

### WATER SPOUT CAUSED WRECK OF A GALVESTON TRAIN.

#### FIFTEEN PERSONS INJURED

#### Two Will Probably Die—Heavy Rain Undermined the Foundation of a Trestle Over a Narrow Chasm—Four Coaches Badly Wrecked.

Ardmore, I. T., May 16.—A south-bound passenger train on the Santa Fe road, known as the Chicago and Galveston express, went through a trestle 16 miles south of here at 5 o'clock this morning. Fifteen persons, passengers and trainmen, were injured. Several of these are seriously hurt and it is believed that two will die.

The accident occurred near the town of Marietta. A heavy rain storm, amounting almost to a water spout, caused a sudden rise this morning of all the small streams in that vicinity. The accident occurred at a point where a deep narrow gulch was spanned by a wooden trestle. The foundation work supporting this trestle was undermined by the sudden rise of the little stream which flows through the gulch and the trestle went down under the heavy weight of the train. So great was the speed of the train, however, that the engine and tender, the express, mail and baggage cars and one passenger coach passed over the narrow chasm, though the tracks of several of these cars went to the bottom, 20 feet below. The coach next to the last, the one immediately in front of the Pullman, was left standing directly over the chasm, one end resting on either bank of the gulch. The Pullman remained on the track.

The four coaches which were dragged by the locomotive across the broken trestle were badly wrecked. The baggage car telescoped with the passenger coach, which was the smoker, and the latter was demolished. Most of the injured were riding in these cars.

#### Fatally Hurt.

J. M. Griden, the Wells Fargo express messenger, was so badly crushed by a heavy car chest that he cannot be moved. E. T. Sparks, of Oakland, I. T., was crushed in the wreck of the smoker and is also mortally injured.

The injured were brought to Ardmore on a wrecking train sent out from here. At 5 o'clock this evening a track had been built around the wreck and the belated passengers resumed their journey, except those seriously injured, who are being cared for here at the Windsor hotel.

#### Seriously Injured.

The names of those seriously injured in the wreck follow:

E. T. Sparks, Oakland, I. T., injured in chest and back, probably fatally.

G. G. Crawford, Hurd, I. T., elbow dislocated and right arm fractured.

W. L. Irwin, Kansas City, cut on the neck.

I. F. Hale, news agent, Fort Worth, bruised on hip and side.

J. M. Grider, express messenger, hurt internally, cannot live.

R. J. Crawford, Fix, I. T., ankle sprained, badly cut and bruised.

W. M. Forbes, Lebanon, head, hands and arms cut, and hip injured.

O. L. York, Palo, Tex., hip hurt.

J. F. Piper, Ladonia, head cut, shoulder dislocated.

#### AT NASHVILLE.

Government Building will be Formally Open

and Colonel Pinedo of the Mexican army, was raffined with much ceremony and peace was declared.

The cessation of hostilities is hailed with joy by everyone in the vicinity and especially by a syndicate of New York capitalists, who are constructing with Indian labor an immense canal in the Rio Yaqui valley to irrigate a million-acre concession secured from the Mexican government.

#### CHAPMAN WILL SURRENDER

#### Sugar Trust Witness Will Accept His Jail Sentence.

Washington, May 16.—Elverson R. Chapman of New York, the recalcitrant sugar trust investigation witness, arrived in the city tonight for tomorrow afternoon. Mr. Chapman will surrender himself to Marshal Wilson of this district, under whose direction he will be taken to jail to serve out his sentence.

The actual amount of time he will be required to remain in jail will be 25 days as the law provides for a remission of five days in the case of good behavior.

In an interview, Mr. Chapman expressed himself as follows:

"There is nothing more to be said about the case than has already been made public. Believing we were right, we took the case to the highest court and now that we are beaten I am disposed to accept the situation in a philosophic way. I expect to serve out the 25 days of my sentence."

Messrs. Henry O. Havemeyer, the president, and J. E. Searles, the secretary, respectively, of the sugar trust, also reached here tonight. The trials of their cases are set for tomorrow. With them were Messrs. John E. Parson, Mr. Havemeyer's attorney, and ex-Senator Edmund Burke. It is impossible to obtain any information on the subject, however, as the attorneys declined to discuss the matter.

#### DEGENERATE BULLS.

#### Mexico's National Sport is Seriously Threatened.

Mexico, May 16.—The city government forbade any bull fight to be given today. The authorities claim the bulls provided for the fights are so poor they do not justify the price of admission asked by the management.

Enrique Morro, a Spanish bull breeder, has visited the famous bull breeding farms of Atenco and other places and his judgment is that none of the bulls shown him were worthy of the ring. The seriousness of the situation is getting to be a serious matter and it begins to look as if bull fighting would stop for lack of animals to fight. The government is firm and no performances will be allowed with inferior cattle. A ship load of bulls has been ordered from Spain to meet the emergency.

#### Obsequies of Richard Coke.

Waco, Tex., May 16.—The obsequies of the late ex-Senator Richard Coke were solemn and impressive in the extreme. The pall bearers were of the most distinguished men of Texas. A vast multitude of people were present, many hundreds being from different parts of the state. At the grave, just as the casket was being lowered into the grave, a bolt of lightning struck a tree near by, knocking ex-Governor R. B. Hubbard, one of the pall-bearers, to his knees, shocking ex-Governor Ross and a number of others severely. A number of teams ran away and there came near being a tragedy to end the sad occasion.

#### The Winona Murders.

Bismarck, N. D., May 16.—The preliminary trial of the five Sioux Indians who murdered the Spicer family at Winona in February last, has been completed at Winona, Minn., in Emmons county. Holy Track, one of the accused, took the witness stand today and told the terrible story of the crime, implicating Black Hawk and his band.

falling over a precipice a distance of 60 feet. He is believed to have had a fit while on the trail in search of his brother's mine, as he was taken with one before he left Ouray and said he was subject to them. Nothing is known of the man's home or the brother of whom he spoke.

#### New York Tailors Strike.

New York, May 16.—The Brotherhood of Tailors, with a membership of over 30,000, decided today to strike. A strong effort was made by the President to prevent the strike at this tie, but without avail. The decision to strike was arrived at only after a protracted and heated meeting of the tailors.

Although the strikers have not yet drawn up their demands, it is known that an advance of wages and the abolition of the task system are sought by the tailors.

#### Both Halves Killed.

Tacoma, Wash., May 16.—John Arthur McCarty, a Northern Pacific conductor, shot and killed himself and wife at noon today. The shooting took place in the front of their home just as they were returning from church. McCarty was formerly yardmaster at Sprague.

#### A Spanish Ovation.

Madrid, May 16.—Gen. Camilo Polavieja, formerly governor general of the Philippine islands, who recently was succeeded by General Primo Rivera, has arrived here. He received a popular ovation and has been granted a special audience by the queen regent.

#### MANITOU.

William Garst and wife, of Denver, are stopping at the Barker for a short visit.

George W. Bonnell, city passenger agent of the Burlington road at Lincoln, Neb., is a guest at the Barker.

Mr. Harry Parker has returned from a recent business trip to St. Louis and expects to make another trip about the latter part of this week.

Mr. and Mrs. R. Somers Hayes, of New York, and Miss Barnes and Miss Bean are a prominent party who arrived in Manitou yesterday in a private car, and will be guests at the Cliff house for a few days.

Mr. A. B. Schmidt, city passenger agent of the Burlington road at Denver, and Mr. N. H. Loomis, a prominent railway man of Topeka, were guests at the Cliff house yesterday. They were accompanied by Miss Alice Cady.

Mrs. L. D. Garth and Miss Elizabeth Garth, of St. Louis, will arrive in Manitou today and will remain at the Cliff house some time. These ladies are well-known in the St. Louis society and are just returning home from a trip around the world. They have been at Glenwood Springs several days, but will make a more extended visit in Manitou.

A special meeting was held by the city council Saturday night, and a liquor license was granted to the Mann Bros. for a saloon in the building just east of the Barker hotel. The three hold-over members of the council voted "no," and the new members voted "aye." Mayor Lewis casting the deciding vote. This will probably settle the Manitou fight, for the present, at least.

The party of newspaper people from Texas, who arrived here Saturday, made a trip to Pike's Peak on the Cog road yesterday morning and in the afternoon they took a special rapid transit car to the Printers' home in Colorado Springs. Saturday afternoon they went to the Garden of the Gods and Glen Eyrie. They leave for Denver in the morning, and from there they will go to Leadville and other points in the state.

#### HIGH SCHOOL NOTES.

Dr. Lyman of Minneapolis visited the school on last Wednesday.

All seem to unite in complimenting the battalion on the excellent showing made in the big parade of last Tuesday.

The High school chorus and the double quartette made their first appearance at the contest on Friday night. The numbers of both organizations were well received.

A force of men are at work cutting stone for curbing and preparing the grounds for sowing grass seed. Soon the unsightly campus will be turned into a beautiful lawn. Patience has its reward.

Only one week more and the question will be settled as to which school will be the proud possessor of the championship banner. The High School team has been doing earnest, faithful work.

Miss Sadie Vaux presented a handsome banner to the second class. It is made of silk, in the class colors of crimson and black. The banner is trimmed with rich gold fringe and the front bears the inscription, "class of '98."

The second class spent a part of Saturday at Spring grove, the suburban home of Miss Grace Finley. From all reports the jolly juniors were out in force and had their usual good time, for Miss Finley is known to be a clever hostess.

Professor Parsons spent Thursday morning at school. He "interviewed" all the seniors by the interests of Colorado College. As a result of his winning smiles and words many of the graduating class will enter that popular institution next fall.

The visiting teams of the Colorado Inter-scholastic Athletic association will be given a dance on the evening of the 22nd inst. Invitations are out and undoubtedly a large crowd will be present. The schools of Denver and Pueblo will run excursions on that day and many of the representatives will probably remain over to attend the hop.

Favorable action is reported by Pueblo and Boulder regarding the formation of a state high school cadet regiment. If Denver will agree to the plan, several hundred cadets will go into camp at Palmer Lake as soon as school is out. Major Spinnery, Captain Steele and Lieutenant Gowdy have been appointed a committee to take further action regarding the matter.

## WAYS UP TO TIME

And keep always pace with progressive ideas. Our clothes, our styles, our fitting, our workrooms, our windows, our designers, our establishments, our finished garments, all illustrate how we keep up with the times, how we progress. You will find men of fashion well dressed and proudly wearing our

admission been W. Gill, of Chicago, of the interior of the building and arrangements of the building is a great building with its extensive and valuable exhibits will be formally opened tomorrow morning at 11 o'clock. An immense attendance is expected at the interesting displays the government has sent.

#### The Week's Programme.

The programme for the week is full of special features.

Monday in the Woman's building, the women's musical congress will begin sessions lasting three days and many noted musicians are coming to the conventions.

Tuesday is spent for the United Order of the Golden Cross, with the supreme commandery of delegates from 25 states.

Wednesday is Tennessee Bankers' day.

Thursday is Wilmington, N. C., day, and Saturday the International Order of King's Daughters will hold a convocation in the Woman's building.

Wednesday in the Woman's building, there will be held a college day convocation, in which many colleges devoted to the education of women will be represented by graduates who will speak.

The railway exhibits are being added to daily, the latest addition being the old De Witt Clinton locomotive with tender and three coaches which have been loaned to the Nashville, Chattanooga & St. Louis railway by the New York Central. This exhibit is highly appreciated and is eagerly sought for.

About 20,000 people attended yesterday and night.

#### TWO SISTERS DROWNED.

#### Small Pleasure Steamer Capsized on the Schuylkill River.

Philadelphia, May 16.—Mrs. Jas. Ewen and Jessie and Eleanor E. Davis, sisters, aged 10 and eight respectively, were drowned late yesterday afternoon in the Schuylkill river through the capsizing of a small pleasure steamer. The 12 other occupants of the boat were also thrown into the river, but were rescued by a boat from the shore. The steamer was the small launch David W. Sellers and had been engaged in taking out passengers to witness from the river the exercises and military parade in connection with the Washington monument dedication. The little steamer got beyond the control of those in charge and drifted to the dam across the river at the Fairmount water works.

The strong current then swept the boat over the dam, and it capsized as it went over. The 15 persons were precipitated into the swift current and the three persons named were swept away. Their bodies have not been recovered. The accident was witnessed by thousands of people on the shores and a number of row boats were quickly manned and put out to the scene. Twelve persons were rescued, and whether any others were drowned in addition to the women and two children, is not yet definitely known.

#### Monument to Maria Theresa.

Prestburg, Hungary, May 16.—The Emperor Francis Joseph as the King of Hungary, arrived here today to unveil the Maria Theresa monument. The ceremony was performed in the presence of an immense gathering, which included many of the great nobles of the kingdom and deputations from all the principal towns. The most magnificent music was played. The king went at the head of a procession to the hill, where the former kings of Hungary were crowned. This is the site of the monument, a beautiful work of art. The unveiling was followed by a brief speech by his majesty who then received an address from a large number of the delegation.

#### Indians Make Peace.

Guaymas, Mex., May 17.—With all the pomp and circumstance of war, 800 Indian warriors, veterans of 15 years' fighting with Mexico, marched into the little town of Ortiz to make peace. A treaty of peace, the main points of which were agreed upon some time ago by Juan Matosado, chief Tetabiate's civilized name,

Since time immemorial red hair has been the object of ill-humored jokes—just why no one seems to know, unless it be the San Francisco Examiner. And yet, despite the popular prejudice against auburn locks, there are few things more beautiful than a woman with such hair.

Red-headed women have played prominent parts in the world's history and have caused many a kingdom to tremble and even fall. Helen of Troy was red-haired, and she certainly caused trouble enough for the Greeks. Catherine I., Empress of Russia, Joan of Arc, Elizabeth of England, Mary Stuart, Anne of Austria, Lucretia Borgia and Beatrice Cenci had red hair and all are famous.

Nevertheless, it is a curious fact that in all ages there has been aversion to hair of this hue. Red hair has always been considered the color of war and bloodshed, and the cruellest gods of savage races have always been adorned with red topknots.

The ancient Egyptians were violently opposed to red hair and once a year burned a maiden of this description in the hope of exterminating or lessening what they considered a curse.

In Spain red hair is abhorred on the ground that it is "Judas hair." Among some savage races red hair is held in great esteem, especially among the Alaskan tribes.

In New Zealand a red-headed woman is considered as on the right road to paradise.

Students of red-hairology say that a woman thus adorned is more cruel, fiercer, more sceptical and more ambitious than a woman having other color hair. Whatever truth there may be in this, it is a fact that red-haired women have a strange fascination for most men, and red-headed old maids are almost unknown.

#### Fell Over a Precipice.

Denver, May 16.—A special to the New Ouray, Colo., says:

A man giving his name as Lang, who claimed to have a brother operating a mine near here, was instantly killed by

#### Stamps on the Inside.

Mexico, May 16.—Spaniards here, having adopted the device of placing special stamps on their letters in addition to the regular postage stamps, are now being held to provide money for the Spanish cause in Cuba, it has been ordered by the postoffice department that such extra stamps be placed inside the letters and not on the envelopes.

PRODUCTION AND DISTRIBUTION.

It is worth keeping constantly in mind that Colorado Springs is not dependent upon the mining stock business for its prosperity.

So long as gold remains a standard of value to the civilized nations of the world, each ounce of the precious metal brought from the hills will be worth just exactly so much.

Nor can the value of the product of the mines be affected by that litigation which now appears to be the bete noire of the mining investor.

the inflammable religious character of the Turk is worth watching at this time.

The famous sentence uttered by Bismarck May 10 to the torch light paraders who did him the honor to congratulate him upon his recovery, will be remembered and quoted for years to come.

Zanesville, O., is in a delicate position. It is used for \$10,000 damages for the careless disposition of the bones of two of its former inhabitants who happened to be buried in 1833 and 1835.

That South America needs us is apparent from the cargoes of two vessels which recently cleared New York.

It would seem that Uncle Sam had tired to a degree of having so many men-of-war steaming in all the waters of the world.

Late reports declare that the bubonic plague has reached the Chinese frontier.

KINNEAR'S CAPERS

He Creates a Scene at the First Methodist Church.

ARRESTED AND IN JAIL

The Man Who Wanted to Read His Own Death Notice Secured More Notoriety—Tried to Regain Possession of His Daughter, but the Girl is of Age and will have Nothing to do with Her Father—He is Charged with Disturbance.

John Kinneer, the irrepressible, managed to create another sensation last evening at the First Methodist church on Kiowa and Weber streets, and as a consequence the hero of several recent escapades which gave him a lot of newspaper notoriety, is now languishing behind the bars in the city prison.

Kinneer will be remembered as the man who wanted to read his own obituary a few weeks ago and was the author of a sensational notice to the effect that he had been kicked to death by a mule. This statement he sent down to the Gazette office, but investigation proved that his story was a fake.

It was reported a few days later that Kinneer had been treating his children badly, especially his 18-year-old daughter, Mr. Francis Hill of the Humane society, looked into the case and took the girl away and procured a home for her where she remained for several days until her father discovered her whereabouts when he worried her so much that she could not remain.

It seems that Kinneer was anxious to have the girl return to his home and she did not care too as he was drinking heavily and was very brutal. The girl secured another home with Mr. J. G. Cadle at 40 East Stillman street, and the father was unable to locate her for some time. All the time, however, John Kinneer was making a still hunt for his daughter and last night he learned that she was attending divine services at the First M. E. church on Kiowa and North Weber streets. He seemed determined to regain possession of her and although the girl is of age this did not deter him.

When he arrived at the church several gentlemen who knew him immediately saw that he was very much excited and seeing the girl inside guessed the cause. He was persuaded not to enter the house and was advised to go away but he continued to hang around until the services were concluded. As his daughter was coming through the doorway he grabbed her and endeavored to make her go with him. The girl screamed but the man persisted in his efforts until several of the members of the congregation pulled him away.

A messenger was dispatched to police headquarters and Captain Henry immediately responded, but when he arrived on the scene the foxy Kinneer had disappeared, going east on Pike's Peak avenue.

Kinneer was evidently not satisfied with the scene he had created at the church and craved more notoriety, so he went to the house of Mr. Cadle on East Stillman street and again endeavored to get possession of his daughter. Officer Burch was notified by Mr. Cadle and the messenger, Kinneer was arrested in the city jail, and the privilege of telling just how it all happened in Judge Owen's court this morning.

AN OBSTREPEROUS LAD.

Officer Rodney strikes a Tough One in Joe Lard.

Joe Lard, an old offender, imbibed a goodly amount of "bug juice" yesterday afternoon, and he was creating quite a disturbance on the Rio Grande tracks. Officer Rodney attempted to run him in. The offender found that he had struck a tough proposition, as Lard was disposed of a very ugly and drew a knife, but the lad gotten him to Nevada avenue, when he met Oer Soldier, who assisted him in getting to the station house.

When the officer reached, Lard was becoming decidedly obstreperous, and it required the combined efforts of several officers to get him up stairs. Lard was taken from the chain gang Saturday morning, but he will now have an opportunity to serve out his 30 day sentence.

can best further the interests of civilization. Mrs. Whytal has, however, an independent, and a northern girl, during the morning of the war. The character is light-souled, type in the earlier scenes, but develops many opportunities for heroism and passion.

As its name indicates, "For Fair Virginia" is a story of life in the "Old Dominion" during war times. It is not, however, a melodrama dealing with impossible attempts to rescue more than a battle and siege. The plot deals with two delightful love stories, which are alternately developed and retarded by the events of the war, just enough to keep being used to furnish exciting and thrilling climaxes to the various acts.

THE FIRST SERMON.

Preached by Rev. C. P. Mason Yesterday in the First Methodist Episcopal Church.

Rev. C. P. Mason, late of New Haven, Conn., and who has been installed as pastor in the First Methodist Episcopal church, vice Rev. Crane, preached his first sermon yesterday. His theme was "Faith's Experience and Assurance."

For us to fully appreciate this bold and confident expression of St. Paul, we must not only analyze the meaning of the words and ascertain their doctrinal significance, but also enter into his personal difficulties and circumstances and take our place beside him in the Roman prison.

Surely these last utterances of a man on the verge of martyrdom have more weight than the early boast of an enthusiast or the promise of some young convert to a great cause.

Some of the striking statements and confident assertions of the apostle in his earlier life, such as "I count all things but loss for the excellency of the knowledge of the Lord Jesus my Lord; when I forbid I should glory save in the cross of our Lord Jesus Christ" may be toned down in our estimation and we may sit in judgment on them, saying, "May not these be the boast of an enthusiast, whose zeal may be tempered by trial and cooled by time, 'Let us try him, then believe him.'"

Not so with our text. It is not the boast of a new recruit, but the solid conclusion of a tried life in the face of death; the retrospect of an old warrior, a soldier who has been in the front of an eventful history; the outlook from the verge of time into the promised glory.

Paul's fervor and enthusiasm are as fresh as the morning dew on the day when he first preached Christ in the synagogue of Damascus. There is no cessation in the fervency with which he carries out the purpose of his life. Let us be satisfied with his choice. He has no wavering or wavering faith or declining hopes. The veteran falls on the field of his duty.

Here is the sober judgment and calm verdict of this eventful life on the verge of death, "I know," etc.

We have here two leading thoughts suggested, viz: 1st, Experience; "I know whom I have believed"; and 2d, Assurance; "I am persuaded," etc., etc.

I Paul's Experience—Assurance has a reference to the future and is found in "persuasion," but experience has a reference to the past, and is founded on faith, rising into certainty or knowledge; "I know whom I have believed." Let us observe some very essential truths taught us by this concise yet wonderfully suggestive sentence.

First, Faith is the primary element in the Christian life. Belief is the fundamental principle and the condition of all personal knowledge and of personal salvation. "He that cometh to God must believe that He is; 'I know whom I have believed.'" You see by this text that belief is a primary element in Christian experience and life.

Japan's Railway Here.

PRaises the WONDERFUL FEAT

J. Y. Mori, of the Nippon Railway, in the Mikado's Kingdom, in a Special Train to the Summit—Formerly Minister to the United States—Touring Now with a Corps of Engineers.

J. Y. Mori, vice president of the Nippon Railway company of Japan, and for a number of years minister from the Mikado's country to Washington, made a trip to the summit of Pike's Peak yesterday afternoon in a special train on the Cog road.

Mr. Mori is 50 years of age, and speaks English fluently. He has been touring America for some time, accompanied by a party of engineers, who came to this country for the purpose of examining the latest improvements in the railway world, and also the mining and smelter interests.

Mr. Mori was enthusiastic in his praises of the great engineering feat which was accomplished by the construction of the Cog road, and in a short time expects to return and again make the trip with the other members of his party.

"Railroad building is progressing steadily in Japan," said he in the course of a conversation yesterday. "Our roads are narrow gauge, and are operated in the European style, but we are open to receive improvements, and I have no doubt will gain valuable pointers on the present journey. Japan has 8,000 miles of railway in operation and the country is quite prosperous at the present time. We are building war vessels as fast as our finances will allow, but Japan is a small country, and cannot hope to keep pace with such countries as the United States, China and Russia, are competing vigorously for our trade, and we must keep wide awake if we continue in the advancement which has been made within the last few years."

Trail Creek District. Gold Fields Owned by British Columbia Give Great Promise—Former Cripple Creek Mining Man's Opinion.

Mr. E. C. Thurshy-Pelham, who has been absent from Colorado Springs for 12 months, three of which he spent in England and which has been in town for the last couple of days. He returns to Rosland, B. C., today, and was seen by a Gazette representative yesterday regarding that district.

Mr. Pelham has just returned from England, where he has spent the last few months about "off" the Trail Creek district, he will return there to look after his own and the interests of others. He said:

"The general prospecting season in that part of British Columbia, which I know opens about April 1 and continues until October 31. Of course, prospecting goes on the year round, but I am now talking particularly of the Rosland district, which covers, roughly estimating it, 15 miles one way and about 10 the other."

"Are the principal mines located at Rosland?" was asked.

"No, Rosland is the chief town for the Trail Creek district, and while the great producers are not in Rosland proper, they are in the immediate vicinity, yet there are other heavy shippers, far from this newly-created seat of civilization, and far beyond the 15 and 10-mile limit I have mentioned. In fact, the whole country so far prospecting is a rich mineral region, many vague ideas exist as to the roughness of the territory. Of course, like all mining camps, outside of the immediate center, one encounters a few hardships, yet I believe in the Trail Creek district these inconveniences are reduced to the minimum. It is not a difficult country to reach, as it is in an excellent position of entrance and this is reached by modern railroads, from this Custom House terminal one has but to ride to the coast, and then to the district, and were doing remarkably well."

AN \$8,000 BLAZE.

The Little Town of Seward on the Cheyenne Mountain Road the Scene of a Big Fire.

A disastrous fire occurred a few miles beyond the half way house on the Cheyenne mountain road last Friday night, but the details were not learned until Mr. W. S. Garber came down early yesterday morning.

A large 11-room house belonging to Mr. B. McNeeney at Seward, a little place two miles beyond the Beaver Park hotel, was completely destroyed by fire and the postoffice building next door, a commodious log structure, also went up in smoke.

Mr. McNeeney had recently erected his house and intended to use it during the summer as a hotel. Mr. Garber, who is engaged in the sawmill business at Seward and lost his furniture and a valuable library.

Mr. Garber estimates his loss at \$500 with \$100 insurance. Mr. McNeeney's loss on the building was \$500 with \$200 insurance. The postoffice building was owned by Mr. Swink and the loss approximately \$500.

The fire is supposed to be of incendiary origin but no clue to the perpetrators could be obtained.

There is quite an aggregation of Denver mining talent on the road these days. Mr. E. B. Smith left for New York yesterday, and is bound for England and Scotland; Mr. H. Moffat is in New York, as also is Mr. N. H. Cone, the manager of the Victor mine. Mr. R. H. Reid, the secretary of the Anaconda company, is in France.

The Colorado Springs Mining Stock association hereafter will begin the call at 10:30 a. m., instead of 10 o'clock.

Greatly to the disgust of the good people of Brussels, their international exhibition, as usual, was so far from ready on the day officially fixed for the opening that the latter had to be postponed, and under the circumstances, the king and royal family were unable to take part in the ceremonies. The same thing has happened with every show of this kind held in Belgium, and has invariably marred the success of the affair. The Belgian government has determined to hold an international colonial congress at Brussels in connection with the exhibition in the middle of July next, and has already sent out invitations to the foreign powers.

Parties desiring to rent camp Duquesne for the season should apply to Dr. Bell, Gazette building, immediately.

I have a treatment which will permanently remove deep wrinkles and small pock pits in 10 days time. It makes absolutely no difference how old the person or how deep the wrinkles or pock pits. The work is wonderful and I guarantee to affect a cure, leaving the skin clear and smooth. I will be pleased to have you see and talk with ladies whom I have treated. Inquire of Miss A. F. McIntyre, Kiowa street, Colorado Springs. Miss F. M. Harrell, 624 South Cascade street, Denver.

Plain talk to Plain People.....

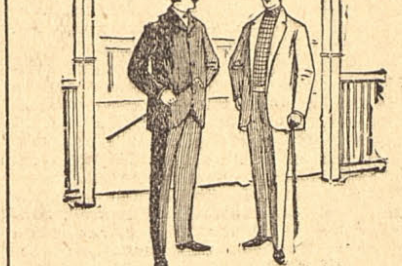

Chimney Fadden said: "There are other pebbles on the beach" and Fadden's Celyery Compound is not the only spring medicine. We make a Kola Celyery Compound that is not a substitute, but is much better and costs 75 cents for a \$1.00 bottle. Try it for that tired feeling.

AND THERE ARE OTHER SHIRTS IN THE LAUNDRY.

If you are sick call your physician, let him prescribe, bring the prescription to us. We do not substitute for the sake of a few pennies. Our prices are not learned until you try our trade and mean to get it by giving you the best goods for the least money.

HAIF

TUNNELS ON TOP

So Far as Their Fight With Lode Claims is Concerned.

THE SUPREME COURT SAYS SO

The Decision Has Caused Something Like Consternation Among the Lode Mining Men—Tunnel Owners are Jubilant—It Will Be Widespread in Effect—Various Comments on the Law—Tunnel Site Apparently Superior to a Patented Group of Claims.

The supreme court has affirmed the decision of the circuit court of appeals in the case of the Enterprise Mining company versus the Rico-Aspen Consolidated Mining company. The suit originated in Colorado, and involved the question of the rights of tunnel site locators.

"Surely it is not strange that congress deemed it wise to offer some inducements for running a tunnel into the side of a mountain. At the same time it placed some specific limitations on the rights which the tunnel excavator could acquire. He could acquire no veins which had heretofore been discovered from the surface. His right reached only to blind veins, as they may be called, veins not known to exist and not discovered from the surface before he commenced this tunnel. It required reasonable diligence in the prosecution of his work. It placed a limit in 3000 feet beyond which he might not go in his search for veins and acquire any rights under his tunnel location and the veins to which he might acquire any rights were those which the tunnel itself crossed. We think, therefore, that the right to a vein discovered in the tunnel dates by relation back to the time of the location of the tunnel site, and also that the right of locating the claim to the vein arises upon its discovery in the tunnel and may be exercised by locating that claim the full length of 1500 feet on either side of the tunnel, or in such proportion thereof on either side as the locator may desire."

Justice Brewer says that act of the Colorado legislature of 1881, giving any persons working a tunnel 250 feet each way on every lode, has been superseded by congressional legislation.

The remaining question was whether the failure to reject the original application for patent on Vestal claim (Rico-Aspen) destroyed or impaired the group tunnel claim (Enterprise). The court holds that it did not. The court says in conclusion:

"Now, at the time the application for patent to the Vestal claim was presented and the proceedings had thereon, the defendant knew of no vein which would enable it to dispute the right of the owners of the Vestal to a patent. The Vestal claim, it will be perceived, runs parallel to the line of the tunnel and is distant therefrom some 500 feet. The presumption would be that the vein ran lengthwise and not crosswise of the claim as located, and such a vein would not, unless it radically changed its course, cross the line of the tunnel. Whether it did or not, or whether any other vein should be found in the tunnel which runs

based very largely upon the effect of the territorial statute enacted in 1861, which in effect limited the rights of a tunnel locator to 250 feet on each side of the line of the tunnel.

"The Enterprise company appealed from this decree to the United States court of appeals, and the appeal was argued at St. Louis early in January by C. S. Thomas and C. J. Hughes of counsel for the Rico-Aspen company, and by J. F. Valle and Charles H. Toll of counsel for the Enterprise company.

Importance Recognized. The importance of the case was recognized by the court of appeals, and extra time was given to the parties to the suit for argument, and the various questions involved in the appeal were very fully discussed. The opinion of the court is comprehensive and elaborate, and affords the first decision by the appellate court of many important questions involved in the sections of the congressional acts relating to tunnel rights.

On the Enterprise side the array of legal talent included Henry M. Tolier, Edward O. Wolcott, Joel F. Valle, Adair Wilson and Charles H. Toll, while the Rico-Aspen is represented by C. S. Thomas, C. J. Hughes, R. S. Morrison and Joan Kincaid.

The Decision of the Court. The decision of the court of appeals, which the supreme court affirms in every particular, is quite lengthy, but the following is a careful digest of it, taken from the report of the case itself, published in 99 Federal Reporter, at page 209:

1. TUNNEL MINING CLAIMS.—From the time of the location and commencement of his tunnel, under section 4 of the act of May 10, 1872 (revised statutes, sec. 2323), the owner has the inchoate right to the possession of every blind vein or lode within 3000 feet from the face of such tunnel on the line thereof, that was not known to exist when the tunnel was located and commenced, contingent only upon the diligent prosecution of the work on the tunnel and the subsequent discovery of the vein or lode therein.

2. SUBSEQUENT DISCOVERY FROM SURFACE.—No discovery or location of such veins or lodes from the surface subsequent to the location and commencement of the tunnel can deprive the owner of the tunnel claim, who diligently prosecutes his work therein, of these rights.

3. EXTENT OF CLAIM.—Upon the discovery of such a vein in the tunnel, while the work upon it is being prosecuted with reasonable diligence, such owner is entitled to the possession of such lode or vein to the same extent along the lode or vein as if discovered from the surface. He is entitled to the possession of any 1500 feet in continuous length along such lode or vein which includes his point of discovery in the tunnel. The limitation of the extent of the possession of any 1500 feet in continuous length along such lode or vein discovered therein to 250 feet each way from the tunnel, imposed by section 5 of the act passed by the Colorado legislature in 1881 (session laws Colorado, 1881, page 168; Mills, Ann. St., sec. 3141), was approved by the act of congress of May 10, 1872 (17 St. 92, c. 152), and the act of the legislature of Colorado of 1874 (session laws of Colorado, pages 185, 187, 190; Mills' Ann. St., sec. 3148).

4. ADVISE CLAIM—ESTOPPEL.—It is the duty of the owner of the tunnel claim to present and litigate his adverse claim to any such blind vein or lode that has been discovered and is known to exist within the mining claim located from the surface when the owners of the latter make application for their patent under sections 6 and 7 of said act (revised statutes, secs. 2325 and 2326); and if, in the absence of fraud or mistake, he fails to do so, his rights as against such claimants will be lost. When, however, the blind lode or vein is not known to exist, and has not been discovered when the ap-

mountain country. One well known miner and prospector who has made a fortune in opening up new veins in the Cripple Creek district said:

"If the extra session of congress passes no other law but the repeal of the tunnel site act, mining men of Colorado and the whole western country will believe that President McKinley was fully justified in calling the session. As it now stands, a half a dozen men can go into a mining camp and with tunnel site locations take in a section of country with an acreage of 120 full patented claims, provided each man restricts himself to one location. By custom it is understood that the tunnel has to have at least \$200 worth of work performed on it each year, or \$100 for each six months. This means about 30 feet of tunnel work. Wherever a tunnel of this kind is located, prospectors will steer clear of the territory through which it is surveyed. Any mining man or prospector will tell you that the discoveries made by tunnels are about 1 to 20, compared with surface diggings. The law is a detriment to all new camps, and will have a tendency to scare eastern and foreign investors looking for valuable lode claims in old mining camps."

Commenting upon the matter editorially the Denver Republican says that the decision rendered by the supreme court of the United States on Monday, affirming the judgment rendered by the court of appeals in the case of the Enterprise vs. the Rico-Aspen Consolidated, to the effect that tunnel owners possess a legal right to all previously undiscovered mining lodes which they may cross for a distance of 3000 feet from the mouth of the tunnel, disposes of the main cause of a great deal of vexatious mining litigation. When the case was first brought in Colorado Judge Hallett decided in favor of the Rico-Aspen Consolidated, to the effect that tunnel owners possess a legal right to all previously undiscovered mining lodes which they may cross for a distance of 3000 feet from the mouth of the tunnel, disposes of the main cause of a great deal of vexatious mining litigation.

Under the law as it is thus expounded the locator of a tunnel has a lawful right to locate a full mining claim 1500 feet long by 500 feet wide on any blind lode that may be traversed by his tunnel, provided he uses due diligence in pushing the work of excavation.

All mineral lodes discovered through vertical excavation prior to the location of the tunnel site are exempt from the operations of this law, but those undiscovered at the time of the location of the tunnel site are subject to the conditions defined by the courts, even though surface locations may have been made before the tunnel was begun.

It is possible that this final interpretation of the law may unfavorably affect the value of some surface claims in the Cripple Creek district, and possibly also in some other mining camps of Colorado, but there is no appeal from the decision of the supreme court of the United States, and unless that tribunal may feel moved to grant a rehearing, ending in a reversal of its latest decision on the subject, all contentions between owners of tunnels and owners of surface claims must be settled in accordance with the judgment rendered on Monday.

FACTS GEOLOGICAL. Presented by William P. Bonbright & Co. in Their Weekly Market Letter.

In their report of the week Messrs. W. P. Bonbright & Co. say:

In our last letter we expressed the conviction that Cripple Creek would justify in her subsequent history all reasonable expectations. This belief is based upon the results of the development which has been in progress during the past year and in particular during the

growth of an industry of vast extent and commanding importance, and one offering larger opportunities for profit than any other of which we have knowledge. Cripple Creek is entering upon a new era and one full of promise. Bonanza discoveries will indeed continue, and fortunes will still be quickly made by the lucky owner or lessee; but the effect of these upon the growth of the district will become relatively less as time goes on, and gradually they will be overshadowed by the greater importance of the steady every-day business of the mining and milling of the vast bodies of the medium and low grades and the richer basic ores which the deeper levels may be expected to furnish.

The most important event of the week as affecting the mining industry not only of Colorado but of the entire country, was the decision handed down on Monday last by the supreme court of the United States in a celebrated mining case. This action affirms the decision of the United States court of appeals rendered last summer in the case of the Enterprise Mining company against the Rico-Aspen Consolidated Mining company, and seems to give to tunnel sites a very decided advantage over surface locations in cases of conflict. The text of the decision has not yet been received in Colorado, hence its full force and effect cannot as yet be measured.

FROM THE RED RIVER.

Colorado Springs Men Visit the New Mining District—A Good Camp. R. P. Davis, F. H. Pettigall and W. V. Postelthwaite have returned to Colorado Springs from a trip to the new gold fields of Red River City, New Mexico.

MONDAY HINTS FOR THE HOUSE-WIFE.

Baked Roast with Tomato Dressing. Place in a saucpan half a can of tomatoes and a cupful of stock; add one tablespoonful of butter, six pepper corns, one slice of onion, a bay leaf, and some salt. Let these ingredients simmer over a slow fire fifteen minutes.

on a canoe quite as beautiful as any in Colorado. It crosses the Red river by ford some 15 times before the city of Red River is reached. The time occupied in making the entire distance is usually 10 hours; and when several contemplated improvements are made in the road the time and distance will be shortened materially.

sugar, pour in the mixture and bake. When done, leave them till cold, then scoop out a portion from each cake, fill up the cavity with strawberries, peaches, or any kind of fruit one fancies. Pile on a good whipped cream, and serve them cold.—(Good House-keeping.)

commodities in any of our larger cities on the lines of the railroads. At present the supply of fresh meat is scarcely sufficient to meet the demand but this difficulty will doubtless soon be remedied. The town has a population of fully 600 persons and this number is being constantly increased by new arrivals.

and then Paul became acquainted with Christ. He knew Him as the Messiah and his personal Savior. They were made friends, and never separated after that. Christ was his inspiration, his love, his all. Christ was to him a living presence, the beginning and end of his thoughts, even in his heart and all ways on his lips.

whispered to love. Carelessness lives, love is not Christian sentimentality. He must mingle them with the world from them. He must relieve the terrible picture on the occasion.

Yet in the same speech, he says: "Death is the great mystery which shrouds this world. Out on the wide waste seas there drifts no spar—over the desert of death the spinnax gazes forever but never speaks."

Let us observe this phraseology and the points suggested thereby. Here are five facts stated which I will briefly rehearse:

1st. The Reasonable and Satisfactory Conviction in Paul's Mind Which He Calls "Persuasion." Not a mere opinion as to the future, not simply hope, not even faith, but a conviction based upon arguments. Hence he says, "I am persuaded." I have testimony sufficient to convince me. I have hope for my faith, my judgment is based on evidence; my will moves in accordance with motives and I act without hesitation or misgiving or doubt.
