'Brag Pages'

The popular annual "Grandma Brag Pages" will be published Wednesday, February 13 in The Post Dispatch.

Last year there were 93 youngsters featured on three pages.

Post has consistently led the area counties with more grandchildren on this popular feature and with a low cost of \$7.50 for each photo, a record number is expected again this year.

The deadline for submitting photos is Friday, February 8, all photos will be returned to the owners.

Photos should be accompanied with the name of the grandchild or grandchildren and names of grandparents.

With Valentine's Day on Thursday, February 14, the special pages will be a great way to "show off" those beautiful grandchildren.

In addition to hearing from Hance, those attending the banquet this year will also be treated to the naming of the 1984 Citizen of the Year.

Post CARES Group Discusses Progress

"Post CARES" (Community Assistance and Resource Emergency Services) met January 17 for an update on progress in organizing the newly formed facility.

Attendance was excellent as public interest in the project increases, but membership is still open to all interested citizens or groups at any time.

Treasurer Robert Wall reported that the Post Ministerial Alliance has made a generous contribution to the special "Post CARES" account at First National Bank.

The "Post Can" committee, headed by Pastor Alvin Petty reported that area churches have helped to start the facility's initial food drive by designating the third Sunday of each month as "Canned Food Offering Day."

Property committee chairman Robert Wall reported that construction is progressing rapidly on the building itself, which is located in the 200 block of East 8th Street. Committee

members are optimistic that Post CARES will be open for operation by early February.

The facility, commonly referred to as a "food bank" or "food box", is a type of clearing house for solicitation, collection and distribution of wholesome and edible, yet unsaleable food. Individuals will only be eligible for its benefits through a careful referral and screening process.

Future plans for the non-profit organization include a clothing resale shop and various other charity-related services.

The facility hopes to concentrate on the needs of several key target groups, such as the elderly, the disabled, children, and other needy individuals and aid will be given on a temporary basis only.

Further information concerning the Post CARES project is available by contacting Danielle Chapman at 495-3947.

Dr. Surman Recognized

By Wes Burnett

A whole bunch of people in Post have put their names on a special page in this week's issue of The Dispatch to say "Happy Birthday" to a really special fellow, Dr. A. C. Surman.

For those of you who have not had the pleasure of meeting and visiting with Dr. and Mrs. Surman, let me tell you the praise and nice things people say about them is understated.

They are both gracious, generous and full of enthusiasm and whenever I have the chance to be with them, even for just a short visit, I come away feeling just great!

And when I asked Dr. Surman recently how he felt now that he was almost 98 years old . . . he crisply replied . . . "I feel like I'm 40."

You just have to be around Doctor and Mrs. Surman to get some of their youth to rub off.

The tribute to Dr. Surman . . . and I'll include Mrs. Surman too . . . for everyone who knows them knows this is a true partnership . . . is well deserved.

In 1982 The First National Bank published a full page salute to Dr. Surman on the occasion of his 95th birthday . . . outlinging a few of his contributions to Post, which we paraphrase here:

Retiring in 1964, Dr.

SHIRLEY PRUITT

Shirley Pruitt was promoted this week by The First National Bank from assistant cashier to assistant vice president, as announced by President of the bank, Jack King. Shirley has been with First National for the past seven years. Her duties are supervising the bookkeeping department, drive-in window and general ledger. Shirley is the mother of two sons, Jimmy, who lives in Brownwood and Jerry of Lubbock.

TONYA RUDD

Tonya received a promotion at First National Bank last week to Assistant Cashier. Tonya duties include loan secretary, teller, proof operator, bookkeeper, and new accounts. Tonya is married to Delbert Rudd and is the mother of two daughters, Carly and Lindsey. Tonya has been employed at the bank for the past six years.

Surman served the people here starting in 1913, fresh out of medical school at Galveston.

By the way, he had graduated from Texas A&M before entering medical school.

When Dr. Surman came to Post he joined Dr. A. R. Ponton in the operation of newly built Post Sanitarium which he called "the best west of Fort Worth."

Even after the sanitarium was closed following World War I, Dr. Surman stayed and built a medical practice which literally covered thousands of square miles that in the early days he traveled day or night in his trusty Hupmobile.

Those days in this country there were no paved roads and it wasn't unusual for a farmer to hang a lantern atop the windmill to guide Dr. Surman to the house on a night call.

Along with Dr. Glen Kahler and Dr. D. C. Williams, Dr. Surman helped provide the essential leadership required for this community in planning and construction of the Garza Memorial Hospital.

When Dr. Surman was 65 years old, at the age most men retire, the hospital opened its doors, and he went on to serve the community another 12 years before retiring at 77 years old in 1964.

He was instrumental in other community chores too . . . along with Tom Bouchier and Rube Jennings, the building and financing of White River Lake was accomplished.

That lake continues to be recognized today as the best planned, best financed and best operated of any in Texas.

Dr. Surman served 12 years on the school board, twice as its president and

Students See Special Film

By Glenda Baker
"Wasted", a true story, is the title of a film shown during the past two weeks to seventh grade students in Post and a number of students at Southland Schools.

The film brings home the realization that drugs do indeed cause devastation with young lives wasted, many forever.

The best defense young people have today is a knowledge of drugs, what they are and what the consequences of drug use, is, both physically and legally in our society.

A sad fact is that alcohol drug abuse education is all too often left up to the schools by the parents

because of their own lack of knowledge about drugs.

In many communities today, parents support groups have been formed to learn about drugs and help combat their use through self-knowledge.

If you would like to see a parent support group formed in our community, materials, and assistance is available through the Garza County Alcohol-Chemical Abuse Program.

Until everyone gets involved and ceases to ignore the drug problem, young lives will continue to be wasted.

For information, call Garza County Alcohol-Chemical Abuse Counselor, Glenda Baker at 495-3788.

campus of Rice University. She also was treated to a shopping trip to the Galleria, ice skating and a movie.

Zerina was chosen to participate with the performance team because of her outstanding talent, leadership potential, and a dedication to general performance excellence. Recipients of "All-American" status represent the top five percent of students attending a Marching Auxiliaries of America summer camp program.

She attended the flag corps camp with the QHS

Flag Corps at North Texas State University this past summer.

Cotton Talks

Cotton yields in the 25 High Plains counties represented by Plains Cotton Growers, Inc., Lubbock, have nosedived since the decade of the sixties, dropping 119 pounds from a 10-year 1960-69 average of 460 pounds per harvested acre to only 357 pounds per acre in the seventies.

And the eighties, through the current year, have seen a further decline, to a 335-pound average. Looked at in five-year segments, area yields over the past 40 years began at 191 pounds per harvested acre in the 1945-49 period, advanced to 251 pounds as acreage under irrigation began to grow from 1950 to 1954, then leaped to 388 pounds in the 1955-59 period and on up to 463 pounds in the five years 1960 to 1964.

That level was about maintained from 1965 through 1969 when the average was 457 pounds, giving a 460-pound average for the full decade of the sixties.

But since then it's been all downhill, to a 374-pound 1970-74 average, an average of 338 pounds from 1975 to 1979 and 335 pounds in the 1980-84 period. The USDA projected 1984 average yield of 404 pounds was used to round out the final five-year average.

Preoccupation with extreme weather-induced year-to-year fluctuations in yields, government programs, inadequate prices, efforts to upgrade quality

and other more immediate concerns have largely obscured this long-term trend of falling yields, says PCG's Executive Vice President Donald Johnson, "and I think with some justification," he adds.

"But when it comes to restoring profitability to cotton production, neither government programs, better prices or higher quality can fully offset low yields," Johnson points out, "so it's a problem that deserves more attention."

This was made clear

January 17 at a meeting of PCG officials and other agricultural leaders with Dr. Neville Clark, Director of Texas A&M Experiment Stations, his assistant Dr. Tim Shaunty, Dr. George Slater, Director of the Corpus Christi Experiment Station, Dr. John Abernathy, the new Director of A&M's Lubbock Research and Extension Center, and Dr. John Gannaway, Associate Professor and Cotton Breeder at the Lubbock facility.

Partial responsibility for

yield reductions, it was agreed, can be assigned to such fairly obvious factors as decreased use of crop rotation, declining irrigation water and increased pumping costs, and an increase in total cotton acreage. Acreage planted to cotton in the sixties averaged about 2.15 million per year. Since 1969, planted acreage has averaged over 3.3 million.

Other causes which, if identified through research, might be mitigated or eliminated were also consid-

ered possible if not probable. Included was the possibility of a growth-retarding sub-clinical disease or diseases that might be identified through plant pathology.

"The importance of this

subject is such that we hope to see it given high priority in the scientific community," Johnson says, "and PCG expects to work closely with Texas A&M and other research agencies toward that end."

Some people say a knife or nail in your pocket will keep the elves from lifting you up at night.

To stimulate interest in better homemaking.

To increase appreciation of home life and family relations.

To develop ideals for true economy and thrift by putting into practice the improved methods of de-

monstration.

To develop in women and girls a new environment and more happiness in their community life.

Graham E. H. Club, President Jewell Parrish, 495-2638.

Extension Homemaker's Clubs are for Homemakers of all ages!!

OLDER PEOPLE NEED SEATBELTS TOO

Just because you've been driving for 40 years and never had an accident, doesn't mean it can't happen to you. Even though older drivers aren't hot-rodgers, they have a higher accident rate per mile than younger drivers. Also, most collisions are caused by human error — often the error of the other driver. So like everyone else, older drivers need the protection that comes from wearing a seatbelt.

Safety belts reduce the risk of serious injury or death by more than 50 percent for you and your passengers. If those passengers are grandchildren, you will be setting a good example when you wear a seatbelt and insist they do too. You can help them develop a habit that may someday save their lives. Also, remember that in Texas it's now the law that children under age four must ride in child safety seats.

PARENTS SET VALUE OF SCHOOL WORK FOR CHILDREN

Schools are not alone in teaching children. Parents have the responsibility to aid and assist their children. Making sure school work is regarded as important is one of the main

ways parents can assist their children.

Ask about school work. Listen to what the youngsters say. Respond to it with attention and care about what the youngsters are working on. That kind of support is probably the best a parent can do for youngsters at all grades in school.

Control television viewing. If necessary, limit the hours children watch it and be aware of what they are watching.

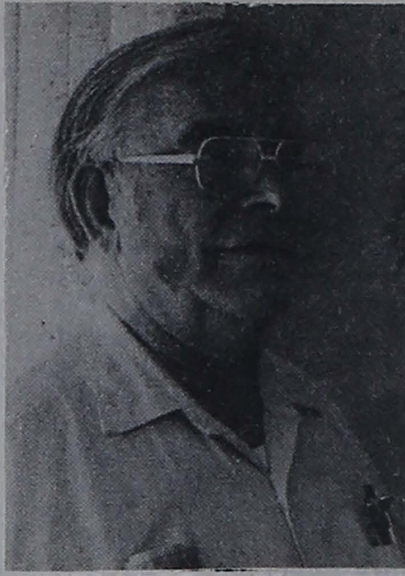

Establish a specific study time at home and make it a quiet time. Provide an area that is suitable for the student to work. It can be any place appropriate — the dining room table if there is room, a desk in the bedroom — as long as there is space and quiet for the student to work.

If the children are young, spend study time with them. Older students need to be working on their own skills, but still need the support of the parents.

Have books at home on school subjects and on other subjects. When possible have other learning activities such as games and projects so that what is being learned in school can be practiced at home too.

Look at the work the youngster brings home as well as at the homework. This gives parents direct contact into what is being taught so that they can help the students apply it at home.

Let teachers know when you are concerned about what is going on in the classroom. Visits with the teachers can be two-way sessions that not only help the teachers understand the students, but help the parents see what is going on in the classroom environment.

Twin Cedar News

By Darla Davis

Hi there, here we are again to tell you about what we have been doing.

We had a party on Thursday and had chips and dips and appetizers, to drink, we had hot spiced tea. We all enjoyed the little treat and change of pace.

We have been playing sheet ball of a morning, and we all have a good time. Our arms have been sore but it is real good exercise. We have been playing dominoes but we can't decide who's the better team. Everytime we play, a different team wins. We'll just have to keep playing until one team wins twice.

Sunday services were brought to us by the United Methodist Church with Rev. Wayne Norman officiating. The members of the church served cookies and punch

for refreshments. We all really enjoyed the service and all of the thoughtfulness you brought to us.

Tuesday night was really a lot of fun. "Pat and Millie" came to entertain us, along with Pat Kitchens and Mildred Steward, were Bill Bartlett on piano and Durwood Bartlett playing the guitar. We had so much fun singing and dancing. We always look forward to our Tuesday night entertainment.

Visitors this past week were Mary Vasquez, Arthur Gomez, Michael Garza, Debbie, Chanda and Meagan Moreman, Lorrye Ledbetter, Priscilla Garcia, Princess Garcia, William and Ruth Young, Annie DeLeon, Benita and Teresa Pena, Jewell White, Darling and Martin Garcia, Priscilla Lupita, Darrell Roberts, Shirley Foster, Billie Idell and Jeannie Bilberry.

Golden Plains Care Center

By Nell Mathews

We enjoyed the Bible study by Patsy Craig.

I think Dovie Williams and Ruby Woodard beat Nell and Etta Burk in 42. Well maybe next week.

John Wessels gave us some pointers in exercise. We have a lot of fun.

We did not have our movie Thursday, but we did have popcorn, exercise and Thursday night, singing by Cleao Sappington, Marion Mathews and Nell Mathews with Juanella Hays at the piano. Sure enjoyed it.

Friday it was nice and warm that we had ice cream. It was so good. We lost sweet Parlee Strawn, she was a joy to all of us.

Mrs. Nettie Barrow is in the hospital and hope she will be back with us soon. Our new resident is Carl

Fluitt, welcome to our home.

Our family night will be January 29 at 6:30. We will have entertainment from the Gail Goof-Offs. The families will be getting letters from us saying that it will begin at 7 p. m., but entertainment will begin at 6:30 p. m. It is very important that the families be here by 7 p. m. We will be looking for you then.

Pleasant Home Church News

By Annie Gilbert

Church Motto: The Church where everybody is somebody.

I would like to apologize for not having an article in the paper for the past couple of weeks. With the holidays plus being a Grandmother again, everything has been so busy.

Holy Greetings everyone this beautiful New Years Day which the Lord has made for us to see and enjoy as His children. Thank God here we are again. I'm still living for our Lord and Master with a mind made up to forever be a Christian, with my mind made up to be what God would have me be.

Rev. Kelly, pastor; Sister Gilbert, reporter.

All at their post of duty and well attended. Lesson subject "The Water of Life" John 4: 7-15; 7. Key verse "If any one thirst, let him come to me and drink." John 7: 37. During the morning worship hour devotion was conducted by Sisters Thelma Moore, Annie Gilbert and Callie Harper. Sister Gilbert read Ecclesiastes 3: 1-8.

The past two Sundays, Rev. Kelly preached from Isaiah 40: 31, subject "Eagles Wings" and Matthews 17: 20, subject "Mustard Seed Faith".

Altar call very spiritually prayed by our pastor. Choir's presentation beautiful to our Lord Jesus Christ. The morning message was delivered by Rev. Kelly. His scripture was Jeremiah 33: 1-3. His

subject was "A Divine Invitation". He also read before offering St. Luke 6: 38.

God is not through with us yet. Let's pray for one another, always, amen. And God is still in his holy temple here.

My thought: "Nothing you do will make me give up my faith in Jesus." Think about it.

Sick list includes Brother

Seed by the Wayside

By Pastor Steve Traw

First Christian Church
West Texas roads in our rural farming areas are often closely bordered. Cover crops hem in the fields and line the roads. This regular sowing each year reduces the steady erosion of our infamous windy weather.

From this contemporary setting, reminder is found to a timeless sowing of seed. This seed is that which falls along the wayside or beside the road and brings no harvest. It was the first of many parables the Master teacher used in His public ministry. As this method of instruction begun, a call was made to gain attention from the large audience. The warning is given that more is included than that appearing in the superficial hearing of the story. The power of God's Word is stressed. This parable is most significant as its understanding is key to learning from any other parable.

Jesus answered His dis-

Malachi Mitchell Sr., a patient in Lubbock Methodist Hospital, room 412. Lets all say special prayers for him and his family. Sisters Lizzie Milo, Sirloma Steel and Brothers Harry Trueblood and Raymond Latson are patients in Golden Plains Care Center. There are others in the community also, so let's pray for our sick ones. Amen and amen.

ciples' inquiries into the meaning of this earthly story with a heavenly meaning.

The loss of seed to the birds of the air was a common sight to the Palestinian people, too. Likewise, it is often unavoidable that seed in our modern farming methods still is left uncovered on turn rows and along the many access roads. But interpretation of the seed as the Word of God was needed. The hearing of scripture is too often snatched away as by the devil. Left uncovered, without the necessary ingredients for growth, all is lost.

Frivolous hearers who listen, but then treat the word of God lightly disallow opportunity for change in their life. The moment to become one with the Lord slips away.

Unresponsive hearts do nothing with the message. Nothing comes of a message from the God of all creation. There is no harvest to be anticipated. After hearing "immediately" any favorable result is "gobbled up". Indifference may result from dislike of the speaker, hostility toward the message, or a feeling of inconvenience. Soon the heart becomes as packed as the well trodden waysides, as hardened as our numerous service roads. Any chance of benefit is lost.

NOTICE TO PUBLIC OF FINDING NO SIGNIFICANT EFFECT ON THE ENVIRONMENT AND NOTICE TO PUBLIC OF REQUEST FOR RELEASE OF FUNDS

City of Post
105 E. Main Street
Post, Texas 79356
(806) 495-2811

TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS:

On or about February 14, 1985, the above-named City will request the Texas Community Development Program (TCDP) to release Federal funds under Title I of the Housing and Community Development Act of 1974, as amended, for the following project activities:

Drainage Improvements \$7,000

The above referenced project activities will be carried out as part of a 1983 Texas Community Development Program (TCDP). The project will be carried out in a Target Area in the northeast part of the City of Post. A map showing the location of this drainage area and the proposed paving-drainage improvements is available for inspection in the Post City Hall.

FINDING OF NO SIGNIFICANT IMPACT

It has been determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment and accordingly the above-named City has decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act of 1969.

The reasons for such decision not to prepare such Statement are as follows:

DRAINAGE IMPROVEMENTS: Existing dirt streets will be paved, curbed and guttered to reduce dust pollution, facilitate drainage of storm waters and improve vehicular and pedestrian safety. Limited grading and clearing will be involved in project construction activities, but no major changes in topographic features are anticipated. No major changes in land use, population density or demand for community facilities are expected over the course of this project or as a result of project use. Existing support systems and infrastructure will not be negatively affected by the project. During the construction phase of the project, some minimal increases in air and noise pollution may occur, but air quality and noise levels will return to current levels once construction is completed. The project will not affect any properties of known historic, archeological or architectural significance and the aesthetic environment of the Target Area should be enhanced by the proposed project.

An Environmental Assessment respecting the within project has been made by the above-named City which documents the environmental review of the project and more fully sets forth the reasons why such Statement is not required. This Environmental Assessment is on file at the above address and is available for public examination and copying upon request in the office of the City Manager between the hours of 8:30 a. m. and 5 p. m., Monday through Friday.

PUBLIC COMMENTS ON FINDING

All interested agencies, groups, and persons disagreeing with this decision are invited to submit written comments for consideration by the City to the Office of the City Manager. Such written comments should be received at the above address on or before February 13, 1985. All such comments so received will be considered and the City will not request the release of Federal funds or take any administrative action on the within project prior to the date specified in the preceding sentence.

RELEASE OF FUNDS

The City of Post will undertake the project described above with Texas Community Development Program (TCDP) funds from the Texas Department of Community Affairs (TDCA) under Title I of the Housing and Community Development Act of 1974, as amended. The City of Post is certifying to TDCA that the City and G. C. McCrary in his official capacity as Mayor consent to accept the jurisdiction of the Federal courts if an action is brought to enforce responsibilities in relation to environmental assessments, decision making and action; and that these responsibilities have been satisfied. The legal effect of the certification is that upon its approval the City may use the TCDP funds and TDCA will have satisfied its responsibilities under the National Environmental Policy Act of 1969 and 24 CFR Part 58.

OBJECTIONS TO STATE RELEASE OF FUNDS

TDCA will accept an objection to its approval only if it is on one of the following bases: (a) that the certification was not in fact executed by the certifying officer or other officer of applicant approved by TDCA; or (b) that the contractor's Environmental Review Record for the project indicates omission of a required decision, finding or step applicable to the project in the environmental assessment. Objections must be prepared and submitted in accordance with the required procedure (24 CFR Part 58.75) and may be addressed to TDCA at:

Texas Department of Community Affairs
2015 South IH-35
P. O. Box 13166
Austin, Texas 78711

Objections to the release of funds on bases other than those stated above will not be considered by TDCA. No objection received after March 8, 1985, will be considered by TDCA.
