An ELECTRIC dryer makes it easy to have fresh clean clothes and linens when you need them ...

Even if there are only two in your family, an electric dryer offers wonderful, time-saving convenience. When you need clean towels or other washables, you can dry them any time-even at night-almost effortlessly. For the employed wife, an electric dryer banishes week-end hours at the clothesline. And, of course, when there are children in the family, an electric dryer is even more important. All your washables are gently dried in clean, accurately controlled electric heat—and so fluffy-soft that many pieces need no ironing. Remember—only electricity gives you flameless clothes drying-clean, safe and modern.

Past few months have found the Jaycees working on various projects, from the Youth Center to the Blood Bank drive. Majority of these jobs are normal working details for the Jaycees thruout the year.

The Jaycees would like to make a few comments on the recent Blood Drive instead of news of their working details.

Do you know there were only 25 pints of blood given last Thursdav here in Iowa Park, a town close to 4,000; while Throckmorton, a town of 1,500, donated 62 pints in their recent drivey?

This is something the entire town should consider with shame, including each individual who could have donated.

I am sure you have heard over and over again the reasons you should donate to this and that. but this is one donation it takes only about 15 minutes to do, and at no cost to you. The donation is repaid in just a few weeks and the donor is never shown appreciation no matter how long you or the receiver live.

This is something you never can express enough thanks for. You will never experience this

until you have the need and you call the Blood Bank and they furnish all you need. Just ask someone who has received the facility, and see how they feel in this re-
