing strip improvements and 25 per cent would go to the available school fund.

Students to Take Part in National Sewing Contest

It was announced this week that a group of Crowell High School home economics students are planning to take part in a fashion-sewing contest sponsored nationally by the General Federation of Women's Clubs and Vogue Pattern Service. The Sub-Junior Adelphean Club under the co-chairmanship of Mrs. DuWayne Elliott and Mrs. Virgil Johnson, will sponsor the local competition with the cooperation of the high school's home economics instructor, Mrs. Ruth Kauter.

To illustrate these points, students will model their own costumes when the local judging takes place.

Home Demonstration Notes

MRS. VIRGINIA ILSING

Keep your best pressing equipment handy when you sew, and use it to press as you go. It will assure a more accurate fit and give a more professional look to your finished garment.

Begin by pressing the creases out of your fabric before cutting, and carefully press after each step. The time and effort will be well worthwhile.

Technique is important, too. In general, the specialist says, work on the wrong side of the fabric. Occasionally this is impossible and you may have to press such things

as pocket welts on the right side. For this, use a press cloth. Always smooth material carefully under the iron and press on the straight grain of the fabric whenever possible.

In sewing cotton or linen, press when well dampened or use a steam iron with high heat. Press woollens with a damp cloth between iron and dry woolen, or use a steam iron. Use high heat for wool, but don't press too dry. To shrink out ease, pat with hand to hold steam in the wool fibers.

Press silk or rayon with steam iron or use a pressing cloth, dampening cloth as you work. Use medium heat and press with a light touch. Open seams with point of iron lightly before using press cloth. Be careful not to water-spot the fabric.

Orange French Toast Fluffs

Orange french toast fluffs are old favorite french toast slices with a new flavor of orange added. Serve them hot from the range. To prepare, first separate six eggs. Then beat the egg whites until foamy. Add 3 tablespoons sugar gradually and continue beating until the mixture forms peaks. Put the egg yolks into a large bowl and beat well. Next, beat in one-half teaspoon salt, 2 tablespoons milk, 2 teaspoons grated orange rind and one-fourth cup orange juice. Blend well. Heat about 3 tablespoons butter or margarine and about 3 tablespoons shortening in large heavy skillet. Fold the egg whites into the orange mixture. Dip bread slices, 12 in all, into the egg mixture and coat evenly. Fry in skillet until lightly browned on both sides. As egg mixture tends to separate slightly upon standing, fold it a few strokes after dipping each 2 or 3 bread slices. Serve the toast warm with syrup. This recipe makes 6 servings.
