

PAGE TWO

The O'Donnell Index

Published every Friday at O'Donnell, Texas. RITZENTHALER & CARTER Publishers. O. D. CARTER Editor W. H. RITZENTHALER Bus. Mgr. \$1.50 PER YEAR—IN ADVANCE Advertising Rates on Application.

Entered as second class matter September 28, 1923, at the post office at O'Donnell, Texas, under the Act of March 3, 1879. Some of the detours are not even paved with good intentions.

A popular composer is one who can make a judicious selection of fragments from old tunes.

Auto production is 21 per cent below last year. Which is good news only for pedestrians.

Some statesmen seem to be doing a lot of thinking about that unshakable Anglo-American war.

Rumania welcomed Carol as the prodigal son, but may throw him out of the house later if he cuts up.

Towns which lost population since 1920 should be congratulated if they got rid of certain kinds of people.

It seems that we have now four branches of government—legislative, executive, judicial and investigational.

Even some who don't care for Bishop Cannon enjoyed a laugh at his investigators when he walked out on them.

"Urges Training in Law Observance"—Headline. Another fine course for the correspondence schools.

In a published "score card" for candidates, "intelligence" is given a weight of 10 out of 100 points. And some can't even pass that.

Dial telephones have been removed from the Senate office building. It appears that Senators couldn't learn how to manipulate them.

A scientist declares that the human jaw is growing less and will eventually disappear. Then folks will all resemble Andy Gump.

A former Senator's radio speech was interrupted by a fake S. O. S. call. Most folks who have to listen to speeches feel like calling for help in earnest.

We read that radio loudspeakers are being employed on farms instead of scarecrows. Some programs we might mention ought to be especially effective.

WAR CLOUDS IN EUROPE

In spite of all the peace treaties which have been negotiated since the World War, in fact, the outlook for prolonged freedom from European strife is not as bright as it should be.

Just now experienced observers see grave dangers in the attitude of several European powers, especially Russia and Italy. In fact, it is difficult to find a single nation that is satisfied with the present situation, because all are faced with unfavorable economic conditions.

A well-known New York publisher upon his recent return from an extended study of European affairs is quoted as saying: "I was never so appalled in my life."

Then he declared that the relations between France and Italy were becoming strained almost to the breaking point; that while Germany was supposed to be disarmed every youth receives military training; the Scandinavian countries are at swords points among themselves, while Russia is armed to the teeth and only seeks a favorable opportunity to hurl its might against the "capitalist nations."

These are only the more obvious indications of unrest, while in the former territory of Austria-Hungary, in the Balkans, in Poland and elsewhere the age-old rivalries are still in evidence.

While every right-thinking person will fervently hope that all these present differences may be composed without bloodshed, no student of history can escape the fact that possibilities of another disastrous conflict are too evidenced to be ignored.

It seems incredible that the lesson of the World War should be so soon forgotten, but the dangers noted are real, and unless European statesmen adopt a more conciliatory attitude a new war which may virtually destroy Western civilization is not beyond the range of probability.

NEW AMERICAN SHIPS

Germany's speed supremacy on the seas will be challenged by two new ships just contracted for by the United States Lines, which will be the largest ever built in America, of 36,000 tons each. The two will cost \$21,000,000, and are to be completed in 1925.

These are the first vessels to be built by the company under its agreement with the government, whereby

a total of \$90,000,000 will be expended for new ships within the next few years. It is said that they are expected to develop a speed to exceed that of the German Berenem and Europa.

It should be a source of patriotic pride that the United States is to again take an important place among the maritime nations of the world.

HELEN KELLER

One of the most remarkable women in the world is Miss Helen Keller, who will be 50 years old this month. Her claim to fame rests upon her astounding accomplishments in the face of the most crushing affliction with which a human being could be handicapped.

Born in Tuscumbia, Ala., on June 27, 1880 the daughter of a country editor an attack of brain fever at the age of 19 months rendered her utterly deaf, dumb and blind, and apparently a hopeless idiot.

By the time she was eight years old her father was able to arrange for expert care for the child and Miss Anne Sullivan of Boston was entrusted with her education. Her ingenious methods and infinite patience employed by her teacher can not be described in this brief sketch, but sufficient to say that 1903 Miss Keller was graduated from Radcliffe College with an A. B. degree.

Helen Keller never regained her lost faculties, except that of speech to a limited extent, yet she is an author of note, an original thinker of distinction and a humanitarian. She is making a valuable contribution to the welfare of those who suffer from infirmities similar to her own. She is now engaged in raising an endowment fund of two million dollars for the American Foundation for the blind.

In order to appreciate Miss Keller's amazing accomplishments it is only necessary to consider that while education and a human education are for those who are blind, but retain speech and hearing; or for those who are deaf and dumb, and retain sight; they are deprived of all three faculties would ordinarily mean utter hopelessness.

Thanks to the marvelous brain, developed by the skill and patience of a devoted teacher, Helen Keller is today one of the outstanding women of her generation.

HELP BRIGHT STUDENTS

It is to the credit of philanthropic rich men that they have given generously of their wealth for college endowments. But in view of the overcrowding of endowed institutions by alleged indolent who only go to college for the sake of being known as "college men," it is pertinent to ask whether some restrictions should not be placed upon these bequests.

That any young person not possessing the natural qualifications or character to do proper use of a college course should crowd out an earnest and qualified student is shameful. That any who possess the mental and normal capacity for using higher education for the advancement of mankind should be denied a tragedy.

Some of the millions which are donated for the general use of colleges might be put to better use by devoting them to the establishment of more scholarships, including living expenses, for talented boys and girls who are unable to secure higher education without such aid.

THE VAMPIRES

In current slang, as is well known, the term "vamp," a contraction of "vampire," in fact, is used to designate a seductive female.

In olden times, and even in recent years, in parts of Eastern Europe the vampire was considered a more sinister and fearsome entity. In the original meaning, a vampire was supposed to be the soul of a dead person which leaves the buried body at night to suck the blood of living persons, usually causing their death. Hence, it was believed that upon opening the grave of a vampire the body would be still fresh and rosy from the blood thus absorbed.

Dead persons most likely to become vampires were supposed to be those who had committed suicide or had come to their death by violent means, also wizards, witches and those who had been cursed by their parents or by the church. A cat crossing a grave might transform the occupant into a vampire.

To stop the depredation of a supposed vampire, it was thought necessary to drive a stake through the corpse, sever the head, remove the heart, burn the body, or pour boiling water and vinegar on the grave.

Later the term vampire was applied to certain species of "blood-sucking bats" of Central and South America, conceiving which many popular superstitions have also arisen.

Finally, we have the alluring vampire, or "vamp" of the movie screen and the stage. There isn't much superstition about her.

The kind Providence which is said to guard drunken men, children and the United States was manifested in Central Park, New York, some days ago. Playful boys threw sticks at Paul Goldstein and Murry Liebowitz, who were rowing on a small lake. The rowers landed and chased the boys—also discovered that the sticks were stolen dynamite, which fortunately had failed to explode.

William Beebe, the explorer, reached a sea depth of about half a mile in a hollow metal diving ball, designed for the study of marine life at great depths.

Weakness For Chickens

USE SURPLUS CORN Publishers Cut Prices

Abbe Buzzard, 68-year-old Pennsylvania, has spent 42 of his years in jail for stealing chickens. Between jail terms he is an evangelist. Another neat little problem for the psychologists.

Although New York City continues to be the home of more rubes than any other locality, its agricultural showing is not impressive. Between 1916 and 1917, Michigan, an Edison Memorial Museum as an indication of his affection for the aged inventor.

America's perplexing corn surplus problem may be solved by the manufacture of corn sugar, which is now growing in popularity, according to Dr. H. E. Barnard, president of the American Institute of Banking. Some other devotees of applied chemistry are using quite a bit of the aforesaid surplus in making a potent liquid product which appears to be in rather steady demand.

Someone must have been humiliated in the United States Shipping Board. That body has gravely ruled that babies born aboard its vessels may be carried to the end of the voyage without payment of fare.

Nashville has apparently changed its attitude, but in just what direction is somewhat obscure, at least so far as may be gathered from the opening paragraph of a dispatch, which reads: "Nashville has dropped from one of the worst dope peddling centers to the second cleanest in the United States." At first glance it would seem that Nashville had defied gravity by dropping upward.

Optimistic note from a newspaper of Victoria, B. C.: "The board was gratified to learn that receipts were 50 per cent greater than last year and the hope was expressed that next year the cemetery will be self-supporting."

Harper's tells of a little girl sent to an institution for feeble-minded, but found merely "sub-normal" and returned home. Her little sister in a burst of confidence told a playmate: "Lars was sent away to an institution, but she couldn't pass and had to come back."

Book buyers will be pleased by the announcement that four of the largest publishers will cut prices in half. Some believe that this will reduce authors' royalties to an extent that will discourage the production of new books. Which may also be in the interest of the public.

With total wealth of \$10,938,000,000, Texas ranks eleventh among the States. Among Southern and Southwestern States it ranks first.

With the rapid expansion of the soybean industry poultrymen have available a new money food that could well be used more than it is, says the U. S. Department of Agriculture. In the Pacific Coast States poultrymen have used soybean meal for several years and consider it an excellent feed for flesh and egg production. A mineral mixture increases the value of soybean meal as a protein supplement.

Henry Ford Reveals Tom Edison as Guiding Genius in Auto Industry

Ford Talks a Difficult Problem over with Edison.

The next time you dodge a driver or are held up at a crossing while an infernal stream of autos puffs past, do not blame Henry Ford.

For Henry, it seems, is not after all the father of the quantity production idea that has filled our highways with low-priced cars and put a premium on parking space. The man responsible is, instead, Thomas A. Edison.

The public has had evidence, for many years, of a unique friendship existing between Ford and the "Wizard of Menlo Park." They have been camping companions for many years. Ford has a place next to Edison's winter home at Fort Myers, Florida, and last year he established at Dearborn, Michigan, an Edison Memorial Museum as an indication of his affection for the aged inventor.

But the extent of Edison's interest in and influence on America's development of the automobile industry has remained unrevealed. "Uncle Henry" himself, however, in an article in the July Cosmopolitan magazine, lifts the veil that has shrouded their relationship and discloses that not alone did

the encouragement and counsel of Edison assist and guide him in the design and construction of his early automobiles, but that it was Edison who enabled him to visualize the idea of low prices through quantity production, commonly known as the Ford system, commonly known as the Ford system, commonly known as the Ford system.

"I have been credited with originating the plan of fixing a sales price and then forcing costs down through volume of production so that the price would yield a profit. That was first an Edison idea. In fact there is very little in our industry today that Edison did not think of and try out."

The fact that Ford, at the time he built his first automobile, was chief engineer of the Detroit Edison Company is not commonly known or at least has been largely forgotten. It is to that fact, however, and the contacts it gave him with Edison, that Ford, revealing heretofore secret chapters of his work, traces his success in putting the world on wheels.

New sources of insulin, used in the treatment of diabetes, have been discovered in two species of fish, the angler and sculpin.

French dolls now sing by means of a miniature phonograph concealed in the body.

A new anesthetic, twice as powerful as cocaine and only one-third as poisonous, has been reported by chemists of the University of Wisconsin.

Ultra-violet rays are being used in the treatment of incipient blindness.

Kill this pest - it spreads disease. Includes an illustration of a fly and a bottle of GULF VENOM. Text: Kills Flies and Mosquitoes, Roaches Bedbugs Ants Hoths. Gulf Refining Co.

MRS J. W. CAMPBELL, Reporter

## MMES. CATHEY AND WELLS HOSTESS AT ELABORATE PARTY

Mmes. E. T. Wells and W. S. Cathey were joint hostesses last Friday at a series of two parties, one in the afternoon and the other in the evening.

Gorgeous decorations of roses and other cut flowers were used in profusion in the spacious livingroom of the Wells home. Tables were placed when the guests arrived and were charming with their centerpieces of roses.

Four tables of forty-two were in play with high score going to Mrs. Harvey Jordan, who received a lovely hand painted bowl.

Dainty refreshment plates containing bread and butter sandwiches, banana salad, olives, waters and ice tea, with a corsage of pansies as plate favor, were passed to Mmes. A. H. Koeninger, J. P. Bowlin, Harry Jordan, Glenn Everett, Vance Guyer, Charlie Cathey, Harold Treway, Daniel Davis, and Jack Alley Robinson of Tahoka.

## MISS LOIS BURDETT CELEBRATES FIFTEENTH BIRTHDAY

The lovely country home of Mr. and Mrs. Burdett was crowded last Saturday evening with friends who called to celebrate their daughter's fifteenth birthday.

Many beautiful and useful gifts were tendered with congratulations and good wishes to the honoree, for which games of all kinds were enjoyed.

At the end of the evening, delicious ice cream and cake were served to the following guests: Misses Gladys Gibson, Waldine Kirkland, Ruth Edwards, Faye Tomlinson, Ruby Burdett, Evelyn Lawler, Margaret and Mildred Whetsel of Tahoka, Margaret Miller, Kimmie Lee carter; classes: Jordan, Leonard, Wayne, Clayton, Alvin, Fredway, Wray Guye, T. A. Greenwood, Thornton Musick, James Cathey, Ollie Gaddell, J. T. Middel, William Frost, Russell Foster; Mr. and Mrs. Isaacs and daughter, Mrs. Claude Tomlinson and son of Mr. and Mrs. Mell Pearce.

## Y. P. M. S. ORGANIZED TUESDAY AFTERNOON

With twenty enthusiastic members present for the first meeting, the Young Peoples Missionary Society of the Methodist Church got off with a flying start Tuesday afternoon.

The first meeting was held at the home of Mrs. Bess Johnson, who will be their leader. After the opening song, the members entered into a business session. The following officers were elected: President, Miss Sue Gates; vice-president, Jeanette Thomas; recording secretary, Alice Busby; corresponding secretary, William Williams; social service leader, Lois Burdett; reporter, Kathryn Veazey.

## CHICKEN ROAST AT LAKE FRIDAY

An impromptu and highly enjoyed social event was the chicken roast Friday evening at the Tahoka lake.

The party left town just at dusk, and the huge truck belonging to Mr. Nelson had to be drafted into service to convey the entire number to the chosen picnic site.

Lunch was spread, chicken, rolls, pickles, potato chips, cake and all the other edibles were there in plenty.

Games, stories and songs ended the evening's fun.

Those present were Messrs. and Mesdames Nelson, Wilkes, D. Edwards, Roy Miles, W. E. Singleton, Ethel Singleton Williams; Misses Alice Joy Bowlin, Edna McGee, Eula Belle and Louise Miles, Lois Nelson, Alline McElroy, Kathryn Veazey, Hallie Johnson, Lamsa, Ralph Beach, Randi Gibson, and Barton Bruce.

## FIRE BOYS ROAST WENIES MONDAY EVENING

That the O'Donnell fire boys are as apt at building fires as they are in putting them out was amply demonstrated Monday evening when they staged a wienie roast in the north part of town.

They were so modest that they refused to name the best roaster or the most artistic decorator of wienie, but suffice it to say that there were plenty of eats and fun as well.

After supper the entire party indulged in the active games appropriate to the occasion, and the boys staged an elaborate demonstration, part of which was taking the ladies for a ride on the truck. This last feature is especially mentioned to explain the saucer and other articles which mildly alarmed the town late that evening.

Those present for the enjoyable affair were Messrs. and Mesdames Clarence Willis and family, Roy Wilkes and family, Cecil Hubbard and family, C. A. Rayburn and family, Miss Jessie Middleton, Manuel Medley, and Barton Bruce.

## DINNER PARTY HONORS FRANK SHUMAKE'S BIRTHDAY

A picnic-style supper served on the lawn at the home of his parents, Mr. and Mrs. George Shumake, celebrated Frank Shumake's birthday Tuesday evening in fitting style.

Fried chicken with all the accompaniments was topped with ice cream and the kind of birthday cake that mother makes. Mr. Shumake refused to state the number of candles on the cake, merely remarking that he was old enough to vote.

Those present were immediate members of the family, Mr. and Mrs. George Shumake, Veda and Wilbur Shumake, Mr. and Mrs. Frank Shumake and daughter, Rebecca May, Mr. and Mrs. George Shumake, Jr., and son Charles Eckhart.

## TAHOKA GUEST HONOREE AT DANCE TUESDAY

Miss Dede McCoy of Tahoka was guest of honor Tuesday evening when her cousin, Miss Beverly Wells, entertained with an informal dance at the home of her parents, Mr. and Mrs. E. T. Wells.

Vases and bowls of roses and honeysuckle were arranged on marble and piano, white baskets filled with the same flowers and twined with fern flanked the fireplace.

Refreshments of sandwiches, olives, and ice tea were served buffet style to the following guests: Misses Mary De Preston, Alice Busby, Alline McElroy, Pauline Jayne, Kathryn Veazey, Irma D. Palmer, Hazel Burr, Elsie and Mayfair Woolsey of Tahoka; Messrs. Barton

## of the World in the Revival, Rev. W. K. Horn and Rev. E. V. May.

11.15 A. M. "The Relation of Prayer and Work in a Revival," Rev. A. A. Brian.

Lunch served by Taboka Church, 2:30 P. M. Board Meeting.

Association at W. U. Meeting, 3:00 P. M. Inspirational Address, Rev. Cole of Lamesa.

Note—The Associational B. Y. P. U. will have a program and business session Sunday afternoon beginning at 2:30 under the direction of Miss Clara May.

Services for Saturday evening and Sunday will be arranged to suit the conveniences of the Messengers.

## JOE BAILEY

Crops in this section of Lynn County are looking fine, although we have begun to need rain again.

John, and granddaughter, Ella Grace of O'Donnell visited in this community Sunday.

Mrs. Gladys Kyle and children, Mr. and Mrs. Robert Lantham and Juanita and Troy, visited her cousins, Mr. and Mrs. L. T. Vincent, of O. K. a part of last week.

Mr. and Mrs. N. W. Graham of Ozona spent Saturday night with Mr. Graham's sister, Mrs. Robert Ragan.

Quite a few families of this community went to the breaks Sunday to gather plums.

Mrs. F. A. Warren and son, Tom, of Brownfield spent Saturday night and Sunday with her daughter, Mrs. W. D. Kyle.

Narvel Cunningham visited his cousin, J. B. Mathis of Redwine Saturday night.

Mr. and Mrs. John Warren of Brownfield spent Saturday night with Mrs. Warren's parents, Mr. and Mrs. Pink Brewer, and family.

Mr. and Mrs. Robert Ragan, Mr. and Mrs. A. E. Hensley and family, Mr. and Mrs. N. W. Graham drove to the Indian canyon Sunday morning and ate "Sunrise" breakfast at the Old Indian spring, where Mr. and Mrs. Graham camped 27 years ago, when he freighted through this country. The party then spent Sunday in Lubock.

LOCAL DOCTOR SAYS PLANTS WILL GROW WELL IN O'DONNELL

Dr. J. F. Campbell came into the index office Friday with a branch of a black walnut tree which is growing

on his premise in the north part of town. The branch was only a bud at the time of the big hail storm here in April, and since that time the bud has developed into a branch 24 inches in length.

Dr. Campbell stated that due to the late budding of the black walnut everyone in O'Donnell should plant these trees around their property for shade and for their commercial value.

"Because of the similarity of the fruit, the English walnut can, and is grafted to the black walnut," said the doctor. In Oregon and California the English walnut is grafted to this tree and does remarkably well.

In one instance on Dr. Campbell's place in Oregon his son grafted the two walnuts and the graft obtained a length of five or six feet in one year's growth.

English walnuts sell at from 25c to 28c per pound, and each tree will produce approximately 400 pounds when it obtains full bearing age. In the western states the trees are planted about 40 to the acre, which figured out, will make the approximate production per acre.

When asked if the walnut tree would grow in this climate the doctor said that on one occasion he undertook to move a tree that had been planted one year. He stated that after digging to a depth of six feet he had not reached the end of the tap root and cut it off at that point and that the tree is now growing in his yard at home.

It is the plan of Dr. Campbell to graft some English walnut branches to this tree as an experiment, which will be watched with much interest by the residents of O'Donnell.

A community meeting will be held at Wells Tuesday night, when Mr. Wm. Wittkamp of the Lamesa Mill Plant will be one of the speakers.

## EAST SIDE NEWS

Everyone is busy fighting weeds. John Shaw is on the tick list at this writing, but we hope to see him back in his field soon.

Little Gloria Evelyn Ballard returned to her home at Brownfield Sunday after a two weeks' visit with her grandparents, Mr. and Mrs. P. P. Brewer.

Fannie Waldrop and Stella Rains spent Monday afternoon fishing for gold fish in W. E. Brewer's tank but they didn't make any report of how many they caught.

Mrs. Yarbrough's nephew of Big Spring visited last week. J. R. Yarbrough went home with him.

H. L. Brewer is very much interested in the arrival of his pig puppies and eight baby pigs, at his place. H. L. the puppies and pigs are doing well at this writing.

Charlie Hood came from Oklahoma last week to stay a while with his sister, Mrs. Wallace Rains.

David Brewer attended the dance at South Ward Saturday night. He reported a nice time and plenty of good music.

Mr. Taylor and daughter visited in our community Monday afternoon.

Aunt Martha Brewer spent Saturday afternoon with her niece, Mrs. Doc Beach at O'Donnell.

Ernest Musick was called to the bedside of his mother last week, but she was much improved at last report.

## WARNING ISSUED AGAINST BUYING FAKE SECURITIES

Detroit, June 24—A warning against fraudulent brokers and promoters who are offering stock in foreign Ford Motor companies was issued today by the Better Business Bureau of Detroit, in conjunction with the National Better Business Bureau and other offices throughout the United States and Canada.

Relying on the goodwill and integrity of the Ford name, thousands of persons throughout the country have purchased stocks which either turned out to be spurious or were not delivered at all, the warning says.

There is no way of estimating the financial loss involved.

"There are a number of fraudulent concerns in various parts of the country that represent themselves as brokerage houses and that offer stocks in various forms through the country," the statement from Better Business Bureau said.

Several of these companies sell on the partial payment plan. They offer stock for stipulated down payment and fixed sum per month. Before the final payment becomes due and before the stock is delivered to the purchaser, the company goes out of business and its officers disappear only to begin operations at another location and under another name.

The stocks of the Ford Company of England, Ltd., and the Ford Motor Company of France are listed on the New York Curb market and the prices at which they are being sold are printed in the financial pages of the newspapers. Nevertheless many persons are being led by unscrupulous brokers to pay far in excess of the market prices.

"The majority of stock brokers, of course, are honest. Our warning is directed solely against the fraudulent concerns that carry on the practice of deceiving the public under the guise of reputable concerns. Anyone contemplating the purchase of stocks should first consult his local Better Business Bureau."

## MESQUITE AND TREDWAY NEWS

The farmers of this community have been very busy the past week working their crops.

There was church Sunday morning. Bro. Evelyn of Lamesa preached. A large crowd attended.

Mrs. G. W. Miller was carried to the Lubbock Sanitarium Wednesday where she underwent an operation. We are hoping she will recover soon.

Mrs. Minnie Muman and her two grandsons have returned home from Dallas. We are very glad to have them back.

Geo. J. Jr. and Olen Stephens spent the week-end at home. They returned to Lubbock Sunday night.

Lois Looney of Redwine spent Sunday with Mrs. Stephens.

Mrs. John Lemond of Lubbock spent the week with Geo. L. Stephens and family.

Pat and Madie Walker were visiting in this community Sunday afternoon.

Louis Gray is leaving for Levelland soon.

Billie Banks spent the week-end with Fred and Harvey Barber.

Eta Lee Brandon spent the week-end with Jessie Raborn.

## THE VALUE OF SOUND DESIGN

New Ford engine gives outstanding acceleration, speed and power without sacrificing reliability or economy

The good performance of the Ford car, so apparent on every highway, is due largely to the sound mechanical design of the engine.

It has outstanding acceleration, speed and power, yet that is only part of its value to you. Greater still is the fact that it brings you all these features without sacrificing either reliability or economy.

That is the reason the Ford car has given such satisfactory service to millions of motorists all over the world and has been chosen by so many large companies that keep accurate cost figures. In every detail of construction it has been carefully planned and made for the work it has to do.

The design of the compression chamber is an important factor in the efficiency of the Ford engine. It is built to allow free passage of gases through the valves and to thoroughly mix the fuel

by producing turbulence within the cylinders during compression. The spark thus flashes quickly through the whole fuel charge, resulting in quieter and more effective engine performance. Other factors are the direct gravity gasoline feed, the specially designed carburetor, the new hot-spot manifold, aluminum pistons, chrome silicon alloy valves of larger diameter, statically and dynamically balanced crankshaft and flywheel, the simplicity of the electrical, cooling, lubrication, and fuel systems and accuracy in manufacturing.

# About O'Donnell People

Best Johnson made a business trip to Tahoka Tuesday.

Mr. and Mrs. Martin Line and son, Gene, of Brownfield visited friends and relatives Sunday.

W. H. Thornhill made a business to Tahoka Tuesday, returning on a pair of up-town glasses for Thornhill.

Mr. and Mrs. John Hardberger of guests were in Lamesa Saturday and Mrs. Marshall Whitsett.

Mrs. Ferrell Farrington left Tuesday to spend the summer in San Diego, California, accompanied by Mrs. A. Farrington, Miss Mozell Attie Farrington.

Marshall Whitsett and Dr. Ferrell went to Hobbs Wednesday to look after his oil interests.

Mr. and Mrs. Roy Gibson and Mrs. Marie and Ray Allen, spent Monday from an extended visit with friends and relatives at Tahoka. They report a fishing among other activities during trip.

Mr. and Mrs. O. D. Carter have as guest this week Mrs. Carter's sister, little Miss Doris Joe Carter, of Ft. Worth.

Mr. and Mrs. Naymon Everett, John Johnson and little daughter, Margaret Lucille and Billie spent Sunday and Saturday night at Mr. and Mrs. J. Y. Everett at Spring.

C. E. Collins, accompanied by Vivian Pearce, left Friday for a visit with his brother, Dr. W. Collins, at Albuquerque, N. M.

Mack Garner and daughter, Kitty, spent Saturday in Plainview.

Mr. L. D. Tucker and daughter, came Sunday for a week's visit with Mr. Tucker. Misses Mary Louise remained in Roswell.

Mr. and Mrs. H. B. Davis and son of Tredway spent Sunday with brother B. L. Davis, and Harry Stacy is spending this with her sister, Mrs. J. S. of Lubbock.

The Methodist Missionary Society held the regular fourth Saturday sale in the J. W. Chandler Cash store this Saturday, June 28. The sale which has been in mind for planning marketing. Cakes, and dressed chickens will be on hand.

Mr. and Mrs. M. B. Hood spent day in Post.

Mr. W. L. Palmer and daughter, Emma D., left Saturday for Hamden where they will visit friends and relatives.

Wheeler Schley and daughter, Geraldine, of Colorado, visited here Friday.

Mr. and Mrs. S. W. Brewer, Mrs. Emily of Abilene, and Mrs. Anna Taylor of Anson spent Sunday at Mr. and Mrs. C. Willis.

Miss Mildred and Margaret of Tahoka spent the week-end with Mrs. Mary Joe Gates.

Mr. W. J. Shook, Mary V., Hope, Annie Lee, who have been visiting relatives at Fredell for the past few weeks, returned home Sunday afternoon.

Miss Pauline and Eula May of Falls are the guests of Miss Melroy this week.

L. Palmer made a business trip to Amarillo Monday.

H. McGonnigle of Hobbs is the guest of his sister, Mrs. J. Miles.

Knox Echols of McCaney is spending the week with her parents, and Mrs. George D. Foster. She accompanied Mr. Foster on his return from McCaney Sunday.

Eula Tyler, who has been the guest of Miss Roxie Hancock for the past few weeks, returned to her home Wednesday afternoon. She was accompanied far by Miss Claire Nichols, who will go to Ft. Worth to visit with her sister, Paul Welch, and Miss Veda Nichols, who will visit Miss Sidney Nichols at Tuscola.

Phillips and Wade Campbell, located at Lovington, spent Sunday home-folks.

Mr. and Mrs. R. P. Tomlinson and family, of Post, accompanied by Ruth Green of Amarillo, were guests Tuesday of Mr. and Mrs. Miles.

G. W. Harrison, mother, of J. Bean, left Wednesday for a definite stay in Winchester, Texas.

Mr. and Mrs. Guy Bradley and son, C. C. and Mrs. L. E. Robinson and children, Lometa and L. E., spent the week-end at Two-Draw, Post. According to Mr. Bradley, mosquito crop is fine this year, but unbelievable.

Dr. Brewer was officially discharged by the doctor Tuesday. Mr. Guy Bradley accompanied Mrs. Brewer to Lubbock for the final examination and verification of the tractor.

Jack reached Rettle Meek, 9 daughter of Mr. and Mrs. H. M. Meek, before she began sinking for the third time. He managed to carry her to safety and dove back into the stream, swollen from recent heavy rains, and saved Ursey Meek, 10, a sister of the other girl.

The parents of the girls were away from the creek at the time and were unable to reach their children. They had drove to the spot to enjoy a Sunday outing, according to Mr. Meek.

J. D. Dyer, scout commissioner in Lamesa, is working with other officials in seeking the medal for Jack.

Miss Kathryn Veasey and Alline Melroy were in Lamesa Saturday afternoon.

Mr. and Mrs. E. T. Wells and daughters, Beverly and Jim Ellen spent Sunday in Tahoka. Jim Ellen remained for a short visit.

Miss Bessie Mae Tate of Lubbock visited friends here last week.

Mr. and Mrs. M. B. Hood were summoned to Post Wednesday evening by the news of the illness of Mrs. Hood's mother, Mrs. N. H. Graham.

Mr. and Mrs. Mack Garner and daughter, Kitty May, left Monday for a short vacation in Cloudfrot, N. M.

Misses Leta Godwin, Marie Wardlaw, Imogene and Lucille Todd of the Bethel community spent Sunday with Mrs. Sherman Wilson of Tahoka.

A revival meeting will begin at Bethel the second Sunday in July.

Misses Anne and Annette Brewer, twin daughters of Mr. and Mrs. Tom Brewer of Tahoka were in the illness of visited last week with their grandfather, G. T. Brewer, in Tahoka.

Paul Ray, son of Mr. and Mrs. Clint Tyler of the Joe Bailey community, was taken to the Lubbock Sanitarium Monday for treatment. He is suffering from an infected leg.

Mr. Urah Rains of the Joe Bailey community is suffering from an infected foot.

Le Roy Fessire and E. D. Curry of Snyder were the Sunday guests of Mr. and Mrs. W. H. Ritzenthaler.

T. G. Tredway and A. M. Tredway of Tahoka were visitors in the W. A. Tredway home Tuesday.

George Etheridge, 1930 graduate of Waco High School, and Roy Etheridge of Mineral Wells are visiting their sister, Mrs. A. L. Everett this week. George will enter the Tech this fall.

Ben L. Cowden of Midland visited his sister, Mrs. H. C. Day, here Monday.

Mack Noble and Mr. and Mrs. W. S. Cathey made a business trip to Dallas Monday.

Mr. and Mrs. Clark Greenwood and children, T. A. and Marie, returned home last Thursday after an extended stay in Hot Springs, N. M., where Mr. Greenwood has been undergoing treatment.

Mr. and Mrs. Homer (Sundown) May left Tuesday for a visit with friends and relatives in Santa Anna.

**SEEK CARNEGIE MEDAL FOR YOUR WHO SAVED GIRLS FROM DROWNING**

Scout officials of Lamesa are seeking to secure a Carnegie Medal for Jack Keisling, 14, Lamesa boy scout and son of Mr. and Mrs. L. F. Keisling, who is said to have saved the lives of two girls at Tobacco creek of John Henry Dean's ranch east of Lamesa last Sunday. He swam to the girls' assistance when they were pulled by the current to water over their heads.

Mr. and Mrs. E. T. Wells and daughters, Beverly and Jim Ellen spent Sunday in Tahoka. Jim Ellen remained for a short visit.

Miss Bessie Mae Tate of Lubbock visited friends here last week.

Mr. and Mrs. M. B. Hood were summoned to Post Wednesday evening by the news of the illness of Mrs. Hood's mother, Mrs. N. H. Graham.

Mr. and Mrs. Mack Garner and daughter, Kitty May, left Monday for a short vacation in Cloudfrot, N. M.

Misses Leta Godwin, Marie Wardlaw, Imogene and Lucille Todd of the Bethel community spent Sunday with Mrs. Sherman Wilson of Tahoka.

A revival meeting will begin at Bethel the second Sunday in July.

O'Donnell, Texas

## WELLS NEWS

There were 75 at Sunday school Sunday morning. And a good lesson. There was also a good crowd at B. Y. P. U.

Edgar Miller spent the week-end with his uncle and aunt, Mr. and Mrs. Mat Cathey of New Moore.

Allie Tyler, Johnnie Merle Smith, Donald Tucker, Leta Mae Cook and Edgar Miller, Raymond McLaurin, Ray Askew spent Sunday afternoon with Mr. and Mrs. Burnis Cook.

Brother Shumake filled his regular appointment here Saturday night, Sunday morning and Sunday evening.

Mr. Hugh McLaurin, who owns a ranch near Brownfield, came over to see his farm this week.

Some of Mr. and Mrs. P. E. Askew's relatives came to see them. Then went on to Amarillo, and back Sunday.

Mr. Carroll is on the sick list this week.

## "KONJOLA DID WONDERS IN MY STUBBORN CASE"

Fort Worth Man Relieved of Severe Attack of Rheumatism, Eagerly Praises New Medicine

MR. JOE CONNELLY

"For over a year I suffered with muscular rheumatism," said Mr. Joe Connelly, 504 Belknap street, Ft. Worth. "My entire body was a mass of aches and pains. Finally I was forced to give up my work and was confined to bed. The pains were so severe that I had to be moved very carefully and was helpless and bedridden for three months. My nerves were completely gone and I felt at times that I could not bear my suffering another day.

"I sent away for my first treatment of Konjola and was amazed at the results. Within three weeks I was able to get up, and around without assistance. Gradually the pain and soreness left me and I began to feel my old self again. My nerves settled, constipation was completely banished, and I do not remember when I have felt as well as I do now. Konjola is sold in O'Donnell, Texas."

as at Whitsett Drug Co., and by all the best druggists in all towns throughout this entire section. Adv.

## WORK STARTS ON NEW ROAD AROUND LAKE

Will Be Finished In About Ten Days, According to T. J. Vandell

Work began Monday morning on the new section of Highway No. 9 around the large lake about eight miles north of O'Donnell, when Geo. McPherson, section foreman of Post, and the state road machinery moved onto the location.

The road will make a large half-circle around the present grade which is under several feet of water. The right of way was secured on the east side of the lake, the most distant point being 700 feet from the old road.

Immediately after the water rose to the highest point since 1914, state engineers made surveys of both sides of the lake. The east route having been approved, it became necessary to secure the 100-foot right of way, and some delay was caused due to the absence of property owners.

## MIDWAY NOTES

This part of the country is looking very well since the good rains, but webbs worms are in the cotton.

Brother Monty Robertson filled his regular appointment at Midway Saturday night and Sunday.

Mrs. Rufus Cone is on the sick list this week, but is improving.

Grandpa French, who has been sick for some time, is getting better.

Fete Deaver left Thursday for Cleburne.

Mrs. Estella Saunders and daughter, Inez, from Houston are visiting her sister, Mrs. Bill Coor.

Bill Brewer failed to fill his appointment at Midway on the third Sunday, as he is in a meeting at Hobbs, N. M.

Claude Hill and family, Frank Boss and family, Cecil Sweat, and Whitt Coor were visitors in the W. H. Raye home Sunday.

Misses Gladys and Ara Henry, Blondie Anderson and Johnnie Martin called on Clara Sweat Saturday evening.

Melvin Foster and family, Mrs. Bingham and baby of O'Donnell and Bob Herred and family visited in the home of M. C. Sweat Sunday.

A few of the young folks met at the home of Jim Coor Monday night in honor of Mr. Hogue's family from Oklahoma who are visiting here.

The little baby of Dewitt Stafford and wife was buried at Priddy cemetery last Friday evening.

Opal and Yvonne Ray, Whitt Coor and Cecil Sweat, Jr., called on Alma and Pearl Gaines Sunday evening.

Betty Reeves was operated on for appendicitis last Thursday at Lamesa. She is doing fine.

Lightning killed two horses for Mr. French last Saturday night.

W. M. Coor's family, George Boyer and wife, Mrs. Saunders and daughter were visitors at Brownfield Sunday.

Several of the Midway citizens attended the ball game at Suddy Saturday evening. They reported a fine game won by Pumpkin Center.

H. L. Brewer, wife and son, David, Bill Hopper and family visited M. C. Sweat's home last Sunday evening.

**MILK PLANT MANAGER AND FIELD MAN VISIT HERE**

Wm. Wittkamp, formerly of Eau Claire, Wis., now manager of the milk plant at Lamesa, and Joe Peterson, field representative of the plant, were in O'Donnell two or three days this week meeting the folks and making arrangements for opening the plant. Operations will begin the latter part of July, Mr. Wittkamp said.

## BAPTIST CHURCH

We had a very good day Sunday and also had very good crowds, but we want more to attend. We want to make next Sunday a great day. If you are a member of our church, and have not been attending won't you please come?

Our subject for Sunday at 11:00 o'clock will be, "Why Men Go Away From God and the Church."

Sunday evening at 8:30 o'clock we want a great song service. Come and join our choir. We will have special music. The subject of the evening hour will be, "Pitching Your Tent Toward Sodom." Won't you come and hear these great subjects discussed?

If you are visiting in our city, the Baptist Church gives you a hearty welcome to attend our services. If you have some one visiting in your home, bring them with you. Help us make next Sunday a great day for the Lord.

You will always find a welcome at the Baptist Church.

Yours for more folks attending preaching in O'Donnell.

# How to Raise Poultry

By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder and lecturer.

## ARTICLE II

### PULLETS FOR WINTER PROFITS

Depend on the Youngsters for Heaviest Laying in Fall and Winter Months When Prices are Highest, says Dr. L. D. LeGear, V. S., of St. Louis, Mo.

Editor's Note—This is another of a series of 52 stories on poultry raising written by the well known national poultry authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in regular order. Our readers are invited to read them carefully and clip them out for future reference.

"Youth will be served" so runs the old proverb. Of course, no reference to poultry was intended, but it happens to fit just the same. As a rule, pullets lay more eggs during their first laying season than during any subsequent season. If, therefore, the hatchings are correctly timed so that plenty of pullets will be brought to maturity some time during the latter part of August or the beginning of the winter egg season is bound to follow. Pullets hatched during February or March, according to local conditions, should begin laying just about the right time for winter eggs.

Pullets should not be allowed to come to maturity too quickly. Normally, a pullet starts to lay eggs as soon as she has reached maturity and her body has ceased to grow. Sometimes laying starts somewhat before full growth may cease. Such pullets may remain undersize and their eggs may be defective and small. Pullets are maturing too rapidly their mash and animal food should be reduced. The grain rations may also be slightly increased, as pullets should have a good reserve store of body fat before they start laying. Otherwise they will not stand up well under the strain of laying and may fall considerably short of the possible maximum egg production. For that reason, many poultrymen make a marked increase in the quantity of grains fed to the pullets as their combs begin to redden. At the same time they cut down on the mash and animal food; beef scraps or similar material. The grain is fattening whereas the animal food being no longer required for muscle building as the birds reach maturity, may start egg production before it is desirable.

It is usually considered better not to force pullets into premature laying by feeding large quantities of mash. Instead, limit the mash until pullets are quite ready to lay and, by feeding a greater amount of grain, to get them fat. Such a ration emphasizes the fat making material and, by withholding the egg-making materials, removes the danger of a too early maturity. Mash should not be entirely eliminated, as it contains minerals needed for building up the muscles of young fowls. Too much of it, however, may precipitate egg laying before it is desirable. Give the developing pullets all the grain they will eat during early fall and, after they come into normal laying, gradually decrease grain with a corresponding increase in mash feeding.

If pullets have been properly developed along the lines just described above, they should begin laying just as they are put into winter quarters. Winter quarters should not be changed once they start laying. Such a change will usually cause a molt and falling off in the egg yield. Furthermore, pullets should never be housed with older hens. The more mature hens annoy the younger ones and that too interferes with their laying. From this point on, the usual rules for feeding and handling laying hens will apply to pullets developed especially for winter egg production.

Of course, I do not mean that older hens are a trouble to winter egg production merely because I have emphasized the desirability of developing pullets for that season. With proper culling, breeding and feeding, hens can be made to lay almost as many eggs during the winter months as in warmer weather. The subject of special feeding and handling of fowls for winter egg production is, however, of sufficient importance to constitute a separate article all by itself.

The reason for emphasizing ways of increasing winter egg production is, of course, that prices reach their very highest peak at that time. It is, therefore, desirable not only to produce as many winter eggs as possible, but also to market every possible one of those that are produced then. Practically all of those eggs can be marketed by preserving and keeping for home use the low priced eggs of spring and summer.

It is very easy to preserve eggs for future use by putting them down in water glass, a syrup liquid that can be obtained from almost any drugist. This water glass should be mixed with nine parts of cold boiled water and the solution kept in crock or stone jars. Kicks or barrels may also be used if absolutely clean and free from odors provided they are thoroughly scalded. Fill the jar or keg part full of water glass solution and put in the eggs from day to day as they are gathered. Be sure there is always at least two inches of solution over the eggs. No dirty or cracked eggs should be used nor any about which there is any doubt as to when they were laid. They must be absolutely fresh, laid the same day they are put in the solution.

The cost of preserving eggs in this way is very small and calls for almost no work at all. Eggs in

water glass will keep for six or eight months if stored in a cool, dark place, well covered, and may then be used for all cooking purposes for the table. The advantages for this plan certainly should be apparent without argument. I have not attempted to go into any great detail in this article. On the contrary, I have tried only to suggest enough so the reader will want to know more about methods of increasing the winter profits from his flock.

(Copyright, 1929, by Dr. L. D. LeGear, V. S.)  
**T-BAR RANCH HAS ROUND-UP LAST WEEK**

Many Tahoka people visited the T-Bar Ranch west of town at intervals throughout the past week to witness the round-up and the branding of calves, which began Tuesday and ended Sunday. The branding iron was applied to 972 animals during the six days. About thirty men were employed in the work of rounding up and branding the beautiful fat, young Herefords. There are about a hundred sections of land in the T-Bar, stocked with several thousand head of fine white faces. Nearly all the other ranches in this county have been converted into farms. The T-Bar being the largest remaining in this section of the state.

The round-up and branding is an annual affair and usually attracts quite a bit of attention, as it is reminiscent of other days when this was strictly a cow country and real cow boys were numerous.

Dave Childers, foreman on the T-Bar had charge of the branding operation.—Lynn County News.

### STRIKES OIL AT 135 FEET

Storing City News-Record. While drilling a water well last week on Fowler McEntire's ranch about ten miles west of here a stratum of oil bearing material was struck at around 135 feet. Considerable oil showing in the slush bit. Gas is issuing from the hole. A few feet below the oil a fine vein of water was encountered. Mr. McEntire expects to cease off the oil and use the water for stock.

It is said the drill followed a fissure in a hard, brown limestone, from which the gas issued before the oil was struck. It is supposed that this showing of oil came from a body of oil far below, and that the gas pressure forced it up through the fissure.

This location is in vicinity of the "Munkus Blowout." Back in the early 80's Munkus drilled a water well there for the U outfit. When he was well passed the 100-foot level, the drill dropped into a pocket of oil and gas and blew up the outfit. At that time, but few people ever heard of oil and gas. Munkus got scared mounted a mule and hurried to ranch headquarters and reported that his drill had dropped into hell, and that the smoke, black grease and everything was spewing from the hole. When it ceased blowing Munkus moved his outfit away from there and drilled what is now known as the "Brushy Well". Munkus had to be persuaded to finish the "Brushy". Well when it began to blow, he stayed on the job until it was finished, but to this good day, it takes spells of blowing.

Of course the average "rock hound" will tell you that striking sure enough live, green oil, at 135 feet is no sign of oil, but the average lay man can't help but think that when he sees smoke, there must be fire somewhere. It is related that one of these "hounds" spent several years around the Big Lake oil fields trying to persuade the drillers that no oil was there.

### PRUNE BERRY PLANTS NOW

Now is the proper time to cut off dewberry and blackberry vines, according to Ben Moore, local nurseryman. Cut them at the ground as soon as berries are off and all new growth will be loaded with berries next season as berries form on growth made after the maturing of berries. It might be advisable to irrigate in order to encourage growth. We have succeeded in getting a growth of ten feet of vine after July 1st. Do not encourage growth after October 1st as they may be somewhat injured by frost.

Perhaps many Index readers know

# WELLS NEWS

(Too Late For Last Week)

We had a nice rain last Saturday about one and one-half inches. That will stop the farmer from planting a while.

There were 73 at Sunday school last Sunday and only 38 this Sunday. What is the matter, why aren't you coming to Sunday school?

There was a big crowd at B. Y. P. U. this Sunday.

Mr. Bole's mother and other relatives visited Mr. and Mrs. D. J. Bole over the week-end.

Miss. Era Harris spent part of the week with Mr. and Mrs. J. E. Etter. S. M. Scott's father has come to visit him. Mr. Scott lives in Jones county.

Mrs. Jim Choate and children and Mr. and Mrs. J. Waldrop visited in the home of Mr. and Mrs. John McLaurin last week.

All about berry culture but this is offered to others who have not had experience. Dallas blackberry and Austin-May dewberry should be planted, Mr. Moore advises.

# When Spring Breezes Cease . . .

Then is the time to get an Electric Fan

Hot summer days and uncomfortably warm nights have arrived. This typical Texas weather will continue from now until the latter part of September, or almost four months.

When natural breezes cease, an electric fan brings freedom from heat, in the home, in the office, in the store.

Economical to use (two full hours for less than one cent) and built for long service (20 years of average use) an electric fan adds to human comfort and relieves summer fatigue.

A wide range of electric fans of well-known manufacturers can be seen in our sales office. A fan will be delivered to your home for a small down payment, the rest payable in monthly installments with your electric service bill. Fans are priced from \$5 up.

and make Bob think he's a misanderstood hero.

"Not after reading that letter," Bob answered. "No chance!"

### CHAPTER XI

#### Bettington Captures the Cook

In a sense a breach between Bettington and Mrs. Radway left him better able to carry out his plans.

In keeping the upper deck free of the crew he was seeking to lessen the risk of sudden attack.

"This is an interesting sort of game, Augustus," Bettington remarked, "and your part in it, so far, has been worth to earn more."

"I want them a hundred. I want them one at a time. How can you get Metzger here?"

"That's a pipe," said Augustus, his eyes glistening. "He'll want to know where the cook is. I'll say he's up here with the Jane he's stuck on and he won't do the other."

"All right," said Bettington. "A hundred dollars if you work it right."

"I was just thinking toward the door," Bettington said. "I'll be right after you."

"What would anyone want?" Bob asked. He was still staunch in his belief that Crosby Todd's suspicions were correct ones.

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

The idea met with the approval of the boy instantly. There was sport in it. And to be able to tease the cook as long as he wanted to, to bait him and make him rush enraged to his fate!

Bob saw the doctor take a coil of rope and cross the main companion. It was as though a cat watched for a mouse to come out of its hole.

Silvers found the cook in the store-room where the stock of wine was kept. He clenched his fists and darted about the huge form of the cook as he had seen a favorite lightweight do; his footwork was marvelous.

At the top of the steps Antonio da Silva Pereira was seized with incredulous amazement. He was rigid. The fall deprived him of breath.

Silvers was at first inclined to be disappointed at the mildness of the punishment meted out to his enemy.

"This is an interesting sort of game, Augustus," Bettington remarked, "and your part in it, so far, has been worth to earn more."

"I want them a hundred. I want them one at a time. How can you get Metzger here?"

"That's a pipe," said Augustus, his eyes glistening. "He'll want to know where the cook is. I'll say he's up here with the Jane he's stuck on and he won't do the other."

"All right," said Bettington. "A hundred dollars if you work it right."

"I was just thinking toward the door," Bettington said. "I'll be right after you."

"What would anyone want?" Bob asked. He was still staunch in his belief that Crosby Todd's suspicions were correct ones.

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

"I'll be right after you," Bettington said. "I'll be right after you."

What a brave and steadfast child she was, thought the elder woman. Here, at the threshold of a new and fuller life, she was likely to be stayed by death.

There was no morbidity in dwelling on the fate that was enveloping her. She could not have lived so long and seen so much without being aware of the lawlessness of men's desires.

The four in the fore-cabin experienced much of the feeling that Audin must have known when his lamp proved so obedient a servant. It was with a certain timidity, covered by an air of bravado, that they first made demands on Silvers for food and drink.

"I was in one in Bahia and I don't know yet why, unless it was for throwing a ball of the dock."

"He's got a head on him," Mike said with genuine admiration. "That said, with genuine admiration. "Brave seamen save the women and children first."

Red Mike was one of those drunkards who, after a sufficient amount of intoxication, lose the more obvious marks of intoxication.

Red Mike was one of those drunkards who, after a sufficient amount of intoxication, lose the more obvious marks of intoxication.

It was a pretty scheme, and his expression annoyed Graumann. "What him to mete out justice to the slayers."

"Well," Bettington said, seeing him gazing about him. "What is it?"

"I was wondering if the cook was up here, sir. We ain't seen him in the galley nor Mr. Metzger neither."

"Do they look to be here?" Graumann glanced toward the wireless house. It was their only possible hiding place.

"Are they there?" the surgeon asked, as if interested in their disappearance. Graumann took this as an invitation to investigate.

"I guess they're below," he said, touching his cap. His news added to the wrath of the tricked four. It was plain they could only be in the fore part of the ship only in the fore part of the fore-cabin where the men were now sitting.

"There they are, the stinkin' da-goes," said Hamner, "eating and drinking with the women, while anything good enough for us. If I was as strong as you boys I wouldn't stand it, no, not for one minute. Just over head, they are, a laughs!"

"That's a fact," Mike agreed. "I was in one in Bahia and I don't know yet why, unless it was for throwing a ball of the dock."

"He's got a head on him," Mike said with genuine admiration. "That said, with genuine admiration. "Brave seamen save the women and children first."

Red Mike was one of those drunkards who, after a sufficient amount of intoxication, lose the more obvious marks of intoxication.

It was decided then and there to hunt for the traitors. Every state-room and storeroom was drawn blank. The two must be on the upper deck with their crows the surgeon. That would make three against four.

Graumann was chosen to ask leave to speak with the automatic navigator, and while speaking, locate the missing men.

Bettington listened to Graumann's story when he had given permission, through Silvers, for him to come on deck. He entertained a profound mistrust of the man.

"Well," Bettington said, seeing him gazing about him. "What is it?"

"I was wondering if the cook was up here, sir. We ain't seen him in the galley nor Mr. Metzger neither."

"Do they look to be here?" Graumann glanced toward the wireless house. It was their only possible hiding place.

"Are they there?" the surgeon asked, as if interested in their disappearance. Graumann took this as an invitation to investigate.

# Drivers of Sixes never want Less!

Driving a Six means wanting a Six for good. Driving a Six simply closes the argument. Driving a Six is so different and better that the miles seem to repeat. "It's Wise to Choose a Six!"

You definitely feel these performance advantages of the Chevrolet Six. You see high value typified by the beautiful Fisher Body and scores of advanced engineering features. And you know the fine character of Chevrolet materials, craftsmanship and design.

Try the Chevrolet Six. "Step on the gas"—or hunt out some hills—or thread through the traffic. It's all so smooth and easy in a Chevrolet Six—so free from lagging, tremors and strain—that the great six-cylinder principle becomes more than a principle to you. You know at once that its exclusive advantages are all positive facts.

Come and make the Chevrolet Six confirm all this for you. Find out the small down payment and easy terms on which you can own this truly modern automobile. Learn why tens of thousands of new buyers each week are finding it wise to choose a Chevrolet Six.

Table listing Chevrolet models and prices: ROADSTER \$495 OR PHAETON, The Coach or Coupe \$565, The Club Sedan \$465, The Sport Roadster \$555, The Sedan \$475, The Sport Coupe \$655, The Special Sedan \$725, Truckster Light Delivery Chassis \$368, Sedan Delivery \$395, 1 1/2 Ton Chassis \$430, 1 Ton Chassis with Cab \$425, Standard Delivery Pick-up Box extra \$460.

It's wise to choose a Six! Rayburn-Hood Chevrolet Co.

## THE FIRST LESSON

The student, having obtained his Student's Pilot license through the proper channels described in the preceding article, is now nervously anticipating his first lesson. The instructor has explained in minute detail the operations of the controls, which are worked from the student's cockpit, as well as from the instructor's seat, the use of the instruments and the signals to be followed in the air. The instructor explains, also, that the first lesson does little more than accustom the student to the very new feeling of having the ship control in his hands. The motor is warmed up and going smoothly. Safety belts are fastened securely. The instructor takes the ship off, climbing it gradually to a safe altitude (at least 1,000 feet or over), then signaling the student to take the controls. The first exercise is learning to fly in a straight line, which may be compared to steering a car except that the plane must be kept level, not having a road upon which to rest. The student learns to fly level (without any loss or gain of altitude) by keeping the nose of the ship at a certain point relative to the horizon, depending upon the type of ship flown; he observes the motor of the controls and their effects upon the ship.

The student is usually too busy trying to fly, the first lesson, to get much real enjoyment out of it. He has yet to learn to find his way in the air, to watch the instruments intelligently, to take the ship off, to land it with many, many other things not even yet thought of. After a half hour or so, the instructor signals "hands off" and brings the ship down, landing smoothly on the field and taxiing to the edge. The student is secretly feeling very proud of himself, trying vainly to disguise the fact as he climbs out of the ship. Gone is all nervousness, replaced by more than a trace of disproportionate pride. The lesson is eagerly discussed, with many questions from the student and explanations are again in order. "Ground Flying" is great sport, as the student will find out more and more as time goes on.

Each lesson the student gains a little more confidence and is very soon making turns, banking the plane smoothly to left and right. He handles the plane gently, never jerking the controls. Learning to take off and to land is the next step forward in the student's progress and is in reality done by the instructor for some time, until the student demonstrates his capability of handling the plane. Learning to land seems to be the hardest thing for most beginners, but comes after much practice. The angle of gliding to the earth depends not only upon the type of ship itself, but on the wind velocity. When the student has learned to land the ship himself under all conditions he is ready to "solo".

The first solo flight is the most thrilling part, perhaps of learning to fly. The instructor seems quite unconcerned as he climbs out of the ship—two unlearned, perhaps. His words are brief: "Take up the ship alone." Up goes the student, with the calm assurance he has been gaining for weeks; a splendid take-off; smooth turns; now, down for a landing! The instructor watches with interest, but with no anxiety. The student bounces the plane slightly, but recovers nicely—and proceeds to go up and do it all over again. The feeling of accomplishment and real achievement which comes with that first "solo" can rarely be duplicated.

The student is not finished with instruction after soloing, by any means, but may now start building up his solo hours toward the required ten for his Private Pilot's license. Before taking this license, he must know the Department of Commerce Rules and Regulations and Air Traffic rules, and pass a written examination on them. The flight test consists of a series of five gentle and three steep figure 8 turns at 1,000 and 1,500 feet, respectively, a spiral in one direction, landing in normal position with wheels touching the ground within 500 feet of a point designated by the Department of Commerce Inspector; and finally, three regular landings. He has been taught to do these things properly, and passes the test with flying colors.

As a holder of a Private license, the student is now entitled to fly cross-country alone and take up his friends. His friends, however, would be wise to wait a little longer before going up with him! Now he is really only beginning to learn to fly, to learn to handle the ship perfectly in every maneuver, to fit himself for commercial flying and to study technical subjects which will help him to do his job well.

The next article will describe stunting, its uses and value.

Questions concerning aviation answered in this department. Enclose stamped self-addressed envelope.

Q. What is meant by cruising speed?  
A. The speed at which the motor will perform economically and at the same time pull the plane at a good rate of speed. The life of a motor is prolonged by flying at cruising speed as much as possible.

## THE INDEX CLASSIFIED DEPARTMENT

WANTED—200 more members. Pay premium when married, nothing to pay now. Send name, age, with this ad. Western Marriage Association. P. O. Box 455, Abilene, Tex. 38-31p.

SEE ME for a policy in the National Endowment, Birth and Marriage Association of Lubbock. Pays \$1,000. No assessments until age 65. Mrs. T. A. McIlroy, Phone 399 or 164. 39-4c.

WILL GIVE finger waves at my home for 25c. Mattie Williams. 40-3-1p.

WANTED—Cotton Seed, will pay \$25 per ton for seed delivered to Palestine, Friday, Saturday and Monday. Claude L. Thomlinson, O'Donnell. 40-11p.

## DRAW ITEMS

Everyone should have been at the singing Sunday night. I was so excited about all. There were several visiting singers. We are glad they came and want them to be sure and come back again and bring some with them.

Mrs. A. R. Hensley and her sister, Mrs. Robert Hagan, and her family from Ozona visited friends in Lubbock Sunday.

Barnes, Childs able to be up again, but the baby is still sick.

Mr. and Mrs. Bennie Williamson's baby has the scarlet fever. We hope it will soon be all right.

Mr. and Mrs. Frank Cook took dinner with Mr. and Mrs. Green Cook Sunday.

Mrs. Lawrence Jackson and Nora Pierce spent Sunday morning with Mr. and Mrs. Bratcher.

Mr. and Mrs. Walter Gosnell spent Sunday with Mr. and Mrs. L. N. Lemond.

Mr. and Mrs. Hardy Williams and Mr. and Mrs. W. D. Coursey spent Sunday with Mr. and Mrs. L. D. Carroll.

Mr. Delia Cook, and Mrs. Horace Cook visited Mrs. Grant Hoover Tuesday afternoon.

Mr. and Mrs. Barney Gargile and children were down Saturday and Sunday to see Mr. and Mrs. C. R. Gargile.

Mr. and Mrs. Burl Porterfield who were visiting Mr. and Mrs. A. L. Porterfield left Sunday to look for work.

Mr. and Mrs. A. Z. Sewell were the guests of Mr. and Mrs. Ed Young late Sunday afternoon.

Mr. and Mrs. Bud Moore and baby, Mr. and Mrs. J. C. Cook and son spent Sunday afternoon with Mr. and Mrs. Dave Cook.

Mr. and Mrs. A. H. Meyers visited Mr. and Mrs. J. E. Sewell Sunday evening late.

Guss Sherrill is on the sick list this week.

Everyone is surely busy fighting weeds. Everything is growing as well as the weeds.

Mrs. Annie Adams took dinner with Mr. and Mrs. A. Z. Sewell Sunday.

Mr. and Mrs. Weldon McClintic gave a card party for the young folks Saturday night.

FULL NEWSPAPER STAFF ATTENDS LIONS CLUB LUNCHEON AT LAMESA

The Lubbock Daily Journal Monday afternoon carried a story written by J. Sam Lewis, staff correspondent, relative to the Lions Club Luncheon last Wednesday noon at Lamesa, in which was organized a mythical newspaper. "The Lions 21 B Gazette." Correspondent Lewis said: At the Lions Club banquet in Lamesa, Wednesday, in honor of Dr. J. H. McLain and the new milk plant there, a full newspaper crew was on hand to get out any paper the town might want. For example, there were two editors, E. W. Smith of the Reporter and O. D. "Over Draft" Carter of the O'Donnell Index; two field men, H. L. Gantz of the Farm and Ranch and J. Sam Lewis of the Avalanche-Journal; two reporters, V. Lamb, Lamesa correspondent and Gideon S. "Great Scott" Dowell of O'Donnell; one business manager, Charles Hurst of the Dawson County Journal; a linotype operator, Sam Smith of the Reporter. William A. Wilson, society editor and Clyde Backenstross stenographer. A banker presided at the meeting, but did not offer to finance the "Lions Club Gazette." Mr. Hurst qualified also as a pressman and several of the others can work in as makeup men as well as writers.

## POLITICAL COLUMN

The following candidates have authorized the Index to place their names in our announcement column subject to the action of the Democratic Primary, July 26:

District Judge, 106 Judicial District: GORDON B. McGUIRE (Re-Election).

For District Clerk: W. S. (SKIP) TAYLOR

For County Judge: G. C. GRIDER, (Re-Election).

For State Representative, 119th Legislative District: JOHN N. THOMAS

For County Attorney: G. H. NELSON, (Re-Election).

For Sheriff and Tax Collector: S. W. SANFORD, (Re-Election). B. L. PARKER. J. H. BULMAN

For Tax Collector: A. M. CADE L. T. (TOM) BREWER. W. S. SWAN WASH HICKERSON R. E. KEY

For District Attorney: T. L. PRICE, (Re-Election).

For Tax Assessor: T. W. (WILL) BROWN. A. I. THOMAS. NEWTON M. BARHAM

For County Clerk: TRUETT B. SMITH, (Re-Election)

For County Superintendent: H. P. CAVENES, (Re-Election).

For County Treasurer: MISS VIOLA ELLIS (Re-Election) W. S. SWAN

For Public Welfare, Precinct 4: MELL PEARCE, (re-election.) D. J. BOLCH. D. S. (Mitt) TODD.

For Commissioner Precinct 3: T. J. YANDELL, (Re-Election). W. G. ALLEN. WALDO McLAURIN.

(DAWSON COUNTY) For Commissioner Precinct 2: H. L. HOHN, Re-election.

For Tax Collector Dawson Co.: BELLE ELIZABETH RIDGWAY. For County Superintendent: T. M. CASH.

## NEW MOORE

There was a large crowd at church Saturday night, at Sunday school and church Sunday morning, and at church Sunday night. We heard a good message each time.

Brother Bingham and wife from Edith, spent Saturday night and Sunday with friends here.

Mr. Nelson and wife and daughter from Dallas are guests in J. W. Nelson's home.

Miss Lola Taylor is visiting relatives in Lamesa.

Miss Lanell Lester from O'Donnell spent Saturday night and Sunday with Thelma and Eunice Pendleton.

Mr. and Mrs. Ross Slay gave a party Saturday night. All had a nice time.

The crops are looking fine and growing fast and so are the weeds.

It is real interesting to pass field after field with fine crops and the farmer plowing along sowing some old song as if they were at the height of their joy.

## PLAINVIEW NEWS

NOTE—Miss Connie E. Teague is the new correspondent for the Plainview community. Let us urge that the Plainview people assist Miss Teague by telling her the news. She will also accept new subscriptions to the Index.

Born to Mr. and Mrs. George Teague of Crane, on June 17, a daughter. The young lady will be called Vivian Elizabeth.

Mrs. Jim Willborn is ill this week, suffering with erysipelas.

Mr. and Mrs. Burge and family of Tahoka were guests Sunday of Mr. and Mrs. Charley Hill.

The young people gathered at the home of Claude Isaacs for a party on Wednesday evening. All report a good time.

C. C. Rankin of New Mexico visited Miss Maude Walker this week-end. Mr. and Mrs. Austin Slaton were the guests this week-end of Mr. and Mrs. R. E. Austin.

Mr. and Mrs. Harvey of Berry Flat visited Mr. and Mrs. Jim Willborn Sunday.

The young people enjoyed a party at the home of Mr. and Mrs. Jess Lane Saturday night.

The farmers are still busy fighting the weeds in their crops.

A miniature electric fan for use in closed automobiles has been devised.
