

The O'Donnell Index

The best advertising medium in Lynn County. Read in 1,500 homes each week.

O'DONNELL, LYNN COUNTY, TEXAS, FRIDAY, JULY 19, 1929

NUMBER 43

Good Will Party to Visit Grandview

A good will trip will be the citizens of O'Donnell on night of this week to the school house, sponsored by the Community Chamber and Entertainment Committee.

20th Annual Farmers Short Course Meets

College Station, Texas, July 19.—Virtually every phase of agricultural thought and activity will come in for discussion at the twentieth annual Farmers Short Course to be held at the A. & M. College of Texas, July 29-August 3, announcement of the general program by H. H. Williamson, vice director and state agent of the Extension Service under the auspices of which the short course is held, discloses. Group sessions for men and boys and women and girls will be held and sectional meetings will be devoted to specialized fields of farming and farm operation.

Texas Press Body Will Meet at Abilene 1930

J. W. Roberts, editor of the Index returned Sunday morning from Sweetwater where he attended the meeting of the West Texas Press Association held in that city Friday and Saturday. Following is an account of the meeting as published in Sunday's Fort Worth Star Telegram:

Baptist Encampment At Post to Have A Fine Program

Commencing July 22-28 there will be held at Post Encampment grounds the annual Baptist Convention. Much time and labor has been given to have a program that will be one of the finest ever heard. It is anticipated that there will be a very large attendance. The following is the program for the entire session:

Chamber of Commerce Will Serve as Employment Agency

Secretary-Manager G. S. Dowell of the O'Donnell Community Chamber of Commerce requests that the Index announce to the farmers of the O'Donnell tract territory that at any time when in need of any kind of labor to call on him at his office or notify him by letter. Such aid will be given when possible.

Chamber of Commerce Will Serve as Employment Agency

Secretary-Manager G. S. Dowell of the O'Donnell Community Chamber of Commerce requests that the Index announce to the farmers of the O'Donnell tract territory that at any time when in need of any kind of labor to call on him at his office or notify him by letter. Such aid will be given when possible.

Chamber of Commerce Will Serve as Employment Agency

Such aid will be given when possible.

New Business Enterprise for O'Donnell

The latest business enterprise to locate in O'Donnell is that of the Phillips Petroleum Company who opened both wholesale and retail offices here this week. A new wholesale station with all equipment was completed adjoining the Santa Fe tracks first of the week and the first car of Phillips products was unloaded on Tuesday of this week. J. P. Aylor manager of the A. & W. Service Station is agent for the new concern. They will handle gas, oil and other by products. Mr. Aylor is also changing the pumps and other equipment at the A. & W. Service Station and will also act as retail agent for the Phillips products.

Husbands Thoroughly Clubbed Last Week

(Accidentally omitted last week) The Woman's Missionary Society play, "Clubbing a Husband" which was presented at the school auditorium Wednesday evening July 3rd, was well attended and hilariously received. The ladies were very much at home in their roles, perhaps they are so accustomed to such proceedings, and the audience was enthusiastic in its praises.

The ladies wish to thank all who helped so generously, especially Miss Christine Millwee, who coached the play. A nice sum of money was realized, the amount being well over forty dollars.

What's Doing in West Texas

PAINTROCK'S exports during 1 week recently included one car of sheep, and three cars of mixed stock. Eighteen cars of grain and 15 cars of wool have been shipped to date. Last year's cotton crop is expected to be equalled this year.

ALBERTA'S \$15,000 Struve cheese plant is still running to capacity, milk being brought in from a wide territory. The present capacity of 10,000 pounds of milk per day can be doubled with the purchase of another large vat.

HAMLIN has been experiencing a prosperous increase in residence building. Five new homes of permanent construction are being built in the most desirable locations. Modern improvements, as sidewalks, sewer, lights, and natural gas are being used.

HEREFORD'S Chamber of Commerce officials traveled 1200 miles in five days and visited seventeen towns and 15 counties, in securing \$4,500 for the Panhandle Plains Inc., which will be used to advertise the opportunities that exist in the vast Panhandle Plains area for the farmer, homeseeker and investor.

ROSWELL, N. M. entertained the Fourth annual motorcade of the WTCC on July 16 when the Pecos Valley-International district convention of the organization was held. An interesting program on which Governor Dillon and other notables had prominent parts preceded a visit to the irrigated farm section, the reception and entertainment.

VAN HORN was visited by the WTCC motorcade on July 13, and the Big Bend district convention held there. Mayor R. E. Thomson, of El Paso, Col. R. Durill, Col. Perkins of Alpine, Dr. H. W. Morlock, of Sul Ross Teachers College, Hunter Metcalf of Marfa, and President Bourland of the WTCC were speakers on the constructive program.

HALE CENTER had shipped 309 cars of wheat and other grain by both elevators and independent shippers up to a little over a week ago. It is estimated that over 80 per cent of the wheat has already been harvested. The 1929 crop promises to be one of the largest from the standpoint of yield in many years.

STEPHENVILLE'S milk receipts at the local receiving station of the Southwest Dairy Products Company passed the 500 gallon per day volume recently. Another milk route is expected to be inaugurated soon to care for the supply.

COLEMAN County's increase in valuation over last year has been announced as \$1,599,000 the total valuation for this year being \$16,000,000. The increase is due to oil and the newly constructed buildings in Coleman, and these influences have operated about equally in causing the large increase.

PECOS building permits amounting to \$40,000 were granted for structures downtown and along the highway recently. Construction of a \$40,000 building by the American Telegraph and Telephone Co. is expected to begin shortly. Plans for a new courthouse are being rushed.

BIG SPRINGS Petroleum building was accepted by the Directors recently and a formal opening held shortly following. The building was constructed by a local company composed of local citizens. A \$10,000 bonus was given for the purchase of the site was given by the Big Springs Chamber of Commerce.

BRADY's newest building and loan association, the Central Texas, with headquarters at Brady was perfected recently with an authorized capital of \$15,000,000. This is the second building and loan association at Brady and was organized as an evidence of faith in the growth of the community.

CLEAN-UP DRIVE LAUNCHED BY CHAMBER OF COMMERCE

LAMESA—The third big annual clean-up drive launched by the Civic Department of the local chamber of commerce got under way Monday of this week. J. E. Barron is general chairman of the drive and has captains and sub. captains working under him in all sections of the city. The drive is launched to cover extensively the entire city and ridding the incorporation of old cars, weeds, cans, and all unsightly obstacles that mar the looks and health of the populace. Lamesa will after this week be one of the cleanest cities in all West Texas, so says Barron. The Mayor, E. B. Warren has declared a clean up proclamation for the week and the city officials are co-operating with the entire citizenship for a cleaner town. Along with the large number of trees and shrubbery planted in Lamesa last spring the clean up now on will add considerably to the already attractive appearance of the city.

WE'RE NOT SO BAD AFTER ALL

Every once in awhile, when we read stories in current magazines and the headlines in the papers and listen to the talk about the younger generation of today, we wonder where we're going, and what our ultimate fate will be. It even seems at times that the old folks are right, and that we're all going to the dogs. Then we read of the millions spent each year by Mission Boards, of the millions donated to the Red Cross and the Salvation Army, of the thousands of boys and girls who are in summer camps sponsored by churches, of the thousands of these same boys and girls enrolling in Sunday School classes and other similar organizations, and then we wonder again.

Two incidents which occurred in our own home town provided food for thought. During a recent rain, when our streets were slushy and the ditches alongside were full of water, one of these "fool boys" saw a casual woman acquaintance seeking a way across the street. The boy was almost a block away, the woman was a very casual acquaintance, but he drove right gallantly down into the ditch and yelled cheerfully: "Can I help you, Mrs.—?" Just a matter of being neighborly, just a matter of being polite to an older woman, but we wondered again just how the fault-finders would place that boy.

Again, we know of a young wife and mother, who has every material thing she desires, as well as the respect and love of all who know her, who took it upon herself to speak to her friends about another woman, and expectant mother, who had not the barest necessities. Through her interest and efforts, this mother will be helped in many ways. And we wondered again why the novelties always picture young married women as being heartless, restless creatures with no aim in life but another flirtation.

As long as our boys and girls have chivalry and as long as neighbors think of ways to help each other, are we as bad as we are pictured? We think not.

EPWORTH LEAGUE HAS PARTY AT CHURCH

Assisted by several members of the B. Y. P. U. as appreciative and enthusiastic guests, the Epworth League of the Methodist Church staged one of the jolliest parties of the season at the church last Friday night.

As the guests arrived, they were named after a famous personage, the most popular one being Mr. and Mrs. Lindy, and after finding partners, they began the games. These had been arranged with an eye to the maximum amount of fun, and fully lived up to expectations.

At the end of the evening the committee in charge served ice cream and cake with orangeade to the following guests and members: Mary V. Shook, Gordon and Fay Slaughter, Beverly Wells, Mary Jo and Sue Gates, Earl Grider, Edward Clayton, Frank Norton of Dallas, Wray Gage, Vernon Kirkland, Era, Eva, and Mabel Horton, Kathryn Veazey, Benton and Alta Lee Payne, Truitt Hodnett, Foy and French Heathington, Trene Martin, Desmond Yandill, Waldine Kirkland, Gladys Gibson, Margaret Miller, Alice Joy

Bowlin, Wynona Huff, Trixie Harville, Rebecca Schooler, Irma D. Palmer, J. A. and Louise Duncan.

T. E. L. CLASS MEETS WITH MRS. JOE WILSON

The T. E. L. Class of the Baptist Church met at the home of Mrs. Joe Wilson last Friday afternoon for their regular meeting of fun and study.

Prayer from Mrs. Merritt opened the program and Mrs. Wilson taught the lesson in Winning to Christ.

After a business meeting the members entered into a social hour. Several amusing games were played, among them Copy Cat.

The hostess served cream and cake, with daisies for plate favors, to Mesdames Lawler, Yandill, Sutton, Eaton, Harville, Merritt, Street, Line, Lambert, Goddard, Hardberger, St. Clair, Mansell, Howell, Balew, Martin, Vaughn, H. E. Lawler, and Sorrels.

MISS CLEO BARNES BECOMES BRIDE JULY 30

Miss Cleo Barnes daughter of Mr. and Mrs. A. J. Barnes, became the bride of Mr. Dick Franklin, pastor, June 30. Rev. Joe Wilson, Sunday of the First Baptist church of O'Donnell, read the beautiful ceremony in the presence of only immediate relatives.

Out-of-town guests were Miss Emogene Turner, Mr. Paul Turner and Mrs. Turner, from Silverton.

Mr. and Mrs. Franklin left immediately for their home in Post. Congratulations and good wishes are heartily extended to the young couple, who have hosts of friends here.

SERVICES AT PRESBYTERIAN CHURCH NEXT SUNDAY

According to announcement there will be services at the Presbyterian church on next Sunday at both the morning and evening hours. Rev. Peyton Waddill of Lubbock, will fill the pulpit morning and evening. Rev. Waddill bears the reputation of being one of the strongest preachers of his denomination in this section of the country and will no doubt bring the people a spiritual message that will be a blessing to the entire community.

A special invitation is extended to the entire community to be present at both of the services.

Buying a good herd bull is the first step in growing better beef calves at less cost per pound. In common or native-cow herds, calves sired by purchased bulls average 125 pounds a head more when on year old than calves of the same age sired by average scrub bulls, and they sell for about 2 cents a pound more as stockers and feeders. Two-year-old steers sired by good purebred bulls weigh, on the average, about 200 pounds more a head than steers sired by scrub bulls and sell for considerably more.

Texans Are Proud of Their Concrete Pavements—

There is a reason for that! Portland cement concrete pavements meet every demand of the motorist. They are smooth, even surfaced, rigid, pleasing in color and skid-proof.

For the taxpayer it's significant that the greatest amount of portland cement concrete pavements have been built by those communities having the heaviest traffic and the most experience in building and maintaining pavements.

Portland cement concrete is truly the aristocrat of street and road paving materials.

Historic July Fourth

No day in the year is fraught with
such significance for the American
people as July 4, the anniversary of
the signing of the immortal Declara-
tion of Independence. The story of
the Declaration has been told and re-
told until it is a part of the conscious-
ness of every American, old and
young.

While other events which have
transpired on that date have been
overshadowed by the annual national
celebration, it may be interesting to
note that July 4 is also the anniver-
sary of the following happenings:

Founding of Providence, R. I., by
Roger Williams, 1636.

Nathaniel Hawthorne born, 1804.
John Adams and Thomas Jefferson
died; Stephen Collins Foster
song writer, born, 1826.

James Monroe died, 1831.

Cornestone of Washington monu-
ment laid, 1848.

Surrender of Vicksburg, 1863.

Calvin Coolidge born, 1872.

The first week in July is filled with
significant anniversaries among them
being the following:

Battle of Gettysburg, July 1-3,
1862.

Battle of Santiago, July 1-3, 1898.

Washington took command of the
Continental Army, July 3, 1775.

Admiral Farragut, born July 5,
1801.

John Paul Jones born July 6, 1747.

United States annexed Hawaii,
July 7, 1898.

Poultry Demon-
stration Find Green Feed
And Skim Milk Good

College Station—Green feed and
skim milk are two important factors
in egg production, according to May
records of 101 poultry flock demon-
strators sent to the extension service
by county and home demonstration
agents in widely separated sections
of the state. In the few cases where
no greens feed was supplied the flocks
the production was lower, and in gen-
eral where skim milk was fed with
grain the production was higher.

An average profit above feed cost
of 27 cents per hen was shown for
May in these flocks, with those run-
ning above 300 birds in size having
the largest profits, 33 cents per hen.
The average number of eggs laid
during the month by the fowls in the
demonstration flocks was 17 1/2,
which is slightly lower than the stan-
dard of production of 19 eggs for
the month. This was due, E. N.
Holmgren, poultry specialist says,
to a number of flocks having worm
infestations, the monthly production
in these flocks being as low as nine
eggs per hen in some cases.

The flocks reported vary in size
from 18 hens to 900, with the major-
ity ranging from 100 to 300 birds.
Nearly all flocks are standard bred
and of many varieties, the White
Leghorns predominating. There are
more than 700 such flock demon-
strations now under way for the purpose
of showing how average farm flocks
may be put on a paying basis. Careful
records are kept by owners on
calendars furnished by the extension
service.

Much Traffic Over
Highway 83 to the
Carlsbad Cavern

LAMESA.—Eronous reports have
been spread as to traffic conditions
of Highway Eighty Three or the Dal
Paso Cavern Highway West of here
according to Officials of this Assoc-
iation it was stated here this week.
The report is to the effect that the
highway west of Lamesa in New
Mexico is impassable and as a result
of this report to tourist bureaus and
Chambers of Commerce East of here
tourist have been routed over other
highways at considerable distance
further than this route offers for
the Carlsbad Cavern in New Mexico.
A check up of this route in New
Mexico reveals the fact that this
highway is not only in good passable
condition but offers a much shorter
mileage to the Caverns from and thru
Texas than any other highway. Tour-
ist are traveling this highway more
every day and at this time hundreds
of tourists are found on this high-
way for the Carlsbad Cavern where
they are enjoying the Worlds great-
est underground wonder.

Officials of the Dal-Paso Cavern
Highway Association are calling on
all tourist bureaus, Chambers of
Commerce and filling stations opera-
tors along this route to aid in giving
the truth to tourist concerning this
route. Arrangements have been
made with Wm. A. Wilson, Secretary
of the Dal-Paso Cavern Highway As-
sociation here to keep all Chambers
of Commerce and tourist heads in-
formed from time to time as to the
truth conditions of this highway. Of-
ficials declare that there is no reason
at this time to keep tourist from trav-
eling this highway and the great dis-
tance which holds out an advantage
to all tourist making this section.

Business Men and
Farmers Meet to
Discuss Fair Plans

LAMESA.—The Dawson County
Fair Association was set up Monday
evening of this week when business
men and farmers met in the county
court room to the call of O. B. Nor-
man chairman of the Agricultural
Department of the local Chamber of
Commerce for organization. Nor-
man served as chairman of the meet-
ing and the following men were elec-
ted to serve as executive board for
the fair this fall: W. B. Collins, W.
W. Evans, O. B. Norman, W. K.
Crawley, Doc Mathews, J. M. Peter-
son, and C. M. Burton. This body

was instructed to convene within the
next week. W. W. Evans County
Agent will likely be selected by the
Executive Board the Manager of the
fair again this year having managed
a very successful county fair last
year here. In addition to the exe-
cutive Board thirty men have been
named representing the thirty rural
committees in the county as a gen-
eral advisory Board whose duty it
will be to urge all communities to ex-
hibit at the fair this fall. According
to the body in session here Monday
evening each man on the Big general
Committee will serve as "contact"
man for the executive Board and the
County agents Miss Genevieve Chip-
man, Home Demonstration Agent
will have charge of all girls and
women exhibits according to infor-
mation given out by the executive
board after appointment Monday
evening.

Dawson County Clubs
Will Convene at
Lamesa, July 17th

LAMESA.—On the 17th of this
month the Dawson County Clubs will
convene here in their annual county
encampment. All boys, girls, and
ladies clubs of the county will partic-
ipate in the projects and programs
outlined for this meeting. The en-
tire supervision of the program of
this encampment will be in charge
of W. W. Evans, county agent, and
Miss Genevieve Chipman, Home Dem-
onstration Agent. The encampment
will hold forth on the Court House

the time of the encampment. The
business men of Lamesa are co-op-
erating with the rural folks in mak-
ing this meeting the greatest yet held
here.

Falfurrias—Had he pruned all his
watermelons twice, W. G. Brooks,
local farmer, would have made \$14
more per acre from this crop this

year, he thinks. He pruned the vines
once and the county agent, H. C.
Atchison, Jr., pruned two rows the
second time, cutting off all melons
with rotten ends and bottle-necks. It
took him 30 minutes to cut off 110
worthless melons from the two rows,
each a quarter of a mile long. These
rows made 1922 pounds of melons
each, while adjacent rows, pruned but
once, yielded only 1199 pounds. The
melons sold for about one cent per
pound.

Magicians
At least, so it seems after we've cleaned
your clothes. Nothing but magic, it seems,
could transform dirty, soiled clothes into
a state of handsome spotlessness. And a
good fairy, too, seems involved in the price
scale.

The O'Donnell Index

Published every Friday at
O'Donnell, Texas

By Roberts Printing Company

J. W. Roberts Editor

Subscription Rates
In first zone \$1.50
Beyond first zone \$2.00

Advertising rates on application. Entered as second class matter September 28, 1923, at the post office at O'Donnell, Texas, under the Act of March 3, 1897.

The premium list for the O'Donnell Free Community Fair is being published elsewhere in this issue of the Index. A few minor changes may be made in some of the departments before the official catalogue is off the press, but the list as is published this week will give you a fair conception of the liberal premium list. More and larger premiums are given this year than last.

Preserve your copy of this week's Index and begin making preparations now to capture your share of the premiums when the Community Fair is held on September 20-21.

Mr. Vernon Martin, manager of the Fair, is busy this week selling advertising for the official premium list which will consist of approximately thirty pages covering every department of the fair. If he has not called on you yet, see him at once and tell him your wants.

Much publicity has been used in airing Snyder's recently constructed airport. Geo. F. Smith, editor of the Scurry County Times-Signal, one of West Texas' largest weekly newspapers, recently ran an article showing how this enterprising little city of the Southwest has provided the most modern and complete airport so far conceived for a town under 100,000 population. "Jimmy" as the good natured editor is known to Texas newspaper men, is loud in his praise for the new airport, and in his opinion justified. The editor had occasion to visit Snyder's new airport just as it was being completed and we found that it was built sufficiently large to care for regular airfleets with a series of modern cabin inns to handle tourist traffic. The landing area is large with clear approaches from all directions. The field proper includes facilities for housing, fueling and servicing planes, and the air markers can be seen for fifteen or twenty miles. The field is conveniently located just outside the city limits of Snyder and is one of the most modern and complete in West Texas. We congratulate Snyder and its astounded citizens. They have set an example for other towns to follow, and it is a wise one at that.

Every town needs an airport and it won't be long until every town without an airport will be considered a back number. We mean just that. It is not too soon for O'Donnell to begin planning the building of an airport. It would now be a valuable asset, and as the future unfolds it will become an absolute necessity.

Since O'Donnell has engaged the services of Mr. G. S. Dowell as full time secretary-manager of the Community Chamber of Commerce, dozens of newspapers of Texas have published favorable comments, along with congratulations for our progressiveness. The Western Enterprise has following so say:

"O'Donnell has hired a secretary for its chamber of commerce. It is getting too near the coming decennial census for O'Donnell to say much about its population, but the Enterprise wagers that it falls several hundred short of the population of Anson. That is neither here nor there, except that if a small town, not a county seat, and not enjoying any kind of a 'boom' can employ a man to take care of the town's collective needs, Anson should be able to do so, and especially since Roby is setting a new example for this county to follow."

O'Donnell is no doubt smaller in population than Anson, but in ideas of progressiveness, we are as large as most towns of a much larger population. The Index is proud of the spirit of our citizens and will venture to say that the spirit that gives us much pride will undoubtedly build O'Donnell a town in keeping of the spirit of this great South Plains of Texas in which O'Donnell is conveniently located near the center. Ours is a country in which things are done and not talked of. If Mr. Hensley, editor of the Enterprise, will go with Horace Greely once advised, he will be able to witness activity

backed by a spirit that builds cities and develops the surrounding country. O'Donnell is only about 150 miles west of Anson and we invite our friend Mr. Hensley to crank up his flivver and pay us a visit. We will do our darndest to show him how and why we are able to maintain a paid secretary.

Premium List For Community Fair

(Continued From Page 1)

tomatoes, 12 carrots, 10 beets, 10 turnips, 10 Irish potatoes, 10 bell peppers, 10 onions 3 cabbage, 1 gallon beans. There must be shown at least 10 varieties of vegetables. No. 9.—Attractiveness, Arrangement, and Neatness of Exhibit—100 points.

The superintendent of each division of the Fair Exhibits shall take the name and address of each exhibitor, list each exhibit and shall be responsible for the listing of each placing given by the judge of the exhibits. Exhibits shall not be removed without the permission of the superintendent.

Best Chow Chow 50c, 2nd Ribbon.

I Am the Master Salesman

Lo, the people of the earth do me homage.

I am the herald of success for men, merchants, manufacturers, municipalities and nations.

I go forth to tell the world the message of service and sound merchandise. And the world listens when I speak.

There was a day long ago, when by sheer weight of superior merit, a business could rise above the common level without me, but that day has passed into oblivion.

For those who have used me as their servant I have gathered untold millions into their coffers.

I SELL MORE MERCHANDISE—

per dollar of salary paid me than any other salesman on the face of the earth. The fabled lamp of Aladdin never called to the service of its master genii half so rich and powerful as I am, to the man who keep me on the payroll.

I HOLD THE BUSINESS—

of the Seasons in the hollow of my hand. I command the legions of fashion, mold the styles and lead the world wherever I go. I drive unprincipled business to cover, and sound the death-knell to inferior merchandise. Frauds are afraid of me because I march in the broad light of day.

WHOEVER MAKES ME THEIR SERVANT—

for life takes no chances on drawing down dividends from my untold treasures bestowed with a lavish hand.

I have awakened and inspired nations, sent millions of men to fight the battles of freedom beyond the seas, and raise billions of dollars to foot the bills. Nations and kings pay me homage and the business world bows at my feet.

I sow broad fields for you to reap a golden harvest.

I AM THE MASTER SALESMAN AT YOUR SERVICE

I Am Advertising!

Around the Clock

FROM the time you wake up in the morning until you go to bed at night—and on through the night—electricity is in your home to serve you.

Whether it is cooking, cleaning, washing, refrigeration, sewing, lighting, stirring up a cool breeze, ironing, or a delightful program of radio entertainment—electric service is constantly ready to do things for you.

Electricity has simplified modern housekeeping. It has added new hours to the housewife's days, made short and pleasant tasks of old drudgery, introduced new economies in home making, given mothers more time for their families, and given families more time for outdoors and healthful exercise.

The Texas Electric Service Company has brought the best of tested and approved electric appliances to its customers at most reasonable prices, together with nominal monthly payments. You will find these appliances on display and for sale at our local store.

The Farm Relief Bill

After several years of discussion and political wrangling, the long looked for farm relief bill has at last become a law. Appropriations amounting to \$500,000,000 have been authorized for the purpose of carrying out its provisions. Rather elaborate machinery is to be set up for its execution, and a large sum will go to those who happen to get on the new federal payroll.

In fact, it is suspected that a good many farm leaders are as deeply concerned with the payroll feature of the bill as with any other of its provisions, and a rather lively scramble for jobs may be expected. Incidentally, the success of the plan will depend to a great extent upon the caliber of the men chosen to operate it.

That some measure of relief for the farmer will result, at least temporarily, seems probable. Whether the new law will be of lasting benefit is more doubtful. If it shall be made the means of building up another great political machine, it may in the end prove a hindrance to the farmer's prosperity, rather than a help.

However, for the present at least, the country is committed to this experiment. Let us hope that the plan may be found to possess all the merits which its sponsors claim for it.

New Edison Stamp

Commemorating the fiftieth anniversary of Edison's invention of the incandescent electric light, a special 2-cent postage stamp will shortly be issued to honor the great inventor. The issue of this stamp is an incident of Light's Golden Jubilee, which is being celebrated in a five month's series of events which will culminate in a great testimonial to Edison to be held in Dearborn, Mich., next October.

The commemorative stamp is of regular size, printed in red, with a picture of the original lamp giving off rays of light, above which are the words: "Edison's first lamp." In the corners appear the dates 1879 and 1929.

When one observes the almost universal use of the incandescent light and other electric appliances which Edison's genius has given to the world, it is difficult to realize that all these modern miracles have been wrought within fifty years, and that the man who made them possible is still living to receive the plaudits of his fellow citizens who enjoy these priceless gifts.

Perhaps no man ever lived to witness the fruition of his labors to such an extent as has Thomas Alva Edison.

The Fight for Health

Almost amazing has been the decrease in the tuberculous death rate in the United States during the last 25 years, a greater decrease than the most optimistic scientist or physician would have predicted a few years ago.

In 1905 the death rate from the "white plague" was around 194 per 100,000 population; by 1915 it had decreased to 147; in 1925 it was only 91, while in 1928 it had fallen to 70 per 100,000.

While the vigorous research and educational campaigns which have been waged against tuberculosis have been responsible for much of the improvement shown, it is said that deaths from the disease have greatly decreased throughout the world, even in countries in which little in the way of preventive measures has been undertaken.

A prominent scientist believes that the human race is gradually becoming more resistant to the tuberculous germ, or possibly the germ itself is growing weaker.

This good news with respect to tuberculosis is largely offset, however, by the rapid increase in the death rate from cancer, in spite of the most determined efforts to check its ravages. Occasionally a new method of treating cancer gives promise of success, but so far no remedy except the knife in early stages has been of much permanent value.

Patent workers in laboratories throughout the world are giving their best energies to the fight against cancer, and some day their labors may be crowned with success. It will be a great day for humanity when a real cure for cancer is discovered.

Better Helps in Homes

Housewives are to a great extent solving the help problem by the employment of electrical servants that are never late on the job, never ask for holidays nor demand the use of the family car.

The amazing increase of electrical equipment in American homes is disclosed by the household research bureau of the makers of ABC elec-

tric washers, which finds that at the end of 1928 this equipment included 17,700,000 electric irons, 7,700,000 vacuum cleaners, 1,223,000 electric refrigerators and 5,735,000 electric washers.

There are nearly twenty million wired homes in the United States, where the field of usefulness of electrical energy is being more rapidly developed than in any other country.

American women have discovered that the employment of labor-saving devices in the home is a means of conserving their energy, health and beauty, besides making for true economy. These devices are banishing much of the drudgery which was formerly inseparable from house-keeping.

State Fair to Have 3 Larger Buildings

Dallas, Texas, July 19.—One new building and two with larger space will be ready in time for the opening of the State Fair, October 12th, it has been announced by T. E. Jackson president of the state exposition. A new Livestock Coliseum with an arena 100 by 168 feet and a seating capacity of 8,000 is now under construction.

Work has also started on the balcony in the Agriculture Building. The balcony will add one-third more space to this building. Greater floor space will be arranged for the Poultry Show.

Know Texas

The figure possibilities of Texas' agriculture may be guessed at from the fact that only 30,000,000 of its 167,000,000 acres are under cultivation.

In 1920 Texas had 29 cities of above 10,000 population and five above 50,000. The 1930 census is expected to show 50 cities above 10,000 and eleven of above 50,000 with three and possibly four above

200,000. Since 1920 Texas has grown in population at the rate of more than 100,000 a year, according to Census Bureau reports and estimates.

Baby Beef Show and Sale at State Fair

Dallas, Texas, July 19.—Creating a new market for the West Texas rancher, and encouraging the feeding of beef cattle on black land farms of Texas, the State Fair will hold its first "Feeder Show" and auction sale during the 1929 Exposition, it has been announced by Frank P. Holland, director in charge.

More than 1,000 prize calves from West Texas ranches will be shown at the State Fair and sold to black land farmers and others to be fed for market.

The "Feeder Show" will not only open a new market for feeder stock in Texas, but is expected to encourage the growing of grain and feed-stuffs on impoverished cotton lands of the state.

Many "Trade" Shows At 1929 State Fair

Dallas, Texas, July 19th.—Many special shows will feature the 1929 State Fair of Texas, it has been announced here by Roy Rupard, secretary of the exposition. Among these special features will be the feeder beef show, the horse show and style revue, a radio show, a citrus show, the automobile show, the Southwestern Aviation Exposition, the cotton show, dairy show, rabbit and pigeon show, and many other "trade" exhibitions.

Small farms in a high state of cultivation, where large quantities of feed are produced, may be stocked carrying capacity and the calves disposed of at weaning time or fattened with breeding cows to a maximum ed as baby beef to advantage. In this way practically no other cattle than the breeding herd are maintained,

and less feed and pasturage are needed than when the calves are carried over as stockers and feeders.

The cost of mailing a post card in France is regulated by the length of the message written upon it.

The first steel and concrete Buddhist temple ever erected is being built in Tokio, Japan.

Bananas are banned in Italy because they do not grow in that country or in any of its colonies.

NATIONAL PREPARATION A GROWING REQUIREMENT FOR SUCCESS IN MODERN BUSINESS

Knell Sounded for Gueswork and Slipshod Methods by Advancing Technical Proficiency in Finance, Trade and Industry—How Banks Are Developing a Professionally Qualified Generation of Younger Bankers.

By HAROLD STONIER
American Bankers Association

A great school of Experience is still holding classes in America, but the scientific spirit of the age has so generalized the workshops of industry and trade that they have largely become technical research and training laboratories in themselves and are no longer run on the old-fashioned cut-and-try methods of former generations when Experience was considered the only teacher. It would be hard to find a working force in any pre-eminently successful business or industrial organization in the United States today but what the dominating leadership is schooled in the scientific principles of its specific field, whether manufacturing, merchandising or finance. The rapidly advancing standards of business in this country, with their relentless demands for efficiency as the only hope for survival in the competitive struggle for economic existence, has sounded the death-knell for gueswork and slipshod methods.

As a result, educational preparation in the techniques of commerce, industry and finance are virtually essential to outstanding success in these varied professions. This is not to depreciate the value of the rank and file of business men and their experiences in business after all is merely helping the individual to do his job better and to his own day's needs for helping speciality to come into its own and surely and for enhancement of ability to gain the success to which they are plainly recognized.

work-a-day business in every progressive business in America is emphasizing the importance of education. Education has come to be looked upon as the answer to the problems within the organization as well as to problems of a whole.

Organizing Institutes for developing specifically bankers are being operated in many fields of commercial activity. These are trying various types of work with a distinct trend and more emphasis upon the rank and file of business men of all grades. There have been business failures in this country at the rate of one a month. This score speaks for a glaring evidence of incompetence on the part of thousands of men in handling the problem in their fields of endeavor. Detailed records show that 75% of business failures in this country is due to lack of competence on the part of the manager. This is concluded that no one can afford to neglect executive business training without adequate education. It is for that reason that the business organization is insisting as never before that employees take advantage of technical training.

Banking is fortunate and is for the first time in that it has twenty-eight years of detailed educational activity which to its credit for the bankers. People in the numbers are taking the educational opportunity the great non-commercial banking business, the Institute of Banking. They have abundant evidences of the training it gives. Of the 50% of this Institute, 70% of the positions in America. The other 30% are still to be attained such as to the people of all ages.

One Cow vs. One Dozen
"Why milk twelve poor cows when one good cow will do the work of the twelve?" asks the bulletin of the American Bankers Association Agricultural Commission. It declares that analysis of more than 100,000 individual yearly records from cows on test in dairy herd improvement associations indicate that on the average Cows that produced 100 lbs. butterfat a year returned \$14 each over feed cost. Cows that produced 200 lbs. butterfat a year returned \$34 each over feed cost. Cows that produced 300 lbs. butterfat a year returned \$94 each over feed cost. Cows that produced 400 lbs. butterfat a year returned \$135 each over feed cost. Cows that produced 500 lbs. butterfat a year returned \$178 each over feed cost.

In other words, one 500-pound producer will return \$10 more over feed cost than twelve 100 lb. producers. This does not take into account either the added labor of milking and caring for the larger herd, or the much greater expense of providing a stable room for a dozen instead of a single animal. The figures are based on farm prices from all parts of the country.

WHAT'S NEWS

A new electrical safety razor cuts the beard with parallel shearing plates, vibrating 120 times a second.

The department of national defense in Canada is said to possess the secret of an explosive more powerful than any previously known.

Dried milk may be rolled into sheets like paper which will keep for years by a newly invented Danish machine.

For baking pancakes a machine has been devised which measures the batter, cooks, turns and delivers the cake ready to be served.

An apparatus has been perfected whereby photographs of heart pulsations may be observed and recorded.

A new television instrument, so simple that it may be attached to an ordinary radio receiving set, is said to have been perfected in Germany.

EPWORTH LEAGUE PROGRAM FOR SUNDAY Theme of the lesson: What a Christian should read. Song: Wonderful Words of Life. Scripture lesson—Psalm 119: 19th verse. Prayer— First topic: How Shall I Choose My Reading—Ira M. Palmer. Special Music—Margaret and Mildred Wetsel, of Tahoka. Some Good Books, New and Old—Sue Gates. The World's Best Seller, the Bible—Erma Lee Mack. Song: Open Mine Eyes. League Benediction. Mrs. A. W. Gibbs, of Big Lake and her two daughters Margaret and Billie Frank are visiting Mrs. Gibbs' mother, Mrs. R. H. Schooler and other relatives here. Miss Rose, as she is affectionately known to most people in O'Donnell, was for several years connected with our public school and is remembered here with much esteem. Her many friends will congratulate her on the safe arrival of Miss Billie Frank several weeks ago. She is a very charming and precocious young lady. Miss Evelyn Huff, daughter of Mr. and Mrs. W. T. Huff, arrived in O'Donnell Monday morning for an extended visit with her parents. Miss Huff has just returned from a trip to Florida, Cuba and through the historic East, having spent some time in New York, Washington, Philadelphia, and Niagara Falls, Southern Canada, Detroit, and Chicago were also included in her itinerary. Mr. and Mrs. Hal Singleton, Sr., left Friday last week for Dallas where they will purchase a new Master Buick sedan. They will also visit their daughter while there. From there they will go to Jefferson for a short visit with relatives and old friends. Mrs. Joe Brooks, of Baird, who has been visiting her parents, Mr. and Mrs. Deakin, who live east of town, left Sunday morning for a few days' visit with her brother and wife, Mr. and Mrs. Homer L. Deakin, at Big Springs. Mr. and Mrs. Waldo McLauren and children, Modern and Junior, Mr. T. E. Cathey and his brother, Mosma, Jim and Will Cathey, and Charley Cathey will leave Monday for points in Arkansas, Louisiana, Mississippi, and Georgia. Mr. and Mrs. W. P. Parker and children, Mr. and Mrs. A. M. Parker left for Myrtle, Miss., this week, where they expect to spend a three weeks vacation with relatives and friends. Mr. and Mrs. F. E. Norton and son Frank, of Dallas, are the guests of Mrs. R. H. Schooler and Miss Willie, and of Mr. and Mrs. Joe Schooler. Mrs. E. L. Sorrels left Friday for Clinton, Ky., where she will visit her sister, Mrs. Oella Lawrence. She was accompanied on the trip by her sister-in-law, Mrs. Smith of Amarillo. Mr. E. T. Wells and daughters, Beverly and Jim Ellen left Tuesday for Tatum, N. M., where they will visit Mr. Wells' father, Mr. W. E. Burleson. Harry Coin spent Tuesday with his cousins, Mr. and Mrs. H. Mogul of Lubbock.

TIRES VUNCANIZED Born to Mr. and Mrs. W. of New Moore, on Thursday, 4, a nine and one half pounder. The young lady has the name of Nancy Ruth. Mr. and Mrs. Claude W.
