The Wichita County Farm Bureau will participate in the informational program to be conducted statewide in Texas by the Farm Bureau to better acquaint farmers and ranchers with the activities and services of the Farm Bureau in promoting, protecting and securing agriculture, it was announced by George Lewis, president, who attended the district officers meeting at Wichita Falls on August 9. Facilities of the press and radio pass laws for the creation and op- will be used to bring the problems eration of city-county health units of agriculture before the people to stimulate interest toward their solution. A Texas rural road program and the future national farm program will be the two main problems attacked by the organization. Appearing on the program for the day were Austin Crownover, state field representative of Waco, H. T. Cardwell jr., organization director for District III, of Megargel; and Loys D. Barbour, director, District III.

Representatives from 13 counties were in attendance at the District Officers' meeting. From Wichita Sec. 3 The Governor of the Stan county were Lewis, Arthur Eyert, Fred Minick, Mrs. John Wesley, Miss Cathryn Sands, Mrs. Katherin singing, accompanied by Mrs. Otis Gay.

Asked Specs Allen to go hunting last week. Known him all my life, so I wasn't surprised when he showed up with no gun. Specs doesn't like to kill anything.

Couldn't ask for a better hunting companion, though. We tramp around the woods, and whenever the dogs flush a bird, I blaze away while Specs just watches.

Told him once I was surprised he went along . . . feeling the way he does about shooting anything. "Well. Joe," he says, "you do what you think is right and I'll stick

to what I think is right. I've no call to dislike you for not seeing everything the way I see it." From where I sit, open-minded-

party-line telephone user knows...

EVERY PERSON WITH A PARTY-LINE telephone at home knows at least three things about the service.

He knows the line must be shared fairly to be useful to everyone—just as a street is shared by those on it.

He knows he appreciates courtesy from others on the line-such as not interrupting, and recognizing his emergency needs for the line now and then.

He knows whether party-line service meets his needs. About half our customers have always preferred party-line service, even before the war, when they could have had individual lines.

Today, out of each four families with telephones, about three have party-line telephones and one of them has asked for a different type of service.

We'd like to be able to give it to them. We are working toward that, and are making some progress despite the continuing heavy demand for telephones

from those still without any service. We have on file thousands of requests for some other type of service. Wherever local conditions permit, we are meeting these requests, and are keeping a careful record of all requests, to act on at the first opportunity.

KNOW YOUR NEIGHBOR -WICHITA FALLS

By Ivan Elmer

Wichita Falls-the cattle town which Burkburnett gushers mushroomed into a thriving city 30 years ago-is booming again, and this time oil is not the

and bursting at the seams from too many people with too few places to live and work, it found the addition of 10,000 Airmen at Sheppard Air Force Base last year more than it could stand. Long-delayed building burst with almost explosive suddenness this summer. and there is little doubt 1949 will be the biggest building period here in 25 years, perhaps in all history.

One project-a 1,500 home, \$10,000,000 residential development just revealed-is the largest single construction job in Wichita Falls history. It was announced less than two weeks after work began on a \$1,000,000 apartment project, larger than any built

One of the city's two refineries is doubling its output of high octane gasoline in a \$1,000,000 expansion program. Ground will be broken in October on a \$1,300,000 addition to Wichita General Hospital, doubling its bed capacity and strengthening Wichita Falls' title as medical center of Northwest Texas. The first two postwar office buildings are going up; schools are being expanded; home building is at the fastest rate since the roaring 20's, and \$1,500,000 in new churches are going up, making Wichita Falls even more "The City of Churches."

Oil, agriculture and Air Force are the triple money-makers which finance Wichita Falls' construction spurt and keep it one of America's most prosperous cities. Since 1902, when the Petrolia gas field blew in 17 miles to the northeast, oil has been Wichita Falls' basic livelihood. Electra's discoveries in 1911 and the mighty Burkburnett boom of 1918 made a teeming city of Wichita Falls, little more than a village at a river crossing in pre-oil years.

Thirty years rater, through three decades of calamity howlers who predicted "The oil's about gone," there is no end in sight to Wichita Falls' oil future. Wichita County is one of the nation's all-time great oil-producing counties (it pumped its billionth barrel this year) and still discoveries keep reserves growing. Of mounting importance in postwar years are fields in the 13-county Wichita Falls district, regularly the state's leader in oil activity. Rarely does a week pass without new wildcat wells made and new pay horizons reached.

Most of this drilling and exploration is done by independent oil men, not major companies, for Wichita Falls has been the independents' stronghold through its oil history and is today called the capital of independent oil men in America. Its prime location (near the production center of the midcontinent region from which most American oil comes) has at-

tracted dozens of oil company offices in preference to larger cities. It is an important oil supply and equipment manufacturing center, including the Wilson Manufacturing Company, one of the world's largest makers of rotary drilling rigs.

Sheppard Ar Force Base, up on the hill north of town, is the Air Force's only mechanics training school and the largest in the world. When it reaches peak strength in the fall of approximately 12,000 Airmen will be stationed there. A payroll of \$3,000,000 per month, plus contract purchases, are a big stimulant in Wichita Falls' economic bloodstream. Chamber of Commerce members were instrumental in getting the field reactivated in 1948 and in pushing through the gigantic horsing development which will provide many an Airman a place to live.

Although a wag once remarked-and accurately -that Wichita Falls' most successful ranchers are those who grow oil on their land, cattle and wheat lead a list of cops tremendously important to the city. Annually the nation's wheat harvest begins within 50 miles of Wichita Falls, and the first load of 1949 wheat came from a farm only 12 miles distant. Flour milling is a leading industry here. Wheat farmers can graze cattle on their fields through the fall and early spring adding thousands of pounds of beef to the "wheat" crop each year.

Early in 1949 Louis Bromfield, long interested in the rich soils of this region, set up his second demonstration farm nearby. Buildings are being completed, and the first field crop was sown in July. The farm already is a tourist attraction. With Bromfield leading the way to commercial development of new truck crops and soil builders, the farming outlook in North Texas is the rosiest ever.

Wichitans are proud of their city and are growing more proud, thanks to new achievements and rising morale. The city is proud of its new \$700,000 YMCA building, first built in the United States since the war.

It is proud that Wichita Falls almost alone among West Texas cities has no water supply troubles. An ultra-soft water supply lake big enough for a city of 180,000 was completed two years ago. Three other lakes, all built without a cent of outside aid, provide a recreation area and ample water for a 30-mile irrigated

The city is proud of Hardin College, a four-year college only since 1946 but already one of the state's larger educational institutions. It is proud of its fine homes and the progressive "let's do it" spirit typified in the pioneers who 70 years ago carved a city out of with him to practice now. the grassy plains, then pitched in and made their own dreams come true.

According to Spanish history one of Coronado's men, back in the sixteenth century, pitched camp near the falls in the Wichita River where much of Wichita Falls' business district now stands.

THE PERFECT AUTOMOBILE JACK . . .

TRIANGLE SAFETY JACK

Here is a sensational new automobile jack that avoids all of the shortcomings of traditional jack design. The Triangle Jack combines the best features of an axle jack and a bumper jack.

Putting a Triangle Jack into position when a flat tire occurs is a simple procedure. The motorist takes it from his trunk compartment and slips the jack under the axle without uncomfortable stooping. The next step is to adjust the chain under the bumper ... from then on, turning the crank raises the car effortlessly at TWO points of suspension, the axle and the bumper.

The Triangle Jack has the advantage of supporting the car under the most difficult conditions. The car is held up by a triangular truss support-in mud or icy ground, on the side of a hill or on rutted roads where ordinary jacks fail miserably

Church Offers New

Type Vacation Study

The Christian church will launch new type of Christian education program when it opens its first Vacation Adventure Bible School on Monday, August 15, at 9:00 at the church, according to the Rev. Fran-

eis E. Barnes, minister. Sessions will run from 9 until 11:30 each morning Monday thru Friday. A picnic will be held Saturday and certificates and awards will be presented at the regular Church School hour on Sunday,

Albert L. Reed, superintendent of the Church School, will serve in that capacity for the Adventure session, with Mr. Barnes as principal. Miss Jan Bedford will be music director and Miss Hazel Crites will be pianist. Miss Ava Nell Lee has been secured to assist with the singing and other musical phases of the program. Mrs. Albert Reed will be secretary for the Adventure Bible School.

Faculty members and the classes they will conduct are: Mrs. Forest Bates and Mrs. Rollins Woodall, beginners; Mrs. Ralph Sisk and Mrs. A. W. Bedford, primary; Miss Crites and Mrs. John B. Barbour, juniors; Miss Polly Faye Clark and Mrs.

Adventures with the Bible, treasure hunts in nature, and a brief study of agricultural operations, transportation, musical instruments, stones, flowers, birds, trees, reptiles, colors etc. as found in the Bible will feature the school, according to Mr. Barnes.

"The Vacation Adventure Bible School is open to any boy or girl up through 15 years of age that wishes to attend," Mr. Barnes stat-

Mrs. Ralph Sisk served as leader for the program and introduced Mrs. Gilbert Steele who spoke on "How to Visit Mexican Christian Institute": Mrs. Forest Bates who spoke on "Thirty-five Years Old-M.C.I."; and Mrs. Rollins Woodall who spoke on "Co-operation for a Christian Nation and Our Mexican

Miss Hazel Crites brought a stimulating devotional with a recital of travelogue experiences with other races while on a recent vacation trip to California.

Mrs. Francis E. Barnes, a Spanish major while in college, gave a few brief facts about the Hispanic American peoples and explained some of the curios and souvenirs on display for the meeting, and exhibited a Spanish - English New Testament.

Mr. Francis E. Barnes, minister, told of a few interesting places and experiences from his visits to Old Mexico and some of the border

Those present for the meeting were Mmes. Woodall, Sisk, Steele, Bates, Barnes, S. T. Buzzard; Miss Crites and Mr. Barnes.

TANTE MARIE'S FRENCH KITCHEN

Edited by Charlotte Furgeon For the women in the household and for the men who have as their hobby the creation of super salads, etc., we have now available this collection of special French cooking secrets. Now for the first time, "La Veritable uisine de Famille par Tante Marie" has been translated for our use. No recipe includes ingredients that are not readily available in this country, yet in no way has the French character of the dish been altered. It is a practical guide for the preparation of those basic and simple dishes for which French

E-Z Grocers Shutout By Big Bob O'Neal; 16 Batters Fanned

Big Bob O'Neal took over the chunking duties for the Iowa Park Lions last Sunday in Wichita Falls and proceeded to carve out for himself and teammates a great big no-hit victory. It was the fourth time O'Neal had been pressed into the pitching slot and it was the fourth time he brought home the victory bunting.

The Lions scored 4 runs in the first half of the initial frame, on hits. That was more than O'Neal needed as he proceeded to strike out 16 batters in the seven inning tilt. A walk and three errors gam the E.Z Grocers two runs in the half of the first, but after that n one reached second base. Final to tals were Iowa Park 9. E-Z 2.
