SLOSSON'S SUPERIOR SKILL. IT WINS AGAINST THE "WIZARD'S" WAND. The Old Rivals at Billiards Cross Coes to an Immense Chicago Audience—Fine Features of the Fun.

SPECIAL TO THE NEWS. CHICAGO, Nov. 18.—The preliminary play of the great billiard experts closed last Saturday night with vastly better work than any of them have yet been able to show in the games played in the great world's championship series.

AS INDICATIVE OF THE GREAT INTEREST felt by the public, it is noted that season tickets for the six nights, before the tournament opened, had been sold to the number of 250, by far the most successful sale ever known.

VIGNAUX'S SIGNAL VICTORY last night over the American "wizard," as Schaefer is familiarly known, put him forward in the minds of the betting fraternity as most likely to win the championship.

THE THIRD GAME OF THE TOURNAMENT, the first between the old rivals, Jacob Schaefer and George Slosson, brought out the largest audience assembled in Central Music Hall.

SCHAEFER WON THE BANK AND REPEATED his mis of the previous night, falling by a hair-breadth in his happy-go-lucky style.

SLOSSON LOOKED LIKE AND HAD THE AIR of a sure winner, although in the seventh inning, after the "wizard," by a series of open table shots, got the balls together with 15 to his credit.

SCHAEFER MADE HIS BIG RUN in the tenth inning, and during the clicking of the spheres, which closed with eighty.

THE BLONDE MUSTACHE OF SLOSSON suffered during his nervous tread around the table watching the play.

FOR THE NEXT FOUR INNINGS both men played in a nervous, unattractive manner. The well known, hopeless look of "I-can't-get-there" settled on the "wizard's" face when Slosson added a turn of 62 and 64 to lead in the fifteenth and sixteenth innings.

IN THE NINETEENTH INNING the hopes of the friends of the "wizard" revived, when he succeeded in getting the balls in hand and passed the 50 notch with 10 strokes.

SLOSSON CONTINUED HIS STEADY WORK, making double figures in nearly all the remaining innings, with the "wizard" playing a nifty second to him, but Jacob was unable to get the balls to roll for him, and Slosson in consequence maintained his safe lead until in the thirty-third inning Schaefer got the balls together and did not let go until 75 was added to his string.

THE FOLLOWING IS THE SCORE BY INNINGS: Slosson—12 0 40 41 30 17 37 57 38 10 0 62 24 0 14 20 2 10 0 34 33 7 4 3 8 0 3 6; total 690. Schaefer—0 0 1 10 42 15 18 20 15 0 0 12 19 3 7 85 21 0 1 1 4 3 0 0 1 18 73; total 501. Averages—Slosson 18 6 33; Schaefer 15 6 33. Time of game—Two hours and forty-seven minutes.

SPORTING NOTES. RACES AT HOUSTON. Special To The News.

has dealt with a system of organic impotency, and has been obliged to mention Gov. Ireland from his official position and his representation of the system, which he endeavors to expound as he understands it.

It is of course the duty of all who have information of such infractions to assist in bringing any offenders to justice, but mingled with this in disproportionately larger amount there appear two elements—the deprivation of service temporarily by the strike or withdrawal of personal service, and the consequent failure of the transportation companies to deliver freight, and a possibly short cessation of effort on the part of the transportation companies, which is a civil matter.

Perhaps Galveston people did not move to invoke local powers as quickly as they could have done. The Governor did quite right in the Houston affair. His short special to the Sheriff there was an earnest indication such as THE NEWS would have liked to see in some part instances, no matter if it looked extra official.

THE NEWS has always held that the Governor's part in seeing that the laws are faithfully executed includes such discretionary executive touches all around as may wholesomely admonish Sheriffs and others, and the time has been when the indication of the Governor's attitude—a subtle distinction of tone and manner—the location of the State police force, a little talk by the Adjutant General out west, would have a considerable effect upon persons, including local officials, who were possibly wavering in their determination to do their duty, or encouragement to citizens who had cause to complain and would complain if they could be protected.

THE WORTHY AND WEARILY WAITING SUBORDINATE. Suggestions come from the State capital and elsewhere that the State offices should be given to competent subordinates qualified to succeed their principals.

They are residents of the capital, and yet are unknown in the party conventions. They have served under succeeding administrations and retained the confidence of rival chiefs who have turned each other down.

They are "weary of sowing for others to reap." How weary is the subordinate in the Treasury Department, condemned every two years to welcome Uncle Frank back to the coveted chief place which he seems to have pre-empted for all time?

LESS LABOR, MORE LEISURE

THE WATCHWORD OF THE WORKINGMEN.

An Organized Effort to Secure a General Adoption of the Eight Hour Law After May 1 Next.

Special to The News. NEW YORK, Nov. 18.—The labor question continues to grow. Instead of diminishing, less labor and more leisure appears to be the desire among organized bodies of the sons of toil, and the matter is being presented to the public in a manner that the laborers think can not but command popular favor.

The following expressions are given as coming from workmen, and as near as possible in their own language: Every trades union in this city has signified to the Central Labor Union its intention to join in a general demand upon employers that after May 1 next eight hours shall be a day's work.

"It is agreed by nearly every person who has given the subject a thought," said a prominent labor agitator, "that there are more workmen than are needed to do the work in this country, and workmen in no industry are sure of employment from one day to another."

Special to The News. CHICAGO, Nov. 18.—In all parts of the city evening mass meetings of labor organizations are held for the purpose of agitating the eight-hour labor movement.

Special to The News. CHICAGO, Nov. 18.—The report recently circulated by a number of Texas papers to the effect that Henry A. Wiley, son of Dr. T. W. Wiley, had been dismissed from the United States Naval Academy at Annapolis for "hazing" does injustice to the young man.

A Few Thoughts on the Recent Strike. HUNGERFORD, Wharton County, Nov. 15.—There is some curiosity felt in the country to know whether the persons who violated the laws in the recent boycott, as set forth in The News, are to be made to suffer the legal penalties for their offenses.

coffee or salt was permitted to be forwarded to us. Not a bale of cotton or sack of cotton seed could be sent to market.

Well, well, let us pray that the decline of your city, which Judge Harris says "everybody can see," may be stopped, and that in the future the laws may be better enforced, and your people be more wise and do better.

APPELLATE COURTS. [Information concerning the Appellate Courts will be furnished on application to THE NEWS court reporter, lock box 1450, Tyler, Texas.]

SUPREME COURT. Houston and Texas Central Railroad vs. Jerry O'Hara, from Navarro County. Station J.—Where the negligence of a railroad, by which injury is occasioned to an employee, consists in the use of a defective engine, and the connection in which it is used, it is not error to instruct the jury that, as a railroad company has no means of acting except through its agents, the act or negligence of an agent or officer of the company is, in law, the act or negligence of the company itself.

proportioned to the degree of hazard or danger which might reasonably be anticipated as consequent upon its negligence. It was not error to charge that: "It is the duty of the company to furnish, maintain and keep in good repair, engine, and other machinery and equipment reasonably suitable and safe for the transaction of its business."

Garity & Huey vs. Thompson & Omm, from Navarro County. Willis C. J.—A mortgagee of possession cannot assert his claim to property levied on by attachment or execution, in the manner prescribed by statute. A claimant, by his affidavit and affidavit of assets, acquires title to the property, and is estopped from attempting to hold it under a mere lien.

Special to The News. CHICAGO, Nov. 18.—In all parts of the city evening mass meetings of labor organizations are held for the purpose of agitating the eight-hour labor movement. The idea is to keep the matter before the public and get it to realize the benefits it will be both to employer and employe.

East Line and Red River Railroad Company vs. J. D. Hall, from Camp County. Robertson J.—Where the petition avers that the named plaintiff sues for the cause of action, in which the former had transferred the cause of action sued on, it is not necessary, by averment or proof, to show how such other party acquired its interest in the cause of action.
