

Scholastic Population's Big Increase Presenting Serious Problem In Texas

Texas public schools must prepare for more than 350,000 additional students during the next five years.

A recent publication of the Texas State Teachers Association, "Trends in Texas Public Schools," shows that there are 1,853,000 children of scholastic age this year—an increase of 80,000 over last year. A review of birth records for the last five years indicates clearly that a continued increase for the next several years is certain. In fact, the increase will be larger during each individual year during the next five or six-year period.

This large increase in scholastic population presents the most serious problem ever to confront the public school system. Not only does it present the problem of securing an adequate supply of trained teachers, but it also causes a housing problem. Assuming that most of these new school age children attend public schools, it will require more than 3,000 additional classrooms together with other facilities each year to take care of the increase alone. This does not take into consideration the need to replace many classrooms that are inadequate or sub-standard for various reasons. Additional facilities will cost in excess of \$100 million per year.

The supply of teachers has reached the critical stage. It takes more than 3,500 teachers each year to take care of the increase in scholastics alone. At the present time public education is losing from 5,000 to 7,000 experienced teachers each year. The supply to meet this demand of from 8,500 to 10,500 additional teachers each year is wholly inadequate.

Not only do more children attend public schools each year, but each child attends for a longer period of time. The records show that only 68 per cent of the eligible scholastics attended school every day in 1944, whereas 82 per cent attended every day during the 1954-55 term. The increase in scholastic population between 1953-54 and 1954-55 was 3.8 per cent while the increase in average daily attendance for the same period was 6.68 per cent.

Since 1945, the total number of students has increased by 354,700 with most of the increase coming during the last few years.

The number of teaching personnel employed in 1945 was 47,000. This number jumped to 66,760 in 1954. The number cannot stop there, however, because as the number of children attending public schools increases, the number of teachers must also increase in proportion.

The cost of public education will increase during the next several years because the heavily increasing number of children attending schools brings an increasing demand for more buildings, buses, equipment, and teachers.

The TSTA publication points out however, that the cost of education has not risen as fast as all governmental cost. In 1949-50 it took 29.67 per cent of the State expenditure for public

NOTICE OF ROAD BOND ELECTION
THE STATE OF TEXAS COUNTY OF GARZA
TO THE RESIDENT QUALIFIED ELECTORS OF COMMISSIONERS' PRECINCT NUMBER 4, OF GARZA COUNTY, TEXAS, WHO OWN TAXABLE PROPERTY IN SAID PRECINCT AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION:
TAKE NOTICE that an election will be held on the 11th day of February, 1956, within COMMISSIONERS' PRECINCT NUMBER 4, OF GARZA COUNTY, TEXAS, in pursuance of an order for road bond election made and entered by the Commissioners' Court of Garza County, Texas, on the 9th day of January, 1956, at which election the following proposition shall be submitted:
"WHETHER OR NOT the bonds of COMMISSIONERS' PRECINCT NUMBER 4, a political subdivision of GARZA COUNTY, TEXAS, shall be issued in the total principal sum of \$50,000, for the purpose of constructing, maintaining and operating macadamized, graveled or paved roads and turnpikes, or in aid thereof, and which bonds are to bear interest at a rate not exceeding 3% per annum, and are to be payable at such time as may be deemed most expedient by the Commissioners' Court, but not to exceed twelve (12) years from the date thereof; and whether or not ad valorem taxes shall be levied on all taxable property within the said Precinct for the purpose of paying the interest on the said bonds and providing a sinking fund for the redemption or payment thereof at maturity."
That the proposed improvements will be for the benefit of all taxable property situated in said Commissioners' Precinct Number 4 of Garza County, Texas.
That said election shall be held under the provisions of the laws of the State of Texas, particularly Chapter 16, of the General Laws of the State of Texas, passed by the Thirtieth Legislature at its First Called Session in 1926, as amended.
That the ballots for said election shall be prepared in sufficient number and in conformity with Chapter 6, V.A.T.S. Election Code, adopted by the Fifty-second Legislature in 1951, and that printed on such ballots shall appear the following:
"FOR THE ISSUANCE OF BONDS AND THE LEVY OF AD VALOREM TAXES IN PAYMENT THEREOF."
"AGAINST THE ISSUANCE OF BONDS AND THE LEVY OF AD VALOREM TAXES IN PAYMENT THEREOF."
As to the foregoing proposition, each voter may mark out with black ink or pencil one of such expressions, thus leaving the other as indicating his vote on the proposition; or, in the alternative, each voter may vote on the proposition by placing an "X" in the square appearing on the ballot beside the expression of his choice.
That said election shall be held in Precinct No. 4 at the Schoolhouse in Justiceburg, Texas, and the officers of said election shall be as follows:
W. F. McWhirt, Presiding Judge; Mrs. Pearl Nance, Judge; Mrs. Cameron Justice, Clerk; Mrs. J. D. Justice, Clerk.
That the MANNER of holding such election and canvassing and making returns thereof, shall be governed by the General Laws of this State, when not in conflict with the provisions of Chapter 16, of the General Laws passed by the Thirtieth Legislature, at its First Called Session in 1926, as amended; and only qualified electors who own taxable property in said Commissioners' Precinct Number 4 of Garza County, Texas, and who have duly rendered the same for taxation, shall be qualified to vote.
THIS NOTICE is given pursuant to the orders and directions of the Commissioners' Court of Garza County, Texas, passed and adopted January 9, 1956, and in compliance with the requirements of law.
WITNESS MY HAND and the seal of the Commissioners' Court of Garza County, Texas, affixed, this the 9th day of January, 1956.

FACTS and FADS around P. H. S.

This is mid-term week and everything is in an uproar. Tomorrow is the last day though. Then comes Monday—and the correcting of papers, which is almost as bad as the exams. Mrs. Smith sure had some crazy English projects turned in by her English IV students. Sara Ray won last place, Novis Pennell and David Chatham, second, and JoAnn Johnston and Betty Watson, third.

The Seniors are discussing their trip. They elected a committee at the last class meeting to select several places on which they will vote. They are also selecting a play, which will probably be presented sometime in March. Nothing definite has been decided on as of yet.

The football boys are certainly sporting their new jackets that they received last week. Miss Moore had some good book reports turned in last week by her English classes. They were illustrated reports.

Graham Club Elects Officers Thursday

New officers were elected at last week's meeting of the Graham Thursday Club, in the home of Mrs. Will Wright. They are Mrs. Jess Propst, president; Mrs. Nellie K. Babb, vice-president and reporter; Mrs. O. H. Hoover, secretary and treasurer, and Mrs. Gus Porterfield, parliamentarian.

Following the business session, refreshments of pie and coffee were served to Mrs. Babb, Mrs. Allen Oden, Mrs. Glenn Davis, Mrs. Bill McMahon and Mrs. P. E. Stevens.

Merrymakers Quilt At Mrs. Dave Sims'

Ten members and two guests were present when Mrs. Dave Sims entertained the Merrymakers Club in her home Jan. 10.

The afternoon was spent in quilting for the hostess. Refreshments of sandwiches, cake, olives, nuts and spiced tea were served.

Attending were Mrs. R. L. Kirkendoll and Mrs. Jessie Voss, Mrs. Lacy Richardson, Mrs. Homer Gordon, Mrs. H. N. Crisp, Mrs. Bonnie Adamson, Mrs. S. C. Storie, Sr., Mrs. T. A. Loyd, Mrs. L. W. Dalby, Mrs. H. F. Whitley, Mrs. J. F. Storie and the hostess.

Joint 4-H Council Is Organized Recently

Garza County 4-H Council met Monday night of last week in the district courtroom in regular session. A joint council for boys and girls was organized.

New rules were set up for the organization and several officers were added. Don Long and Carol Davis will serve as co-chairmen; Tommy Young, treasurer; Oneita Jones, reporter, and Floyd Richardson, second adult leader. Finance and recreation committees were also appointed.

Twenty-two attended the meeting.

MARCH OF DIMES PARTY

There will be a 42 party to benefit the county March of Dimes Drive, at 7:30 p. m., Monday, in the Southland School Gymnasium. Admission will be \$1 person and free pie and coffee will be served.

Look Who's New

Mr. and Mrs. L. C. McCullough are announcing the arrival of a six pound, five and one-half ounce daughter, named Kathy Jo, at 6:57 p. m., Jan. 12, in Garza Memorial Hospital.

Ben Owen Home Is Scene Of '55 Club

The 1955 Club met Thursday in the home of Mrs. Ben Owen. Miss Jessie Pearce, agent, gave a demonstration on "Multiple Cutting of Materials and Work Simplification." She also showed slides on "Your Home Charming."

Coffee was served to Mrs. Luther Biberly, Mrs. Rufus Garner, Mrs. Ben Brewer, Mrs. Stanley Butler, Mrs. Porter Roberts, Mrs. Thurman Maddox, Miss Pearce, Mrs. Ralph Dean and the hostess.

Mrs. Minor Is Named To P-T-A Committee

Mrs. James Minor has been named to the conference rules committee for the District Parent-Teacher Association meeting, scheduled for April 10 and 11, at Monterey High School, Lubbock. Several hundred delegates and hundreds of other unofficial visitors are expected to attend the April session. Theme of the meeting will be "Information for Action."

THE OLD AND THE NEW—A throwback to earlier times is this old-fashioned wash pot on the farm of Mr. and Mrs. C. C. Francis. Mrs. Francis, shown here with her daughter, says she uses the pot to heat her wash water, but that an up-to-date washing machine modernizes the rest of the procedure.—(Staff Photo.)

FIRST IRRIGATION WELL—Jack Hopkins of Irrigation Well Service, Lubbock, is shown drilling the first irrigation well on the 200-acre farm C. C. Francis rents from J. E. Winder, 9 1/2 miles west of Post. Services of water well drillers are in great demand here with irrigation booming in Garza County.—(Staff Photo.)

The U. S. total of land in farms available for crops has been about 512 million acres for the past 30 years. Although only 2 per cent of U. S. farms were electrified in 1920, more than 90 per cent have electricity today.

Dryland Farmer To Try Irrigation For Change

C. C. Francis, 71 years old and always a dryland farmer, this week is watching the first irrigation well go down on one of the two 200-acre farms he rents from J. E. Winder of Lubbock.

"At my age," he said, "I may be starting irrigation farming a bit late, but it looks like it's either that or else."

The well is being drilled on the farm on which Mr. and Mrs. Francis have lived since 1934—five years after they moved to Garza County from Mesquite, in Central Texas. The first five years they farmed in the Close City community, not far from where they now live.

The other 200 acres rented by Francis from the Lubbock man is a mile west and three-quarters of a mile south of the home place.

The Francis' cotton allotments for the 1956 crop year are 76.8 acres on one place and 77.4 acres on the other. Like other West Texas cotton farmers, they are dissatisfied with this year's reduced allotment, but it appears there is nothing to be done about it.

Despite their 70-plus years, both Mr. and Mrs. Francis are active about their home and farm, hiring extra help only at harvest time and other busy seasons of the year.

"We've seen good times and bad during the 26 years we've farmed in Garza County, but it's beginning to look like irrigation is the only answer to the drought problem," Francis said.

Their 1955 cotton crop was described by Francis as "about average for dryland crops in this area." It suffered from the usual troubles—lack of moisture, blowing and insects.

Both he and Mrs. Francis are eagerly looking forward to their first irrigated crop. "It looks like it's going to be a lot of hard work, but I think it'll be worth it," he said.

The couple were married in 1909 at Arlington. Three of their four children, B. W. Francis, Thurman Francis and Mrs. Aline Clanton, live in Garza County. The youngest son, Travis, is employed in Fort Worth by the Fort Worth & Denver Railway. He is a May graduate of Texas Technological College.

County Agent Lewis C. Herron says the new well going down on the Francis farm is only one of many being drilled in the county.

"In fact," said the agent, "farmers are having to wait on the drillers, with irrigation really booming."

The agent said approximately 210 irrigation wells were in operation in the county during the 1955 crop year. "But there'll be a lot more than that during the coming crop year," he predicted.

Don Brown Is Elected Vets Club Treasurer

LUBBOCK (Spl.)—Don Avery, Lubbock sophomore, will head Texas Tech's Veterans Club during the coming semester.

Other officers elected include: Walter Johnson, Huntsville, vice-commander; John Johnson, Lubbock, secretary; Don Brown, Post, treasurer; Alton Slagle, Lubbock, reporter; and E. M. Smith, Coleman, sergeant-at-arms.

The Tech Vets Club is one of the college's largest organizations and is open to any veteran enrolled in the college.

Time Passes By

Most of us still think of Crosbyton and the Plains country as being new, but that's just another indication that time gets by in a hurry. In June, Crosbyton will be 48 years old, and in just two more years it will be time for that 50th anniversary celebration we have been planning for a long time. And, just in case you're interested, the Crosbyton Review is starting its 48th volume this week, the paper being just six months younger than the town—"Trends" in The Crosbyton Review.

Man With Courage

Pete Pituitary, who has never had the courage to tell Mrs. Pituitary to go jump in the lake, was really awed this week by the old boy from Chicago who gave his wife a present for her birthday entitled "201 Ways to Commit Suicide." — "Nearly News" in The Lamb County Leader.

Describes Midland

Best description we've heard of Midland in a long time was given the other day by the fellow who said it was a town where people spend money they haven't earned to buy things they don't need to impress people they don't like. — "Drifting Sands" in The Andrews County News.

Doing Your Part

Your part in the world is very essential to the happiness of the world. One grain of corn never fills a bushel measure, but it helps its fellow grains to do so. Your little service to others may pass unnoticed, but the sum of all such helpfulness is what makes the world better today than it was yesterday, and builds up our civilization. — "Newsletters" in The Monahans News.

Another Reason Found

Following is one reason why the cotton industry in this coun-

try is suffering from under-consumption:

For Christmas we received what appeared to be a high quality white cotton shirt, manufactured by a well-known manufacturer of fine shirts. It was tagged, "65% dacron and 35% Egyptian cotton."

Perhaps the manufacturer can justify his use for the dacron in this shirt—but why Egyptian cotton?—"Town Topics" in The Tulla Herald.

Is This Forgotten?

The law of the land obligates every male citizen of the country to register under the Selective Service Act when he attains the age of 18. The registration must be done not later than the fifth day after that milestone in the young man's life. The state selective service officer is beginning to find instances where youngsters are not complying with this regulation. Families with boys attaining that age should not let their sons take a chance on being jerked up as draft dodgers. The fine and/or imprisonment would be burdensome, the name of it much worse—"Views and Comment" in The Floyd County Hesperian.

8,000-Foot Wildcat Location Is Staked

Associated Oil and Gas Co., Houston operator, has filed application to drill an 8,000-foot rotary wildcat in southeastern Garza County.

Designated the No. 1-A W. G. Williams, operator is situated just west of the Garza-Kent County line and about nine miles east of Justiceburg townsite. It is also four and one-half miles east of production in the Justiceburg-ABD field and four miles northeast of the Dorward field.

Exact location is 330 feet from north and 1,630 feet from east lines of Section 57, Block 5, H&GN Survey, on a lease of 640 acres. Drilling was slated to begin soon.

Duck Creek SCD Supervisors Are Attending Annual State Meeting

The Duck Creek Soil Conservation District supervisors are attending the 15th annual convention of the Association of Texas Soil Conservation District Supervisors in Lubbock this week.

Supervisors of the Duck Creek SCD are Giles C. McCrary of Post, Elmer Shugart of Spur, Clark Forbis of Afton and Charles Witt of Kaigary.

Conservation strategy for 1956, speed-up of upstream flood prevention work and water legislation for Texas will be the big topics of discussion when farmers and ranchers from all over the state gather for the convention.

Dr. C. H. Wadleigh, chief of USDA's Soil and Water Conservation Research Branch, the main speaker, is expected to discuss research for better control of wind erosion and better use of water in crop production.

L. L. Males, Cheyenne, Okla., will tell about the first completed upstream flood prevention project in the United States—the system of small dams and land treatment measures on Sandstone Creek Watershed in western Oklahoma.

Bill Durham, Fort Worth Star-Telegram farm editor and a recent appointee to USDA's new Soil and Water Conservation Advisory Committee, will report on the committee's activities. Nolan Fuqua, Duncan, Okla., president of the National Association of SCD's, will discuss NASCD problems and Mrs. Eunice Johnson of Foard City, first to win the state SCD speaking test, will deliver her winning oration. A full program of ladies activities is scheduled, including luncheon, shows, tours of the Lubbock homes, and Texas Tech's museum gallery.

Billed as a "working time" there will be time for committee work, floor discussion of the water problems facing the state.

This year's Soil Show, a feature of the convention, will present large displays of land leveling, earth brush-control, and other conservation equipment for ranches ever assembled as.

Both the show and convention will be held in Fair Park Coliseum, which is free, and supervision, tending a hearty lunch, all interested folks visit the exhibits, and participate in the convention and ranchers of the area will be especially interested in the exhibit.

TO GUIDE...AND TO MEASURE...

A ruler... the humblest of instruments! Yet it meets two tremendously important needs. It guides... giving man a straight, sure rule by which to draw his lines and sketch his plans. And it measures... showing man where to begin, and where to end, proving the dimensions of his work. That which the simple ruler does in the physical realm of life is the work of the Church in the spiritual realm. For every man's life is like a blank sheet of paper, until, by his own living, he places upon it the lines which give it meaning and character. The Church is our guide... giving us the tried and sure truths by which we can live... pointing us to the straight and unwavering paths which lead to God. And the Church is our measure... showing us the standards by which every man's life must be judged... revealing the Christ whose teaching and example are the beginning and ending of all spiritual achievement, the perfect dimensions of life. Are you letting the Church meet these tremendous needs in your life?

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

NEWLY REMODELED EATING PLACE—Judy's Cafe, 215 South Broadway, reopened for business Saturday morning after being closed for extensive remodeling which included addition

of a dining room on the south side, Mr. and Mrs. Wesley Northcutt are owners and operators of the cafe.—(Staff Photo.)

Cafe Opens After Remodeling

Judy's Cafe at 215 South Broadway (Snyder Highway) reopened for business at 1 a. m. Saturday after having been closed a month for extensive remodeling. The most notable addition to the cafe is a spacious dining room on the south side. The cafe section and kitchen also were enlarged, new fixtures added throughout and indirect lighting installed.

The large vestibule at the front of the cafe can be entered from the north or south sides and is spacious enough to prevent crowding.

In the cafe, booths line the east and north walls with the counters running the length of the west and south sides. Tables are in the center of the cafe.

Wesley Northcutt, owner, said the dining room will be opened at mealtime and also for the convenience of businessmen wishing to carry on telephone conferences while they dine. Telephone "jacks" have been

conveniently installed for plug-ins. Restrooms are at the southeast corner of the building.

Exterior remodeling included brickwork of the structure. A large parking area partly encircles the building.

Northcutt has been in the restaurant business here since 1946 and has operated Judy's Cafe for the last four years.

"We will be open 24 hours a day—seven days a week," the owner said.

Noah Stone and all the fellows at POST AUTO SUPPLY and all the folks who now own De Soto's are eagerly awaiting the arrival tomorrow of the 1956 De Soto. You will be just as eager, too, to test drive and trade for a De Soto when you see the 255 h.p. car to be on display at POST AUTO SUPPLY tomorrow. The De Soto is the most powerful car in the medium price field.

WESLEY NORTHCUTT is getting applause from all Garza guys and gals and from people in these parts who need to stop and eat. The newly remodeled and redecorated JUDY'S CAFE, located on South Broadway, opened for business several days ago and if you have not been to JUDY'S you are missing out on a real treat. Among one of the new features, in addition to new wall booths, tables, fixtures, much more space, etc., is the plug-in telephone. This feature was provided for the convenience of business and professional men who transact a part of their business during meal time. JUDY'S will be open DAY AND NIGHT, 7 DAYS a week. Dining room will be open for the noon and evening meals, coffee shop open all hours.

Miss "Westway Miss" of Dallas, the top designer of Sub-Teen dresses has come up with a beautiful one in navy cotton broadcloth accented in red and white. youngster starts training for his high school athletic career. Nine times out of ten, if a boy doesn't take part in junior high school athletics he isn't going to take them up after he gets into high school.

Raphelt said he had observed that support on the part of the student body and members of the boy's family had much to do with the youngster's attitude toward sports. "The kids just seem to do better when big crowds come out to watch them play," he said.

Raphelt is a graduate of Stamford High School, where he lettered at a line position. He also played football at Hardin-Simmons University, where he received his B. S. degree in 1949. He completed work there for his M. S. degree in 1953.

Following his graduation from high school and after a year in college, Raphelt entered the U. S. Navy, in which he served from 1942 until 1945. He spent 28 months in the Pacific on the submarine tender USS Sperry. He re-enrolled in college following his discharge from the service.

After he was graduated from H-SU in 1949, Raphelt was at Morton High School for three years, serving first as assistant coach and then as head coach before coming to Post in 1952.

His hobbies, he says, are fishing and photography. With a new movie camera, he gets to practice photography much more than fishing and says you don't have to go so far from home to enjoy it.

Lubbock Man Bids Low On Road Jobs

J. O. Boswell of Lubbock has submitted a low bid of \$199,883 for three road construction jobs in Garza County.

Total distance of the three projects is 15,396 miles, with 3.3 miles of that distance being the four-lane widening on U. S. Highway 84 from the northwest Post city limits to the top of the caprock.

The other projects, both farm-to-market roads, both from Southland south for five miles, and from Gordon to U. S. 84.

According to the contractor's notice, the construction will include grading, structures, flexible base and asphalt surface treatment.

Small Residence Is Destroyed By Fire

A two-room frame residence one-quarter mile north of the VFW Hall was destroyed by fire late Tuesday morning along with all the household goods.

Thomas Ammons, owner of the house, said it was occupied by Ed Collins and J. D. Collins, whom he said are not related. Ammons and the Collinses were north of town looking for cattle when the fire occurred.

Firemen reported that the entire structure was ablaze when they arrived. Cause of the fire was not determined.

Cagers Play Abernathy Here Friday; 3 Tilts Slated

The Antelopes lost to Tahoka here Friday night, 47 to 43, for their second setback in district play. Their first defeat was at Spur on Jan. 10.

The Antelope "B" team and girls' team came through with victories against the visiting Tahoka cagers Friday night, the reserves by a score of 31 to 22, and the girls by a score of 24 to 20. It was the second district victory for the "B" team and gave Coach N. R. (Jiggs) King's girls' team a 1-1 district record.

The fouling out of Homer Cato, Post guard, early in the fourth quarter was the turning point in the Post-Tahoka varsity game.

The teams were deadlocked, 29-29, at the end of the third quarter. Tahoka had led at half-time, 17-15, after a first quarter deadlock of 9-9.

Junior Fitts, high-scoring Tahoka center, was held to 13 points, his lowest output of the season. The boy who "hurt" the Antelopes was a reserve named Brown, who entered the game in the final quarter. He scored two field goals and four free throws to pace his teammates to their four-point victory.

Following is the box score of the Post-Tahoka "A" game and the scoring summary for the Post "B" team against Tahoka.

Post Girls Losers In Wilson Tourney

The Post girls' basketball team lost a first round game to O'Donnell, 50-42, Monday afternoon in the Wilson Invitational Basketball Tournament.

Post was ahead, 30-28, at half-time, but O'Donnell forged ahead on the shooting of Burns Rogers, who scored a total of 32 points. Frances Craig had 26 to lead the Post scoring.

The Post girls are to play New Home later in the week in the consolation bracket.

In the boys' division Southland defeated the Tahoka "B" team, 47 to 44, and Cooper downed Wilson, 61-45. George Ellis hit 20 points in Southland's victory over the Tahoka Bees, but Gurley of the losers was high point man with 25.

The tournament is to be resumed this afternoon with the Southland and Smyer girls playing at 5:30 o'clock.

"Our ELECTRIC water heater is an important partner to our other work saving electric appliances!"

The supreme test for a water heater? Keeping up with the needs of a growing boy. "Our son, Jimmy, like most young athletes, requires a dependable supply of hot water."

And the father looks to safety. Mr. Hall, immediate past president of the New Mexico Junior Chamber of Commerce, says: "I often find it necessary to make out of town trips in my business, and I appreciate the fact that our electric water heater is absolutely safe."

For every member of your family there's a modern way to heat water. Of course, it's electric.

ACP Practices

(Continued From Front Page)

8. Constructing Diversion Terraces to Intercept Runoff and Divert Excess Water to Protect Outlets—This is used to divert excess water from cropland, from gullies to pasture land and to break up the concentration of water on long, gentle slopes. It may also be used to divert water into or away from existing reservoirs or into a system of water spreading terraces on cultivated land. Federal cost-share, 6 cents per cubic yard.

9. Constructing Erosion Control, Detention or Sediment Retention Dams to Prevent or Heal Gullies or to Retard or Reduce Runoff of Water; Erosion Control Dams (Earthen and Net Wire Diversions)—This practice is used to provide assistance in the control of gullies which cannot be controlled more economically by diversion of outside water or proper grazing management of the surrounding area. It may also be approved where it is a part of the water-spreading system for utilization of outside water. Federal cost-share: erosion control dams (earthen), 11 cents per cubic yard; net wire diversions, 6 cents per linear foot.

10. Reorganizing Farm Irrigation Systems to Conserve Water and Prevent Erosion—This practice is used to assist farmers in the conservation irrigation of irrigable land. It includes the uniform application of required amounts of water without erosion, excess leaching, or waste; maximum use of available rainfall, orderly disposal of excess water, at non-erosive velocities, and maintenance of soil fertility. Federal cost-share: concrete, metal, plastic or Bernico (6 to 18 inches), 45 cents per foot.

11. Leveling Land for More Efficient Use of Irrigation Water and to Prevent Erosion—The purpose is to alter the slope or topography of irrigated land (provided it is suitable for irrigation) in such a manner as to (1) hold erosion damage to the minimum, (2) make maximum use of rainfall, (3) obtain efficient use of irrigation water, and (4) facilitate water and soil management. Federal cost-share, 50 per cent of cost, not to exceed \$15 per acre.

12. Constructing Spreader Terraces to Divert and Spread Water to Prevent Erosion and Permit Beneficial Use of Runoff—This practice is used to spread runoff water on grassland. Federal cost-share, 6 cents per cubic yard.

13. Establishing Winter Legumes in the Fall of 1955 for Winter Protection From Erosion—Federal cost-share varies according to type of seeding and varieties.

14. Establishing Winter Legumes in the Fall of 1956 for Winter Protection From Erosion—Federal cost-share varies according to type of seeding and varieties.

15. Establishing Legumes for Summer Protection From Erosion.

16. Initiation of Stubble Mulching Into the Farming System and Expansion of Stubble Mulching to Improve Soil Permeability and to Protect Soil From Wind Erosion—Federal cost-share, \$1 per acre.

LEGIIONNAIRES FIGHT POLIO—State Commander Charles L. Downey inserts the first dime in the big "Join the March of Dimes" coin boards that have been placed in Legion Halls in Texas for the 1956 polio appeal. Mrs. Minnye Lyle, state secretary for the Legion Auxiliary, right, is head of the mammoth project. Texas Legion posts also are holding suppers, dances and parties for the benefit of the March of Dimes during January.

Mental Disorders Are Representing A Major Problem

AUSTIN (Sp.)—Mental disorders today represent a real problem, and it is estimated that more than 50 per cent of all hospital beds are filled by persons suffering from mental or nervous diseases, declares Dr. Henry A. Holle, Commissioner of Health.

It thus appears that modern civilization is exacting a terrific toll. High speed living, with its cruel demands upon nature, is responsible for a large part of the trouble. The fact is that significant percentage of the patients entering hospitals for mental disorders are there because of organic or toxic causes.

For example, general paresis is the cause of one-fifth of the mental troubles in males now entering mental hospitals. This condition is an organic disease of the brain due to the germ responsible for syphilis. It is a preventable disease. Early and effective treatment of acquired syphilis will block the end results of general paresis in the insane.

The excessive use of alcohol is responsible for a number of mental disorders, at least in males. Alcohol and syphilis combined are responsible for approximately one-fifth of all the hospitalized insanities. Nevertheless, improper living habits continue to impair mental health in many people. Insufficient

sleep, neglect of bodily care and an over forcing of nervous energy are the pitfalls to avoid in this connection.

Nature demands that her fundamental laws be at least reasonably observed. A constant outraging of the physiological economy takes its toll not only in bodies but in minds also. Mental illness and lesser nervous disorders could be spectacularly reduced if this fact were more generally respected. Training for mental health must be started in childhood as that is the time when prevention of emotional disturbance and promotion of sound emotional health can be accomplished most easily.

Industrial Meeting Is Scheduled At Abilene

The Post Chamber of Commerce's industrial committee expects to be represented Jan. 26 at the third annual Industrial Development Conference to be conducted in Abilene by the industrial department of the West Texas Chamber of Commerce.

The program, planned by a committee headed by E. L. Buehler of San Angelo, includes four speakers, one panel discussion, and two problem-clinic sessions. Speakers will include Fred H. Husbands, executive vice president and general manager of the W.T.C.; Dr. Lawrence J. Tudrick, chairman of the department of industrial economics of the Southwest Research Institute in San Antonio; Delbert Downing, manager of the Midland Chamber of Commerce; and Davis McMahon of Dallas.

Assumes New Duties As Auto Salesman

Walter B. Holland, well-known Post resident, has been added to the sales staff at Caprock Chevrolet, Inc., Harold Lucas, manager, has announced.

Holland, who began his new duties Tuesday morning, will sell both new and used cars for Caprock. He is a longtime resident of the Post vicinity and has lived in town for about 14 years.

Holland has been in the automotive business for himself here and has also been employed by automotive firms, his most recent position being with Storie Motor Co.

Mrs. Roy Gilmore and girls and Miss Rhea Hays were in Lubbock Saturday.

752-Page Volume Is Department's Best-Seller

1955 Agriculture Yearbook Is Devoted To Study Of Water

The Agriculture Department recently announced the publication of its annual best-seller, the Yearbook of Agriculture.

A copy of the book has been received here. It is entitled "Water." A 752-page volume devoted to drought, floods and normal sources and uses of water, authors of "Water" discuss all aspects of a subject that has become a major national concern—for industry, city dwellers, foresters, conservationists, gardeners, sportsmen, farmers, ranchers and orchardists.

Now receiving wide distribution, the government printing office has printed 230,500 copies to be given by senators and representatives to constituents; 40,000 to be sold by the superintendent of documents at \$2 a copy; and 12,000 for use in the agriculture department.

Editor Alfred Steffeurd reported previous editions of the yearbook had sold up to 39,000 copies and he predicted the 1955 book will equal or outsell its predecessor.

More recent series of the yearbook have been devoted to a single, broad segment of agriculture or a related subject. They have included such titles as better plants and animals, soils and men, food and life, farmers in a changing world, climate and man, keeping livestock healthy, science in farming, grass, trees, crops in peace and war, insects, plant diseases and marketing.

"Water" is bound in a green and white cover, adorned by the shaded head of a beaver.

The book's 95 chapters were written, mostly in non-technical style, by some 1,900 specialists in the department, in state agricultural colleges and in private and federal organizations whose work pertains to water. The book is well supplied with drawings, maps and photographs.

Among the subjects treated are the importance of water in history; the need for water of people, animals and plants; weather cycles; "cloud seeding"; desalting of sea water; water and erosion; the care of watersheds; water laws; floods and their prevention; water for forests and range lands; irrigation in the west and east and for specific crops; drainage; managing watersheds for better fishing; wetlands and waterfowl; farming in dry regions; use of waste water by industries; water for gardens and lawns; pure water for rural homes; sewage disposal; teaching and learning about conservation; and research regarding water.

"There's a lot to be known about water," Editor Steffeurd says in the preface.

"We see and feel rain, snow, dew, fog," Steffeurd wrote. "We use water for drinking and washing. We irrigate our lawns and fields. We talk about the weather, complain that it is too wet or too dry, and misquote Mark Twain about it. Most of us are conscious nearly all the time of the importance of water in our lives, but actually our knowledge of it is pretty skimpy."

Some of the information in the chapter, "Irrigating Cotton to Insure Higher Yields," was written by personnel of the Lubbock Experiment Station. Don L. Jones, superintendent, and E. L. Thaxton, assistant agronomist, discussed irrigation water and how it provides higher cotton yields on the High Plains of Texas.

Mrs. Wayne Hundley and Steve of Natchez, Miss. are guests of their parents and grandparents, the Clyde Jones, at Grassland.

Truck Line Headed By Former Post Man Expands Facilities

T.I.M.E. Inc., transcontinental truck line headed by Arno Dalby, formerly of Post, has completed a modernization of general offices and expansion of terminal facilities representing a cost of approximately \$120,000 at its headquarters in Lubbock.

The addition of approximately 8,000 square feet of floor space at its 2604 Texas Avenue site, together with an over-all remodeling plan which included the erection of a new building for servicing trucks, the expansion of terminal facilities and complete refurbishing and addition of more private offices, provides the firm with facilities to cope with expansion of routes and increased business, Dalby said.

Remodeling Is On At Piggly Wiggly

A remodeling program, which will include installation of a self-service market, got under way this week at the Piggly Wiggly Store, Paul Jones, manager, announces.

The remodeling will also include installation of refrigerated air-conditioning, addition of 67 feet of frozen food cases, repainting on the inside and outside, and other improvements. New aluminum doors will be installed at the front.

The remodeling is expected to be completed within three weeks. "In the meantime," the manager said, "we ask our customers to bear with us while we are 'torn up' getting the program finished."

Sheriff Urges Motorists To Cooperate In Winter Driving Hazards Program

"It's your responsibility to learn to drive safely in winter weather!"

This warning was issued by Sheriff Carl Rains to all motorists on behalf of the Winter Driving Hazards program being sponsored this month by the Texas Safety Association, Inc., Department of Public Safety and the National Safety Council.

"Winter is fraught with dangers for drivers," said the sheriff. "Slick roads that may send a car skidding at any moment, rain streaming on the windshield, early darkness which obscures the driver's vision, wear and tear on the engine caused by low temperatures—all these are major factors in winter traffic fatalities."

Winter driving requires a complete overhauling of both car and driver habits, the sheriff said, so that both will be able to cope with extra dangers involved in winter driving.

"If the car is properly equipped for safe winter driving and the driver has the know-how to handle himself and his car safely in winter weather, the winter traffic toll would be considerably reduced," the sheriff said.

The officer strongly recommended that the following six rules for safe winter driving be adopted by all motorists as their code of the road for winter driving:

1. Accept your responsibility. Do all in your power to drive without accident. Don't blame the weatherman for an accident. Be prepared to meet any situation that may arise in winter driving.
2. Get the "feel" of the road. Try brakes occasionally while driving slowly and when there

is no passing traffic. Find out just how slippery the road is and adjust your speed to road and weather conditions.

3. Keep the windshield and windows clear of snow and ice, fog and frost. Be sure your headlights, windshield wiper blades, and defroster are in top condition. Remember—you have to see danger to avoid it!

4. Use tire chains and good tires. Whether you use regular or snow tires, be sure the tread is in good condition and not worn smooth. Use tire chains on ice or snow. They cut stopping distances and increase traction four to seven times.

5. Pump your brakes to slow down or stop. Jamming them on can lock the wheels and throw you into a dangerous skid.

6. Follow at a safe distance. Keep well back of the vehicle ahead—give yourself plenty of room in which to stop.

Supports On Shorter Staple Would Be Blow, Mahon Says

Since his return to Washington, Mahon has discussed the problem with officials of the Department of Agriculture and members of the Senate and House agriculture committees.

The Senate Committee was expected to open brief hearings on the new farm bill today. Mahon has asked to be allowed to testify before the committee before final action is taken.

Briefly, here is the legislative outlook in Congress on the farm program. The House last year passed a bill providing for the restoration of 90 per cent of parity supports for the basic crops.

The next move is up to the Senate, and it is expected that the Senate will modify the House bill to include many additional provisions before the House will again have a chance to vote on the new farm legislation.

Senator Ellender expects to have a bill on the President's desk by Feb. 15. "We are interested in getting something done reasonably soon, but we are more interested in getting the right kind of legislation and most anxious to safeguard ourselves against discrimination in the new law as applied to West Texas," Mahon concluded.

COMING TO POST JAN. 27—The sensational Tom Crotser Variety Revue will present matinee and evening performances in Post on Friday, Jan. 27. Both the matinee and evening show will be in the high school auditorium. The outstanding revue's appearance here is being sponsored by the Post Rotary Club.

Periodic Check-ups Help Prolong Life And Maintain Good Health

AUSTIN (Sp.)—“Health examinations won't prevent old age, but many tens of thousands of persons, whose records of these examinations have been studied, have not only been helped to live longer, but also to be sturdier and healthier, and to enjoy more comfort and happiness by following the advice of the physicians who have made such examinations,” declared Dr. Henry A. Helle, Commissioner of Health.

Once the individual leaves school, he assumes the responsibility not only for his choice of work and method of living, but also for his continued good health. But he often fails to apply the available methods of preventing disease and prolonging life. Hardly a day passes in which our attention is called to the untimely death of some prominent person or acquaintance, which may be attributed to a preventable disease. So something should be done in the way of educating the adult group of the population, so they will voluntarily carry out those measures which prolong life and maintain good health.

It is our firm belief that if the diseases of the gastrointestinal tract, which includes the lips, tongue, teeth, mouth, stomach and bowels, are recognized in

Room 6B Is Winner In 'Sub' Contest

The Post Junior High School's nine-day subscription campaign for Curtis Publishing Co. ended Monday, with Room 6B winning top honors. Lee Williams was high individual salesman with \$123.22.

Section B of the sixth grade turned in a total of \$378.14. Second highest room was 7B with \$185, and third highest was 8C with \$124.75.

Raul Solis was second high individual salesman with \$97.25.

Those who sold \$30 or more worth of subscriptions were Tommy Bouchier, Bobby Hudman, Pat Wheatley, Leslie Acker and Jimmy Minor.

Room 6B will be treated to an ice cream supper along with all the salesmen who topped the \$30 mark and the captain and co-captain of each room's corps of salesmen.

A trampoline will be purchased for the school with the commissions received from the subscription campaign.

WE ARE ONLY GUESSING

That you NEED something we HAVE

We HAVE something you NEED.

We have a special price on two numbers of LISTER SHARES and will have until we sell down to our regular stock—after which time these two will be the same price as others.

We are notified of a PRICE INCREASE on all rifles and guns, BUT what guns we have in stock will remain at the old price until such time that we buy some more.

PRICE ADVANCES

Are not just imaginary—PRICES are up on all steel, copper and other metals and more especially items that require HAND WORK, such as tools. We are not taking full raise on all items—hoping they will not remain so high but forced to take at least a part of the raise BUT—we are being as reasonable as we can, realizing how rough high prices are for us in this part of the nation. We want to continue selling you all you need in our line.

MRS. R. V. BURNES WRITES

Mrs. Scott, Nee Joyce Edwards, Is Honored At Shower Friday Afternoon

W.M.U. met Thursday at the church for a Royal Service program. Attending were Mrs. Robert Mock, Mrs. Lawrence Burkett, Mrs. Elmer Hitt, Mrs. Hardy Smith and Mrs. Spence Bevers.

Mr. and Mrs. Carl Chilcoat are moving to the Burkett place south of Pleasant Valley where they will farm. They have been with Mrs. Lawrence Burkett since coming here from Arizona several weeks ago. Their daughter, Joan, will remain with Mrs. Burkett.

S. H. Webb has been ill at his home here. The Sunbeams met last week

Hunt Death Toll Matches Upward Accident Trend

AUSTIN (Sp.)—Twelve additional Texas hunting fatalities involving guns, making a total that doubled the previous year's total, prompted the executive secretary of the Game and Fish Commission to observe that the toll seems to reflect the upward national trend in all accidents.

The total for the recent hunting season has now reached 35, based on the reports published in newspapers in this state. The tentative compilation indicates a possible modern time record for Texas. The total for the previous hunting season was 17.

The executive secretary said the apparent record hunting death toll paralleled perhaps the highest number of persons hunting game in Texas.

“Our figures on licenses are not complete,” he said, “but it does seem that several thousand more persons hunted game last fall. However, the increase does not in any sense compensate for the proportionate increase in the fatalities which to date have doubled the total for the previous season.”

He cited a national survey as showing that the general accident rate has been upward lately and that accidents of all kinds increased 2,000 in the nation last year.

The executive secretary said one significant phase concerned the participation of many first-time hunters in some brackets, such as those drawing places in the public shoots on wildlife management areas and those sharing in the antlerless deer hunts. No fatal accidents were reported in any of these categories.

at the church with Mrs. T. L. Adams, Jr., and Mrs. Sonny Hitt, leaders. Those present were Judy and Debbie Hitt, David Mock, Linda, Sharon and Karen Adams. E. D. Robinson is recovering nicely following surgery in a Lubbock hospital. He was brought home last week.

The V. H. Kuykendall family, accompanied by Paty Payne of Post, spent part of last week at Lometa with her parents, the Wilson Burnes, and at Lampasas with his parents.

Mr. and Mrs. Sonny Hitt and Judy and Debbie have moved to the Son Basinger farm near Southland.

Mr. and Mrs. Henry Edwards have sold their home, which was moved to town. They will begin construction immediately on a new farm home. At the present time they are living in Pleasant Valley.

Visitors in the R. V. Burnes home Sunday afternoon were Mr. and Mrs. G. L. Blodgett and Martha of Post and Mrs. Durward Bartlett, Jimmy and Barbara.

The following women attended the W.M.U. Association meeting in Lubbock Tuesday: Mrs. Lawrence Burkett, Mrs. Carl Chilcoat, Mrs. Carl Payton, Mrs. Elmer Hitt.

A bridal shower was given Friday afternoon in the Jack Meeks home for Mrs. Charles Scott of Lubbock, the former Miss Joyce Edwards. Hostesses were Mrs. Elmer Hitt, Mrs. Lawrence Burkett, Mrs. Jackie Meeks, Mrs. R. H. Lewis, Mrs. Cecil Lee, Miss Joan Lee, Miss Sue Lancaster, Miss Theresa Lewis, Mrs. Wesley Scott and Mrs. Meeks. Among the guests were the bridegroom's mother from Wilson and a sister from Lubbock.

July To November Farm Exports Up

COLLEGE STATION (Sp.)—Exports of agricultural commodities during the July-November 1955 period are estimated at \$1,300,000,000, a gain of 4 per cent over the same period for 1954.

According to the U. S. Department of Agriculture, farm exports in November are estimated at about \$275,000,000, or 11 per cent greater than the monthly average in the first quarter of the current fiscal year but 18 per cent less than for November of 1954. The chief differences between November 1955 and the corresponding month a year earlier were the declines in exports of cotton and vegetable oils and oilseed while increases were made by grains and feeds. Exports of livestock products, tobacco and fruits and vegetables did not change significantly. Cotton exports, although aid-

REA Clients Use More Electricity With Price Down

COLLEGE STATION (Sp.)—For the first time in the history of the 20-year-old REA program, the average cost of power to residential consumers, including farm and non-farm, dropped under three cents per kilowatt-hour. In a year-end summary of the REA, a U. S. Department of Agriculture report shows that the sale of electric energy went up 16 per cent and the cost to consumers dropped 5 per cent during 1955.

The REA financed systems sold an estimated 19 billion kilowatt-hours of electricity. Their generation of power was up 21 per cent and purchases of wholesale power were up 13 per cent. At the year's end there were 1,026 borrowers with systems in operation. They were serving 4,244,000 rural consumers.

Ancher Nelson, REA administrator, said the borrowers, largely farmer-owned electric cooperatives, were never in better financial condition. In 1955 revenues from operations amounted to \$453 million, an 11 per cent increase over 1954. Net margins from operations amounted to \$61.8 million, a 41 per cent increase. Too, Nelson reported a drop of 25 per cent in the number of borrowers whose current operations might be considered financially unsatisfactory, from 194 in June 1954 to 143 in June 1955.

In 1955 the systems paid \$111.2 million in principal and interest on their 2 per cent loans and continued their excellent repayment record. In 1955 the borrowers also increased their advance repayment of borrowed money by \$13.2 million. Payments on principal ahead of schedule now amount to \$91.8 million. Loans over the life of the program now total \$3.1 billion. Of this amount \$2.6 billion has been advanced to the borrowers.

Exports of livestock products, tobacco and fruits and vegetables did not change significantly. Cotton exports, although aid-

ed by sales for foreign currencies, still were less than half as great in the 1955 July-November period as in the corresponding months of 1954. There was a slight increase in wheat and flour exports, and feed grain shipments abroad continued to advance.

Sales to Japan for that country's currency stimulated rice exports in the July-November period. Soybean exports were much higher than a year earlier, and favorable prices encouraged lard shipments abroad.

Mrs. Helen Rodrigues, who has been visiting relatives in Pittsburgh, Pa., the past two months, arrived home Tuesday.

Mrs. F. M. Reep, Jr., and children and Mrs. Bill Howe and Patricia of Lubbock spent Tuesday with relatives and friends.

Safety Can Be Just As Complete As Each Citizen Wants To Make It

COLLEGE STATION (Sp.)—Every one should have a lot of good reasons for including in their New Year's resolutions one or more on safety. For as the Texas Farm and Ranch Safety Committee points out, nothing is more important to an individual or his family than making sure all will be protected from the needless losses which accidents can bring.

Safety, says the committee, can be just as complete as each citizen, wants to make it. Carelessness in the home, on the farm or highway can result in destruction of property and lives. Start teaching the younger members of the family the rules of safe living. Be living examples, explains the committeemen, and develop a safety consciousness which will make safety a part of the daily life of each member of the family.

Safety is every person's business. Cold statistics can point out the losses in property and lives but until the desire of each person becomes strong enough to cause changes in habits and attitudes toward safety, statistics will continue to tell their grim story.

Remove the hazards from the farm and home which can cause accidents. Resolve to live in safety and security, and do it by not taking chances nor exposing loved ones to dangers which can be corrected or never brought into the picture just by being careful.

Finally, says the State Committee, your life and those of

the family are literally in your hands. Join with friends and neighbors in 1956 and start in your community a program on safety. It might save your life.

The over-all demand for eggs and poultry is expected to remain good for 1956. Supplies are expected to be large and prices may be slightly lower.

Tax Law Grants Certain Exemptions To Military Personnel

Military personnel enjoy certain exemptions under the income tax law. The Internal Revenue Service in Dallas, announced today.

Such items as subsistence and allowances, the government's part of the family allowance, state bonus, mustering pay, uniform allowance, gratuity, and National Service Insurance dividends, are taxable and should not be included on the return.

Sum payments received by Reserve officers in the line of service under Act of 1950, are not considered in computing taxable income.

Contributions for services, pay, and reenlistment are taxable and are included in the amount on the Form W-2, he explained.

Conditions allowable to individuals not in the military service.

Items not deductible include auto upkeep, damage to household equipment in moving, depreciation on uniforms, expense of visiting home, uniforms or alterations, and war insurance premiums.

The card form 1040 will again be available for the person whose total wages are less than \$5,000 and who did not have over \$100 of other income. Form 1040 will meet the needs of those who do not use Form 1040.

"In completing the form," Campbell further explained, "you should add your service serial number after your name."

The instruction booklet issued with the return will answer a lot of your questions.

An additional source of information, the booklet, "Your Income Tax for 1955," may be obtained by sending 25c to the U. S. Government Printing Office, Washington, D. C.

Campbell urged all military persons to contact their personnel who have been especially trained in the preparation of income tax returns.

Nearly Everyone Who Had Income In 1955 Should File Return

Nearly every citizen or resident of the U. S. A. who had an income during 1955 should file a tax return, according to John R. Robinson of the Internal Revenue Service office at Lubbock.

He explained that if you are less than 65 years of age and had a gross income of \$500 or more, you must file a tax return. Those 65 and over, however, must file a return when their gross income is \$1,200 or more.

"Self-employed individuals with net earnings of \$400 or more must also file an annual return," Robinson said.

"A person with income of less than \$500—or \$1,200 for those 65 or over—should file a return to get refund of the tax that was withheld each payday," he added.

"Every taxpayer should read the 1955 tax instruction pamphlet so he will not pay more or less tax than he owes," he urged.

Garza Explorer Is Slated By Alamo

Alamo Corporation of Lubbock has slated a 4,300-foot test project in northwestern Garza County.

The venture has been designated the No. 1-G W. A. Gray, and situated on a lease of 182 acres three and one-half miles northwest of Post.

Drill site is 360 feet from south and 330 feet from west lines of the southeast quarter of Section 1215 of the TTRR Survey.

TV And Appliance Store To Open Here On Or About Feb. 1

Post's newest business firm, the TV and Appliance Center, will be opened on or about Feb. 1 at 121 East Main in the building formerly occupied by Hundley's Cleaners.

Announcement of the tentative opening date was made Monday by the owners, Hank Huntley and Ed Sawyers, who are moving here from Boulder, Colo., where they have operated a TV and appliance store for the last four years.

Both owners are former Texans, Huntley having lived here for 17 years and graduated from Post High School. He is the son

Mr. and Mrs. Dolan Dempsey and children of Seagraves spent Sunday with Mr. and Mrs. J. W. Rogers and family.

Co-Op Stockholders To Vote On Building

Stockholders of Farmers Co-operative Society No. 1 will meet in the Graham School gymnasium at 2 p. m. Monday, Jan. 23, for the purpose of discussing construction of a new gin building and the installation of modern cleaners.

They will move their families here in about a week. Huntley has two sons, 9 and 11 years old, who are completing the first semester of school at Boulder.

The firm will be primarily a Westinghouse store, but four top lines of television sets will be carried. They will also maintain a complete sales and service department manned by qualified technicians.

Stockholders present at the meeting will vote for or against the proposed new building and equipment. Ballot cards have been sent all stockholders so that those unable to attend the meeting may vote by mail.
