### Dog Shots Set Friday

Mayor L. J. Hash said this week that Dr. Bucy of Lamesa will be here to inject dogs and cats with antirabies shots.

He will be here from 3 to 5 p. m. at the City Tax Office.

Dogs not properly tagged showing up to date shots will be subject to being placed in the City's dog pound. EVERY pet ANIMAL should have these shots. The dog problem is pretty well under control. Let's keep it that way.

Mayor Hash also said he's had reports of shooting of Mockingbirds by little boys. This is a waste of nature as this bird has a beautiful voice and is not a game bird. Let's teach our children not to wantonly waste our natural resources.

An air conditioner is being erected at the Community Center and a power lawn mower has been purchased. The park is becoming very attractive.

### SCHOOL IMPROVES CAMPUS

For some years we have been in need of a concession stand and restroom facilities at our football field. The school has recently completed an attractive concrete brick building at the south end of the field which houses a concession stand, a storage room and two restrooms. We hope this facility will provide better service to you in the coming years. In addition to the new building we have completed two small water wells at the football field which should furnish enough water to care for our grass on the field and possibly other parts of the campus. We have one small well on the Junior High campus, and although it is not enough water, perhaps by careful planning we can maintain what grass we now have. The cost of the building was approximately \$2600 and the cost of the water wells was about \$1500.

### Drivers Training

A drivers training course will be offered this summer. The first meeting of the class will be at 1:00 p. m. on June 6th in the High School. Coach Blair will teach the course. Next week information on adult summer education classes will be given, Supt. John Criner said.

Mrs. Gardenhire led in the candlelight pledge service. Mrs. Rumbos told the story of "The Light in the Chapel." 12 were present.

The same Corvaire that tallied a thumping 27.03

 earlier in the spring than any car  
 has ever tried!

We wanted to show you what the fabulous traction  
 of Corvaire's rear-engine design and the sure-  
 footedness of four-wheel independent suspension  
 really mean. So the identical Economy Run car  
 went right on to 14,110-foot Pikes Peak—and right  
 up to the top of that savage mountain, on April 15,  
 still deep in winter's snow and ice. No other car—  
 even specially equipped—had ever been able to  
 conquer that nightmare alpine road so early in  
 the spring. But Corvaire (with United States Auto  
 Club officials aboard to certify that not one nut  
 or bolt was changed) purred right to the summit  
 without chains or even snow tires! That just  
 underscores the fact that Corvaire is totally unique.  
 But you'll find that out the first five minutes  
 you're at the wheel!

Why  
 Install a  
 Gas Light?

If you are a home owner  
 who takes justifiable pride  
 in the appearance of  
 his property . . . if you have  
 a regard for the  
 convenience and safety  
 of folks who come  
 to see you . . . and if you  
 have a keen sense  
 of economy as well as  
 for things functional . . .  
 then a Gas Light will be  
 a satisfying addition  
 to your yard.

Neighbors welcome its  
 glareless illumination . . .  
 insects give its soft,  
 mellow glow a wide berth.  
 And regardless of the  
 architectural style of your  
 home, gas lights provide  
 an indefinable "something"  
 that adds noticeably to  
 the appeal of any residence,  
 at an amazingly  
 small cost of operation.

Why not call Pioneer  
 tomorrow and find out all  
 the details about  
 Gas Lights? Special  
 Budget Prices start at  
 just \$49.50, installed.

## Mercury's the better low-price car and you can prove it!

**ADD UP MERCURY'S EXTRA VALUES:** Just stop in at  
our showroom and see the proof firsthand. Open the front  
door of a Mercury...it's up to 5 inches wider than other  
low-price cars so you can get in and out that much easier.  
Slide into the front seat. Notice how the instrument panel  
has been moved far forward. What other car gives you this  
feeling of spaciousness? Now accept our invitation to go on  
a private demonstration. Notice the steady, silent smooth-  
ness of the ride. That's because Mercury has a 7-to-8-inch  
longer wheelbase than other low-price cars...is up to 494  
pounds heavier, and has far more sound-proofing all-  
weather insulation.

Try the brakes. They're up to 26% larger in a Mercury.  
Notice the view. Mercury's windshield and windows give  
you up to 21% greater visibility than other low-price cars.  
Now, for the best news of all, just keep on reading...

**COMPARE MERCURY'S LOW PRICES:** prices start  
\$63 to \$66\* below even the lowest-priced V-8  
powered Plymouth Fury or Chevrolet Impala!

And we're not talking about a "stripped" Mercury. This  
price comparison is based on a deluxe-appointed Mercury  
Monterey with luxurious nylon interior and thick wall-to-  
wall carpeting. So why settle for less? Get all your money  
can buy with Mercury...the better low-price car.
