HAMPIONSHIP GAME BETWEEN

INEY AND CROWELL HERE ON

FRIDAY NIGHT OF NEXT WEEK

AND CROWELL INDEX

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, NOVEMBER, 14, 1935

### Joe Hill Lectures Tonight on Little

1935 Red Cross Poster

Rain and sleet accompanied the coldest weather of the year in Foard County this week. The cold wave struck Sunday morning with a strong norther. Considerable sleet fell Monday morning, follow-ed by rain during most of the day. The temperature Monday morning was around 30 Monday morning and slightly below that figure Tuesday morning.

**Rain Accompanies** 

**Coldest** Weather

recorded at Crowell during the week amounted to.61 of an inch. Rain was general over the county, 2 o'clock Tuesday afternoon, Dec. Rain was general over the county, out lighter in the western portion.

LOCAL PAVING **PROJECT WORK** STARTS HERE

Work preparatory to paving the cut-off spaces on the east and south sides of the court house the court house and home economics building of brick square was started Tuesday. This work is made possible through ap-proval of the project by the Works project was favored 63 to 20 br

# **MANY IMPROVEMENTS MADE BY ORR'S BAKERY DURING SEVEN** YEARS OF OPERATION HERE

Outstanding improvements have been made in Crowell's bakery since O. W. Orr became owner and manager of this local industry seven years ago this fall.

Modern and costly equipment has been added in giving this city one of the finest baking plants in this area.

One of the first improvements made by Mr. Orr after coming here was the installation of a \$1,100 loaf molder in 1929. This ma-chine adds to the grain and tastiness of the bread and is capable of producing 750 uniform and attractively shaped loaves an hour. In 1931 a larger and entirely different type of bakery oven was installed. Instead of one large shelf, the new oven has six small

# Seventh Birthday

In the fall of 1928 we purchased the bakery in Crowell and started its operation under the name of ORR'S BAKERY. We had been informed that a "tough row" was ahead of us-that a local bakery simply could not secure the support to justify its existence in Crowell.

However, we were impressed with Crowell and Foard County and felt that the people here were fair-minded and that if we "delivered the goods" they would stick with us in making a success of the bakery business in Crowell. Now, as we enter our eighth year in Crowell, we wish to express our-

# SINCEREST THANKS

-for the support that has made our existence here possible

We have tried to do our part in giving you bread and other bakery products that are second to none. While our financial returns have been nothing to boast about, yet we have been able to more than break even for the period as a whole.

Because of your loyal support through drouth and depression, along with the better times, we have felt justified in adding hundreds of dollars worth of new machinery so that Crowell could have a baking plant that would rank right at the top in every respect.

Our extra modern equipment, plus the finest ingredients and practically a "life-time" of experience in the bakery business, enable us to give you products that are the very best in quality, wholesomeness and deliciousness.

We have been greatly pleased and encouraged by compliments freely given us during the years. On several occasions we have been told by local citizens that out-of-town guests in their homes have referred to our "VERI-BEST" bread as having a better flavor and texture than the bread available in their own home cities, whether Los Angeles, Dallas or Oklahoma City.

> For all of the support and encouragement we have received while in Crowell, we are deeply grateful. In addition to trying to serve our proper place as your "home" bakery, we have also made every offort to measure up from the standpoint of citizenship by co-operation in all projects for the betterment of our town, county and section and to keep our taxes paid up in the support of our city, county, state and schools.

Whatever we have been able to do in this respect has resulted from the support you have given us. In the future, as in the past, we pledge our sincerest efforts to serve you in a manner that will satisfy you from every standpoint and continue to hold your respect and make you a booster for this local industry.

Most sincerely,

ORR'S BAK CROWELL, TEXAS

#### Second Quarter

With the ball on the 23, Saundreversed from end and shot a ong pass at an angle to the south ide of the field and Wiggins made sensational catch behind the goal ne for a touchdown. McKown crashed the line for extra point. Crowell 13, Archer City 0. F. Meason's kick-off was taken

on the 8 by Bailey. He lateraled o Gressett who fumbled and reovered on the 4. Burkett punted out on his 26. Dunn gained 5. Three line plays put the ball on the 3, where a lateral pass was inercepted by Shelton, who was owned on the 15. Gressett made 3. Herron circled

ight end for 12. Gregg made 2. Bailey added 7. Crowell penalized Gragg gained 18 at center, put-

CONSTIPATED child is so easily A straightened out, it's a pity more mothers don't know the remedy.

A liquid laxative is the answer, mothers. The answer to all your worries over constipation. A liquid can be measured. The dose can be exactly suited to any age or need. Just reduce the dose each time, until the bowels are moving of their own accord and need no help. This treatment will succeed with

ny child and with any adult. Doctors use liquid laxatives. Hospi

tals use the liquid form. If it is best for their use, it is best for home use And today, there are fully a million families that will have no other kind

in the house. The liquid laxative generally use is Dr. Caldwell's Syrup Pepsin. It a doctor's prescription, now so widel known that you can get it all read for use at any drugstore.

A Planned Program of Saving for the Home

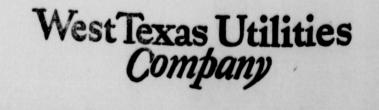

# 2. Watch For Speaials. 3. Save Unused Portions. 4. Have Year-'round Refrigeration.

Tests recently made over the country show the necessity for year 'round refrigeration. The Government Weather Bureau reports show that there are only nineteen days in the average winter, when temperatures remain throughout the day at "safety zone temperatures"-below 50 degrees and above 32 degrees.

Natural refrigeration is not dependable. It is always summer in the kitchen. Tests in various cities during the winter season, show an average temperature of 76 degrees (26 degrees above the danger-line).

Electric refrigeration is dependable. It makes possible your planned program of saving.

**Beware Coughs** from common colds That Hang On

you cannot afford to take a chance with anything less than Creomul-sion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed mem-branes as the germ-laden phlegm is loosened and expelled. Even if other remedies have

failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

of P. T. A. Reports

A report has been sent to the National P. T. A. office concern-

ing the fall check-up that was con-

ducted here to determine the num-ber of children whose parents have

referred them to the physician

and dentist for attention and the corrections that have been made.

# WHAT the WELL DRESSED FAMILY is

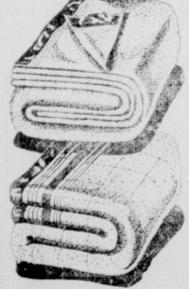

Good breeding and character are reflected not only in the places you go and the things you do but also in your appearance and the appear-

ance of your family. High quality workmanship is our reputation, and we're proud of it.

Your supply of bedding is not complete without a number of soft, fluffy blankets. At this time of the year more bedding is needed to provide comfort for the cold nights. Outstanding values in these part wool, plaid blankets with sa-

You'll like them because teen binding. they are large enough to tuck in securely. Exceptional values at exceptional prices.
