TILDEN'S LETTER.

Tilden has submitted his message to Congress in the form of a letter to Mr. Carlisle. Of course no one will inquire what Tilden. There is but one Tilden as there was but one Socrates, one Plato, one Caesar, one Napoleon, one Washington, one Shakespeare, one Jefferson. Anything purporting to come from Tilden is sure to receive respectful attention from the American people, and his suggestions to Mr. Carlisle can hardly fail to direct attention to the shamefully exposed condition of the maritime cities of the United States. Tilden is now in the sore and yellow leaf. He is past 70 years of age, and though his physical condition is feeble, it is evident that his mental powers are still unimpaired. It has been the traditional misfortune of great men that they commenced to decay at the top first, in other words, that the brain surrendered to nature before the body. This is not the case with Tilden. His intellect is seemingly as bright as ever, his reasoning powers as active, his observation as penetrating and his powers of expression as fair. This is something to be thankful for. The letter referred to relates to the protection of this country's immense stretch of seacoast. Under existing circumstances, if we assume an aspect of defiance or menace toward any respectable foreign power, it must be in the way of bluff only, for we are in no position to defend ourselves in case of war. As the philosophical occupant of Greystone points out, nearly all the great cities of the country are absolutely at the mercy of a hostile navy. Of course provision should be made to remedy this grievous neglect, and it was alike proper and considerate that Tilden should write to the Speaker of the House on the subject. The writer has ceased to be a partisan and looks over affairs from the lofty standpoint of a great intellect, with nothing to cloud and only patriotism to fire it. His letter is in the nature of a message to the country, and no doubt it will be treated as such by Congress.

Arrest of a Badly Wanted Negro. Bill Thompson, a colored captain, who started out with a charge of adultery on his trail and has since jumped three bonds and outrun several packs of dogs and squads of officers was captured at 1 o'clock this morning by Deputy Sheriff Jacoby, with the assistance of Officers White and Torbert. Last night as Mr. Jacoby was going home he overheard the familiar voice of Thompson in argument with a crowd of negroes and asked if Thompson was not there. At this Thompson ran like a scared wolf, with a crowd of negroes in pursuit and shooting at him. Thompson however, proved too swift of foot and soon disappeared. Mr. Jacoby, later in the night, accompanied by Officers Torbert and White, trailed him to a small shanty in the rear of the Red Light saloon. They found him in bed, and he opened his eyes to discover three silver silver-mounted six shooters pointed at his head. Seeing that the officers had three drops on him he surrendered and was walked off to jail.

GENTLEMEN OF THE GAVEL.

SHERMAN AND CARLISLE SELECTED In Caucus to Preside Over the Senate and House Respectively—Presidency Bills to be Pressed—Tariff and Other Topics.

Special to The News. WASHINGTON, Dec. 5.—The Democratic Senators in caucus to-day unanimously agreed to present the name of Senator Isham G. Harris, of Tennessee, as the nominee of the minority for President pro tempore. The Republican Senators in caucus have just agreed to nominate Senator John Sherman, of Ohio, for President pro tempore. The Republican caucus agreed to press to passage early in the session a presidential succession bill, and also an electoral count bill. LATER AND FULLER DETAILS. The Democratic caucus which was called to order at noon adjourned about thirty minutes later, having unanimously agreed to present the name of Senator Isham G. Harris, of Tennessee, for President pro tempore. The Senator expressed himself as very gratified by the expression of confidence exhibited by his brother Senators and accepted the honor bestowed upon him. The Republican Senators assembled in caucus at 1 o'clock. At 1:30 Senator Edmunds came from the caucus room, and as he entered the elevator, said: "Upon the assembling of the caucus of Republican Senators a motion was made that the caucus proceed to ballot for President of the Senate. Upon a ballot being taken Mr. Sherman received all the votes and upon the motion of Mr. Edmunds the nomination was made unanimous. SHERMAN'S SPEECH. Mr. Sherman acknowledged the honor in the following brief speech: "Senators: I return you my hearty thanks for the high honor you propose to confer upon me. Your action, no doubt, has been influenced by the fact that I have long been a member of the Senate. Still, my duties hitherto have not given me the practical experience necessary for a good presiding officer. I can only say in accepting the position assigned me that I will do all I can, fairly and impartially, to the satisfaction of the Senate. I shall rely greatly upon your forbearance and courtesy." THE SPEAKERSHIP. The Republicans have nominated Thomas C. Reed, of Maine, as their candidate for Speaker of the House. In the Democratic caucus Carlisle was nominated for Speaker. The Democratic members of the House of Representatives met in caucus in the hall of the House at 7:30 o'clock to-night. There was a very large body of representatives and a dozen absentees. After the roll was called, on motion of Mr. Willis, of Kentucky, Mr. Carlisle was nominated for speaker by acclamation. Messrs. Randall, Willis and Hewitt were appointed a committee to notify the gentleman of his selection. MR. CARLISLE'S SPEECH. Mr. Carlisle, in accepting the nomination, said: "Mr. Chairman and gentlemen of the caucus: It is scarcely necessary for me to say how highly I appreciate the compliment you have just paid to me, or how much I thank you for it. The unanimous nomination for the office of Speaker of the House of Representatives, by so large a body of our countrymen, is an honor which I do not pretend to deserve on account of any services in the past, but which I shall earnestly endeavor to show my appreciation of by a faithful performance of the office duty in the future. The labor imposed upon the presiding officer of the House is, as you all know, very great, and the responsibility sometimes almost oppressive; but with the counsel and assistance of judicious friends I venture to indulge the hope that this labor may be so performed as to promote to some extent at least the interest of our party and the welfare of the country. Now, for the first time in a quarter of a century we find ourselves in accord with the executive department of the government, and therefore charged with responsibilities which have heretofore rested upon our opponents. Already, I think, it is demonstrated to the satisfaction of all reasonable men that the interests of the country are safe in our hands, notwithstanding the gloomy predictions made before our accession to power. In my judgment a full and complete recognition of the Democratic principle in our government is essential only to the preservation of the rights of individuals and local communities, but also to the perpetuation of the union of the States. If this is to be the people's government the people must control it, subject, of course, to the restrictions which they have seen proper to place upon their own power. As we are the immediate representatives of the people, our highest duty as legislators is to the extent as far as the powers delegated to us will enable us to accomplish this result. It will, therefore, be my highest ambition in discharging the duties of the office for which you have nominated me, to assist in securing the defeat of the majority upon all questions presented for the consideration of the House. This, in fact, is the first and paramount duty of a presiding officer. In return for your confidence in me, I promise nothing more than an earnest effort in this direction, and if I shall fail to meet your expectations in this or any other particular, I am sure you will attribute it to the proper cause. Trust, Mr. Chairman, that during the time we are associated here in the Forty-ninth Congress we may be able to diminish the expenditures of the government, lighten the burdens of the people, reform abuses in the public service, complete the restoration of confidence and fraternal feeling

BURGLARY IN RICHMOND. Sales Opened and Robbed of Their Contents.—A Stranger Suspected. Special to The News. RICHMOND, Dec. 5.—Night before last the County Clerk's office in this place was burglarized to the extent of about \$65, the private funds of Mr. Dickinson, the clerk. The safe was left unfastened. The lock of the inside door was out of fix, and the outside door has not been locked for months. This morning when Mr. Dickinson went to the office he found the papers scattered in the wildest confusion over the floor. Until they are assorted and put in place he cannot tell whether any are missing or not. There was a quantity of county scrip in the safe but is not known whether any was taken or not. The safe at the depot of the Southern Pacific Railroad was also burglarized of about \$175, about \$125 of which belonged to the express company and the balance to the railroad company. The burglar, who is believed to have had one door missing for sometime and the iron cash drawer was all that resisted the burglar, but with a cold chisel this obstruction was easily removed. During the day a suspicious character was about town. He got several bills changed in town, no doubt watching to see where the money came from. Sheriff Gardner, Deputy United States Marshal and Old Nation were watching his operations during the day, but it appears did not keep up the watch long enough. Now that the money is gone the sales will be speedily repaired, no doubt.

ITEMS OF THE LAREDO. Holding Court at Carrizo.—Urging Congressman Crain for a Committee Place. Special to The News. LAREDO, Dec. 5.—The Zapata County District Court met last Monday at Carrizo, and in the absence of Judge Russell and District Attorney McNeil Turner, the attending law,yers elected Col. Charles McLane, of Laredo, special Judge and D. W. Nicholson, Rio Grande City, was appointed District Attorney pro tem. Over twenty indictments were found, and two convicts on had for horse stealing. The proceedings of the court were conducted entirely in Spanish, as none of the jurors could speak or understand English. Judge McLane, on the last day of the court, was so unfortunate as to sprain his ankle as to prevent his return to Laredo. The City Council at its regular session yesterday authorized the Mayor to rent to the highest bidder the ferry privileges of the city when the present lease expires, on the 1st of January, at a price not less than \$5000. A dispatch was sent to Speaker Carlisle at Washington to-day from Laredo, and signed by a number of leading citizens, requesting that Representative Crain, from this district, be placed on the committee on horse stealing. The appearance of agents of the Mexican Government in Texas buying up cavalry horses for use in this country creates the impression that the military arm of the government is going to be placed in a better condition than at present.

SAN ANTONIO. Mr. Thornton's Ranch Destroyed by Fire.—The City Sued. Special to The News. SAN ANTONIO, Dec. 5.—News was received this morning by Mr. James Thornton, of the Traders' Bank, that his ranch at Eight-mile Hill, on the Boerne road, had been destroyed by fire. Several hundred tons of hay were burned, but the damage at present cannot be estimated. Gabrino Candereolo, an Italian, fell from a wagon this morning and broke his leg. The Federal Court has adjourned for the term. The next term of the District Court commences on Monday. A bill has been filed by the San Antonio Electric Light Company against the city for payment due for lighting the plazas last spring.

EL PASO. The Rate Meeting Adjourned.—Freight Rates Established. EL PASO, Dec. 5.—The freight agents adjourned to-day, after being in session several days and nights. The meeting results in a reduction in rates to El Paso from 50 cents on the 100 pounds on first class freight to 30 cents on the lowest class, but rates on the Mexican Central were untouched. The agents of that country will continue to enjoy an advantage over El Paso. The meeting effected another change which will facilitate trade with Mexico. Hereafter American merchants will be able to secure through quotations to points in Mexico. Heretofore all goods had to be billed to El Paso and the local rates demanded by the Mexican Central had to be paid and serious delays occasioned before they could be forwarded.

THE PRESIDENTIAL SUCCESSION. The House presidential succession bill, which the Republican Senators in caucus to-day determined to push to a passage, provides that in case of a vacancy in the offices of President and Vice President, from any cause, the Cabinet officers shall succeed to the Presidency in the following order: Secretary of State, Secretary of the Treasury, Secretary of War, Attorney General, Secretary of the Navy, Secretary of the Interior. These officers shall hold the position until the disability of the President or Vice President is removed or the successor is elected.

MR. HEWITT ON SILVER. Representative Hewitt is reported in the Star, this evening, as saying that the financial outlook for the country is deplorable unless some prompt action is taken on the silver question. He proposes, as soon as Congress meets, to introduce a bill to provide a uniform standard of value, which provides that gold and silver coins of legal tender value shall be interchangeable at the legal value and leaves it to the discretion of the Secretary of the Treasury to continue or limit the coinage of standard silver dollars.

A NARROW ESCAPE. Ex-Congressman Dorsheimer, of New York, to-day narrowly escaped from serious injury by the horses attached to his carriage running away. APPOINTMENTS BY THE PRESIDENT. WASHINGTON, Dec. 5.—The President to-day appointed the following named postmasters: B. Coker, Marion, Texas. James I. Eichelard, Nelsonville, Ohio. Geo. L. Giddings, Wichita Falls, Texas. James Kennedy, Owensboro, Ky. Andrew J. Ward, Beaumont, Texas. C. S. Brady, Newark, Ohio. D. C. West, Perry, Iowa. William Groome, Vicksburg, Miss. H. Fulmer, Muncy, Penn. W. T. Hervey, Carlisle, Ills. Mr. R. Edieto, Rockville, Pa. John Swann, Allegheny, Pa. A. W. Copeland, Detroit, Mich.

ALLEGED DISCOVERY OF A BIG DEFICIENCY AS BETWEEN INCOME AND OUTGO. NEW YORK, Dec. 5.—The Commercial Advertiser's (Ind. Rep.) Washington special says: The startling discovery is made that the treasury estimates for the expenses of the government for the year 1886-7, upon which the appropriations passed, this session will be based, are about \$250,000,000 in excess of the estimates for receipts during the same period. The total of the expenses sum up \$340,000,000, while the receipts are \$335,000,000. This changes the whole aspect of affairs and will have a serious effect upon all propositions to reduce the tariff or internal revenue and upon all plans for the building up of the navy, construction of fortifications and other things involving large expenditure of money. All appropriations will have to be cut as low as possible and the most rigid economy enforced to prevent there being a serious deficiency at the end of the year.

THE RATE MEETING ADJOURNED.—FREIGHT RATES ESTABLISHED. EL PASO, Dec. 5.—The freight agents adjourned to-day, after being in session several days and nights. The meeting results in a reduction in rates to El Paso from 50 cents on the 100 pounds on first class freight to 30 cents on the lowest class, but rates on the Mexican Central were untouched. SPECIAL LETTER BY CABLE. A CLOSE COUNT IN ENGLISH ELECTIONS.

The Parnellites Probably Hold the Balance of Power—Bulgaria on a Still Hunt Against Servia—General Foreign News.

LONDON, Dec. 5. p. m.—Returns up to this hour show 5,373 Liberals, 243 Conservatives and 62 Nationalists have been elected to Parliament.

Returns up to a late hour to-night from the constituencies thus far polled shows that 313 Liberals, 248 Conservatives and 70 Nationalists have been returned. The constituencies yet to be polled are 22 in all, as follows: One in England, 4 in Scotland and 17 in Ireland.

The returns from Wickburgh, Scotland, show that W. D. Cameron, Radical, has been returned from that place by a vote of 513 against 88 for John Pender, the Liberal candidate.

Mr. John O'Connor, the present Lord Mayor of Dublin, the Nationalist candidate for Parliament for the Southern division of Kerry, has been returned from that district, receiving 274 votes. His opponent, Mr. O'Connell, Liberal, received only 128 votes.

For the southern district of Kilkenny, Mr. Clancey (Nationalist) is elected. The vote stood 488 for Clancey against 222 for Raymond de la Poer (Loyalist).

Mr. Arthur O'Connor (Nationalist) is returned for the County of Queen's County, the seat of the late Mr. Colbeck (Loyalist). The vote was: O'Connor 369, Colbeck 223.

Inventories, Ireland, has re-elected C. F. Mackintosh, the Conservative candidate, and Mr. Reginald MacLeod, the Liberal and Conservative candidates respectively.

A RIBBABLE MESSAGE. The elections are still the center of attraction. Hardly anything else is discussed. The interest in the result has been greatly intensified by the tip-and-tuck race now going on between both the great parties.

The Liberals in the counties during the week just closed has not only surprised the Tory leaders, but completely nonplussed them. In marked contrast with the excitement which characterized their expressions and the sanguine nature of the prediction of the preceding week, they appear dejected and crestfallen, and have apparently given up all hope.

The Radicals, it is asserted, want the Liberals to assume power again if the result of the present elections give them a majority of twenty over the combined vote of the Tories and Nationalists, in case of a coalition between the last named parties.

The case of the State of Texas vs. George T. Hartwell, charged with the murder of Pat O'Haron, has been in progress all day and until 11 o'clock to-night. The argument was commenced about 10 o'clock. Attorney Campbell opened for the State and made a splendid talk. He was followed by Attorneys Maxey, Russell and Turner for the defense.

About 11 o'clock to-night a stabbing affray occurred near the Q. T. Saloon, on North Travis street, between Julius Scherck and John Webb, two cotton buyers.

The result of the election is now declared that there is but little probability of the Irish leader attending the National Convention of the Land League of the United States, to be held in Chicago next year.

Lord Hartington, to-day, addressing a meeting at Marlborough, asserted that the attitude of the Tories on the Irish question was virtually tantamount to accepting Parnell's help on the Irish leader's terms.

Lord Hartington, to-day, addressing a meeting at Marlborough, asserted that the attitude of the Tories on the Irish question was virtually tantamount to accepting Parnell's help on the Irish leader's terms.

great damage along the coast. Several vessels have been wrecked, but it is believed their crews succeeded in making shore. The railroad at Aspinwall was damaged, and no trains left there today. Telegraphic communication overland is also interrupted by the storm, the real extent and seriousness of which cannot be known until to-morrow. From the location of shipping at Colon it is feared that many lives have been lost in the storm.

SERVIA AND BULGARIA.

VIENNA, Dec. 5.—It is currently reported here that notwithstanding the pending peace negotiations Prince Alexander is moving his forces to advantageous positions in order to be ready in the event of a resumption of hostilities, to maintain the successes already achieved by the Bulgarians. The proposal of Servia that Bulgaria agrees to the cession of Widin as a condition upon which further negotiations will be carried on has been referred to the powers by Prince Alexander. Meetings held throughout Eastern Roumelia have decided to expel the Turkish emissaries now at the capital of that province and reject all overtures seeking to dissolve the union with Bulgaria.

KINGSTON, Ontario, Dec. 5.—The commutation of the death sentence of the murderer John Eastley, of Welland, to imprisonment for life, coming so soon after the execution of Riel, has increased the feeling against the government among the French population. They comment very severely upon the reluctance with which the crazy patriot was dealt with as compared with the leniency shown toward a brute who murdered his own brother and his sister-in-law.

SHERMAN. Jailed for Arson—Social Event—Personal Mention—Other Local.

SHERMAN, Dec. 5.—The first entertainment of the season by the Bryant chapter of the Sherman Female Institute was given last evening and was largely attended.

Several Shermanites were in the wreck near Gordon, on the line of the Texas and Pacific, yesterday. As far as heard from, none of them were injured.

Clabe Cowan, a colored barber, was to-day placed in jail on a charge of arson sworn out by Mattie Douglass. It seems that Clabe in company with one or two darkies went to Mattie's house last night and acted in a very boisterous manner. Clabe got insulted at some thing and proceeded to demolish things. Not satisfied with this he proceeded to build a bonfire in the middle of the room.

GAINESVILLE. GAINESVILLE, Dec. 5.—The city duds still scratch their heads over the perplexing question: "Shall the city buy the waterworks or not?" The Waterworks Company's plant cost them about \$65,000, all told, and they still hold firmly to their proposition to close out to the city for \$150,000.

TOM VARNELL'S TRIAL. A Long Habeas Corpus Hearing Anticipated. Other Hillsboro News. Special to The News. HILLSBORO, Dec. 5.—The habeas corpus investigation in the case of the State of Texas vs. Tom P. Varnell, who is charged with the murder of Jonas C. Land, is now in progress at the courthouse, with Judge M. H. presiding. The State is represented by Hon. M. M. Crane, of Cleburne, and Col. V. H. Ivy, County Attorney. The defendant is represented by Col. J. M. Anderson and Maj. C. M. Pearce, of Waco, and Capt. S. C. Upshaw and Tom Ivy, Esq., of this place. The probabilities are that the investigation will have to be adjourned for a time before it is completed, on account of the absence of material witnesses for the State. The investigation was begun with the understanding that the evidence of all witnesses present shall be taken and an adjournment then had until absent witnesses can be procured. About twenty-five witnesses are here in attendance upon the investigation, most of whom are from the vicinity of Hubbard City, near where the killing took place.

TYLER. Assault With a Track Gauge—Chilton for the Senate. Special to The News. TYLER, Dec. 5.—To-day at 1 o'clock Jack Frost, a foreman on section 14, Texas and St. Louis Railway, assaulted David Chilton, a section hand, with a track gauge, striking him on the head and knocking him down and beating him severely. The provocation seems to have consisted in Chilton's failure to throw dirt upon the roadbed just as he had been directed by the foreman. A prosecution for an aggravated assault is pending against Frost. The sentiment favoring the Hon. Horace Chilton as Senator Maxey's successor in 1887, which has prevailed here for some time, has assumed a substantial shape and great proportions. The enthusiasm for Mr. Chilton's nomination is not confined to the ranks of his legion of personal friends.

WATERBURY SUCCESS!

On the 13th of November, 1885, we introduced for the first time our Great Presentation of Waterbury Watches, and the amount of watches, and chains presented to our generous friends and patrons, giving as it does, an intelligent idea of the immense volume of our Clothing Trade, is indeed something marvelous.

We will continue this liberal mode of presenting to every CASH PURCHASER OF \$15 AND OVER one of these fine watches, not to make any money out of our customers, but to enable all between now and the holidays to obtain this valuable present and to extend our already far-reaching fame and trade throughout this broad State. Again, we pledge our word and well-earned reputation for fair and honorable dealing with the masses, that under no circumstances will any employe in our house be permitted to charge more than the marked low price of our Clothing, Hats and Furnishing Goods. And again, we assert that our mode of business is original, just and equitable with all, rich and poor; and again, we give our guarantee that no Clothing House in Texas can undersell us. Our large capital and other immense resources, with a store house, averaging nearly three hundred square feet, filled with bargains, is in itself a strong inducement for purchasers to visit our store before purchasing elsewhere. Chief among many holiday attractions is our stock of Men's, Boys' and Children's Hats, Silk Handkerchiefs and Mufflers, Gloves, Suspenders, Fine Underwear and 1000 styles of Silk Ties and Scarfs, well adapted for Christmas and New Year presents for those who wish to expend moderate sums. We are closing out about 500 ELEGANT OVERCOATS at cost to wind up our heavy weight goods before January, and have placed upon our counters 1000 Men's, Youths' and Boys' Suits at a reduction of 20 per cent to make every one in need of men's and boys' wear a happy, well-dressed being for the coming holidays.

RAILROAD RUMBLER'S REVIEW

THE FRESH TRAIL OF THE IRON HORSE.

Facts, Figures and Fancies Gleaned, Originated and Wired Specially for this Department of the News

"For the present the Northwestern branch of the Gulf, Colorado and Santa Fe will be extended no further than Coleman City," were the words of a gentleman yesterday, who is in the confidence of many of the directors of that road.

"It may be pushed on by easy stages during the next six months as far as the east bank of the Colorado River, but you may rest assured it will go no further westward or northward for fully two years, perhaps for five years to come.

"Abilene, Colorado City and Merkel for the present may spare their excitement over being made the probable junction point of the Santa Fe with the Texas and Pacific. Much a consummation is too far ahead to be seriously thought of.

"The only object the Santa Fe can have just now in making extensions westward is to secure the important land grants which it will acquire under the original charter if the requisite number of miles are constructed within a given time. The product of the country through which its northwestern extension will pass will not be paid for until the end of rolling stock one month out of the twelve.

"It is not clear that the Gulf, Colorado and Santa Fe will extend its main line from Fort Worth to a junction with the other Santa Fe or with the Frisco.

"It may be extended to flank the Houston and Texas Central, now reaching out with its northwest branch as far as Albany, and get into the rich coal deposit of the northwestern tier of counties; or it may build from the Cleburne branch, striking out from Dallas toward the northeast, touching Paris, and thence reaching out toward the northeast, and the entire Queen and Crescent System is ready to receive it with open arms, or pushing northward to Jonesboro, and then to Memphis and Kansas City Road will give it the opportunity of distributing its freights from New York among all the leading centers of the West, Northwest and the Mississippi Valley."

SOUTHERN PASSENGER AGENTS.

The Southern General Passenger Agents' Association at Atlanta last Wednesday finished the work of adopting the published constitution and by-laws, and organized itself into the Southern Passenger Committee. Mercer Slaughter, general passenger agent of the Richmond and Danville Road, was elected commissioner. An executive committee was appointed, consisting of C. F. Atmore, general passenger agent of the Louisville and Nashville Road; B. W. Wren, general passenger agent of the East Tennessee, Virginia, Georgia, Florida and Alabama Railroad; J. S. Hamilton, general passenger agent of the Central Road. The penalties provided for deviation from the rules were adopted until Dec. 15. Commissioner Slaughter left Wednesday night for New York. He will return here on the 10th and appoint his assistants.

FIXING AN ARKANSAS RATE SHEET.

A meeting of the representatives of the different railroads is being held in Little Rock to agree upon an Arkansas rate sheet, covering freight charges. The following representatives were present: B. W. Labeaume, Texas and St. Louis Railroad; J. S. Hamilton, Louisville, New Orleans and Texas; W. G. Hamilton, St. Louis, Iron Mountain and Southern; P. F. Gault, St. Louis and San Francisco Railroad; E. F. Winchel, Kansas City, Fort Scott and Gulf; C. Jones, Arkansas Valley Route; and S. W. Tucker, Memphis and Little Rock. The meeting will probably be continued during the remainder of the week.

ROBERT GARRETT'S BREACHES.

The subject drifted on railroad magnates the other day, while the funking party from Dallas were being rushed leisurely over the Texas Trunk.

"Young Bob Garrett seems to be up to snuff," commenced the Rumbler, "I should judge from the winning fight the Baltimore and Ohio just made against Pennsylvania."

"Don't mention it," said a New York lawyer. "He has not a spoonful of brains, when his father had a boxcar full. The fight you talk about was made by the smart railroad men whom Bob Garrett's father placed around the boy before he died."

"Bob Garrett's 'dude,'" added an intelligent Baltimorean. "Bob's breaches have got very tight within the last couple of years."

CHANGES ON THE MEXICAN CENTRAL.

A meeting of the directors of the Mexican Central Railroad was held in Boston Tuesday. They appointed Mr. George F. Meyer, who is Chief clerk of the auditor's department of the Union Pacific Road at Omaha, auditor of the road in Mexico, to succeed Mr. F. Nichols, resigned. Auditor Goodspeed, who has been filling the office temporarily, will return to Boston immediately. No official information has been received as to what action was taken as regards the company's finances, but it is reported the directors adopted the 4 per cent scaling scheme in regard to the first mortgage bonds. There is a strong opposition to the plan because no negotiable security is given, or interest above 5 per cent, and because this balance of interest is not cumulative. Whether a majority is opposed will appear later. The adoption of the scheme renders the scrip and debentures preferred securities in a broader sense than was the case before.

RATE CUTTING IN THE WEST.

The Eastern Trunk Line agents at San Francisco are having a jolly time in a rate-cutting way since the action of the Baltimore and Ohio agent resulted in the breaking up of the association. The agents of the other lines claim that he is unable to pay more than \$5 commission, as the loss of revenue falls on the Baltimore and Ohio, Washash, Great Western and West Shore roads, each of which receives a small proportion of the through rate to New York, and is not willing that it should be cut down to any appreciable extent. First-class rates are made to New York on the basis of the rate to Chicago—\$108—with only \$2 additional for the ride between Chicago and New York. The regular rate to New York is \$120 75,

which is reduced by \$25 75. As the fixed proportion of the trunk lines has been up to yesterday only \$17, it is surmised that the Missouri River and transcontinental lines are doing their share of the cutting. Third class tickets to Chicago, less the \$2 commission, is a pretty reasonable to suppose that the line east of this city are carrying third class passengers for nothing—Chicago rates.

THE WEST SHORE ROAD.

NEW YORK, Dec. 5.—The West Shore Railway receivers, when interviewed here this afternoon, professed to know nothing confirmatory or contradictory of the statement from Syracuse that a lease of the West Shore Road to the New York Central had been signed by the officers of the West Shore Road. Counsel for the road, however, admitted having received private advices from Syracuse confirming the report.

THE DALLAS WATERWORKS.

A Matter of Interest Now Open for Public Discussion.

To the News. Dallas is rapidly growing into a great city. One of the requirements and necessities to a city's prosperity is an abundant supply of good, wholesome water for drinking, manufacturing and all other purposes. The water supply has been of deep concern to the citizens of Dallas for several years past. The Trinity River furnishes a ready supply, but it is hard for our people to think that the river water can be used for drinking and culinary purposes without resulting very seriously to the health of our population. I understand that our City Council is about contracting to lay an eighteen-inch pipe about two miles to a point on the river, putting in a pump-house, boiler, pump, suction pipe, etc., at a cost of considerably over \$100,000. When all this money is spent we only get river water. If river water is what we want, it can be had from the present pumping station now on the river. I want it distinctly understood I do not think the Council, or any member of it, would do any act knowingly which would be detrimental to the city as I have the utmost confidence in the integrity and faithfulness of each and every member of the Council and know they are doing what, in their opinion, is best for the city, but we are all sometimes mistaken as to what is best to do, and out of an abundance of precaution I would ask our Council to consider thoroughly before they vote the debt upon our young city. They can now get river water, which can be had from the nearest pumping station, with very small additional expense. I noticed in yesterday's News that the East Dallas Water Supply Company are building a reservoir which promises a flow of over 2,000,000 gallons of water during the four hours.

For several years after 1872, when the first railroad reached Dallas, most of the water for the city was obtained from the Nusbamer spring, located on Swiss avenue. It was purchased by the city for \$300,000. A great many Dallas people, as the coming water supply of Dallas, Mr. N. valued the property very highly of this account and made several overtures to the City Council. When about three years ago the City Council was investigating a water supply, it was found that the Nusbamer spring and it proved entirely inadequate. Upon reading the article in The News, I visited the place and found that the East Dallas Water Supply Company have built their pump-house and are building their reservoirs, several hundred feet north of the Nusbamer spring. Upon investigation I find that the Nusbamer spring is located upon a bluff, the surface of which is being now more than three feet above the rock surface, while the reservoirs are being built where it is twenty-eight feet to the rock. A small well has been sunk and three inches of water is being raised to the surface of the ground, and the formation is of sand and gravel all the way from that point to the rock, a distance of twenty-five feet. The reservoir is now sunk about seven feet, and the foreman in charge informs me that a pump throwing clear water most of the time, and that it can go much farther with the large pumps. He says he has superintended building reservoirs for several waterworks in the State, and the indications point to a sure flow of at least 2,000,000 gallons of water every twenty-four hours. The company contemplates building three reservoirs with capacity of 3,000,000 gallons, and standpipes with capacity of 250,000 gallons, giving a total storage capacity of 30,000 gallons. The standpipes being located on ground high enough to make a pressure of sixty-five pounds for the business portion of the city. We learn they intend making a proposition to the City Council to furnish the city with all the water the city may require. This seems to solve the long vexed water question. You do not see the water for the City Council to examine into this question of a water supply before expending the large amount contemplated by many of our business cities of the East are now securing their water supply from systems of wells which prove most satisfactory and reliable than sluggish streams.

Dr. Durlinger was called in and gave it as his opinion that the man had died of pneumonia superinduced by exposure. Lund had been acting rather queerly for a day or two and on yesterday morning called at the police station and insisted on leaving, but thereafter his appearance this morning, stating that he had been arrested and wanted to make a good bond. Later in the day he called again at the station, saying he wanted to plead guilty to the charge of carrying a pistol. Marshal Kea told him there was no charge against him and gave the \$25 back. COALS CAUGHT UP WITH.

This morning before daylight Special Watchman Collins and Night Yardmaster Fagan, of the Missouri Pacific Railway, discovered two men loading a wagon with coal at the company's coal yard. They were immediately arrested and proved to be Hugh Chisholm, a man of some means, and Mike Haas, son of the proprietor of the Western Hotel, and switchman of the road. After their arrest the parties took Collins to Chisholm's stable, where two more wagons loaded with coal were found. The men on the wagon were found. It has been known for some time that depredations had been made upon the coal yards of the different railroads in this city, and these men were kept lately, but until this morning the officers were unable to spot any one except a few petty pilferers.

FLAMES AT MARSHALL.

Four Dwellings Destroyed, With Most of Their Contents—Woods Afire.

SPECIAL TO THE NEWS. MARSHALL, Dec. 5.—A terrible fire broke out at 2 o'clock this morning in the boardinghouse of A. P. Boyd, on Bolivar street, and in less than two hours the house and three other dwellings were in ashes. The buildings were all frames and very dry, and the flames spread so rapidly that the lodgers and boarders barely escaped with their lives, losing everything except the clothes they were wearing, and some lost their hats and shoes. Those in the upper story had to jump from the windows. Mr. Kerney, an engineer, was badly burned about the head and face and was cut by glass in breaking through the window. He was taken to the Railroad Hospital. Mr. and Mrs. Boyd saved nothing of value, and were very heavy on their hands.

The residence of W. T. Arnold was burned, and also two dwellings belonging to W. A. Lane, one of which was occupied by Mr. Kent and the other by Mr. Cherry, one man an engineer and the other a conductor, both of whom were out on their run. The four houses were insured, but there was no insurance on the furniture. The loss is estimated at \$6000; insurance \$4000.

The woods were fired last night north of this place. The west-bound passenger train was forced to stop several times because of the fire, which burned on either side of the road. A material damage resulted from the woods' fire as far as reported.

Jones and Rowe arrested a negro here on a description and information from Bastrop County stating that he was an ex-convict who was sentenced from that county several years since on a charge of murder. The Sheriff of Colorado County had been on the lookout for him last year, but he escaped to this county, and at the time of his arrest was living on the Taylor Bro's place in Colorado County. He bore the name of Stiles Owens, but assumed the name of Pless Johnson. He is a mulatto, with dark grey eyes and rather heavy set, and about the age of thirty years, and a little stiff in the hips. When questioned he claimed to have come from Louisiana, but was entirely ignorant of the locality in which he had lived and could not give the name of any place in that State.

Hon. W. H. Burkhardt and Major Hamney arrived in Wharton to-day on their way to Matagorda to court.

SLOSSON SUBDUES SCHAEFER.

He Wins the Last Game, Which was Devoid of Brilliancy. SPECIAL TO THE NEWS. ST. LOUIS, Dec. 5.—Friday night's game in the billiard tournament was between Schaefer and Vignaux and was won by Schaefer, the score at the close being: Schaefer 600, Vignaux 569. Winner's average 30.

The concluding game of the fourteen-inch billiard tournament at St. Louis was played to-night between Slosson and Schaefer. The game was uninteresting. Both players seemed to be very far from right. The only really pretty playing done was by Schaefer in his twenty-ninth inning, when he got the balls on the rail, one on each side of the ball line and played for twenty-five points without moving either ball from the position. The play was roundly applauded. Slosson won by the following SCORE: Slosson—0, 1, 0, 0, 0, 0, 15, 4, 23, 43, 4, 7, 11, 0, 13, 0, 4, 28, 1, 10, 15, 0, 15, 15, 7, 24, 55, 5, 1, 16, 51, 49, 11, 34. Total 600. Average 15.30. Schaefer—0, 1, 40, 0, 2, 0, 0, 2, 28, 15, 2, 18, 1, 1, 4, 17, 15, 1, 0, 6, 9, 5, 51, 64, 78, 5, 2, 2, 0, 19, 6, 8, 11. Total 425. Average 12.157.

CHAT WITH COL. GARDNER.

Some Personal Points in the Career of a Manager.

During the matinee yesterday afternoon the horse reporter sat behind the scenes on the Opera House stage...

Mr. Gardner has recently come out of San Francisco, where he played his "Zozo" Company five weeks on the boards of the Grand Opera-house of that city and made money.

He built the first theatre in Chicago after the great fire of 1873, the Academy of Music on the West side.

"I certainly did," said the horse reporter, and I cannot remember either its acting or its construction. The plot is crude and illogical.

"There is not the slightest hint given to the audience that he is going to dream that Madame Royant stole the letter."

"Really, Miss Curtsie, you made much of a thank-you note out of the scene of the maniac who presented you only opportunity for strong acting, you came up to the burlesque with a swinging gallop and left over like a bird without touching a hoof."

"There is no doubt Miss Curtsie has seen thousands of women not so pretty as she is. Still she will never be called the 'handsomest woman in the world,' even though the assertion is backed by that distinguished dramatist, the late New York Mirror.

"A Ghastly Discovery." About 10 o'clock last night as Officers Ramsey and Sheehan were going down Commerce street their attention was attracted by a man...

"Inflamed Furies." Two negro women yesterday made the welkin ring on Commerce street, a few paces before the corporation limit. They had an old Harry bigger than a woodchuck in them, and they alternated their fury in ten-minute doses of whimping one another and their own offspring.

"An Open Letter." Mr. Brag! If you will come to China Hall and inquire of D. Goslin as to prices of goods and commodities for holiday gifts, I think even despite your name you will have to acknowledge "beat!"

"Real Estate Transfers." J. H. Whiting et al. to J. C. Huggely, lot 100 on Washington avenue, 50x121... \$170 00

"A Valuable Book." The F. H. Thomas Law Book Co. has a revised edition of Mr. Brasswell's work on local forms, in which the forms are arranged with the greatest possible brevity, while others added have increased the volume over one-half of its former size.

CHICAGO CATTLE CHANGES. MARKET UNSETTLED AND IRREGULAR. Choice Ripe Beaves in Demand—Stockers and Feeders Dull—Bad Break at the Week's Finish—Closing Quotations. Special to The News. CHICAGO, Dec. 5.—The cattle market during the past week has been rather unsettled and irregular, but with an active trade throughout. On the early days receipts were liberal, and as lower prices were reported at the seaboard, many people got an idea that the market was going all at once. Each day, however, there were urgent orders here for choice ripe beaves, and there was not a large proportion of such among arrivals. Hence superior fat cattle were very strong. But while sales of 14500 15500 stock were made at \$5 70/85, many lots nearly or quite as heavy, but lacking in ripeness or style, went at \$5 00/85. Purchasers who paid over \$5 were particularly about ripeness and smoothness, and the amount of business at fancy prices was therefore limited.

A Fire at Lancaster.

At Lancaster, Friday afternoon, a house belonging to Mr. F. M. White, in which cotton was stored, caught on fire, and, owing to the force of the weather, was burned before anything could be done to arrest the flames.

A Large Loss by Fire.

The attractive ranch of Dr. Hewett, on Grand Prairie, became the prey of fire last Tuesday night, which seems to have been communicated from the burning grass and fences heretofore reported through the columns of THE NEWS.

A Small Blaze.

At 9 a. m. yesterday an alarm of fire was sounded, caused by a slight blaze at the residence of Mr. Basco, 709 Jackson street. The fire, it seems, was communicated up the flue to the roof, and when noticed threatened the destruction of the structure.

A Horrible Accident.

A horrible accident occurred about 3 p. m. yesterday on Ervay street, the details of which, as gleaned by a News reporter, are about as follows: While Mr. W. Smith, the main support of a widowed mother, was driving a two horse team near the residence of Mr. Philip Sanger, the animals took fright at three little boys crossing the street and started off at a tremendous speed.

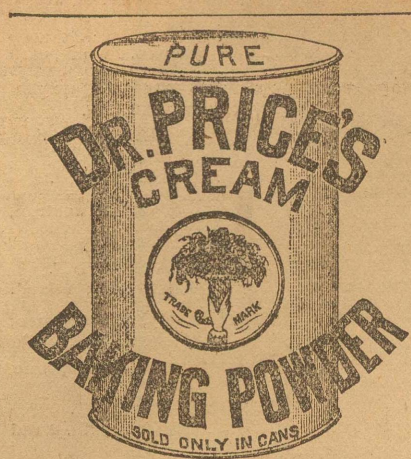

Free Thinkers Preparing to Organize.

A well known free thinker informed a News representative yesterday that "the friends of free thought" in Dallas to the number of about 200 propose effecting organization within the next thirty days as an independent order.

THE GRAIN ELEVATOR QUESTION.

More Light Thrown on the Subject by a Very Practical Citizen.

Mr. Frank M. Cookrell, proprietor of the Todd Flouring Mills, has this to say on a live subject: "Dallas is the only point in the State from which wheat can reach every point and every mill without transfer; it is the only point that reaches all the wheat belt and all the mills."

Going It With a Rush.

Three suits for divorce were filed yesterday in the District Court, and to be used while fresh they must form a portion of our Sunday reading. The first is the case of Allen Brooks vs. Kittle Brooks, whose petition sets forth that they were married in Dallas County in 1884, month not given, and separated in January, 1885.

A Dazzling Display.

You will appreciate our efforts after a careful inspection of the dazzling display of diamond goods now on exhibition at the great jewelry house of Kneply & Sons, Dallas. Never before have we shown so complete an assortment. It is unrivaled, and commands your attention, and their prices will excite your wonder.

Personal.

Dr. E. D. Andruss, who has recently come among us, in his office yesterday one of the finest dental chairs manufactured, much the finest in the city.

Suspension of the Herald.

Suspension of the Dallas Herald does not affect J. H. Webster, the high priced photographer, as THE NEWS proposes to sustain the high reputation of Mr. W. as an artist.

Where to Go and Buy.

It will soon be time when everyone will be seeking an opportunity to express their kind feelings for some one dear to them, and to evince their feelings by making a suitable present. We can simply suggest to those clever and ever mindful people that we would advise them by all means to visit Kneply & Sons' jewelry establishment, 614 Main street, and view the magnificent display of fine jewelry, diamonds and ornaments that the most discerning would consider unique and suitable.

Renaissance of Apollo Hall.

Classic old Apollo Hall threw open her canopied portals last evening and in gay bonafide greeted her hosts of friends. A full house was there with his eyes (perhaps several of them) and smiled in complacent benediction on his worshippers.

A gentleman remarked that "no such saloon hall had ever been organized in the Southwest," and verily his remark was correct. Some months since Mr. Kingdon went to Chicago, after making arrangements for the occupancy of the Hall, and with great care and judgment selected the finest furniture, paraphernalia and decorating that could be found.

A restaurant is connected with the hall. It is supplied with the best modern appointments and the determination on the part of those who give direction to its conduct to eclipse any establishment of the kind our Dallas people have ever been called upon to patronize.

Emma Abbott and Her Grand Opera Company.

Wednesday and Thursday, Dec. 16 and 17, the Abbott Opera Company plays an engagement at the Opera-house. Miss Emma Abbott has always been a favorite in this city, and has in her popularity at each visit. In view of the fact that her present company is the strongest she has ever organized, there is every reason to believe that this engagement will be one of the most enjoyable operatic seasons ever known in Dallas.
