

JONES' GHOST DANCE

Norman C. of Manitou is Now Out After Scalps.

WARRANTS WERE SWORN OUT.

County Officials Accused of Impeding the Course of Law—Justice Finds an Ally in Jones—No Guilty Man Escape, Nor Boys, Says Jones.

Norman C. Jones of Manitou yesterday afternoon swore out warrants in Justice Walker's court for the arrest of a number of prominent county and court officials on charges of neglect of duty and blocking the execution of the criminal laws of the state by refusing to take action on certain complaints which he had made against a couple of boys, about 10 years old, in Manitou, whom Jones charged with having burglarized a house occupied by a tenant of his, and sealing therefrom a number of articles of value.

The warrants include County Commissioners Matthews, Parker and France, District Attorney Henry Blackmer, Marshal Frank Leonard of Manitou, Attorney Oscar Dickens and A. Brown of Manitou, and Mr. Jones says that one of the judges of the district court may possibly be brought into the matter.

Mr. Jones has prepared a voluminous complaint and affidavits, in which he sets forth that two boys named Herbert Dickens and Charley Brown entered the house occupied by a tenant, W. E. Peck, in Manitou, on or about the 11th day of June, 1897, and stole therefrom various articles of value. He swore out warrants before Justice of the Peace District Attorney Blackmer for the arrest of the boys. The warrants were placed in the hands of Marshal Frank Leonard, who arrested the boys, and after detaining them for some hours, released them without the knowledge or consent of the complainant. Mr. Jones further alleges in his sworn statement that Oscar Dickens, an uncle of one of the boys, and A. Brown, father of the other boy, then went to Mr. Peck and paid him a valuable consideration as an inducement to prevent him from prosecuting the cases in a court of justice.

Mr. Jones' exhibits and affidavits further set forth that properly sworn complaints were filed with District Attorney Blackmer, who returned them with the indorsement that he did not consider them proper cases for prosecution, and refused to take action. The complainant, however, the county commissioners is based on an order which they recently issued instructing justices of the peace in this city to "issue no warrants for felonies or misdemeanors, such as assaults, false pretenses, etc., not under your jurisdiction, except upon the order of the district attorney or his deputy, and then only on conditions that the prosecuting witness either advance costs or give bonds to pay them, and not without previous examination sufficient to show that the complaint is made in good faith and reasonable cause."

Mr. Jones claims that this is contrary to the intent of the statute, and that it is an attempt to block the cause of justice. Mr. Jones says that he proposes to push the matter to a finish and see that all offenders are punished, and the demands of justice are fully met.

THE LETTERS OF APPEAL.

President Slocum is Asked in the Most Eloquent Manner to Re-tain His Position Here.

In connection with the possible resignation of President Slocum of Oberlin college, Ohio, an article was printed some time ago in these columns stating that the chief executive of the big local seat of learning was not as yet prepared to decide as to what he would do in the matter. Last Monday the trustees of the college completed and presented the following letter of appeal to the popular and talented presiding officer:

Colorado Springs, Colo., June 28, 1897. Rev. William F. Slocum, D. D., President of Oberlin College:

As trustees of the college of which you are the honored and most efficient head we are not without a certain unselfish and abstract satisfaction in the fact that an institution of the age and strength and fame of Oberlin university has honored itself by giving you a unanimous call to its presidency. We are glad on general principles to see your worth and ability thus recognized. Such an occurrence is suited to increase our pride in you and our affection for you. But we desire most earnestly in the interests not only of Colorado college, but of the whole commonwealth of Colorado to express our hope that you will decline the invitation. Your departure would be an unspeakable calamity both to the college and the state. Your stay will be to both a blessing which will be gratefully remembered, and a calamity which will be justly mourned. Your departure would, in our judgment, gravely imperil and certainly long delay the attainment of interests greater than your own and those of the state. No man within our borders understands and appreciates that need better than yourself. But we desire at this juncture to put before you our deep and emphatic conviction that you are the man of all others best fitted by scholarship, by temperament, by executive ability and by long and valuable experience to administer the most important and sacred trust. We speak as trustees of the college who are in a position to know better than all others what your work has been and what you are. Your nine years of untiring, wise and singularly successful college administration coupled with labors manifold in many directions for the public welfare have won for you a name not too much to say a place in the respect and affection of the men and women of Colorado such as no other citizen has held. You stand now just upon the threshold of your work. Much as you have achieved, it is now in your power to achieve results far greater. You are now in position to do for the state of Colorado and for Colorado college what no other man could do. Your plough is so deep in the furrow and the field is such a field that you must not turn back. The hour is critical. It is an opportunity fraught with the greatest issues. We cannot believe that your duty is anywhere but here. With a faculty singularly able and harmonious, most of whom you have selected and all of whom you have trained, with a board of trustees who are as one man in their love for you and desire to cooperate with you and who work together with perfect unanimity, with a whole state believing in you and honoring you and determined to bring to you steadily and rapidly increasing measure the support and resources of all sorts that you will require in the development and growth of the college, we believe with absolute conviction that the place where your most original, unfettered, best and most fruitful work can be done is here. We feel that at Oberlin you can enlarge, improve and strengthen an institution already large and strong. You can add one more to the already large number of eastern colleges with a numerous clientele and an excellent curriculum. There "other men have labored and you can enter into the fruits of their labors. But here you can in independence and with many and sympathetic helpers create, and create the best type for other such colleges in the new west in the years to come. In conclusion, let us say that, if, as we trust, you shall count it the part of duty and of wisdom to decline the flattering invitation which has come to you unaccounted, we as trustees of Colorado college severally and all pledge ourselves to a cordial

and earnest co-operation with you in ministering toward that future growth and prosperity of the college which your continuance in its presidency will do so much to ensure.

By order of the board, George H. Parsons, Secretary.

From the Faculty.

Dr. Wm. F. Slocum, President Colorado College: Dear President Slocum—In view of the action of the trustees and faculty of Oberlin university, calling you to the presidency of that institution, we, your faculty, wish to join our entreaties with those of the whole state of Colorado, to ask you to stay with us.

With the trustees of Colorado college, the student-body and the state at large, we feel how virtually important to the best interests of the middle west are your devotion and activity as the head of our beloved college. But we, your faculty, have also a personal interest prompting us to do all in our power to retain you here. Your untiring successful activity in behalf of Colorado college has won our admiration, your loyalty and enthusiasm have inspired us in our work, your cordial friendship and sympathy have uplifted and strengthened us.

We love you too well to ask you to do anything that conflicts with your best interests and the high purposes of your life, but, if in any way you can reconcile these worth a refusal of the call that has come to you—stay with us and remain with us. Stay with us!

For the faculty, Louis A. E. Ahlers, Colorado Springs, Colo., June 30, 1897.

MILLS SHUT DOWN.

Failure to Adjust the Wage Scale the Cause of the Trouble.

Youngstown, O., June 30.—Every mill in the United States where wages are scaled are under the jurisdiction of the Amalgamated Association of iron, steel and tin workers, will shut down tonight. These mills altogether employ 25,000 members of the amalgamated association besides those who are not members. The general shut down will take place on account of the failure of the amalgamated scale committee and the manufacturers to agree to a puddling rate at the conference held here today. They were in session all afternoon and a deal was done further than the puddling rate. The committee held out for \$4.50 a ton for puddling and the manufacturers refused to budge from \$4.

Foul Play Suspected. Leadville, Colo., June 30.—John Gay, a well known miner, has mysteriously disappeared, and foul play is suspected. Gay lives in Half Moon gulch, 15 miles from Leadville, and left his cabin Thursday morning to visit a friend. Since that time he has not been seen. A month ago Gay and another prospector named Alexander had a quarrel over a claim, during which Gay severely beat his antagonist and was arrested. Alexander tells a peculiar story of having seen Gay on the morning of the disappearance staring across the ridge of a high mountain as though sick or crazy. This afternoon a sheriff's posse with blood hounds started out to trace the missing man.

Shortage in County Funds. Wichita, Kan., June 30.—It has become an open secret that a shortage of between \$2,000 and \$3,000 occurred in the county treasurer's office under the administration of John A. Doran, who died at Geuda Springs a few days ago. It has been found that \$4,000 paying tax paid in by the street railway company was never charged to the county treasurer and that Douglas avenue paving tax, illegally collected in the fall of 1894, and expected by the county commissioners to be returned, was neither returned nor otherwise accounted for.

Gambling Abolished. Great Falls, Mont., June 30.—At midnight the gambling law went into effect, abolishing a custom which has existed ever since the territory was formed.

Winsor Paupers' Jubilee. Winsor, England, June 30.—Today the aged poor of the district had their jubilee dinner and the queen, accompanied by Empress Frederick and Empress Henry of Prussia, drove unattended to visit them.

Refused the Mutton. Limerick, June 30.—The board of poor guardians of the city of Limerick has decided to refuse the mutton sent for the workhouse from Australia as part of the public hospital.

Beaten in Ten Rounds. Columbus, Ga., June 30.—Johnny Van Heest defeated Jack Daugherty of Cincinnati in ten rounds here tonight.

Both Were Drowned. New York, June 30.—The World tomorrow will publish the following: The annual excursion of the county Cork men was held yesterday, two barges being taken out by the tug Laura M. Starin.

There was a big crowd aboard and while off Bedlow Island Miss Nora Murphy fell overboard. Bartholomew Clancy to whom the young woman was affianced, jumped after her and both were drowned.

Declined the Position. Danville, Ill., June 30.—Colonel W. J. Calhoun, after consulting with his family and business associates, has decided to decline the position of comptroller of the treasury.

racing fever, and have fitted up a cart from a couple of buggy wheels and an axle, and are practicing so industriously that they hardly stop to eat or sleep.

Mr. and Mrs. Jackson Wood, father and mother of Mrs. J. M. Stewart, have arrived from Burlington, Kan., and are now visiting with their daughter in this city.

Paul McIntosh has returned from St. Louis, where he has been attending an educational institute for some time. He will spend his vacation here with his parents.

Guy C. Allen and family will leave this morning for California, where they will permanently reside. Mr. Allen is a brother of Marshal Allen, and has been in the employ of the Star grocery for a long time.

The new street signs to conform with the recent change made in the names by the city council have been placed in position on the street corners, and will relieve much of the confusion which has heretofore been experienced in the names of the streets.

The streets are numbered from east to west, beginning at First street, at the eastern limit, and running to Fourteenth, on the west. West street, at the postoffice, is now Fifth street, and so on to the western edge of town.

OUR MINERALS.

Undoubtedly one of the most interesting tables compiled for some time is that arranged by the Engineering and Mining Journal on the mineral production of the United States for 1896.

The Journal estimates the total value of our mineral production in 1896 at \$706,015,411, as compared with \$682,065,118 in 1895, the increase being \$23,950,293, or 3.5 per cent.

A SPLENDID SHOWING. It is without doubt a fact that the mining stock market in Denver is made, in great measure, by our own local organization and that credit from the business transacted here is reflected to the benefit of the Denver exchange.

Comments and Clippings. The first bicycle ever seen in Morocco is now astonishing the natives. The pioneer cyclist is an Englishman, who is obliged to the language of the country, as the roads in Morocco are very bad.

SPRIT OF THE TIMES. Noteworthy Opinions of Journals of the World. The protest of Japan. The protest of Japan against the Hawaiian treaty seems to be a more serious affair than was at first supposed.

OPENING OF THE INDIAN MINTS. The dispatch printed in these columns yesterday forecasting the re-opening of the Indian mints to the coinage of silver and other important concessions made by the English government to the demands of bimetallism, will be received with considerable doubt and hesitation in this country.

Comments and Clippings. It is believed that some of the camels imported in 1893 to run wild in Arizona are still in existence. Indians occasionally report having seen some, and lately the international boundary commission saw two with their spy glasses on the Mexican border.

Comments and Clippings. It does not appear that the authorities at West Point have recovered any of their stolen cannon, but they seem to have caught the thieves and checked the tendency of the neighbors to loot the parade ground.

Comments and Clippings. A famous restaurant in Vienna possesses a remarkable tablecloth, on which are inscribed the signatures of the majority of the reigning sovereigns of Europe, the members of the house of Hapsburg, and of the majority of the celebrities in art, music and letters.

Comments and Clippings. M. Berthelot, the chemist, who was foreign minister in M. Bourgeois' government, reports to the Academie des Sciences that the copper mines found at Nagadah and Abydos, in Egypt, by M. de Morgan are of pure copper and not of bronze.

Comments and Clippings. Part of the turf which covers the grave of Charles Stewart Parnell is to be brought to this country for the Irish-Americans of Newark, N. J.

BIG MASS MEETING

Christian Endeavorers Will Meet Tonight in the Temple Theater.

APPEAL FOR ACCOMMODATIONS.

Larger Crowds Will Come than Expected—Facts and Figures Show the Large Number of Visitors—Local Delegates Left Last Night—Prominent Men Will Speak Tonight—About 2,000 Visitors in Town Last Night.

Mr. George Rex Buckman, who left from New Mexico on Tuesday evening, arrived in La Junta yesterday morning. He wired back to Mr. F. E. Brooks that the advance contingents of Christian Endeavorers, whom he met en route, were vastly larger than anticipated. Mr. Brooks later received a letter from the ubiquitous and indefatigable laborer for the welfare of Colorado Springs—Mr. Buckman—in which some facts and figures were hastily mentioned. It was urged by the experienced convention worker that all who are interested in the continued prosperity of this city should list their vacant rooms with the chamber of commerce, No. 5 Pike's Peak avenue. There is an absolute necessity for lodging quarters and it will be remembered that during the Knights Templar convalescence the park benches had to afford accommodations for those who were unable to secure other facilities.

What to Expect. A repetition of this wretched state of affairs is to be avoided if possible. Mr. Buckman and Mr. Brooks argue, and they desire to state that in their opinion there will be as many visitors here during these two days as were in attendance during the Masonic convalescence.

The railroads report themselves nearly swamped. Most of these travelers have a place to sleep while passing through, but the eating facilities are going to be taxed to the utmost. The restaurants and hotels declare that they are prepared.

The first of the cheap rate excursionists to get in came on the Rock Island yesterday morning. The first section of the train was late, but it brought in about 200. The second section came a half hour later and brought as many more.

The first official delegation arrived on the Santa Fe. It was composed of the delegates from Kansas and Oklahoma, and there were five or six hundred. The trains were crowded to Denver and came back last night.

The Rio Grande has now 55 trains scheduled to arrive, and from that a slight idea of the enormous volume of travel may be obtained.

The Colorado Delegation. Yesterday evening the Colorado Endeavorers passed through this city at 11:25 o'clock. There were 400 in the train, and it took eight sleepers to accommodate them. There were two tourist sleepers and six Pullmans, one chair car and necessary baggage cars. It was necessary to divide the train and run it in two sections after leaving La Junta. The first section ran out at 11:35 o'clock from the Santa Fe depot, and the second followed close behind.

The local Endeavorers who are going will number about 75, and will occupy two cars. There were 280 from Denver on board.

Monster Mass Meeting. Tonight at the Temple theater a monster mass meeting will be held under the auspices of the local union, at which time it is expected that Father Endeavorer, Clark, Secretary Baer and Treasurer Shaw of the United Christian Endeavor societies will be present to address the audience. A number of prominent Christian Endeavorers from the United States and Canada will also be there.

President Chapman of the city union will preside. He has arranged a program that is entirely "Christian Endeavor" in sentiment and in strict keeping with the occasion.

Ex-State President Philip Barber has telegraphed Mr. Clark and party, but up to going to press had received no answer. He comes, and expects one this morning. At all events a rousing jubilation will be had and those who desire seats should go early and "avoid the rush."

Word has been received that Mr. Patterson, the prominent Canadian Christian worker, will be here by this evening and his well-known wit and eloquence will add materially to the enjoyment. Whoever the speakers are, they will be men of prominence and entertaining ability.

Sunrise Prayer Postponed. The sunrise prayer meeting, which was to have been held at 1:30 this morning, has been postponed until tomorrow (Friday) at the same hour. The place of the prayer meeting will be at the Union Mission chapel at the west end of the viaduct. A large number of visiting Endeavorers will be in attendance at these thanksgiving exercises.

THE SPECIAL TRAINS.

Christian Endeavorers Will Arrive and Depart on the Several Railroads in This City as Per This Schedule.

For the benefit of those interested, the railroad companies yesterday gave out the following schedule of arriving and departing trains:

D. & R. G. Trains. Chicago, arrives 6:45 a. m. July 1; leaves 9:45 a. m. July 2. New York, 15 cars, arrives 6 a. m. July 1; leaves 6:15 a. m. July 2. Iowa, 16 cars, arrives 12:30 p. m. July 1; leaves 8 p. m. July 2. Indiana, eight cars, arrives 11 a. m. July 1; leaves 8:45 a. m. July 2. Wisconsin, nine cars, arrives 2:30 p. m. July 1; leaves 8:15 p. m. July 2. NEWS OF THE COURTS.

Happenings on the Bench Outside of the Vaneck Trial in the First Division District Court.

Yesterday in the district court a suit for damages was filed by Dell F. Rhine, of Cripple Creek, against the Florence and Cripple Creek railroad. She asks for \$15,000 damages on account of an accident on the railroad and \$500 expended in medical attendance. The plaintiff alleges that on April 2, 1897, she bought a ticket from Victor to Cripple Creek. The car was overturned and she received injuries to her spine from which she is told she will never recover.

Police Court. For riding on the wrong side of the street Judge Pearson yesterday fined two people \$1.65 each. It was \$1 and costs, and the law was strictly adhered to by the boy magistrate.

SPECIALTY ARTISTS.

A Number of Them Have Been Engaged to Performances at the Hiawatha During the Season.

Colonel F. L. M. Smith, of the Hiawatha concert gardens at Manitou, is arranging for a number of attractive specialty artists for the entertainment of his guests, in addition to the famous Schreiber orchestra, which has been engaged for the entire season. One of the finest baritone singers in the country has just arrived, and is now numbered among the attractions and entertainers. He will be heard in a number of solos during each afternoon and evening concert, and will make a great hit with the public.

SANGER'S GREAT EFFORT.

He Will Try to Beat the Famous Pacing Stallion at Roswell Park This Afternoon.

Besides the chief attraction of today's Roswell park programme between Sanger and the pacing stallion, there will be a ride against time by McReynolds and Carruthers, the celebrated local tandem pair, and a one mile dash in which are entered Woods and Watson of Denver; Evans, Miller and Macomber, of Pueblo, and Shoup, Mathews, Wade, Smith and Vaux of this city. There will be a professional mile race in which Gamon, Banks, Mills, Himstreet, Maxwell Oudick and Hughes of Denver, and E. J. Smith and R. H. Kiteley of Colorado Springs will compete.

The judges will be Messrs. Hains, Osborne and Weber; timers, W. H. Wahl, Stratton and Blake. Clark of course will be L. A. Pease; starter, R. P. Earhardt; referee, Sam M. Dunoon.

The Colorado Midland band will play in its old familiar way and cheer the contestants on to great efforts.

This will all begin at 2:30 p. m. today. At about 1 o'clock there will be a parade in which Sanger will appear beside the great "Albatross."

SANGER INTERVIEWED.

He Looks and Talks Like a Record-Breaker and Is a Giant in Size.

Walter C. Sanger, the world's greatest bicycle rider, strolled into the Gazette local rooms last evening after dinner in company with his trainer. He is a strapping big fellow and of proportionate physique. For his size and remarkable record he is quite modest and reticent. With more or less difficulty he was drawn out of his shell and an interesting talk ensued.

He said he considered Hamilton, of Denver, a better man now than Hachenberger. "Hach" rides all over the track and wobbles considerably. Sanger says he had no difficulty in winning the recent race. On the 16th of July the big wheelman will ride to break all records for a mile, and if any of the fast men of Denver wish a race he will be glad to accommodate them.

As for the horse against man race, he thinks he can and will come out the victor. Sanger will be handicapped, however, on the horse track, which is by no means as smooth and firm as the inner cycle course and the scoring of the pacer may in some measure cut up the stretch to the former's discomfort.

Sanger will wear spectacles today to keep the dust or dirt thrown up by the stallion from blowing into his eyes. The best records of the two make a close comparison with the chances of success in favor of the steed. Sanger has ridden a half mile in 20 seconds, while the horse has a mark of 53 1/2 seconds. The bicyclist, however, made his record on a bicycle track, which is always far better for wheel speed than the Roswell horse course.

The circuit, it is said, will hug the pole for dear life, and Sanger will have to look out or an accident will occur. He is calculating on letting the stallion pace him to the stretch, where he will try to cover and come under the wire ahead.

Casino Programme.

Afternoon. 1. March—"Flotter Studio."Fahrbach 2. Overture—"Marriage of Figaro."Mozart 3. "L'Air de la Valse."Ellenberger 4. Waltz—"El Turin."Grammel 5. Selection—"Martha."Flotow 6. Violin SoloHof F. Stark 7. "Pizzicato Polka."Strauss 8. "Cujus Animam" from "Strabat Mater."Rossini Evening Dance. The verandah of the Casino on fine evenings remind one strongly of the Boulevard cafes in Paris. Seated at the daintily-spread tables out in the open air, are many jolly parties who chat and enjoy life in a manner approaching that of the swell Parisians. The eastern verandah is generally free from the evening breezes and the music has an added charm in the night air.

LEW VANECK GUILTY

As Judged by the Jury in the Celebrated Case

OF BURGLARY WITHOUT FORCE

Not Guilty in Larceny Nor in Burglary with Force—The Jury were Out About Three Hours—The Prosecution's Strong Appeal for a Conviction—The Prisoner's Calm Demeanor.

In the Vaneck trial the jury came in last night at 8:30 with a verdict of "not guilty of larceny nor burglary with force, but guilty of burglary without force," and which means that the daring desperado will be sentenced by Judge Lunt to serve a term in the penitentiary anywhere from one to ten years.

The fact of the crime being committed without force makes no difference as far as the law is concerned. It may influence the judge to leniency, however. Judge Lunt has been rather easy of late with the prisoners before him, and a sentence which will probably be given next week is looked forward to with much interest.

The testimony in the trial of Lew Vaneck, charged with stealing powder, was concluded in the district court in the afternoon and the arguments were immediately begun. In the morning the state concluded its evidence, and after dinner the defense began a general denial and a claim that Vaneck was being convicted through a conspiracy of the sheriff's office and H. C. Aiken, the Pinkerton detective.

Lew Vaneck took the stand in his own behalf and denied everything that Aiken had said. He admitted going to Cripple Creek on a load of powder with Aiken, but said that Aiken took it and did not know that it was stolen. He denied being the author of certain letters presented in the court, one of which was to a man named Pearson at Victor, and which arranged the story he told in the defense of Vaneck.

Attorney Brown took the stand also in his client's behalf. Sheriff Boynton was called in rebuttal and a very lively fight ensued between him and Attorney Brown, as the lawyer wanted to know if the sheriff accused him of carrying letters out of jail for prisoners.

Assistant District Attorney McAllister opened with an eloquent summing up of the evidence. Attorney Brown's defense was scarcely to the point. He was overruled and referred to other cases both high and low within his knowledge. This may be accounted for in the fact that he claimed that he was not ready to defend his client because of the leading article in King, his law partner, who was more conversant with the case.

District Attorney Blackmer closed for the people in an address marked with fire and stirring references to the undoubted guilt of Vaneck, and although objected to in some of his more graphic speeches by Attorney Brown, which remains in some instances were ruled out by the judge, succeeded in convincing the jury of the justification of his cause.

An interesting sequel to the threat of Bob Taylor, one of the accomplices in the Florence and Cripple Creek train hold-up two years ago, is expected. Taylor, Vaneck's turning state's evidence, swore he would kill Lew when he was again free. Now that they are in the same institution, they are being kept together, there may be a chance for them to meet face to face and have the bad blood wiped out. Kid Wallace, another of the gang, is also in Canon City and he, too, is said to be quite unfriendly disposed towards the recently convicted man.

SAN JUAN EXCURSION.

The Mammoth Pleasure Trip of the Y. M. C. A. Over 1,000 Miles of the Finest Scenery in the World.

A San Juan circle excursion has been planned by the Y. M. C. A. association of Denver, and the Denver and Rio Grande railroad company. The correspondence which has passed between the two promoters best describes the general plan of this whole and extraordinary excursion.

Mr. Hobbs telephoned The Gazette yesterday that the special would stop at Colorado Springs to take on those who would join the tour from this section. "The Denver and Rio Grande Railroad Company."

"June 28, 1897. "Mr. C. M. Hobbs, Chairman Executive Committee Y. M. C. A., Denver, Colo. "Dear Sir:—Referring to our conversation with President Jeffrey in regard to an excursion to be run in the interest of the Young Men's Christian association of the city of Denver for the purpose of assisting in raising funds to liquidate their indebtedness.

"Mr. Jeffrey's proposition is as follows: "We will arrange a special excursion train for the tour known as "Around the Circle" via the Rio Grande Southern, including a side trip from Durango to Silverton and also by stage from Ouray to Ironton over the famous toll road. This trip covers more than 1,000 miles of the finest scenic area of the Rocky mountains and is acknowledged by renowned travelers to embrace more grand, varied and magnificent scenery than any other trip of the same extent in the known world.

"It is proposed that our company will furnish sleeping car accommodations, as well as signing one berth to each person. This will insure against the overcrowding of cars. We will convert any of our best coaches into a dining car and another one into a kitchen car, provide competent cooks and waiters and guarantee first-class meals. We will arrange that the train shall stop at sidings during meals and lay over night at convenient stations, so that no hotel expenses will be incurred, and there will be no night travel whatever. The train will also be stopped at all points of scenic interest.

"For this service, which, as you understand, includes all expenses, viz: railroad and sleeping car transportation, meals and stage fare, we propose to charge a rate of \$40 per passenger. This trip cannot be made in any other manner for so small a sum, and certainly in no manner so pleasantly as by this arrangement of running only in the day time, which enables the party to see all the scenic attractions in broad daylight.

"If a party of 100 or more can be guaranteed, then we will run the train as proposed and contribute to the Young Men's Christian association a percentage of the proceeds, which in all probability would not be less than \$3,000.

"With the extraordinary attractions offered by this trip and the economical and delightful manner in which it is proposed to make it, coupled with the standing and influence of your association in the community, I believe that the necessary number can be easily obtained for such an excursion. I will guarantee that there is not 10 per cent. of the people of Denver who have made this tour and know from an individual knowledge of its grandeur.

"We would be pleased to have the earliest possible information as to whether the proposition is accepted; and if so, advised by return of mail.

Tuesday evening the golden wedding anniversary of two aged and highly respected residents of this city, Mr. and Mrs. P. Rohman, the parents of Mrs. W. C. Stark, was fittingly celebrated at the home of Mr. Stark, 230 South Tejon street. There was a number of the relatives and friends present and many exceedingly handsome gifts were in evidence. Mr. Barnett was in front of his hotel yesterday morning working with the street force of Supervisor Dunnington. The popular boniface worked as hard as any of them, raking and shoveling like a good fellow. Mr. Barnett may tell awful fish stories but he is not too proud to stoop to labor when it is necessary. There was an unsympathetic crowd of witnesses present. A few of the star boarders of "fishers" as they call each other, joined the ex-slenderman and enjoyed themselves only as this happy Hyle chique can. Mr. Vorheis is the ring-leader, and he makes life miserable for all the attaches of the hotel excepting Miss Murphy, who is absolutely the queen of domain.

Cash and One Price. C. A. HIBBARD & CO. 19 South Tejon Street.

The True State of Affairs in the Bicycle Business.

We notice some of the small concerns making \$100 wheels claim they started the drop in prices. The real cause of the drop in prices is because the Rambler has been selling at \$80 throughout '97. The manufacturers of the Rambler have sold all the machines they could make, while nearly all makers of \$100 machines have a large stock of wheels on hand. R. P. Gormally of the G. & J. Manufacturing company, while stopping at the Antlers last spring, said nearly all \$100 wheels would be selling for \$75 before the end of the season, and he knew what he was talking about. There is no getting around the fact that while the Rambler is selling the world over at \$80, a great many high grade wheels will go begging at \$100. Most of the makers of \$100 machines have tried to keep the price up but it was useless. They could see by this time how they would wind up at the end of the season. The Rambler manufacturers wound up the season of '96 with 5,000 wheels on hand. When they put the price of their '97 wheels at \$80 and '98's at \$80, the 5,000 wheels did not last 60 days. This shows the real worth of the Rambler bicycle. There is no getting around the fact that the Rambler people set the proper price for high grade machines for 1897; there is no getting around the fact that the Rambler is as good a machine as made; no getting around the fact that the Rambler has the most satisfactory tire known. Wherever you see a Rambler rider you see a rider suited with his wheels and his tire. Investigate and you will find the above to be facts. Respectfully yours, Carruthers & Stratton, Agents for the Rambler Bicycles.
